

New South Wales

THREATENED SPECIES CONSERVATION ACT 1995 No 101

Notice of Final Determination and Amendment of Schedule 1 to Act

The Scientific Committee constituted under the Threatened Species Conservation Act 1995 has, in pursuance of Division 3 of Part 2 of that Act, made a final determination to insert the following species of plants in Schedule 1 to that Act and, accordingly, that Schedule is amended as set out in Annexure "A" to this Notice:

Fabaceae

Acacia gordonii (Tind.) Pedley

Myrtaceae

Micromyrtus grandis J.T. Hunter

Triplarina nowraensis A.R. Bean

Orchidaceae

Microtis angusii D.L. Jones

The final determination to insert these species in Schedule 1 has been made because the Scientific Committee is of the opinion that these species are likely to become extinct in nature in New South Wales unless the factors threatening their survival cease to operate.

Copies of the final determination may be inspected at:

The Information Centre (Level 1)
National Parks and Wildlife Service
43 Bridge Street
HURSTVILLE NSW 2220

and at all District Offices of the National Parks and Wildlife Service during business hours.

Signed at Sydney, this 27th day of May 1997.

DR CHRIS DICKMAN

Chairperson
Scientific Committee.

Annexure “A”
