

SYDNEY WATER
SUPPLY CONDUIT
ADDITIONAL
WORKS.

Act No. 34, 1905.

An Act to sanction the completion of the raising and re-lining of the Lower Canal, and the construction of an Aqueduct at Booth Town, Sydney Water Supply; and for other purposes. [9th December, 1905.]

Preamble.

WHIEREAS in accordance with the provisions of the Public Works Act, 1900, the Legislative Assembly did, by resolution, declare that it was expedient to carry out a certain work, namely, the completion of the raising and re-lining of the lower canal, and the construction of an aqueduct at Booth Town, Sydney Water Supply: And

Sydney Water Supply Conduit Additional Works.

And whereas, on the passing of the said resolution, a statutory duty was, by the said Act, imposed on the Secretary for Public Works to introduce a Bill into the said Legislative Assembly to sanction the carrying out of the work: Be it therefore enacted by the King's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and Legislative Assembly of New South Wales in Parliament assembled, and by the authority of the same, as follows:—

1. This Act may be cited as the "Sydney Water Supply ^{Short title, and incorporation.} Conduit Additional Works Act, 1905," and shall be construed with the Metropolitan Water and Sewerage Acts, 1880–1889, the Metropolitan Water and Sewerage Act of 1894, the Sydney Water Supply Conduit Additional Works Act, 1897, and the Sydney Water Supply (Cataract River Dam) Act, 1902.

2. The carrying out of the said work (more particularly ^{Works sanctioned.}) described in the Schedule to this Act) is hereby sanctioned, and the Secretary for Public Works, or the member of the Executive Council for the time being performing the duties of the said Secretary, is hereby authorised to undertake and carry out the said work, subject to the provision of this Act, and for that purpose shall be and shall have the powers and duties of a constructing authority within the meaning of the Public Works Act, 1900.

3. The plan of the said work is the plan marked "A," and signed ^{Plan of work.} by the Engineer-in-Chief for the Metropolitan Board of Water Supply and Sewerage, and deposited in the public office of the said secretary.

4. The cost of carrying out the said work, estimated at sixty-six ^{Cost, how defrayed.} thousand four hundred and fifty-five pounds, may be defrayed from such loan votes as are now or may hereafter be applicable to that purpose, and shall not under any circumstances exceed the estimated cost by more than ten per centum.

5. On the completion of the said work, the Governor shall ^{Vesting of work in Board.} forthwith notify the same in the Gazette. And upon that notification being made, the property in the said work shall, by virtue of this Act alone, be vested in the Board of Water Supply and Sewerage constituted under the Metropolitan Water and Sewerage Act of 1880 for and on behalf of His Majesty.

SCHEDULE.

The works consist of

- (1) Raising and re-lining with Monier plates the lower canal from Prospect to Pipe Head, to increase the discharging capacity of the said canal to eighty seven million six hundred and thirty five thousand gallons per day.
- (2) The reconstruction of the aqueduct at Booth Town.
- (3) The necessary alterations to flumes and side drainage, and the rearrangement of occupation bridges, in connection with the improvement of the canal.
- (4) The fixing of a Venturi meter for the measurement of the water discharged by the canal.
