Part 2 Complaints

Division 1 The right to complain

7 What can a complaint be made about?

- (1) A complaint may be made under this Act concerning:
 - (a) the professional conduct of a health practitioner, or
 - (b) a health service which affects the clinical management or care of an individual client.
- (2) A complaint may be made against a health service provider.
- (3) A complaint may be made against a health service provider even though, at the time the complaint is made, the health service provider is not qualified or entitled to provide the health service concerned.

8 Who may make a complaint?

A complaint may be made by any person including, in particular, the following:

- the client concerned
- a parent or guardian of the client concerned
- a person chosen by the client concerned as his or her representative (including an Australian legal practitioner) for the purpose of making the complaint
- a health service provider
- a member of Parliament
- the Director-General
- the Minister.

9 How is a complaint made?

- (1) A complaint is made by lodging the complaint in writing with the Commission.

- (2) The complaint is to include particulars of the allegations on which it is founded.
- (3) It is the duty of staff of the Commission to help a person to make a complaint if the person requests assistance to do so.

Note—

This section does not prevent a person who wishes to make a complaint from first talking to the Commission about it. However, a complaint cannot be acted on until it is put in writing.

It is an offence under section 99 to furnish information to the Commission for the purposes of this Act that is false or misleading in a material particular and under section 35 to furnish such information to the Commissioner or staff of the Commission.

Division 2 Liaising with registration authorities

10 Notifying registration authorities of complaints

- (1) If a complaint made under this Act to the Commission is made against or directly involves a health practitioner who is or has been registered under a health registration Act, the Commission must notify the appropriate registration authority of the complaint.
- (2) The complaint is to be so notified as soon as practicable after it is made.

11 Complaints made to registration authorities

When, in accordance with a health registration Act, a registration authority notifies the Commission of a complaint made under the health registration Act, the complaint is taken to have been made in accordance with this Act to the Commission.

12 Consultation between the Commission, a registration authority and the Registrar

- (1) Before determining, as a result of the assessment of a complaint, whether to investigate a complaint, to refer the complaint for conciliation, to deal with the complaint under Division 9 or to discontinue dealing with the complaint, the Commission must consult with the appropriate registration authority, subject to this section.
 - (1A) If it is proposed, as a result of the assessment of a complaint, to refer the complaint for conciliation, the Commission must also consult with the Registrar.
- (2) The regulations may prescribe circumstances, such as cases of urgency, where the Commission may consult with a prescribed person on behalf of the appropriate registration authority instead of consulting with the registration authority itself and where the prescribed person may exercise the other functions of the registration authority under this Division.

13 The outcomes of consultation

- (1) If either the Commission or the appropriate registration authority is of the opinion that a complaint (or any part of a complaint) should be investigated, it must be investigated.
- (2) If:
 - (a) neither the Commission nor the appropriate registration authority is of the opinion that the complaint (or part) should be investigated, but
 - (b) either is of the opinion that it should be referred to the registration authority for consideration as to whether the registration authority should take any action under the relevant health registration Act (such as performance assessment or impairment assessment),it must be referred to the registration authority under section 25B.
- (3) If:
 - (a) neither the Commission nor the appropriate registration authority is of the opinion that the complaint (or part) should be investigated or referred to the registration authority, but
 - (b) either is of the opinion that it should be referred for conciliation and the Registrar considers that it is appropriate for conciliation,the Commission is to refer the complaint for conciliation under Division 8.

Note—

Only the [Medical Practice Act 1992](#) and the [Nurses and Midwives Act 1991](#) contain provisions relating to performance assessment.

14 Suspension of action by registration authority

- (1) A registration authority must not take any action under a health registration Act concerning a complaint while it is subject to investigation by the Commission or is being dealt with under Division 8 or 9.
- (2) This section does not limit any power of a registration authority under a health registration Act to do anything to protect the life or the physical or mental health of any person.

15 Provision of information to registration authorities

- (1) A registration authority may, at any time, request information from the Commission concerning a specified complaint that is made against or directly involves a health practitioner who is or has been registered under the health registration Act relevant to the registration authority.

- (2) The Commission must supply the information requested if it is reasonable to do so.

Note—

Division 2 enables the health professional registration boards and the Commission to act in collaboration with each other. The Division will allow complete information sharing between the two arms in the disciplinary system, with a decision to investigate a complaint being made only after there has been consultation between the Commission and the registration authority. Where a disagreement occurs as to the appropriate action, both bodies will retain the ability to refer the matter for investigation, thus creating an internal checking method for all decisions which may result in disciplinary action. This two-pronged system will also apply to decisions to refer complaints for conciliation and will involve the Registrar in the consultation process.

Division 3 Notification and withdrawal of complaints

16 Person against whom complaint made to be notified of complaint

- (1) The Commission must give written notice of the making of a complaint, the nature of the complaint and the identity of the complainant to the person against whom the complaint is made. The notice must be given not later than 14 days after the Commission's assessment of the complaint under Division 4.
- (2) If the Commission has assessed the complaint, the notice is to include the notice required to be given to the person under section 28.
- (3) The Commission may give a copy of the complaint to the person against whom the complaint is made.
- (4) This section does not require the Commission to give notice under this section if it appears to the Commission, on reasonable grounds, that the giving of the notice will or is likely to:
- (a) prejudice the investigation of the complaint, or
 - (b) place the health or safety of a client at risk, or
 - (c) place the complainant or another person at risk of intimidation or harassment.
- (5) Despite subsection (4), the Commission must give the notice if the Commission considers on reasonable grounds that:
- (a) it is essential, having regard to the principles of natural justice, that the notice be given, or
 - (b) the giving of the notice is necessary to investigate the matter effectively or it is otherwise in the public interest to do so.
- (6) If the Commission decides that subsection (4) applies to a complaint but that some form of notice could be given of the complaint without affecting the health or safety of a client or putting any person at risk of intimidation or harassment, the Commission may give such a form of notice.

- (7) On the expiration of each consecutive period of 60 days after the complaint is assessed, the Commission must undertake a review of a decision not to give notice under this section (or to give notice in some other form as referred to in subsection (6)) unless notice under this section has already been given or the Commission has discontinued dealing with the complaint.

17 Director-General to be notified of complaint made against a health organisation

On receiving a complaint against a health organisation, the Commission must give written notice of the making of the complaint, the nature of the complaint and the identity of the complainant to the Director-General.

18 Can a complaint be withdrawn?

- (1) A complainant may withdraw the complaint at any time by notice in writing to the Commission.
- (2) On the withdrawal of a complaint, the Commission may cease to deal with it but must continue to deal with the matter the subject of the complaint if it appears to the Commission that:
 - (a) the matter raises a significant issue of public health or safety, or
 - (b) the matter raises a significant question as to the appropriate care or treatment of a client by a health service provider, or
 - (c) the matter, if substantiated, would provide grounds for disciplinary action against a health practitioner, or
 - (d) the matter, if substantiated, would involve gross negligence on the part of a health practitioner.

Division 4 Assessment of complaints

19 Initial assessment of complaints

- (1) On its receipt by the Commission, a complaint is to be assessed.
- (2) This section does not apply to a matter that is to be investigated in accordance with section 59.

20 The purpose of assessment

- (1) The assessment of a complaint is for the purpose of deciding whether:
 - the complaint should be investigated
 - the complaint should be conciliated or dealt with under Division 9
 - the complaint should be referred to the Director-General in accordance with section

25 or 25A

- the complaint should be referred to another person or body in accordance with section 25B or 26
- the Commission should decline to entertain the complaint.

(2) Unless the Commission decides to decline to entertain a complaint, the Commission is, as part of its assessment of the complaint and as soon as practicable after commencing its assessment:

- (a) to identify the specific allegations comprising the complaint and the person or persons whose conduct appears to be the subject of the complaint, and
- (b) to use its best endeavours to confirm with the complainant and with any other person who provided relevant information in relation to the complaint that the matters so identified accord with the information provided by them.

20A Duty of Commission to review assessment of complaint

- (1) The Commission is to keep under review its assessment of a complaint while it is dealing with the complaint.
- (2) At any time while dealing with a complaint (including during or at the end of the investigation of a complaint) and after consultation with the appropriate registration authority, the Commission may revise its assessment of the complaint and take any of the following actions:
 - (a) deal with the complaint under Division 9,
 - (b) refer the complaint for conciliation,
 - (c) investigate the complaint,
 - (d) refer the complaint to the Director-General in accordance with section 25 or 25A,
 - (e) refer the complaint to another person or body in accordance with section 25B or 26,
 - (f) change the person whose conduct appears to be the subject of the complaint or include another person as a person whose conduct appears to be the subject of the complaint,
 - (g) add to, substitute, amend or delete any of the specific allegations comprising the complaint (including add an allegation arising out of an investigation of the complaint that may not be the particular object of the complaint).

Note—

Section 56 limits the Commission's power to investigate a matter that has been dealt with under Division 8.

- (3) If the Commission revises its assessment of a complaint to include another person as referred to in subsection (2) (f), sections 16 and 28 apply to the giving of notice to that person as if a reference in those sections to the assessment of the complaint were a reference to the revision of the assessment under this section.
- (4) If the Commission revises its assessment of a complaint and as a result determines that the conduct of a person previously being investigated by the Commission will no longer be investigated or that different conduct of the person will be investigated, the Commission is to give the person notice in writing that the person's conduct is no longer under investigation or that other conduct of the person is now under investigation (as appropriate).
- (5) In this section, **complaint** includes any part of a complaint.

21 Commission may require further information

For the purposes of the assessment, the Commission may require the complainant to provide further particulars of the complaint within such time, not exceeding 60 days, as may be specified by the Commission.

21A Commission may obtain certain medical and other documents

- (1) For the purposes of the assessment, the Commission may exercise the powers conferred on it by section 34A in connection with the investigation of a complaint to obtain hospital and medical records and documents relating to a health practitioner's practice.
- (2) A reference in this Act to a requirement under section 34A includes a reference to such a requirement that arises under this section.

22 Time for completion of assessment

The Commission must carry out its assessment of a complaint:

- (a) within 60 days after receiving the complaint, or
- (b) if, under section 21, the Commission has required the complainant to provide further particulars of the complaint, within 60 days after the date by which the Commission specified that those particulars were to be provided.

23 Investigation of complaint

- (1) The Commission must investigate a complaint:
 - (a) if, under section 13 (1), the appropriate registration authority is of the opinion that the complaint should be investigated, or
 - (b) if, following assessment of the complaint, it appears to the Commission that the complaint:

- (i) raises a significant issue of public health or safety, or
 - (ii) raises a significant question as to the appropriate care or treatment of a client by a health service provider, or
 - (iii) if substantiated, would provide grounds for disciplinary action against a health practitioner, or
 - (iv) if substantiated, would involve gross negligence on the part of a health practitioner.
- (2) A complaint is to be investigated in accordance with Division 5.
 - (3) (Repealed)
 - (4) The Commission may investigate a complaint despite any agreement the parties to the complaint may have reached concerning the complaint.

24 Referral of complaints for conciliation or complaint resolution

- (1) The Commission must refer a complaint for conciliation under Division 8 if it is required to do so under section 13 (3) or if it decides to do so under section 20A.
- (2) The Commission may deal with a complaint under Division 9 if the complaint is not required to be investigated, referred to a registration authority under section 25B or referred for conciliation.
- (3) The Commission may at any time during the assessment of a complaint take any action referred to in section 58C with respect to the complaint without the need for consultation with the appropriate registration authority.
- (4) However, subsection (3) does not affect the requirement in section 12 (1) for the Commission to consult with the appropriate registration authority before making a determination on how a complaint should be dealt with as a result of an assessment of the complaint.

25 Notification of certain complaints to the Director-General

- (1) Following the assessment, the Commission must notify the Director-General of the details of the complaint if it appears to the Commission that the complaint involves a possible breach of any of the following Acts, or specified provisions of Acts, or any regulations made under them:

- [Public Health Act 1991](#)

- (2) The Commission is not required to notify the Director-General of the details of the complaint if the complaint was made by the Director-General.
- (3) The Director-General must notify the Commission whether the Director-General proposes to deal with the complaint and, if the Director-General does so, of the outcome of the Director-General's dealing with the complaint.
- (4) This section does not prevent the Commission from dealing with a complaint (or any part of a complaint) in so far as it concerns:
 - (a) the professional conduct of a health practitioner, or
 - (b) a health service which affects the clinical management or care of an individual client.

Note—

The Director-General, under the Minister, is primarily responsible for the enforcement of the Acts listed in section 25. Accordingly, complaints arising under those Acts are to be referred to the Department of Health for possible action. Accountability will be maintained through obligations imposed on the Director-General to notify the Commission of the outcome.

However, the section ensures that the Commission may continue to pursue questions that are not dealt with by the Director-General as well as questions that concern the professional conduct of health practitioners and the clinical management or care of individual clients.

25A Reference of complaints to be dealt with under inquiry powers of Director-General

- (1) The Commission may, with the consent of the Director-General, refer a complaint (or part of a complaint) to the Director-General if the Commission is of the opinion that the complaint (or part) relates to a matter that could be the subject of an inquiry by the Director-General under section 71 of the [Public Health Act 1991](#) or section 123 of the [Health Services Act 1997](#).
- (2) Despite section 27 (3), the Commission must discontinue dealing with a complaint (or part) under that section that has been referred to the Director-General under this section.

- (3) However, the Commission may continue dealing with a complaint (or any part of a complaint) in so far as it concerns:
 - (a) the professional conduct of a health practitioner, or
 - (b) a health service which affects the clinical management or care of an individual client.

25B Reference of complaints to be dealt with by registration authorities

- (1) Following the assessment, the Commission may refer a complaint to the appropriate registration authority (after consultation with that authority) if it appears that the complaint (or part) should be referred to the registration authority for consideration as to whether the registration authority should take any action under the relevant health registration Act, such as performance assessment or impairment assessment.

Note—

Section 13 (2) requires the Commission to refer a complaint to the registration authority if either the Commission or the registration authority is of the opinion that it should be referred.

- (2) Despite section 27 (3), the Commission must discontinue dealing with a complaint (or part) under that section that has been referred to a registration authority under this section.

Note—

Registration authorities are required in certain circumstances under the relevant health registration Acts to deal with matters as complaints that have been dealt with under performance assessment or impairment assessment provisions. (See, for example, section 86M of the *Medical Practice Act 1992* which requires a matter arising from a performance review to be treated as a complaint if the Performance Review Panel considers the matter raises a significant issue of public health or safety.)

26 Reference of complaint to another person or body for investigation or other action

- (1) Following the assessment, the Commission may refer a complaint (or any part of a complaint):
 - (a) to an appropriate public health organisation if it appears that the complaint (or part) may be capable of resolution at a local level and the public health organisation consents, or
 - (b) to any person or body (other than a public health organisation or registration authority) if it appears that the complaint (or part) raises issues which require investigation by the other person or body.
- (2) However, the Commission must continue to deal with the matter the subject of the complaint (or part) if it appears to the Commission that:
 - (a) the matter raises a significant issue of public health or safety, or
 - (b) the matter raises a significant question as to the appropriate care or treatment of

a client by a health service provider, or

(c) the matter, if substantiated, would provide grounds for disciplinary action against a health practitioner.

(3) A public health organisation to which a complaint (or part) is referred under this section may refer the complaint (or part) back to the Commission if it is unable to resolve it or the public health organisation considers that the matter is appropriate to be dealt with under Division 8 or 9.

(4) If a complaint (or part) has been referred back to the Commission under subsection (3), the Commission must assess the complaint (or part) again in accordance with this Division.

(5) The Commission may not refer a complaint (or part) to the Director-General under this section.

Note—

The Commission may refer a complaint to the Director-General under section 25 or 25A but only with the consent of the Director-General.

(6) In this section, **public health organisation** has the same meaning as in the [Health Services Act 1997](#).

27 Circumstances in which Commission may discontinue dealing with complaint

(1) Following the assessment, the Commission may discontinue dealing with a complaint (or any part of a complaint) for any one or more of the following reasons:

(a) the complaint (or part) is frivolous, vexatious or not made in good faith,

(b) the subject-matter of the complaint (or part) is trivial or does not warrant investigation or conciliation or the Commission dealing with it under Division 9,

(c) the subject-matter of the complaint (or part) has been or is under investigation by some other competent person or body or has been or is the subject of legal proceedings,

(d) the complaint (or part) has been referred by the Commission to another person or body for investigation or for consideration of other action (including, for example, performance assessment or impairment assessment under a health registration Act),

(e) there is or was, in relation to the matter complained of, a satisfactory alternative means of dealing with the matter by the complainant and the complainant does not have a sufficient reason for not pursuing that alternative means,

(f) the complaint (or part) relates to a matter which occurred more than 5 years before the complaint was made and the complainant does not have a sufficient

reason for having delayed the making of the complaint,

(g) the complainant has failed, without sufficient reason, to provide further particulars of the complaint (or part) within the time specified by the Commission,

(h) the complaint (or part) concerns a matter that falls within the responsibility of the Commonwealth.

(2) This section does not exhaust the circumstances in which the Commission may discontinue dealing with a complaint (or part).

(3) The Commission must not discontinue dealing with a complaint (or part) under this section if it appears to the Commission that the complaint (or part) raises a significant issue of public health or safety.

(4) If the Commission discontinues dealing with a complaint (or part) under this section, the complaint (or part) is terminated.

28 Notice of action taken or decision made following assessment

(1) The Commission must give the parties to the complaint notice in writing of the action taken or decision made by the Commission following its assessment of the complaint. The notice is to be given within 14 days after the Commission takes that action or makes that decision.

(2) If the Commission decides to investigate a complaint against a health practitioner, the Commission must give notice in writing of the decision:

(a) if the health practitioner has provided the health service in respect of which the complaint is made under a contract or agreement with a person who is, or who conducts, a hospital or other health care facility, to the person, or

(b) if the health practitioner has provided the health service in the capacity of an employee, to the health practitioner's employer.

(3) If the Commission decides to investigate a complaint against a health practitioner, the Commission may give notice in writing of the decision to a person who currently employs or engages the health practitioner as a health practitioner.

(4) This section does not require the Commission to give notice of action taken or a decision made to investigate a complaint if it appears to the Commission, on reasonable grounds, that the giving of the notice will:

(a) prejudice the investigation of the complaint, or

(b) place the health or safety of a client at risk, or

(c) place the complainant or another person at risk of intimidation or harassment, or

- (d) unreasonably prejudice the employment of the health practitioner in the case of a health practitioner who has provided the health service in the capacity of an employee.
- (5) Despite subsection (4), the Commission must give the notice if the Commission considers on reasonable grounds that:
 - (a) it is essential, having regard to the principles of natural justice, that the notice be given, or
 - (b) the giving of the notice is necessary to investigate the matter effectively or it is otherwise in the public interest to do so.
- (6) If the Commission decides that subsection (4) applies to a complaint but that some form of notice could be given of the complaint without affecting the health or safety of a client or putting any person at risk of intimidation or harassment, the Commission may give such a form of notice.
- (7) On the expiration of each consecutive period of 60 days after the Commission has decided to investigate a complaint, the Commission must undertake a review of a decision not to give notice under this section (or to give notice in some other form as referred to in subsection (6)), unless notice under this section has already been given or the Commission has discontinued dealing with the complaint.
- (8) The Commission's notice to the complainant must include:
 - (a) advice that the complainant may ask the Commission to review the decision made after assessing the complaint if the decision is:
 - (i) not to investigate the complaint, or
 - (ii) to refer the complaint to the Director-General under section 25 or 25A, or
 - (iii) to refer the complaint to another person or body under section 25B or 26, or
 - (iv) to discontinue dealing with the complaint under section 27, and
 - (b) the reasons for the decision.
- (9) The Commission may review a decision made after assessing a complaint if requested to do so by the complainant, and must do so if the request is made within 28 days after the complainant is notified of the decision.

Note—

A complainant also has the right under section 41 (3) to request a review of a decision made by the Commission under section 39 at the end of its investigation of a complaint.

28A Notification of other persons following assessment

- (1) The Commission is to use its best endeavours to give notification of the outcomes of

the assessment of a complaint to a client whose treatment is the subject of the complaint and who is not required to be given notice under section 28 unless the client:

- (a) is deceased, or
 - (b) is incapable of understanding the notification.
- (2) If a complaint relates to the treatment of a client at a hospital or other health care facility, the Commission is to use its best endeavours to give notification of the outcomes of the assessment of the complaint to any person recorded by the hospital or health care facility as being a contact for the client.
- (3) Without affecting the Commission's obligations under subsections (1) and (2), the Commission may, if it thinks it appropriate and it is practicable to do so, give notification of the outcomes of the assessment of a complaint to any person who is associated with a client whose treatment is the subject of the complaint (including a legal representative of the client or of the estate of the client).
- (4) The Commission may only give notification to a person under subsection (2) or (3) if the client concerned:
- (a) is deceased, or
 - (b) is incapable of understanding the notification and the client's authorised representative (as defined in section 8 of the [Health Records and Information Privacy Act 2002](#)) has consented to the Commission giving the notification.
- (5) On request by the Commission, a person who is, or who conducts, a hospital or health care facility is to supply the Commission with any information in its possession that is necessary for the Commission to fulfil its obligations under subsections (1) and (2). The information may be provided to the Commission despite any other Act or law.

Division 5 Investigation of complaints

Note—

The bulk of Commission investigations under this Division will deal with matters arising under health registration Acts relating to health practitioners. The Commission will investigate with a view to moving to prosecution of the complaint before the appropriate professional board, committee or tribunal. The Commission will also use its powers under this Division for other matters referred to it, such as a matter which is referred for investigation under section 59, or where the Commission is operating in conjunction with the Department of Health under general health legislation.

29 The purpose of investigation

- (1) The investigation of a complaint by the Commission is for the purpose of obtaining information concerning the matter complained of and to determine what action should be taken in respect of the complaint.
- (2) The investigation of a complaint is to be conducted as expeditiously as the proper

investigation of the complaint permits. Expedition is particularly appropriate if the complainant or the person on whose behalf the complaint is made is seriously ill.

30 Expert assistance

- (1) In investigating a complaint, the Commission may obtain a report from a person (including a person registered under a health registration Act) who, in the opinion of the Commission, is sufficiently qualified or experienced to give expert advice on the matter the subject of the complaint.
- (2) The Commission may not obtain a report from a person who has a financial connection with the health practitioner against whom the complaint is made.
- (2A) If the Commission seeks to obtain a report from a person under this section in relation to a complaint, the Commission is to provide the person with all relevant information concerning the complaint that is in the possession of the Commission.
- (3) The person giving the report must include in it, or annex to it, a statement in the following form, completed as appropriate:

I *have/do not have* a personal, financial or professional connection with the person against whom the complaint is made. Particulars of the connection are as follows:

.....
.....
.....
Dated this day of 19 .
Signature.....

- (4) Such a report may be used in disciplinary or related proceedings under a health registration Act but may not be admitted or used in any other proceedings before a court, tribunal or body, except with the consent of the person giving the report, the complainant and the person against whom the complaint is made.
- (5) A person from whom such a report is obtained, the Commission or the Commissioner may not be compelled to produce the report or to give evidence in relation to the report or its contents in any such other proceedings.
- (6) In this section, **report** includes a copy, reproduction and duplicate of the report or any part of the report, copy, reproduction or duplicate.

31 Authorisation of persons to carry out investigations

- (1) The Commission may authorise an officer of the Commission, in writing, to exercise the functions under section 33.
- (2) The Commission must provide an authorised person with a certificate of authority in the form set out in Schedule 1.

- (3) An authorised person in exercising in any place a function conferred on the authorised person under section 33 must, if so requested by a person apparently in charge of the place, produce the certificate to the person.

32 Functions to be exercised only with consent or under search warrant

An authorised person may not enter any premises and exercise a function under section 33 except with the consent of the owner or occupier of the premises or under the authority of a search warrant.

33 Powers of entry, search and seizure

An authorised person may, for the purpose of investigating a complaint, do any one or more of the following:

- (a) at any reasonable time, enter and inspect any premises if the authorised person reasonably believes it is necessary to enter those premises for the purpose of investigating the matter with which the complaint is concerned,
- (b) examine, seize, retain or remove any equipment that the authorised person reasonably believes is, has been or may be used in connection with that matter,
- (c) require the production of and inspect any stocks of any substance or drugs in or about those premises,
- (d) require any person within those premises to produce any records in the possession or under the control of that person relating to that matter,
- (e) take copies of, or extracts or notes from, any such records,
- (f) remove any such records, with the consent of the owner of the records, for a maximum period of 24 hours for the purpose of taking copies of, or notes from, those records,
- (g) require any person at those premises to answer questions or otherwise furnish information in relation to that matter,
- (h) require the owner or occupier of those premises to provide the authorised person with such assistance and facilities as is or are reasonably necessary to enable the authorised person to exercise the functions of an authorised person under this section.

34 Search warrant

- (1) An authorised person may apply to an authorised officer for a search warrant if the person has reasonable grounds for believing that entry to premises is necessary for the purpose of investigating a complaint that, if substantiated, may provide grounds for:
 - (a) the suspension or disqualification (by deregistration or cancellation of enrolment)

of the person against whom the complaint is made, or

(b) the criminal prosecution of that person, or

(c) the taking of other disciplinary action against that person.

- (2) An authorised person may not apply for a search warrant to search premises for the purpose of investigating a complaint against a health practitioner who is or was, at the relevant time, registered under a health registration Act (or whose registration is or was suspended) unless the authorised person or the Commission has caused the President or Chairperson of the appropriate registration authority to be notified of the application.
- (3) An authorised officer to whom an application is made under this section may, if satisfied that there are reasonable grounds for doing so, issue a search warrant authorising an authorised person named in the search warrant to enter the premises and to exercise there the functions of an authorised person under section 33.
- (4) Division 4 of Part 5 of the *Law Enforcement (Powers and Responsibilities) Act 2002* applies to a search warrant issued under this section.
- (5) In this section:

authorised officer has the same meaning as it has in the *Law Enforcement (Powers and Responsibilities) Act 2002*.

34A Power of Commission to obtain information, records and evidence

- (1) If the Commission is investigating a complaint and is of the opinion that a person is capable of giving information, producing documents (including medical records) or giving evidence that would assist in the investigation, the Commission may, by notice in writing given to the person, request the person to do any one or more of the following:
- (a) to give the Commission, by writing signed by the person (or, in the case of a corporation, by a competent officer of the corporation) and within such time as is reasonable, and in the manner, specified in the notice, any such information of which the person has knowledge,
- (b) to produce to the Commission, in accordance with the notice, any such documents,
- (c) to appear before the Commissioner or a member of staff of the Commission authorised by the Commissioner at a time and place specified in the notice that is reasonable and give any such evidence, either orally or in writing, and produce any such documents.
- (2) A person to whom a request is made under subsection (1) may comply with the

request, but is not required to comply with it unless the person is:

- (a) the complainant, or
- (b) a person against whom the complaint was made, or
- (c) a health service provider.

- (3) Information and documents may be given or provided to the Commission in compliance with this section despite any other Act or law (but not despite a provision of Division 8 of this Part or Division 6B or 6C of Part 2 of the *Health Administration Act 1982*).
- (4) A person who is required to comply with a request under subsection (1) must not, without reasonable excuse, fail to comply with the request.

Maximum penalty: 20 penalty units.

Note—

Failure of a health practitioner to comply with a request under subsection (4) may constitute unsatisfactory professional conduct under the relevant health registration Act.

35 Offence: obstructing an authorised person, Commission etc

A person who:

- (a) prevents an authorised person from exercising a function under section 33, or
- (b) hinders or obstructs an authorised person in the exercise of such a function, or
- (c) without reasonable excuse, refuses or fails to comply with a requirement made or to answer a question of an authorised person asked in accordance with section 33, or
- (d) furnishes information knowing that it is false or misleading in a material particular to an authorised person, the Commissioner or a member of staff of the Commission in connection with the exercise of their functions under this Act with respect to a complaint,

is guilty of an offence.

Maximum penalty: 20 penalty units.

36 Offence: impersonating an authorised person

A person who impersonates or falsely represents that he or she is an authorised person is guilty of an offence.

Maximum penalty: 20 penalty units.

37 (Repealed)

37A Protection from incrimination

- (1) **Self-incrimination not an excuse** A person is not excused from a requirement under section 34A to give information, to answer a question or to produce a document on the ground that the information, answer or document might incriminate the person or make the person liable to a penalty.
- (2) **Information or answer not admissible if objection made** However, any information or answer given by a natural person in compliance with a requirement under section 34A is not admissible in evidence against the person in any civil or criminal proceedings (except disciplinary proceedings or proceedings for an offence under this Part) if:
 - (a) the person objected at the time to doing so on the ground that it might incriminate the person, or
 - (b) the person was not warned on that occasion that the person may object to giving the information or answer on the ground that it might incriminate the person.
- (3) **Documents admissible** Any document produced by a person in compliance with a requirement under section 34A is not inadmissible in evidence against the person in any proceedings on the ground that the document might incriminate the person.
- (4) **Further information** Further information obtained as a result of a document produced or information or answer given in compliance with a requirement under section 34A is not inadmissible in any proceedings on the ground:
 - (a) that the document, information or answer had to be produced or given, or
 - (b) that the document, information or answer might incriminate the person.
- (5) The Commission, the Commissioner or a member of staff of the Commission cannot be required (whether by subpoena or any other procedure) to produce, in connection with any proceedings, a document that contains any information or answer that has been obtained as a result of a requirement under section 34A if the information or answer is not admissible in evidence in those proceedings because of this section.

38 Notification of findings of investigation to appropriate registration authority

- (1) The Commission must notify the appropriate registration authority (if any) of the findings of an investigation.
- (2) If the Commission is required to consult with the registration authority under section 39 (2), the notification may be given at the time of consultation.

Division 6 Outcomes of investigations into health practitioners

39 What action is taken after an investigation?

- (1) At the end of the investigation of a complaint against a health practitioner, the

Commission must do one or more of the following:

- (a) refer the complaint to the Director of Proceedings,
- (b) (Repealed)
- (c) refer the complaint to the appropriate registration authority (if any) for consideration of the taking of action under the relevant health registration Act, such as the referral of the health practitioner for performance assessment or impairment assessment,
- (d) make comments to the health practitioner on the matter the subject of the complaint,
- (e) terminate the matter,
- (f) refer the matter the subject of the complaint to the Director of Public Prosecutions.

(1A) The Commission is not required to take action under this section if it reviews its assessment of the complaint and takes action under section 20A.

(2) The Commission must consult with the appropriate registration authority before deciding what action to take.

(3) In this section, **disciplinary body** means a person or body (including a professional standards committee) established under a health registration Act that has the power to discipline a health practitioner or suspend or cancel (by whatever means) the registration of a health practitioner.

40 Opportunity for persons investigated to make submissions

(1) If, at the end of the investigation of a complaint against a health practitioner, the Commission proposes to do any of the things referred to in section 39 (1) (a), (b), (c) or (d), it must first inform the health practitioner of the substance of the grounds for its proposed action and give the health practitioner an opportunity to make submissions.

(2) Any such submission must be made in writing within 28 days after the health practitioner is so informed.

(3) The Commission is not required by this section to inform a health practitioner of the substance of the grounds for its proposed action if:

- (a) the grounds relate to the sufficiency of the physical or mental capacity of the practitioner to practise as a health practitioner under the impairment provisions of a health registration Act, and
- (b) the practitioner has been notified by the appropriate registration authority of action to be taken pursuant to those provisions.

Note—

Section 40 (3) will ensure that registration authorities can act to deal with impaired practitioners pursuant to any powers they may have under their respective health registration Acts, without awaiting advice from the Commission. The *Medical Practice Act 1992* and the *Nurses and Midwives Act 1991* contain such provisions.

41 Notification of results of investigations and review of decisions

- (1) After the Commission has complied with section 39 and any requirement under section 40, it must notify the parties to the complaint and the appropriate registration authority, in writing, of the results of the investigation, the action taken under section 39 and the reasons for taking that action and include advice that the complainant may ask the Commission to review the decision made under section 39.
- (2) The Commission may, at its discretion, also provide the same information to:
 - (a) an appropriate professional or similar association, if there is no appropriate registration authority, or
 - (b) any person or body it could have referred the matter to under section 26 if it is of the view that the matter requires investigation by that person or body.
- (3) The Commission must review a decision made under section 39 if asked to do so by the complainant.

Division 7 Outcomes of investigations into health organisations

42 What action is taken at the end of an investigation?

- (1) At the end of the investigation of a complaint against a health organisation, the Commission must:
 - (a) terminate the matter, or
 - (b) make recommendations or comments to the health organisation on the matter the subject of the complaint, or
 - (c) refer the matter the subject of the complaint to the Director of Public Prosecutions.
- (2) If the Commission makes recommendations or comments, it must prepare a report on the matter for the Director-General.
- (3) The report must include:
 - (a) the reasons for its conclusions, and
 - (b) the reasons for any action recommended to be taken.

43 Opportunity for health organisation investigated to make submissions

- (1) If, at the end of the investigation of a complaint against a health organisation, the

Commission proposes to make recommendations or comments to the health organisation on the matter the subject of the complaint, it must first inform the health organisation of the substance of the grounds for its proposed action and give the health organisation an opportunity to make submissions.

- (2) Any such submission must be made in writing within 28 days after the health organisation is so informed.

44 Implementation of report

- (1) The Commission may request the Director-General to notify it of any action taken or proposed as a consequence of its report under section 42 (2).
- (2) If the Commission is not satisfied that sufficient steps have been taken within a reasonable time as a consequence of its report to the Director-General, it may, after consultation with the Director-General, make a report to the Minister.
- (3) If the Commission is not satisfied that sufficient steps have been taken within a reasonable time as a consequence of its report to the Minister, it may make a special report on the matter to the Presiding Officer of each House of Parliament.
- (4) Section 63 (subsection (1) excepted) applies to a special report under this section in the same way as it applies to a special report under section 63.

45 Notification of results of investigation

- (1) After the Commission has complied with any requirement under section 43, it must notify the parties to the complaint, in writing, of the results of the investigation.
- (2) The Commission may, at its discretion, also provide the results of its investigation to any person or body it could have referred the matter to under section 26.
- (3) Nothing in this section authorises the release of a report prepared under section 42 (2) otherwise than as provided by section 44, unless the report is released by the Director-General or the Minister.

Division 8 Conciliation

46 Appointment of conciliators

- (1) On the referral of a complaint by the Commission to the Health Conciliation Registry, the Registrar must appoint a conciliator to conciliate the complaint.
- (2) The Registrar may appoint more than one conciliator to conciliate the complaint if the Registrar thinks it is desirable to do so.

47 Notification of arrangements for conciliation

Within 14 days after the referral of a complaint by the Commission to the Health

Conciliation Registry, the Registrar must give written notice to the parties to the complaint of the following:

- (a) that the complaint has been referred for conciliation,
- (b) that the conciliation process is voluntary and that the consent of the parties is required,
- (c) the objects of the conciliation process,
- (d) confidentiality provisions concerning conciliation,
- (e) the effect of any agreements arising out of conciliation,
- (f) the reasons why conciliation is considered to be appropriate.

48 Conciliation to be voluntary

Participation in the conciliation process by the parties to a complaint is voluntary.

49 Role of conciliator

The function of a conciliator is:

- (a) to bring the parties to the complaint together for the purpose of promoting the discussion, negotiation and settlement of the complaint, and
- (b) to undertake any activity for the purpose of promoting that discussion, negotiation and settlement, and
- (c) if possible, to assist the parties to the complaint to reach agreement.

Note—

A conciliator has no power to impose a decision on the parties, to make a determination or to award compensation.

50 Assistance to parties at conciliation

- (1) At the conciliation of a complaint, a party to the complaint is not entitled to be legally represented.
- (2) A party to a complaint may be assisted by another person (not being an Australian legal practitioner) if the assistance is provided:
 - (a) to the complainant, or
 - (b) to another party to the complaint and the Registrar or conciliator gives permission because the party would be disadvantaged without the assistance.
- (3) This section does not prevent an officer of a corporation that is a party to a complaint

from representing the corporation.

- (4) Contravention of this section does not invalidate the conciliation of a complaint.

51 Confidentiality of the conciliation process

- (1) Evidence of anything said or of any admission made during the conciliation process is not admissible in any proceedings before a court, tribunal or body.
- (2) A document prepared for the purposes of, or in the course of, the conciliation process (or a copy of such a document) is not admissible in any proceedings before a court, tribunal or body.
- (3) This section does not apply to evidence or a document if the persons who attended, or were named during, the conciliation process and, in the case of a document, all persons named in the document, consent to admission of the evidence or document.
- (4) A person cannot be required (whether by subpoena or any other procedure) to produce evidence or a document that is inadmissible in evidence in proceedings before a court, tribunal or body because of this section.

52 Conclusion of the conciliation process

- (1) The conciliation process is concluded:
- (a) if either party terminates the conciliation process at any time, or
 - (b) if the parties to the complaint reach agreement concerning the matter the subject of the complaint.
- (2) The complainant must notify the Registrar without delay if the parties reach agreement otherwise than during the conciliation process.
- (3) The conciliation process is terminated if the conciliator terminates the process after having formed the view:
- (a) that it is unlikely that the parties will reach agreement, or
 - (b) a significant issue of public health or safety has been raised.

53 Preparation and distribution of report on conclusion of conciliation process

- (1) On the conclusion of the conciliation process, the conciliator who was involved in the process must prepare a report to the Registrar concerning the conciliation.
- (2) The report may state only:
- (a) the outcome of the conciliation process, and
 - (b) whether or not a recommendation is made that the Commission investigate the

complaint.

- (3) As soon as practicable after receipt of the report, the Registrar must give a copy of the report to the Commission, the parties to the complaint and the appropriate registration authority (if any).

54 Furnishing of other information to Registrar concerning conciliation process

A conciliator who was involved in a conciliation process must furnish information to the Registrar (otherwise than in a report under section 53) sufficient to enable the Registrar to comply with section 55.

55 Six-monthly reports to registration authorities

- (1) As soon as practicable after 1 April and 1 October in each year, the Registrar must furnish a report to each registration authority setting out the following information in relation to the complaints which have been dealt with under this Division during the previous 6 months:
 - (a) the number of complaints dealt with,
 - (b) the background of each complaint,
 - (c) the nature of the issues the subject of the conciliation process,
 - (d) any issues of a general nature arising out of each complaint relevant to the professional or educational standards of the profession concerned.
- (2) A report must not contain any information which identifies a party to a complaint.
- (3) A registration authority must not use a report furnished to it under this section except for the purpose of providing general information to health practitioners who are registered by it concerning the professional or educational standards of their profession.

56 Complaint may be referred for investigation
