

Notice of Final Determination and Amendment of Schedule 3 to Act

under the

Threatened Species Conservation Act 1995 No 101

The Scientific Committee established under the *Threatened Species Conservation Act 1995* has, in pursuance of Division 3 of Part 2 of that Act, made a final determination to insert the following matter as a key threatening process in Schedule 3 to that Act and, accordingly, that Schedule is amended as set out in Annexure "A" to this Notice:

Infection of native plants by *Phytophthora cinnamomi*

The final determination to insert this matter in Schedule 3 has been made because the Scientific Committee is of the opinion that infection of native plants by *Phytophthora cinnamomi* adversely affects two or more threatened species or ecological communities and could cause species that are not threatened to become threatened.

Copies of the final determination may be inspected during business hours at:

The National Parks Centre
102 George St
The Rocks
Sydney

and at Area Offices or Visitor Centres of the National Parks and Wildlife Service.

Signed at Sydney, this 4th day of December 2002.

2002 No 957

Notice of Final Determination and Amendment of Schedule 3 to Act

Dr Chris Dickman
Chairperson
Scientific Committee

Annexure "A"

Schedule 3 to the *Threatened Species Conservation Act 1995* is amended by inserting in alphabetical order the matter:

Infection of native plants by *Phytophthora cinnamomi*

BY AUTHORITY
