## **THREATENED SPECIES CONSERVATION ACT 1995 No 101**

### **Notice of Final Determination and Amendment of Schedule 1 to Act**

The Scientific Committee constituted under the *Threatened Species Conservation Act 1995* has, in pursuance of Division 3 of Part 2 of that Act, made a final determination to insert the following population of plants in Schedule 1 to that Act and, accordingly, that Schedule is amended as set out in Annexure "A" to this Notice:

#### **Fabaceae**

*Dillwynia tenuifolia* Sieber ex D.C.      *Dillwynia tenuifolia*, Kemps Creek

The final determination to insert this population in Schedule 1 has been made because the Scientific Committee is of the opinion that the habitat of the population has been so drastically reduced that it is in immediate danger of extinction and that the population is of significant conservation value because of its size, the high density of individuals in parts of the site and the generally good condition of the remnants in which it occurs.

Copies of the final determination may be inspected at:

The Information Centre (Level 1)  
National Parks & Wildlife Service  
43 Bridge Street  
HURSTVILLE NSW 2220

and at all District Offices of the National Parks and Wildlife Service during business hours.

Signed at Sydney, this 13th day of November 1997.

Dr Chris Dickman  
Chairperson  
Scientific Committee

**1997 No 645**

Threatened Species Conservation Act 1995 No 101—Final Determination

---

**Annexure “A”**

Schedule 1 to the *Threatened Species Conservation Act 1995* is amended by inserting in Part 2 in alphabetical order under the heading “Plants” the matter:

**Fabaceae**

*Dillwynia tenuifolia* Sieber ex D.C.      *Dillwynia tenuifolia*, Kemps Creek
