State Environmental Planning Policy (Gosford City Centre) 2018

under the

Environmental Planning and Assessment Act 1979

Part 1 Preliminary

Note. The *Standard Instrument (Local Environmental Plans) Order 2006* sets out matters to be included in standard local environmental plans. While this Policy is not a standard local environmental plan, it is generally consistent with standard plans. A number of clauses from the *Standard Instrument (Local Environmental Plans) Order 2006* have been included in this Policy and the clause numbering from that order has been retained. This means that the numbering in this Policy may contain some gaps. Additional provisions have been inserted and are numbered accordingly.

1.1 Name of Policy

This Policy is *State Environmental Planning Policy (Gosford City Centre) 2018*.

1.1AA Commencement

This Policy commences on the day on which it is published on the NSW legislation website.

1.2 Aims of Policy

The aims of this Policy are as follows:

- (a) to promote the economic and social revitalisation of Gosford City Centre,
- (b) to strengthen the regional position of Gosford City Centre as a multi-functional and innovative centre for commerce, education, health care, culture and the arts, while creating a highly liveable urban space with design excellence in all elements of its built and natural environments,
- (c) to protect and enhance the vitality, identity and diversity of Gosford City Centre,
- (d) to promote employment, residential, recreational and tourism opportunities in Gosford City Centre,
- (e) to encourage responsible management, development and conservation of natural and man-made resources and to ensure that Gosford City Centre achieves sustainable social, economic and environmental outcomes,
- (f) to protect and enhance the environmentally sensitive areas and natural and cultural heritage of Gosford City Centre for the benefit of present and future generations,
- (g) to help create a mixed use place, with activity during the day and throughout the evening, so that Gosford City Centre is safe, attractive and efficient for, and inclusive of, its local population and visitors alike,
- (h) to preserve and enhance solar access to key public open spaces,
- (i) to provide direct, convenient and safe pedestrian links between Gosford City Centre and the Gosford waterfront,

- (j) to ensure that development exhibits design excellence to deliver the highest standard of architectural and urban design in Gosford City Centre.

1.3 Land to which Policy applies

This Policy applies to the land identified on the Land Application Map.

1.4 Definitions

The Dictionary at the end of this Policy defines words and expressions for the purposes of this Policy.

1.5 Notes

Notes in this Plan are provided for guidance and do not form part of this Plan.

1.6 Consent authority

The consent authority for the purposes of this Policy is:

- (a) for development that has a capital investment value of less than \$10 million—the Council, and
- (b) for development that has a capital investment value of not less than \$10 million but not more than \$75 million:
 - (i) the Minister for Planning, or
 - (ii) if the development has a capital investment value of not less than \$40 million and the Council objects to the development—the Independent Planning Commission.

Note 1. Development in Gosford City Centre that has a capital investment value of more than \$75 million is State significant development (see Schedule 2 to *State Environmental Planning Policy (State and Regional Development) 2011*).

Note 2. Certain regionally significant development that has a capital investment value of less than \$10 million is determined by the relevant regional planning panel under *State Environmental Planning Policy (State and Regional Development) 2011*.

1.7 Maps

- (1) A reference in this Policy to a named map adopted by this Policy is a reference to a map by that name:
 - (a) approved by the Minister when the map is adopted, and
 - (b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the Minister or the local plan-making authority when the instruments are made.
- (2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Policy to any such named map is a reference to the relevant part or aspect of the single map.
- (3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.
- (4) For the purposes of this Policy, a map may be in, and may be kept and made available in, electronic or paper form, or both.

Note. The maps adopted by this Policy are to be made available on the NSW Planning Portal.

1.8 Repeal of planning instruments applying to land

- (1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Policy applies are repealed.

- (2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Policy applies and to other land cease to apply to the land to which this Policy applies.

1.8A Savings provision relating to development applications

If a development application has been made before the commencement of this Policy in relation to land to which this Policy applies and the application has not been finally determined before that commencement, the application must be determined as if this Policy had not commenced.

Note. However, under Division 4B of Part 3 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant development is appropriately amended or if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable.

1.9 Relationship to other environmental planning instruments

- (1) In the event of an inconsistency between this Policy and another environmental planning instrument, whether made before or after this Policy, this Policy prevails to the extent of the inconsistency.
- (2) Despite subclause (1), *State Environmental Planning Policy (State and Regional Development) 2011* prevails to the extent of any inconsistency between this Policy and *State Environmental Planning Policy (State and Regional Development) 2011*.
- (3) The following State environmental planning policies (or provisions) do not apply to the land to which this Policy applies:

State Environmental Planning Policy No 1—Development Standards

1.9A Suspension of covenants, agreements and instruments

- (1) For the purpose of enabling development on land in any zone to be carried out in accordance with this Policy or with a consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.
- (2) This clause does not apply:
 - (a) to a covenant imposed by the Council or that the Council requires to be imposed, or
 - (b) to any biodiversity certification conferred under Part 8 of the *Biodiversity Conservation Act 2016*, or
 - (c) to any private land conservation agreement within the meaning of the *Biodiversity Conservation Act 2016*, or
 - (d) to any prescribed instrument within the meaning of section 183A of the *Crown Lands Act 1989*, or
 - (e) to the relevant provisions of a land management (native vegetation) code (and the necessary mandatory code compliant certificate) with respect to a set aside area under Part 5A of the *Local Land Services Act 2013*, or
 - (f) to any conservation agreement within the meaning of the *National Parks and Wildlife Act 1974*, or
 - (g) to any property vegetation plan within the meaning of the *Native Vegetation Act 2003* that is continued in force by the *Biodiversity Conservation (Savings and Transitional) Regulation 2017*, or

- (h) to any Trust agreement within the meaning of the *Nature Conservation Trust Act 2001* that is continued in force by the *Biodiversity Conservation (Savings and Transitional) Regulation 2017*, or
 - (i) to any planning agreement within the meaning of Division 7.1 of the Act.
- (3) This clause does not affect the rights or interests of any public authority under any registered instrument.
- (4) Under section 3.16 of the Act, the Governor, before the making of this clause, approved of subclauses (1)–(3).

Part 2 Permitted or prohibited development

2.1 Land use zones

The land use zones under this Policy are as follows:

Residential Zones

R1 General Residential

Business Zones

B3 Commercial Core

B4 Mixed Use

B6 Enterprise Corridor

Special Purpose Zones

SP2 Infrastructure

Recreation Zones

RE1 Public Recreation

Waterway Zones

W2 Recreational Waterways

2.2 Zoning of land to which Policy applies

For the purposes of this Policy, land is within the zones shown on the Land Zoning Map.

2.3 Zone objectives and Land Use Table

- (1) The Land Use Table at the end of this Part specifies for each zone:
 - (a) the objectives for development, and
 - (b) development that may be carried out without development consent, and
 - (c) development that may be carried out only with development consent, and
 - (d) development that is prohibited.
- (2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.
- (3) In the Land Use Table at the end of this Part:
 - (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
 - (b) a reference to a type of building or other thing does not include (despite any definition in this Policy) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.
- (4) This clause is subject to the other provisions of this Policy.

Notes.

- 1 Schedule 1 sets out additional permitted uses for particular land.
- 2 Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act or, if applicable, Part 3A of the Act.
- 3 Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
- 4 Clause 2.6 requires consent for subdivision of land.
- 5 Part 5 contains other provisions which require consent for particular development.

2.4 Unzoned land

- (1) Development may be carried out on unzoned land only with development consent.
- (2) In deciding whether to grant development consent, the consent authority:
 - (a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and
 - (b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

2.5 Additional permitted uses for particular land

- (1) Development on particular land that is described or referred to in Schedule 1 may be carried out:
 - (a) with development consent, or
 - (b) if the Schedule so provides—without development consent,in accordance with the conditions (if any) specified in that Schedule in relation to that development.
- (2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Policy.

2.6 Subdivision—consent requirements

- (1) Land to which this Policy applies may be subdivided, but only with development consent.

Notes.

- 1 If a subdivision is specified as **exempt development** in an applicable environmental planning instrument, such as this Policy or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, the Act enables it to be carried out without development consent.
 - 2 Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is **complying development**.
- (2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the Lot Size Map in relation to that land.

Note. The definition of **secondary dwelling** in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

Note. If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Policy or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, as exempt development, the Act enables it to be carried out without development consent.

2.8 Temporary use of land

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.

- (2) Despite any other provision of this Policy, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 28 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that:
 - (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Policy and any other applicable environmental planning instrument, and
 - (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
 - (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and
 - (d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.
- (4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.
- (5) Subclause (3) (d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

Land Use Table

Note. A type of development referred to in the Land Use Table is a reference to that type of development only to the extent it is not regulated by an applicable State environmental planning policy. The following State environmental planning policies in particular may be relevant to development on land to which this Policy applies:

State Environmental Planning Policy (Affordable Rental Housing) 2009 (including provision for secondary dwellings)

State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004

State Environmental Planning Policy (Infrastructure) 2007—relating to infrastructure facilities such as those that comprise, or are for, air transport, correction, education, electricity generating works and solar energy systems, health services, ports, railways, roads, waste management and water supply systems

State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007

State Environmental Planning Policy (Rural Lands) 2008

State Environmental Planning Policy No 33—Hazardous and Offensive Development

State Environmental Planning Policy No 50—Canal Estate Development

State Environmental Planning Policy No 62—Sustainable Aquaculture

State Environmental Planning Policy No 64—Advertising and Signage

Zone R1 General Residential

1 Objectives of zone

- To provide for the housing needs of the community.
- To provide for a variety of housing types and densities.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.
- To ensure that development is compatible with the desired future character of the zone.
- To promote best practice in the design of multi dwelling housing and other similar types of development.
- To ensure that non-residential uses do not adversely affect residential amenity or place demands on services beyond the level reasonably required for multi dwelling housing or other similar types of development.

Part 3 Exempt and complying development

3.1 Exempt development

- (1) The objective of this clause is to identify development of minimal environmental impact as exempt development.
- (2) Development specified in Schedule 2 that meets the standards for the development contained in that Schedule and that complies with the requirements of this Part is exempt development.
- (3) To be exempt development, the development:
 - (a) must meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia* or, if there are no such relevant provisions, must be structurally adequate, and
 - (b) must not, if it relates to an existing building, cause the building to contravene the *Building Code of Australia*, and
 - (c) must not be designated development, and
 - (d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the *Heritage Act 1977* or that is subject to an interim heritage order under the *Heritage Act 1977*.
- (4) Development that relates to an existing building that is classified under the *Building Code of Australia* as class 1b or class 2–9 is exempt development only if:
 - (a) the building has a current fire safety certificate or fire safety statement, or
 - (b) no fire safety measures are currently implemented, required or proposed for the building.
- (5) To be exempt development, the development must:
 - (a) be installed in accordance with the manufacturer's specifications, if applicable, and
 - (b) not involve the removal, pruning or other clearing of vegetation that requires a permit, development consent or other approval unless it is undertaken in accordance with a permit, development consent or other approval.

Note. See *State Environmental Planning Policy (Vegetation in Non-Rural Areas) 2017* and Part 5A of the *Local Land Services Act 2013*.
- (6) A heading to an item in Schedule 2 is part of that Schedule.

3.2 Complying development

- (1) The objective of this clause is to identify development as complying development.
- (2) Development specified in Part 1 of Schedule 3 that is carried out in compliance with:
 - (a) the development standards specified in relation to that development, and
 - (b) the requirements of this Part,is complying development.

Note. See also clause 5.8 (3) which provides that the conversion of fire alarms is complying development in certain circumstances.
- (3) To be complying development, the development must:
 - (a) be permissible, with development consent, in the zone in which it is carried out, and
 - (b) meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia*, and

- (c) have an approval, if required by the *Local Government Act 1993*, from the Council for an on-site effluent disposal system if the development is undertaken on unsewered land.
- (4) A complying development certificate for development specified in Part 1 of Schedule 3 is subject to the conditions (if any) set out or referred to in Part 2 of that Schedule.
- (5) A heading to an item in Schedule 3 is part of that Schedule.

3.3 Environmentally sensitive areas excluded

- (1) Exempt or complying development must not be carried out on any environmentally sensitive area for exempt or complying development.
- (2) For the purposes of this clause:
environmentally sensitive area for exempt or complying development means any of the following:
 - (a) the coastal waters of the State,
 - (b) a coastal lake,
 - (c) land within the coastal wetlands and littoral rainforests area (within the meaning of the *Coastal Management Act 2016*),
 - (d) land reserved as an aquatic reserve under the *Fisheries Management Act 1994* or as a marine park under the *Marine Parks Act 1997*,
 - (e) land within a wetland of international significance declared under the Ramsar Convention on Wetlands or within a World heritage area declared under the World Heritage Convention,
 - (f) land within 100 metres of land to which paragraph (c), (d) or (e) applies,
 - (g) land identified in this or any other environmental planning instrument as being of high Aboriginal cultural significance or high biodiversity significance,
 - (h) land reserved under the *National Parks and Wildlife Act 1974* or land acquired under Part 11 of that Act,
 - (i) land reserved or dedicated under the *Crown Lands Act 1989* for the preservation of flora, fauna, geological formations or for other environmental protection purposes,
 - (j) land that is a declared area of outstanding biodiversity value under the *Biodiversity Conservation Act 2016* or declared critical habitat under Part 7A of the *Fisheries Management Act 1994*.

Part 4 Principal development standards

4.1 Minimum subdivision lot size

- (1) The objectives of this clause are as follows:
 - (a) to reflect State, regional and local planning strategies relating to the provision of various sizes of land,
 - (b) to ensure that the subdivision of land is compatible with the desired future character of the area,
 - (c) to promote the ecologically, socially and economically sustainable subdivision of land,
 - (d) to ensure that the creation of parcels of land for development occurs in a manner that protects the physical characteristics of the land, does not create potential physical hazard or amenity issues for neighbours, can be satisfactorily serviced and will, through its potential cumulative effects, not create capacity problems for existing infrastructure.
- (2) This clause applies to a subdivision of any land shown on the Lot Size Map that requires development consent and that is carried out after the commencement of this Policy.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the Lot Size Map in relation to that land.
- (4) This clause does not apply in relation to the subdivision of any land:
 - (a) by the registration of a strata plan or strata plan of subdivision under the *Strata Schemes Development Act 2015*, or
 - (b) by any kind of subdivision under the *Community Land Development Act 1989*.

4.1AA Minimum subdivision lot size for community title schemes

- (1) The objectives of this clause are as follows:
 - (a) to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.
- (2) This clause applies to a subdivision (being a subdivision that requires development consent) under the *Community Land Development Act 1989* of land in any of the following zones:
 - (a) Zone RE1 Public Recreation,but does not apply to a subdivision by the registration of a strata plan.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies (other than any lot comprising association property within the meaning of the *Community Land Development Act 1989*) is not to be less than the minimum size shown on the Lot Size Map in relation to that land.
- (4) This clause applies despite clause 4.1.

4.1A Minimum subdivision lot size for strata plan schemes in certain rural, residential, recreation and environment protection zones

- (1) The objective of this clause is to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.
- (2) This clause applies to land in the following zones that is used, or proposed to be used, for residential accommodation or tourist and visitor accommodation:
 - (a) Zone RE1 Public Recreation.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies for a strata plan scheme (other than any lot comprising common property within the meaning of the *Strata Schemes (Freehold Development) Act 1973* or *Strata Schemes (Leasehold Development) Act 1986*) is not to be less than the minimum size shown on the Lot Size Map in relation to that land.

Note. Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that strata subdivision of a building in certain circumstances is specified complying development.

4.3 Height of buildings

- (1) The objectives of this clause are as follows:
 - (a) to establish maximum height limits for buildings,
 - (b) to permit building heights that encourage high quality urban form,
 - (c) to ensure that buildings and public areas continue to receive satisfactory exposure to sky and sunlight,
 - (d) to nominate heights that will provide an appropriate transition in built form and land use intensity,
 - (e) to ensure that taller buildings are located appropriately in relation to view corridors and view impacts and in a manner that is complementary to the natural topography of the area,
 - (f) to protect public open space from excessive overshadowing and to allow views to identify natural topographical features.
- (2) The height of a building on any land is not to exceed the maximum height shown for the land on the Height of Buildings Map.

Note. Clauses 4.6, 5.6, 8.2 and 8.4 provide exceptions to the maximum height shown for the relevant land on the Height of Buildings Map in certain circumstances.

4.4 Floor space ratio

- (1) The objectives of this clause are as follows:
 - (a) to establish standards for the maximum development density and intensity of land use,
 - (b) to control building density and bulk in relation to site area in order to achieve the desired future character for different locations,
 - (c) to minimise adverse environmental effects on the use or enjoyment of adjoining properties and the public domain,
 - (d) to maintain an appropriate visual relationship between new development and the existing character of areas or locations that are not undergoing, and are not likely to undergo, a substantial transformation,
 - (e) to provide an appropriate correlation between the size of a site and the extent of any development on that site,
 - (f) to facilitate design excellence by ensuring the extent of floor space in building envelopes leaves generous space for the articulation and modulation of design,

- (g) to ensure that the floor space ratio of buildings on land in Zone R1 General Residential reflects Council's desired building envelope,
 - (h) to encourage lot amalgamation and new development forms in Zone R1 General Residential with car parking below ground level.
- (2) The maximum floor space ratio for a building on any land is not to exceed the floor space ratio shown for the land on the Floor Space Ratio Map.
- Note.** Clauses 4.6, 8.4 and 8.13 provide exceptions to the maximum floor space ratio shown for the relevant land on the Floor Space Ratio Map in certain circumstances.

4.5 Calculation of floor space ratio and site area

(1) **Objectives**

The objectives of this clause are as follows:

- (a) to define *floor space ratio*,
- (b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to:
 - (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and
 - (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and
 - (iii) require community land and public places to be dealt with separately.

(2) **Definition of "floor space ratio"**

The *floor space ratio* of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area.

(3) **Site area**

In determining the site area of proposed development for the purpose of applying a floor space ratio, the *site area* is taken to be:

- (a) if the proposed development is to be carried out on only one lot, the area of that lot, or
- (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out.

In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development.

(4) **Exclusions from site area**

The following land must be excluded from the site area:

- (a) land on which the proposed development is prohibited, whether under this Policy or any other law,
- (b) community land or a public place (except as provided by subclause (7)).

(5) **Strata subdivisions**

The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation.

(6) **Only significant development to be included**

The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot.

(7) **Certain public land to be separately considered**

For the purpose of applying a floor space ratio to any proposed development on, above or below community land or a public place, the site area must only include an area that is on, above or below that community land or public place, and is occupied or physically affected by the proposed development, and may not include any other area on which the proposed development is to be carried out.

(8) **Existing buildings**

The gross floor area of any existing or proposed buildings within the vertical projection (above or below ground) of the boundaries of a site is to be included in the calculation of the total floor space for the purposes of applying a floor space ratio, whether or not the proposed development relates to all of the buildings.

(9) **Covenants to prevent “double dipping”**

When development consent is granted to development on a site comprised of 2 or more lots, a condition of the consent may require a covenant to be registered that prevents the creation of floor area on a lot (the restricted lot) if the consent authority is satisfied that an equivalent quantity of floor area will be created on another lot only because the site included the restricted lot.

(10) **Covenants affect consolidated sites**

If:

- (a) a covenant of the kind referred to in subclause (9) applies to any land (*affected land*), and
- (b) proposed development relates to the affected land and other land that together comprise the site of the proposed development,

the maximum amount of floor area allowed on the other land by the floor space ratio fixed for the site by this Policy is reduced by the quantity of floor space area the covenant prevents being created on the affected land.

(11) **Definition**

In this clause, *public place* has the same meaning as it has in the *Local Government Act 1993*.

4.6 Exceptions to development standards

(1) The objectives of this clause are as follows:

- (a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,
- (b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.

(2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.

(3) Development consent must not be granted for development that contravenes a development standard unless the consent authority has considered a written request

from the applicant that seeks to justify the contravention of the development standard by demonstrating:

- (a) that compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and
 - (b) that there are sufficient environmental planning grounds to justify contravening the development standard.
- (4) Development consent must not be granted for development that contravenes a development standard unless:
- (a) the consent authority is satisfied that:
 - (i) the applicant's written request has adequately addressed the matters required to be demonstrated by subclause (3), and
 - (ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out, and
 - (b) the concurrence of the Secretary has been obtained.
- (5) In deciding whether to grant concurrence, the Secretary must consider:
- (a) whether contravention of the development standard raises any matter of significance for State or regional environmental planning, and
 - (b) the public benefit of maintaining the development standard, and
 - (c) any other matters required to be taken into consideration by the Secretary before granting concurrence.
- (6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living if:
- (a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or
 - (b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.
- Note.** When this Policy was made it did not include all of these zones.
- (7) After determining a development application made pursuant to this clause, the consent authority must keep a record of its assessment of the factors required to be addressed in the applicant's written request referred to in subclause (3).
- (8) This clause does not allow development consent to be granted for development that would contravene any of the following:
- (a) a development standard for complying development,
 - (b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which *State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004* applies or for the land on which such a building is situated,
 - (c) clause 5.4,
 - (ca) clauses 8.4 (5), 8.10 and 8.11.

Part 5 Miscellaneous provisions

5.1 Relevant acquisition authority

- (1) The objective of this clause is to identify, for the purposes of section 27 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the *Land Acquisition (Just Terms Compensation) Act 1991* (**the owner-initiated acquisition provisions**).

Note. If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the *Land Acquisition (Just Terms Compensation) Act 1991* requires the authority to acquire the land.

- (2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the Land Reservation Acquisition Map (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

Type of land shown on Map	Authority of the State
Zone RE1 Public Recreation and marked "Local open space"	Council
Zone RE1 Public Recreation and marked "Regional open space"	The corporation constituted under section 8 of the Act
Zone SP2 Infrastructure and marked "Classified road"	Roads and Maritime Services
Zone SP2 Infrastructure and marked "Local road widening"	Council

- (3) Development on land acquired by an authority of the State under the owner-initiated acquisition provisions may, before it is used for the purpose for which it is reserved, be carried out, with development consent, for any purpose.

Note. If land, other than land specified in the Table to subclause (2), is required to be acquired under the owner-initiated acquisition provisions, the Minister for Planning and Infrastructure is required to take action to enable the designation of the acquiring authority under this clause. Pending the designation of the acquiring authority for the land, the acquiring authority is to be the authority determined by order of the Minister for Planning and Infrastructure (see section 21 of the *Land Acquisition (Just Terms Compensation) Act 1991*).

5.2 Classification and reclassification of public land

- (1) The objective of this clause is to enable the Council to classify or reclassify public land as "operational land" or "community land" in accordance with Part 2 of Chapter 6 of the *Local Government Act 1993*.

Note. Under the *Local Government Act 1993*, "public land" is generally land vested in or under the control of a council (other than roads, Crown reserves and commons). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the *Local Government Act 1993*. Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.

- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the *Local Government Act 1993*.
- (3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the *Local Government Act 1993*.

- (4) The public land described in Part 1 of Schedule 4:
 - (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and
 - (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.
- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except:
 - (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
 - (b) any reservations that except land out of the Crown grant relating to the land, and
 - (c) reservations of minerals (within the meaning of the *Crown Lands Act 1989*).

Note. In accordance with section 30 (2) of the *Local Government Act 1993*, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

5.3 Development near zone boundaries

- (1) The objective of this clause is to provide flexibility where the investigation of a site and its surroundings reveals that a use allowed on the other side of a zone boundary would enable a more logical and appropriate development of the site and be compatible with the planning objectives and land uses for the adjoining zone.
- (2) This clause applies to so much of any land that is within the relevant distance of a boundary between any 2 zones. The relevant distance is 10 metres.
- (3) This clause does not apply to:
 - (a) land in Zone RE1 Public Recreation, or
 - (a1) land in Zone B3 Commercial Core or Zone W2 Recreational Waterways, or
 - (b) land within the coastal zone, or
 - (c) land proposed to be developed for the purpose of sex services or restricted premises.
- (4) Despite the provisions of this Policy relating to the purposes for which development may be carried out, development consent may be granted to development of land to which this clause applies for any purpose that may be carried out in the adjoining zone, but only if the consent authority is satisfied that:
 - (a) the development is not inconsistent with the objectives for development in both zones, and
 - (b) the carrying out of the development is desirable due to compatible land use planning, infrastructure capacity and other planning principles relating to the efficient and timely development of land.
- (5) This clause does not prescribe a development standard that may be varied under this Policy.

5.4 Controls relating to miscellaneous permissible uses

(1) **Bed and breakfast accommodation**

If development for the purposes of bed and breakfast accommodation is permitted under this Policy, the accommodation that is provided to guests must consist of no more than 4 bedrooms.

Note. Any such development that provides for a certain number of guests or rooms may involve a change in the class of building under the *Building Code of Australia*.

(2) **Home businesses**

If development for the purposes of a home business is permitted under this Policy, the carrying on of the business must not involve the use of more than 30 square metres of floor area.

(3) **Home industries**

If development for the purposes of a home industry is permitted under this Policy, the carrying on of the home industry must not involve the use of more than 30 square metres of floor area.

(4) **Industrial retail outlets**

If development for the purposes of an industrial retail outlet is permitted under this Policy, the retail floor area must not exceed:

- (a) 10% of the gross floor area of the industry or rural industry located on the same land as the retail outlet, or
 - (b) 400 square metres,
- whichever is the lesser.

(5) **Farm stay accommodation**

If development for the purposes of farm stay accommodation is permitted under this Policy, the accommodation that is provided to guests must consist of no more than 4 bedrooms.

(6) **Kiosks**

If development for the purposes of a kiosk is permitted under this Policy, the gross floor area must not exceed 50 square metres.

(7) **Neighbourhood shops**

If development for the purposes of a neighbourhood shop is permitted under this Policy, the retail floor area must not exceed 100 square metres.

(7AA) **Neighbourhood supermarkets**

If development for the purposes of a neighbourhood supermarket is permitted under this Policy, the gross floor area must not exceed 1,000 square metres.

(8) **Roadside stalls**

If development for the purposes of a roadside stall is permitted under this Policy, the gross floor area must not exceed 30 square metres.

(9) **Secondary dwellings**

If development for the purposes of a secondary dwelling is permitted under this Policy, the total floor area of the dwelling (excluding any area used for parking) must not exceed whichever of the following is the greater:

- (a) 60 square metres,
- (b) 20% of the total floor area of the principal dwelling.

(10) **Artisan food and drink industry exclusion**

If development for the purposes of an artisan food and drink industry is permitted under this Policy in an industrial or rural zone, the floor area used for retail sales (not including any cafe or restaurant area) must not exceed:

- (a) 10% of the gross floor area of the industry, or
 - (b) 400 square metres,
- whichever is the lesser.

5.6 Architectural roof features

- (1) The objectives of this clause are as follows:
 - (a) to permit variations to maximum building height standards for roof features of visual interest,
 - (b) to ensure that roof features are decorative elements and that the majority of the roof is contained within the maximum building height standard.
- (2) Development that includes an architectural roof feature that exceeds, or causes a building to exceed, the height limits set by clause 4.3 may be carried out, but only with development consent.
- (3) Development consent must not be granted to any such development unless the consent authority is satisfied that:
 - (a) the architectural roof feature:
 - (i) comprises a decorative element on the uppermost portion of a building, and
 - (ii) is not an advertising structure, and
 - (iii) does not include floor space area and is not reasonably capable of modification to include floor space area, and
 - (iv) will cause minimal overshadowing, and
 - (b) any building identification signage or equipment for servicing the building (such as plant, lift motor rooms, fire stairs and the like) contained in or supported by the roof feature is fully integrated into the design of the roof feature.

5.7 Development below mean high water mark

- (1) The objective of this clause is to ensure appropriate environmental assessment for development carried out on land covered by tidal waters.
- (2) Development consent is required to carry out development on any land below the mean high water mark of any body of water subject to tidal influence (including the bed of any such water).

5.8 Conversion of fire alarms

- (1) This clause applies to a fire alarm system that can be monitored by Fire and Rescue NSW or by a private service provider.
- (2) The following development may be carried out, but only with development consent:
 - (a) converting a fire alarm system from connection with the alarm monitoring system of Fire and Rescue NSW to connection with the alarm monitoring system of a private service provider,

- (b) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with the alarm monitoring system of another private service provider,
 - (c) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with a different alarm monitoring system of the same private service provider.
- (3) Development to which subclause (2) applies is complying development if it consists only of:
- (a) internal alterations to a building, or
 - (b) internal alterations to a building together with the mounting of an antenna, and any support structure, on an external wall or roof of a building so as to occupy a space of not more than 450mm × 100mm × 100mm.
- (4) A complying development certificate for any such complying development is subject to a condition that any building work may only be carried out between 7.00 am and 6.00 pm on Monday to Friday and between 7.00 am and 5.00 pm on Saturday, and must not be carried out on a Sunday or a public holiday.
- (5) In this clause:
private service provider means a person or body that has entered into an agreement that is in force with Fire and Rescue NSW to monitor fire alarm systems.

5.10 Heritage conservation

Note. Heritage items (if any) are listed and described in Schedule 5. Heritage conservation areas (if any) are shown on the Heritage Map as well as being described in Schedule 5.

(1) **Objectives**

The objectives of this clause are as follows:

- (a) to conserve the environmental heritage of Gosford,
- (b) to conserve the heritage significance of heritage items and heritage conservation areas, including associated fabric, settings and views,
- (c) to conserve archaeological sites,
- (d) to conserve Aboriginal objects and Aboriginal places of heritage significance.

(2) **Requirement for consent**

Development consent is required for any of the following:

- (a) demolishing or moving any of the following or altering the exterior of any of the following (including, in the case of a building, making changes to its detail, fabric, finish or appearance):
 - (i) a heritage item,
 - (ii) an Aboriginal object,
 - (iii) a building, work, relic or tree within a heritage conservation area,
- (b) altering a heritage item that is a building by making structural changes to its interior or by making changes to anything inside the item that is specified in Schedule 5 in relation to the item,
- (c) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed,
- (d) disturbing or excavating an Aboriginal place of heritage significance,

- (e) erecting a building on land:
 - (i) on which a heritage item is located or that is within a heritage conservation area, or
 - (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance,
- (f) subdividing land:
 - (i) on which a heritage item is located or that is within a heritage conservation area, or
 - (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance.

(3) When consent not required

However, development consent under this clause is not required if:

- (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development:
 - (i) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or archaeological site or a building, work, relic, tree or place within the heritage conservation area, and
 - (ii) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place, archaeological site or heritage conservation area, or
- (b) the development is in a cemetery or burial ground and the proposed development:
 - (i) is the creation of a new grave or monument, or excavation or disturbance of land for the purpose of conserving or repairing monuments or grave markers, and
 - (ii) would not cause disturbance to human remains, relics, Aboriginal objects in the form of grave goods, or to an Aboriginal place of heritage significance, or
- (c) the development is limited to the removal of a tree or other vegetation that the Council is satisfied is a risk to human life or property, or
- (d) the development is exempt development.

(4) Effect of proposed development on heritage significance

The consent authority must, before granting consent under this clause in respect of a heritage item or heritage conservation area, consider the effect of the proposed development on the heritage significance of the item or area concerned. This subclause applies regardless of whether a heritage management document is prepared under subclause (5) or a heritage conservation management plan is submitted under subclause (6).

(5) Heritage assessment

The consent authority may, before granting consent to any development:

- (a) on land on which a heritage item is located, or
 - (b) on land that is within a heritage conservation area, or
 - (c) on land that is within the vicinity of land referred to in paragraph (a) or (b),
- require a heritage management document to be prepared that assesses the extent to which the carrying out of the proposed development would affect the heritage significance of the heritage item or heritage conservation area concerned.

(6) Heritage conservation management plans

The consent authority may require, after considering the heritage significance of a heritage item and the extent of change proposed to it, the submission of a heritage conservation management plan before granting consent under this clause.

(7) Archaeological sites

The consent authority must, before granting consent under this clause to the carrying out of development on an archaeological site (other than land listed on the State Heritage Register or to which an interim heritage order under the *Heritage Act 1977* applies):

- (a) notify the Heritage Council of its intention to grant consent, and
- (b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

(8) Aboriginal places of heritage significance

The consent authority must, before granting consent under this clause to the carrying out of development in an Aboriginal place of heritage significance:

- (a) consider the effect of the proposed development on the heritage significance of the place and any Aboriginal object known or reasonably likely to be located at the place by means of an adequate investigation and assessment (which may involve consideration of a heritage impact statement), and
- (b) notify the local Aboriginal communities, in writing or in such other manner as may be appropriate, about the application and take into consideration any response received within 28 days after the notice is sent.

(9) Demolition of nominated State heritage items

The consent authority must, before granting consent under this clause for the demolition of a nominated State heritage item:

- (a) notify the Heritage Council about the application, and
- (b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

(10) Conservation incentives

The consent authority may grant consent to development for any purpose of a building that is a heritage item or of the land on which such a building is erected, or for any purpose on an Aboriginal place of heritage significance, even though development for that purpose would otherwise not be allowed by this Policy, if the consent authority is satisfied that:

- (a) the conservation of the heritage item or Aboriginal place of heritage significance is facilitated by the granting of consent, and
- (b) the proposed development is in accordance with a heritage management document that has been approved by the consent authority, and
- (c) the consent to the proposed development would require that all necessary conservation work identified in the heritage management document is carried out, and
- (d) the proposed development would not adversely affect the heritage significance of the heritage item, including its setting, or the heritage significance of the Aboriginal place of heritage significance, and
- (e) the proposed development would not have any significant adverse effect on the amenity of the surrounding area.

5.11 Bush fire hazard reduction

Bush fire hazard reduction work authorised by the *Rural Fires Act 1997* may be carried out on any land without development consent.

Note. The *Rural Fires Act 1997* also makes provision relating to the carrying out of development on bush fire prone land.

5.12 Infrastructure development and use of existing buildings of the Crown

- (1) This Policy does not restrict or prohibit, or enable the restriction or prohibition of, the carrying out of any development, by or on behalf of a public authority, that is permitted to be carried out with or without development consent, or that is exempt development, under *State Environmental Planning Policy (Infrastructure) 2007*.
- (2) This Policy does not restrict or prohibit, or enable the restriction or prohibition of, the use of existing buildings of the Crown by the Crown.

Part 7 Additional local provisions—generally

7.1 Acid sulfate soils

- (1) The objective of this clause is to ensure that development does not disturb, expose or drain acid sulfate soils and cause environmental damage.
- (2) Development consent is required for the carrying out of works described in the Table to this subclause on land shown on the Acid Sulfate Soils Map as being of the class specified for those works.

Class of land	Works
1	Any works.
2	Works below the natural ground surface. Works by which the watertable is likely to be lowered.
3	Works more than 1 metre below the natural ground surface. Works by which the watertable is likely to be lowered more than 1 metre below the natural ground surface.
4	Works more than 2 metres below the natural ground surface. Works by which the watertable is likely to be lowered more than 2 metres below the natural ground surface.
5	Works within 500 metres of adjacent Class 1, 2, 3 or 4 land that is below 5 metres Australian Height Datum and by which the watertable is likely to be lowered below 1 metre Australian Height Datum on adjacent Class 1, 2, 3 or 4 land.

- (3) Development consent must not be granted under this clause for the carrying out of works unless an acid sulfate soils management plan has been prepared for the proposed works in accordance with the Acid Sulfate Soils Manual and has been provided to the consent authority.
- (4) Despite subclause (2), development consent is not required under this clause for the carrying out of works if:
 - (a) a preliminary assessment of the proposed works prepared in accordance with the Acid Sulfate Soils Manual indicates that an acid sulfate soils management plan is not required for the works, and
 - (b) the preliminary assessment has been provided to the consent authority and the consent authority has confirmed the assessment by notice in writing to the person proposing to carry out the works.
- (5) Despite subclause (2), development consent is not required under this clause for the carrying out of any of the following works by a public authority (including ancillary work such as excavation, construction of access ways or the supply of power):
 - (a) emergency work, being the repair or replacement of the works of the public authority, required to be carried out urgently because the works have been damaged, have ceased to function or pose a risk to the environment or to public health and safety,

- (b) routine maintenance work, being the periodic inspection, cleaning, repair or replacement of the works of the public authority (other than work that involves the disturbance of more than 1 tonne of soil),
 - (c) minor work, being work that costs less than \$20,000 (other than drainage work).
- (6) Despite subclause (2), development consent is not required under this clause to carry out any works if:
- (a) the works involve the disturbance of less than 1 tonne of soil, and
 - (b) the works are not likely to lower the watertable.

7.2 Flood planning

- (1) The objectives of this clause are as follows:
- (a) to minimise the flood risk to life and property associated with the use of land,
 - (b) to allow development on land that is compatible with the land's flood hazard, taking into account projected changes as a result of climate change,
 - (c) to avoid significant adverse impacts on flood behaviour and the environment.
- (2) This clause applies to land at or below the flood planning level.
- (3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
- (a) is compatible with the flood hazard of the land, and
 - (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
 - (c) incorporates appropriate measures to manage risk to life from flood, and
 - (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
 - (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
- (4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

7.3 Floodplain risk management

- (1) The objectives of this clause are as follows:
- (a) in relation to development with particular evacuation or emergency response issues, to enable evacuation of land subject to flooding in events exceeding the flood planning level,
 - (b) to protect the operational capacity of emergency response facilities and critical infrastructure during extreme flood events.
- (2) This clause applies to land between the flood planning level and the level of a probable maximum flood, but does not apply to land subject to the discharge of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.
- (3) Development consent must not be granted to development for the following purposes on land to which this clause applies unless the consent authority is satisfied that the development will not, in flood events exceeding the flood planning level, affect the safe occupation of, and evacuation from, the land:

- (a) caravan parks,
 - (b) correctional facilities,
 - (c) emergency services facilities,
 - (d) group homes,
 - (e) hospitals,
 - (f) residential care facilities,
 - (g) tourist and visitor accommodation.
- (4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

7.4 Short-term rental accommodation

- (1) The objective of this clause is to require development consent for the temporary use of dwellings containing 5 or 6 bedrooms as short-term rental accommodation.
- (2) Despite any other provision of this Policy, development consent may be granted for the use of a dwelling containing 5 or 6 bedrooms as short-term rental accommodation.

7.5 Location of sex services premises

- (1) The objective of this clause is to minimise land use conflicts and adverse amenity impacts by providing a reasonable level of separation between sex services premises, specified land uses and places regularly frequented by children.
- (2) In deciding whether to grant development consent to development for the purposes of sex services premises, the consent authority must consider the following:
 - (a) whether the premises will be located on land that adjoins, is directly opposite or is separated only by a local road from land:
 - (i) in Zone R1 General Residential, Zone R2 Low Density Residential or Zone RE1 Public Recreation, or
 - (ii) used for the purposes of a centre-based child care facility, a community facility, a school or a place of public worship,
 - (b) the impact of the proposed development and its hours of operation on any place likely to be regularly frequented by children:
 - (i) that adjoins the proposed development, or
 - (ii) that can be viewed from the proposed development, or
 - (iii) from which a person can view the proposed development.
- (3) Despite subclause (2), if the sex services premises are proposed to be located in a building that contains one or more dwellings, development consent must not be granted to development for the purpose of sex services premises unless the sex services premises can only be accessed by a separate street entrance that does not provide access to the rest of the building.

Part 8 Gosford City Centre

8.1 Minimum building street frontage in Zone B6

- (1) The objective of this clause is to encourage the amalgamation of smaller lots to achieve the efficient development of land and design of buildings.
- (2) Development consent must not be granted to the erection of a building on land in Zone B6 Enterprise Corridor unless the building will have a street frontage of at least 24 metres.
- (3) Despite subclause (2), development consent may be granted for the erection of a building on land in Zone B6 Enterprise Corridor if the consent authority is satisfied that:
 - (a) due to the physical constraints of the land or adjoining land, it is not possible for the building to have a street frontage of at least 24 metres, and
 - (b) the development is consistent with the aims of this Policy.

8.2 Building height on Mann Street

Development consent must not be granted to the erection of a building on land identified as “Mann Street” on the Additional Provisions Map unless the building height will not exceed 3 storeys at the building’s street frontage to Mann Street.

8.3 Design excellence

- (1) The objective of this clause is to ensure that development exhibits design excellence that contributes to the natural, cultural, visual and built character values of Gosford City Centre.
- (2) This clause applies to development involving the erection of a new building or external alterations to an existing building.
- (3) Development consent must not be granted for development to which this clause applies unless the consent authority considers that the development exhibits design excellence.
- (4) In considering whether the development exhibits design excellence, the consent authority must have regard to the following matters:
 - (a) whether a high standard of architectural design, materials and detailing appropriate to the building type and location will be achieved,
 - (b) whether the form and external appearance of the development will improve the quality and amenity of the public domain,
 - (c) whether the development is consistent with the objectives of clauses 8.10 and 8.11,
 - (d) any relevant requirements of applicable development control plans,
 - (e) how the development addresses the following matters:
 - (i) the suitability of the land for development,
 - (ii) existing and proposed uses and use mix,
 - (iii) heritage issues and streetscape constraints,
 - (iv) the relationship of the development with other development (existing or proposed) on the same site or on neighbouring sites in terms of separation, setbacks, amenity and urban form,
 - (v) bulk, massing and modulation of buildings,
 - (vi) street frontage heights,

- (vii) environmental impacts such as sustainable design, overshadowing, wind and reflectivity,
- (viii) the achievement of the principles of ecologically sustainable development,
- (ix) pedestrian, cycle, vehicular and service access, circulation and requirements,
- (x) the impact on, and any proposed improvements to, the public domain.

8.4 Exceptions to height and floor space in Zones B3, B4 and B6

- (1) This clause applies to land in the following zones:
 - (a) Zone B3 Commercial Core,
 - (b) Zone B4 Mixed Use,
 - (c) Zone B6 Enterprise Corridor.
- (2) Development consent may be granted to development on land to which this clause applies that results in a building with a floor space ratio that exceeds the floor space ratio shown for the land on the Floor Space Ratio Map if:
 - (a) the site area of the development is less than 2,800 square metres or the building has a street frontage of 36 metres or less, and
 - (b) the floor space ratio does not exceed the ratio calculated in accordance with $2 + (X \times 0.02):1$, where X is the percentage of the gross floor area of the building that is used for a purpose other than residential purposes.
- (3) Development consent may be granted to development on land to which this clause applies that results in a building with a height that exceeds the maximum height shown for the land on the Height of Buildings Map, by an amount to be determined by the consent authority, if:
 - (a) the site area of the development is at least 2,800 square metres but less than 5,600 square metres, or the building will have a street frontage of at least 36 metres, and
 - (b) a design review panel reviews the development, and
 - (c) the consent authority takes into account the findings of the design review panel, and
 - (d) the consent authority is satisfied with the amount of floor space that will be provided for the purposes of commercial premises, and
 - (e) the consent authority is satisfied that the building meets or exceeds minimum building sustainability and environmental performance standards.
- (4) Development consent may be granted to development that results in a building with a height that exceeds the maximum height shown for the land on the Height of Buildings Map, or a floor space ratio that exceeds the floor space ratio shown for the land on the Floor Space Ratio Map, or both, by an amount to be determined by the consent authority, if:
 - (a) the site area of the development is at least 5,600 square metres, and
 - (b) a design review panel reviews the development, and
 - (c) if required by the design review panel, an architectural design competition is held in relation to the development, and
 - (d) the consent authority takes into account the findings of the design review panel and, if held, the results of the architectural design competition, and
 - (e) the consent authority is satisfied with the amount of floor space that will be provided for the purposes of commercial premises, and

- (f) the consent authority is satisfied that the building meets or exceeds minimum building sustainability and environmental performance standards.
- (5) Despite any other provision of this Plan and except as otherwise provided by this clause, development on land to which this clause applies on a site having an area of 2,800 square metres or more or a street frontage of 36 metres or more (or both) must not result in either or both of the following:
 - (a) a building with a height that exceeds the maximum height shown for the land on the Height of Buildings Map,
 - (b) a building with a floor space ratio that exceeds the floor space ratio shown for the land on the Floor Space Ratio Map.
- (6) In this clause, *design review panel* means a panel of 3 or more persons established by the consent authority for the purposes of this clause and approved by the NSW Government Architect.

8.5 Car parking in Zones B3 and B4

- (1) Development consent must not be granted for development on land in Zone B3 Commercial Core or Zone B4 Mixed Use that involves the erection of a new building or an alteration or addition to an existing building that increases the gross floor area of the building unless:
 - (a) at least 1 car parking space is provided for every 75 square metres of the gross floor area of the building that is to be used for commercial activities, and
 - (b) at least 1 car parking space is provided for every 40 square metres of the gross floor area of the building that is to be used for the purpose of retail premises.
- (2) Car parking that is required to be provided must be provided on site unless the consent authority is satisfied that the provision of car parking is adequately provided elsewhere.
- (3) In this clause, a building's *gross floor area* includes:
 - (a) any area of the building that is used for car parking that is at or above street level, unless the car parking is not visible from the street and is a condition of a development consent, and
 - (b) any area of the building that is used for car parking below ground level (existing), unless the car parking is a condition of a development consent, but does not include any Council-owned public car parking.
- (4) In this clause, *commercial activities*, in relation to the use of a building, means the use of the building for the purposes of office premises, business premises, hotel or motel accommodation (but not hotel or motel accommodation that is subdivided under a strata scheme), food and drink premises or other like uses or a combination of such uses.

8.6 Active street frontages

- (1) Development consent must not be granted to the erection of a building, or the change of use of a building, on land identified as "Active street frontage" on the Active Street Frontages Map unless the consent authority is satisfied that the building will have an active street frontage after its erection or change of use.
- (2) Despite subclause (1), an active street frontage is not required for any part of a building that is used for any of the following:
 - (a) entrances and lobbies (including as part of mixed use development),
 - (b) access for fire services,

- (c) access for a back street or service lane,
- (d) vehicular access.

8.7 Non-residential ground and first floor of buildings in Zone B3

Development consent must not be granted to the erection of a building, or the change of use of a building, on land in Zone B3 Commercial Core unless the consent authority is satisfied that the ground floor and first floor of the building will not be used for the purpose of residential accommodation.

8.8 Converting serviced apartments to a residential flat building

- (1) The objective of this clause is to prevent substandard residential accommodation occurring through the conversion of serviced apartments to residential flat buildings.
- (2) Development consent must not be granted for the strata subdivision, under the *Strata Schemes (Freehold Development) Act 1973* or the *Strata Schemes (Leasehold Development) Act 1986*, of a building or part of a building that is being, or has been, used for serviced apartments for use as a residential flat building unless the consent authority has considered the following in relation to the residential flat building:
 - (a) the design quality principles set out in Schedule 1 to *State Environmental Planning Policy No 65—Design Quality of Residential Apartment Development*,
 - (b) the design principles of the Apartment Design Guide (within the meaning of that Policy).

8.9 Residential flat buildings in Zone B6

- (1) The objective of this clause is to ensure that development for residential flat buildings on land in Zone B6 Enterprise Corridor forms part of mixed use developments and does not impact on the activation of street frontages.
- (2) This clause applies to land in Zone B6 Enterprise Corridor.
- (3) Development consent must not be granted for development for the purpose of a residential flat building on land to which this clause applies unless the consent authority is satisfied that:
 - (a) the residential flat building is part of a mixed use development, and
 - (b) no part of the ground floor of the building that is facing a street is used for residential accommodation.

8.10 Solar access to key public open spaces

- (1) The objectives of this clause are:
 - (a) to protect and enhance sun access to key public open spaces, and
 - (b) to prevent adverse cumulative impacts of development.
- (2) Development consent may be granted to development if the development will not result in:
 - (a) any more than 40 per cent of Kibble Park receiving less than 4 hours of sunlight between 9 am and 3 pm at the winter solstice, and
 - (b) any more than 30 per cent of Leagues Club Field receiving less than 4 hours of sunlight between 9 am and 3 pm at the winter solstice.
- (3) In this clause:
Kibble Park means the land identified as “Kibble Park” on the Additional Provisions Map.

Leagues Club Field means the land identified as “Leagues Club Field” on the Additional Provisions Map.

8.11 Key vistas and view corridors

- (1) The objective of this clause is to protect and enhance key vistas and view corridors in Gosford City Centre.
- (2) Development consent must not be granted to development unless the consent authority is satisfied that the development is consistent with the objectives of this clause.

8.12 Community infrastructure

- (1) Development may be carried out without development consent on land to which this Policy applies, other than land in a heritage conservation area, land containing a heritage item or land that is an environmentally sensitive area for exempt and complying development by or on behalf of:
 - (a) the council, or
 - (b) the Central Coast Regional Development Corporation (constituted under the *Growth Centres (Development Corporations) Act 1974*).
- (2) Subclause (1) does not apply to the following development:
 - (a) the erection of a class 1–9 building under the *Building Code of Australia*,
 - (b) development that is not exempt development under *State Environmental Planning Policy (Infrastructure) 2007* and has a capital value of more than \$1,000,000.

8.13 Floor space ratio in Zone R1

- (1) This clause applies to land in Zone R1 General Residential.
- (2) Despite clause 4.4, the maximum floor space ratio for a building that has a street frontage of at least 24 metres is:
 - (a) if the building is on a site area of at least 1,000 square metres, but less than 1,500 square metres:
 - (i) if the maximum floor space ratio shown for the land on the Floor Space Ratio Map is at least 2.25:1—2:1, or
 - (ii) if the maximum floor space ratio shown for the land on the Floor Space Ratio Map is at least 2:1, but less than 2.25:1—1.5:1, or
 - (iii) in any other case—3:1, or
 - (b) if the building is on a site area of at least 1,500 square metres, but less than 2,000 square metres:
 - (i) if the maximum floor space ratio shown for the land on the Floor Space Ratio Map is at least 2.25:1—2:1, or
 - (ii) if the maximum floor space ratio shown for the land on the Floor Space Ratio Map is at least 2:1, but less than 2.25:1—1.5:1, or
 - (iii) in any other case—3.5:1, or
 - (c) if the building is on a site area of at least 2,000 square metres, but less than 2,500 square metres:
 - (i) if the maximum floor space ratio shown for the land on the Floor Space Ratio Map is at least 2.25:1—2:1, or
 - (ii) in any other case—4:1.

- (3) If a building for which the maximum floor space ratio on the Floor Space Ratio Map is as specified in Column 1 of the Table to this subclause:
- (a) is on a site area of less than 1,000 square metres, or
 - (b) has no street frontage greater than 24 metres,
- the maximum floor space ratio for the building is the ratio specified opposite that ratio in Column 2 of that Table.

Schedule 1 Additional permitted uses

(Clause 2.5)

1 Use of certain land at “Breakwater”, Gosford

- (1) This clause applies to land identified as “Breakwater” on the Additional Permitted Uses Map that is in Zone W2 Recreational Waterways.
- (2) Development for the purposes of business premises, charter and tourism boating facilities, centre-based child care facilities, hotel or motel accommodation, jetties, office premises, roads, shops and wharf or boating facilities is permitted with development consent.

2 Use of certain land at Leagues Club Field, Gosford

- (1) This clause applies to land at Leagues Club Field, being Lots 7035 and 7036, DP 1020068 and Lot 5, Section 81, DP 758466.
- (2) Development for the purposes of recreation facilities (major) and recreation facilities (outdoor) is permitted with development consent.

3 Use of certain land in Zone B4

- (1) This clause applies to land in Zone B4 Mixed Use.
- (2) Development for the purposes of car parks is permitted with development consent.

Schedule 2 Exempt development

(Clause 3.1)

Note 1. *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* specifies exempt development under that Policy. The Policy has State-wide application. This Schedule contains additional exempt development not specified in that Policy.

Note 2. Exempt development may be carried out without the need for development consent under the Act. Such development is not exempt from any approval, licence, permit or authority that is required under any other Act and adjoining owners' property rights and the common law still apply.

Recreation facilities (indoor, major or outdoor)

Must be consistent with any applicable plan of management prepared under the *Local Government Act 1993* for the land.

Outdoor lighting

- (1) Must not be for tennis courts or a sports field.
- (2) Must be located or shielded so as not to cause a nuisance to adjoining premises.

Short-term rental accommodation

- (1) The subject dwelling must be located in a zone where dwellings are permitted with consent.
- (2) The dwelling must not contain more than 4 bedrooms.
- (3) The dwelling must be serviced by a general waste garbage bin of at least 240L capacity.
- (4) If the dwelling is located in a bush fire prone area, a bush fire evacuation plan must be attached to the dwelling in a prominent location.
- (5) There must not have been more than 2 written complaints to the Council concerning the activities taking place on the property from the occupiers of separate dwellings located within 40m of the subject dwelling within the preceding 12 months.

Solid fuel heaters

- (1) Must comply with AS/NZS 4013:1999, *Domestic solid fuel burning appliances—Method for determination of flue gas emission*.
- (2) Rain excluders must not impede the vertical flow of exhaust gases.
- (3) Must be installed in accordance with AS/NZS 2918:2001, *Domestic solid fuel burning appliances—Installation*.
- (4) Chimney or flue must be a minimum of 300mm above any structure within a 3.6m horizontal radius.
- (5) Top of chimney or flue must be at least 1m higher than any other building within a 15m radius.
- (6) Maximum height of chimney or flue—6m above roof.

Temporary events or activities on land owned or managed by Council (including erection of associated temporary structures)

- (1) Must be located on land owned by the Council or for which the Council has care, control or management (including roads and Crown land).
- (2) Must be consistent with any applicable plan of management prepared under the *Local Government Act 1993* for the land.

- (3) Must be in accordance with a licence or hire agreement issued by the Council.
- (4) Must have obtained all required approvals.
Note. Other approvals may be required, and must be obtained, under other Acts, including the *Local Government Act 1993*, the *Roads Act 1993* and the *Crown Lands Act 1989*.

Schedule 3 Complying development

(Clause 3.2)

Note. *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* specifies complying development and the complying development conditions for that development under that Policy. The Policy has State-wide application. This Schedule contains additional complying development not specified in that Policy.

Part 1 Types of development

(When this Plan was made this Part was blank)

Part 2 Complying development certificate conditions

Note. Complying development must comply with the requirements of the Act, the regulations under the Act and this Plan.

General conditions

Any development specified in Part 1 is subject to the same conditions set out in Schedule 6 to *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*.

Dictionary

(Clause 1.4)

Note. The Act and the *Interpretation Act 1987* contain definitions and other provisions that affect the interpretation and application of this Policy.

Aboriginal object means any deposit, object or other material evidence (not being a handicraft made for sale) relating to the Aboriginal habitation of an area of New South Wales, being habitation before or concurrent with (or both) the occupation of that area by persons of non-Aboriginal extraction, and includes Aboriginal remains.

Aboriginal place of heritage significance means an area of land, the general location of which is identified in an Aboriginal heritage study adopted by the Council after public exhibition and that may be shown on the Heritage Map, that is:

- (a) the site of one or more Aboriginal objects or a place that has the physical remains of pre-European occupation by, or is of contemporary significance to, the Aboriginal people. It may (but need not) include items and remnants of the occupation of the land by Aboriginal people, such as burial places, engraving sites, rock art, midden deposits, scarred and sacred trees and sharpening grooves, or
- (b) a natural Aboriginal sacred site or other sacred feature. It includes natural features such as creeks or mountains of long-standing cultural significance, as well as initiation, ceremonial or story places or areas of more contemporary cultural significance.

Note. The term may include (but is not limited to) places that are declared under section 84 of the *National Parks and Wildlife Act 1974* to be Aboriginal places for the purposes of that Act.

acid sulfate soils means naturally occurring sediments and soils containing iron sulfides (principally pyrite) or their precursors or oxidation products, whose exposure to oxygen leads to the generation of sulfuric acid (for example, by drainage or excavation).

Acid Sulfate Soils Manual means the manual by that name published by the Acid Sulfate Soils Management Advisory Committee and made publicly available.

Acid Sulfate Soils Map means the State Environmental Planning Policy (Gosford City Centre) 2018 Acid Sulfate Soils Map.

Active Street Frontages Map means the State Environmental Planning Policy (Gosford City Centre) 2018 Active Street Frontages Map 2018.

Additional Permitted Uses Map means the State Environmental Planning Policy (Gosford City Centre) 2018 Additional Permitted Uses Map.

Additional Provisions Map means the State Environmental Planning Policy (Gosford City Centre) 2018 Additional Provisions Map.

advertisement has the same meaning as in the Act.

Note. The term is defined as a sign, notice, device or representation in the nature of an advertisement visible from any public place or public reserve or from any navigable water.

advertising structure has the same meaning as in the Act.

Note. The term is defined as a structure used or to be used principally for the display of an advertisement. Advertising structures are a type of **signage**—see the definition of that term in this Dictionary.

affordable housing has the same meaning as in the Act.

Note. The term is defined as housing for very low income households, low income households or moderate income households, being such households as are prescribed by the regulations or as are provided for in an environmental planning instrument.
