- (e) requires the Director-General to establish a central ART donor register that permits persons involved in ART treatment to obtain certain information about other persons, including permitting a person born as a result of ART treatment using a donated gamete to obtain information about the donor of the gamete, and
- (f) prohibits commercial surrogacy and makes surrogacy agreements void, and
- (g) provides for enforcement of the proposed Act.

## Outline of provisions

### **Part 1 Preliminary**

**Clause 1** sets out the name (also called the short title) of the proposed Act.

**Clause 2** provides for the commencement of the proposed Act on a day or days to be appointed by proclamation.

**Clause 3** sets out the objects of the proposed Act which are to prevent the commercialisation of human reproduction and to protect the interests of persons born as a result of ART treatment, persons providing a gamete for use in ART treatment or research and persons undergoing ART treatment.

**Clause 4** defines certain words and expressions used in the proposed Act.

**Clause 5** provides that the proposed Act does not limit or otherwise affect the operation of the *Status of Children Act 1996*, the *Mutual Recognition Act 1992* of the Commonwealth or the *Trans-Tasman Mutual Recognition Act 1997* of the Commonwealth.

### **Part 2 ART providers**

#### **Division 1 Registration**

**Clause 6** provides that an ART provider must not provide ART services unless the ART provider is a registered ART provider and a person must not, with an intent to deceive, advertise or hold out that the person is a registered ART provider.

**Clause 7** provides that the Director-General must grant a person's registration as an ART provider if an application for registration is duly made. However the Director-General must refuse registration or cancel the registration of a person if the person is prohibited under proposed Part 6 from carrying on a business that provides ART services.

**Clause 9** requires the Director-General to keep a register of all registered ART providers and to make the register available to the public for inspection.

## **Division 2      Provision of ART treatment**

**Clause 10** permits regulations made under the proposed Act to require an ART provider to meet prescribed infection control standards.

**Clause 11** requires an ART provider to ensure that any ART treatment provided by the ART provider is undertaken by, or under the supervision of, a medical practitioner.

**Clause 12** requires an ART provider to ensure that counselling services in relation to the provision of ART treatment are available to a woman seeking ART treatment from the ART provider, any spouse of such a woman and any person proposing to provide a gamete to the ART provider.

**Clause 13** provides that an ART provider must inform a person of such matters as may be prescribed by the regulations before providing ART treatment to the person (other than ART treatment using a donated gamete).

**Clause 14** provides that an ART provider must inform a person of certain matters before obtaining or using the person's donated gamete or providing any other ART treatment to the person using a donated gamete.

**Clause 15** permits an ART provider to disclose medical information about a donor and offspring of a donor in certain circumstances if a medical practitioner has certified that such disclosure is necessary to save a person's life or to warn the person to whom the information is disclosed about the existence of a medical condition that may be harmful to that person or to that person's offspring (including future offspring).

## **Division 3      Use of gametes**

**Clause 16** provides that a reference in the proposed Division to ART treatment using a gamete includes a reference to ART treatment using an embryo created from that gamete.

**Clause 17** provides a definition of *consent* of a gamete provider for the purposes of the proposed Division and provides that a requirement in the proposed Division that a use of a gamete be consistent with a gamete provider's consent is, if gametes from more than one gamete provider are used, a requirement that the use be consistent with each gamete provider's consent. The proposed section also provides that the *Anti-Discrimination Act 1977* does not apply in relation to the consent given by a gamete provider.
