Part 3 Facilitating authorised transactions

7 Treasurer's functions for the purposes of an authorised transaction

The Treasurer has and may exercise all such functions as are necessary or convenient for the purposes of an authorised transaction. The functions conferred on the Treasurer by any other provision of this Act do not limit the Treasurer's functions under this section.

- (1) A statutory State owned corporation may be established under this Act as a transaction SOC for the purposes of an authorised transaction.
- (2) The Governor may by order published in the Gazette:
 - (a) create a corporation under a corporate name specified in the order, and

 - (c) the State owned corporation thereby established is a transaction SOC for the purposes of this Act.
- (4) The portfolio Minister of a SOC established under this section is the Minister administering section 13 (Creation of additional energy services corporations) of the *Energy Services Corporations Act 1995*.

9 Transaction companies

- (5) Shares and other securities in a transaction company that is a public sector agency may be issued, sold or transferred in accordance with the directions of the Treasurer. The Treasurer may on behalf of the State, a SOC or a transaction company that is a public sector agency enter into and carry out transaction arrangements for the issue, sale or transfer of shares and other securities in a transaction company.
- (6) An electricity generator that becomes a transaction company remains an electricity generator for the purposes of this Act (despite ceasing to be a statutory State owned corporation constituted by the [Energy Services Corporations Act 1995](#)).

10 Functions of electricity generators and transaction entities

- (1) Each electricity generator and transaction entity has and may exercise all such functions as are necessary or convenient for the purposes of an authorised transaction.
- (2) The functions conferred by this section are in addition to any other functions that an electricity generator or transaction entity has apart from this section and those other functions do not prevent or otherwise limit the exercise of the additional functions conferred by this section.

- (3) The Treasurer may act for or on behalf of an electricity generator or transaction entity in the exercise of any of its functions for the purposes of an authorised transaction while it is a public sector agency.

11 Direction and control of electricity generators and transaction entities

Any such directions must be complied with by the electricity generator, the transaction entity or the directors or other officers concerned.
- (3) Directions to a transaction entity (or its directors and other officers) can only be given and are only required to be complied with while the transaction entity is a public sector agency.
- (4) The power to give directions under this section extends to directions with respect to the way in which an electricity generator or transaction entity is to conduct its business and other affairs.
- (5) Action taken by an electricity generator or transaction SOC to comply with a direction of the Treasurer under this Act does not require the approval of the voting shareholders or portfolio Minister of the corporation.
- (6) Anything done or omitted to be done by a director or other officer of an electricity generator or transaction entity in complying with a direction given by the Treasurer under this Act does not subject the director or officer personally to any action, liability, claim or demand.

The Treasurer may make vesting orders under Schedule 4 for the purposes of an authorised transaction.

14 Staff transfers

- (1) The Treasurer may, for the purposes of an authorised transaction, by order in writing, transfer the employment of an employee of an electricity generator (a **transferred employee**) to the employment of another public sector agency.
- (2) A transferred employee is (until other provision is duly made under any Act or law) to be employed in accordance with any relevant statutory provisions, awards, agreements and determinations that would have applied to the employee had the employee remained an employee of the electricity generator concerned.
- (3) On the transfer by order under this section of an employee's employment from one employer (**the current employer**) to another employer (**the new employer**) the following provisions have effect:
 - (a) the employee is entitled to continue as a contributor, member or employee for the purposes of any superannuation scheme in respect of which he or she was a contributor, member or employee (as an employee of the current employer) immediately before the transfer of employment and remains so entitled subject to any variation to that entitlement made either by agreement or otherwise in accordance with law,
 - (b) the new employer is taken to be an employer for the purposes of any

superannuation scheme in respect of which the employee continues as a contributor, member or employee pursuant to an entitlement under this section,

- (c) the continuity of the employee's contract of employment is taken not to have been broken by the transfer of employment, and service of the employee with the current employer (including service deemed to be service with the current employer) that is continuous service up to the time of transfer is taken for all purposes to be service with the new employer,
- (d) the employee retains any rights to sick leave, annual leave or long service leave accrued or accruing immediately before the transfer (except accrued leave for which the employee has, on ceasing to be an employee of the current employer, been paid the monetary value in pursuance of any other entitlement of the employee).

- (2) A transfer payment is not to exceed an amount equivalent to 30 weeks of pay at the rate of an employee's base salary (that is, salary less any allowances).
- (3) Without affecting any entitlement to a transfer payment under this section, an employee of an electricity generator is not entitled to receive any payment or other benefit (including in the nature of severance pay or redundancy compensation) merely because the employee ceased to be an employee of a public sector agency as a result of a transaction arrangement.

16 Employment guarantee for employees transferred to private sector and maintenance of apprenticeships

- (1) If the employment of an eligible employee of an electricity generator is transferred to employment in the private sector as a result of a transaction arrangement, the employment of the employee cannot be terminated by the private sector employer during the employee's employment guarantee period, except:

(3) The object of this subsection is to provide an additional job maintenance guarantee because the transfer of electricity generator assets under this Act is by way of sale. The standard period of 2 years is extended by an additional period of 2 years for eligible employees.
