# Rural Fires Amendment Bill 2009

## Explanatory note

This explanatory note relates to this Bill as introduced into Parliament.

## Overview of Bill

The object of this Bill is to amend the *Rural Fires Act 1997* (***the principal Act***) as follows:

- (a) to provide that certain bush fire hazard management functions of local authorities (eg councils) are to be exercised instead by hazard management officers of the NSW Rural Fire Service,
- (b) to enable the Commissioner of the NSW Rural Fire Service (***the Commissioner***) to enter and inspect land, with or without the consent of the owner or occupier, to investigate the cause or origin of a fire for up to 24 hours after the fire has been put out,
- (c) to enable the Commissioner to apply for a search warrant to enter and inspect land to investigate the cause or origin of a fire,
- (d) to enable an officer of a rural fire brigade to remove persons or things who or that are an interference from a fire or other emergency,
- (e) to increase the penalty notice amounts for certain fire-related offences under the principal Act.

The Bill also makes related amendments to other legislation.

## Outline of provisions

**Clause 1** sets out the name (also called the short title) of the proposed Act.

**Clause 2** provides for the commencement of the proposed Act on a day or days to be appointed by proclamation.

### **Bush fire hazard reduction**

**Schedule 1 [9]** replaces existing provisions that enable a local authority (ie a local council, the Western Lands Commissioner or the Lord Howe Island Board) to issue a notice to the owner or occupier of land to carry out bush fire hazard reduction work with provisions that enable such a notice instead to be issued by a hazard management officer of the NSW Rural Fire Service. The new provisions will operate as follows:

Proposed section 65A provides that the Commissioner may nominate a member of the NSW Rural Fire Service as a hazard management officer. **Schedule 1 [26]** inserts a definition of *hazard management officer* for the purposes of the principal Act.

Proposed section 65 enables authorised persons (who will now include hazard management officers) to carry out bush fire hazard reduction work on certain land with the permission of the appropriate persons or bodies.

Proposed section 66 enables a hazard management officer to require the owner or occupier of any land to carry out bush fire hazard reduction work on the land by a notice. An owner or occupier who fails to comply with such a notice is guilty of an offence.

Proposed section 67 enables an owner or occupier of land on whom a notice requiring bush fire hazard reduction work has been served to lodge an objection with the hazard management officer.

Proposed section 68 provides for an appeal to be lodged with the Commissioner by a person who has lodged an objection.

Proposed section 69 enables a hazard management officer to enter land to determine whether a notice should be issued, or has been complied with, and requires the officer to notify certain authorities if notice is given and to keep records in respect of notices. **Schedule 2.2 [5]** makes a consequential amendment.

Proposed section 70 enables the Commissioner to carry out bush fire hazard reduction work required to be done by a notice if the owner or occupier of the land concerned fails to carry out the work. The cost of the work carried out by the Commissioner is recoverable from the owner or occupier. **Schedule 1 [1]** provides that the Commissioner may delegate his or her functions under proposed section 70 to the Commissioner of NSW Fire Brigades. **Schedule 1 [10] and Schedule 2.2 [6]** make consequential amendments.

**Schedule 1 [12]** substitutes an existing provision that requires local authorities and public authorities to make annual reports to the Commissioner in respect of bush fire hazards so that local authorities will no longer be required to report on bush fire hazard reduction notices.

**Schedule 1 [14]–[16]** provide that the Commissioner is to have the sole responsibility for investigating and taking action in respect of bush fire hazard complaints (currently a local authority also has that responsibility). This includes carrying out bush fire hazard reduction work if an owner or occupier of land or public authority fails to do so after being notified that work should be done. **Schedule 1 [13]** provides that a local authority is to refer a bush fire hazard complaint made to it to the Commissioner. **Schedule 1 [11]** makes a consequential amendment.

**Schedule 1 [17]** provides that the Commissioner, in addition to a local authority, may issue a bush fire hazard reduction certificate relating to work carried out by persons (other than the Commissioner or a local authority) on private land. **Schedule 1 [18]** makes a consequential amendment.

### **Power to remove persons or obstacles**

**Schedule 1 [2]** authorises an officer of a rural fire brigade or group of rural fire brigades to remove any person, vehicle, vessel or thing interfering at a fire, incident or other emergency.

### **Power to enter land to investigate fires**

**Schedule 1 [3]** inserts proposed Division 3A of Part 2 (proposed sections 33A–33D) into the principal Act to provide the Commissioner with the express power to enter land in order to investigate the cause or origin of a fire on that land or on any adjacent land. This power of entry would be exercisable in situations where the owner or occupier of the land does not consent to the entry by, for example, an officer of a rural fire brigade who is seeking to investigate the cause or origin of a fire.

Proposed section 33A provides that the object of the proposed Division is to assist in the prevention of fires by expressly authorising entry onto land to investigate the cause or origin of a fire.

Proposed section 33B authorises the Commissioner to enter and inspect land (other than residential premises), with or without the consent of the owner or occupier of that land, to investigate the cause or origin of a fire that has occurred on that land or any adjacent land, but only up to 24 hours after the fire has been put out.

Proposed section 33C enables the Commissioner to apply for a search warrant for any land if the Commissioner reasonably believes that entry onto the land is necessary for the purposes of the investigation of the cause or origin of any fire that has occurred on that land or any adjacent land.

Proposed section 33D provides that the powers of entry in proposed section 33B or 33C may be exercised by the Commissioner of NSW Fire Brigades and provides that the Commissioner of the NSW Rural Fire Service may delegate the powers of entry to a fire fighting authority. **Schedule 2.1** makes a consequential amendment to enable the Commissioner of NSW Fire Brigades to delegate his or her functions under any Act (in addition to the *Fire Brigades Act 1989*).

**Penalty notices for certain fire-related offences**

**Schedule 2.2 [8] and [9]** increase the amount (to \$1,100 in each case) of a penalty notice that may be issued for the following fire-related offences under the principal Act:

- (a) failing to comply with a bush fire hazard reduction notice (section 66 (8)),
- (b) lighting a fire in contravention of a direction from the Minister (section 99 (6)),
- (c) leaving a fire in the open air before the fire is thoroughly extinguished (section 100 (2)).

**Other amendments**

**Schedule 1 [4]–[8], [19]–[22] and [25]** and **Schedule 2.2 [1]–[4]** update various references to Ministers, Departments, bodies and officers.

**Schedule 1 [23]** inserts a savings and transitional regulation-making power.

**Schedule 1 [24]** inserts savings and transitional provisions as a consequence of the enactment of the proposed Act.

**Schedule 2.2 [7]** provides that a notice of intention to burn off or burn a firebreak is to now include the name of the person proposing to light the relevant fire.

(d)	a person exercising functions under a bush fire risk management plan, or	1 2
(e)	an authorised officer of a fire fighting authority.	3
(2)	An authorised person may, with the permission of the fire fighting authority or other authority responsible for unoccupied Crown land or managed land or a person nominated by the authority to give such permission, enter the land and carry out bush fire hazard reduction work with the assistance of such other persons as the authorised person considers to be necessary for the purpose.	4 5 6 7 8 9 10
(3)	The authority responsible for unoccupied Crown land or managed land is to be taken to have given the permission under this section to the extent necessary to give effect to a bush fire risk management plan.	11 12 13 14
(4)	If permission under this section is given subject to conditions, the conditions must be complied with.	15 16
<b>66</b>	<b>Bush fire hazard reduction notices</b>	17
(1)	A hazard management officer may, by notice in writing, require the owner or occupier (not being a public authority) of any land to carry out bush fire hazard reduction work specified in the notice on the land.	18 19 20 21
(2)	A hazard management officer must serve a notice under this section if required to do so by a bush fire risk management plan applicable to the land that is in force.	22 23 24
(3)	A hazard management officer must issue a bush fire hazard reduction certificate in respect of any bush fire hazard reduction work required by a notice issued in accordance with subsection (2).	25 26 27 28
(4)	A notice under this section may specify:	29
(a)	the circumstances in which, conditions under which, places at which and manner and time within which the bush fire hazard reduction work is to be carried out, and	30 31 32
(b)	any means by which the bush fire hazard reduction work is to be carried out and alternative means other than fire by which the work should, if practicable, be carried out.	33 34 35
(5)	The time within which bush fire hazard reduction work is to be carried out must not be less than 7 days after the notice is given.	36 37
(6)	The requirements and conditions so specified must include any requirements specified in a bush fire risk management plan that	38 39

is applicable to the land and is in force and may include a requirement or condition that the burning of fire breaks or of combustible matter or other material:	1 2 3
(a) must, in a fire district constituted under the <i>Fire Brigades Act 1989</i> , be carried out by or under the supervision of the fire brigade in the district or the officer or fire fighter in charge of the fire brigade, or	4 5 6 7
(b) must, outside a fire district, be carried out by or under the supervision of the rural fire brigade specified in the notice or an appropriate officer of the rural fire brigade or any hazard management officer.	8 9 10 11
(7) A notice requiring the establishment of a fire break cannot require an occupier or owner to kill or remove any trees that are reasonably necessary:	12 13 14
(a) for shade, shelter, windbreak or fodder purposes, or	15
(b) for the protection of threatened species, populations, ecological communities or critical habitats within the meaning of the <i>Threatened Species Conservation Act 1995</i> .	16 17 18 19
<b>Note.</b> See section 54 (2) for other possible limitations.	20
(8) An occupier or owner to whom a bush fire hazard reduction notice is given must, despite the fact that a fire permit has not been granted under Division 5, comply with the requirements specified in the notice.	21 22 23 24
Maximum penalty: 50 penalty units or imprisonment for 12 months.	25 26
(9) A notice under this section that is the subject of an objection or appeal under section 67 or 68 does not have effect until the objection or appeal is finally determined.	27 28 29
<b>67 Objection to notices</b>	30
(1) The owner or occupier of land on whom a notice has been served under section 66 may, within 7 days of the service of the notice, lodge an objection with the hazard management officer who served the notice stating the grounds of objection, or, if that officer is not available, any other hazard management officer.	31 32 33 34 35
(2) If a person lodges an objection, the hazard management officer and the person must genuinely attempt to resolve the matter by consultation having regard to:	36 37 38
(a) the provisions of any bush fire risk management plan applicable to the land that is in force, and	39 40
