[Assented to, 12th April, 1983.]

Broken Hill Water and Sewerage (Amendment).

BE it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and Legislative Assembly of New South Wales in Parliament assembled, and by the authority of the same, as follows:—

meaning of the Environmental Planning and Assessment Act, 1979, within a zone or reservation in which land may be used for the purposes of industry, commerce or the erection of residential flat buildings (as defined in section 304 of the Local Government Act, 1919), the ratable person in respect of the land may make application to the board for relief from payment of part of the rates levied on the land in the current rating year.

(2) If, on receipt of an application referred to in subsection (1), the board is satisfied that the land concerned is used or occupied solely as the site of a single dwelling-house, it shall require the Valuer-General, in cases where the valuation is made under the Valuation of Land Act, 1916, or the valuer appointed by the board, as the case may be, to determine the amount of the attributable part of the land value of the land and the valuer shall furnish the determination to the board.

(3) In determining pursuant to subsection (2) the amount of the attributable part, the valuer shall not take into consideration any portion of the parcel which he considers is in excess of that which is reasonably necessary to be occupied or used in conjunction with the single dwelling-house and which might, but for the fact that it forms part of the site of a single dwelling-house, be occupied or used for the purposes of industry, commerce or the erection of residential flat buildings (defined as provided in subsection (1)).

(4) Where a determination of the attributable part of the land value of a parcel of land has been made by the valuer, he shall not be required to make a further determination of that part while the valuation, in respect of which the determination was made, remains in use for rating purposes or unless the valuation is altered on objection or correction of a clerical error or misdescription.

(5) Where a valuation is altered as referred to in subsection (4), the board shall require the valuer to redetermine the amount of such attributable part and the valuer shall furnish such redetermination to the board and a due adjustment shall be made and amounts paid in excess shall be refunded and amounts short-paid shall be recoverable as arrears.

(6) The amount determined or redetermined by the valuer under subsection (2) or (5) as the attributable part of the land value shall be the attributable part for the purposes of subsection (1) while the land is used or occupied solely as the site of a single dwelling-house and the valuation in respect of which the determination or redetermination is made remains in use for rating purposes.

(7) The board shall postpone payment of such part of the rates levied in any rating year to which a determination or redetermination under subsection (2) or (5) relates as remains after calculating the amount of rates that would be payable in respect of that part of the land value of the land other than the attributable part and deducting the amount so calculated from the whole amount of the rates so levied.

(8) Where a ratable person pays the whole or part of the rates levied before the board postpones under subsection (7) the payment of part thereof, any amounts paid in excess shall be refunded.

(9) Where there is a postponement of rates under this section and the land concerned ceases to be used or occupied solely as the site of a single dwelling-house—

- (a) the ratable person shall, within 1 month of the land concerned ceasing to be so used or occupied, inform the board of the date upon which the land ceased to be so used or occupied;

- (d) all amounts of rates postponed under this section (other than those due and payable under paragraph (c)) shall be written off.
