145BA Notification of outcomes of complaints to complainants [NSW]

- (1) This section applies to a Council for a health profession with respect to any of the following outcomes (a **notifiable outcome**) concerning complaints against health practitioners or students—
 - (a) if the Council deals with a complaint by inquiry at a meeting of the Council under section 145B (1) (e)—the result of the inquiry;
 - (b) if the Council refers a health practitioner (or a matter concerning the practitioner's health or professional performance) for assessment under section 145B (1) (f)—any action resulting from the assessment (including the imposition of conditions on the health practitioner's registration);
 - (c) a decision of the Council to take action under section 145B (1) (g), (h), (i) or

(j) in respect of a complaint.

- (2) The Council must give the complainant notice in writing of a notifiable outcome within 30 days after the outcome.
- (3) The Council may include such other information in the notice in addition to indicating the outcome as it considers appropriate.
- (4) However, the Council must not disclose confidential information in a notice unless it considers that the public interest in disclosing the information outweighs the public interest in protecting the confidentiality of the information and the privacy of any person to whom it relates.
- (5) For avoidance of doubt, section 145B (3) does not affect the obligation of a Council under this section to give notice of a notifiable outcome of the kind referred to in subsection (1) (b).

[5] Schedule 1 [15], section 150FA

Insert after section 150F:

150FA Critical impairment conditions [NSW]

- (1) This section applies if a Council imposes or alters a condition under this Law on the registration of a health practitioner because of the impairment of the practitioner.

Note—

In relation to the alteration of conditions—see, for example, section 152K.

- (2) The Council may order that a contravention of a condition on the registration of a health practitioner that it imposes or alters because of the impairment of the

practitioner will result in the contravention being referred to the Commission to be dealt with as a complaint against the practitioner. Any such condition is then a **critical impairment condition**.

- (3) If a Council for a health profession is satisfied a health practitioner registered in the profession has contravened a critical impairment condition—
 - (a) the Council must refer the matter to the Commission; and
 - (b) the matter may be dealt with by the Commission as a complaint made to the Commission against the practitioner.
- (4) If the Commission decides to deal with the matter as a complaint, the Commission must investigate the complaint or cause it to be investigated and, as soon as practicable after the investigation is completed, consult with the Council about how the matter is to be dealt with, including, for example, by referring the complaint to the Tribunal or a Committee for the health profession in which the health practitioner is registered.

Note—

See section 145D which provides that both a Council and the Commission have a duty to refer a complaint to the Tribunal if, at any time, either of them is of the opinion the complaint, if substantiated, would provide grounds for the suspension or cancellation of the health practitioner's or student's registration.

- (5) This section has effect despite anything to the contrary in this Law.

[6] Schedule 1 [15], section 176BA

Insert after section 176B:

 - (b) to alter or remove conditions that the Council has imposed on the practitioner's registration concerning the health, conduct or performance of the practitioner.

 - (b) responsible for ensuring the safety of patients at premises used by registered health practitioners of the kind concerned during the course of their work.
 - (7) If an employer or accreditor has not nominated a person to be the nominated information recipient for the purposes of subsection (5), the Council may, after consulting the employer or accreditor (and, if it considers it appropriate, the registered health practitioner concerned), provide information about the impairment to an agreed information recipient who is a person of a kind referred to in subsection (6) (a) or (b).
