# Exhibited Animals Protection Regulation 2005

## Part 1 Preliminary

### 1 Name of Regulation

This Regulation is the *Exhibited Animals Protection Regulation 2005*.

### 2 Commencement

This Regulation commences on 1 September 2005.

#### Note—

This Regulation replaces the *Exhibited Animals Protection Regulation 1995*, which is repealed on 1 September 2005 by section 10 (2) of the *Subordinate Legislation Act 1989*.

### 3 Definitions

(1) In this Regulation:

**authorised premises** means premises to which an authority relates, including any land occupied by the holder of the authority for, or in connection with, the exhibition of animals in accordance with the authority.

**authority** means a licence, an approval under section 22 of the Act or a permit.

**drive-through area** means any part of an animal display establishment in which there is exhibited an animal and through which the public may be permitted to drive motor vehicles without being separated from the animal by a fence, moat or cage forming part of the establishment.

**enclosure** includes a cage or other structure in which an exhibited animal is kept or is treated for illness or injury.

**farm** means a place at which one or more animals of a species set out in Schedule 1 are kept for the primary purpose of primary production.

**fence** includes a wall or other barrier.

**fixed establishment** means premises that are an animal display establishment not being a mobile establishment.

**licensed premises** means premises to which a licence relates.

**minor establishment** means a fixed establishment at which no more than 30 animals are exhibited.

**mobile establishment** means an animal display establishment comprising premises that are of a type referred to in section 22 (2) of the Act.

**permit animal** means an animal of a species set out in Schedule 2.

**pet shop** means premises in which animals are kept primarily for sale as pets in the course of a trade, business or profession.

**the Act** means the [Exhibited Animals Protection Act 1986](#).

(2) Notes included in this Regulation do not form part of this Regulation.

## Part 2 Animal display establishments

### 4 Exemptions from licensing requirements

- (1) For the purposes of section 4 (1) of the Act, an animal display establishment is exempt from the requirement to be licensed if the only animals exhibited at the establishment are freshwater fish that are kept:
  - (a) in a decorative or landscaped pond or ponds of any size, or
  - (b) in an aquarium that has a capacity of less than 2,000 litres or aquaria that have a total capacity of less than 2,000 litres.
- (2) For the purposes of section 4 (1) of the Act, an animal display establishment is exempt from the requirement to be licensed in respect of an animal if the animal is in an enclosed area and the Director-General is satisfied that:
  - (a) the animal is in a wild state, and
  - (b) given the nature and circumstances of the animal and establishment concerned, it would be unreasonable to require the use of the establishment to be licensed (and comply with the licensing requirements) under the Act.

#### Note—

Certain wildlife sanctuaries require and maintain very limited human interaction with the animals kept on those premises. In such cases the Director-General may form the view that it is unreasonable to require the operator of the sanctuary to comply with the strict requirements of a licence under the Act.

### 5 Exhibitions exempted from the operation of the Act

- (1) For the purposes of paragraph (c) of the definition of **exhibit** in section 5 (1) of the Act, it is declared that the display, or keeping for display, of an animal in the following

circumstances does not constitute an exhibition of the animal for the purposes of the Act:

- (a) that the animal is a free-living animal in its natural habitat,
- (b) that the animal is a lawful captive and is part of a competitive display of household pets,
- (c) that the animal is part of a competitive display of domestic farm animals,
- (d) that the animal is a domestic farm animal being used to demonstrate the acquisition of wool, milk or other produce of a living animal,
- (e) that the animal is of domestic hoof-stock and is performing, or is to perform, in an event at a rodeo,
- (f) that the animal is a lawful captive that is not displayed or kept for display, to the public,
- (g) that the animal is displayed, or kept for display, in accordance with the authority conferred by a scientific licence in force under section 132C of the *National Parks and Wildlife Act 1974*,
- (h) that the animal is displayed, or kept for display, in the course of carrying on the business of animal research, or in the course of carrying out animal research, without contravening the *Animal Research Act 1985*,
- (i) that the animal, being an animal of a species listed in Schedule 3 and not being an animal kept pursuant to an approval or permit or at a licensed animal display establishment, is an animal used only for riding or racing,
- (j) that the animal is kept in a pet shop for display and not for sale,
- (k) that the animal, being an animal of a species listed in Schedule 1 and not being an animal kept pursuant to an approval or permit or at a licensed animal display establishment, is displayed:
  - (i) at an agricultural show or show parade conducted by the Royal Agricultural Society or a society that is a member of the Agricultural Societies Council, or
  - (ii) at an agricultural field day conducted on a farm or showground, or
  - (iii) on the farm on which the animal is kept,
- (l) that the animal, being an animal of a species listed in Schedule 1, and not being an animal kept pursuant to an approval or permit or at a licensed animal display establishment, is displayed, or kept for display, for the purposes of promoting an agricultural product derived from that species of animal and:

- (i) the animal is one of no more than 10 animals displayed, or kept for display, for this purpose at any one time, and
  - (ii) any display lasts for no more than 2 days at a time and is conducted at least 5 days after any previous display of the animal, and
  - (iii) the animal is displayed near a display of the relevant agricultural product or shortly before or after such a display, and
  - (iv) the person who normally cares for the animal attends the animal for the duration of any display,
- (m) that the animal is a fish that is kept (otherwise than in a habitat display) at:

- for the purpose of:
- (iii) commercial food production, or
  - (iv) re-stocking of lakes, dams or waterways,

- (o) that the animal is being displayed, or kept for display, by a school student at a school for a single “show-and-tell” activity.
- (2) If the display of any animal that constitutes exhibition for the purposes of the Act and the display of any animal that does not constitute exhibition for the purposes of the Act (by virtue of subclause (1)) takes place at the same time on the same premises, any authority issued in relation to the premises applies to all animals at the premises.

**Note—**

For example, if a pony ride (which is not exhibition for the purposes of the Act by virtue of clause 5 (1) (i)) takes place at an exhibition or display farm to which an approval relates, the approval, and any terms, conditions or standards that have effect under the approval, also apply to the pony ride.
