EXPLANATORY NOTE

The objects of this Regulation are:

- (a) to identify the offences under the Stock Diseases Act 1923 and the Stock Diseases (General) Regulation 1992 that can be dealt with by penalty notice and to prescribe the penalties applicable if the offences are dealt with in that way (clause 2 (d) and (e)); and
- (b) to prescribe short descriptions for use in describing those offences in informations, complaints, summonses, warrants, notices, orders and other documents (in particular the descriptions are for use in penalty notices) (clause 2 (d) and (e)); and
- (c) to prescribe prohibited substances, which must not be fed to certain animals (namely swine) (clause 2 (c)); and
- (d) to omit prescribed forms of traffic signs, which will in future be approved by the Chief, Division of Animal Industries (clause 2 (b) and (f)); and
- (e) to omit a provision that regulates the movement of sheep or goats into a protected area for footrot as the movement of stock into a protected area can be regulated by notification of the Minister under section 11a of the Act (the section provides for the declaration of protected areas and for the restriction or prohibition on the movement of stock into those areas) (clause 2 (a)).

This Regulation is made under the Stock Diseases Act 1923, including section 23 (the general regulation making power), section 20FB (feeding of prohibited substance to stock), and section 200 (penalty notices) extended as provided by section 145B (3) of the Justices Act 1902 (which provides for the regulations under the Act creating an offence to prescribe a short description for the offence).
