#### EXPLANATORY NOTE

The object of this Regulation is to allow the Roads and Traffic Authority to issue identification labels for traders' plates (similar to registration labels) indicating the period for which a trader's plate is issued and to require the display of such a label on any motor vehicle that has traders' plates attached. The label is to be displayed in a holder attached to the trader's plate in such a manner that both the label and the plate are clearly visible. The Regulation also prohibits the use of altered, void, expired or illegible identification labels.

Provision is made for the issue of penalty notices for offences relating to the use of traders' plates.

This Regulation is made under the Traffic Act 1909, including section 3 (the general regulation making power), particularly section 3 (1) (a), (k), (l) and (q2), and section 18B (Penalty notices for certain offences).
