Public Health (COVID-19 Care Services) Order (No 3) 2021

under the

Public Health Act 2010

Part 1 Preliminary

1 Name of Order

This Order is the *Public Health (COVID-19 Care Services) Order (No 3) 2021*.

2 Definitions

- (1) The Dictionary in Schedule 1 defines words used in this Order.
Note. The Act and the *Interpretation Act 1987* contain definitions and other provisions that affect the interpretation and application of this Order.
- (2) Notes included in this Order do not form part of this Order.

3 Grounds for concluding that there is a risk to public health

It is noted that the basis for concluding that a situation has arisen that is, or is likely to be, a risk to public health is as follows—

- (a) public health authorities both internationally and in Australia have been monitoring and responding to outbreaks of COVID-19, which is a condition caused by the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2),
- (b) COVID-19 is a potentially fatal condition and is highly contagious,
- (c) a number of cases of individuals with COVID-19 have been confirmed in New South Wales and other Australian jurisdictions, and there is an ongoing risk of continuing transmission of the virus in New South Wales,
- (d) residents of residential aged care facilities, persons with a disability and persons receiving aged care services, if infected with SARS-CoV-2, are more vulnerable to severe illness or death,
- (e) ensuring that employees of residential aged care facilities and other workers who come into contact with residents, persons with a disability or persons receiving aged care services, are vaccinated will reduce—
 - (i) the risk of infection, severe disease and death of the worker, and
 - (ii) the risk of transmission of infection from workers to residents, persons with a disability or persons receiving aged care services and other workers,
- (f) aged care and disability services are at risk without proportionate and appropriate mitigation strategies to protect the services.

Part 2 Vaccination of aged care and disability services workers

This Part sets out the directions of the Minister about the vaccination of aged care and disability services workers.

- (1) A health practitioner or student must not enter or remain on the premises of a residential aged care facility unless the health practitioner or student has received at least 2 doses of a COVID-19 vaccine.

- (5) This clause does not apply to a person who enters and remains on the premises to provide a health service or professional or other service to the resident, including in the role of a student, and the person is not to be counted as a visitor.
- (6) For the purposes of this clause, a visitor is *fully vaccinated* if the visitor—

- (a) has received at least 2 doses of a COVID-19 vaccine, and
- (b) has received the second dose of the COVID-19 vaccine at least 14 days ago.
