10 General considerations for development within rural zone

 - (a) the present use of the land, the potential use of the land for the purposes of agriculture and the potential of any of the land which is prime crop and pasture

land for sustained agricultural production,

- (b) vegetation, timber production, land capability (including soil resources stability) and water resources (including the quantity and stability of water courses and ground water storage and riparian rights),
- (c) the future recovery from known or prospective areas of valuable deposits of minerals, coal, petroleum, sand, gravel or other extractive materials,
- (d) the protection of areas of significance for nature conservation or of high scenic or recreational value, and places and buildings of archaeological or heritage significance, including Aboriginal relics and places,
- (e) the cost of providing, extending and maintaining public amenities and services to the site of the development, and
- (f) future expansion of settlements in the locality.

(2) As well as the matters referred to in subclause (1), the Council shall take into consideration the effect of the development on adjoining land and on other land in the locality.

(3) Subclause (1) does not apply to development being:

- (a) an addition to a building or work,
- (b) development ancillary to a purpose for which consent has been given under this plan, or
- (c) the erection of a dwelling-house on an allotment of land that the Council is satisfied was created in accordance with this plan for the purpose of a dwelling.

11 Subdivision of land generally

- (1) A person shall not subdivide land to which this plan applies except with the consent of the Council.
- (2) The Council shall not consent to an application to subdivide land within Zone No 1 (a) unless it has obtained all relevant information in relation to, and has made an assessment of:
 - (a) the primary purpose for which each allotment to be created by the subdivision is intended to be used,
 - (b) whether any allotment to be created by the subdivision is intended to be used primarily for the purpose of agriculture, and
 - (c) whether a dwelling is intended to be erected on any allotment to be created by the subdivision and the approximate location of any such dwelling.

12 Subdivision for the purpose of agriculture in Zone No 1 (a)

- (2) The Council may consent to the creation of an allotment of any area if the Council is satisfied it will be used for the purpose of agriculture only.

- (4) Notwithstanding subclause (3), the Council may consent to a subdivision excising one but not more than one allotment of an area greater than 1 hectare that the Council is satisfied will be used for the purpose of agriculture from an existing holding and on which a dwelling stands if that dwelling was lawfully erected on that land on or before the appointed day.

13 Subdivision for the purpose of dwellings in Zone No 1 (a)

 - (b) the area of each allotment to be created by the subdivision is appropriate having regard to the purpose for which it is being created.
- (2) Nothing in subclause (1) prevents the Council from granting consent to an application to subdivide land to create an allotment the Council is satisfied is to be used for a purpose other than agriculture or a dwelling if the Council is satisfied that:
 - (a) the purpose for which the allotment is to be used involves the supply of goods or services for which there is a demand in the locality,
 - (b) no other available land in the locality could reasonably be used for that purpose, and
 - (c) the level of demand for goods or services which are to be supplied from the allotment and the extent to which that allotment is proposed to be used to meet that demand justifies the creation of the allotment notwithstanding its agriculture

value.

15 Subdivision for intensive agricultural pursuits in Zone No 1 (a)

The Council shall not consent to an application to subdivide land within Zone No 1 (a) where the Council is satisfied that any allotment to be created is to be used primarily for the purpose of intensive agriculture unless, in the opinion of the Council:
