

Appendix 4 Overview of the GDE Map

Overview of the GDE Map (GDE007_Version 1) Water Sharing Plan for the Brunswick Unregulated and Alluvial Water Sources 2016

Note. High priority groundwater-dependent-ecosystems (GDEs) are currently under investigation and some may be identified during the term of this Plan. The full list of potential GDEs will be identified on the GDE Register held by the Department and as a precautionary approach, will be considered by staff in the assessment of any application for a water supply work approval within the area of this Plan. If it becomes verified as a high priority GDE, this Appendix will be amended to include the GDE.
