## Explanatory note

Fisheries Management Amendment (Threatened Species Conservation) Order (No 1) 2002

Explanatory note

---

The object of this Order is to list the installation and operation of instream structures and other mechanisms that alter natural flow regimes of rivers and streams in Schedule 6 to the Act (Key threatening processes), as recommended by the Committee.

The Committee has recommended this listing because it considers that the process adversely affects 2 or more threatened species, populations or ecological communities, or could cause species, populations or ecological communities that are not threatened to become threatened.
