2 Aims, objectives etc

The aims of this plan are:

- (a) to update and provide flexible planning controls to assist the Council in its administration of planning,
- (b) to preserve good agricultural land and to encourage the location of non-agricultural development in rural areas on less productive land,
- (c) to encourage the continuation of agricultural enterprise while accommodating new types of agricultural activity, land uses which support agriculture and changes to agriculture due to economic conditions,
- (d) to provide for expanded urban development needs associated with the Oaklands mine and power station project,
- (e) to accommodate the Oaklands mine and power station project and other development that may be required as a consequence,
- (f) to encourage further development in the main villages in the Shire of Urana and the maintenance of their facilities and services,

10 General considerations for development within rural zones

- (1) The Council shall not consent to an application to carry out development on land within Zone No 1 (a) or 1 (c) unless it has made an assessment, where relevant, of the effect of the carrying out of that development on:
 - (a) the present and potential use of the land for the purposes of agriculture,
 - (b) vegetation, timber production, land capability (including soil resources and soil stability) and water resources (including the quality and stability of water courses and ground water storage and riparian rights),
 - (c) the future recovery of known or prospective areas of valuable deposits of minerals, coal, petroleum resources, sand, gravel or other extractive materials,
 - (d) the protection of areas of significance for nature conservation or of high scenic or recreational value, and heritage items including Aboriginal relics and places,
 - (e) the cost of providing, extending and maintaining public infrastructure and services to the development, and
 - (f) future expansion of settlements in the locality.
- (2) As well as the matters referred to in subclause (1), the Council shall take into consideration the relationship of the development to development on adjoining land and on such other land in the locality as, in the opinion of the Council, is appropriate for consideration.
- (3) Subclause (1) does not apply to development, being:
 - (a) an addition to a building or work (except where that building or work is a heritage item),
 - (b) development ancillary to a purpose for which development may be carried out,

with or without the consent of the Council, under this plan, or

- (c) the erection of a dwelling-house on an allotment of land created in accordance with this plan for the purposes of a dwelling-house.

10A What is exempt and complying development?

- (1) Development of minimal environmental impact listed in *Development Control Plan No 13* as adopted by the Council on 21 September 1999 is **exempt development**, despite any other provision of this plan.
- (2) Development listed in *Development Control Plan No 13* as adopted by the Council on 21 September 1999 is **complying development** if:
 - (a) it is local development of a kind that can be carried out with consent on the land on which it is proposed, and
 - (b) it is not an existing use, as defined in Section 106 of the Act.
- (3) Development is exempt or complying development only if it complies with the development standards and other requirements applied to the development by *Development Control Plan No 13* as adopted by the Council on 21 September 1999.
- (4) A complying development certificate issued for any complying development is to be subject to the conditions for the development specified in *Development Control Plan No 13* adopted by the Council, as in force when the certificate is issued.

11 Subdivision of land generally

- (1) A person shall not subdivide land to which this plan applies except with the consent of the Council.
- (2) A person who makes an application to subdivide land within Zone No 1 (a) or 1 (c) must before the Council consents to the application:
 - (a) state the primary purpose for which each allotment created by the subdivision is intended to be used,
 - (b) state whether it is intended to erect a dwelling-house on any allotment created by the subdivision and, if so, on which allotment, and
 - (c) show the approximate location of any dwelling-house erected on the land as at the date of the application.

12 Subdivision for the purposes of agriculture in Zone No 1 (a)

- (1) The Council may consent to the creation of an allotment of land within Zone No 1 (a) of any size if the allotment is intended to be used for the purposes of agriculture.

- (2) The Council shall not consent to the creation of an allotment of land within Zone No 1 (a) that is intended to be used for the purposes of agriculture if:
 - (a) the allotment has an area of less than 100 hectares and there is a dwelling-house on the allotment, and
 - (b) in the opinion of the Council, the allotment is physically incapable of sustaining agricultural food or fibre production of a form common in the area.
- (3) Notwithstanding subclause (2), the Council may consent to the creation of one, but not more than one, allotment intended to be used for the purposes of agriculture from an existing holding on which a dwelling-house stands if that dwelling-house was lawfully erected on that land on or before the appointed day.

Note—

Clause 9 of the [State Environmental Planning Policy \(Rural Lands\) 2008](#) enables subdivision of lots smaller than allowed by this plan for the purposes of primary production.

13 Subdivision for the purposes of intensive agriculture in Zone No 1 (a)

The Council shall not consent to an application to subdivide land within Zone No 1 (a) unless each allotment created that is intended to be used for the purposes of intensive agriculture in the opinion of the Council:

- (a) has an adequate area having regard to the location and characteristics of the proposed intensive agricultural use,
- (b) is physically capable of sustaining a range of intensive agricultural uses, and
- (c) has an adequate water supply available to service the proposed intensive agricultural use.

14 Subdivision for the purposes of dwelling-houses in Zone No 1 (a)

The Council shall not consent to the creation of an allotment of land in Zone No 1 (a) intended to be used primarily for the purposes of a dwelling-house unless the allotment has an area of not less than 100 hectares.

15 Subdivision for other purposes in Zone No 1 (a)

- (1) Subject to subclauses (2) and (3), the Council shall not consent to an application to subdivide land within Zone No 1 (a) where any allotment to be created by the subdivision is intended to be used primarily for purposes other than agriculture or a dwelling-house unless, in the opinion of the Council:
 - (a) the land does not comprise good agricultural land or any land that is or could be used for a form of agriculture common in the area, and
 - (b) the area of each allotment to be created by the subdivision is appropriate having

regard to the purpose for which it is being created.

- (2) The Council may consent to an application to subdivide land to create an allotment intended to be used primarily for a purpose other than agriculture or a dwelling-house where, in the opinion of the Council:
 - (a) the purpose for which the allotment is to be used involves the supply of goods or services for which there is a demand in the locality,
 - (b) no other land in the locality could reasonably be used for that purpose, and
 - (c) the level of demand for the goods or services which are to be supplied from the allotment and the extent to which that allotment is proposed to be used to meet that demand justifies the creation of the allotment notwithstanding its agricultural value.
- (3) Nothing in this clause shall operate so as to restrict the Council from consenting to an application to subdivide land to be used for the purposes of mining or generating works or of development ancillary to those purposes.

16 Dwelling-houses in Zone No 1 (a)

- (1) Subject to subclause (2), a person shall not erect a dwelling-house on vacant land within Zone No 1 (a) unless:
 - (a) the land has an area of 100 hectares or more or is an existing holding, or
 - (b) the land comprises:
 - (i) (Repealed)
 - (ii) an allotment created under this plan for a purpose other than agriculture, or
 - (iii) an allotment created in accordance with a consent granted before the appointed day, being an allotment on which a dwelling-house could lawfully have been erected immediately before the appointed day.
- (2) The Council may consent to the erection of a dwelling-house on vacant land within Zone No 1 (a) where:
 - (a) the dwelling-house is ancillary to the use of the land for a purpose other than agriculture, and
 - (b) the Council is satisfied that:
 - (i) the land could not reasonably be used for that purpose without the erection of a dwelling-house, and
 - (ii) the dwelling-house is to be located on the land so as to minimise any adverse effect on the use of that or any adjoining or adjacent land.

- (3) In this clause, ***vacant land*** means land on which no dwelling-house is erected.

16A Dwelling entitlements on existing concessional lots

The amendment of this plan by the *State Environmental Planning Policy (Rural Lands) 2008* does not affect any entitlement arising under a provision of this plan (as in force before that amendment) to erect a dwelling-house on a lot, if:

- (a) the lot was created before that commencement, or
- (b) development consent to the creation of the lot was applied for, or granted, before that commencement.

17 Subdivision for the purposes of dwelling-houses in Zone No 1 (c)

- (1) The Council shall not consent to an application to subdivide land within Zone No 1 (c) unless each allotment to be created that is intended to be used primarily for the purposes of a dwelling-house has an area of not less than 1 hectare.
- (2) The Council shall not consent to the subdivision of land as referred to in subclause (1) unless it has taken into consideration:
 - (a) the land capability (including soil resources and soil stability), natural constraints and hazards of the land to be subdivided in relation to the number and boundaries of the allotments proposed to be created,
 - (b) the desirability of providing a range and mixture of allotment, sizes, and
 - (c) whether the design of each allotment to be created by the subdivision is satisfactory for the economic provision of services and the physical suitability for on-site disposal of wastes.

18 Erection of additional dwelling-houses in Zone No 1 (a) or 1 (c)

- (1) The Council may consent to the erection of one, but not more than one, additional dwelling-house on land within Zone No 1 (a) or 1 (c) (including the alteration of an existing dwelling-house to create 2 dwelling-houses) where:
 - (a) a dwelling-house could (if the land were vacant) be lawfully erected on the land in accordance with clause 16 where the land is within Zone No 1 (a),
 - (b) no additional access to a public road is required from the land,
 - (c) separate ownership of the proposed dwelling-house could only be achieved by a subdivision of the land, and
 - (d) in the opinion of the Council, the dwelling-house to be erected on the land will not interfere with the purpose for which the land and adjacent land is being used.
- (2) The Council shall not consent to the subdivision of land on which an additional

dwelling-house is erected under this clause except in accordance with this plan.

19 Subdivision of land in Zone No 2 (v)

A person shall not subdivide land within Zone No 2 (v) to create an allotment to be used for the purposes of a dwelling-house unless the allotment has an area of 1,000 square metres or more.

20 Dwelling-houses in Zone No 2 (v)

- (1) Nothing in this plan requires the Council to consent to an application to erect a dwelling-house on vacant land in Zone No 2 (v).
- (2) Except as provided by subclause (3), the Council shall not consent to the erection of a dwelling-house on land within Zone No 2 (v) unless the land has an area of 1,000 square metres or more.
- (3) The Council may consent to the erection of a dwelling house on land within Zone No 2 (v) which has an area of less than 1,000 square metres where the land comprises an allotment created before the appointed day and is vacant land.
- (4) In this clause, ***vacant land*** means land on which no dwelling-house is erected.

21 Temporary accommodation

The Council may consent to the carrying out of development for the purposes of temporary accommodation (including a hostel, caravan park or construction camp) on any land to which this plan applies if the Council is satisfied that:

- (a) the development, by virtue of its location, scale, site landscaping and treatment, and temporary nature, is unlikely to significantly conflict with the objectives of the zone applying to the land on which the development is proposed to be carried out,
- (b) appropriate arrangements have been made for water supply, sewage disposal and stormwater drainage facilities, other utility services, access and parking, and
- (c) the development is unlikely to interfere with the amenity of any residential neighbourhood in the vicinity.

22 Applications that must be advertised

The provisions of sections 84, 85, 86, 87 (1) and 90 of the Act apply to and in respect of development for the purposes specified in Schedule 2 in the same way as those provisions apply to and in respect of designated development.

23 Development along arterial roads

- (1) The Council shall not consent to an application to carry out development on land which has frontage to an arterial road unless:

- (a) access to that land is provided by a road other than the arterial road, wherever practicable, and
 - (b) in the opinion of the Council, the safety and efficiency of the arterial road will not be adversely affected by:
 - (i) the design of the access to the proposed development,
 - (ii) the emission of smoke or dust from the proposed development, or
 - (iii) the nature, volume and frequency of vehicles using the arterial road to gain access to the proposed development.
- (2) The Council shall not consent to the development of land within Zone No 1 (a) for any purpose listed in Schedule 3 if the development of the land for the purpose will have direct access to:
- (a) an arterial road, or
 - (b) a road connecting with an arterial road, and the access to that road is within 90 metres (measured along the road alignment of the connecting road) of the alignment of the arterial road.
- (3) The Council shall not consent to an application to carry out development on land which has frontage to the Newell Highway (State Highway 17) without having first obtained the concurrence of the Roads and Traffic Authority.
- (4) The Roads and Traffic Authority is to take into consideration the following matters in deciding whether it's concurrence should be granted:
- (a) Whether access to the land is provided by a road other than the Newell Highway,
 - (b) Whether the safety and efficiency of the Newell Highway will be adversely affected by:
 - (i) the design of the access to the proposed development,
 - (ii) the emission of smoke or dust from the proposed development, or
 - (iii) the nature, volume or frequency of vehicles using the Newell Highway to gain access to the proposed development.

24 Environmentally sensitive land

- (1) A person shall not carry out development on environmentally sensitive land for the purposes of:
- (a) an intensive livestock keeping establishment,
 - (b) junk yards,

- (c) liquid fuel depots,
 - (d) offensive or hazardous industries,

- (a) more than one hectare of environmentally sensitive land of an existing holding, or
 - (b) more than 5 per cent of the area of an existing holding, where that 5 per cent comprises environmentally sensitive land,
- whichever is less.
- (3) The Council shall not consent to an application made for the purposes of subclause (2) unless, in the opinion of the Council, the destruction of trees on the land will be carried out in a manner which, in respect of that land and adjacent land, minimises:
- (a) the risk of soil erosion or other land degradation,
 - (b) the loss of scenic amenity, and
 - (c) the loss of important vegetation systems and natural wildlife habitats.

25 Flood liable land

A person shall not erect a building or carry out a work for any purpose on flood liable land except with the consent of the Council.

28 Development in the vicinity of a heritage item
