**AGRICULTURAL AND VETERINARY CHEMICALS
(NEW SOUTH WALES) ACT 1994 No. 53**

NEW SOUTH WALES

Act No. 53, 1994

An Act to apply certain laws of the Commonwealth relating to agricultural and veterinary chemical products as laws of New South Wales; and for other purposes. [Assented to 28 September 1994]

RECOGNISING:

- (a) that the protection of the health and safety of human beings, animals and the environment is essential to the well-being of society and can be enhanced by putting in place a system to regulate agricultural chemical products and veterinary chemical products; and
- (b) that the principle of ecologically sustainable development requires a regulatory system that is designed to ensure that the use of such products today will not impair the prospects of future generations; and
- (c) that the furthering of trade and commerce between Australia and places outside Australia, and the present and future economic viability and competitiveness of primary industry and of a domestic industry for manufacturing and formulating such products, are essential for the well-being of the economy and require a system for regulating such products that is cost effective, efficient, predictable, adaptive and responsive; and
- (d) that it is desirable to establish a regulatory system that is open and accountable and gives opportunity for public input with respect to the regulation of such products; and
- (e) that the system should, so far as practicable, be uniform throughout Australia; and
- (f) that uniformity could best be achieved by the enactment of legislation by the Parliament of the Commonwealth as a law for the government of the Australian Capital Territory and the adoption of that legislation by the Parliaments and legislatures of the States and the Northern Territory:

The Legislature of New South Wales enacts:
