6B Assessment of exemptions for parking spaces

- (1) In assessing for the purposes of section 7 of the Act whether a parking space is set aside for a purpose, the Chief Commissioner is to have regard to the following principles:
 - (a) the presence of measures (such as access control measures) or other features to limit the use of a parking space to use for a particular purpose or purposes indicates that the parking space is set aside for that purpose or those purposes,
 - (b) the absence of measures or other features as described in paragraph (a) indicates that a parking space is not set aside for any particular purpose,
 - (c) a parking space in a parking area that forms part of a retail shopping centre (being a parking area that is in the same building as the shopping centre and that operates generally only at times when shops in the shopping centre are open for business) should be considered to be set aside for the parking of a motor vehicle by customers of a retail shop, unless the parking space is a non-retail space as provided by subclause (2),
 - (d) the fact that a parking space is available or permitted to be used for a purpose, or is indicated (by advertising or otherwise) to be available for use for a purpose, does not of itself indicate that the parking space is set aside for that purpose.
- (2) A parking space is a **non-retail space** for the purposes of subclause (1) (c) if it is available for the use of persons who may not be customers of a retail shop in the retail shopping centre concerned.

- (3) In assessing for the purposes of section 7 of the Act whether a parking space on premises is used exclusively for a purpose, the Chief Commissioner may make a determination based on such investigation, study or survey as to the use of parking spaces on the premises as the Chief Commissioner thinks fit.
- (4) For the purposes of the making of a determination under subclause (3), the Chief Commissioner may require the owner of premises on which there is a parking space to which the Act applies to carry out and report the results of such investigation, study or survey as to the use of parking spaces on the premises as the Chief Commissioner may from time to time direct.

7 Determination of number of parking spaces

- (1) For the purposes of the Act, the number of such parking spaces on any premises as are not individually delineated by permanently marked lines is to be assessed in accordance with this clause.
- (2) In a case where a development consent under the *Environmental Planning and Assessment Act 1979* specifies the number of parking spaces that the premises are to contain, the number of parking spaces is the number so specified.
- (3) In any other case, the number of parking spaces is the number obtained by taking the total area occupied by the parking spaces and dividing it by 25.2 square metres and disregarding any remainder.
- (4) For the purposes of this clause, a sign or temporary barrier purporting to indicate that a space is not a parking space is not, of itself, evidence that the space is not a parking space.

8 Period when casual parking space is an exempt parking space

- (1) For the purposes of the Act, the length of time in any financial year for which a parking space is an exempt parking space is the number of days during that year on which, in the opinion of the Chief Commissioner, the parking space was set aside for use as a casual parking space but not used for the parking of a motor vehicle.
- (2) For the purposes of this clause, a **casual parking space** is a parking space which, in the opinion of the Chief Commissioner, is set aside solely for casual parking.
- (3) In forming an opinion under subclause (2) that a parking space is a casual parking space, the Chief Commissioner is to have regard to the following matters:
 - (a) the terms of any agreement as to the use of that space,
 - (b) whether the space is generally available for use by a member of the public,
 - (c) whether a person may use that space as a parking space at any time when it is not actually occupied by a vehicle,

- (d) whether the space is subject to any standing arrangement (whether formal or informal) for its use or reservation.

9 Period when tenant's parking space is an exempt parking space

- (1) For the purposes of the Act, the length of time in any financial year for which a parking space is an exempt parking space is the number of days during that year on which the parking space:
- (a) was not subject to a lease or licence under which a tenant of part or all of the premises in which the space is located had exclusive use of the space, and
 - (b) was not available for use except under such a lease or licence.
- (2) This clause applies does not limit the operation of clause 8.

Part 3 Miscellaneous

10 Public sector arrangements: person responsible

- (1) For the purposes of section 17 (4) of the Act, the prescribed person with whom a public servant specified in Column 1 of Schedule 1 is to make arrangements of the kind referred to in that subsection is the person specified in Column 2 of that Schedule in respect of that public servant.
- (2) The prescribed person may nominate any other person with whom the public servant is to make such arrangements.
- (3) An amendment to Schedule 1 does not apply to arrangements in force immediately before the commencement of the amendment, and that Schedule, as in force when the arrangements were entered into, continues to apply to the arrangements as if it had not been amended.
- (4) In this clause, **public servant** means a person in a public sector position within the meaning of section 17 of the Act.
