  - (a) the present use of the land, the potential use of the land for the purposes of agriculture and the potential of that land for sustained agricultural production,
  - (b) vegetation, timber production, land capability (including soil resources and soil stability) and water resources (including the quality and stability of water courses and ground water storage and riparian rights),

- (c) the future recovery of known or prospective areas of valuable deposits of minerals, coal, petroleum, sand, gravel or other extractive materials,
  - (d) the protection of areas of significance for nature conservation or of high scenic or recreational value, and places and buildings of archaeological or heritage significance, including Aboriginal relics and places,
  - (e) the cost of providing, extending and maintaining public amenities and services to the land, and
  - (f) future expansion of settlements in the locality.
- (2) As well as the matters referred to in subclause (1), the Council shall take into consideration the relationship of the development to development on adjoining land and on other land in the locality, including the effects of potential aerial spray drift.
- (3) Subclause (1) does not apply to development, being:
- (a) an addition to a building or work,
  - (b) development ancillary to a purpose for which development may be carried out with the consent of the Council under this plan, or
  - (c) the erection of a dwelling-house on an allotment of land the Council is satisfied was created in accordance with this plan for the purpose of a dwelling.

#### **10A What is exempt and complying development?**

- (2) Development listed as complying development in *Development Control Plan 1/2000* as adopted by the Council on the 16 August 2000 is **complying development** if:
  - (a) it is local development of a kind that can be carried out with consent on the land on which it is proposed, and
  - (b) it is not an existing use, as defined in section 106 of the Act.
- (3) Development is exempt or complying development only if it complies with the development standards and other requirements applied to the development by *Development Control Plan 1/2000* as adopted by the Council on 16 August 2000.
- (4) A complying development certificate issued for any complying development is to be subject to the conditions for the development specified in *Development Control Plan 1/2000* adopted by the Council, as in force when the certificate is issued.

  - (b) whether any allotment to be created by the subdivision is intended to be used primarily for the purpose of agriculture, and

to subdivide land within Zone No 1 (a) to create an allotment that, in the opinion of the Council, is intended to be used for a purpose other than agriculture or a dwelling if the Council is satisfied that:

- (a) the purpose for which the allotment is to be used involves the supply of goods or services for which there is a demand in the locality,
- (b) no other land in the locality could reasonably be used for the purpose, and
- (c) the level of demand for the goods or services which are to be supplied from the allotment and the extent to which that allotment is proposed to be used to meet that demand justifies the creation of the allotment notwithstanding its agricultural value.

**15 Subdivision for the purpose of dwellings in Zone No 1 (c)**

- (1) The Council shall not grant consent to the subdivision of land within Zone No 1 (c) so as to create an allotment having an area of not less than 2 hectares unless it has taken into consideration:

  - (a) impose a condition that each allotment of land created by the subdivision has direct access to a road approved by the Council,
  - (b) where the Council is satisfied that suitable arrangements have been made—permit access to a properly constructed, drained and sealed road which is approved by the Council, or
  - (c) if the circumstances of the case so warrant—permit access to a road other than an approved sealed road.

- (2) A person shall not carry out development for the purpose of a dwelling-house on an allotment of land within Zone No 2 (a), 2 (c) or 2 (v) unless:

    - (i) an existing holding,

    - (iii) an allotment created in accordance with a consent granted before the appointed day, being an allotment on which a dwelling could have been erected immediately before the appointed day.
- (2) Notwithstanding subclause (1), the Council may consent to the erection of a dwelling

on an allotment of land used:

- (a) for the purpose of intensive agriculture, or
