

New South Wales

Protection of the Environment Legislation Amendment Bill 2011

Explanatory note

This explanatory note relates to this Bill as introduced into Parliament.

Overview of Bill

The object of this Bill is to amend certain environment protection legislation as follows:

- (a) to provide for the appointment of a Chairperson of the Environment Protection Authority (*the EPA*) who will have the function of managing and controlling the affairs of the EPA,
- (b) to reconstitute the Board of the EPA,
- (c) to require that when a pollution incident occurs that causes or threatens material harm to the environment, an expanded list of government authorities must be notified and to require that they must be notified immediately, rather than as soon as practicable, as currently required,
- (d) to provide that the information required to be notified is the information known when the immediate notice is given and that, if further information later becomes known, it must also be immediately notified,
- (e) to double the maximum penalty for the offence of failing to immediately give notice of pollution incidents to \$2,000,000 (for corporations) and \$500,000 (for individuals),

- (f) to impose a duty on all holders of environment protection licences, and on certain other persons, to prepare and implement pollution incident response management plans,
- (g) to add to the circumstances in which a mandatory environmental audit may be required,
- (h) to require public access to be given to certain monitoring data required to be recorded by the holders of environment protection licences,
- (i) to require further details to be recorded in the public register kept by regulatory authorities.

Outline of provisions

Clause 1 sets out the name (also called the short title) of the proposed Act.

Clause 2 provides for the commencement of the proposed Act on a day or days appointed by proclamation.

Schedule 1 Amendment of Protection of the Environment Administration Act 1991 No 60

Schedule 1 [4] reconstitutes the Board of the EPA by reducing it from 10 members to 5 members and changing the expertise that the part-time members of the Board must have to be eligible for appointment by the Governor.

Schedule 1 [10] makes a consequential amendment to a provision specifying the quorum of the Board.

Schedule 1 [5] adds to the functions of the Board the function of overseeing the effective, efficient and economical management of the EPA. **Schedule 1 [6]** also requires the Board to provide an annual statement to the Minister on the success of the EPA in reducing pollution risks.

Schedule 1 [8] provides for the appointment by the Governor of a Chairperson of the EPA. The Chairperson will assume most of the functions of the Director-General of the Department of Premier and Cabinet under the environment protection legislation (including managing and controlling the affairs of the EPA). The employment of the Chairperson is subject to Part 3.1 of the *Public Sector Employment and Management Act 2002* (which means it is an SES position). The amendment also provides for the appointment of an Acting Chairperson. **Schedule 1 [1]–[3] and [7]** make consequential amendments.

Schedule 1 [11] provides that the Chairperson is to preside at meetings of the Board. **Schedule 1 [9]** makes consequential amendments.

Schedule 1 [12] provides for the making of savings and transitional regulations consequent on the enactment of the proposed Act.

Schedule 1 [13] provides that a person who, immediately before the commencement of **Schedule 1 [4]** to the proposed Act, held office as a member of the Board ceases to hold that office and is not entitled to any remuneration or compensation because of the loss of that office.

Schedule 2 Amendment of Protection of the Environment Operations Act 1997 No 156

Schedule 2 [1] provides that, if an environment protection licence contains a condition that requires the monitoring by the holder of the licence of the activity or work authorised, required or controlled by the licence, the holder of the licence is required to make the monitoring results that relate to pollution publicly available on the internet. If the licence holder does not have a website, the amendment requires the licence holder to provide a copy of the monitoring results to any person who requests a copy of them. The amendment also makes it an offence to provide monitoring data that is false or misleading in a material respect.

Schedule 2 [2] provides that pollution incidents causing or threatening material harm to the environment that are required to be notified must be notified immediately, rather than as soon as practicable, as is currently the case.

Schedule 2 [4] adds to the government authorities that are required to be notified of pollution incidents. A person will be required to notify the pollution incident to the appropriate regulatory authority, to the EPA (whether or not it is the appropriate regulatory authority), to the local authority for each area in which the pollution incident occurs (if the EPA is the appropriate regulatory authority) and to the Ministry of Health, the WorkCover Authority and Fire and Rescue NSW. **Schedule 2 [3] and [9]** are consequential amendments.

Schedule 2 [6] and [7] provide that certain information must only be provided if it is known.

Schedule 2 [8] provides that the information about a pollution incident that is required to be notified to the expanded list of government authorities is the information known when the report is made (immediately after the pollution incident occurs) and that, if further information later becomes known, it must be immediately notified.

Schedule 2 [10] provides that the EPA may direct a person who is the occupier of premises where a pollution incident has occurred, so that material harm to the environment is caused or threatened, to notify such other persons of the incident as the EPA requires. **Schedule 2 [5]** makes consequential amendments.

Schedule 2 [11] doubles the maximum penalty for offences concerning the notification of pollution incidents from \$1,000,000 (for a corporation) and \$250,000 (for an individual) to \$2,000,000 and \$500,000 respectively.

Schedule 2 [12] inserts a new Part imposing duties to prepare and implement pollution incident response management plans, as follows:

Proposed section 153A requires the holder of an environment protection licence to prepare a pollution incident response management plan in relation to the activity to which the licence relates. (The amendment made by **Schedule 2 [23]** gives existing licence holders 6 months to prepare their plans.)

Proposed section 153B provides that the EPA may, in accordance with the regulations, require the occupier of premises at which industry is carried out, but that is not licensed, to prepare a pollution incident response management plan in relation to activities at the premises.

Proposed section 153C specifies some of the information that must be included in a pollution incident response management plan and provides for the regulations to prescribe further information.

Proposed section 153D requires a pollution incident response management plan to be kept at the premises to which it relates.

Proposed section 153E requires the testing of a pollution incident response management plan.

Proposed section 153F requires a pollution incident response management plan to be implemented in the event of a pollution incident that causes or threatens material harm to the environment.

Schedule 2 [13] provides that conditions requiring the undertaking of a mandatory environmental audit can be imposed on an environment protection licence if the appropriate regulatory authority reasonably suspects that an activity has been or is being carried out in an environmentally unsatisfactory manner.

Schedule 2 [14] provides that, in any proceedings for an offence arising under the Act or the regulations that are brought in the Local Court, the maximum monetary penalty that the Court may impose for the offence is 1,000 penalty units (currently \$110,000), rather than the 200 penalty unit (\$22,000) maximum that currently applies.

Schedule 2 [15]–[18] and [24] make amendments that are consequential on the amendments made by Schedule 1.

Schedule 2 [19] makes provision for the conduct of an analysis by the Chief Health Officer of the Ministry of Health of the human health risk of a pollution incident, and for analysis by the EPA of the environmental risk caused by a pollution incident, and provides for those responsible for the relevant pollution incident to be given a notice requiring them to pay for the reasonable costs and expenses of those analyses. The new Part includes the following sections:

Proposed section 295ZB defines *relevant person*.

Proposed section 295ZC provides for the conduct by the Chief Health Officer of the Ministry of Health of an analysis of the risk created by a pollution incident to human health and for the recovery of the reasonable costs and expenses of that analysis from the occupier of the premises at or from which the pollution incident occurred or any person reasonably suspected of having caused the pollution incident.

Proposed section 295ZD provides for the conduct by the EPA of an analysis of the environmental risk created by a pollution incident and for the recovery of the reasonable costs and expenses of that analysis from the occupier of the premises at or from which the pollution incident occurred or any person reasonably suspected of having caused the pollution incident.

Proposed section 295ZE provides for the recovery of the cost of analysis as a debt in a court of competent jurisdiction and provides that the costs are not recoverable if it is established that the nature and extent of the analysis conducted was not reasonably necessary to respond to the potential public health or environmental concerns arising out of the pollution incident or was not otherwise in the public interest.

Proposed section 295ZF provides that if the person given a notice requiring payment under the proposed Part was not the person who caused the pollution incident, the amount of the payment may be recovered by the person who complied with the notice as a debt from the person who caused the pollution incident.

Proposed section 295ZG clarifies that a notice may be issued under the proposed Part whether or not the EPA is the appropriate regulatory authority with respect to the pollution incident and whether or not a clean-up notice has been given under Part 4.2 of the *Protection of the Environment Operations Act 1997* with respect to the pollution incident.

Schedule 2 [20] requires that details be recorded in the public register kept by a regulatory authority of each mandatory environmental audit undertaken in relation to a licence issued by that authority, each pollution study required by a condition of a licence issued by the authority and each pollution reduction program required by a condition of a licence issued by the authority.

Schedule 2 [21] requires details of each penalty notice issued by a regulatory authority to be recorded in the public register kept by the regulatory authority.

Schedule 2 [22] empowers the making of savings and transitional provisions consequent on the enactment of the proposed Act.

Schedule 2 [23] inserts savings and transitional provisions consequent on the enactment of the proposed Schedule. Those provisions delay the operation of the amendments imposing an obligation to publish results of monitoring for 3 months, and obligations of existing licence holders to prepare and implement pollution incident response management plans by 6 months, and provide that the obligations to publish monitoring results and to include certain matters in the public register do not include past results or matters.

Schedule 3 Consequential amendment of other legislation

Schedule 3.1–3.3, 3.4 [1] and 3.5–3.8 amend various Acts and regulations as a consequence of the creation of the statutory office of Chairperson of the EPA.

Schedule 3.4 [2] provides that, when a pollution incident is required to be notified under section 148 of the *Protection of the Environment Operations Act 1997*, the incident is required to be notified verbally to each relevant authority referred to in that section and is to be followed by notification in writing within 7 days of the date on which the incident occurred.

Schedule 3.4 [3] prescribes the new offences relating to the publishing of monitoring results (created by **Schedule 2 [1]** to the proposed Act) as offences that can be dealt with by penalty notice and fixes the relevant penalty amounts.

Schedule 3.4 [4] increases the penalty for an offence under section 152 of the *Protection of the Environment Operations Act 1997* (which is about failure to notify a pollution incident immediately) when it is dealt with by penalty notice. The penalty notice offence is increased from \$1,500 (for a corporation) and \$750 (for an individual) to \$5,000 and \$1,500, respectively. The amendment also prescribes the new offences relating to pollution incident response management plans (created by **Schedule 2 [12]** to the proposed Act) as offences that can be dealt with by penalty notice and fixes the relevant penalty amounts.

	(b) in the case of an individual—\$500,000 and, in the case of a continuing offence, a further penalty of \$120,000 for each day the offence continues.	34 35 36

[12] Part 5.7A	1
Insert after Part 5.7:	2
Part 5.7A Duty to prepare and implement pollution incident response management plans	3
	4
	5
153A Duty of licence holder to prepare pollution incident response management plan	6
	7
The holder of an environment protection licence must prepare a pollution incident response management plan that complies with this Part in relation to the activity to which the licence relates.	8
	9
	10
Maximum penalty:	11
(a) in the case of a corporation—\$1,000,000 and, in the case of a continuing offence, a further penalty of \$120,000 for each day the offence continues, or	12
	13
	14
(b) in the case of an individual—\$250,000 and, in the case of a continuing offence, a further penalty of \$60,000 for each day the offence continues.	15
	16
	17
153B EPA may direct other persons to prepare pollution incident response management plan	18
	19
(1) The EPA may, in accordance with the regulations, require the occupier of premises at which industry is carried out to prepare a pollution incident response management plan that complies with this Part in relation to activities at the premises.	20
	21
	22
	23
(2) A person must not fail to comply with such a requirement.	24
Maximum penalty:	25
(a) in the case of a corporation—\$1,000,000 and, in the case of a continuing offence, a further penalty of \$120,000 for each day the offence continues, or	26
	27
	28
(b) in the case of an individual—\$250,000 and, in the case of a continuing offence, a further penalty of \$60,000 for each day the offence continues.	29
	30
	31
(3) The regulations may make provision for or with respect to:	32
(a) the class or classes of premises, or industries carried out at premises, that may be the subject of a requirement to prepare a pollution incident response management plan, and	33
	34
	35
	36

- (b) the circumstances in which some or all premises within those classes may be the subject of a requirement to prepare a pollution incident response management plan. 1
2
3

153C Information to be included in plan 4

A pollution incident response management plan must be in the form required by the regulations and must include the following: 5
6

- (a) the procedures to be followed by the holder of the relevant environment protection licence, or the occupier of the relevant premises, in notifying a pollution incident to: 7
8
9
(i) the owners or occupiers of premises in the vicinity of the premises to which the environment protection licence or the direction under section 153B relates, and 10
11
12
13
(ii) the local authority for the area in which the premises to which the environment protection licence or the direction under section 153B relates are located and any area affected, or potentially affected, by the pollution, and 14
15
16
17
18
(iii) any persons or authorities required to be notified by Part 5.7, 19
20
(b) a detailed description of the action to be taken, immediately after a pollution incident, by the holder of the relevant environment protection licence, or the occupier of the relevant premises, to reduce or control any pollution, 21
22
23
24
(c) the procedures to be followed for co-ordinating, with the authorities or persons that have been notified, any action taken in combating the pollution caused by the incident and, in particular, the persons through whom all communications are to be made, 25
26
27
28
29
(d) any other matter required by the regulations. 30

153D Keeping of plan 31

A person who is required to prepare a pollution incident response management plan under this Part must ensure that it is kept at the premises to which the relevant environment protection licence relates, or where the relevant activity takes place, and is made available in accordance with the regulations. 32
33
34
35
36

Maximum penalty: 37

- (a) in the case of a corporation—\$1,000,000 and, in the case of a continuing offence, a further penalty of \$120,000 for each day the offence continues, or 38
39
40

(b)	in the case of an individual—\$250,000 and, in the case of a continuing offence, a further penalty of \$60,000 for each day the offence continues.	1 2 3
153E	Testing of plan	4
	A person who is required to prepare a pollution incident response management plan under this Part must ensure that it is tested in accordance with the regulations.	5 6 7
	Maximum penalty:	8
(a)	in the case of a corporation—\$1,000,000 and, in the case of a continuing offence, a further penalty of \$120,000 for each day the offence continues, or	9 10 11
(b)	in the case of an individual—\$250,000 and, in the case of a continuing offence, a further penalty of \$60,000 for each day the offence continues.	12 13 14
153F	Implementation of plan	15
	If a pollution incident occurs in the course of an activity so that material harm to the environment (within the meaning of section 147) is caused or threatened, the person carrying on the activity must immediately implement any pollution incident response management plan in relation to the activity required by this Part.	16 17 18 19 20
	Maximum penalty:	21
(a)	in the case of a corporation—\$2,000,000 and, in the case of a continuing offence, a further penalty of \$240,000 for each day the offence continues, or	22 23 24
(b)	in the case of an individual—\$500,000 and, in the case of a continuing offence, a further penalty of \$120,000 for each day the offence continues.	25 26 27
[13]	Section 175	28
	Omit the section. Insert instead:	29
175	Circumstances in which mandatory environmental audit can be imposed	30 31
	Conditions requiring the undertaking of a mandatory environmental audit may only be imposed if:	32 33
(a)	the appropriate regulatory authority reasonably suspects:	34
(i)	that the holder of the licence has on one or more occasions contravened this Act, the regulations or the conditions of the licence, and	35 36 37

	(ii) that the contravention or contraventions have caused, are causing or are likely to cause, harm to the environment, or	1 2 3
	(b) the appropriate regulatory authority reasonably suspects that an activity has been or is being carried out by the holder of the licence in an environmentally unsatisfactory manner (within the meaning of section 95).	4 5 6 7
[14]	Section 215 Proceedings for other offences	8

	Part 9.3D Pollution incidents—analysis of risk	24
295ZB	Definition	25
	In this Part:	26
	<i>relevant person</i> , in relation to a pollution incident, means:	27
	(a) the occupier of the premises at or from which the EPA reasonably suspects that the pollution incident occurred or is occurring, or	28 29 30

(b)	the person who is reasonably suspected by the EPA of having caused the pollution incident.	1 2
295ZC	Conduct of health risk analysis	3
(1)	If the EPA reasonably suspects that a pollution incident has occurred or is occurring, the EPA may request that the Chief Health Officer of the Ministry of Health undertake an analysis of the risk created by that incident to the health of any person or group of persons.	4 5 6 7 8
(2)	The Chief Health Officer may undertake such an analysis.	9
(3)	If such an analysis is undertaken, the Director-General of the Ministry of Health may, by notice in writing, require any or all of the relevant persons in relation to the pollution incident to pay any or all of the reasonable costs and expenses incurred by the Chief Health Officer in connection with that analysis.	10 11 12 13 14
(4)	The Chief Health Officer may make use of the staff or facilities of the Ministry of Health, or engage agents or consultants, for the purposes of carrying out an analysis under this section.	15 16 17
295ZD	Conduct of environmental risk analysis	18
(1)	If the EPA reasonably suspects that a pollution incident has occurred or is occurring, the EPA may undertake an analysis of:	19 20
(a)	the nature and extent of the pollution incident, including actual or likely harm to the environment, and	21 22
(b)	the actual or likely pollution resulting from the pollution incident.	23 24
(2)	If the EPA undertakes such an analysis, the EPA may, by notice in writing, require any or all of the relevant persons in relation to the pollution incident to pay any or all of the reasonable costs and expenses incurred by the EPA in connection with that analysis.	25 26 27 28
(3)	The EPA may engage agents or consultants for the purposes of carrying out an analysis under this section.	29 30
295ZE	Recovery of costs of analysis	31
(1)	If the Director-General of the Ministry of Health or the EPA issues a notice requiring payment under this Part, the Director-General or the EPA, as the case requires, may recover any unpaid amount specified in the notice as a debt in a court of competent jurisdiction.	32 33 34 35 36

(2)	The reasonable costs and expenses incurred by the Chief Health Officer of the Ministry of Health or the EPA in connection with an analysis are not recoverable if the person to whom a notice has been issued under this Part establishes to the satisfaction of the court that the nature and extent of the analysis conducted by the Chief Health Officer or the EPA was not reasonably necessary to respond to the potential public health or environmental concerns arising out of the pollution incident or was not otherwise in the public interest.	1 2 3 4 5 6 7 8 9
295ZF	Recovery from responsible persons	10
	If the person given a notice requiring payment under this Part complies with the notice but was not the person who caused the pollution incident, the amount of the payment may be recovered by the person who complied with the notice as a debt in a court of competent jurisdiction from the person who caused the pollution incident.	11 12 13 14 15 16
295ZG	General provisions	17
	A notice may be given, and action may be taken, under this Part:	18
	(a) whether or not the EPA is the appropriate regulatory authority with respect to the pollution incident, and	19 20
	(b) whether or not a clean-up notice has been given under Part 4.2 with respect to the pollution incident.	21 22
