Division 4A Clinical trials

45AA Tribunal may approve clinical trials

- (1) The Tribunal may approve, in accordance with this section, a clinical trial as a trial in which patients to whom this Part applies may participate.
- (2) The Tribunal may give an approval under this section only if it is satisfied that:
 - (a) the drugs or techniques being tested in the clinical trial are intended to cure or alleviate a particular condition from which the patients suffer, and
 - (b) the trial will not involve any known substantial risk to the patients (or, if there are existing treatments for the condition concerned, will not involve material risks greater than the risks associated with those treatments), and

-
- (c) the development of the drugs or techniques has reached a stage at which safety and ethical considerations make it appropriate that the drugs or techniques be available to patients who suffer from that condition even if those patients are not able to consent to taking part in the trial, and
 - (d) having regard to the potential benefits (as well as the potential risks) of participation in the trial, it is in the best interests of patients who suffer from that condition that they take part in the trial, and
 - (e) the trial has been approved by a relevant ethics committee and complies with any relevant guidelines issued by the National Health and Medical Research Council.
- (3) The fact that a clinical trial will or may involve the giving of placebos to some of the participants in the trial does not prevent the Tribunal from being satisfied that it is in the best interests of patients that they take part in the trial.
- (4) The Tribunal's approval of a clinical trial under this section does not operate as a consent to the participation in the trial of any particular patient to whom this Part applies. The appropriate consent must be obtained under Division 3 or 4 before any medical or dental treatment in the course of the trial is carried out on the patient.
- (5) In this section:
- ethics committee* means:
- (a) for so long as there is any relevant Institutional Ethics Committee registered by the Australian Health Ethics Committee established under the *National Health and Medical Research Council Act 1992* of the Commonwealth—an Institutional Ethics Committee so registered, or
 - (b) in the absence of such a committee, an ethics committee established by:
 - (i) an area health service or a public hospital, or

- (ii) a university, being an ethics committee concerned, wholly or partly, with medical research, or
- (iii) the National Health and Medical Research Council.

45AB Consent for participation in clinical trials in individual cases

- (1) If the Tribunal is satisfied as to the matters specified in section 45AA (2) in relation to a clinical trial, it may, by order, determine:
 - (a) that the function of giving or withholding consent for the carrying out of medical or dental treatment on patients in the course of the trial is to be exercised by the persons responsible for the patients (in which case Division 3 applies), or
 - (b) that the Tribunal is to exercise that function itself (in which case Division 4 applies).
- (2) Before making a determination referred to in subsection (1) (a), the Tribunal must be satisfied that the form for granting consent and the information available about the trial provide sufficient information to enable the persons responsible to decide whether or not it is appropriate that the patients should take part in the trial.

[10] Section 51A Fewer than 3 Tribunal members may deal with certain matters

Omit “or special treatment” from section 51A (1) (a).
Insert instead “, special treatment or treatment in the course of a clinical trial”.

[11] Section 51A (3)

Omit “and *special treatment*”.
Insert instead “, *special treatment* and *clinical trial*”.

[12] Section 76A Annual report

Insert after section 76A (2):

- (2A) Despite subsection (2), if the Tribunal, during the period of 12 months covered by the report, approved a clinical trial (within the meaning of Part 5) under section 45AA, the report must include details of the trial (or proposed trial).
