- (b) an allotment created in accordance with clause 11 (2) or (3) of *Interim Development Order No 1—Shire of Leeton* as in force immediately before the appointed day,

9A Outcomes for the Peripheral Area

- (1) **Definition** In this clause, **Peripheral Area** means the land shown edged heavy black on the map marked "*Leeton Local Environmental Plan No 33*".
- (2) **Consent required for buildings and subdivision works** Development for the purpose of buildings and subdivision works may be carried out within the Peripheral Area only with the consent of the council, despite anything else in this plan.
- (3) **Restriction on granting consent** The council must not grant consent for any development within the Peripheral Area unless it is satisfied that carrying out the proposed development will be consistent with achieving the following outcomes:

- (a) **Limit on growth of towns**

The boundary of the Peripheral Area is to be the boundary for the expansion of the towns of Leeton and Yanco.

- (b) **Servicing**

If the proposed development will require the provision of services to any land, the land will be connected to services that the council considers appropriate for the proposed land use and that are provided without cost to the council.

(c) **Land use conflict buffers**

If the proposed development will create a land use conflict, the conflict will be reduced by the provision of adequate buffers within the Peripheral Area.

(d) **Building envelopes**

If the proposed development will (or, in the opinion of the council, will be likely to) result in buildings on an allotment having an area greater than 1 800 square metres, building envelopes will be established to the satisfaction of the council, so that future subdivision may be allowed where the council considers it appropriate.

10 Subdivision of land within Zone No 1 (a), 1 (b) or 1 (f) outside irrigation areas

- (1) This clause applies to land within Zone No 1 (a), 1 (b) or 1 (f), being land that is not within an irrigation area.

 - (c) where the allotments has a frontage to a main or arterial road, a frontage to that road of not less than 400 metres.
- (5) The council may consent to an application to subdivide land to which this clause applies (not being land which forms the whole or part of an existing holding of less than 10 hectares in area) for the following purpose:
 - (a) to create an allotment of less than 40 hectares but not less than 2 hectares, if the council is satisfied that:
 - (i) the allotment is intended to be used for the purpose of agriculture,
 - (ii) the ratio of depth to frontage is satisfactory having regard to the intended use of the allotment for the purpose of agriculture, and

(b) (Repealed)

(6) (Repealed)
