

New South Wales

## Notice of Final Determination

under the

Threatened Species Conservation Act 1995

The Scientific Committee established under the *Threatened Species Conservation Act 1995* has made a final determination to insert the following ecological communities as critically endangered ecological communities under that Act and, accordingly, Schedule 1A to that Act is amending by inserting in Part 2 in alphabetical order:

Mallee and Mallee-Broombush dominated woodland and shrubland, lacking *Triodia*, in the NSW South Western Slopes Bioregion (as described in the final determination of the Scientific Committee to list the ecological community)

Marsh Club-rush Sedgeland in the Darling Riverine Plains Bioregion (as described in the final determination of the Scientific Committee to list the ecological community)

Porcupine Grass – Red Mallee – Gum Coolabah hummock grassland/low sparse woodland in the Broken Hill Complex Bioregion (as described in the final determination of the Scientific Committee to list the ecological community)

This Notice commences on the day on which it is published in the Gazette.

Dated, this 8th day of September 2010.

Dr Richard Major  
Chairperson of the Scientific Committee
