## Threatened Species Conservation Act 1995 No 101

### Notice of Final Determination and Amendment of Schedule 1 to Act

The Scientific Committee established under the *Threatened Species Conservation Act 1995* has, in pursuance of Division 3 of Part 2 of that Act, made a final determination to insert the following population of bird in Part 2 of Schedule 1 to that Act (Endangered populations) and, accordingly, that Schedule is amended as set out in Annexure "A" to this Notice:

#### **Birds**

##### Cacatuidae

*Calyptorhynchus lathami* (Temminck, 1807)      Glossy Black-Cockatoo, Riverina population

The final determination to insert this population in Part 2 of Schedule 1 has been made because the Scientific Committee is of the opinion that the population has been reduced to such a critical level that it is in immediate danger of extinction, that it is disjunct and at the limit of its geographic range, and that it is of significant conservation value.

Copies of the final determination may be inspected at:

The Information Centre (Level 1)  
National Parks & Wildlife Service  
43 Bridge Street  
Hurstville NSW 2220

and at all District Offices of the National Parks and Wildlife Service during business hours.

Signed at Sydney, this 9th day of July 1999.

Dr Chris Dickman

Chairperson  
Scientific Committee

**1999 No 372**

Threatened Species Conservation Act 1995 No 101—Final Determination

---

**Annexure “A”**

**Schedule 1** to the *Threatened Species Conservation Act 1995* is amended by inserting in Part 2 in alphabetical order under the heading “Animals” and the sub-headings “Vertebrates” and “Birds” the matter:

Cacatuidae

*Calyptorhynchus lathami* (Temminck, 1807)      Glossy Black-Cockatoo, Riverina population
