# Kyogle Local Environmental Plan 2012 (2013 EPI 25)

New South Wales

## Part 1 Preliminary

### 1.1 Name of Plan

This Plan is *Kyogle Local Environmental Plan 2012*.

### 1.1AA Commencement

This Plan commences on 11 February 2013 and is required to be published on the NSW legislation website.

### 1.2 Aims of Plan

- (1) This Plan aims to make local environmental planning provisions for land in Kyogle in accordance with the relevant standard environmental planning instrument under section 33A of the Act.
- (2) The particular aims of this Plan are as follows:
  - (a) to provide for the fair, orderly and sustainable use or development of air, land and water,
  - (b) to promote the sustainable management, development and conservation of natural, social, economic, built and cultural resources and to ensure that choices and opportunities in relation to those resources remain for future generations.

### 1.3 Land to which Plan applies

- (1) This Plan applies to the land identified on the [Land Application Map](#).
- (1A) Despite subclause (1), this Plan does not apply to the land identified as “Deferred matter” on the [Land Application Map](#).

### 1.4 Definitions

The Dictionary at the end of this Plan defines words and expressions for the purposes of this Plan.

### **1.5 Notes**

Notes in this Plan are provided for guidance and do not form part of this Plan.

### **1.6 Consent authority**

The consent authority for the purposes of this Plan is (subject to the Act) the Council.

### **1.7 Maps**

- (1) A reference in this Plan to a named map adopted by this Plan is a reference to a map by that name:
  - (a) approved by the Minister when the map is adopted, and
  - (b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the Minister when the instruments are made.
- (2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.
- (3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.
- (4) For the purposes of this Plan, a map may be in, and may be kept and made available in, electronic or paper form, or both.

#### **Note—**

The maps adopted by this Plan are to be made available on the official NSW legislation website in connection with this Plan. Requirements relating to the maps are set out in the documents entitled *Standard technical requirements for LEP maps* and *Standard requirements for LEP GIS data* which are available on the website of the Department of Planning and Infrastructure.

### **1.8 Repeal of planning instruments applying to land**

- (1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Plan applies are repealed.
- (2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies.

#### **Note—**

While the following local environmental plans no longer apply to the land to which this Plan applies, they will continue to apply to the land identified as “Deferred matter” under clause 1.3 (1A):

*Interim Development Order No 1—Shire of Kyogle*

*Interim Development Order No 1—Shire of Terania*

### **1.8A Savings provision relating to development applications**

If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had not commenced.

**Note—**

However, under Division 4B of Part 3 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant development is appropriately amended or if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable.

### **1.9 Application of SEPPs**

- (1) This Plan is subject to the provisions of any State environmental planning policy that prevails over this Plan as provided by section 36 of the Act.
- (2) The following State environmental planning policies (or provisions) do not apply to the land to which this Plan applies:

*State Environmental Planning Policy No 1—Development Standards*

*State Environmental Planning Policy No 4—Development Without Consent and Miscellaneous Exempt and Complying Development* (clause 6 and Parts 3 and 4)

*State Environmental Planning Policy No 60—Exempt and Complying Development*

*North Coast Regional Environmental Plan*

### **1.9A Suspension of covenants, agreements and instruments**

- (1) For the purpose of enabling development on land in any zone to be carried out in accordance with this Plan or with a consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.
- (2) This clause does not apply:
  - (a) to a covenant imposed by the Council or that the Council requires to be imposed, or
  - (b) to any prescribed instrument within the meaning of section 183A of the *Crown Lands Act 1989*, or

- (c) to any conservation agreement within the meaning of the *National Parks and Wildlife Act 1974*, or
  - (d) to any Trust agreement within the meaning of the *Nature Conservation Trust Act 2001*, or
  - (e) to any property vegetation plan within the meaning of the *Native Vegetation Act 2003*, or
  - (f) to any biobanking agreement within the meaning of Part 7A of the *Threatened Species Conservation Act 1995*, or
  - (g) to any planning agreement within the meaning of Division 6 of Part 4 of the Act.
- (3) This clause does not affect the rights or interests of any public authority under any registered instrument.
- (4) Under section 28 of the Act, the Governor, before the making of this clause, approved of subclauses (1)–(3).

## **Part 2 Permitted or prohibited development**

### **2.1 Land use zones**

The land use zones under this Plan are as follows:

#### **Rural Zones**

- RU1 Primary Production
- RU2 Rural Landscape
- RU3 Forestry
- RU4 Primary Production Small Lots
- RU5 Village

#### **Residential Zones**

- R1 General Residential
- R3 Medium Density Residential
- R5 Large Lot Residential

#### **Business Zones**

- B2 Local Centre
- B4 Mixed Use

**Industrial Zones**

IN1 General Industrial

IN2 Light Industrial

**Special Purpose Zones**

SP1 Special Activities

SP2 Infrastructure

**Recreation Zones**

RE1 Public Recreation

RE2 Private Recreation

**Environment Protection Zones**

E1 National Parks and Nature Reserves

**Waterway Zones**

W1 Natural Waterways

W2 Recreational Waterways

**2.2 Zoning of land to which Plan applies**

For the purposes of this Plan, land is within the zones shown on the [Land Zoning Map](#).

**2.3 Zone objectives and Land Use Table**

- (1) The Land Use Table at the end of this Part specifies for each zone:
  - (a) the objectives for development, and
  - (b) development that may be carried out without development consent, and
  - (c) development that may be carried out only with development consent, and
  - (d) development that is prohibited.
- (2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.
- (3) In the Land Use Table at the end of this Part:
  - (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
  - (b) a reference to a type of building or other thing does not include (despite any

definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.

(4) This clause is subject to the other provisions of this Plan.

**Notes—**

- 1 Schedule 1 sets out additional permitted uses for particular land.
- 2 Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act or, if applicable, Part 3A of the Act.
- 3 Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
- 4 Clause 2.6 requires consent for subdivision of land.
- 5 Part 5 contains other provisions which require consent for particular development.

## 2.4 Unzoned land

- (1) Development may be carried out on unzoned land only with development consent.
- (2) Before granting development consent, the consent authority:
  - (a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and
  - (b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

## 2.5 Additional permitted uses for particular land

- (1) Development on particular land that is described or referred to in Schedule 1 may be carried out:
  - (a) with development consent, or
  - (b) if the Schedule so provides—without development consent,in accordance with the conditions (if any) specified in that Schedule in relation to that development.
- (2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

## 2.6 Subdivision—consent requirements

- (1) Land to which this Plan applies may be subdivided, but only with development consent.

**Notes—**

- 1 If a subdivision is specified as **exempt development** in an applicable environmental planning instrument, such as this Plan or [State Environmental Planning Policy \(Exempt and Complying Development](#)

*Codes) 2008*, the Act enables it to be carried out without development consent.

2 Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is **complying development**.

- (2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

**Note—**

The definition of **secondary dwelling** in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

## 2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

**Note—**

If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, as exempt development, the Act enables it to be carried out without development consent.

## 2.8 Temporary use of land

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.
- (2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 52 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that:
  - (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and
  - (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
  - (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and
  - (d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.
- (4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new

release area or a new housing estate may exceed the maximum number of days specified in that subclause.

- (5) Subclause (3) (d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

## Land Use Table

### Note—

A type of development referred to in the Land Use Table is a reference to that type of development only to the extent it is not regulated by an applicable State environmental planning policy. The following State environmental planning policies in particular may be relevant to development on land to which this Plan applies:

*State Environmental Planning Policy (Affordable Rental Housing) 2009* (including provision for secondary dwellings)

*State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004*

*State Environmental Planning Policy (Infrastructure) 2007*—relating to infrastructure facilities such as those that comprise, or are for, air transport, correction, education, electricity generating works and solar energy systems, health services, ports, railways, roads, waste management and water supply systems

*State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007*

*State Environmental Planning Policy (Rural Lands) 2008*

*State Environmental Planning Policy No 33—Hazardous and Offensive Development*

*State Environmental Planning Policy No 50—Canal Estate Development*

*State Environmental Planning Policy No 62—Sustainable Aquaculture*

*State Environmental Planning Policy No 64—Advertising and Signage*

## Zone RU1 Primary Production

### 1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To ensure that the productive capacity of agricultural land is appropriately recognised and managed.

## **2 Permitted without consent**

Environmental protection works; Extensive agriculture; Home-based child care; Home occupations; Intensive plant agriculture

## **3 Permitted with consent**

Airstrips; Aquaculture; Bed and breakfast accommodation; Boat sheds; Building identification signs; Business identification signs; Cellar door premises; Community facilities; Dual occupancies (attached); Dwelling houses; Environmental facilities; Extractive industries; Farm buildings; Flood mitigation works; Forestry; Helipads; Home businesses; Home industries; Industrial training facilities; Intensive livestock agriculture; Open cut mining; Recreation areas; Roads; Roadside stalls; Rural industries; Rural workers' dwellings; Turf farming; Veterinary hospitals; Water supply systems

## **4 Prohibited**

Any development not specified in item 2 or 3

### **Zone RU2 Rural Landscape**

#### **1 Objectives of zone**

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To maintain the rural landscape character of the land.
- To provide for a range of compatible land uses, including extensive agriculture.
- To provide for agricultural processing and support facilities directly related to the use and development of resources in the zone.
- To encourage development that involves restoration or enhancement of the natural environment where consistent with the production and landscape character of the land.
- To enable development that does not adversely impact on the natural environment, including habitat and waterways.

#### **2 Permitted without consent**

Environmental protection works; Extensive agriculture; Home-based child care; Home occupations; Intensive plant agriculture

### **3 Permitted with consent**

Airstrips; Animal boarding or training establishments; Aquaculture; Bed and breakfast accommodation; Building identification signs; Business identification signs; Camping grounds; Cellar door premises; Cemeteries; Charter and tourism boating facilities; Community facilities; Crematoria; Dual occupancies (attached); Dwelling houses; Eco-tourist facilities; Environmental facilities; Farm buildings; Farm stay accommodation; Flood mitigation works; Forestry; Function centres; Helipads; Home businesses; Home industries; Industrial training facilities; Intensive livestock agriculture; Places of public worship; Recreation areas; Recreation facilities (outdoor); Restaurants or cafes; Roads; Roadside stalls; Rural industries; Rural workers' dwellings; Turf farming; Veterinary hospitals; Water supply systems

### **4 Prohibited**

Any development not specified in item 2 or 3

## **Zone RU3 Forestry**

### **1 Objectives of zone**

- To enable development for forestry purposes.
- To enable other development that is compatible with forestry land uses.

### **2 Permitted without consent**

Business identification signs; Environmental protection works; Roads; Uses authorised under the [Forestry Act 2012](#)

### **3 Permitted with consent**

Extractive industries; Open cut mining; Sawmill or log processing works

### **4 Prohibited**

Any development not specified in item 2 or 3

## **Zone RU4 Primary Production Small Lots**

### **1 Objectives of zone**

- To enable sustainable primary industry and other compatible land uses.
- To encourage and promote diversity and employment opportunities in relation to primary industry enterprises, particularly those that require

smaller lots or that are more intensive in nature.

- To minimise conflict between land uses within this zone and land uses within adjoining zones.

## **2 Permitted without consent**

Environmental protection works; Extensive agriculture; Home-based child care; Home occupations; Intensive plant agriculture

## **3 Permitted with consent**

Agricultural produce industries; Animal boarding or training establishments; Backpackers' accommodation; Bed and breakfast accommodation; Building identification signs; Business identification signs; Cellar door premises; Community facilities; Dairies (pasture-based); Dual occupancies (attached); Dwelling houses; Entertainment facilities; Environmental facilities; Farm buildings; Farm stay accommodation; Flood mitigation works; Forestry; Function centres; Home businesses; Home industries; Neighbourhood shops; Plant nurseries; Recreation areas; Recreation facilities (outdoor); Restaurants or cafes; Roads; Roadside stalls; Turf farming; Veterinary hospitals; Viticulture; Water supply systems

## **4 Prohibited**

Any development not specified in item 2 or 3

### **Zone RU5 Village**

#### **1 Objectives of zone**

- To provide for a range of land uses, services and facilities that are associated with a rural village.
- To promote development in existing villages that reflects or enhances their local character and identity.
- To ensure that the amenity of existing developments is not adversely affected by new development.

#### **2 Permitted without consent**

Extensive agriculture; Home-based child care; Home occupations

### **3 Permitted with consent**

Agricultural produce industries; Amusement centres; Animal boarding or training establishments; Aquaculture; Boat building and repair facilities; Boat sheds; Building identification signs; Business identification signs; Camping grounds; Car parks; Caravan parks; Cemeteries; Child care centres; Commercial premises; Community facilities; Depots; Dwelling houses; Electricity generating works; Entertainment facilities; Environmental facilities; Environmental protection works; Exhibition homes; Exhibition villages; Farm buildings; Flood mitigation works; Freight transport facilities; Function centres; Highway service centres; Home businesses; Industrial retail outlets; Industrial training facilities; Information and education facilities; Intensive plant agriculture; Light industries; Marinas; Mortuaries; Neighbourhood shops; Passenger transport facilities; Places of public worship; Public administration buildings; Recreation areas; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Registered clubs; Residential accommodation; Respite day care centres; Restricted premises; Roads; Sawmill or log processing works; Schools; Service stations; Sewerage systems; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Veterinary hospitals; Warehouse or distribution centres; Water recreation structures; Water supply systems; Wholesale supplies

### **4 Prohibited**

Bee keeping; Dairies (pasture-based); Rural workers' dwellings; Any other development not specified in item 2 or 3

## **Zone R1 General Residential**

### **1 Objectives of zone**

- To provide for the housing needs of the community.
- To provide for a variety of housing types and densities.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.
- To promote housing development that efficiently utilises existing communities, infrastructure, services and employment centres.
- To enable non-residential land uses where they are compatible with the amenity of the area.

## **2 Permitted without consent**

Home-based child care; Home occupations

## **3 Permitted with consent**

Attached dwellings; Boarding houses; Boat sheds; Building identification signs; Business identification signs; Caravan parks; Child care centres; Community facilities; Dual occupancies; Dwelling houses; Emergency services facilities; Environmental facilities; Environmental protection works; Exhibition homes; Exhibition villages; Flood mitigation works; Group homes; Home businesses; Home industries; Hostels; Multi dwelling housing; Neighbourhood shops; Passenger transport facilities; Places of public worship; Recreation areas; Recreation facilities (indoor); Residential flat buildings; Respite day care centres; Restaurants or cafes; Roads; Semi-detached dwellings; Seniors housing; Shop top housing; Tourist and visitor accommodation; Water recreation structures; Water recycling facilities; Water supply systems

## **4 Prohibited**

Farm stay accommodation; Any other development not specified in item 2 or 3

### **Zone R3 Medium Density Residential**

#### **1 Objectives of zone**

- To provide for the housing needs of the community within a medium density residential environment.
- To provide a variety of housing types within a medium density residential environment.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.
- To enable non-residential land uses where they are compatible with the amenity of the area.
- To provide opportunities for infill development in Kyogle.

#### **2 Permitted without consent**

Home-based child care; Home occupations

### **3 Permitted with consent**

Amusement centres; Attached dwellings; Boarding houses; Building identification signs; Business identification signs; Child care centres; Community facilities; Emergency services facilities; Environmental protection works; Flood mitigation works; Group homes; Home businesses; Multi dwelling housing; Neighbourhood shops; Office premises; Passenger transport facilities; Places of public worship; Public administration buildings; Recreation areas; Recreation facilities (indoor); Residential accommodation; Respite day care centres; Restaurants or cafes; Roads; Seniors housing; Tourist and visitor accommodation

### **4 Prohibited**

Farm stay accommodation; Rural workers' dwellings; Any other development not specified in item 2 or 3

## **Zone R5 Large Lot Residential**

### **1 Objectives of zone**

- To provide residential housing in a rural setting while preserving, and minimising impacts on, environmentally sensitive locations and scenic quality.
- To ensure that large residential lots do not hinder the proper and orderly development of urban areas in the future.
- To ensure that development in the area does not unreasonably increase the demand for public services or public facilities.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To increase housing choice where it is appropriately linked to the nearest urban centre.

### **2 Permitted without consent**

Environmental protection works; Extensive agriculture; Home-based child care; Home occupations

### **3 Permitted with consent**

Backpackers' accommodation; Bed and breakfast accommodation; Boat sheds;

Building identification signs; Business identification signs; Child care centres; Community facilities; Dwelling houses; Emergency services facilities; Environmental facilities; Exhibition homes; Flood mitigation works; Home businesses; Home industries; Neighbourhood shops; Places of public worship; Recreation areas; Research stations; Respite day care centres; Restaurants or cafes; Roads; Roadside stalls; Seniors housing; Shop top housing; Water recreation structures; Water recycling facilities; Water supply systems

#### **4 Prohibited**

Bee keeping; Dairies (pasture-based); Any other development not specified in item 2 or 3

### **Zone B2 Local Centre**

#### **1 Objectives of zone**

- To provide a range of retail, business, entertainment and community uses that serve the needs of people who live in, work in and visit the local area.
- To encourage employment opportunities in accessible locations.
- To maximise public transport patronage and encourage walking and cycling.
- To protect and enhance the vitality and architectural, aesthetic and historic character of the Kyogle local centre.
- To ensure that the local centre is the main focus for commercial and retail activity and that commercial development in other business or industrial zones does not compromise the role or diminish the viability of the local centre.

#### **2 Permitted without consent**

Home-based child care; Home occupations

#### **3 Permitted with consent**

Boarding houses; Child care centres; Commercial premises; Community facilities; Educational establishments; Entertainment facilities; Function centres; Home industries; Information and education facilities; Medical centres; Passenger transport facilities; Recreation facilities (indoor); Registered clubs; Respite day care centres; Restricted premises; Roads; Service stations; Shop top housing; Tourist and visitor accommodation; Any other development not specified in item 2 or 4

#### **4 Prohibited**

Advertising structures; Agriculture; Air transport facilities; Airstrips; Animal boarding or training establishments; Biosolids treatment facilities; Boat building and repair facilities; Boat launching ramps; Boat sheds; Camping grounds; Caravan parks; Cemeteries; Charter and tourism boating facilities; Correctional centres; Crematoria; Depots; Eco-tourist facilities; Electricity generating works; Environmental facilities; Environmental protection works; Exhibition homes; Exhibition villages; Extractive industries; Farm buildings; Forestry; Freight transport facilities; Heavy industrial storage establishments; Helipads; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Jetties; Marinas; Mooring pens; Moorings; Mortuaries; Open cut mining; Places of public worship; Recreation areas; Recreation facilities (major); Recreation facilities (outdoor); Research stations; Residential accommodation; Resource recovery facilities; Rural industries; Sewage treatment plants; Sex services premises; Storage premises; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Veterinary hospitals; Warehouse or distribution centres; Waste disposal facilities; Water recreation structures; Water recycling facilities; Wharf or boating facilities; Wholesale supplies

#### **Zone B4 Mixed Use**

##### **1 Objectives of zone**

- To provide a mixture of compatible land uses.
- To integrate suitable business, office, residential, retail and other development in accessible locations so as to maximise public transport patronage and encourage walking and cycling.
- To facilitate creative industries of a social or cultural nature.

##### **2 Permitted without consent**

Home-based child care; Home occupations

##### **3 Permitted with consent**

Boarding houses; Child care centres; Commercial premises; Community facilities; Educational establishments; Entertainment facilities; Function centres; Hotel or motel accommodation; Information and education facilities; Light industries; Medical centres; Passenger transport facilities; Recreation facilities (indoor); Registered clubs; Residential flat buildings; Respite day care centres;

Restricted premises; Roads; Seniors housing; Shop top housing; Any other development not specified in item 2 or 4

### **Zone IN2 Light Industrial**

#### **1 Objectives of zone**

- To provide a wide range of light industrial, warehouse and related land uses.
- To encourage employment opportunities and to support the viability of centres.
- To minimise any adverse effect of industry on other land uses.
- To enable other land uses that provide facilities or services to meet the day to day needs of workers in the area.
- To support and protect industrial land for industrial uses.

#### **4 Prohibited**

Bee keeping; Dairies (pasture-based); Any other development not specified in item 2 or 3

### **Zone E1 National Parks and Nature Reserves**

#### **1 Objectives of zone**

- To enable the management and appropriate use of land that is reserved under the *National Parks and Wildlife Act 1974* or that is acquired under Part 11 of that Act.
- To enable uses authorised under the *National Parks and Wildlife Act 1974*.
- To identify land that is to be reserved under the *National Parks and Wildlife Act 1974* and to protect the environmental significance of that land.

#### **2 Permitted without consent**

Uses authorised under the *National Parks and Wildlife Act 1974*

#### **3 Permitted with consent**

#### **4 Prohibited**

Industries; Multi dwelling housing; Residential flat buildings; Seniors housing; Warehouse or distribution centres; Any other development not specified in item 2 or 3

### **Part 3 Exempt and complying development**

#### **3.1 Exempt development**

**Note—**

Under section 76 of the Act, exempt development may be carried out without the need for development consent under Part 4 of the Act or for assessment under Part 5 of the Act.

The section states that exempt development:

- (a) must be of minimal environmental impact, and
  - (b) cannot be carried out in critical habitat of an endangered species, population or ecological community (identified under the *Threatened Species Conservation Act 1995* or the *Fisheries Management Act 1994*), and
  - (c) cannot be carried out in a wilderness area (identified under the *Wilderness Act 1987*).
- (1) The objective of this clause is to identify development of minimal environmental impact as exempt development.
  - (2) Development specified in Schedule 2 that meets the standards for the development contained in that Schedule and that complies with the requirements of this Part is exempt development.
  - (3) To be exempt development, the development:
    - (a) must meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia* or, if there are no such relevant provisions, must be structurally adequate, and
    - (b) must not, if it relates to an existing building, cause the building to contravene the *Building Code of Australia*, and
    - (c) must not be designated development, and
    - (d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the *Heritage Act 1977* or that is subject to an interim heritage order under the *Heritage Act 1977*.
  - (4) Development that relates to an existing building that is classified under the *Building Code of Australia* as class 1b or class 2-9 is exempt development only if:
    - (a) the building has a current fire safety certificate or fire safety statement, or
    - (b) no fire safety measures are currently implemented, required or proposed for the building.
  - (5) To be exempt development, the development must:
    - (a) be installed in accordance with the manufacturer's specifications, if applicable, and
    - (b) not involve the removal or pruning of a tree or other vegetation that requires a permit or development consent for removal or pruning, unless that removal or pruning is undertaken in accordance with a permit or development consent.

**Note—**

A permit for the removal or pruning of a tree or other vegetation may be granted under this Plan. A development consent for the removal of native vegetation may be granted where relevant under the [Native Vegetation Act 2003](#).

(6) A heading to an item in Schedule 2 is part of that Schedule.

### 3.2 Complying development

**Note—**

Under section 76A of the Act, development consent for the carrying out of complying development may be obtained by the issue of a complying development certificate.

The section states that development cannot be complying development if:

- (a) it is on land that is critical habitat of an endangered species, population or ecological community (identified under the [Threatened Species Conservation Act 1995](#) or the [Fisheries Management Act 1994](#)), or
- (b) it is on land within a wilderness area (identified under the [Wilderness Act 1987](#)), or
- (c) the development is designated development, or
- (d) the development is on land that comprises, or on which there is, an item of environmental heritage (that is listed on the State Heritage Register or in Schedule 5 to this Plan or that is subject to an interim heritage order under the [Heritage Act 1977](#)), or
- (e) the development requires concurrence (except a concurrence of the Director-General of the Department of Environment, Climate Change and Water in respect of development that is likely to significantly affect a threatened species, population, or ecological community, or its habitat (identified under the [Threatened Species Conservation Act 1995](#))), or
- (f) the development is on land identified as an environmentally sensitive area.

(1) The objective of this clause is to identify development as complying development.

(2) Development specified in Part 1 of Schedule 3 that is carried out in compliance with:

- (a) the development standards specified in relation to that development, and
- (b) the requirements of this Part,

is complying development.

**Note—**

See also clause 5.8 (3) which provides that the conversion of fire alarms is complying development in certain circumstances.

(3) To be complying development, the development must:

- (a) be permissible, with development consent, in the zone in which it is carried out, and
- (b) meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia*,

and

- (c) have an approval, if required by the *Local Government Act 1993*, from the Council for an on-site effluent disposal system if the development is undertaken on unsewered land.
- (4) A complying development certificate for development specified in Part 1 of Schedule 3 is subject to the conditions (if any) set out or referred to in Part 2 of that Schedule.
- (5) A heading to an item in Schedule 3 is part of that Schedule.

### 3.3 Environmentally sensitive areas excluded

- (1) Exempt or complying development must not be carried out on any environmentally sensitive area for exempt or complying development.
- (2) For the purposes of this clause:

***environmentally sensitive area for exempt or complying development*** means any of the following:

- (a) the coastal waters of the State,
- (b) a coastal lake,
- (c) land to which *State Environmental Planning Policy No 14—Coastal Wetlands* or *State Environmental Planning Policy No 26—Littoral Rainforests* applies,
- (d) land reserved as an aquatic reserve under the *Fisheries Management Act 1994* or as a marine park under the *Marine Parks Act 1997*,
- (e) land within a wetland of international significance declared under the Ramsar Convention on Wetlands or within a World heritage area declared under the World Heritage Convention,
- (f) land within 100 metres of land to which paragraph (c), (d) or (e) applies,
- (g) land identified in this or any other environmental planning instrument as being of high Aboriginal cultural significance or high biodiversity significance,
- (h) land reserved under the *National Parks and Wildlife Act 1974* or land acquired under Part 11 of that Act,
- (i) land reserved or dedicated under the *Crown Lands Act 1989* for the preservation of flora, fauna, geological formations or for other environmental protection purposes,
- (j) land identified as being critical habitat under the *Threatened Species Conservation Act 1995* or Part 7A of the *Fisheries Management Act 1994*.

## Part 4 Principal development standards

### 4.1 Minimum subdivision lot size

- (1) The objectives of this clause are as follows:
  - (a) to set appropriate lot sizes for the subdivision of land that reflect the suitability of the land for increased densities of development,
  - (b) to limit dispersed rural settlement,
  - (c) to minimise the fragmentation and alienation of rural land suitable for sustainable primary production.
- (2) This clause applies to a subdivision of any land shown on the [Lot Size Map](#) that requires development consent and that is carried out after the commencement of this Plan.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (4) This clause does not apply in relation to the subdivision of individual lots in a strata plan or community title scheme.

### 4.1AA Minimum subdivision lot size for community title schemes

- (1) The objectives of this clause are as follows:
  - (a) to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.
- (2) This clause applies to a subdivision (being a subdivision that requires development consent) under the [Community Land Development Act 1989](#) of land in any of the following zones:
  - (a) Zone RU1 Primary Production,
  - (b) Zone RU2 Rural Landscape,
  - (c) Zone RU4 Primary Production Small Lots,
  - (d) Zone R5 Large Lot Residential.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies (other than any lot comprising association property within the meaning of the [Community Land Development Act 1989](#)) is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

## 4.2 Rural subdivision

- (1) The objective of this clause is to provide flexibility in the application of standards for subdivision in rural zones to allow land owners a greater chance to achieve the objectives for development in the relevant zone.
- (2) This clause applies to the following rural zones:
  - (a) Zone RU1 Primary Production,
  - (b) Zone RU2 Rural Landscape,
  - (c) Zone RU4 Primary Production Small Lots,
  - (d) Zone RU6 Transition.

### Note—

When this Plan was made it did not include Zone RU6 Transition.

- (3) Land in a zone to which this clause applies may, with development consent, be subdivided for the purpose of primary production to create a lot of a size that is less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (4) However, such a lot cannot be created if an existing dwelling would, as the result of the subdivision, be situated on the lot.
- (5) A dwelling cannot be erected on such a lot.

### Note—

A dwelling includes a rural worker's dwelling (see definition of that term in the Dictionary).

## 4.2A Erection of dwelling houses and dual occupancies (attached) on land in certain rural zones

- (1) The objectives of this clause are as follows:
  - (a) to minimise unplanned rural residential development,
  - (b) to enable the replacement of lawfully erected dwelling houses or dual occupancies (attached) in rural zones.
- (2) This clause applies to land in the following zones:
  - (a) Zone RU1 Primary Production,
  - (b) Zone RU2 Rural Landscape,
  - (c) Zone RU4 Primary Production Small Lots.
- (3) Development consent must not be granted for the erection of a dwelling house or dual

occupancy (attached) on land to which this clause applies, and on which no dwelling house or dual occupancy (attached) has been erected, unless the land:

- (a) is a lot that is at least the minimum lot size specified for that lot by the [Lot Size Map](#), or
- (b) is a lot created before this Plan commenced and on which the erection of a dwelling house or dual occupancy (attached) was permissible immediately before that commencement, or
- (c) is a lot resulting from a subdivision for which development consent (or equivalent) was granted before this Plan commenced and on which the erection of a dwelling house or dual occupancy (attached) would have been permissible if the plan of subdivision had been registered before that commencement, or
- (d) is an existing holding, or
- (e) would have been a lot or a holding referred to in paragraph (a), (b), (c) or (d) had it not been affected by:
  - (i) a minor realignment of its boundaries that did not create an additional lot, or
  - (ii) a subdivision creating or widening a public road or public reserve or for another public purpose.

**Note—**

A dwelling cannot be erected on a lot created under clause 9 of [State Environmental Planning Policy \(Rural Lands\) 2008](#) or clause 4.2.

- (4) Development consent may be granted for the erection of a dwelling house or dual occupancy (attached) on a lot in a zone to which this clause applies if there is a lawfully erected dwelling house or dual occupancy (attached) on the land and the dwelling house or dual occupancy (attached) to be erected is intended only to replace the existing dwelling house or dual occupancy (attached).

- (5) In this clause:

**existing holding** means all adjoining land, even if separated by a road or railway, held in the same ownership:

- (a) on:
  - (i) for land to which *Interim Development Order No 1—Shire of Kyogle* applied at the commencement of this Plan—22 October 1976, or
  - (ii) for land to which *Interim Development Order No 1—Shire of Terania* applied at the commencement of this Plan—29 November 1974, and
- (b) at the time of lodging a development application for the erection of a dwelling

house under this clause,

and includes any other land adjoining that land acquired by the owner since the date referred to in paragraph (a) (i) or (ii).

**Note—**

The owner in whose ownership all the land is at the time the application is lodged need not be the same person as the owner in whose ownership all the land was on the stated date.

**4.2B Minimum subdivision lot size for strata plan schemes in certain zones**

- (1) The objective of this clause is to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.
- (2) This clause applies to land in the following zones that is used, or is proposed to be used, for residential accommodation or tourist and visitor accommodation:
  - (a) Zone RU1 Primary Production,
  - (b) Zone RU2 Rural Landscape,
  - (c) Zone RU4 Primary Production Small Lots,
  - (d) Zone R5 Large Lot Residential.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies for a strata plan scheme (other than any lot comprising common property within the meaning of the *Strata Schemes (Freehold Development) Act 1973* or *Strata Schemes (Leasehold Development) Act 1986*) is not to be less than the minimum lot size shown on the [Lot Size Map](#) in relation to that land.

**Note—**

Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that strata subdivision of a building in certain circumstances is specified complying development.

**4.2C Erection of rural workers' dwellings in Zones RU1 and RU2**

- (1) The objective of this clause is to ensure the provision of adequate accommodation for employees of existing agricultural or rural industries.
- (2) This clause applies to land in the following zones:
  - (a) Zone RU1 Primary Production,
  - (b) Zone RU2 Rural Landscape.
- (3) Development consent must not be granted to the erection of a rural worker's dwelling on land to which this clause applies, unless the consent authority is satisfied that:
  - (a) the development will be on the same lot as an existing lawfully erected dwelling

house, and

- (b) the development will not impair the use of the land for agricultural or rural industries, and
- (c) the agricultural or rural industry being carried out on the land has a demonstrated economic capacity to support the ongoing employment of rural workers, and
- (d) the development is necessary considering the nature of the agricultural or rural industry land use lawfully occurring on the land or as a result of the remote or isolated location of the land, and
- (e) the size of the lot on which the development will be carried out is at least the minimum lot size specified for that lot by the [Lot Size Map](#), or at least 80 hectares, whichever is the larger.

#### **4.3 Height of buildings**

- (1) The objectives of this clause are as follows:
  - (a) to identify maximum heights of buildings,
  - (b) to ensure that the heights of buildings are compatible with the character of the existing development within the surrounding area,
  - (c) to encourage greater density in urban areas.
- (2) The height of a building on any land is not to exceed the maximum height shown for the land on the [Height of Buildings Map](#).

#### **4.4 Floor space ratio**

[Not adopted]

#### **4.5 Calculation of floor space ratio and site area**

[Not adopted]

#### **4.6 Exceptions to development standards**

- (1) The objectives of this clause are as follows:
  - (a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,
  - (b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.
- (2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this

or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.

- (3) Development consent must not be granted for development that contravenes a development standard unless the consent authority has considered a written request from the applicant that seeks to justify the contravention of the development standard by demonstrating:
  - (a) that compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and
  - (b) that there are sufficient environmental planning grounds to justify contravening the development standard.
- (4) Development consent must not be granted for development that contravenes a development standard unless:
  - (a) the consent authority is satisfied that:
    - (i) the applicant's written request has adequately addressed the matters required to be demonstrated by subclause (3), and
    - (ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out, and
  - (b) the concurrence of the Director-General has been obtained.
- (5) In deciding whether to grant concurrence, the Director-General must consider:
  - (a) whether contravention of the development standard raises any matter of significance for State or regional environmental planning, and
  - (b) the public benefit of maintaining the development standard, and
  - (c) any other matters required to be taken into consideration by the Director-General before granting concurrence.
- (6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living if:
  - (a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or

- (b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.

**Note—**

When this Plan was made it did not include Zone RU6 Transition, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living.

- (7) After determining a development application made pursuant to this clause, the consent authority must keep a record of its assessment of the factors required to be addressed in the applicant's written request referred to in subclause (3).
- (8) This clause does not allow development consent to be granted for development that would contravene any of the following:
  - (a) a development standard for complying development,
  - (b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which [State Environmental Planning Policy \(Building Sustainability Index: BASIX\) 2004](#) applies or for the land on which such a building is situated,
  - (c) clause 5.4.

## Part 5 Miscellaneous provisions

### 5.1 Relevant acquisition authority

- (1) The objective of this clause is to identify, for the purposes of section 27 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#) (**the owner-initiated acquisition provisions**).

**Note—**

If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#) requires the authority to acquire the land.

- (2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the [Land Reservation Acquisition Map](#) (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

**Type of land shown on Map**

**Authority of the State**

Zone RE1 Public Recreation and marked "Local open space"	Council
Zone RE1 Public Recreation and marked "Regional open space"	The corporation constituted under section 8 of the Act
Zone SP2 Infrastructure and marked "Classified road"	Roads and Maritime Services
Zone E1 National Parks and Nature Reserves and marked "National Park"	Minister administering the <i>National Parks and Wildlife Act 1974</i>

- (3) Development on land acquired by an authority of the State under the owner-initiated acquisition provisions may, before it is used for the purpose for which it is reserved, be carried out, with development consent, for any purpose.

## 5.2 Classification and reclassification of public land

- (1) The objective of this clause is to enable the Council to classify or reclassify public land as "operational land" or "community land" in accordance with Part 2 of Chapter 6 of the *Local Government Act 1993*.

### Note—

Under the *Local Government Act 1993*, "public land" is generally land vested in or under the control of a council (other than roads, Crown reserves and commons). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the *Local Government Act 1993*. Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.

- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the *Local Government Act 1993*.
- (3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the *Local Government Act 1993*.
- (4) The public land described in Part 1 of Schedule 4:
- (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and
  - (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.
- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except:

- (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
- (b) any reservations that except land out of the Crown grant relating to the land, and
- (c) reservations of minerals (within the meaning of the *Crown Lands Act 1989*).

**Note—**

In accordance with section 30 (2) of the *Local Government Act 1993*, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

### 5.3 Development near zone boundaries

- (1) The objective of this clause is to provide flexibility where the investigation of a site and its surroundings reveals that a use allowed on the other side of a zone boundary would enable a more logical and appropriate development of the site and be compatible with the planning objectives and land uses for the adjoining zone.
- (2) This clause applies to so much of any land that is within the relevant distance of a boundary between any 2 zones. The relevant distance is 40 metres.
- (3) This clause does not apply to:
  - (a) land in Zone RE1 Public Recreation, Zone E1 National Parks and Nature Reserves, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone W1 Natural Waterways, or
  - (b) land within the coastal zone, or
  - (c) land proposed to be developed for the purpose of sex services or restricted premises.

**Note—**

When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E3 Environmental Management.

- (4) Despite the provisions of this Plan relating to the purposes for which development may be carried out, development consent may be granted to development of land to which this clause applies for any purpose that may be carried out in the adjoining zone, but only if the consent authority is satisfied that:
  - (a) the development is not inconsistent with the objectives for development in both zones, and
  - (b) the carrying out of the development is desirable due to compatible land use planning, infrastructure capacity and other planning principles relating to the efficient and timely development of land.

- (5) This clause does not prescribe a development standard that may be varied under this Plan.

#### 5.4 Controls relating to miscellaneous permissible uses

- (1) **Bed and breakfast accommodation** If development for the purposes of bed and breakfast accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 3 bedrooms.

**Note—**

Any such development that provides for a certain number of guests or rooms may involve a change in the class of building under the *Building Code of Australia*.

- (2) **Home businesses** If development for the purposes of a home business is permitted under this Plan, the carrying on of the business must not involve the use of more than 50 square metres of floor area.
- (3) **Home industries** If development for the purposes of a home industry is permitted under this Plan, the carrying on of the home industry must not involve the use of more than 50 square metres of floor area.
- (4) **Industrial retail outlets** If development for the purposes of an industrial retail outlet is permitted under this Plan, the retail floor area must not exceed:
- (a) 11% of the gross floor area of the industry or rural industry located on the same land as the retail outlet, or
  - (b) 200 square metres,
- whichever is the lesser.
- (5) **Farm stay accommodation** If development for the purposes of farm stay accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 3 bedrooms.
- (6) **Kiosks** If development for the purposes of a kiosk is permitted under this Plan, the gross floor area must not exceed 30 square metres.
- (7) **Neighbourhood shops** If development for the purposes of a neighbourhood shop is permitted under this Plan, the retail floor area must not exceed 80 square metres.
- (8) **Roadside stalls** If development for the purposes of a roadside stall is permitted under this Plan, the gross floor area must not exceed 8 square metres.
- (9) **Secondary dwellings** If development for the purposes of a secondary dwelling is permitted under this Plan, the total floor area of the dwelling (excluding any area used for parking) must not exceed whichever of the following is the greater:
- (a) 60 square metres,

- (b) 43% of the total floor area of the principal dwelling.

### **5.5 Development within the coastal zone**

[Not applicable]

### **5.6 Architectural roof features**

- (1) The objectives of this clause are as follows:
  - (a) to provide high quality urban form for all buildings,
  - (b) to provide flexibility in building height to promote architectural excellence and visual interest in roof forms.
- (2) Development that includes an architectural roof feature that exceeds, or causes a building to exceed, the height limits set by clause 4.3 may be carried out, but only with development consent.
- (3) Development consent must not be granted to any such development unless the consent authority is satisfied that:
  - (a) the architectural roof feature:
    - (i) comprises a decorative element on the uppermost portion of a building, and
    - (ii) is not an advertising structure, and
    - (iii) does not include floor space area and is not reasonably capable of modification to include floor space area, and
    - (iv) will cause minimal overshadowing, and
  - (b) any building identification signage or equipment for servicing the building (such as plant, lift motor rooms, fire stairs and the like) contained in or supported by the roof feature is fully integrated into the design of the roof feature.

### **5.7 Development below mean high water mark**

[Not applicable]

### **5.8 Conversion of fire alarms**

- (1) This clause applies to a fire alarm system that can be monitored by Fire and Rescue NSW or by a private service provider.
- (2) The following development may be carried out, but only with development consent:
  - (a) converting a fire alarm system from connection with the alarm monitoring system of Fire and Rescue NSW to connection with the alarm monitoring system of a private service provider,

- (b) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with the alarm monitoring system of another private service provider,
  - (c) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with a different alarm monitoring system of the same private service provider.
- (3) Development to which subclause (2) applies is complying development if it consists only of:
- (a) internal alterations to a building, or
  - (b) internal alterations to a building together with the mounting of an antenna, and any support structure, on an external wall or roof of a building so as to occupy a space of not more than 450mm × 100mm × 100mm.
- (4) A complying development certificate for any such complying development is subject to a condition that any building work may only be carried out between 7.00 am and 6.00 pm on Monday to Friday and between 7.00 am and 5.00 pm on Saturday, and must not be carried out on a Sunday or a public holiday.
- (5) In this clause:
- private service provider*** means a person or body that has entered into an agreement that is in force with Fire and Rescue NSW to monitor fire alarm systems.

### 5.9 Preservation of trees or vegetation

- (1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.
- (2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

**Note—**

A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

- (3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
  - (a) development consent, or
  - (b) a permit granted by the Council.
- (4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council

to grant consent for the carrying out of the activity for which a permit was sought.

- (5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.
- (6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.
- (7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
  - (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
  - (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance,

unless the Council is satisfied that the proposed activity:

- (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
- (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.

**Note—**

As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

- (8) This clause does not apply to or in respect of:
  - (a) the clearing of native vegetation:
    - (i) that is authorised by a development consent or property vegetation plan under the *Native Vegetation Act 2003*, or
    - (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or
  - (b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the *Native Vegetation Act 2003*) that is authorised by a development consent under the provisions of the *Native Vegetation Conservation Act 1997* as continued in force by that clause, or
  - (c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the *Forestry Act 1916*, or
  - (d) action required or authorised to be done by or under the *Electricity Supply Act 1995*, the *Roads Act 1993* or the *Surveying and Spatial Information Act 2002*, or

(e) plants declared to be noxious weeds under the *Noxious Weeds Act 1993*.

**Note—**

Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

**Note—**

When this Plan was made it did not include Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living.

### **5.9AA Trees or vegetation not prescribed by development control plan**

- (1) This clause applies to any tree or other vegetation that is not of a species or kind prescribed for the purposes of clause 5.9 by a development control plan made by the Council.
- (2) The ringbarking, cutting down, topping, lopping, removal, injuring or destruction of any tree or other vegetation to which this clause applies is permitted without development consent.

### **5.10 Heritage conservation**

**Note—**

Heritage items (if any) are listed and described in Schedule 5. Heritage conservation areas (if any) are shown on the [Heritage Map](#) as well as being described in Schedule 5.

- (1) **Objectives** The objectives of this clause are as follows:
  - (a) to conserve the environmental heritage of Kyogle,
  - (b) to conserve the heritage significance of heritage items and heritage conservation areas, including associated fabric, settings and views,
  - (c) to conserve archaeological sites,
  - (d) to conserve Aboriginal objects and Aboriginal places of heritage significance.
- (2) **Requirement for consent** Development consent is required for any of the following:
  - (a) demolishing or moving any of the following or altering the exterior of any of the following (including, in the case of a building, making changes to its detail, fabric, finish or appearance):
    - (i) a heritage item,
    - (ii) an Aboriginal object,

- (iii) a building, work, relic or tree within a heritage conservation area,
  - (b) altering a heritage item that is a building by making structural changes to its interior or by making changes to anything inside the item that is specified in Schedule 5 in relation to the item,
  - (c) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed,
  - (d) disturbing or excavating an Aboriginal place of heritage significance,
  - (e) erecting a building on land:
    - (i) on which a heritage item is located or that is within a heritage conservation area, or
    - (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance,
  - (f) subdividing land:
    - (i) on which a heritage item is located or that is within a heritage conservation area, or
    - (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance.
- (3) **When consent not required** However, development consent under this clause is not required if:
- (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development:
    - (i) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or archaeological site or a building, work, relic, tree or place within the heritage conservation area, and
    - (ii) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place, archaeological site or heritage conservation area, or
  - (b) the development is in a cemetery or burial ground and the proposed development:
    - (i) is the creation of a new grave or monument, or excavation or disturbance of land for the purpose of conserving or repairing monuments or grave markers, and

- (ii) would not cause disturbance to human remains, relics, Aboriginal objects in the form of grave goods, or to an Aboriginal place of heritage significance, or
  - (c) the development is limited to the removal of a tree or other vegetation that the Council is satisfied is a risk to human life or property, or
  - (d) the development is exempt development.
- (4) **Effect of proposed development on heritage significance** The consent authority must, before granting consent under this clause in respect of a heritage item or heritage conservation area, consider the effect of the proposed development on the heritage significance of the item or area concerned. This subclause applies regardless of whether a heritage management document is prepared under subclause (5) or a heritage conservation management plan is submitted under subclause (6).
- (5) **Heritage assessment** The consent authority may, before granting consent to any development:
  - (a) on land on which a heritage item is located, or
  - (b) on land that is within a heritage conservation area, or
  - (c) on land that is within the vicinity of land referred to in paragraph (a) or (b),require a heritage management document to be prepared that assesses the extent to which the carrying out of the proposed development would affect the heritage significance of the heritage item or heritage conservation area concerned.
- (6) **Heritage conservation management plans** The consent authority may require, after considering the heritage significance of a heritage item and the extent of change proposed to it, the submission of a heritage conservation management plan before granting consent under this clause.
- (7) **Archaeological sites** The consent authority must, before granting consent under this clause to the carrying out of development on an archaeological site (other than land listed on the State Heritage Register or to which an interim heritage order under the [Heritage Act 1977](#) applies):
  - (a) notify the Heritage Council of its intention to grant consent, and
  - (b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.
- (8) **Aboriginal places of heritage significance** The consent authority must, before granting consent under this clause to the carrying out of development in an Aboriginal place of heritage significance:
  - (a) consider the effect of the proposed development on the heritage significance of

the place and any Aboriginal object known or reasonably likely to be located at the place by means of an adequate investigation and assessment (which may involve consideration of a heritage impact statement), and

(b) notify the local Aboriginal communities, in writing or in such other manner as may be appropriate, about the application and take into consideration any response received within 28 days after the notice is sent.

(9) **Demolition of nominated State heritage items** The consent authority must, before granting consent under this clause for the demolition of a nominated State heritage item:

(a) notify the Heritage Council about the application, and

(b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

(10) **Conservation incentives** The consent authority may grant consent to development for any purpose of a building that is a heritage item or of the land on which such a building is erected, or for any purpose on an Aboriginal place of heritage significance, even though development for that purpose would otherwise not be allowed by this Plan, if the consent authority is satisfied that:

(a) the conservation of the heritage item or Aboriginal place of heritage significance is facilitated by the granting of consent, and

(b) the proposed development is in accordance with a heritage management document that has been approved by the consent authority, and

(c) the consent to the proposed development would require that all necessary conservation work identified in the heritage management document is carried out, and

(d) the proposed development would not adversely affect the heritage significance of the heritage item, including its setting, or the heritage significance of the Aboriginal place of heritage significance, and

(e) the proposed development would not have any significant adverse effect on the amenity of the surrounding area.

### **5.11 Bush fire hazard reduction**

Bush fire hazard reduction work authorised by the *Rural Fires Act 1997* may be carried out on any land without development consent.

**Note—**

The *Rural Fires Act 1997* also makes provision relating to the carrying out of development on bush fire prone land.

### **5.12 Infrastructure development and use of existing buildings of the Crown**

- (1) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the carrying out of any development, by or on behalf of a public authority, that is permitted to be carried out with or without development consent, or that is exempt development, under *State Environmental Planning Policy (Infrastructure) 2007*.
- (2) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the use of existing buildings of the Crown by the Crown.

### **5.13 Eco-tourist facilities**

- (1) The objectives of this clause are as follows:
  - (a) to maintain the environmental and cultural values of land on which development for the purposes of eco-tourist facilities is carried out,
  - (b) to provide for sensitively designed and managed eco-tourist facilities that have minimal impact on the environment both on and off-site.
- (2) This clause applies if development for the purposes of an eco-tourist facility is permitted with development consent under this Plan.
- (3) The consent authority must not grant consent under this Plan to carry out development for the purposes of an eco-tourist facility unless the consent authority is satisfied that:
  - (a) there is a demonstrated connection between the development and the ecological, environmental and cultural values of the site or area, and
  - (b) the development will be located, constructed, managed and maintained so as to minimise any impact on, and to conserve, the natural environment, and
  - (c) the development will enhance an appreciation of the environmental and cultural values of the site or area, and
  - (d) the development will promote positive environmental outcomes and any impact on watercourses, soil quality, heritage and indigenous flora and fauna will be minimal, and
  - (e) the site will be maintained (or regenerated where necessary) to ensure the continued protection of natural resources and enhancement of the natural environment, and
  - (f) waste generation during construction and operation will be avoided and that any waste will be appropriately removed, and
  - (g) the development will be located to avoid visibility above ridgelines and against escarpments and from watercourses and that any visual intrusion will be

minimised through the choice of design, colours materials and landscaping with local indigenous flora, and

- (h) any infrastructure services to the site will be provided without significant modification to the environment, and
- (i) any power and water to the site will, where possible, be provided through the use of passive heating and cooling, renewable energy sources and water efficient design, and
- (j) the development will not adversely affect the agricultural productivity of adjoining land, and
- (k) the following matters are addressed or provided for in a management strategy for minimising any impact on the natural environment:
  - (i) measures to remove any threat of serious or irreversible environmental damage,
  - (ii) the maintenance (or regeneration where necessary) of habitats,
  - (iii) efficient and minimal energy and water use and waste output,
  - (iv) mechanisms for monitoring and reviewing the effect of the development on the natural environment,
  - (v) maintaining improvements on an on-going basis in accordance with relevant ISO 14000 standards relating to management and quality control.

## **Part 6 Additional local provisions**

### **6.1 Earthworks**

- (1) The objective of this clause is to ensure that earthworks for which development consent is required will not have a detrimental impact on environmental functions and processes, neighbouring uses, cultural or heritage items or features of the surrounding land.
- (2) Development consent is required for earthworks unless:
  - (a) the earthworks are exempt development under this Plan or another applicable environmental planning instrument, or
  - (b) the earthworks are ancillary to development that is permitted without consent under this Plan or to development for which development consent has been given.
- (3) Before granting development consent for earthworks (or for development involving ancillary earthworks), the consent authority must consider the following matters:

- (a) the likely disruption of, or any detrimental effect on, drainage patterns and soil stability in the locality of the development,
- (b) the effect of the development on the likely future use or redevelopment of the land,
- (c) the quality of the fill or the soil to be excavated, or both,
- (d) the effect of the development on the existing and likely amenity of adjoining properties,
- (e) the source of any fill material and the destination of any excavated material,
- (f) the likelihood of disturbing relics,
- (g) the proximity to, and potential for adverse impacts on, any waterway, drinking water catchment or environmentally sensitive area,
- (h) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.

**Note—**

The [National Parks and Wildlife Act 1974](#), particularly section 86, deals with harming Aboriginal objects.

## **6.2 Flood planning**

- (1) The objectives of this clause are as follows:
  - (a) to minimise the flood risk to life and property associated with the use of land,
  - (b) to allow development on land that is compatible with the land's flood hazard, taking into account projected changes as a result of climate change,
  - (c) to avoid significant adverse impacts on flood behaviour and the environment.
- (2) This clause applies to:
  - (a) land that is identified as "Flood planning area" on the [Flood Planning Map](#), and
  - (b) other land at or below the flood planning level.
- (3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
  - (a) is compatible with the flood hazard of the land, and
  - (b) will not significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
  - (c) incorporates appropriate measures to manage risk to life from flood, and

(d) will not significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and

(e) will not be likely to result in unsustainable social and economic costs to the community as a consequence of flooding.

(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

**flood planning level** means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metres freeboard.

### 6.3 Significant resources

(1) The objective of this clause is to identify the location of significant resources of minerals, petroleum or extractive materials for the purposes of clause 13 of *State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007*.

(2) The land identified as “Identified resource” on the *Significant Resource Map* is the land to which clause 13 of *State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007* applies.

### 6.4 Essential services

Development consent must not be granted to development unless the consent authority is satisfied that any of the following services that are essential for the development are available or that adequate arrangements have been made to make them available when required:

- (a) the supply of water,
- (b) the supply of electricity,
- (c) the disposal and management of sewage,
- (d) stormwater drainage or on-site conservation,
- (e) suitable vehicular access.

### 6.5 Location of sex services premises

(1) The objective of this clause is to minimise land use conflicts and adverse amenity impacts by providing a reasonable level of separation between sex services premises, specified land uses and places regularly frequented by children.

- (2) In deciding whether to grant development consent to development for the purposes of sex services premises, the consent authority must consider the following:
- (a) whether the premises will be located on land that adjoins, is directly opposite to or is separated only by a local road from land:
    - (i) in Zone R1 General Residential, Zone R3 Medium Density Residential or Zone RE1 Public Recreation, or
    - (ii) used for the purposes of a child care centre, a community facility, a school or a place of public worship,
  - (b) the impact of the proposed development and its hours of operation on any place likely to be regularly frequented by children:
    - (i) that adjoins the proposed development, or
    - (ii) that can be viewed from the proposed development, or
    - (iii) from which a person can view the proposed development.

## **Schedule 1 Additional permitted uses**

(Clause 2.5)

(When this Plan was made this Schedule was blank)

## **Schedule 2 Exempt development**

(Clause 3.1)

### **Note 1—**

*State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* specifies exempt development under that Policy. The Policy has State-wide application. This Schedule contains additional exempt development not specified in that Policy.

### **Note 2—**

Exempt development may be carried out without the need for development consent under the Act. Such development is not exempt from any approval, licence, permit or authority that is required under any other Act and adjoining owners' property rights and the common law still apply.

### **Charity bins**

- (1) Must be installed or erected on land that is in a business or industrial zone.
- (2) Must not be on land that is a heritage item.
- (3) Maximum bins in any one location—2.
- (4) Must be located wholly within the boundaries of the property.
- (5) Area must be kept clean and tidy at all times.

## **Signage**

### **(1) For the sale of motor vehicles, trailers, farm machinery and motor cycles**

- (a) Must be flush to the item for sale.
- (b) Maximum area—0.75m<sup>2</sup>.
- (c) The item must not be on public land for the purposes of displaying the sign.
- (d) Only 1 sign per premises.

### **(2) Building identification signs**

- (a) Maximum—1 sign per premises.
- (b) Must be located on the building or front fence of the building to which the sign relates.
- (c) Must not be located on any roof or above the line of any guttering, verandah or awning.
- (d) Maximum area—0.36m<sup>2</sup>.
- (e) Must not be located over a public road.
- (f) Must not project beyond any part of the building or fence on which it is erected.
- (g) Must not cover any mechanical ventilation inlet or outlet vents.
- (h) Must be non-reflective, non-iridescent, non-illuminated and stationary.
- (i) If on a heritage item, heritage conservation area or archaeological site:
  - (i) must not cover architectural projections or other decorative features of the premises on which it is displayed, and
  - (ii) must be designed and installed so that it can be removed without significantly altering or damaging the fabric of the item, area or site, and
  - (iii) must not be painted onto the surface of the item, area or site.

### **(3) Business identification signs**

- (a) Maximum—1 sign per premises or 1 sign per street frontage, whichever would permit more signs.
- (b) Must refer only to a person or business on the premises and must not advertise products that are available from the premises.
- (c) Must not be located on any roof or above the line of any guttering, verandah or

awning.

- (d) Must not cover any mechanical ventilation inlet or outlet vents.
- (e) Must be non-reflective, non-iridescent, non-illuminated and stationary.
- (f) If on a heritage item, heritage conservation area or archaeological site:
  - (i) must not cover architectural projections or other decorative features of the premises on which it is displayed, and
  - (ii) must be designed and installed so that it can be removed without significantly altering or damaging the fabric of the item, area or site, and
  - (iii) must not be painted onto the surface of the item, area or site.
- (g) If erected on a building, must not project beyond any part of the building on which it is erected.
- (h) If erected on a public road (which includes the public footpath), must be a minimum of 2.6m above the existing ground level and at least 0.6m from the vertical projection of the kerb or roadway line.
- (i) Must not exceed the following areas:
  - (i) on land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, an environment protection zone or a recreation zone—2m<sup>2</sup>,
  - (ii) on land in Zone RU5 Village—1m<sup>2</sup>,
  - (iii) on land in a residential zone—0.75m<sup>2</sup>,
  - (iv) on land in a business zone—1.5m<sup>2</sup>,
  - (v) on land in an industrial zone—4m<sup>2</sup>.
- (j) Maximum height above existing ground level—3m.

**(4) A-frame signs**

- (a) Must only be displayed in conjunction with a lawful commercial land use of the land during the normal hours of operation.
- (b) Must refer to the premises or goods and services that are available from the premises.
- (c) Maximum area—0.9m × 0.6m.
- (d) Maximum—1 sign per premises.

(e) Must be non-reflective, non-iridescent and non-illuminated.

**(5) Temporary signs**

- (a) Must advertise an educational, social, cultural, religious or recreational event that is operating legally.
- (b) Must not include commercial advertising apart from the name of the event sponsor(s) (maximum 25% of sign area for this purpose).
- (c) Must not be displayed earlier than 28 days before the day on which the event is held or later than 7 days after the event.
- (d) Must be safely constructed and securely fixed to prevent a nuisance or hazard.
- (e) Must not be of a design or in a location that is a hazard to traffic.
- (f) Must not obstruct existing signage.
- (g) Must not be attached to a tree or power pole.

**Note—**

Advertisements and advertising structures erected on or over a public road require consent under the [Roads Act 1993](#).

**(6) Real estate signs**

- (a) Must be located entirely within the property being advertised.
- (b) Must advertise that the premises on which it is displayed are for sale or lease only.
- (c) If associated with development consent, must not be erected until the consent has been granted.
- (d) Must not exceed 1 sign per agent, with a maximum of 4 signs in total per premises.
- (e) Maximum area of each sign:
  - (i) on land in a rural, residential or environment protection zone—1.2m × 0.6m for a standard sign and 1.2m × 0.9m for an auction sign, and
  - (ii) on land in a business, industrial, special purpose or recreation zone—2.5m<sup>2</sup>.
- (f) Must be erected only during the period for which the property is for sale or lease, except in the case of an auction sign, in which case the sign may be erected no more than 28 days before the auction date.
- (g) Must be removed within 14 days of settlement.

- (h) Maximum height above existing ground level—1.8m.

## Schedule 3 Complying development

(Clause 3.2)

### Note—

*State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* specifies complying development and the complying development conditions for that development under that Policy. The Policy has State-wide application. This Schedule contains additional complying development not specified in that Policy.

## Part 1 Types of development

### Note—

Information relevant to this Part is also contained in the Act, the *Environmental Planning and Assessment Regulation 2000*, the *Protection of the Environment Operations Act 1997* and the *Roads Act 1993*.

### Industrial sheds (new and additions to)

- (1) Must be on land in an industrial zone.
- (2) Must have an approved vehicular access point to a public road constructed to Council's design and construction specifications.
- (3) Must not be constructed within 1.5m of any easements or water, sewer or stormwater pipes, or the equivalent of the invert depth of a pipe where greater.
- (4) Must have a floor space ratio not exceeding 1,000m<sup>2</sup> or 1:2, whichever is the lesser. (For the purpose of calculating the site area, a lot that shares a common boundary and on which the development is proposed can be aggregated, while the area of any access laneway is to be excluded from battle axe lots.)
- (5) If a new industrial shed, maximum height—8.5m above ground level (existing).
- (6) Setbacks must be at least 10m from a boundary with a primary road that is not a classified road and 6m from a boundary with a secondary road that is not a classified road.
- (7) Setbacks must be at least 20m from a boundary with a classified road.
- (8) Must use low reflectivity colours on the exterior surfaces.
- (9) The use of the building must be nominated and all *Building Code of Australia* requirements for the proposed use(s) complied with.
- (10) The new use may only be for one or more of the following:
  - (a) bulky goods premises,
  - (b) depots,

- (13) Access and parking areas must be contained wholly within the boundaries of the land.
- (14) Parking spaces and turning areas must comply with Council's design and construction specifications.
- (15) Internal driveways must provide access to the building or separate occupancy to accommodate an 11m long rigid truck, sufficient to allow such trucks to enter and leave the site in a forward direction.
- (16) All internal roadways and vehicle parking areas must be constructed to all weather bitumen, sealed concrete or equivalent surface in accordance with Council's design and construction specifications.
- (17) All loading and unloading must take place within the property boundaries, including the parking of construction and private vehicles associated with the development.
- (18) All floor levels must be higher than or equal to 100 year average recurrent interval (ARI) event peak flood level.

**Note—**

Excavation and fill are subject to clause 6.1.

**Single day events**

**Note 1—**

In the case of Crown land or land vested in or under the control of a council, permission must be sought from the council or other authority responsible for managing the land concerned before any development is carried out on the land.

**Note 2—**

Under section 68 of the *Local Government Act 1993*, certain activities require approval from the local council.

**Note 3—**

The *Protection of the Environment Operations Act 1997* contains provisions regulating noise and pollution.

**Note 4—**

The use of caravans, campervans and tents is regulated under the *Crown Lands Act 1989*, *Forestry Act 1916*, *National Parks and Wildlife Act 1974* and the *Local Government Act 1993*.

- (2) Must not exceed 16.5 hours in duration.
- (3) Must not be an event that is, or is to be, held on a biennial or more regular basis.
- (4) Must have an approved vehicular access point to a public road constructed to Council's design and construction specifications.

## Part 2 Complying development certificate conditions

**Note—**

Complying development must comply with the requirements of the Act, the regulations under the Act and this Plan.

### General conditions

Any development specified in Part 1 is subject to the same conditions set out in Division 3 of Part 3 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*.

### Conditions applying to a complying development certificate for a single day event

**Note—**

The *Liquor Act 2007* contains provisions regulating the supply and sale of liquor.

- (1) The event may take place only during the following times:
  - (a) 7.30 am to 11.00 pm on Monday, Tuesday, Wednesday or Thursday,
  - (b) 7.30 am to midnight on Friday or Saturday,
  - (c) 8.00 am to 8.00 pm on Sunday.
- (2) All parking, loading, unloading and the provision of facilities in relation to the event must take place wholly within the development site.

- (3) All signage must comply with Schedule 2.
- (4) All event-associated structures (excluding the provision of temporary signage) must not be erected earlier than 2 days before the event and must be dismantled and removed from the land within 2 days of the end of the event.
- (5) Potable water must be available and supplied in accordance with the *Australian Drinking Water Guidelines* published by the National Health and Medical Research Council.
- (6) Toilet facilities must be available or provided at the site before the event begins and must be maintained until the event ends.

**Note—**

The *Building Code of Australia*, volume 1, section F, contains provisions relating to sanitary facilities.

- (7) Each toilet must:
  - (a) be a standard flushing toilet connected to a public sewer, or
  - (b) have an on-site effluent disposal system approved under the [Local Government Act 1993](#), or
  - (c) be a temporary chemical closet approved under the [Local Government Act 1993](#).
- (8) Garbage receptacles with tight fitting lids and suitable for the reception of food scraps and papers must be available at the site before the event begins and must be maintained until the event ends.
- (9) All waste and recyclable materials generated by the event must be removed from the site and disposed of at a waste management facility capable of taking the waste.
- (10) Trees, landscaping and buildings established on the land and on adjoining land must not be damaged as a result of the event.
- (11) Any land disturbed by the event must be subject to sedimentation controls before the disturbance. These controls must be effectively maintained to prevent soil erosion, water pollution or the discharge of loose sediment on to surrounding land until the site has been stabilised and landscaped.
- (12) In the event of an incident on the premises that has caused, is causing, or is likely to cause harm to the environment, the owner or the owner's agent must report the incident to Council as soon as it becomes known to the owner or the owner's agent.
- (13) Notification must be given to the NSW Police, the NSW Rural Fire Service and the Ambulance Service of NSW at least 7 days before the event starts.

## Dictionary

(Clause 1.4)

**Aboriginal object** means any deposit, object or other material evidence (not being a handicraft made for sale) relating to the Aboriginal habitation of an area of New South Wales, being habitation before or concurrent with (or both) the occupation of that area by persons of non-Aboriginal extraction, and includes Aboriginal remains.

**Aboriginal place of heritage significance** means an area of land, the general location of which is identified in an Aboriginal heritage study adopted by the Council after public exhibition and that may be shown on the [Heritage Map](#), that is:

- (a) the site of one or more Aboriginal objects or a place that has the physical remains of pre-European occupation by, or is of contemporary significance to, the Aboriginal people. It may (but need not) include items and remnants of the occupation of the land by Aboriginal people, such as burial places, engraving sites, rock art, midden deposits, scarred and sacred trees and sharpening grooves, or
- (b) a natural Aboriginal sacred site or other sacred feature. It includes natural features such as creeks or mountains of long-standing cultural significance, as well as initiation, ceremonial or story places or areas of more contemporary cultural significance.

### Note—

The term may include (but is not limited to) places that are declared under section 84 of the [National Parks and Wildlife Act 1974](#) to be Aboriginal places for the purposes of that Act.

**acid sulfate soils** means naturally occurring sediments and soils containing iron sulfides (principally pyrite) or their precursors or oxidation products, whose exposure to oxygen leads to the generation of sulfuric acid (for example, by drainage or excavation).

**Acid Sulfate Soils Manual** means the manual by that name published by the Acid Sulfate Soils Management Advisory Committee and made publicly available.

**advertisement** has the same meaning as in the Act.

### Note—

The term is defined as a sign, notice, device or representation in the nature of an advertisement visible from any public place or public reserve or from any navigable water.

**advertising structure** has the same meaning as in the Act.

### Note—

The term is defined as a structure used or to be used principally for the display of an advertisement.

Advertising structures are a type of **signage**—see the definition of that term in this Dictionary.

**affordable housing** has the same meaning as in the Act.

### Note—

The term is defined as housing for very low income households, low income households or moderate income households, being such households as are prescribed by the regulations or as are provided for in an environmental planning instrument.

**agricultural produce industry** means a building or place used for the handling, treating, processing or packing, for commercial purposes, of produce from agriculture (including dairy products, seeds, fruit, vegetables or other plant material), and includes wineries, flour mills, cotton seed oil plants, cotton gins, feed mills, cheese and butter factories, and juicing or canning plants, but does not include a livestock processing industry.

**Note—**

Agricultural produce industries are a type of **rural industry**—see the definition of that term in this Dictionary.

**agriculture** means any of the following:

- (a) aquaculture,
- (b) extensive agriculture,
- (c) intensive livestock agriculture,
- (d) intensive plant agriculture.

**Note—**

Part 6 of the [Plantations and Reafforestation Act 1999](#) provides that exempt farm forestry within the meaning of that Act is not subject to the [Environmental Planning and Assessment Act 1979](#).

**air transport facility** means an airport or a heliport that is not part of an airport, and includes associated communication and air traffic control facilities or structures.

**airport** means a place that is used for the landing, taking off, parking, maintenance or repair of aeroplanes, and includes associated buildings, installations, facilities and movement areas and any heliport that is part of the airport.

**Note—**

Airports are a type of **air transport facility**—see the definition of that term in this Dictionary.

**airstrip** means a single runway for the landing, taking off or parking of aeroplanes for private aviation only, but does not include an airport, heliport or helipad.

**amusement centre** means a building or place (not being part of a pub or registered club) used principally for playing:

- (a) billiards, pool or other like games, or
- (b) electronic or mechanical amusement devices, such as pinball machines, computer or video games and the like.

**animal boarding or training establishment** means a building or place used for the breeding, boarding, training, keeping or caring of animals for commercial purposes (other than for the agistment of horses), and includes any associated riding school or ancillary veterinary hospital.

**aquaculture** has the same meaning as in the [Fisheries Management Act 1994](#).

**Note—**

Aquaculture is a type of **agriculture**—see the definition of that term in this Dictionary.

**archaeological site** means a place that contains one or more relics.

**attached dwelling** means a building containing 3 or more dwellings, where:

- (a) each dwelling is attached to another dwelling by a common wall, and
- (b) each of the dwellings is on its own lot of land, and
- (c) none of the dwellings is located above any part of another dwelling.

**Note—**

Attached dwellings are a type of **residential accommodation**—see the definition of that term in this Dictionary.

**attic** means any habitable space, but not a separate dwelling, contained wholly within a roof above the ceiling line of the storey immediately below, except for minor elements such as dormer windows and the like.

**backpackers' accommodation** means a building or place that:

- (a) provides temporary or short-term accommodation on a commercial basis, and
- (b) has shared facilities, such as a communal bathroom, kitchen or laundry, and
- (c) provides accommodation on a bed or dormitory-style basis (rather than by room).

**Note—**

Backpackers' accommodation is a type of **tourist and visitor accommodation**—see the definition of that term in this Dictionary.

**basement** means the space of a building where the floor level of that space is predominantly below ground level (existing) and where the floor level of the storey immediately above is less than 1 metre above ground level (existing).

**bed and breakfast accommodation** means an existing dwelling in which temporary or short-term accommodation is provided on a commercial basis by the permanent residents of the dwelling and where:

- (a) meals are provided for guests only, and
- (b) cooking facilities for the preparation of meals are not provided within guests' rooms, and
- (c) dormitory-style accommodation is not provided.

**Note—**

See clause 5.4 for controls relating to the number of bedrooms for bed and breakfast accommodation.

Bed and breakfast accommodation is a type of **tourist and visitor accommodation**—see the definition of that term in this Dictionary.

**bee keeping** means a building or place used for the keeping and breeding of bees for commercial purposes.

**Note—**

Bee keeping is a type of **extensive agriculture**—see the definition of that term in this Dictionary.

**biodiversity** means biological diversity.

**biological diversity** has the same meaning as in the *Threatened Species Conservation Act 1995*.

**Note—**

The term is defined as follows:

**biological diversity** means the diversity of life and is made up of the following 3 components:

- (a) genetic diversity—the variety of genes (or units of heredity) in any population,
- (b) species diversity—the variety of species,
- (c) ecosystem diversity—the variety of communities or ecosystems.

**biosolids treatment facility** means a building or place used as a facility for the treatment of biosolids from a sewage treatment plant or from a water recycling facility.

**Note—**

Biosolids treatment facilities are a type of **sewerage system**—see the definition of that term in this Dictionary.

**boarding house** means a building that:

- (a) is wholly or partly let in lodgings, and
- (b) provides lodgers with a principal place of residence for 3 months or more, and
- (c) may have shared facilities, such as a communal living room, bathroom, kitchen or laundry, and
- (d) has rooms, some or all of which may have private kitchen and bathroom facilities, that accommodate one or more lodgers,

but does not include backpackers' accommodation, a group home, hotel or motel accommodation, seniors housing or a serviced apartment.

**Note—**

Boarding houses are a type of **residential accommodation**—see the definition of that term in this Dictionary.

**boat building and repair facility** means any facility (including a building or other structure) used primarily for the construction, maintenance or repair of boats, whether or not including the storage, sale or hire of boats, but does not include a marina or boat shed.

**boat launching ramp** means a structure designed primarily for the launching of trailer borne recreational vessels, and includes associated car parking facilities.

**boat shed** means a building or other structure used for the storage and routine maintenance of a boat or boats and that is associated with a private dwelling or non-profit organisation, and includes any skid used in connection with the building or other structure.

**brothel** has the same meaning as in the Act.

**Note—**

This definition is relevant to the definitions of **home occupation (sex services)** and **sex services premises** in this Dictionary.

**building** has the same meaning as in the Act.

**Note—**

The term is defined to include part of a building and any structure or part of a structure, but not including a manufactured home, a moveable dwelling or associated structure (or part of a manufactured home, moveable dwelling or associated structure).

**building height (or height of building)** means the vertical distance between ground level (existing) and the highest point of the building, including plant and lift overruns, but excluding communication devices, antennae, satellite dishes, masts, flagpoles, chimneys, flues and the like.

**building identification sign** means a sign that identifies or names a building and that may include the name of a building, the street name and number of a building, and a logo or other symbol but does not include general advertising of products, goods or services.

**Note—**

Building identification signs are a type of **signage**—see the definition of that term in this Dictionary.

**building line** or **setback** means the horizontal distance between the property boundary or other stated boundary (measured at 90 degrees from the boundary) and:

- (a) a building wall, or
- (b) the outside face of any balcony, deck or the like, or
- (c) the supporting posts of a carport or verandah roof,

whichever distance is the shortest.

**bulky goods premises** means a building or place the principal purpose of which is the sale, hire or display of bulky goods, being goods that are of such size or weight as to require:

- (a) a large area for handling, display or storage, and
- (b) direct vehicular access to the site of the building or place by members of the public for the purpose of loading or unloading such goods into or from their vehicles after purchase or hire,

and including goods such as floor and window supplies, furniture, household electrical goods, equestrian supplies and swimming pools, but does not include a building or place used for the sale of foodstuffs or clothing unless their sale is ancillary to the sale or hire or display of bulky goods.

**Note—**

Bulky goods premises are a type of **retail premises**—see the definition of that term in this Dictionary.

**bush fire hazard reduction work** has the same meaning as in the [Rural Fires Act 1997](#).

**Note—**

The term is defined as follows:

**bush fire hazard reduction work** means:

- (a) the establishment or maintenance of fire breaks on land, and
- (b) the controlled application of appropriate fire regimes or other means for the reduction or modification of available fuels

within a predetermined area to mitigate against the spread of a bush fire,

but does not include construction of a track, trail or road.

**bush fire prone land** has the same meaning as in the Act.

**Note—**

The term is defined, in relation to an area, as land recorded for the time being as bush fire prone land on a map for the area certified as referred to in section 146 (2) of the Act.

**bush fire risk management plan** means a plan prepared under Division 4 of Part 3 of the [Rural Fires Act 1997](#) for the purpose referred to in section 54 of that Act.

**business identification sign** means a sign:

(a) that indicates:

(i) the name of the person or business, and

(ii) the nature of the business carried on by the person at the premises or place at which the sign is displayed, and

(b) that may include the address of the premises or place and a logo or other symbol that identifies the business,

but that does not contain any advertising relating to a person who does not carry on business at the premises or place.

**Note—**

Business identification signs are a type of **signage**—see the definition of that term in this Dictionary.

**business premises** means a building or place at or on which:

(a) an occupation, profession or trade (other than an industry) is carried on for the provision of services directly to members of the public on a regular basis, or

(b) a service is provided directly to members of the public on a regular basis,

and includes a funeral home and, without limitation, premises such as banks, post offices, hairdressers, dry cleaners, travel agencies, internet access facilities, betting agencies and the like, but does not include an entertainment facility, home business, home occupation, home occupation (sex services), medical centre, restricted premises, sex services premises or veterinary hospital.

**Note—**

Business premises are a type of **commercial premises**—see the definition of that term in this Dictionary.

**camping ground** means an area of land that has access to communal amenities and on which campervans or tents, annexes or other similar portable and lightweight temporary shelters are, or are to be, installed, erected or placed for short term use, but does not include a caravan park.

**canal estate development** means development that incorporates wholly or in part a constructed canal, or other waterway or waterbody, that is inundated by or drains to a natural waterway or natural waterbody by surface water or groundwater movement (not being works of drainage, or for the supply or treatment of water, that are constructed by or with the authority of a person or body responsible for

those functions and that are limited to the minimal reasonable size and capacity to meet a demonstrated need for the works), and that either:

- (a) includes the construction of dwellings (which may include tourist and visitor accommodation) of a kind other than, or in addition to:
  - (i) dwellings that are permitted on rural land, and
  - (ii) dwellings that are used for caretaker or staff purposes, or
- (b) requires the use of a sufficient depth of fill material to raise the level of all or part of that land on which the dwellings are (or are proposed to be) located in order to comply with requirements relating to residential development on flood prone land.

**car park** means a building or place primarily used for the purpose of parking motor vehicles, including any manoeuvring space and access thereto, whether operated for gain or not.

**caravan park** means land (including a camping ground) on which caravans (or caravans and other moveable dwellings) are, or are to be, installed or placed.

**catchment action plan** has the same meaning as in the [Catchment Management Authorities Act 2003](#).

**Note—**

The term is defined as a catchment action plan of an authority that has been approved by the Minister under Part 4 of the [Catchment Management Authorities Act 2003](#).

**cellar door premises** means a building or place that is used to sell wine by retail and that is situated on land on which there is a commercial vineyard, and where most of the wine offered for sale is produced in a winery situated on that land or is produced predominantly from grapes grown in the surrounding area.

**Note—**

Cellar door premises are a type of **retail premises**—see the definition of that term in this Dictionary.

**cemetery** means a building or place used primarily for the interment of deceased persons or pets or their ashes, whether or not it contains an associated building for conducting memorial services.

**charter and tourism boating facility** means any facility (including a building or other structure) used for charter boating or tourism boating purposes, being a facility that is used only by the operators of the facility and that has a direct structural connection between the foreshore and the waterway, but does not include a marina.

**child care centre** means a building or place used for the supervision and care of children that:

- (a) provides long day care, pre-school care, occasional child care or out-of-school-hours care, and
- (b) does not provide overnight accommodation for children other than those related to the owner or operator of the centre,

but does not include:

- (c) a building or place used for home-based child care, or

- (d) an out-of-home care service provided by an agency or organisation accredited by the Children's Guardian, or
- (e) a baby-sitting, playgroup or child-minding service that is organised informally by the parents of the children concerned, or
- (f) a service provided for fewer than 5 children (disregarding any children who are related to the person providing the service) at the premises at which at least one of the children resides, being a service that is not advertised, or
- (g) a regular child-minding service that is provided in connection with a recreational or commercial facility (such as a gymnasium), by or on behalf of the person conducting the facility, to care for children while the children's parents are using the facility, or
- (h) a service that is concerned primarily with the provision of:
  - (i) lessons or coaching in, or providing for participation in, a cultural, recreational, religious or sporting activity, or
  - (ii) private tutoring, or
- (i) a school, or
- (j) a service provided at exempt premises (within the meaning of Chapter 12 of the *Children and Young Persons (Care and Protection) Act 1998*), such as hospitals, but only if the service is established, registered or licensed as part of the institution operating on those premises.
