- (b) to replace the existing planning controls applying to the land to which this plan applies with a single local environmental plan to help facilitate growth and development of the Shire of Junee in a manner which is consistent with the aims specified in paragraph (a) and which:
 - (i) minimises the cost to the community of fragmented and isolated development of rural land,
 - (ii) facilitates the efficient and effective delivery of amenities and services,
 - (iii) facilitates a range of residential and employment opportunities in accordance with demand,
 - (iv) facilitates farm adjustments, and

- (v) ensures that the efficiency of arterial roads is not adversely affected by development or subdivision on adjacent land, and
- (c) to provide other means by which existing and future rural land holders can obtain economic benefit in return for their commitment to farming the land and conserving or replenishing natural resources, and
- (d) to allow greater opportunity for public involvement and participation in the environmental planning and assessment process, and
- (e) to reduce the incidence of damage to areas subject to flooding, fire hazard and land degradation by controlling or restricting development, and
- (f) to accommodate the location and operation of the Junee Correctional Centre and other large capital works or commercial endeavours.

3 Land to which plan applies

This plan applies to all land within the Shire of Junee as shown on the map, with the boundaries as indicated on the map.

4 Relationship to other environmental planning instruments

- (1) *Interim Development Order No 1—Shire of Illabo* and *Interim Development Order No 1—Municipality of Junee*, and such local environmental plans and other deemed environmental planning instruments as, immediately before the appointed day, applied to the land to which this plan applies, are (to the extent that they applied to that land) repealed.
- (2) This plan amends *State Environmental Planning Policy No 20—Minimum Standards for Residential Flat Development* in the manner set out in clause 5.

Part 3 Special provisions

11 General considerations for development within rural zones

- (1) The Council shall not consent to an application to carry out development on land within Zone No 1 (a) or 1 (c) unless it has taken into consideration the effect of the carrying out of that development on:

- (a) the present use of the land, the potential use of the land for the purposes of agriculture and the potential of any land for sustained agricultural production,
 - (b) vegetation, timber production, land capability (including soil resources and soil stability), land degradation and water resources (including the quality and stability of water courses and ground water storage and riparian rights),
 - (c) the future recovery from known or prospective areas of valuable deposits of minerals, coal, petroleum, sand, gravel or other extractive materials,

 - (f) future expansion of settlements in the locality, and
 - (g) providing a means to allow for increasing the population in the rural areas of the Shire of Junee.
- (2) As well as the matters referred to in subclause (1), the Council shall take into consideration the relationship of the proposed development to development on adjoining land or on other land in the locality.
- (3) Subclause (1) does not apply to development, being:
- (a) an addition to a building or work,
 - (b) development ancillary to a purpose for which development may be carried out with the consent of the Council under this plan, or
 - (c) the erection of a dwelling-house on an allotment of land that the Council is satisfied was created in accordance with this plan primarily for the purpose of a dwelling.

12 Subdivision of land generally

- (1) A person shall not subdivide land to which this plan applies except with the consent of the Council.
- (2) The Council shall not consent to the subdivision of land within Zone No 1 (a) or 1 (c) unless:
 - (a) the Council is satisfied as to the primary purpose for which each allotment to be created by the subdivision will be used, and
 - (b) in respect of any proposed allotment which the Council is satisfied will be used

primarily for the purposes of a dwelling-house, the Council is also satisfied as to the approximate location on the land at which the dwelling-house will be erected.

13 Subdivision for the purposes of agriculture within Zone No 1 (a)

- (1) This clause applies to land within Zone No 1 (a).
- (2) The Council may consent to the creation of an allotment of any size if the Council is satisfied that the proposed allotment will be used for the purposes of agriculture.
- (3) The Council shall not consent to the creation of an allotment which the Council is satisfied will be used for the purposes of agriculture if the proposed allotment has an area of less than 100 hectares and there is already a dwelling-house on the proposed allotment.
- (4) Notwithstanding subclause (3), the Council may consent to the creation of one (but not more than one) allotment having an area of less than 100 hectares, which the Council is satisfied will be used for the purposes of agriculture, from an existing holding on which a dwelling-house stands if that dwelling-house was lawfully erected on the proposed allotment on or before the appointed day.

14 Subdivision for the purposes of dwellings within Zone No 1 (a)

The Council may consent to the creation of not more than 2 allotments which the Council is satisfied will be used for the purposes of a dwelling-house from an existing holding within Zone No 1 (a), but only if:

- (a) each proposed allotment has an area of not less than 1 hectare and not more than 5 hectares,
- (b) each proposed allotment forms part of an existing holding which has an area of not less than 5 hectares,
- (c) the creation of each proposed allotment is unlikely to adversely affect the existing and potential capability of the land and adjacent land to produce food or fibre or to be used for other agricultural purposes, and
- (d) the maximum number of allotments does not exceed the number specified in Column 2 of the following Table for the area of the existing holding specified opposite in Column 1.

Table

Column 1	Column 2

5 to 200 hectares	1
Over 200 hectares	2

15 Subdivision for other purposes within Zone No 1 (a)

 - (a) none of the land the subject of the application is prime crop and pasture land, and
 - (b) the area of each allotment to be created by the subdivision is appropriate having regard to the purpose for which it is being created.
- (2) Nothing in subclause (1) prevents the Council from granting consent to an application to subdivide land to create an allotment which the Council is satisfied will be used for a purpose other than agriculture or a dwelling-house if the Council is satisfied that:
 - (a) the purpose for which the allotment is to be used involves the supply of goods or services for which there is a demand in the locality,
 - (b) no other land in the locality could reasonably be used for that purpose, and
 - (c) the level of demand for the goods or services which are to be supplied from the allotment and the extent to which that allotment is proposed to be used to meet that demand justifies the creation of the allotment notwithstanding its agricultural value.

16 Subdivision for the purposes of dwellings within Zone No 1 (c)

- (1) The Council shall not consent to an application to subdivide land within Zone No 1 (c) unless the area of each proposed allotment which the Council is satisfied will be used primarily for the purposes of a dwelling-house has an area of 0.5 hectares or more (but less than 100 hectares).
- (2) The Council shall not grant consent to the subdivision of land as referred to in subclause (1) unless it has taken into consideration:
 - (a) the land capability (including soil resources and soil stability), natural constraints and hazards of the land to be subdivided in relation to the density of the allotments proposed to be created,
 - (b) the desirability of providing a range and mixture of allotment sizes, and
 - (c) whether the design of each allotment to be created by the subdivision is satisfactory for the economic provision of services and the physical suitability of on site waste disposal.

17 Subdivision of land within Zone No 2 (v)

A person shall not subdivide land within Zone No 2 (v) to create an allotment which the

Council is satisfied will be used for the purposes of a dwelling-house unless the allotment has an area, frontage and depth which is (in the opinion of the Council) appropriate to the urban land capability and character of the locality.

18 Dwellings within Zone No 1 (a)—vacant land

 - (a) the land has an area of 100 hectares or more, or
 - (b) the land comprises:
 - (i) an existing holding,
 - (ii) an allotment created under this plan primarily for a purpose other than agriculture, or
 - (iii) an allotment created in accordance with a consent granted before the appointed day, being an allotment on which a dwelling-house could have been erected immediately before the appointed day.
- (2) In this clause, ***vacant land*** means land on which no dwelling-house is erected.

19 Erection of additional dwellings within Zone No 1 (a)

- (1) The Council may consent to the erection of one additional dwelling for each 100 hectares on land within Zone No 1 (a) if:
 - (a) a dwelling could be erected on the land in accordance with clause 18,
 - (b) no additional access to a public road is required from the land,
 - (c) separate ownership of the proposed dwelling could only be achieved by a subdivision of the land, and
 - (d) in the opinion of the Council, the dwelling to be erected on the land will not interfere with the purpose for which the land is being used.
- (2) The Council shall not consent to the subdivision of land on which one additional dwelling is erected in pursuance of this clause, except in accordance with this plan.
- (3) Nothing in subclause (1) prevents the Council from granting consent to an application to construct one additional dwelling (including the alteration of an existing dwelling-house to create 2 dwellings) on an allotment of land of less than 100 hectares.

20 Erection of additional dwellings within Zone No 1 (c)

- (1) The Council may consent to the erection of one additional dwelling (including the alteration of an existing dwelling to create 2 dwelling) on land within Zone No 1 (c) if:

- (a) a dwelling could be erected on the land in accordance with clause 16,
 - (b) no additional access to a public road is required from the land,

 - (ii) the emission of smoke or dust from the proposed development, and
 - (iii) the nature, volume or frequency of vehicles using the arterial road to gain access to the proposed development.
- (2) The Council shall not consent to the carrying out of development on or with respect to any land within Zone No 1 (a) or 1 (c) for any purpose listed in Schedule 3 if the granting of that consent will result in direct access, by persons using the land, to:
- (a) an arterial road, or
 - (b) a road connecting an arterial road, if access to the land is within 90 metres (measured along the road alignment of the connecting road) of the alignment of the arterial road.

whichever is less.

(3) The Council shall not grant a consent required by subclause (1) or (2) unless, in the opinion of the Council, the nominated use of the land or the destruction of trees on the land will be carried out in a manner which, in respect of that land and adjacent land, satisfactorily minimises:

- (a) the risk of any land degradation,
- (b) the loss of scenic amenity, and
- (c) the loss of important vegetation systems and natural wildlife habitats,

and adequate measures will be taken to rehabilitate existing land degradation occurrences.

- (2) Subject to subclause (3), development may, with the consent of the Council, be carried out on land to which this clause applies for any purpose for which development may be carried out in the adjoining zone on the other side of the boundary, or on the environmentally sensitive land on the other side of the boundary.
- (3) The Council shall not consent to the carrying out of development referred to in subclause (2) unless, in the opinion of the Council, the carrying out of the development is desirable due to planning, design, ownership, servicing, minimising land degradation or similar requirements relating to the optimum development of land to which this plan applies.

27A Classification and reclassification of public land

- (1) The objective of this clause is to enable the Council to classify or reclassify public land as “operational land” or “community land” in accordance with Part 2 of Chapter 6 of the [Local Government Act 1993](#).

Note—

Under the [Local Government Act 1993](#), “public land” is generally land vested in or under the control of a council (other than roads, Crown reserves and commons). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the [Local Government Act 1993](#). Section 30 of that Act enables this plan to discharge trusts on which public reserves are held if the land is reclassified under this plan as operational land.

- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the [Local Government Act 1993](#).

 - (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.
- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except:
 - (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
 - (b) any reservations that except land out of the Crown grant relating to the land, and
 - (c) reservations of minerals (within the meaning of the *Crown Lands Act 1989*).
- (6) Before a description of any land was inserted into Part 2 of Schedule 4, the Governor approved of subclause (5) applying to the land.
