Prevention of Cruelty to Animals Regulation 2025

under the

Prevention of Cruelty to Animals Act 1979

Her Excellency the Governor, with the advice of the Executive Council, has made the following regulation under the *Prevention of Cruelty to Animals Act 1979*.

TARA MORIARTY, MLC
Minister for Agriculture

Explanatory note

The object of this regulation is to remake, with amendments, the *Prevention of Cruelty to Animals Regulation 2012*, which is repealed on 1 February 2025 by the *Subordinate Legislation Act 1989*, section 10A(1).

This regulation deals with the following matters—

- (a) the welfare of domestic chickens kept for commercial egg production,
- (b) the circumstances in which the following procedures may be carried out on animals—
 - (i) pinioning of birds' wings,
 - (ii) tail docking of cows, heifers and calves,
 - (iii) debarking of dogs,
 - (iv) declawing of cats,
- (c) the register required to be kept by veterinary practitioners or the employers of veterinary practitioners in relation to tail docking of cows, heifers and calves, debarking of dogs and declawing of cats,
- (d) the businesses that are *animal trades* for the *Prevention of Cruelty to Animals Act 1979 (the Act)*, including pet shops, animal boarding and breeding establishments, boarding stables, riding centres and commercial pig establishments, and the welfare of the animals involved,
- (e) evidence of failure to give food or shelter to ruminant stock animals during a drought, flood or other emergency,
- (f) evidence relating to the offence of keeping or being in charge of an animal for use—
 - (i) as a lure or kill for blooding greyhounds, or
 - (ii) in connection with trialling, training or racing coursing dogs,
- (g) the way in which police officers may exercise powers under the Act to detain a vessel or vehicle and the way in which police officers exercising powers must be identified,
- (h) the power of inspectors to examine ruminant stock animals that inspectors suspect have not been given proper and sufficient food or drink during a drought, flood or other emergency,

- (i) the persons who may accompany and aid an inspector exercising, in residential premises, the inspector's powers under the Act,
- (j) offences under the Act for which penalty notices may be issued and the amounts of the fines payable under the penalty notices,
- (k) guidelines relating to the welfare of species of farm or companion animals, compliance or non-compliance with which may be admitted as evidence of compliance or non-compliance with the Act or this regulation,
- (l) reporting requirements of charitable organisations that are approved for the purposes of enabling officers of the organisation to exercise law enforcement powers under the Act,
- (m) electrical devices that a person must not use on an animal or sell or possess,
- (n) exemptions for rodeos from certain offences under the Act, including offences relating to bull-fighting and animal baiting,
- (o) an exemption from the offence of organising or participating in a steeplechase or hurdle race,
- (p) the conveyance of stock animals,
- (q) the use of animals in film and theatrical performances,
- (r) matters relating to exemptions from the limit on the maximum number of female adult dogs that may be kept on dog premises, including reporting requirements and codes of practice for exemption holders,
- (s) savings and formal matters.

This regulation is made under the *Prevention of Cruelty to Animals Act 1979*, including section 4(1), definition of **animal trade**, sections 4(2A), 8(3), 12(2) and 12A(1), section 16(1), definition of **electrical device** and sections 21(2C), 23(1), 23N, 23Q, 24H(4), 24I(b), 24M(b), 24T(1)(d), 33E, 34A(1), 34B(3) and 35, the general regulation-making power.

Prevention of Cruelty to Animals Regulation 2025

under the

Prevention of Cruelty to Animals Act 1979

Part 1 Preliminary

1 Name of regulation

This regulation is the *Prevention of Cruelty to Animals Regulation 2025*.

2 Commencement

This regulation commences on 1 February 2025.

Note— This regulation replaces the *Prevention of Cruelty to Animals Regulation 2012*, which is repealed on 1 February 2025 by the *Subordinate Legislation Act 1989*, section 10A(1).

3 Definitions

In this regulation—

cage, for Part 2—see section 4.

floor area, for Part 2—see section 4.

fowl, for Part 2—see section 4.

furnished cage, for Part 2—see section 4.

laying fowl, for Part 2—see section 4.

multi-bird nest area, for Part 2—see section 4.

nest area, for Part 2—see section 4.

non-cage housing, for Part 2—see section 4.

pre-2025 cage, for Part 2—see section 4.

single-bird nest area, for Part 2—see section 4.

the Act means the *Prevention of Cruelty to Animals Act 1979*.

useable floor area, for Part 2—see section 4.

Note— The Act and the *Interpretation Act 1987* contain definitions and other provisions that affect the interpretation and application of this regulation.

Part 2 Conditions for fowl confined for egg production

Division 1 Preliminary

4 Definitions

In this part—

cage means a furnished cage or a pre-2025 cage.

floor area, of a cage or non-cage housing, includes the area under an egg baffle, manure deflector, drinking nipple or vee-trough for water.

fowl means a domesticated chicken (*Gallus gallus*).

furnished cage means a cage at the place where laying fowl are being confined that was installed at the place on or after 1 February 2025.

laying fowl means any fowl being bred, kept or used for the purpose of commercial egg production.

multi-bird nest area means a nest area designed for use by 2 or more fowl at any 1 time.

nest area means an area to which laying fowl have access that is provided as a dedicated space that the fowl may use for nesting and laying.

non-cage housing, in relation to laying fowl, means a structure, other than a cage, within which the laying fowl are confined.

Example of structure within which laying fowl may be confined— a shed

pre-2025 cage means a cage at the place where laying fowl are being confined that was installed at the place before 1 February 2025.

single-bird nest area means a nest area designed for use by a single fowl at any 1 time.

useable floor area—

(a) of a cage—means the floor area of the cage excluding the following—

- (i) the floor area of nest areas provided for fowl in accordance with section 7,
- (ii) the floor area of the cage under perches provided for fowl in accordance with section 8,
- (iii) the floor area of the cage under any other structures in the cage under which there is insufficient height for fowl to perform normal postures when standing, moving, foraging or scratching, or

Examples of other structures— feed troughs, vee-troughs for water, egg baffles, manure deflectors, drinking nipples

(b) of non-cage housing—means the floor area of the non-cage housing excluding the floor area of the non-cage housing under any structures in the non-cage housing under which there is insufficient height for fowl to perform normal postures when standing, perching or nesting.

Examples of structures— perches, feed troughs, vee-troughs for water, egg baffles, manure deflectors, drinking nipples

Division 2 Confinement of laying fowl—the Act, s 35(1)(a) and (b)

Subdivision 1 Preliminary

5 Application of division

This division does not apply in relation to the confinement of laying fowl for the purposes of carrying or conveying the fowl.

Subdivision 2 Laying fowl confined in cages

6 Access to water

- (1) This section does not apply in relation to laying fowl in the period of 60 hours immediately after the fowl is hatched.
- (2) A person must not confine laying fowl in a cage unless the fowl have access to—
 - (a) at least 2 independent drinking points, or
 - (b) a water trough the length of which allows at least 10cm for each fowl in the cage.Maximum penalty—
 - (a) for an individual—50 penalty units, or
 - (b) otherwise—200 penalty units.
- (3) In this section—

drinking point includes a drinking nipple and a cup drinker but does not include a splash cup situated under a drinking nipple.

7 Nest areas

- (1) A person must not confine laying fowl in a furnished cage unless—
 - (a) a nest area is provided for use by the fowl, and
 - (b) the arrangements for the provision of the nest area comply with the minimum standards for providing nest areas for laying fowl under subsection (2).Maximum penalty—
 - (a) for an individual—50 penalty units, or
 - (b) otherwise—200 penalty units.
- (2) For subsection (1), the **minimum standards for providing nest areas for laying fowl** are as follows—
 - (a) the nest area must have lower light intensity than the other area of the cage,
 - (b) if a multi-bird nest area is provided for use by the fowl—
 - (i) if fewer than 120 laying fowl are confined in the cage—the nest area must have an area of at least 1m², or
 - (ii) if 120 or more laying fowl are confined in the cage—the nest area must have an area of at least the total of—
 - (A) 1m² for the first 120 laying fowl confined in the cage, and
 - (B) a proportionate amount of the area mentioned in sub-subparagraph (A) for each additional fowl,
 - (c) if a single-bird nest area is provided for use by the fowl—
 - (i) there must be at least 1 nest area for every 7 laying fowl confined in the cage, and
 - (ii) each nest area must be of sufficient area to allow a single fowl to perform normal nesting and laying postures in the nest area.

8 Perches

- (1) A person must not confine laying fowl in a furnished cage unless—
 - (a) a perch is provided for use by the fowl, and

- (b) the arrangements for the provision of a perch for the fowl comply with the minimum standards for providing perches for laying fowl under subsection (2).

Maximum penalty—

- (a) for an individual—50 penalty units, or
 - (b) otherwise—200 penalty units.
- (2) For subsection (1), the *minimum standards for providing perches for laying fowl* are as follows—
- (a) the perch must be a perch or platform that—
 - (i) is raised above the floor of the cage, and
 - (ii) allows sufficient height above the perch to allow the fowl to perch in an upright perching position, and
 - (iii) does not have sharp edges, and
 - (iv) is of sufficient width to properly support the fowl's feet, and
 - (v) allows the fowl to grip the perch without risk of the fowl's feet or claws being trapped or stuck in the perch's structure, and
 - (vi) is otherwise designed or placed to minimise the following—
 - (A) the risk of injury to fowl in using the perch,
 - (B) the risk of vent pecking of the fowl when using the perch,
 - (C) the exposure of fowl below the perch to excreta from fowl using the perch,
 - (b) the length of the perch must provide a linear distance of at least 15cm for each fowl confined in the cage.

9 Scratch areas and claw-shortening devices or areas

- (1) A person must not confine laying fowl in a furnished cage unless both of the following are provided for use by the fowl—
- (a) a scratch area that complies with the minimum standards for providing scratch areas for laying fowl under subsection (2),
 - (b) a claw-shortening device or area that complies with the minimum standards for providing claw-shortening devices or areas for laying fowl under subsection (3).

Maximum penalty—

- (a) for an individual—50 penalty units, or
 - (b) otherwise—200 penalty units.
- (2) For subsection (1)(a), the *minimum standards for providing scratch areas for laying fowl* are as follows—
- (a) the scratch area must comprise a material with a textured surface on which the fowl can engage in scratching and foraging behaviours,
Example of scratch area— a piece of synthetic grass
 - (b) the scratch area must be of sufficient size to allow at least 1 fowl to perform normal postures when engaging in scratching and foraging behaviours on the scratch area.
- (3) For subsection (1)(b), the *minimum standards for providing claw-shortening devices or areas for laying fowl* are as follows—
- (a) the claw-shortening device or area must comprise an object or material with an abrasive surface on which fowl can engage in scratching behaviours,

Examples of claw-shortening devices or areas— strips of synthetic material coated with abrasive matter, such as metal filings and sand, or painted with abrasive textured paint, metal plates machined to have abrasive textured surfaces

- (b) the claw-shortening device or area must be of sufficient size to allow at least 1 fowl to engage in scratching behaviours when using the device or on the area.
- (4) For subsection (1), a person satisfies the requirement to provide both a scratch area and a claw-shortening device or area if the person provides a single area that complies with both—
 - (a) the minimum standards for providing scratch areas for laying fowl, and
 - (b) the minimum standards for providing claw-shortening devices or areas for laying fowl.

10 Substrate for pecking and foraging

- (1) A person must not confine laying fowl in a furnished cage unless the person provides the fowl with pecking substrate in a way that allows the fowl to engage in pecking and foraging behaviours in the substrate.

Examples of ways of providing pecking substrate that allow fowl to engage in pecking or foraging behaviours— putting the pecking substrate in a device that hangs from the roof or is attached to the inside wall of the cage and is within reach of the fowl or on the surface of a scratch area provided for the fowl under section 9

Maximum penalty—

- (a) for an individual—50 penalty units, or
- (b) otherwise—200 penalty units.
- (2) In this section—

pecking substrate means loose or friable organic matter in which fowl may engage in pecking and foraging behaviours.

Examples of pecking substrate— feed pellets, wood shavings, rice hulls, chopped straw and grass

11 Cage floors

A person must not confine laying fowl in a cage unless the cage floor provides support for the forward pointing toes of all fowl in the cage.

Maximum penalty—

- (a) for an individual—50 penalty units, or
- (b) otherwise—200 penalty units.

12 Cage height

- (1) A person must not confine laying fowl in a cage unless the height of the cage is more than the height of the tallest fowl, standing normally, in the cage.

Maximum penalty—

- (a) for an individual—50 penalty units, or
- (b) otherwise—200 penalty units.
- (2) A person must not confine laying fowl in a cage unless—
 - (a) for a furnished cage—the height of the cage is, over the whole of the useable floor area of the cage, at least 55cm, or
 - (b) for a pre-2025 cage—the height of the cage is, over at least 65% of the floor area of the cage, 40cm or more.

Maximum penalty—

- (a) for an individual—50 penalty units, or
 - (b) otherwise—200 penalty units.
- (3) A person must not confine laying fowl in a pre-2025 cage if the height of the cage is less than 35cm at any point.
- Maximum penalty—
- (a) for an individual—50 penalty units, or
 - (b) otherwise—200 penalty units.

13 Cage doors

- (1) A person must not confine laying fowl in a cage unless the cage has a door that has—
- (a) a width of—
 - (i) if the width of the cage is 50cm or less—the width of the cage, excluding the width of structural supports for the door, or
 - (ii) if the width of the cage is more than 50cm—at least 50cm, and
 - (b) a height of—
 - (i) if the height of the cage measured from the level of the feed trough is 22cm or less—the height of the cage measured from the level of the feed trough, or
 - (ii) if the height of the cage measured from the level of the feed trough is more than 22cm—at least 22cm.
- Maximum penalty—
- (a) for an individual—50 penalty units, or
 - (b) otherwise—200 penalty units.
- (2) For subsection (1), if the cage door opens from the top of the cage—
- (a) the width of the door must be measured using the axis on which the door swings, and
 - (b) the height of the door must be measured on the perpendicular to the axis on which the door swings.

14 Multi-deck structures

- (1) A person must not confine laying fowl in a multi-deck structure unless fowl in the lower decks of the structure are protected from excreta from fowl confined in the higher decks of the structure.
- Maximum penalty—
- (a) for an individual—50 penalty units, or
 - (b) otherwise—200 penalty units.
- (2) A person must not confine laying fowl in a multi-deck structure unless each fowl confined in the structure is visible from outside the structure to an extent that allows a person to assess the fowl's welfare.
- Maximum penalty—
- (a) for an individual—50 penalty units, or
 - (b) otherwise—200 penalty units.
- (3) A person must not confine laying fowl in a multi-deck structure unless the fowl can be readily removed from the structure.
- Maximum penalty—
- (a) for an individual—50 penalty units, or

- (b) otherwise—200 penalty units.
- (4) In this section—
multi-deck structure means an arrangement of cages in a structure with more than 1 deck.

15 Stock densities—furnished cages

- (1) A person must not confine laying fowl in a furnished cage unless the useable floor area of the cage is at least the minimum useable floor area for the cage determined under this section.
Maximum penalty—
 - (a) for an individual—50 penalty units, or
 - (b) otherwise—200 penalty units.
- (2) The minimum useable floor area for a furnished cage containing only 1 laying fowl is 1,000 cm².
- (3) The minimum useable floor area for a furnished cage containing 2 or more laying fowl is the area calculated by allowing 750cm² for each fowl in the cage.

16 Stock densities—pre-2025 cages

- (1) A person must not confine laying fowl in a pre-2025 cage unless the floor area of the cage is at least the minimum floor area for the cage determined under this section.
Maximum penalty—
 - (a) for an individual—50 penalty units, or
 - (b) otherwise—200 penalty units.
- (2) The minimum floor area for a pre-2025 cage containing only 1 laying fowl is—
 - (a) if the laying fowl weighs 4.5kg or less—1,000cm², or
 - (b) if the laying fowl weighs more than 4.5kg, the area calculated by allowing—
 - (i) 1m² for each 26kg of the total weight of the fowl in the cage, or
 - (ii) if the total weight of the fowl in the cage is less than 26kg—a proportionate amount of the area mentioned in subparagraph (i).
- (3) The minimum floor area for a pre-2025 cage containing only 2 laying fowl is—
 - (a) if the average weight of the fowl in the cage is 4.5kg or less—1,350cm², or
 - (b) if the average weight of the fowl in the cage is more than 4.5kg, the area calculated by allowing—
 - (i) 1m² for each 40kg of total weight of the fowl in the cage, or
 - (ii) if the total weight of the fowl in the cage is less than 40kg—a proportionate amount of the area mentioned in subparagraph (i).
- (4) The minimum floor area for a pre-2025 cage containing 3 or more laying fowl is—
 - (a) if the average weight of the fowl in the cage is less than 2.4kg—the area calculated by allowing 550cm² for each fowl in the cage, or
 - (b) if the average weight of the fowl in the cage is not less than 2.4kg and not more than 4.5kg—the area calculated by allowing 600cm² for each fowl in the cage,
 - (c) if the average weight of the fowl in the cage is more than 4.5kg, the area calculated by allowing—
 - (i) 1m² for each 46kg of the total weight of the fowl in the cage, or
 - (ii) if the total weight of the fowl in the cage is less than 46kg—a proportionate amount of the area mentioned in subparagraph (i).

- (5) If laying fowl are kept in more than 30 pre-2025 cages at any premises—
- (a) the minimum floor area of the pre-2025 cages must be determined on the basis of average flock weight rather than on the basis of the average weight of the fowl in the individual cages, and
 - (b) for paragraph (a), a reference in this section to the average weight of laying fowl in a cage must be read as a reference to the average flock weight.
- (6) In this section—
- average flock weight** is the average weight per fowl of all fowl in all the cages in which the fowl are kept, determined in accordance with the procedures for counting and weighing set out in the *National Guidelines for RSPCA Inspectors for the Inspection of Layer Hen Cages* as set out in the *Model Code of Practice for the Welfare of Animals—Domestic Poultry*, 3rd edition, issued by the Agriculture and Resource Management Council of Australia and New Zealand.
- Note**— The *Model Code of Practice for the Welfare of Animals—Domestic Poultry* is now in its 4th edition. However, the *National Guidelines for RSPCA Inspectors for the Inspection of Layer Hen Cages* do not appear in that edition.

Subdivision 3 Laying fowl confined in non-cage housing

17 Access to food and water

- (1) This section does not apply in relation to laying fowl in the period of 60 hours immediately after the fowl is hatched.
- (2) A person must not confine laying fowl in non-cage housing unless—
- (a) all fowl confined in the non-cage housing have access to—
 - (i) a pan feeder that is provided for feeding purposes, or
 - (ii) a flat chain feeder that is provided for feeding purposes, and
 - (b) the arrangements for feeding the fowl comply with the minimum standards for feeding laying fowl under subsection (3).
- Maximum penalty—
- (a) for an individual—50 penalty units, or
 - (b) otherwise—200 penalty units.
- (3) For subsection (2), the **minimum standards for feeding laying fowl** are as follows—
- (a) if a pan feeder is provided for feeding purposes—there must be at least 1 pan feeder in the non-cage housing for every 100 laying fowl confined in the non-cage housing, or
 - (b) if a flat chain feeder is provided for feeding purposes—the length of the flat chain feeder, counting both sides of the feeder chain, must allow at least 2cm for each laying fowl confined in the non-cage housing.
- (4) A person must not confine laying fowl in non-cage housing unless—
- (a) all fowl confined in the non-cage housing have access to—
 - (i) a bell drinker that is provided for the purpose of supplying water to the fowl, or
 - (ii) a nipple drinker that is provided for the purpose of supplying water to the fowl, and
 - (b) the arrangements for supplying water to the fowl comply with the minimum standards for supplying water to laying fowl under subsection (5).
- Maximum penalty—
- (a) for an individual—50 penalty units, or

- (b) otherwise—200 penalty units.
- (5) For subsection (4), the *minimum standards for supplying water to laying fowl* are as follows—
 - (a) if a bell drinker is provided to supply water to laying fowl—there must be at least 1 bell drinker in the non-cage housing for every 120 laying fowl confined in the non-cage housing, or
 - (b) if a nipple drinker is provided to supply water to laying fowl—
 - (i) if all the laying fowl are less than 6 weeks of age—1 nipple drinker in the non-cage housing for every 40 laying fowl confined in the non-cage housing, or
 - (ii) otherwise—there must be at least 1 nipple drinker in the non-cage housing for every 20 laying fowl confined in the non-cage housing.

18 Nest areas

- (1) A person must not confine laying fowl in non-cage housing unless—
 - (a) a single-bird nest area or multi-bird nest area is provided for use by the laying fowl, and
 - (b) the arrangements for the provision of nests for the laying fowl comply with the minimum standards for providing nests for laying fowl under subsection (2).Maximum penalty—
 - (a) for an individual—50 penalty units, or
 - (b) otherwise—200 penalty units.
- (2) For subsection (1), the *minimum standards for providing nests for laying fowl* are as follows—
 - (a) if a multi-bird nest area is provided for use by the laying fowl, the multi-bird nest area must have an area of at least—
 - (i) if 120 or more laying fowl are confined in the non-cage housing—1m² for every 120 laying fowl confined in the non-cage housing, or
 - (ii) if fewer than 120 laying fowl are confined in the non-cage housing—a proportionate amount of the area mentioned in subparagraph (i),
 - (b) if a single-bird nest area is provided for use by the laying fowl—there must be at least 1 single-bird nest available in the non-cage housing for every 7 laying fowl that are confined in the non-cage housing.

19 Height of non-cage housing

A person must not confine laying fowl in non-cage housing unless the clearance above a level on which fowl might stand, perch or nest, including a suspended perch or nest box, is at least 45cm.

Maximum penalty—

- (a) for an individual—50 penalty units, or
- (b) otherwise—200 penalty units.

20 Multi-level arrangements

- (1) A person must not confine laying fowl in a multi-level arrangement unless fowl on the lower levels of the arrangement are protected from excreta from fowl on the higher levels of the arrangement.

Maximum penalty—

- (a) for an individual—50 penalty units, or

- (b) otherwise—200 penalty units.
- (2) In this section—
multi-level arrangement means an arrangement within any non-cage housing that allows laying fowl to perch or nest on separate levels.

21 Stock densities

A person must not confine laying fowl in non-cage housing unless the useable floor area of the non-cage housing is at least—

- (a) if the total weight of laying fowl in the non-cage housing is 30kg or more—
the area calculated by allowing 1m² for each 30kg of the total weight of laying fowl confined in the non-cage housing, or
- (b) if the total weight of laying fowl in the non-cage housing is less than 30kg—a proportionate amount of the area mentioned in paragraph (a).

Maximum penalty—

- (a) for an individual—50 penalty units, or
- (b) otherwise—200 penalty units.

Subdivision 4 General

22 Artificial lighting

- (1) This section does not apply in relation to—
 - (a) a laying fowl in the period of 16 weeks immediately after the fowl is hatched, or
 - (b) a laying fowl on the day the fowl is removed from the place at which the fowl is being confined.
- (2) A person must not confine laying fowl under artificial light unless the fowl are provided a total of at least 6 hours of darkness in each 24-hour period that includes at least 1 continuous period of darkness of at least 4 hours.

Maximum penalty—

- (a) for an individual—50 penalty units, or
 - (b) otherwise—200 penalty units.
- (3) A person must not confine laying fowl to continuous darkness for any 24-hour period.
Maximum penalty—
 - (a) for an individual—50 penalty units, or
 - (b) otherwise—200 penalty units.
 - (4) A contravention of subsection (2) or (3) by a person does not constitute an offence if the contravention—
 - (a) is reasonably required to prevent the laying fowl from engaging in huddling or clumping behaviours during a period when laying fowl are at risk of heat stress from exposure to temperatures above the fowls' thermoneutral zone, or
 - (b) occurs under the supervision of a veterinarian for the purposes of assessing, monitoring, treating or dealing with—
 - (i) the outbreak, or the risk of outbreak, of disease among the laying fowl, or
 - (ii) instances of cannibalism, or the risk of cannibalism, among the laying fowl.

23 Lifting or carrying laying fowl

A person who confines laying fowl must not lift or carry the fowl by the head, neck, wings, feathers or tail feathers unless the laying fowl is—

- (a) otherwise supported by the breast, or
- (b) lifted and carried by the base of both wings.

Maximum penalty—

- (a) for an individual—50 penalty units, or
- (b) otherwise—200 penalty units.

24 Daily welfare inspections

A person who confines laying fowl must ensure the welfare of the fowl is visually inspected every 24 hours.

Maximum penalty—

- (a) for an individual—50 penalty units, or
- (b) otherwise—200 penalty units.

25 Offences

- (1) A contravention of this part by a person who is a first offender does not constitute an offence unless—

- (a) an officer has given the person a written direction to remedy the contravention within a period, not longer than 3 months, stated in the direction, and
- (b) the person has failed to remedy the contravention within the stated period.

- (2) In this section—

first offender means a person who has not been convicted, or has been found guilty but has not been convicted, of any of the following—

- (a) an offence in relation to a previous contravention of this part,
- (b) an offence relating to the confinement of fowl under—
 - (i) another provision of this regulation, or
 - (ii) a previous regulation made under the Act.

Part 3 Procedures carried out on animals

26 Pinioning of birds' wings

- (1) For the Act, section 4(2A), clipping short the primary feathers of 1 of a bird's wings, or taping or brailing 1 of the bird's wings, is prescribed if—
 - (a) it is carried out in way that does not inflict unnecessary pain on the bird, and
 - (b) it does not result in both of the bird's wings being disabled.
- (2) A person is exempt from the Act, sections 5(1), (2) and (3)(a) and 6 in relation to cutting off the pinion of a bird's wing if—
 - (a) the bird's owner holds an authority under the *Exhibited Animals Protection Act 1986*, Part 3, Division 4 that applies in relation to the bird, and
 - (b) the bird is a member of 1 of the following taxonomic orders—
 - (i) Anseriformes,
 - (ii) Ciconiiformes,
 - (iii) Gruiformes,
 - (iv) Galliformes, excluding pheasants, and
 - (c) the bird is under 3 days of age, and
 - (d) cutting off the pinion is carried out in a way that does not inflict unnecessary pain on the bird, and
 - (e) cutting off the pinion will not result in both of the bird's wings being disabled, and
 - (f) the pinion is cut off by—
 - (i) a veterinary practitioner, or
 - (ii) the bird's owner, or an employee of the bird's owner, in a way that a veterinary practitioner has advised the owner is appropriate.
- (3) A person is exempt from the Act, sections 5(1), (2) and (3)(a) and 6 in relation to cutting off the pinion of a pheasant's wing if—
 - (a) the pheasant is no more than 24 hours old, and
 - (b) cutting off the pinion is carried out in a way that does not inflict unnecessary pain on the pheasant, and
 - (c) cutting off the pinion will not result in both of the pheasant's wings being disabled, and
 - (d) the pinion is cut off—
 - (i) with a beak trimming machine, or
 - (ii) by a veterinary practitioner, whether or not with a beak trimming machine.
- (4) In this section—

brailing, in relation to a bird's wing, means attaching a thin, pliable leather strap to the wing to prevent the bird from flying but still allow limited movement of the wing.

pheasant means a member of the genus *Chrysolophus*, *Lophophorus*, *Lophura*, *Syrmaticus* or *Phasianus*.

27 Tail docking of cows, heifers and calves—the Act, s 12(2)

- (1) The circumstances in which a person may dock the tail of a calf that is less than 6 months old are that—
 - (a) the person is a veterinary practitioner, and

- (b) the docking is necessary to treat an injury or disease of the animal.
- (2) The circumstances in which a person may dock the tail of a cow or heifer or a female calf that is 6 months of age or older are that—
 - (a) the person is a veterinary practitioner, and
 - (b) the docking is necessary to treat an injury or disease of the animal.

28 Debarking—the Act, s 12(2)

- (1) The circumstances in which a veterinary practitioner may operate on a dog for the purpose of preventing the dog from being able to bark are that, before performing the operation—
 - (a) the dog is 6 months of age or older, and
 - (b) the veterinary practitioner is satisfied that—
 - (i) a behavioural treatment plan has been prepared for the dog, and
 - (ii) the owner has implemented the behavioural treatment plan but the implementation of the plan has not successfully prevented the dog from nuisance barking, and
 - (c) the veterinary practitioner is given—
 - (i) a copy of an order issued under the *Companion Animals Act 1998*, section 32A that requires the owner of the dog, whether or not the current owner, to prevent the dog from nuisance barking, and
 - (ii) a statutory declaration by the owner of the dog to the effect of the following—
 - (A) all reasonable steps other than the operation have been taken, without success, to prevent the dog from nuisance barking,
 - (B) unless the operation is performed, the dog will be destroyed.
- (2) In this section—

nuisance barking means barking or howling that is persistent or continues to such a degree or extent that it unreasonably interferes with the peace, comfort or convenience of any person in premises other than the premises at which the dog is ordinarily kept.

behavioural treatment plan, for a dog, means a plan, prepared in consultation with a veterinary practitioner, for the reasonable modification of the dog's environment to address the dog's physical or psychological needs for the purposes of preventing the dog from nuisance barking.

29 Declawing of cats—the Act, s 12(2)

The circumstances in which a veterinary practitioner may remove 1 or more of the claws of a cat are that the removal of the claw or claws is necessary to treat an injury or disease of the animal.

30 Registers relating to regulated procedures—the Act, ss 12A(1) and 35(1)(g)

- (1) A register kept under the Act, section 12A(1) must—
 - (a) be in writing, and
 - (b) have consecutively numbered pages, and
 - (c) not form part of another record relating to animals treated or clients.
- (2) A veterinary practitioner who carries out a regulated procedure on an animal must enter the following particulars in the register—
 - (a) the full name and residential address of the animal's owner,

- (b) the type of procedure carried out,
 - (c) the justification for the procedure,
 - (d) the date on which the procedure was carried out,
 - (e) a description of the animal, including—
 - (i) the following details, if available—the animal’s age, name, breed and electronic identification information, including the animal’s identification number, and
 - (ii) a description of any distinctive markings on the animal,
 - (f) the name of the veterinary practitioner.
- (3) A veterinary practitioner who carries out a regulated procedure on an animal must also include the following in the register—
- (a) each statutory declaration or, if the register is kept in electronic form, a copy of each statutory declaration given to the veterinary practitioner under section 28 in relation to the procedure,
 - (b) a copy of each order given to the veterinary practitioner under section 28 in relation to the procedure.
- (4) In this section—
- regulated procedure*** means a procedure referred to in the Act, section 12(1).

Part 4 Animal trades—the Act, s 35(1)(d)
