(2) The minimum price in respect of a wholesale sale of bulk wheat of fair average quality free on rails at a port of export is the price per bushel for such a sale that corresponds with a free-on-board price equal to the guaranteed price of wheat of the season that was current at the beginning of the year in which the sale is made.

(4) Where the Board sells wheat for use in Australia in the manufacture of substances for human consumption and the manufacture will result also in the production of substances for use for purposes other than human consumption, the Board may agree to allow the purchaser a rebate not exceeding the amount by which the price charged by the Board for the wheat could have been reduced in accordance with this section if the sale of so much of the wheat as is equal in weight to the weight of the substances produced, or to the estimated weight of the substances that will be produced, from the wheat for use for purposes other than human consumption had been a sale to which subsection one of this section applied.

(5) In respect of every sale of wheat in accordance with subsection one of this section, the Board shall credit to the account referred to in subsection one of section twenty-one of this Act an amount per bushel of wheat comprised in the sale equal to the amount that is, at the time of the sale, the amount per bushel by which prices are to be increased under subsection four of section twenty of this Act for the purpose of reimbursing the Board for costs of shipment of wheat to the State of Tasmania, and section twenty-one of this Act applies in relation to amounts so credited in like manner as it applies in relation to other moneys credited to that account.
