 - (a) the purpose for which the proposed allotment is to be used involves the supply of goods or services for which there is an identified demand,
 - (b) no other land in the locality could reasonably be used for that purpose, and

- (2) The Council shall not grant consent to the subdivision of land under subclause (1) unless it has made an assessment of:
 - (a) the land capability (including soil resources and soil stability) and the natural constraints and hazards of the land to be subdivided in relation to the density of the allotments proposed to be created,
 - (b) the desirability of providing a range and mixture of allotment sizes,
 - (c) whether the design of each allotment to be created by the subdivision is satisfactory for the economic provision of services to the allotment and the physical suitability for on-site disposal of wastes from the allotment, and
 - (d) the desirability of future resubdivision of the land for more intensive urban settlement.

16 Dwellings within Zones Nos 1 (a) and 7 (a)
