

1990 - No. 347

**WORKERS COMPENSATION ACT 1987 - INSURANCE  
PREMIUMS ORDER (1990-91)**

NEW SOUTH WALES

*[Published in Gazette No. 78 of 15 June 1990]*

(L.S.) D. J. MARTIN, Governor.

I, Rear Admiral Sir DAVID JAMES MARTIN, Governor of the State of New South Wales, with the advice of the Executive Council, and on the recommendation of the Workcover Authority, and in pursuance of section 168 of the Workers Compensation Act 1987, do, by this my Order, fix the manner in which the premium payable by an employer for a policy of insurance is to be calculated by requiring the premium to be calculated for a period of insurance of not more than 12 months and:

- (a) if the employer is a category A employer for the purposes of the policy, in accordance with the following formula:

$$P = (T \times (1 - S)) + (E \times S) + D + Q$$

except that where the basic tariff premium for the employer [T] does not exceed \$75,000, the experience adjusted premium for the employer  $[(T \times (1-S)) + (E \times S)]$  shall not exceed twice the amount of that basic tariff premium [2T];

- (b) if the employer is a category B employer for the purposes of the policy, in accordance with the following formula:

$$P = T + (X \times T) + D + Q$$

where:

"P" is the premium for the time being payable by the employer in respect of the period of insurance to which the policy relates, being:

(a) except as provided by paragraph (b) below, the initial premium so payable in accordance with this Order; or

(b) where adjustments are required to be made to that premium by reason of the operation of this Order, the premium so payable by reason of those adjustments;

"T" is the basic tariff premium for the employer, calculated with respect to the period of insurance in accordance with Schedule 3 to this Order;

"S" is the experience adjustment factor for the employer determined with respect to the period of insurance in accordance with Schedule 4 to this Order;

"E" is the experience premium, if any, for the employer determined with respect to the period of insurance in accordance with Schedule 5 to this Order;

"X" is the excess surcharge factor for the employer determined with respect to the period of insurance in accordance with Schedule 6 to this Order;

"D" is the dust diseases contribution, if any, for the employer;

"Q" is the premiums adjustment contribution, if any, for the employer.

Schedules 1-8 and Table A to this Order form part of this Order.

This Order commences at 4 p.m. on 30 June 1990.

This Order may be cited as the Insurance Premiums Order (1990-91).

Signed at Sydney, this 13th day of June 1990.

By His Excellency's Command,

JOHN FAHEY  
Minister for Industrial Relations and Employment.

---

## SCHEDULE 1 - INTERPRETATION

### Definitions

1. (1) In this Order:

**"basic tariff premium"**, in relation to a policy, means the basic tariff premium for the policy calculated in accordance with Schedule 3;

**"category A employer"**, in relation to a policy, means an employer whose basic tariff premium for the policy at the time at which the insurer first demands a premium for the policy would exceed \$2,000, assuming the period of insurance to which the premium relates to be 12 months (whether or not that period of insurance is in fact 12 months);

**"category B employer"** means an employer, other than a category A employer;

**"claim"** means a claim made by a worker against an employer to which a policy relates;

**"dust diseases contribution"**, in relation to an employer, means an amount equivalent to the contributions, if any, payable by an insurer in respect of the employer to the Workers' Compensation (Dust Diseases) Fund and the Dust Diseases Reserve Fund;

**"employer"** includes a person who proposes to become an employer;

**"insurer"** means a licensed insurer, or a former licensed insurer, within the meaning of the Act;

**"period of insurance"**, in relation to a policy, means a period for which an insurer assumes risk under the policy, being a period which commences on the first day on which the policy is in force after having been issued or renewed;

**"poky"** or **"policy of insurance"** means a policy of insurance within the meaning of the Act;

**"premiums adjustment contribution"**, in relation to an employer, means an amount equivalent to that part of the contributions, if any, payable by an insurer to the Premiums Adjustment Fund under section 208 of the Act as relates to the premium payable by the employer to the insurer;

**"regulations"** means regulations under the Act;

**"the Act"** means the Workers Compensation Act 1987;

**"wages"** means wages as defined in section 174 (9) of the Act.

(2) The value of any amount of money calculated or included in a calculation under this Order is to be expressed in dollars.

(3) In this Order, a reference to wages which are payable by an employer includes a reference to wages which have been paid by the employer.

### **Determination of wages**

2. In this Order, a reference to wages, in relation to a period of insurance under a policy issued or to be issued to an employer or in relation to a period of 12 months ascertained by reference to any such period of insurance, is a reference:

- (a) except as provided by paragraph (b), to a reasonable estimate of the monetary value of all wages payable to workers by the employer in respect of the period of insurance or the period of 12 months, as the case may be:
  - (i) as calculated by the insurer by reference to the returns, if any, furnished in accordance with the regulations by the employer to the insurer; or
  - (ii) where the employer does not agree with the estimate of the insurer and applies to the Workcover Authority for an estimate of that value - as determined by the Authority or
- (b) where the monetary value of those wages has been ascertained - to the actual value of those wages.

## **SCHEDULE 2 - APPLICATION**

### **Policies to which Order applies**

1. (1) This Order applies to and in respect of policies of insurance which are to be or have been issued or renewed so as to take effect on or after 4 p.m. on 30 June 1990 and before 4 p.m. on 30 June 1991.

(2) If, before 4 p.m. on 30 June 1991: an insurance premiums order has not been made in respect of policies of insurance taking effect on or after that time, this Order applies to and in respect of those policies pending the making of such an order.

### **Policies exempt from Order**

2. This Order does not apply to policies of insurance exempted by section 168 (4) (a) and (b) of the Act and by the Workers Compensation (Insurance Premiums) Regulation 1987, namely

- (a) policies issued or renewed by the Government Insurance Office in respect of central Government workers within the meaning of the Act;
- (b) policies deemed to be held by an employer under section 158 of the Act in respect of trainees; and

- (c) policies issued or renewed by specialised insurers.

### **SCHEDULE 3 - BASIC TARIFF PREMIUM**

#### **General**

**1. (1)** The basic tariff premium ("T") for an employer is to be calculated in accordance with the following formula:

$$(W_a \times R_a) + (W_b \times R_b) + \dots (W_n \times R_n)$$

where:

"W<sub>a</sub>", "W<sub>b</sub>" .... "W<sub>n</sub>" are each a part of the total wages payable to workers by the employer in respect of the period of insurance for which the premium is to be calculated, being a part of the total wages attributable to a classification appearing in Column 1 of Table A applicable to the employer;

"R<sub>a</sub>", "R<sub>b</sub>" .... "R<sub>n</sub>" are each a percentage rate specified in Column 3 of Table A which corresponds with a classification applicable to the employer, being a classification appearing in Column 1 of Table A opposite the percentage rate.

**(2)** For the purposes of subclause (1), the classifications applicable to an employer and the part of total wages payable by an employer which is attributable to any such classification shall be:

- (a) as determined by the insurer by reference to returns, if any, furnished in accordance with the regulations by the employer to the insurer, or
- (b) where the employer does not agree with the determination of the insurer and applies to the WorkCover Authority for a determination - as determined by that Authority.

#### **Exceptions**

**2.** Where a manner of calculation different from that provided by clause 1 is specific in Column 3 of Table A in relation to a classification appearing in Column 1 of that Table, so much of a basic tariff premium as is applicable to that classification is to be calculated in the manner so specified.

#### **SCHEDULE 4 - EXPERIENCE ADJUSTMENT FACTOR**

The experience adjustment factor ("S") for an employer is:

- (a) where the employer:
  - (i) has been insured under a policy or policies for the period of 2 years immediately preceding the commencement of the period of insurance for which the premium is to be calculated or has been so insured for a longer period; and
  - (ii) has, during those 2 years, supplied the insurer with particulars complying with the regulations of claims against the employer,

the factor calculated in accordance with the following formula:

$$\frac{0.9T}{T + 120000}$$

- (b) in any other case - 0,  
where:

"T" is the basic tariff premium for the employer, calculated with respect to the period of insurance in accordance with Schedule 3 to this Order.

#### **SCHEDULE 5 - EXPERIENCE PREMIUM**

##### **General**

1. (1) The experience premium ("E") for an employer is to be calculated:

- (a) (i) for the purpose of calculating the initial premium payable before the expiration of the period of insurance for which the premium is to be calculated; and
- (ii) after the period of insurance for which the premium is to be calculated has expired (being a period that is less than 12 months),

in accordance with the following formula:

$$W \times \frac{(F_{25} \times C_1) + (F \times C)}{W_1 + W_2}$$

- (b) after the period of insurance for which the premium is to be calculated has expired (being a period that is not less than 12 months), in accordance with the following formula:

$$W \times \frac{(F_{27} \times C_0) + (F_{28} \times C_1) + (F \times C)}{W_0 + W_1 + W_2}$$

where:

"W" is the total of the wages payable to workers by the employer in respect of the period of insurance;

"F<sub>25</sub>" is 3.6;

"F<sub>26</sub>" is 2.4;

"F<sub>27</sub>", "F<sub>28</sub>" and "F<sub>29</sub>" are such numbers as are determined by the Governor on the recommendation of the WorkCover Authority and notified in the Gazette;

"C<sub>1</sub>" and "C<sub>2</sub>" are respectively the totals of the cost of claims for the employer in respect of the last and second last period of 12 consecutive months which occurred before the Commencement of the period of insurance (not including the cost of any claims under section 10 of the Act - journey claims);

"C<sub>0</sub>" is the total of the cost of claims for the employer in respect of the period of insurance (not including the cost of any claims under section 10 of the Act - journey claims);

"W<sub>1</sub>" and "W<sub>2</sub>" are respectively the totals of the wages payable to workers by the employer in respect of the last and second last period of 12 consecutive months which occurred before the commencement of the period of insurance;

"W<sub>0</sub>" is the total of the wages payable to workers by the employer in respect of the period of insurance.

(2) If an employer:

- (a) makes an application to an insurer for the renewal of a policy and
- (b) does not supply the insurer, in accordance with clause 4 (2) of the Workers Compensation (Insurance Premiums) Regulation 1987, with a duly completed return relating to wages paid during the last period of insurance preceding that renewal,

the insurer may, for the purpose of calculating the initial premium payable by the employer for the renewed policy, determine the amount of "W<sub>1</sub>" in the formula in subclause (1)(a) by increasing by 15 per cent the amount determined as "W" in the calculation of the experience premium for the employer in respect of the last period of insurance preceding that renewal.

**Definition**

2. In this Schedule, "**cost of claims**" has the same meaning as in Part 3 of the Workers Compensation (Insurance Premiums) Regulation 1987.

**SCHEDULE 6 - EXCESS SURCHARGE FACTOR**

The excess surcharge factor ("X") for an employer is:

- (a) where the employer is a category B employer and there has been no agreement between the employer and the insurer that the employer will pay the first \$500 (or such lesser amount as may be agreed upon) of each claim which arises out of the period of insurance for which the premium is to be calculated, 0.05; or
- (b) in any other case, 0.

**SCHEDULE 7 - MINIMUM PREMIUM - CATEGORY B EMPLOYERS**

**Policies in respect of which minimum premium payable**

1. This Schedule applies to a policy issued to a category B employer (or the renewal of such a policy), being a policy under which the employer is not required to pay the first \$500 or other agreed amount of each claim.

**Minimum premium payable**

2. (1) For the purposes of this Schedule, the minimum premium:
- (a) in respect of a policy relating to domestic or similar workers - is \$30; or
  - (b) in respect of any other policy - is \$80.
- (2) If the premium payable in respect of a policy to which this Schedule applies would (but for this Schedule) be less than the minimum premium in respect of the policy, the amount of the premium shall be increased to that minimum premium.

**SCHEDULE 8 - ADJUSTMENT OF PREMIUM**

If the premium payable for a policy under this Order after the end of the period of insurance differs from the premium estimated at the commencement of that period, the difference must be met, within 4

months after the end of that period, by a further payment by the employer or by a refund to the employer, as the case requires.

**TABLE A - BASIC TARIFF RATES**

**NOTES**

1. An employer's basic tariff premium is determined under Table A having regard to the employer's business. An employer's business means the employer's business or industrial activity.
2. An employer may carry on a single business or more than one business at the same time.
3. If an employer carries on a single business, the tariff classification applicable to the business is that which most accurately describes the entire business of the employer. The entire business includes not only the operations and activities directly involved in the conduct of the business, but also all operations and activities incidental to the conduct of the business.
4. If an employer carries on more than one business, so that it can be said that the employer carries on separate and distinct businesses, note 3 applies to each such separate and distinct business.
5. Generally, businesses are not separate and distinct if the operations and activities carried on in those businesses are incidental to one another.
6. In determining whether businesses are separate and distinct (for tariff classification purposes) it is relevant to take the following into account:
  - (a) the nature of the operations and activities (including incidental operations and activities) respectively carried on in the businesses;
  - (b) differences in the identity of the employees respectively engaged in the businesses (and in particular of the employees engaged in the manufacturing or industrial activities and operations);
  - (c) differences in locations of the businesses, for example, differences in locations may vary from sites far removed from each other, or separate floors in a given building, or even separate parts on the one floor level of a building (the important element in relation to location is that normally separate and distinct businesses have exclusive use of the particular area in which the operations and activities of the business are carried on).
7. There is no longer a tariff classification of "Clerical Staffs-office work" or "Commercial Travelling". Consequently the wages of any such employees will now attract the basic tariff premium appropriate to the employer's business.
8. In the event that an employer carries on separate and distinct businesses then employees of the type previously eligible to attract the "Clerical Staffs - office work", or "Commercial Travelling", tariffs are to each be allocated to one of those two or more separate and distinct businesses. Any such allocation will be on the following basis:
  - (a) if such an employee is occupied wholly or predominantly in just one of the employer's separate and distinct businesses then the entire

wages of the employee will attract the tariff classification premium rate appropriate to that business;

- (b) if such an employee is occupied substantially in more than one of the employer's separate and distinct businesses then the entire wages of the employee will attract the lowest tariff classification premium rate appropriate to the various business activities in which the employee is occupied. (In the event that those two or more separate and distinct businesses each have the same basic tariff rate then the employee's entire wages will attract the tariff classification with the lowest rate number.)
- 9. If an employer has employees who fall within the business covered by Table A's tariff rate numbers 529, 558, 714, 723 or 907, the employees are to be rated on the basis of those respective tariffs, rather than on the basis of the employees' wages.
  - 10. To be eligible for tariff rate number 666 (Financial Institutions (a)) an employer must carry on only one business and such a business must be of the type attracting tariff rate number 666.
-

| Art Galleries (rate as for Halls - Public).   |          |                                   |
| Artificial Limb and Truss Mfg (rate as for Scientific Instrument Mfg).                      |          |                                   |
| Artificial Stone Mfg (rate as for Brickworks).  |          |                                   |
| Art Metal Work (rate as for Engineering (c)).   |          |                                   |
| Asbestos Sheet and/or Fibro-Cement Sheet Mfg .....  | 523      | 3.8%                              |
| Asphalting (rate as for Road etc Making).   |          |                                   |
| Associations -  |          |                                   |
| (a) Business & Professional n.o.c (rate as for Financial Institutions (a)).                 |          |                                   |
| (b) Other - rate according to industry.   |          |                                   |
| Athletic, Sports and/or Social Clubs -  |          |                                   |
| (a) Professional Football Playing .....   | 529      | \$45.00<br>per capita<br>per game |
| (b) Other - including Professional Sporting Activities n.o.c .....                          | 531      | 2.1%                              |
| Auctioneering - other than Live Stock (rate as for Retail Shops).                           |          |                                   |
| Authorised Money Market Dealers (rate as for Financial Institutions (a)).                   |          |                                   |
| Automatic Sprinkler Mfg (rate as for Engineering (b)).                                      |          |                                   |
| Automatic Weighing, Vending and Coin Slot Machine Shops (rate as for Retail Shops).         |          |                                   |
| Automobile Works (see Motor Vehicle Industry).  |          |                                   |
| Automotive Electrical and/or Engineering Services (rate as for Motor Vehicle Industry (b)). |          |                                   |
| Bacon Mfg (see Canning etc).  |          |                                   |
| Badge and Medallion Mfg (rate as for Scientific Instrument Mfg.).                           |          |                                   |

NOTE: "Mfg" means "Manufacturing".  
"n.o.c" means "Not Otherwise Classified".
