**THREATENED SPECIES CONSERVATION ACT 1995 No 101**

**Notice of Final Determination and Amendment of Schedule 1 to Act**

The Scientific Committee constituted under the *Threatened Species Conservation Act 1995* has, in pursuance of Division 3 of Part 2 of that Act, made a final determination to insert the following population in Schedule 1 to that Act and, accordingly, that Schedule is amended as set out in Annexure "A" to this Notice:

**Campanulaceae**

*Wahlenbergia multicaulis* Benth. Tadgell's Bluebell in the local government areas of Auburn, Bankstown, Strathfield and Canterbury

The final determination to insert this population in Schedule 1 has been made because the Scientific Committee is of the opinion that its habitat has been so drastically reduced that it is in immediate danger of extinction and the population is disjunct and at the limit of its geographical range and is of significant conservation value.

Copies of the final determination may be inspected at:

The Information Centre (Level 1)  
National Parks & Wildlife Service  
43 Bridge Street  
HURSTVILLE NSW 2220

and at all District Offices of the National Parks and Wildlife Service during business hours.

Signed at Sydney, this 22nd day of August 1997.

Associate Professor Paul Adam

Deputy Chairperson  
Scientific Committee

**1997 No 487**

Threatened Species Conservation Act 1995 No 101

---

Annexure "A"

Schedule 1 to the *Threatened Species Conservation Act 1995* is amended by inserting in Part 2 under the heading "Plants" and the sub-heading "Campanulaceae", the following matter:

*Wahlenbergia multicaulis* Benth. Tadgell's Bluebell in the local government areas of Auburn, Bankstown, Strathfield and Canterbury
