4 Grounds for concluding that there is a risk to public health

It is noted that the basis for concluding that a situation has arisen that is, or is likely to be, a risk to public health is as follows—

- (a) public health authorities both internationally and in Australia have been monitoring and responding to outbreaks of COVID-19, which is a condition caused by the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2),
- (b) COVID-19 is a potentially fatal condition and is highly contagious,
- (c) a number of cases of individuals with COVID-19 have been confirmed in New South Wales and other Australian jurisdictions, and there is an ongoing risk of continuing introduction or transmission of the virus in New South Wales, including by means of community transmission,
- (d) the risk of transmission, including by means of community transmission, of COVID-19 in New South Wales will be reduced if all people eligible for vaccination who work at a government school, non-government school or an early education and care facility are fully vaccinated,
- (e) there is a risk of transmission of COVID-19 among children at government schools, non-government schools and early education and care facilities because the COVID-19 vaccine is currently not available for children of certain ages and other children have not yet had an opportunity to be vaccinated.

5 Education and care workers must be vaccinated

- (1) The Minister directs that an education and care worker must not carry out relevant work unless the worker has—
 - (a) had 2 doses of a COVID-19 vaccine, or
 - (b) been issued with a medical contraindication certificate, or
 - (c) a medical contraindication recorded on the Australian Immunisation Register that prevents the person from receiving any approved COVID-19 vaccine available in New South Wales.

- (4) This clause does not apply to an education and care worker who carries out relevant work in an emergency.

6 Family day care residences must not open unless adult residents vaccinated

- (1) The Minister directs that the relevant approved provider for a family day care residence must ensure the residence is not open to provide education or care to any child unless each person who is at least 18 years of age residing at the residence (an **adult resident**) has—
 - (a) had 2 doses of a COVID-19 vaccine, or
 - (b) been issued with a medical contraindication certificate, or
 - (c) a medical contraindication recorded on the Australian Immunisation Register that prevents the person from receiving any approved COVID-19 vaccine available in New South Wales.
- (2) The Minister directs that an adult resident must provide the adult resident's vaccination evidence if requested by—
 - (a) the family day care educator working at the family day care residence, or
 - (b) the occupier of the family day care residence, or
 - (c) the relevant approved provider for the family day care residence, or
 - (d) a person authorised by a person mentioned in paragraph (a), (b) or (c).

relevant approved provider for a family day care residence means—

 - (a) for a residence provided as an approved education and care service within the meaning of the *Children (Education and Care Services) National Law (NSW)*—the approved provider for the service under that Law, or
 - (b) for a residence provided as an approved education and care service within the meaning of the *Children (Education and Care Services) Supplementary Provisions Act 2011*—the approved provider for the service under that Act.
