

New South Wales

Threatened Species Conservation Act 1995 No 101

Notice of Final Determination and Amendment of Schedule 3 to Act

The Scientific Committee established under the *Threatened Species Conservation Act 1995* has, in pursuance of Division 3 of Part 2 of that Act, made a final determination to insert the following matter in Schedule 3 to that Act (Key threatening processes) and, accordingly, that Schedule is amended as set out in Annexure “A” to this Notice:

Alteration to the natural flow regimes of rivers and streams and their floodplains and wetlands (as described in the final determination of the Scientific Committee to list the threatening process)

The final determination to insert this matter in Schedule 3 has been made because the Scientific Committee is of the opinion that alteration to the natural flow regimes of rivers and streams and their floodplains and wetlands adversely affects two or more threatened species, populations or ecological communities, or could cause species, populations or ecological communities that are not threatened to become threatened.

Copies of the final determination may be inspected during business hours at:

The National Parks Centre
102 George St
The Rocks
Sydney

and at Area Offices or Visitor Centres of the National Parks and Wildlife Service.

Signed at Sydney, this 2nd day of May 2002.

2002 No 336

Threatened Species Conservation Act 1995 No 101—Final Determination

Dr Chris Dickman
Chairperson
Scientific Committee

Annexure “A”

Schedule 3 to the *Threatened Species Conservation Act 1995* is amended by inserting in alphabetical order the matter:

Alteration to the natural flow regimes of rivers and streams and their floodplains and wetlands (as described in the final determination of the Scientific Committee to list the threatening process)

Note. See Erratum of Final Determination on page 3534 of Gazette of 7 June 2002.
