# Threatened Species Conservation Act 1995 No 101

## Notice of Final Determination and Amendment of Schedules 1 and 2 to Act

The Scientific Committee established under the *Threatened Species Conservation Act 1995* has, in pursuance of Division 3 of Part 2 of that Act, made a final determination:

- (a) to insert the following species of animal in Part 1 of Schedule 1 to that Act (Endangered species), and
- (b) as a consequence, to omit reference to that species of animal from Schedule 2 to that Act (Vulnerable species),

and, accordingly, those Schedules are amended as set out in Annexure "A" to this Notice:

### Animals

#### Vertebrates

#### Amphibians

Myobatrachidae

*Mixophyes fleayi* Corben & Ingram, 1987      Fleay's Barred Frog

The final determination to insert this species in Part 1 of Schedule 1 has been made because the Scientific Committee is of the opinion that the species is likely to become extinct in nature in New South Wales unless the circumstances and factors threatening its survival or evolutionary development cease to operate.

Copies of the final determination may be inspected at:

The Information Centre (Level 1)  
National Parks & Wildlife Service  
43 Bridge Street  
Hurstville NSW 2220

and at all District Offices of the National Parks and Wildlife Service during business hours.

## 2000 No 387

Threatened Species Conservation Act 1995 No 101—Final Determination

---

Signed at Sydney, this 11th day of July 2000.

Dr Chris Dickman  
Chairperson  
Scientific Committee
