Medical Practice Act 1992 No 94

New South Wales

An Act to provide for the registration of medical practitioners and medical students and the making of complaints and the taking of disciplinary action against medical practitioners; to repeal the *Medical Practitioners Act 1938*; to amend certain Acts; and for other purposes.

Part 1 Preliminary

1 Name of Act

This Act may be cited as the *Medical Practice Act 1992*.

2 Commencement

This Act commences on a day or days to be appointed by proclamation.

2A Object of Act

- (1) The object of this Act is to protect the health and safety of the public by providing mechanisms designed to ensure that:
 - (a) medical practitioners are fit to practise medicine, and
 - (b) medical students are fit to undertake medical studies and clinical placements.
- (2) The Board must exercise its functions under this Act in a manner that is consistent with this object.

3 Definitions

- (1) Expressions used in this Act (or in a particular provision of this Act) which are defined in the Dictionary at the end of this Act have the meanings set out in the Dictionary.
- (2) Notes included in this Act are explanatory notes and do not form part of this Act.

Part 2 Registration

Division 1 Qualifications etc for registration

4 Entitlement to general registration based on qualifications and training

- (1) A person is entitled to be registered as a medical practitioner if the person has recognised medical qualifications and has successfully completed a period of internship or supervised training as required by the Board.
- (2) A person has **recognised medical qualifications** if the person is a graduate of a Medical School (whether within or outside Australia) accredited by the Australian Medical Council or has successfully completed examinations held by that Council for the purposes of registration as a medical practitioner.
- (3) The entitlement under this section is an entitlement to general registration (that is, registration not subject to any condition).

5 Entitlement to conditional registration for interns

- (1) A person is entitled to be registered as a medical practitioner subject to appropriate conditions if the person would be entitled to registration under section 4 except for the fact that he or she has not completed a period of internship or supervised training required by the Board.
- (2) The **appropriate conditions** of registration are such conditions as the Board thinks appropriate for the purpose of enabling the person to complete that internship or training.

6 (Repealed)

7 Conditional registration at the discretion of the Board

- (1) The Board may register a person as a medical practitioner under any of the following provisions and may impose such conditions on that registration as the Board thinks appropriate:

A Graduates from non-accredited institutions—postgraduate training

A person who is a graduate of medicine from an institution which is not accredited by the Australian Medical Council may be registered on a temporary basis to enable the person to undertake a period of postgraduate training in medicine approved by the Board.

B Candidates for Council examinations approved for supervised training

A person who is a candidate for an examination held by the Australian Medical Council and has been approved by that Council to undertake a period of supervised training approved by the Board before sitting for the examination may

be registered for the purpose of enabling the person to undertake that training.

C Medical teaching or research

A person may be registered for the purpose of enabling the person to fill a medical teaching or research position if the person has qualifications that the Board recognises for that purpose.

D Unmet areas of need

A person may be registered for the purpose of enabling an unmet area of need to be met if the Board is satisfied that the person has suitable qualifications and experience to practise medicine in that area of need.

E Recognised specialist qualifications and experience

A person may be registered if the Board is satisfied that he or she has specialist qualifications and experience in medicine recognised by the relevant Australian specialist college or institution and registration is for the purpose of enabling him or her to practise within that specialty.

F Foreign specialist qualifications and experience—further training

A person may be registered if the Board is satisfied that he or she has specialist qualifications and experience in medicine obtained outside Australia, being qualifications which are not recognised by the relevant Australian specialist college or institution, and registration is for the purpose of enabling him or her to undergo further specialist training or examination before being assessed for recognition by that college or institution.

G Temporary registration in the public interest

A person may be registered on a temporary basis if the Board is satisfied that it is in the public interest to do so.

- (2) Despite section 13, a person may be registered under this section even though he or she does not have a command of the English language that is adequate for the practice of medicine but only if the Board thinks that registration is appropriate in the circumstances.

8 Interim registration available in certain cases

- (1) An applicant for registration may be granted interim registration in either of the following cases:
- (a) if the person is entitled to registration under section 4 (Entitlement to general registration based on qualifications and training) but it is not practicable to wait until the Board can consider the application,

- (b) if the person would be entitled to registration under section 5 (Entitlement to conditional registration for interns) except for the fact that a degree or award to which the applicant is entitled has not yet been conferred or granted by the institution concerned.
- (2) A person authorised by the Board for the purposes of this section may grant an applicant for registration interim registration in accordance with this section.
- (3) A person's interim registration is in force from the time of its grant until the person is given notice that any of the following things has happened:
 - (a) the Board has granted him or her registration,
 - (b) the Board has refused the application for registration,
 - (c) the Board has cancelled the interim registration.
- (4) The Board may cancel a person's interim registration for any reason that it considers proper and must then immediately give the person notice of the cancellation.
- (5) A person who holds interim registration is for all purposes taken to be a registered medical practitioner.
- (6) The date on which a person is registered is (if the person was the holder of interim registration immediately before the person is registered), taken to be the date on which interim registration was granted.
- (7) Interim registration granted under this section is taken to have been granted by the Board.

9 Non-practising registration

A person who is entitled to or eligible for registration under any other provision of this Part but who does not intend to practise may elect to be registered subject to the condition that the person is not to practise medicine. The Board may then register the person subject to such a condition.

10 Conditions may be imposed in cases of impairment

- (1) The Board may impose conditions on a person's registration, as an alternative to refusing to register the person, if the Board is satisfied that the person suffers from an impairment and the conditions are reasonably required having regard to the impairment.
- (2) A registered medical practitioner who has had conditions imposed on his or her registration under this section (including on a review under this section) may apply to the Board for a review of the conditions.
- (3) The Board may decline to review the conditions if the application is made within 12

months after the conditions were last reviewed under this section. No appeal lies in respect of such a decision by the Board to decline to review conditions.

- (4) On a review of conditions the Board may alter or remove conditions or impose new conditions, as it thinks appropriate.

11 Entitlement to registration does not prevent conditions being imposed

An entitlement to registration under this Act (including an entitlement to general registration) does not prevent conditions being imposed on that registration in accordance with this Act.

Division 2 Grounds for refusing registration

12 Registration may be refused despite entitlement or eligibility

The provisions of this Division override any entitlement to or eligibility for registration under Division 1.

13 Applicants must be competent and of good character

The Board must not register a person as a medical practitioner unless satisfied that the person:

- (a) is competent to practise medicine (that is, the person has sufficient physical capacity, mental capacity and skill to practise medicine and has sufficient communication skills for the practice of medicine, including an adequate command of the English language), and
- (b) is of good character.

14 Restrictions on registration of deregistered persons

- (1) A person cannot apply for registration (and any such application must be rejected) if the person has been deregistered under this Act.
- (2) A person is **deregistered** when:
 - (a) the person's name is removed from the Register pursuant to an order of the Chairperson or a Deputy Chairperson, the Tribunal or the Supreme Court, or
 - (b) the Chairperson or a Deputy Chairperson, the Tribunal or the Supreme Court orders that the person not be re-registered.
- (3) The only way such a person can again be registered is on a review under Division 3 of Part 6 of the order by which the person was deregistered.

15 Registration may be refused if applicant convicted of offence

- (1) The Board may refuse an application for registration if:

- (a) the applicant has been convicted of or made the subject of a criminal finding for an offence (either in or outside the State), and
 - (b) the Board is of the opinion that the circumstances of the offence are such as to render the applicant unfit in the public interest to practise medicine.
- (2) The Board is to have regard to the nature of an offence (such as, for example, whether it is of a trivial nature) and the circumstances in which it was committed in making a decision under this section.

16 Registration may be refused if applicant deregistered on disciplinary grounds in another jurisdiction

- (1) The Board may refuse an application for registration if the person has been deregistered under a foreign law:
- (a) for any reason relating to the conduct of the applicant amounting to professional misconduct (within the meaning of this Act), or
 - (b) on any basis relating to the applicant's physical or mental capacity to practise medicine.
- (2) For the purposes of this section, a person is **deregistered** under a foreign law when:
- (a) the person's name is removed from any register or roll established or kept under a foreign law, or
 - (b) the person's entitlement to practise medicine is suspended under a foreign law (in the case of a person who is not entitled to registration under the Mutual Recognition laws).

- (3) In this section:

foreign law means the law of any other State or a Territory or of another country providing for the registration, licensing or certification of medical practitioners.

Division 3 Appeals

17 Right of appeal

- (1) A person may appeal to the Tribunal against any of the following determinations of the Board:
- (a) a determination because of which the person's application for registration has been refused or a condition has been imposed on the person's registration,
 - (b) a determination on a review under section 10 (Conditions may be imposed in cases of impairment) of the conditions to which a person's registration is subject.

- (2) An appeal must be made within 28 days (or such longer period as the Registrar may allow in a particular case) after notice of the determination is given to the person.

18 Appeal to be lodged with Registrar

An appeal must be lodged with the Registrar who is to refer it to the Tribunal.

19 Appeal from inquiry decision to be by way of rehearing

If the determination in respect of which an appeal is made was made as a consequence of an inquiry held by the Board, the appeal is to be dealt with by way of rehearing and fresh evidence or evidence in addition to or in substitution for the evidence received at the inquiry may be given.

20 Pending appeal does not affect Board's determination

An appeal does not affect any determination with respect to which it is made until the appeal is determined.

21 Determination of appeal

- (1) When it determines an appeal, the Tribunal may dismiss the appeal or order that the determination of the Board be revoked and replaced by a different determination made by the Tribunal and specified in the order. The Tribunal may also make such ancillary orders as it thinks proper.
- (2) The Tribunal's decision is taken to be a determination of the Board (but this does not confer a right of appeal under this Division in respect of the Tribunal's decision).

Division 4 Registration procedures

22 Machinery provisions

Schedule 1 has effect. It makes provision with respect to applications for registration, procedures for dealing with applications, inquiries concerning entitlement to and eligibility for registration, the keeping and alteration of the Register, and annual registration fees.

23 Some applications for registration to be dealt with by Committee

- (1) An application for registration made by a person whose name was removed from the Register pursuant to an order under this Act on the grounds that the person did not have sufficient physical capacity or mental capacity to practise medicine is to be dealt with by a Committee instead of the Board.
- (2) For that purpose the Committee has all the functions of the Board under this Act with respect to the application and a decision of a Committee on the application is taken to be a decision of the Board.

24 How registration ceases

A registered medical practitioner ceases to be registered when:

- (a) the Board gives the person notice that the person's name has been removed from the Register in accordance with this Act, or
- (b) if registration is conditional and the period of the registration is specified in a condition—the period expires.

Part 3 Removal from and alteration of the Register

Division 1 General powers to remove from or alter the Register

25 Removal of person wrongfully registered

The Board may remove the name of any person from the Register who has been registered by reason of any false or fraudulent representation or declaration, made either verbally or in writing, or who is not entitled or eligible to be registered.

26 Amendment of incorrect particulars concerning qualifications

- (1) The Board may remove particulars from, or otherwise amend, the Register if any particulars appearing on the Register in respect of the qualifications of a registered medical practitioner are proved to the satisfaction of the Board to be or are to the knowledge of the Board false or erroneous in any respect.
- (2) This requirement applies even if, when the entry in the Register was made, the practitioner had the qualifications concerned or the entry was otherwise correct.

27 Removal on death or at own request

32 Deregistration on basis of disciplinary action under foreign law

- (1) This section applies when it is proved to the satisfaction of that Board that, after a person was registered under this Act, the person was deregistered under a foreign law:

- (5) An appeal does not affect the removal of a person's name from the Register unless and until the Tribunal orders that it be restored to the Register.
- (6) If the Tribunal dismisses the appeal, it may by order fix a time after which the person may apply to be registered. The person is then not entitled to be registered before that time (despite any entitlement under this Act to be registered).
