4 References to compliance with AS 1926.1—2007 or Building Code of Australia

For the purposes of this Regulation, a child-resistant barrier, window or doorway is taken to comply with the standards set out in a clause in AS 1926.1—2007 or the *Building Code of Australia* so long as it complies with the minimum requirements for that clause.

Part 2 Restriction of access to swimming pools

Note—

This Part prescribes standards for the restriction of access to new swimming pools. Clause 23 deals with swimming pools completed before 1 September 2008.

Division 1 Restriction of access to outdoor swimming pools

5 General requirements for outdoor swimming pools

For the purposes of sections 7 (1) (b) and 12 (d) of the Act, the prescribed standards in accordance with which a child-resistant barrier surrounding a swimming pool is to be designed, constructed, installed and maintained are the standards set out in the *Building Code of Australia*.

6 Standards required for certain swimming pools to be exempt from requirement to separate swimming pool from residential building

- (1) For the purposes of section 8 (2) of the Act, the prescribed standards in accordance with which the means of access to a swimming pool from a residential building are to be restricted are that:
 - (a) each doorway, and each opening portion of a window, that gives access to the swimming pool is to be designed, constructed, installed and maintained in accordance with the standards set out in AS 1926.1—2007, and
 - (b) in relation to each opening portion of a window giving access to the swimming pool—there must not be any footholds wider than 10 millimetres between the bottom of the lowest opening panel of the window and any point within 1.1 metres below the bottom of that panel.
- (2) Subclause (1) (b) does not apply to a window that is:
 - (a) of substantial construction and is so fixed (by means of a keyed locking device or other child-resistant device) that it has no opening through which it is possible to pass a testing apparatus, or
 - (b) totally enclosed by a grille (including a fixed grille) that is of substantial construction and is so fixed (by means of a keyed locking device or other child-resistant device) that it has no opening through which it is possible to pass a testing apparatus.

7 Standards required for swimming pools on large or waterfront properties to be exempt from requirement to surround swimming pool

For the purposes of sections 9 (2) and 10 (2) of the Act, the prescribed standards in accordance with which the means of access to a swimming pool from a residential building are to be restricted are the standards set out in AS 1926.1—2007.

Division 2 Restriction of access to indoor swimming pools

8 General requirements for indoor swimming pools

For the purposes of section 14 of the Act, the prescribed standards in accordance with which the means of access to an indoor swimming pool is to be restricted are that each doorway, and each opening portion of a window, giving access to the swimming pool must be designed, constructed, installed and maintained in accordance with the *Building Code of Australia*.

Division 3 Restriction of access to spa pools

9 Standards required to be exempt from requirement to surround spa pool

For the purposes of section 20 of the Act, the prescribed standards in accordance with which access to the water contained in a spa pool is to be restricted are that the spa pool must be covered and secured by a lockable child-safe structure (such as a door, lid, grille or mesh) that is:

- (a) of substantial construction and having no opening through which it is possible to pass a testing apparatus, and
- (b) fastened to the spa pool by a device that is itself of substantial construction and having no opening through which it is possible to pass a testing apparatus.

Part 3 Warning notices

10 Contents of warning notices

 - (ii) “POOL GATES MUST BE KEPT CLOSED AT ALL TIMES”, and

 - (a) if the local authority fails to finally determine the application within 6 weeks after it is made, then the local authority is taken, for the purposes of any appeal proceedings, to have refused the application, and
 - (b) if the local authority refuses the application for an exemption, or is taken to have refused the application, or imposes a condition on an exemption, the owner of the premises on which the relevant swimming pool is situated is entitled to appeal to the Land and Environment Court against the local authority's refusal or against the condition.

 - (b) that imposes conditions on an exemption under section 22 of the Act in respect of a swimming pool,must cause notice of the decision to be served on the owner of the premises in or on which the swimming pool is situated.

 - (b) if the local authority refuses the application for a certificate of compliance, or is

taken to have refused the application, the owner of the premises on which the relevant swimming pool is situated is entitled to appeal to the Land and Environment Court against the local authority's refusal.

17 Fee for application for certificate of compliance

- (1) A local authority may impose a fee of up to \$70 on an application for a certificate of compliance under section 24 of the Act.
- (2) An application made to a local authority that has imposed a fee must be accompanied by that fee.

18 Notice concerning refusal to grant certificate of compliance

- (1) A local authority that refuses to grant a certificate of compliance under section 24 of the Act in respect of a swimming pool must cause notice of the decision to be served on the owner of the premises in or on which the swimming pool is situated.
- (2) Such a notice:
 - (a) must give reasons for the decision to refuse to grant the certificate, and
 - (b) must state that the owner of the premises on which the relevant swimming pool is situated is entitled to appeal against the decision to the Land and Environment Court.

Part 6 Miscellaneous

19 Directions by local authorities

A local authority that gives a direction under section 23 of the Act to the owner of any premises must include in the direction:

- (a) the reasons for its decision to give the direction, and
- (b) a statement to the effect that the owner of the premises is entitled to appeal to the Land and Environment Court against the decision.

 - (a) an amendment to this Regulation that amends or substitutes a standard prescribed for the purposes of a provision of Part 2 of the Act, or
 - (b) an amendment to a standard that is prescribed, as in force from time to time, for the purposes of a provision of Part 2 of the Act.
- (2) If a child-resistant barrier for a swimming pool is required to comply with a standard prescribed under a provision of Part 2 of the Act and the standard is amended or substituted by a relevant amendment, the barrier is taken to comply with the

amended or substituted standard so long as:

- (a) immediately before the relevant amendment took effect, the barrier complied with the standard that applied to the barrier at that time and the barrier continues to comply with that standard, or
 - (b) if the barrier has been substantially altered or rebuilt, the barrier complied with the standard that applied to the barrier when it was so altered or rebuilt and the barrier continues to comply with that standard.
- (3) If the means of access to a swimming pool are required to comply with a standard prescribed under a provision of Part 2 of the Act and the standard is amended or substituted by a relevant amendment, the means of access are taken to comply with the amended or substituted standard so long as:
- (a) immediately before the relevant amendment took effect, the means of access complied with the standard that applied to the means of access at that time and the means of access continue to comply with that standard, or
 - (b) if the means of access have been substantially altered or rebuilt, the means of access complied with the standard that applied to the means of access when they were so altered or rebuilt and they continue to comply with that standard.

Note—

Subclause (3) applies to standards prescribed under provisions of Part 2 of the Act that relate to indoor swimming pools, outdoor swimming pools or both.

23 Existing complying swimming pools may continue to comply with earlier standards

- (1) This clause applies to a swimming pool the construction or installation of which was completed before 1 September 2008.
- (2) It is sufficient compliance with Part 2 of the Act for a swimming pool to comply with that Part on the basis of the requirements of Part 2 of the *Swimming Pools Regulation 1998* (as an alternative to compliance on the basis of the requirements of Part 2 of this Regulation).
- (3) However, this clause does not apply:
 - (a) in relation to an outdoor swimming pool—if the child-resistant barrier by which access to the swimming pool is restricted is substantially altered or rebuilt, and
 - (b) in relation to an indoor swimming pool—if the premises in which the swimming pool is situated are substantially altered or rebuilt in a way that affects the means of access to the swimming pool.

23A Certificates of compliance

- (1) Despite the repeal of section 24 of the Act by the *Swimming Pools Amendment Act 2012*, a certificate under that section can be applied for within 6 months after the repeal of that section and can be issued pursuant to such an application as if that section had not been repealed.
- (2) A certificate issued pursuant to such an application is taken to be a certificate of compliance issued under section 22D and remains valid for a period of 3 years from the date on which it was issued.
- (3) Such a certificate ceases to be valid if a direction is issued under section 23 in respect of the swimming pool to which the certificate relates.

24 Savings

Any act, matter or thing that, immediately before the repeal of the *Swimming Pools Regulation 1998*, had effect under that Regulation is taken to have effect under this Regulation.
