## Ryde Local Environmental Plan 2014

under the

Environmental Planning and Assessment Act 1979

### Part 1 Preliminary

#### 1.1 Name of Plan

This Plan is *Ryde Local Environmental Plan 2014*.

#### 1.1AA Commencement

This Plan commences on the day on which it is published on the NSW legislation website.

#### 1.2 Aims of Plan

- (1) This Plan aims to make local environmental planning provisions for land in Ryde in accordance with the relevant standard environmental planning instrument under section 33A of the Act.
- (2) The particular aims of this Plan are as follows:
  - (a) to encourage a range of development, including housing, employment and recreation, that will accommodate the needs of the existing and future residents of Ryde,
  - (b) to provide opportunities for a range of housing types that are consistent with adjoining development and the existing environmental character of the locality,
  - (c) to foster the environmental, economic, social and physical development of Ryde so that it develops as an integrated, balanced and sustainable city,
  - (d) to identify, conserve and promote Ryde's natural and cultural heritage as the framework for its identity, prosperity, liveability and social development,
  - (e) to improve access to the city, facilitate the maximum use of public transport and encourage walking and cycling,
  - (f) to protect and enhance the natural environment, including areas of remnant bushland in Ryde, by incorporating principles of ecologically sustainable development into land use controls,

## 2014 No 608

Clause 1.3 Ryde Local Environmental Plan 2014

Part 1 Preliminary

---

- (g) to preserve and improve the existing character, amenity and environmental quality of the land to which this Plan applies,
- (h) in relation to economic activities, to provide a hierarchy of retail, commercial and industrial activities that enable employment capacity targets to be met, provide employment diversity and are compatible with local amenity.

### 1.3 Land to which Plan applies

- (1) This Plan applies to the land identified on the Land Application Map.
- (1A) Despite subclause (1), this Plan does not apply to the land identified as “Deferred Matter” on the Land Application Map.

### 1.4 Definitions

The Dictionary at the end of this Plan defines words and expressions for the purposes of this Plan.

### 1.5 Notes

Notes in this Plan are provided for guidance and do not form part of this Plan.

### 1.6 Consent authority

The consent authority for the purposes of this Plan is (subject to the Act) the Council.

### 1.7 Maps

- (1) A reference in this Plan to a named map adopted by this Plan is a reference to a map by that name:
  - (a) approved by the Minister when the map is adopted, and
  - (b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the Minister when the instruments are made.
- (2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.
- (3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.
- (4) For the purposes of this Plan, a map may be in, and may be kept and made available in, electronic or paper form, or both.

**Note.** The maps adopted by this Plan are to be made available on the official NSW legislation website in connection with this Plan. Requirements relating to

---

the maps are set out in the documents entitled *Standard technical requirements for LEP maps* and *Standard requirements for LEP GIS data* which are available on the website of the Department of Planning and Environment.

### 1.8 Repeal of planning instruments applying to land

- (1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Plan applies are repealed.

**Note.** The following local environmental plans are repealed under this provision:

*Ryde Local Environmental Plan (Gladesville Town Centre and Victoria Road Corridor) 2010*

*Ryde Planning Scheme Ordinance*

- (2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies.

**Note.** While the following local environmental plans no longer apply to the land to which this Plan applies, they continue to apply to the land identified as "Deferred Matter" under clause 1.3 (1A):

*Ryde Local Environmental Plan 2010*

#### 1.8A Savings provision relating to development applications

If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had not commenced.

**Note.** However, under Division 4B of Part 3 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant development is appropriately amended or if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable.

### 1.9 Application of SEPPs

- (1) This Plan is subject to the provisions of any State environmental planning policy that prevails over this Plan as provided by section 36 of the Act.
- (2) The following State environmental planning policies (or provisions) do not apply to the land to which this Plan applies:

*State Environmental Planning Policy No 1—Development Standards*

*State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 (Schedule 6)*

## 2014 No 608

### 1.9A Suspension of covenants, agreements and instruments

- (1) For the purpose of enabling development on land in any zone to be carried out in accordance with this Plan or with a consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.
- (2) This clause does not apply:
  - (a) to a covenant imposed by the Council or that the Council requires to be imposed, or
  - (b) to any prescribed instrument within the meaning of section 183A of the *Crown Lands Act 1989*, or
  - (c) to any conservation agreement within the meaning of the *National Parks and Wildlife Act 1974*, or

- (1) The Land Use Table at the end of this Part specifies for each zone:
  - (a) the objectives for development, and

## 2014 No 608

Clause 2.4 Ryde Local Environmental Plan 2014

Part 2 Permitted or prohibited development

---

- (b) development that may be carried out without development consent, and
  - (c) development that may be carried out only with development consent, and
  - (d) development that is prohibited.
- (2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.
- (3) In the Land Use Table at the end of this Part:
- (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
  - (b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.
- (4) This clause is subject to the other provisions of this Plan.

### Notes.

- 1 Schedule 1 sets out additional permitted uses for particular land.
- 2 Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act or, if applicable, Part 3A of the Act.
- 3 Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
- 4 Clause 2.6 requires consent for subdivision of land.
- 5 Part 5 contains other provisions which require consent for particular development.

## 2.4 Unzoned land

- (1) Development may be carried out on unzoned land only with development consent.
- (2) In deciding whether to grant development consent, the consent authority:
- (a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and
  - (b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

## 2.5 Additional permitted uses for particular land

- (1) Development on particular land that is described or referred to in Schedule 1 may be carried out:
  - (a) with development consent, or
  - (b) if the Schedule so provides—without development consent, in accordance with the conditions (if any) specified in that Schedule in relation to that development.
- (2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

## 2.6 Subdivision—consent requirements

- (1) Land to which this Plan applies may be subdivided, but only with development consent.

### Notes.

- 1 If a subdivision is specified as **exempt development** in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, the Act enables it to be carried out without development consent.
  - 2 Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is **complying development**.
- (2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the Lot Size Map in relation to that land.

**Note.** The definition of **secondary dwelling** in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

## 2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

**Note.** If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, as exempt development, the Act enables it to be carried out without development consent.

## 2.8 Temporary use of land

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.

## 2014 No 608

Clause 2.8 Ryde Local Environmental Plan 2014

Part 2 Land Use Table

---

- (2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 52 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that:
  - (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and
  - (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
  - (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and
  - (d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.
- (4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.
- (5) Subclause (3) (d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

## Land Use Table

**Note.** A type of development referred to in the Land Use Table is a reference to that type of development only to the extent it is not regulated by an applicable State environmental planning policy. The following State environmental planning policies in particular may be relevant to development on land to which this Plan applies:

*State Environmental Planning Policy (Affordable Rental Housing) 2009* (including provision for secondary dwellings)

*State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004*

    - (d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the *Heritage Act 1977* or that is subject to an interim heritage order under the *Heritage Act 1977*.
  - (4) Development that relates to an existing building that is classified under the *Building Code of Australia* as class 1b or class 2–9 is exempt development only if:
    - (a) the building has a current fire safety certificate or fire safety statement, or
    - (b) no fire safety measures are currently implemented, required or proposed for the building.
  - (5) To be exempt development, the development must:
    - (a) be installed in accordance with the manufacturer's specifications, if applicable, and

#### 4.1 Minimum subdivision lot size

- (1) The objectives of this clause are as follows:
  - (a) to retain streetscape, amenity, landscaped areas and private open space in residential zones,
  - (b) to ensure that lot sizes enable sufficient areas of open space within each lot so as to enable the retention and embellishment of green linkage corridors in residential zones.
- (2) This clause applies to a subdivision of any land shown on the Lot Size Map that requires development consent and that is carried out after the commencement of this Plan.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the Lot Size Map in relation to that land.
- (4) This clause does not apply in relation to the subdivision of individual lots in a strata plan or community title scheme.

- (2) Clause 4.4 does not apply to development for multi dwelling housing on land in Zone R2 Low Density Residential.

### 4.5 Calculation of floor space ratio and site area

#### (1) Objectives

The objectives of this clause are as follows:

- (a) to define *floor space ratio*,
- (b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to:
  - (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and
  - (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and

- (iii) require community land and public places to be dealt with separately.

(2) **Definition of “floor space ratio”**

The *floor space ratio* of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area.

(3) **Site area**

In determining the site area of proposed development for the purpose of applying a floor space ratio, the *site area* is taken to be:

- (a) if the proposed development is to be carried out on only one lot, the area of that lot, or
- (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out.

In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development.

(4) **Exclusions from site area**

The following land must be excluded from the site area:

- (a) land on which the proposed development is prohibited, whether under this Plan or any other law,
- (b) community land or a public place (except as provided by subclause (7)).

(5) **Strata subdivisions**

The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation.

(6) **Only significant development to be included**

The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot.

(7) **Certain public land to be separately considered**

For the purpose of applying a floor space ratio to any proposed development on, above or below community land or a public place, the site area must only include an area that is on, above or below that community land or public place, and is occupied or physically affected

## 2014 No 608

Clause 4.5A Ryde Local Environmental Plan 2014

Part 4 Principal development standards

---

by the proposed development, and may not include any other area on which the proposed development is to be carried out.

(8) **Existing buildings**

The gross floor area of any existing or proposed buildings within the vertical projection (above or below ground) of the boundaries of a site is to be included in the calculation of the total floor space for the purposes of applying a floor space ratio, whether or not the proposed development relates to all of the buildings.

(9) **Covenants to prevent “double dipping”**

When development consent is granted to development on a site comprised of 2 or more lots, a condition of the consent may require a covenant to be registered that prevents the creation of floor area on a lot (the restricted lot) if the consent authority is satisfied that an equivalent quantity of floor area will be created on another lot only because the site included the restricted lot.

(10) **Covenants affect consolidated sites**

If:

- (a) a covenant of the kind referred to in subclause (9) applies to any land (*affected land*), and
- (b) proposed development relates to the affected land and other land that together comprise the site of the proposed development,

the maximum amount of floor area allowed on the other land by the floor space ratio fixed for the site by this Plan is reduced by the quantity of floor space area the covenant prevents being created on the affected land.

(11) **Definition**

In this clause, *public place* has the same meaning as it has in the *Local Government Act 1993*.

### 4.5A Density controls for Zone R2 Low Density Residential

Development consent must not be granted to the erection of multi dwelling housing on land in Zone R2 Low Density Residential unless:

- (a) the site area for the building is not less than:
  - (i) for each 1, 2 or 3 bedroom dwelling—300 square metres, and
  - (ii) for each 4 or more bedroom dwelling—365 square metres, and

- (b) each dwelling will have its own contiguous private open space and separate access to that space from an unbuilt portion of the site.

#### **4.5B Macquarie Park Corridor**

##### **(1) Off street car parking controls**

The objectives for off-street parking controls in the Macquarie Park Corridor are as follows:

- (a) to encourage the use of alternative types of transport by providing for accessibility by pedestrian, cycling and public transport,
  - (b) to ensure that local car parking is available.
- (2) The maximum number of off-street parking spaces for commercial and industrial development in the Macquarie Park Corridor is the number identified on the Macquarie Park Corridor Parking Restrictions Map.

##### **(3) Land uses in Zone B7**

The objectives for development on land in Zone B7 Business Park within the Macquarie Park Corridor are as follows:

- (a) to provide for the daily convenience needs of employees and visitors,
  - (b) to ensure that development supports the needs of businesses and organisations in the area.
- (4) Despite any other provision of this Plan, development consent must not be granted for the erection of a building on land in Zone B7 Business Park in the Macquarie Park Corridor for the purposes of a function centre, neighbourhood shop, registered club or restaurant or cafe unless the total floor space of the building:
- (a) will not exceed 500 square metres for each individual land use or an area equivalent to 5% of the site area for each individual land use, whichever is the greater, in relation to that land, and
  - (b) the building is a single storey building.

#### **4.6 Exceptions to development standards**

- (1) The objectives of this clause are as follows:
- (a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,
  - (b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.

## 2014 No 608

Clause 4.6 Ryde Local Environmental Plan 2014

Part 4 Principal development standards

---

- (2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.
- (3) Development consent must not be granted for development that contravenes a development standard unless the consent authority has considered a written request from the applicant that seeks to justify the contravention of the development standard by demonstrating:
  - (a) that compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and
  - (b) that there are sufficient environmental planning grounds to justify contravening the development standard.
- (4) Development consent must not be granted for development that contravenes a development standard unless:
  - (a) the consent authority is satisfied that:
    - (i) the applicant's written request has adequately addressed the matters required to be demonstrated by subclause (3), and
    - (ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out, and
  - (b) the concurrence of the Director-General has been obtained.
- (5) In deciding whether to grant concurrence, the Director-General must consider:
  - (a) whether contravention of the development standard raises any matter of significance for State or regional environmental planning, and
  - (b) the public benefit of maintaining the development standard, and
  - (c) any other matters required to be taken into consideration by the Director-General before granting concurrence.
- (6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone E2

---

Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living if:

- (a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or
- (b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.

**Note.** When this Plan was made it did not include all of these zones.

- (7) After determining a development application made pursuant to this clause, the consent authority must keep a record of its assessment of the factors required to be addressed in the applicant's written request referred to in subclause (3).
- (8) This clause does not allow development consent to be granted for development that would contravene any of the following:
  - (a) a development standard for complying development,
  - (b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which *State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004* applies or for the land on which such a building is situated,
  - (c) clause 5.4,
  - (ca) clause 4.3, to the extent that it applies to the land identified as "Town Core" on the Ryde Town Centre Precincts Map.

## Part 5 Miscellaneous provisions

### 5.1 Relevant acquisition authority

- (1) The objective of this clause is to identify, for the purposes of section 27 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the *Land Acquisition (Just Terms Compensation) Act 1991* (**the owner-initiated acquisition provisions**).

**Note.** If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the *Land Acquisition (Just Terms Compensation) Act 1991* requires the authority to acquire the land.

- (2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the Land Reservation Acquisition Map (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).
