

Act No. 83, 1902.

NEWCASTLE
SEWERAGE.

An Act to sanction the construction of sewerage works for Newcastle and suburbs ; to provide for the transfer to the Hunter District Water Supply and Sewerage Board of the said works ; to apply the provisions of the Hunter District Water Supply and Sewerage Act of 1892, and any Acts amending the same, to such works ; and for purposes consequent upon or incidental to those objects. [25th September, 1902.]

Preamble.

WHEREAS, in accordance with the provisions of the Public Works Act, 1900, the Legislative Assembly did, by resolution, declare that it was expedient to carry out a certain work, namely, the construction of sewerage works for Newcastle and suburbs, provided the sewage be discharged south of the proposed outfall at or near the Merewether Gulf, and that the municipal districts of Adamstown and Waratah be included in the scheme : And whereas on the passing of the said resolution a statutory duty was by the said Act imposed on the Secretary for Public Works to introduce a Bill into the said Assembly to sanction the carrying out of the said work : Be it therefore enacted by the King's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and Legislative Assembly of New South Wales in Parliament assembled, and by the authority of the same, as follows :—

Short title.

1. This Act may be cited as the " Newcastle Sewerage Act, 1902."

Work sanctioned.

2. The carrying out of the work, more particularly described in the Schedule in this Act, is hereby sanctioned ; and the Secretary for Public Works, or the Member of the Executive Council for the

Newcastle Sewerage.

the time being performing the duties of the said Secretary, is hereby authorised to undertake and carry out the said work, subject to the provisions of this Act, and for that purpose shall be, and shall have the powers and duties of, a Constructing Authority within the meaning of the Public Works Act, 1900, and shall, for the purposes of carrying out and completing the said work, have the powers conferred on the Minister by the Hunter District Water Supply and Sewerage Act of 1892, and any Acts amending the same, for carrying out and completing any approved scheme of sewerage for which executive authority has been given. But section forty-five of the Hunter District Water Supply and Sewerage Act Amendment Act, 1897, shall not apply in respect of the said work.

3. The plan of the said work is the plan marked "Sewerage Works for Newcastle and Suburbs," signed by the Secretary for Public Works and countersigned by the Principal Engineer for Water Supply and Sewerage, and deposited in the public office of the said Secretary. Plan of work.

4. The cost of carrying out the said work, estimated at one hundred and eighty-three thousand four hundred and forty-four pounds, may be defrayed from such loan votes as are now or may hereafter be applicable to that purpose, and shall not under any circumstances exceed the estimated cost by more than ten per centum. Costs, how to be defrayed.

5. Upon the completion of the said work the said Secretary or member of the Executive Council, shall report that fact to the Governor; and thereupon the said work shall be transferred to, and vested in, and be under the control and management of the Hunter District Water Supply and Sewerage Board, under the Hunter District Water Supply and Sewerage Act of 1892, and any Acts amending the same; and section thirty-four of the above-mentioned Act shall apply in respect of the said work. Works to be handed over to Hunter District Water and Sewerage Board.

SCHEDULE.

Sewerage and drainage works, Newcastle and suburbs, in the parish of Newcastle, county of Northumberland.

1. The construction of main outfall sewer from Melville-street, near Hopkins-street, to Merewether Gulf, a distance of about one mile three and a half chains, together with all shafts, manholes, penstock chambers, tidal flaps, ventilating shafts and pipes, and all works incidental thereto, marked in long and short broken red lines on plan.

2. The construction of Newcastle city main sewer and branch, and Merewether sub-branch, of about two miles thirty-seven and a half chains in length, together with all shafts, manholes, ventilating shafts and pipes, penstock and inlet chambers, and all works incidental thereto marked in red on plan.

3. The construction of the Newcastle city low-level sewer, and including Hamilton and Adamstown main branches, Wickham main branch and sub-branches, and Wickham Park low-level sewers, in all about eight miles five chains in length, together with pumping

Consolidated Revenue Fund (No. 2).

pumping stations, numbers one to five, shafts, manholes, ventilating shafts and pipes, flushing chambers, interception chambers, gullies, overflows, and all works incidental thereto marked in broken red lines on plan.

4. The construction of about twenty-six miles of reticulating pipe sewers, together with manholes, gullies, ventilating shafts and pipes, penstocks, intercepting and flushing chambers, and all works incidental thereto and necessary for the proper feeding of the main and branch sewers above referred to.

5. The construction of about two miles fourteen chains of cast-iron rising mains, together with the Carrington pumping stations, numbers six and seven, and all manholes, gullies, cleaning-boxes, reflux-valves, and all other works incidental thereto, and marked in blue on plan.

6. The construction of the generating and pumping plant, together with all poles, conduits, manholes, cables and wires in connection with the distributing mains, and all other works incidental thereto. The pumping stations are shown in red on plan and marked numbers one to seven.

7. The construction of about thirteen miles of sewers, and cast-iron rising mains, together with the Waratah pumping station, and all manholes, gullies, overflows, cleaning boxes, reflux valves, and all other works incidental thereto, including the treatment works necessary for effectually dealing with the sewage from Waratah.

The works above described are subject to such deviations and modifications of route, and to such alterations, omissions, or extension as may hereafter be deemed necessary: Provided always that the total cost of such works, together with the deviations referred to, shall not exceed the estimated cost, one hundred and eighty-three thousand four hundred and forty-four pounds, by more than ten per centum.
