#### EXPLANATORY NOTE

The object of this Regulation is to amend the Motor Traffic Regulations 1935 to prescribe an alternative method of indicating the lawful use of a parking bay in a shared traffic zone or restricted parking area. At present, the law requires that directions governing the use of a parking bay be written on the ground or floor of the bay itself. This Regulation amends the law so as to allow the directions to be marked instead on a sign displayed adjacent to the parking bay.

The Regulation is made under section 3 (and in particular section 3 (1) (h)) of the Traffic Act 1909.
