Public Health (COVID-19 Care Services) Order 2022
under the
Public Health Act 2010

Part 1 Preliminary

1 Name of Order
This Order is the Public Health (COVID-19 Care Services) Order 2022.

2 Definitions
(1) The Dictionary in Schedule 1 defines words used in this Order.
   Note— The Act and the Interpretation Act 1987 contain definitions and other provisions that affect the interpretation and application of this Order.

(2) Notes included in this Order do not form part of this Order.

3 Grounds for concluding that there is a risk to public health
It is noted that the basis for concluding that a situation has arisen that is, or is likely to be, a risk to public health is as follows—

(a) public health authorities both internationally and in Australia have been monitoring and responding to outbreaks of COVID-19, which is a condition caused by the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2),

(b) COVID-19 is a potentially fatal condition and is highly contagious,

(c) a number of cases of individuals with COVID-19 have been confirmed in New South Wales and other Australian jurisdictions, and there is an ongoing risk of continuing transmission of the virus in New South Wales,

(d) residents of residential aged care facilities, persons with a disability and persons receiving aged care services, if infected with SARS-CoV-2, are more vulnerable to severe illness or death,

(e) ensuring that employees of residential aged care facilities and other workers who come into contact with residents, persons with a disability or persons receiving aged care services, are vaccinated will reduce—
   (i) the risk of infection, severe disease and death of the worker, and
   (ii) the risk of transmission of infection from workers to residents, persons with a disability or persons receiving aged care services and other workers,

(f) aged care and disability services are at risk without proportionate and appropriate mitigation strategies to protect the services.

4 Meaning of “appropriately vaccinated”
(1) In this Order, a person is appropriately vaccinated if the person has had at least 3 doses of a COVID-19 vaccine.
(2) A person is also *appropriately vaccinated* if—
   (a) the person has had 2 doses of a COVID-19 vaccine, and
   (b) it is not after the later of the following—
       (i) 12 April 2022,
       (ii) 6 weeks after the due date for the person’s third dose of a COVID-19 vaccine.

(3) For subclause (2)(b)(ii), the *due date* for a person’s third dose of a COVID-19 vaccine is the day that is 13 weeks after the person had the second dose of a COVID-19 vaccine.
Part 2   Vaccination of aged care and disability services workers

5 Introduction
This Part sets out the directions of the Minister about the vaccination of aged care and disability services workers.

(2) The operator of the residential aged care facility may allow a maximum of 2 additional visitors for a resident under subclause (1) if each of the additional visitors is—

(3) A visitor must not enter or remain on the premises of a residential aged care facility unless the visitor is a vaccinated visitor.

(5) This clause does not apply to a person who enters and remains on the premises to provide a health service or professional or other service to the resident, including in the role of a student, and the person is not to be counted as a visitor.

of a residential aged care facility, provide the operator with the person’s vaccination  
evidence.

reasonable steps to ensure that the worker complies with clause 9.  
(4) A responsible person for a person who provides disability services must take all  
reasonable steps to ensure that the person complies with clause 10.  
(5) An in-home and community aged care worker or a person who provides disability  
services must, if required to do so by the responsible person for the worker or  
provider, provide the responsible person with the person’s vaccination evidence.

12 Exemptions for medical contraindications  
Clauses 6, 7, 8(3), 9, 10 and 11(2) do not apply to a person who—
