Sutherland Shire Local Environmental Plan 2006

New South Wales

Part 1 Preliminary

1 Name of plan

This plan is *Sutherland Shire Local Environmental Plan 2006*.

2 Commencement

This plan commences on the day occurring 14 days after the date of its publication in the Gazette.

3 Aims of plan

The aims of this plan are as follows:

- (a) to enable the achievement of the community's vision for Sutherland Shire through the proper management, development and conservation of the Shire's environmental resources,
- (b) to describe the intended environmental outcomes that will result from the effective implementation of this plan,
- (c) to promote an appropriate balance of development and management of the environment that will be ecologically sustainable, socially equitable and economically viable,
- (d) to provide for appropriate land use controls that protect critical requirements relating to the use of Commonwealth land for defence purposes,
- (e) to establish a broad planning framework for controlling development in Sutherland Shire,
- (f) to conserve items of environmental heritage,
- (g) to preserve and enhance the quality of native vegetation and fauna,
- (h) to protect environmentally sensitive areas,
- (i) to conserve natural, indigenous and built heritage sites throughout Sutherland Shire,

- (j) to encourage development that is energy efficient and supports access by public transport, walking and cycling,
- (k) to provide opportunities for business interests to respond to the demands of the community for shopping and the provision of services,
- (l) to provide employment opportunities in Sutherland Shire,
- (m) to put in place a framework of controls to address current and future housing needs,
- (n) to allow for provision of community facilities and land for public purposes,
- (o) to preserve or enhance the quality of life of the local community,
- (p) to allow for improvements and appropriate additions to the recreational assets of Sutherland Shire.

4 Land to which plan applies

- (1) This plan applies to all land in Sutherland Shire, except for the following land:
 - (a) land to which *Sydney Regional Environmental Plan No 17—Kurnell Peninsula (1989)* applies,
 - (b) land identified on the map as “deferred matter”, being land that is excluded from this plan under section 68 (5) or 70 (4) of the Act,
 - (c) land identified on the map as “Excluded”.

Note—

The land identified on the map as “Excluded” comprises the following land:

- (a) certain land at West Menai,
 - (b) the land shown edged heavy black on the map marked “*Map 26: Woronora Emergency Access Road, between Bundanoon Road, and the Crescent*” in Schedule 7 to the former *Sutherland Shire Local Environmental Plan 2000*,
 - (c) the land shown with heavy edging on the map marked “*Map 32 Cronulla Sutherland Leagues Club, Captain Cook Drive*” in Schedule 7 to the former *Sutherland Shire Local Environmental Plan 2000*.
- (2) Despite subclause (1), Part 4 applies to the Heathcote Ridge West Menai site (within the meaning of that Part).

5 Definitions, notes and maps

- (1) The Dictionary at the end of this plan defines words and expressions for the purposes of this plan.
- (2) Notes in this plan are provided for guidance and do not form part of this plan.
- (3) A reference in this plan to a map is a reference to a map deposited in the office of the

Council, except as otherwise stated.

Note about references to publications—

This plan also contains references to various publications, including Australian Standards. See section 69 of the *Interpretation Act 1987* in relation to references to publications.

6 Consent authority

The consent authority for the purposes of this plan is (subject to the Act) the Council.

7 Repeal of other local environmental plans

(1) *Sutherland Local Environmental Plan—Menai Town Centre 1992* and *Sutherland Shire Local Environmental Plan 2000* are repealed.

(2) Despite subclause (1):

(a) *Sutherland Local Environmental Plan—Menai Town Centre 1992* and *Sutherland Shire Local Environmental Plan 2000*, as in force immediately before the commencement of this plan, continue to apply to land referred to in clause 4 (b) and (c) to the extent to which they applied to that land immediately before that commencement, and

(b) any development application lodged before the commencement of this plan, but not finally determined before its commencement, is to be determined as if this plan had been exhibited under section 66 of the Act but had not been made.

8 Application of SEPPs and REPs

(1) This plan is subject to the provisions of any State environmental planning policy and any regional environmental plan that prevail over this plan as provided by section 36 of the Act.

(2) *State Environmental Planning Policy No 1—Development Standards (SEPP 1)* does not apply to any provisions of this plan other than the provisions referred to in subclause (3).

(3) SEPP 1 applies to the following provisions of this plan in the same way as SEPP 1 applies to development standards:

(a) clause 33 (4), (6)–(9) and (11)–(16) (relating to the height of buildings),

(b) clause 34 (3)–(6) (relating to the height of seniors housing on land in certain zones),

(c) clause 35 (5)–(13) (relating to building density),

(d) clause 36 (3)–(9) (relating to the area of landscaping in connection with development for the purpose of buildings),

- (e) clause 39 (2) (relating to lot sizes for dwelling houses),
 - (f) clause 40 (4) and (5) (relating to lot sizes for dual occupancies, including the subdivision of land on which there is a dual occupancy),
 - (g) clause 41 (4) and (5) (relating to lot sizes for villa houses, townhouses and residential flat buildings),
 - (h) clause 42 (1) (relating to lot sizes for seniors housing).
- (4) *State Environmental Planning Policy No 9—Group Homes* does not apply to land to which this plan applies.
- (5) (Repealed)

9 Suspension of covenants and agreements

- (1) For the purpose of enabling development to be carried out in accordance with this plan or in accordance with a development consent, any agreement, covenant or other similar instrument, to the extent necessary to serve that purpose, does not apply to the development.
- (2) This clause does not apply to land in the following zones under this plan:
- (a) Zone 1—Environmental Housing (Environmentally Sensitive Land),
 - (b) Zone 2—Environmental Housing (Scenic Quality),
 - (c) Zone 3—Environmental Housing (Bushland),
 - (d) Zone 4—Local Housing,
 - (e) Zone 5—Multiple Dwelling A,
 - (f) Zone 6—Multiple Dwelling B.
- (3) This clause does not apply to:
- (a) a covenant imposed by the Council or that the Council requires to be imposed, or
 - (b) any prescribed instrument within the meaning of section 183A of the *Crown Lands Act 1989*, or
 - (c) any conservation agreement within the meaning of the *National Parks and Wildlife Act 1974*, or
 - (d) any Trust agreement within the meaning of the *Nature Conservation Trust Act 2001*, or
 - (e) a covenant imposed in respect of land at Alford's Point, Barden Ridge, Bangor,

Bonnet Bay, Illawong, Lucas Heights, Menai, Woronora Heights or Sylvania Waters to the extent that the covenant restricts the erection of front fences on the land, or

(f) a covenant imposed in respect of land facing the waterway at Sylvania Waters to the extent that the covenant restricts the erection of fences between the rear of any dwelling on the land and the waterway.

(4) This clause does not affect the rights or interests of any public authority under any agreement, covenant or other similar instrument.

(5) In accordance with section 28 of the Act, the Governor:

(a) approved of subclause (1) before this plan was made, and

(b) approved of Schedule 1 [5] to *Sutherland Shire Local Environmental Plan 2006 (Amendment No 14)* (to the extent that it provided for the application of this clause to land to which this clause did not apply before the commencement of Schedule 1 [5]) before *Sutherland Shire Local Environmental Plan 2006 (Amendment No 14)* was made.

11 Zoning Table

The Table to this clause specifies the following for each zone:

- (a) the objectives of the zone,
- (b) development that may be carried out without consent,
- (c) development that may be carried out only with consent,
- (d) development that is prohibited.

Table

Zone 1—Environmental Housing (Environmentally Sensitive Land)

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to allow development of a scale and nature that:
 - (i) complements the natural landscape setting of the zone, and
 - (ii) protects and conserves existing vegetation and other natural

features of the zone,

- (b) to limit development in the vicinity of the waterfront so that the environment's natural qualities can dominate,
- (c) to minimise the risk to life, property and the environment by restricting the type, or level and intensity, of development on land that is subject to either natural or man-made hazards,
- (d) to minimise the impacts of development in the vicinity of heritage items,
- (e) to allow the subdivision of land only where the size of the resulting lots makes them capable of development that will not compromise the sensitive nature of the environment,
- (f) to ensure sharing of waterfront views between occupiers and users of new and existing buildings.

2 Development allowed without consent

Development for the purpose of:

bush fire hazard reduction work, bushland regeneration.

Exempt development.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose of:

boatsheds, childcare centres, community facilities, drainage, dual occupancies, dwelling houses, places of public worship, recreation areas, residential medical practices, roads, utility installations (except gas holders or generating works).

Demolition not included in item 2.

4 Prohibited development

Any development not included in item 2 or 3.

Zone 2—Environmental Housing (Scenic Quality)

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to allow development that complements the predominantly urban landscape setting of the zone, characterised by dwelling houses on single lots of land,
- (b) to ensure the character of the zone, as one comprised predominantly of dwelling houses, is not diminished by the cumulative impacts of development,
- (c) to allow development that is of a scale and nature that is consistent with the urban surroundings of the zone, while retaining or restoring natural features,
- (d) to protect existing vegetation and other natural features of the zone and encourage appropriate bushland restoration,
- (e) to minimise the risk to life, property and the environment by restricting the type, or level and intensity, of development on land that is subject to either natural or man-made hazards,
- (f) to minimise the impacts of development in the vicinity of heritage items,
- (g) to allow the subdivision of land only where the size of the resulting lots makes them capable of development that retains or restores natural features, while allowing a sufficient area for building footprints,
- (h) to ensure sharing of waterfront views between occupiers and users of new and existing buildings.

2 Development allowed without consent

Development for the purpose of:

bush fire hazard reduction work, bushland regeneration.

Exempt development.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose of:

boatsheds, childcare centres, community facilities, drainage, dual occupancies, dwelling houses, places of public worship, recreation areas, residential medical practices, roads, tennis courts (private), utility installations (except gas holders or generating works).

Demolition not included in item 2.

4 Prohibited development

Any development not included in item 2 or 3.

Zone 3—Environmental Housing (Bushland)

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to minimise the risk to life, property and the environment from bush fire,
- (b) to allow development that is of a scale and nature that complements the natural surroundings of the zone,
- (c) to protect or restore existing bushland and other natural features,
- (d) to ensure the character of the zone, as one comprised predominantly of dwelling houses, is not diminished by the cumulative impacts of development,
- (e) to minimise the impacts of development in the vicinity of heritage items,
- (f) to allow the subdivision of land only where the size of the resulting lots makes them capable of development that retains or restores natural features, while allowing a sufficient area for building footprints and bush fire protection measures.

2 Development allowed without consent

Development for the purpose of:

bush fire hazard reduction work, bushland regeneration.

Exempt development.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose of:

drainage, dual occupancies, dwelling houses, places of public worship, recreation areas, residential medical practices, roads, tennis courts (private), utility installations (except gas holders or generating works).

Demolition not included in item 2.

4 Prohibited development

Any development not included in item 2 or 3.

Zone 4—Local Housing

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to allow low density residential buildings that complement the predominantly urban landscape setting of the zone, characterised by dwelling houses on single lots of land,
- (b) to ensure the character of the zone, as one comprised predominantly of dwelling houses, is not diminished by the cumulative impacts of development,
- (c) to allow development that is of a scale and nature that preserves the streetscape and neighbourhood character of the zone,
- (d) to allow residential buildings that provide a variety of housing choices for the needs of the local community,
- (e) to allow non-residential buildings that provide necessary services to the local community without adversely affecting the residential amenity of the zone.

2 Development allowed without consent

Development for the purpose of:

bush fire hazard reduction work, drainage.

Exempt development.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose of:

boarding houses, childcare centres, community facilities, dual occupancies, dwelling houses, educational establishments, high technology medical industries (but only on land identified on the map for

such a purpose), medical facilities (but only on land identified on the map for such a purpose), places of public worship, recreation areas, residential medical practices, roads, seniors housing, tennis courts (private), townhouses (except on internal lots), utility installations (except gas holders or generating works), villa houses (except on internal lots).

Demolition not included in item 2.

4 Prohibited development

Any development not included in item 2 or 3.

Zone 5—Multiple Dwelling A

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to allow multiple dwellings that complement the predominantly urban landscape setting of the zone,
- (b) to allow development that is of a scale and nature that provides a transition from Zone 4—Local Housing,
- (c) to permit development on land at a density that is appropriate in terms of the land's proximity to services, facilities, employment opportunities and public transport,
- (d) to provide a range of housing choices in accessible locations.

2 Development allowed without consent

Development for the purpose of drainage.

Exempt development.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose of:

backpackers' accommodation, boarding houses, childcare centres, community facilities, dual occupancies, dwelling houses, places of public worship, recreation areas, residential medical practices, roads, seniors housing, tennis courts (private), townhouses, utility installations (except for gas holders or generating works), villa houses.

Demolition not included in item 2.

4 Prohibited development

Any development not included in item 2 or 3.

Zone 6—Multiple Dwelling B

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to allow residential flat buildings in a form that complements the predominantly urban landscape setting of the zone,
- (b) to allow development that is of a scale and nature that reflects its position as part of an urban centre,
- (c) to permit development on land at a density that is appropriate in terms of the land's proximity to the retail/commercial centre, public transport, services and employment opportunities,
- (d) to provide a range of housing choices in accessible locations.

2 Development allowed without consent

Development for the purpose of drainage.

Exempt development.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose of:

backpackers' accommodation, boarding houses, childcare centres, community facilities, dwelling houses, places of public worship, recreation areas, residential flat buildings, residential medical practices, roads, seniors housing, tennis courts (private), townhouses, utility installations (except for gas holders or generating works), villa houses.

Demolition not included in item 2.

4 Prohibited development

Any development not included in item 2 or 3.

Zone 7—Mixed Use—Kirrawee

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to take advantage of the zone's access and profile from the Princes Highway,
- (b) to create development that mixes employment activities within a liveable urban environment,
- (c) to encourage high employment-generating development that encompasses high technology industries, commercial display centres and light industries compatible with the existing locality and adjoining residential buildings,
- (d) to allow the zone to support a live-and-work culture that provides for local employment and acts as a transition between employment activity and strict residential uses in the surrounding neighbourhood,
- (e) to permit light industrial uses that are compatible with the desired future residential amenity of the zone,
- (f) to ensure the design of all residential buildings is of a high architectural quality and all residential buildings have an attractive streetscape setting,
- (g) to ensure development is carried out in a way that addresses the street concerned (achieving an attractive and vibrant streetscape) and reinforces surveillance of the public domain,
- (h) to make provision for a prestigious gateway development capable of employing a substantial workforce,
- (i) to provide a substantial area of public open space for employees, residents and the local community,
- (j) to facilitate the re-vitalisation of the Kirrawee Town Centre and the Kirrawee railway station precinct,
- (k) to ensure any expansion of retail activity within the zone maintains the role and function of Kirrawee Town Centre and does not adversely impact on the sustainability of other centres in the Sutherland Shire,

- (l) to ensure any new shops integrate with and support the existing Kirrawee Town Centre,
- (m) to ensure development is compatible with, and does not adversely impact on, the amenity of the surrounding residential area, particularly in terms of air pollutants, noise emissions and visual effects.

2 Development allowed without consent

Development for the purpose of drainage.

Exempt development.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose of:

advertisements, arts and crafts centres, awnings, backpackers' accommodation, boarding houses, building identification signs, business premises, car parks, childcare centres, community facilities, educational establishments, entertainment facilities, food shops, high technology industries, hotels, light industries, medical facilities, mixed use premises, motels, places of assembly, places of public worship, recreation areas, recreation facilities, registered clubs, residential flat buildings, restaurants, roads, seniors housing, service support industries, shop-top housing, shops, tourist facilities, utility installations (except for gas holders or generating works), vehicle and mechanical repair premises, warehouses.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose of:

advertisements, animal boarding or training establishments (not including a riding school), arts and crafts centres, awnings, brothels, bulky goods premises (but only on land identified on the map for such a purpose), bus depots, business identification signs, car parks, childcare centres, community facilities, convenience stores, dwelling houses ancillary to other permissible uses, food shops, generating works, high technology industries, industries, junk yards, liquid fuel depots, maritime activities, motor showrooms, nightclubs, passenger transport facilities, places of public worship, recreation areas, recreation facilities, registered clubs, repair centres, road transport terminals, roads, service stations, service support industries, sex shops, utility installations, vehicle and mechanical repair premises, vehicle rental centres, veterinary hospitals, warehouses, waste recycling and management centres.

Demolition not included in item 2.

4 Prohibited development

Any development not included in item 2 or 3.

Zone 12—Special Uses

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to provide for a range of community facilities and services to meet the needs of the community,
- (b) to allow for development by public authorities,
- (c) to provide for a variety of development in accordance with local educational, religious or similar community demand,
- (d) to ensure the scale and nature of new development is compatible with the surrounding urban form and natural setting of the zone,
- (e) to recognise critical requirements, as identified by the Commonwealth, relating to the use of Commonwealth land for defence purposes.

2 Development allowed without consent

Development for the purpose of:

bush fire hazard reduction work, drainage.

Exempt development.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose of:

the particular use indicated in respect of land by lettering on the map, advertisements, car parks, childcare centres, community facilities, educational establishments, public hospitals, recreation areas, roads, utility installations (except for gas holders or generating works), waste recycling and management centres.

Demolition not included in item 2.

4 Prohibited development

Any development not included in item 2 or 3.

Zone 13—Public Open Space

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to enable development of land for open space and recreation purposes,

- (b) to provide active and passive open space, allowing for a range of recreational activities and facilities that meet the needs of all ages in the community,
- (c) to enable development ancillary to the primary legal use of land that will encourage the enjoyment of land in the zone,
- (d) to preserve public open space that enhances the scenic and environmental quality of Sutherland Shire.

2 Development allowed without consent

Development for the purpose of:

bush fire hazard reduction work, bushland regeneration, drainage.

Exempt development.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose of:

beach and foreshore protection works (if carried out by a public authority and authorised by a plan of management under the [Local Government Act 1993](#)), buildings used in association with landscaping or gardening (including vehicular access to those buildings), cycle access, pedestrian access, recreation areas, recreation facilities, roads, scientific research associated with native habitats, utility installations (except for gas holders or generating works).

Demolition not included in item 2.

Development (if authorised by a plan of management under the [Local Government Act 1993](#)), other than development included in item 2, for the purpose of:

arts and crafts centres, community facilities, food shops, passenger transport facilities, places of assembly, restaurants, tourist facilities, tourist information centres.

4 Prohibited development

Any development not included in item 2 or 3.

Zone 14—Public Open Space (Bushland)

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to enable development that facilitates recreation and preserves natural bushland areas located on publicly owned land,
- (b) to allow development that does not adversely affect natural bushland or wildlife corridors,
- (c) to protect public open space that is of environmental significance,
- (d) to ensure that flora and fauna habitats are protected and preserved for their aesthetic, educational and scientific value.

2 Development allowed without consent

Development for the purpose of:

bush fire hazard reduction work, bushland regeneration.

Exempt development.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose of:

beach and foreshore protection works (if carried out by a public authority and authorised by a plan of management under the [Local Government Act 1993](#)), buildings used in association with landscaping or gardening (including vehicular access to those buildings), drainage, recreation areas, scientific research associated with native habitats, utility installations (except for gas holders or generating works).

Demolition not included in item 2.

Development (if authorised by a plan of management under the [Local Government Act 1993](#)), other than development included in item 2, for the purpose of:

cycle access, educational facilities (including signage), pedestrian access, roads.

4 Prohibited development

Any development not included in item 2 or 3.

Zone 15—Private Recreation

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to identify areas of privately owned land for recreational purposes to meet local and regional community needs, such as bowling clubs, golf courses and tennis courts,
- (b) to allow development that is of a scale and density that reflects the nature of the recreational use of the zone,
- (c) to allow buildings to be erected that are of a height, scale, density and nature compatible with the surrounding urban form and natural setting of the zone.

2 Development allowed without consent

Development for the purpose of:

bush fire hazard reduction work, drainage.

Exempt development.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose of:

animal boarding or training establishments, buildings used in association with landscaping or gardening (including vehicular access to those buildings), maintenance dredging, marinas, passenger transport facilities, places of assembly, recreation areas, recreation facilities, registered clubs, restaurants, roads, tourist facilities, utility installations (except for gas holders or generating works), watercraft facilities.

Demolition not included in item 2.

4 Prohibited development

Any development not included in item 2 or 3.

Zone 16—Environmental Protection (Waterways)

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to recognise the importance of the waterways of Sutherland Shire as an environmental and recreational asset,
- (b) to ensure development is carried out in a way that protects the ecology, scenic value or navigability of the waterways,
- (c) to ensure aquatic environments are not adversely affected by the recreational use of the waterways,
- (d) to allow private development only where it does not reduce or hinder the use of public beaches, intertidal areas or the waterways,
- (e) to provide for viable aquaculture in the waterways.

2 Development allowed without consent

Development for the purpose of:

beach and foreshore protection works by or on behalf of the Council (if authorised by a plan of management under the [Local Government Act 1993](#)), moorings.

Development by or on behalf of (or authorised by) the Maritime Authority of NSW for the purpose of:

maintenance dredging of navigation channels or access channels that provide water access to a lawful commercial, recreational or public facility, navigation aids.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose of:

aquaculture, beach and foreshore protection works (if carried out by a public authority and authorised by a plan of management under the [Local Government Act 1993](#)), berthing areas, ferry operations, marinas, passenger transport facilities, public pedestrian access to facilitate recreational use of the waterway, scientific research associated with native habitats, utility installations (except for gas holders or generating

works), watercraft facilities, wildlife refuges.

Demolition not included in item 2.

4 Prohibited development

Any development not included in item 2 or 3.

Zone 17—Environmental Protection (Low Impact Rural)

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to preserve valuable bushland that is not suitable for urban development,
- (b) to allow low impact rural and agricultural development that does not have an adverse impact on the natural environment,
- (c) to protect native flora and fauna and wildlife corridors,
- (d) to preserve the scenic value of the zone,
- (e) to maintain the ecological integrity of land in the zone,
- (f) to limit encroaching non-native vegetation,
- (g) to allow development for the purpose of agriculture that is compatible with the natural qualities of the area,
- (h) to ensure habitats are protected for their aesthetic, educational and scientific value as part of Sutherland Shire's natural heritage.

2 Development allowed without consent

Development for the purpose of:

bush fire hazard reduction work (including allowing vehicular access for emergency services vehicles and other vehicles requiring emergency access), bushland regeneration, drainage.

Exempt development.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose

of:

apiculture, dwelling houses ancillary to another permissible use, pedestrian access to facilitate the recreational use of the land concerned, roads, scientific research associated with native habitats, utility installations (except for gas holders or generating works), wildlife refuges.

Demolition not included in item 2.

4 Prohibited development

Any development not included in item 2 or 3.

Zone 18—Environmental Protection (Water Catchment)

1 Objective of the zone

To ensure development in the Woronora Water Catchment is restricted to prevent contamination of the water supply from within the Catchment.

2 Development allowed without consent

Development for the purpose of:

drainage, roads.

Development for any purpose authorised by or under the [Water NSW Act 2014](#).

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose of:

utility installations (except for gas holders or generating works).

4 Prohibited development

Any development not included in item 2 or 3.

Zone 19—Aquatic Reserves

Note—

Under section 197C of the [Fisheries Management Act 1994](#), a consent authority must take into account matters specified in that section when determining a development application for development in an aquatic reserve. In addition, the consent authority may consent to such development only with the concurrence of the Minister administering that Act.

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to conserve marine areas of natural, ecological, scenic, educational, scientific, cultural or historical importance,
- (b) to identify land in Sutherland Shire that is an aquatic reserve under the *Fisheries Management Act 1994*.

2 Development allowed without consent

Development for the purpose of beach and foreshore protection works by or on behalf of the Council (if authorised by a plan of management under the *Local Government Act 1993*).

Development by or on behalf of the Maritime Authority of NSW for the purpose of:

maintenance dredging of navigation channels or access channels that provide water access, navigation aids.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose of:

scientific research associated with native habitats, utility installations (except for gas holders or generating works), wildlife refuges.

Demolition not included in item 2.

4 Prohibited development

Any development not included in item 2 or 3.

Zone 20—National Parks, Nature Reserves and State Conservation Areas

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to conserve areas of natural, ecological, scenic, educational, scientific, cultural or historical importance to the State,
- (b) to identify land in Sutherland Shire that is or is to be reserved under the *National Parks and Wildlife Act 1974*.

2 Development allowed without consent

Any development authorised by or under the *National Parks and Wildlife Act 1974*.

3 Development allowed only with consent

Nil.

4 Prohibited development

Any development not included in item 2.

Zone 21—Railway

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to provide land for railway purposes to meet current and future public transport needs,
- (b) to provide for the upgrade, expansion and improvement of rail infrastructure.

2 Development allowed without consent

Development for the purpose of:

bush fire hazard reduction work, cycle access, drainage, pedestrian access, railways.

Exempt development.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose of:

community facilities, passenger transport facilities, recreation areas, roads, utility installations (except for gas holders or generating works).

Demolition not included in item 2.

4 Prohibited development

Any development not included in item 2 or 3.

Zone 22—Arterial Road

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to provide for an arterial road network to serve Sutherland Shire and the Sydney region,
- (b) to provide for sustainable transport modes.

2 Development allowed without consent

Development for the purpose of:

bush fire hazard reduction work, cycle access, drainage, pedestrian access, roads.

Exempt development.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose of:

awnings, car parks, passenger transport facilities, recreation areas, utility installations (except for gas holders or generating works).

Demolition not included in item 2.

4 Prohibited development

Any development not included in item 2 or 3.

Zone 23—Road

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to provide a road network to serve the local and regional needs of the community,
- (b) to provide facilities to serve the needs of cyclists, pedestrians, buses and motor vehicles,
- (c) to provide for sustainable transport modes.

2 Development allowed without consent

Development for the purpose of:

bush fire hazard reduction work, cycle access, drainage, pedestrian access, roads.

Exempt development.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose of:

awnings, passenger transport facilities, recreation areas, utility installations (except for gas holders or generating works).

Demolition not included in item 2.

4 Prohibited development

Any development not included in item 2 or 3.

Zone 24—Transport Reservation

1 Objectives of zone

The objectives of this zone are as follows:

- (a) to identify land for the provision of transportation networks and facilities,
- (b) to reserve land identified for transport corridors,
- (c) to encourage the provision of multi-modal transportation and the retention of natural bushland.

2 Development allowed without consent

Development for the purpose of:

bush fire hazard reduction work, cycle access, drainage, pedestrian access, roads.

Exempt development.

3 Development allowed only with consent

Development (other than development included in item 2) for the purpose

of:

car parks, passenger transport facilities, recreation areas, utility installations (except for gas holders or generating works).

Demolition not included in item 2.

4 Prohibited development

Any development not included in item 2 or 3.

12 Exempt development

Note—

Under section 76 of the Act, exempt development may be carried out without the need for development consent under Part 4 of the Act or for assessment under Part 5 of the Act.

The section states that exempt development:

- (a) must be of minimal environmental impact, and
- (b) cannot be carried out in critical habitat of an endangered species, population or ecological community (identified under the *Threatened Species Conservation Act 1995* or the *Fisheries Management Act 1994*), and
- (c) cannot be carried out in a wilderness area (identified under the *Wilderness Act 1987*).

- (1) The objective of this clause is to identify development of minimal environmental impact as exempt development.
- (2) Development specified in Schedule 2 that meets the standards for the development contained in that Schedule and that complies with the requirements of this Part is exempt development.
- (3) Without limiting subclause (2), a standard specified in Schedule 2 may specify that development must not be carried out on land specified in relation to that development, or may be carried out on such land only if the development complies with the specified standards.

Note—

The land that may be specified in relation to development includes **acid sulfate soils land, bush fire interface property, bush fire prone land, contaminated risk land, flood planning land, foreshore land** and **heritage item land**. These terms are defined in the Dictionary.

- (4) To be exempt development, the development:
 - (a) must meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia*, and
 - (b) must not, if it relates to an existing building, cause the building to contravene the *Building Code of Australia*, and

- (c) must not be designated development, and
 - (d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the *Heritage Act 1977* or that is subject to an interim heritage order under the *Heritage Act 1977*.
- (5) Development that relates to an existing building that is classified under the *Building Code of Australia* as class 1b or class 2-9 is exempt development only if:
- (a) the building has a current fire safety certificate or fire safety statement, or
 - (b) no fire safety measures are currently implemented, required or proposed for the building.

Note—

Exempt development must be carried out on land in a zone in relation to which clause 11 provides that exempt development may be carried out.

13 Complying development

Note—

Under section 76A of the Act, development consent for the carrying out of complying development may be obtained by the issue of a complying development certificate.

The section states that development cannot be complying development if:

- (a) it is on land that is critical habitat of an endangered species, population or ecological community (identified under the *Threatened Species Conservation Act 1995* or the *Fisheries Management Act 1994*), or
 - (b) it is on land within a wilderness area (identified under the *Wilderness Act 1987*), or
 - (c) the development is designated development, or
 - (d) the development is on land that comprises, or on which there is, an item of environmental heritage (that is listed on the State Heritage Register or in Schedule 5 to this Plan or that is subject to an interim heritage order under the *Heritage Act 1977*), or
 - (e) the development requires concurrence (except a concurrence of the Director-General of the Department of Environment and Climate Change in respect of development that is likely to significantly affect a threatened species, population, or ecological community, or its habitat (identified under the *Threatened Species Conservation Act 1995*)), or
 - (f) the development is on land identified as an environmentally sensitive area.
- (1) The objective of this clause is to identify development as complying development.
- (2) Development specified in Parts 1 and 2 of Schedule 3 that is carried out in compliance with:
- (a) the development standards and other requirements specified in relation to that development, and

(b) the requirements of this Part,
is complying development.

- (3) Without limiting subclause (2), a standard specified in Schedule 3 may specify that development must not be carried out on land specified in relation to that development, or may be carried out on such land only if the development complies with the specified standards.

Note—

The land that may be specified in relation to development includes **acid sulfate soils land, bush fire interface property, bush fire prone land, contaminated risk land, flood planning land, foreshore land** and **heritage item land**. These terms are defined in the Dictionary.

- (4) To be complying development, the development must:
- (a) be permissible, with consent, in the zone in which it is carried out, and
 - (b) meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia*, and
 - (c) have an approval, if required by the [Local Government Act 1993](#), from the Council for an on-site effluent disposal system if the development is undertaken on unsewered land.
- (5) To be complying development, the development specified in Part 1 of Schedule 3 must be carried out on land in any of the following zones:
- (a) Zone 1—Environmental Housing (Environmentally Sensitive Land),
 - (b) Zone 2—Environmental Housing (Scenic Quality),
 - (c) Zone 3—Environmental Housing (Bushland),
 - (d) Zone 4—Local Housing,
 - (e) Zone 12—Special Uses,
 - (f) Zone 13—Public Open Space (if it is land held by a public authority),
 - (g) Zone 15—Private Recreation.
- (6) To be complying development, the development specified in Part 2 of Schedule 3 must be carried out on land in any of the following zones:
- (a) Zone 5—Multiple Dwelling A,
 - (b) Zone 6—Multiple Dwelling B,
 - (c) Zone 8—Urban Centre,

- (d) Zone 9—Local Centre,
 - (e) Zone 10—Neighbourhood Centre,
 - (f) Zone 11—Employment,
 - (g) Zone 21—Railway.
- (7) A complying development certificate for development specified in Part 1 or 2 of Schedule 3 is subject to the conditions set out in Part 3 of that Schedule.

Note—

Complying development must not contravene any existing development consent applying to the land.

13A Environmentally sensitive areas excluded

- (1) Exempt or complying development must not be carried out on any environmentally sensitive area for exempt or complying development.
- (2) For the purposes of this clause:

environmentally sensitive area for exempt or complying development means any of the following:

- (a) the coastal waters of the State,
- (b) a coastal lake,
- (c) land to which *State Environmental Planning Policy No 14—Coastal Wetlands* or *State Environmental Planning Policy No 26—Littoral Rainforests* applies,
- (d) land reserved as an aquatic reserve under the *Fisheries Management Act 1994* or as a marine park under the *Marine Parks Act 1997*,
- (e) land within a wetland of international significance declared under the Ramsar Convention on Wetlands or within a World heritage area declared under the World Heritage Convention,
- (f) land within 100 metres of land to which paragraph (c), (d) or (e) applies,
- (g) land identified in this or any other environmental planning instrument as being of high Aboriginal cultural significance or high biodiversity significance,
- (h) land reserved as a state conservation area under the *National Parks and Wildlife Act 1974*,
- (i) land reserved or dedicated under the *Crown Lands Act 1989* for the preservation of flora, fauna, geological formations or for other environmental protection purposes,
- (j) land identified as being critical habitat under the *Threatened Species Conservation*

Act 1995 or Part 7A of the *Fisheries Management Act 1994*.

13B Standards for exempt and complying development

Without limiting the standards which must be met under clause 12 (2) or 13 (2), the requirements of a standard set out as follows applies to development if the standard is specified in relation to that development in Schedules 2 or 3:

- (a) access standard—the development must not restrict any vehicular or pedestrian access to or from the site,
- (b) car spaces standard—the development must not reduce the number of car spaces on the site of the development,
- (c) excavation standard—the depth of any excavation must not be more than 600 millimetres below the existing ground level, unless otherwise permitted under Schedule 2 or Schedule 3,
- (d) floor space standard—the development must not result in a greater gross floor area or floor space ratio than is provided for in clause 35,
- (e) installation standard—all installation relating to the development must meet the specifications of the manufacturer,
- (f) landscaped area standard—the development must not result in a lesser landscaped area than is provided for in clause 36,
- (g) sewer mains standard—the development must not be located within 1 metre of an easement or within the zone of influence of a sewer main, unless the development complies with any standards set by the public authority having the benefit of the easement or occupation,
- (h) storm water standard—the development must not result in the redirection of surface storm water or run-off onto adjoining land, and storm water from the development must be discharged:
 - (i) by gravity feed to a road gutter, or
 - (ii) to an existing drainage structure within a lawful easement, or
 - (iii) to an on-site drainage management system,
- (i) tree removal and pruning standard—the development must not result in the removal, pruning, lopping or damage of trees which would require the consent or permission of the Council under this plan, unless that permit or consent has been obtained.

Part 3 Special provisions

Division 1 Provisions that apply to particular land

14 Exceptions to Zoning Table—specified development on specified land

- (1) Despite clause 11, consent may be granted to development specified in Column 2 of the Table to this subclause on corresponding land specified in Column 1 of the Table, subject to any corresponding requirements specified in Column 3 of the Table.

Column 1	Column 2	Column 3
Land	Development for the purpose of the following	Requirements
5-17 Waratah Street, Kirrawee	Motor showroom	
101-107 Princes Highway, Sylvania	Motor showroom	
108-119 Princes Highway, Sylvania	Motor showroom (not including car parking)	
67 Warrangarree Drive, Woronora Heights (Lot 448, DP 814427)	Townhouses	
64 Anzac Avenue, Engadine (Lot 2, DP 536426)	Car parking	
1-3 Kiora Road, Miranda	Motor showroom with an area set aside exclusively for customer parking	The development must not involve the provision of pedestrian or vehicular access to or from Kumbardang Avenue. There are to be deceleration lanes to all entry points from The Boulevard.
154 Flora Street, Sutherland	Business premises	
34 Shell Road, Burraneer, comprising permissive occupancy 1966/196 under the <i>Crown Lands (Continued Tenures) Act 1989</i>	Recreation facility, being a sailing club	

Zone 22—Arterial Road	Outdoor eating areas ancillary to a restaurant Advertisements or fixed awnings	The development may only be carried out within the constructed footpath area of the relevant public road and must be ancillary to a lawful use on land adjoining the zone.
104 The Esplanade, Sylvania and the adjoining nature strip of the public road	Inclinorator	The development must not obstruct pedestrian or vehicular access on the road or create a hazard to road users. The development must be ancillary to the lawful use of the land on which the residence is located.
97 Soldiers Road, Jannali	Villa houses or townhouses	The development must not result in a floor space ratio greater than 0.45:1.
121 Georges River Road, Jannali	Medical facilities or shop-top housing, or both	The development must not result in a floor space ratio greater than 0.65:1 and the landscaped area of the site of the development must be at least 30% of the area of the site.
533-541 Princes Highway, Kirrawee	Hotel	The development must not result in a floor space ratio greater than 1:1.

(2) **Marine travel lift, or floating pontoon and jetty, on certain land at Taren Point** Despite clauses 11 and 17, development for the purpose of a marine travel lift, or a floating pontoon and jetty, may be carried out with consent on any of the following land:

- (a) 2-14 Atkinson Road, Taren Point,
- (b) 13-21 (including 15A) Mangrove Lane, Taren Point.

Note—

Clause 17 deals with buildings or works on land traversed by a foreshore building line.

Sydney Regional Environmental Plan No 17—Kurnell Peninsula (1989) (rather than this plan) will apply to the extent that the development is carried out on land referred to in Schedule 1 to that Regional Environmental Plan.

(3) **Helicopter take-offs and landings** Despite clause 11, the following land may be used for helicopter landings and take-offs:

- (a) Sutherland Oval, The Grand Parade, Sutherland,
- (b) Waratah Park, Sutherland,
- (c) Heathcote Oval, East Heathcote,
- (d) the old tip site, Illawarra Road, Menai,

but only if the consent authority is satisfied that the land will be used for no more than 10 landings or take-offs for non-emergency situations in any 12 month period.

- (4) Nothing in this plan restricts helicopter landings or take-offs in emergency situations.
- (5) **Advertisements and outdoor eating areas connected to restaurants in Zone 13—Public Open Space** Despite clause 11, development for the purpose of advertisements that is ancillary to the use of the land as a restaurant may be carried out with consent on land in Zone 13—Public Open Space, but only if:
- (a) consent has been granted to the use of the land as a restaurant, and
 - (b) the sign on which the advertisement is displayed:
 - (i) is attached flush with the part of the building in which the restaurant is located, and
 - (ii) does not exceed 0.6 metre in height or 1.5 metres in width, and
 - (iii) only displays the name of the restaurant.
- (6) **Outdoor eating areas in Zone 13—Public Open Space** Despite clause 11, the use of land for an outdoor eating area in conjunction with a restaurant may be carried out with consent on land in Zone 13—Public Open Space, but only if:
- (a) consent has been granted to the use of the land as a restaurant, and
 - (b) the outdoor eating area immediately adjoins the part of the building in which the restaurant is located.
- (7) **Townhouse development—2 Corea Street, Sylvania** Despite clause 11, development for the purpose of townhouses may be carried out with consent on land at 2 Corea Street, Sylvania, being Lots 1 and 2, DP 872780, if:
- (a) each townhouse has open space for the exclusive use of the occupants of the dwelling (whether or not the open space is at finished ground level), and
 - (b) the consent relates to development application DA08/0915.

15 Development in Zone 10—Neighbourhood Centre

Despite clause 11, the consent authority may consent to development of land in Zone 10—Neighbourhood Centre (**the subject land**) that is not otherwise allowed on land in that zone, but is allowed on land in a zone that is adjacent to or adjoins Zone 10—Neighbourhood Centre (an **adjoining zone**), if the consent authority is satisfied that:

- (a) the subject land is surplus to the current and future needs of the community, or development that is otherwise allowed in the Zone 10—Neighbourhood Centre is not economically viable on the subject land, and

- (b) the proposed development will not prejudice the current and future needs of the community, and
- (c) the proposed development will not adversely affect land in the adjoining zone or the surrounding area of the proposed development or, and
- (d) the proposed development is consistent with the objectives of the adjoining zone.

16 Development in Zone 17—Environmental Protection (Low Impact Rural)

- (1) This clause applies to land in Zone 17—Environmental Protection (Low Impact Rural).
- (2) Despite clause 11, the consent authority may consent to development on land to which this clause applies if:
 - (a) the development is for the purpose of a dwelling house on a lot of land, being a lot that was in existence on 15 December 2000, and, in a case where part of the lot is also zoned for residential purposes, the dwelling is proposed to be located on that part, or
 - (b) the development comprises the collection of native vegetation for plant propagation (including seed stock), floristry or the production of oils or fragrances, or
 - (c) in the opinion of the consent authority, the proposed development would not involve the clearing of land or alteration of any water course or otherwise have an adverse impact on the natural habitat, scenic quality or bushland character of land in the zone.

17 Buildings or works on land traversed by foreshore building line

- (1) **Application of clause** This clause applies to land that is traversed by a foreshore building line.
- (2) **Objectives** The objectives of this clause are as follows:
 - (a) to avoid adverse ecological effects on waterways,
 - (b) to protect and enhance significant natural features and vegetation on riparian land,
 - (c) to retain endemic vegetation along foreshore areas,
 - (d) to restore and revegetate foreshore areas to improve estuarine flora and fauna habitat,
 - (e) to minimise any adverse impact from development on water quality and, so far as is practicable, to improve the quality of urban run-off entering waterways,

- (f) to minimise any adverse visual impact of development when viewed from adjacent land and waterways by using a design and materials that complement the natural landscape of the land to which this clause applies,
- (g) to minimise any adverse impact of development on the natural landform of foreshore areas and waterways by integrating structures into the site with minimal change to the natural topography of the land to which this clause applies,
- (h) to achieve an appropriate balance between private development and the public use of waterways,
- (i) to maintain and improve public access to the intertidal area of waterfronts where there will be minimal environmental impact,
- (j) to conserve and enhance structures on waterfronts that are of heritage significance,
- (k) to minimise the obstruction of water views from public land,
- (l) to ensure that there is no development below any foreshore building line, except as provided by this clause.

(3) **Meaning of “foreshore building line”—generally** In this plan:

foreshore building line, in relation to land (other than land referred to in subclause (4) or (5)), means:

- (a) if a foreshore building line is shown on the map in relation to the land:
 - (i) in the case of land that has a deemed mean high water mark—a line across the land that is parallel to, and the distance specified on the map from, that deemed mean high water mark, or
 - (ii) in the case of land that does not have a deemed mean high water mark—a line across the land that is parallel to, and the distance specified on the map from, any boundary of the land that adjoins a waterway or waterfront reserve, or
- (b) if a foreshore building line is not shown on the map in relation to the land:
 - (i) in the case of land that has a deemed mean high water mark—a line across the land that is parallel to, and 7.5 metres from, the deemed mean high water mark, or
 - (ii) in the case of land that does not have a deemed mean high water mark—a line across the land that is parallel to, and 7.5 metres from, any boundary of the land that adjoins a waterway or waterfront reserve.

(4) **Meaning of “foreshore building line”—Sandy Point** In this plan:

foreshore building line, in relation to land at Sandy Point, means:

- (a) the 1 percent annual exceedance probability flood line, or
- (b) a line across the land that is parallel to, and 7.5 metres from, the deemed mean high water mark,

whichever is further inland.

(5) **Meaning of “foreshore building line”—Illawong or Oyster Bay** In this plan:

foreshore building line, in relation to specified land at Illawong or Oyster Bay, means:

- (a) in the case of land that has a deemed mean high water mark—a line across the land that is parallel to, and the distance specified on the map from, that deemed mean high water mark, or
- (b) in the case of land that does not have a deemed mean high water mark—a line across the land that is parallel to, and the distance specified on the map from, the nearest waterway to the land.

(6) In subclauses (3)–(5):

deemed mean high water mark, in relation to land, means the mean high water mark, or high water mark, as shown on any plan relating to that land that was registered with the Registrar-General on or before 24 April 1980, being a plan that was current at that date.

Note—

The deemed mean high water mark is not affected by any reclamation of land or other changes that may have occurred since registration of the plan concerned.

specified land at Illawong or Oyster Bay means any of the following land:

- (a) 183–187, 189–193, 199A, 203, 207, 207A and 215 Fowler Road, Illawong,
- (b) 5–7 and 9–11 Griffin Parade, Illawong,
- (c) 47, 51, 83–85, 87–89, 91, 95–97, 103A, 109–111, Caravan Head Road, Oyster Bay,
- (d) 85B and 85C Carina Road, Oyster Bay,
- (e) 20, 22, 24, 28 and 30 Farrer Place, Oyster Bay,
- (f) 15 Shipwright Place, Oyster Bay.

(7) **Controls** A building must not be erected, and a work must not be carried out, on land between a foreshore building line and any waterway or waterfront reserve in respect of which the line is fixed.

- (8) Nothing in subclause (7) or clause 11 prevents consent being granted to:
- (a) any alteration (not being an addition) to an existing dwelling that is forward of the foreshore building line, or
 - (b) the erection, carrying out of, or an alteration or addition to, an excluded building or work.
- (9) Nothing in subclause (7) or clause 11 prevents consent being granted to the erection of a dwelling, or any addition to an existing dwelling, on land between a foreshore building line and any waterway or waterfront reserve in respect of which the line is fixed if:
- (a) the consent authority has considered the objectives of this clause, and
 - (b) the consent authority is satisfied that:
 - (i) the new dwelling or addition will not be erected any further forward of the foreshore building line than any existing dwelling on the land, and
 - (ii) the new dwelling will not dominate the locality in which it is erected as a result of its height, bulk, design, colour or detailing, and
 - (iii) the natural qualities of the foreshore are retained or restored as far as practicable through the retention or reinstatement of natural levels and endemic vegetation, and
 - (iv) in the case of the erection of a dwelling—there is no reasonable alternative that would allow a new dwelling to be located behind the foreshore building line.
- (10) In this clause:
- excluded building or work*** means any of the following:
- (a) a boat shed,
 - (b) a watercraft facility,
 - (c) an in-ground swimming pool that is no higher than 300 millimetres above ground level at any point,
 - (d) a work to enable pedestrian access,
 - (e) landscaping,
 - (f) a barbecue,
 - (g) a utility installation (except for a gas holder or generating works).

riparian land means:

- (a) submerged land, or
- (b) land that adjoins, directly influences or is directly influenced by a body of water, and the body of water itself.

18 Development in or adjacent to waterways

(1) This clause applies to any of the following land:

- (a) land in Zone 16—Environmental Protection (Waterways),
- (b) land traversed by a foreshore building line,
- (c) land below the mean high water mark.

Note—

The mean high water mark referred to here is the mean high water mark as it currently exists.

(2) The objectives of this clause are as follows:

- (a) to ensure that any development does not result in the obstruction or interference with navigation in waterways,
- (b) to ensure restoration of land below any foreshore building line, to a natural state (so far as is practicable), with a minimum intrusion of man-made structures,
- (c) to reduce the number of structures below any foreshore building line, particularly following the redevelopment of a site,
- (d) to promote the public use of intertidal areas below the mean high water mark or high water mark, where appropriate.

(3) The consent authority must not consent to development on land to which this clause applies unless the consent authority is satisfied that the following building or work will be removed before, or within a reasonable time after, the development is carried out:

- (a) any building or work, other than an excluded building or work, that is:
 - (i) on the lot concerned or an adjoining lot owned by the person carrying out the development, or on adjacent land that person occupies under a lease or a licence, and
 - (ii) between a foreshore building line and any waterway or waterfront reserve in respect of which the line is fixed,
- (b) any building or work (other than a watercraft facility) that is:
 - (i) on the lot concerned or on an adjoining lot that is owned by a person carrying out the development, or on adjacent land that person occupies under a lease

or a licence, and

(ii) below the mean high water mark.

(4) Subclause (3) does not require the removal of any building or work if:

(a) the proposed development is the erection or installation of any of the following:

(i) a fence or retaining wall between a dwelling and the street on which the dwelling is located,

(ii) a garage or carport adjacent to a dwelling or located between a dwelling and the street on which the dwelling is located,

(iii) a deck or verandah,

(iv) an awning or canopy, or

(b) the consent authority is satisfied that the use of the building or work is lawful, or

(c) the consent authority is satisfied that the removal of the building or work:

(i) would be inconsistent with, or is not necessary to achieve, any of the objectives of this clause, or

(ii) is unreasonable or unnecessary in the circumstances of the case.

(5) In this clause:

excluded building or work has the same meaning as it has in clause 17.

19 Biodiversity—wetlands

The consent authority must not consent to development on wetlands unless it has considered the following matters that are of relevance to the development:

(a) any potential that the proposed development has to fragment, pollute, disturb or diminish the values of wetlands,

(b) the extent to which the proposed development will restore, protect or maintain ecological processes, natural systems and biodiversity within wetlands,

(c) the extent to which the proposed development will incorporate best practice environmental design measures to maintain or improve the sustainability of wetlands,

(d) the extent to which the proposed development will restore existing degraded wetlands or water sources to compensate for the loss or degradation of those wetlands or water sources,

(e) in the case of land that is also bush fire prone land—the extent to which fire management regimes will be in place, and bush fire hazard reduction techniques will

be used, that are appropriate in terms of their impact on wetlands.

20 Flood planning

- (1) The objectives of this clause are as follows:
 - (a) to minimise the flood risk to life and property associated with the use of land,
 - (b) to allow development on land that is compatible with the land's flood hazard, taking into account projected changes as a result of climate change,
 - (c) to avoid significant adverse impacts on flood behaviour and the environment.
- (2) This clause applies to:
 - (a) land that is shown as "Flood planning area" on the Flood Planning Map, and
 - (b) other land at or below the flood planning level.
- (3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
 - (a) is compatible with the flood hazard of the land, and
 - (b) will not significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
 - (c) incorporates appropriate measures to manage risk to life from flood, and
 - (d) will not significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
 - (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
- (4) A word or expression used in this clause has the same meaning as it has in the NSW Government's *Floodplain Development Manual* published in 2005, unless it is otherwise defined in this clause.
- (5) In this clause:

flood planning level means the level of 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.

21 Environmental risk—bush fire

The consent authority must not consent to development on bush fire prone land unless it has considered the following matters that are of relevance to the development:

- (a) the extent to which the proposed development will achieve an appropriate balance

between the conservation of the natural environment and the provision of appropriate bush fire protection measures,

- (b) the risk of bush fire to life, property or the environment,
- (c) the extent to which any proposed buildings will be constructed using techniques and materials to maximise their resistance to bush fire,
- (d) whether adequate measures will be in place to enable the safe evacuation of people from the land, and enable access to that land by emergency services, during a bush fire,
- (e) the intensity of the existing and proposed use of the land,
- (f) the need to restrict vulnerable development on the land.

Note—

Section 79BA of the Act and the [Rural Fires Act 1997](#) also make provision for the carrying out of development on bush fire prone land.

22 Environmental risk—contaminated land management

- (1) This clause applies to land that is, or in the opinion of the consent authority is likely to be, contaminated land (within the meaning of Part 7A of the Act).
- (2) The consent authority must not consent to development on land to which this clause applies unless the consent authority is satisfied that the development will be carried out in a manner that minimises, manages or eliminates risk to human health and the environment.

23 Environmental risk—acid sulfate soils

- (1) The objectives of this clause are as follows:
 - (a) to manage any disturbance to acid sulfate soils so as to minimise impacts on natural waterbodies, wetlands, native vegetation, agriculture, fishing, aquaculture and urban and infrastructure activities,
 - (b) to require development consent for works that would disturb soils or groundwater levels on land identified as having, or potentially having, acid sulfate soils,
 - (c) to require special assessment of certain development on land identified as being subject to risks associated with the disturbance of acid sulfate soils.
- (2) Development consent is required for the carrying out of works described in the Table to this subclause on land of the class specified for those works, except as provided by this clause.

**Class of land as shown on
Acid Sulfate Soils Map**

Works

1	Any works.
2	Works below the natural ground surface. Works by which the watertable is likely to be lowered.
3	Works beyond 1 metre below the natural ground surface. Works by which the watertable is likely to be lowered beyond 1 metre below the natural ground surface.
4	Works beyond 2 metres below the natural ground surface. Works by which the watertable is likely to be lowered beyond 2 metres below the natural ground surface.
5	Works within 500 metres of adjacent Class 1, 2, 3 or 4 land that are likely to lower the watertable below 1 metre Australian Height Datum on adjacent Class 1, 2, 3 or 4 land.

(3) Consent must not to be granted under this clause unless:

- (a) an acid sulfate soils management plan has been prepared for the proposed works in accordance with the Acid Sulfate Soils Guidelines and has been provided to the consent authority, and
- (b) (Repealed)
- (c) the consent authority has considered the likelihood of the proposed works resulting in the discharge of acid water, and
- (d) the consent authority is satisfied that any disturbance of acid sulfate soils resulting from the proposed works will be managed so as to minimise impacts on natural waterbodies, wetlands, native vegetation, agriculture, fishing, aquaculture and urban and infrastructure activities.

(4) Consent is not required under this clause for the carrying out of works if:

- (a) a preliminary assessment of the proposed works prepared in accordance with the Acid Sulfate Soils Guidelines indicates that an acid sulfate soils management plan need not be carried out for the works, and
- (b) the preliminary assessment has been provided to the consent authority and the consent authority has confirmed the assessment by notice in writing to the person proposing to carry out the works.

(5) This clause does not require consent to carry out any works unless:

- (a) the works involve the disturbance of more than 1 tonne of soil, such as occurs in carrying out agriculture, the construction or maintenance of drains, extractive

industries, dredging, the construction of artificial waterbodies (including swimming pools) or foundations, or flood mitigation works, or

(b) the works are likely to lower the water table.

24 Environmental risk—nuclear research reactor at Lucas Heights Science and Technology Centre

- (1) This clause applies to land shown on the map marked “*Sutherland Shire Local Environmental Plan 2006 (Amendment No 4)—Clause 24—Environmental Risk—Nuclear research reactor at Lucas Heights Science and Technology Centre*” as being within a 1.6 kilometre radius of the nuclear research reactor at Lucas Heights Science and Technology Centre.
- (2) The consent authority must not consent to development on land to which this clause applies unless it has considered the following matters that are of relevance to the development:
 - (a) any risk of radiation to life or property on the site of the proposed development,
 - (b) the extent to which residential densities on the site and on the land as a whole should be limited to minimise the risk to life or property,
 - (c) whether adequate measures will be in place to enable the safe evacuation of people from the land, and enable access to that land by emergency services, during an emergency,
 - (d) the intensity of the existing and proposed use of the land,
 - (e) the need to restrict vulnerable development on the land,
 - (f) any recommendations of the Australian Radiation Protection and Nuclear Safety Agency or Australian Nuclear Science and Technology Organisation relating to development on the land.

25 Classification and reclassification of public land

- (1) The objective of this clause is to enable the Council, by means of this plan, to classify or reclassify public land as “operational land” or “community land” in accordance with Part 2 of Chapter 6 of the [Local Government Act 1993](#).

Note—

Under the [Local Government Act 1993](#), “public land” is generally land vested in or under the control of a council (other than roads, Crown reserves and commons). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the [Local Government Act 1993](#). Section 30 of that Act enables this plan to discharge trusts on which public reserves are held if the land is reclassified under this plan as operational land.

- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified,

as operational land for the purposes of the *Local Government Act 1993*.

- (3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the *Local Government Act 1993*.
- (4) The public land described in Part 1 of Schedule 4:
 - (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and
 - (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.
- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve on the commencement of the relevant classification plan and, by the operation of that plan, is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except:
 - (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
 - (b) any reservations that except land out of the Crown grant relating to the land, and
 - (c) reservations of minerals (within the meaning of the *Crown Lands Act 1989*).
- (6) In this clause, the **relevant classification plan**, in relation to land described in Part 2 of Schedule 4, means this plan or, if the description of the land is inserted into that Part by another environmental planning instrument, that instrument.
- (7) Before the relevant classification plan inserted a description of land into Part 2 of Schedule 4, the Governor approved of subclause (5) applying to the land.

26 Acquisition of land

- (1) The objective of this clause is to identify, for the purposes of section 27 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the *Land Acquisition (Just Terms Compensation) Act 1991* (**the owner-initiated acquisition provisions**).

Note—

If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the *Land Acquisition (Just Terms Compensation) Act 1991* requires the authority to acquire the land.

- (2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State indicated in Column 2 of the Table to this clause in relation to

the land specified in Column 1 of the Table (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

- (3) A reference to vacant land in the Table to this clause is a reference to land on which there are no buildings, except for aviaries, barns, conservatories, cycle sheds, fences, fowl houses, fuel sheds, garages, greenhouses, hay sheds, milking bails, pig sties, private boat houses, stables, summer houses, tool houses or similar buildings.

Column 1	Column 2
Land	Authority of the State
Zone 12—Special Uses and lettered “Community Facility” on the map	The Council
Zone 12—Special Uses and lettered “Parking” on the map	The Council
Zone 13—Public Open Space (except for land specified in Schedule 5)	The Council
Zone 14—Public Open Space (Bushland) (except for land specified in Schedule 5)	The Council
Land specified in Schedule 5 that is in Zone 13—Public Open Space or Zone 14—Public Open Space (Bushland)	The corporation
Zone 21—Railway	Rail Corporation New South Wales
Zone 22—Arterial Road or Zone 24—Transport Reservation:	
(a) vacant land and not on the 5 year works program of the Roads and Traffic Authority, or	The corporation
(b) in any other case	Roads and Traffic Authority
Zone 23—Road	The Council

27 Development on land referred to in clause 26 before acquired or used for purpose for which reserved

- (1) This clause applies to land referred to in Column 1 of the Table to clause 26 that has not been acquired by the relevant authority of the State under the [Land Acquisition \(Just Terms Compensation\) Act 1991](#).
- (2) Consent for development on land to which this clause applies may be granted only if:

- (a) (Repealed)
 - (b) the development is of a kind, or is compatible with development of a kind, that may be carried out on land in an adjoining zone, and
 - (c) the development concerned is not designated development, and
 - (d) any use of the land that is authorised if development consent is granted will cease no later than 5 years after consent is granted.
- (3) (Repealed)
- (4) Before granting consent to proposed development on land to which this clause applies, the consent authority must take the following matters into consideration:
- (a) any impact of the proposed development on traffic movements and parking,
 - (b) any impact of the proposed development on existing pedestrian movements,
 - (c) any visual impact of the proposed development (including any proposed installation of advertisements),
 - (d) the need to carry out development on the land for the purpose for which it is reserved,
 - (e) the imminence of acquisition by the authority of the State,
 - (f) the likely additional cost to the authority of the State resulting from the carrying out of the proposed development.
- (5) Development on land acquired by an authority of the State under clause 26 may, before it is used for the purpose for which it is reserved, be carried out, with consent, for any purpose.

Division 2 Provisions that apply to particular kinds of development

28 Subdivision—consent requirements

- (1) Despite clause 11, land to which this plan applies may be subdivided, but only with consent.
- (2) Consent must not be granted to the subdivision of land in a zone unless the consent authority has considered the relevant objectives of the zone specified in clause 11.
- (3) Nothing in this clause requires consent for subdivision that is exempt development.

29 Crown development and public utilities

- (1) Nothing in this plan (except for clause 23) is to be construed as restricting or prohibiting or enabling the consent authority to restrict or prohibit:

- (a) the carrying out of development of any description specified in subclauses (2)–(12), or
- (b) the use of existing buildings of the Crown by the Crown.

Note—

Clause 23 deals with development on land identified as having, or potentially having, acid sulfate soils.

(2) **Railway undertakings** The carrying out by persons carrying on railway undertakings, on land comprised in their undertakings, of:

- (a) any development required in connection with the movement of traffic by rail, including the construction, reconstruction, alteration, maintenance and repair of ways, works and plant, and
- (b) the erection within the limits of a railway station of buildings for any purpose, but excluding:
 - (c) the construction of new railways, railway stations and bridges over roads, and
 - (d) the erection, reconstruction and alteration of buildings for purposes other than railway undertaking purposes outside the limits of a railway station and the reconstruction or alteration, so as materially to affect their design, of railway stations or bridges, and
- (e) the formation or alteration of any means of access to a road, and
- (f) the erection, reconstruction and alteration of buildings for purposes other than railway purposes where such buildings have direct access to a public place.

(3) **Water, sewerage, drainage, electricity or gas undertakings** The carrying out by persons carrying on public utility undertakings, being water, sewerage, drainage, electricity or gas undertakings, of any of the following development, being development required for the purpose of their undertakings:

- (a) development of any description at or below the surface of the ground,
- (b) the installation of any plant inside a building or the installation or erection within the premises of a generating station or substation established before the commencement of this plan of any plant or other structures or erections required in connection with the station or substation,
- (c) the installation or erection of any plant or other structures or erections by way of addition to or replacement or extension of plant or structures or erections already installed or erected, including the installation in an electrical transmission line of substations, feeder-pillars or transformer housing, but not including the erection of overhead lines for the supply of electricity or pipes above the surface of the

ground for the supply of water, or the installation of substations, feeder-pillars or transformer housing of stone, concrete or brickworks,

- (d) the provision of overhead service lines in pursuance of any statutory power to provide a supply of electricity,
- (e) the erection of service reservoirs on land acquired or in the process of being acquired for the purpose before the commencement of this plan, provided reasonable notice of the proposed erection is given to the consent authority,
- (f) any other development, except:
 - (i) the erection of buildings, the installation or erection of plant or other structures or erections and the reconstruction or alteration of buildings so as materially to affect their design or external appearance, or
 - (ii) the formation or alteration of any means of access to a road.

(4) **Water transport undertakings** The carrying out by persons carrying on public utility undertakings, being water transport undertakings, on land comprised in their undertakings, of any development required in connection with the movement of traffic by water, including the construction, reconstruction, alteration, maintenance and repair of ways, buildings, wharves, works and plant required for that purpose, except:

- (a) the erection of buildings and the reconstruction or alteration of buildings so as materially to affect their design or external appearance, or
- (b) the formation or alteration of any means of access to a road.

(5) **Wharf or river undertakings** The carrying out by persons carrying on public utility undertakings, being wharf or river undertakings, on land comprised in their undertakings, of any development required for the purposes of shipping or in connection with the embarking, loading, discharging or transport of passengers, livestock or goods at a wharf or the movement of traffic by a railway forming part of the undertaking, including the construction, reconstruction, alteration, maintenance and repair of ways, buildings, works and plant for those purposes, except:

- (a) the construction of bridges, the erection of any other buildings, and the reconstruction or alteration of bridges or of buildings so as materially to affect their design or external appearance, or
- (b) the formation or alteration of any means of access to a road.

(6) **Air transport undertakings** The carrying out by persons carrying on public utility undertakings, being air transport undertakings, on land comprised in their undertakings within the boundaries of any aerodrome, of any development required in connection with the movement of traffic by air, including the construction, reconstruction, alteration, maintenance and repair of ways, buildings, wharves, works

and plant required for that purpose, except:

(a) the erection of buildings and the reconstruction or alteration of buildings so as materially to affect their design or external appearance, or

(b) the formation or alteration of any means of access to a road.

(7) **Road transport undertakings** The carrying out by persons carrying on public utility undertakings, being road transport undertakings, on land comprised in their undertakings, of any development required in connection with the movement of traffic by road, including the construction, reconstruction, alteration, maintenance and repair of buildings, works and plant required for that purpose, except:

(a) the erection of buildings and the reconstruction or alteration of buildings so as materially to affect their design or external appearance, or

(b) the formation or alteration of any means of access to a road.

(8) **Mining** The carrying out by the owner or lessee of a mine (other than a mineral sands mine), on the mine, of any development required for the purposes of a mine, except:

(a) the erection of buildings (not being plant or other structures or erections required for the mining, working, treatment or disposal of minerals) and the reconstruction, alteration or extension of buildings, so as materially to affect their design or external appearance, or

(b) the formation or alteration of any means of access to a road.

(9) **Roads** The carrying out of any development required in connection with the construction, reconstruction, improvement, maintenance or repair of any road, except the widening, realignment or relocation of such road.

(10) **Forestry** The carrying out of any forestry work by the Forestry Commission or Community Forest Authorities empowered under relevant Acts to undertake afforestation, the construction of roads, protection, cutting and marketing of timber, and other forestry purposes under such Acts or upon any Crown land temporarily reserved from sale as a timber reserve under the [Forestry Act 1916](#).

(11) **Development carried out by a rural lands protection board** The carrying out by a rural lands protection board of any development required for the improvement and maintenance of travelling stock and water reserves, except:

(a) the erection of buildings and the reconstruction or alteration of buildings so as materially to affect their design or purposes, and

(b) any development designed to change the use or purpose of any such reserve.

(12) **Soil conservation, irrigation, afforestation, reforestation, flood mitigation, water**

conservation or river improvement The carrying out or causing to be carried out by the consent authority, where engaged in flood mitigation works, or by the Department of Natural Resources, of any work for the purposes of soil conservation, irrigation, afforestation, reafforestation, flood mitigation, water conservation or river improvement in pursuance of the provisions of the *Water Act 1912*, the *Water Management Act 2000*, the *Farm Water Supplies Act 1946* or the *Rivers and Foreshores Improvement Act 1948*, except:

- (a) the erection of buildings, and installation or erection of plant or other structures or erections and the reconstruction or alteration of buildings so as materially to affect their design or external appearance, and
- (b) the formation or alteration of any means of access to a road.

30 Maintenance dredging of tidal waterways

Despite clause 11, maintenance dredging, by or on behalf of a public authority (including the Council), within tidal waterways may be carried out without consent.

31 Development for group homes

- (1) If development for the purpose of a dwelling house or a dwelling in a residential flat building may lawfully be carried out in accordance with this plan, development for the purpose of a group home may, subject to this clause, be carried out with consent.
- (2) The consent authority must not consent to development for the purpose of a group home unless it has considered the community need for the group home concerned.
- (3) Consent is not required under this clause to carry out development for the purpose of a permanent group home that contains 5 or less bedrooms and that will be occupied by not more residents (including any resident staff) than the number calculated by multiplying the number of bedrooms in that dwelling by 2.
- (4) Consent may not be refused under this clause unless an assessment has been made of the need for the group home concerned.
- (5) Nothing in this clause requires consent to be obtained by the Department of Housing (or a person acting jointly with the Department of Housing) to carry out development for the purpose of a transitional group home.

32 Seniors housing in Zone 8 or 9

Despite clause 11, development for the purpose of seniors housing may be carried out on land in Zone 8—Urban Centre or Zone 9—Local Centre only if:

- (a) it is proposed that any building in which seniors housing is to be located is also to be used for a purpose, other than seniors housing, permitted under this plan, and

- (b) the consent authority is satisfied that the development is consistent with the objectives of the zone in which it is proposed to be carried out.

33 Building height

- (1) **Clause does not apply to seniors housing in Zone 4, 5 or 6** This clause does not apply to seniors housing on land in Zone 4—Local Housing, Zone 5—Multiple Dwelling A or Zone 6—Multiple Dwelling B.
- (2) **Objectives** The objectives of this clause are as follows:
 - (a) to ensure the scale of buildings:
 - (i) is consistent with the desired scale and character of the street and locality in which the buildings are located, and
 - (ii) complements any natural landscape setting of the buildings,
 - (b) to allow reasonable daylight access to all buildings and the public domain,
 - (c) to minimise the impacts of new buildings on adjoining or nearby properties from loss of views, loss of privacy, overshadowing or visual intrusion,
 - (d) to ensure that the visual impact of buildings is minimised when viewed from adjoining properties, the street, waterways and public reserves,
 - (e) to ensure, where possible, that the height of non-residential buildings in residential zones is compatible with the scale of residential buildings on land in those zones.
- (3) The consent authority must not consent to development for the purpose of a building unless it has considered the objectives of this clause.
- (4) **Height of building generally—default position** A building must comply with each of the following:
 - (a) the building must not comprise more than 2 storeys,
 - (b) the building must not exceed the following:
 - (i) a height of 7.2 metres, as measured vertically from ground level to any point on the uppermost ceiling in the building,
 - (ii) a height of 9 metres, as measured vertically from ground level to the highest point of the roof of the building.
- (5) Subclause (4) does not apply to a building referred to elsewhere in this clause (other than a building referred to in subclause (12) or (13)).
- (6) **Buildings in Zone 7** A building on land in Zone 7—Mixed Use—Kirrawee must not

comprise more than the maximum number of storeys specified on the Height and Density Controls Map in relation to that land.

- (7) A building on land in Zone 7—Mixed Use—Kirrawee must not exceed any maximum height (as measured vertically from ground level to the highest point of the roof of the building) specified on the Height and Density Controls Map in relation to that land.
- (8) **Buildings in Zone 8, 9 or 10** A building on land in Zone 8—Urban Centre, Zone 9—Local Centre or Zone 10—Neighbourhood Centre must not comprise more than:
- (a) the maximum number of storeys specified on the Height and Density Controls Map in relation to the land concerned, or
 - (b) if that map does not specify a maximum number of storeys in relation to the land concerned:
 - (i) 2 storeys in the case of a building located on land in Zone 10—Neighbourhood Centre, or
 - (ii) 3 storeys in any other case.
- (9) A building on land in Zone 8—Urban Centre, Zone 9—Local Centre or Zone 10—Neighbourhood Centre must not exceed any maximum height specified on the Height and Density Controls Map in relation to the land concerned.
- (10) **Maximum number of storeys and height on certain land in Miranda** Despite subclause (8) or (9), a building on land in Zone 8—Urban Centre or Zone 12—Special Uses that is shown hatched on the Height and Density Controls Map may:
- (a) comprise 8 storeys, or
 - (b) have a height that exceeds 28 metres, but does not exceed 32 metres (as measured vertically from ground level to the highest point of the roof of the building),
- but only if the consent authority is satisfied that:
- (c) any overshadowing of land caused by the building is no greater than the overshadowing that would be caused if the building comprised the maximum number of storeys and had the maximum height that would otherwise apply to the building under subclause (8) or (9), and
 - (d) the design of the building significantly benefits urban design and the public domain in the location.

Note—

The maximum number of storeys and height applying to the above land, as shown on the Height and Density Controls Map, is 7 storeys and 28 metres respectively.

- (11) **Buildings in Zone 11** A building on land in Zone 11—Employment must not exceed a height of 12 metres, as measured vertically from ground level to the highest point of the roof.
- (12) Despite subclause (11), a building on land in Zone 11—Employment that adjoins land in Zone 3—Environmental Housing (Bushland) or Zone 4—Local Housing must not exceed a height of 9 metres, as measured vertically from ground level to the highest point of the roof.
- (13) Despite subclauses (5) and (11), a dwelling house on land in Zone 11—Employment must comply with subclause (4).
- (14) **Residential flat buildings** Despite anything to the contrary in this clause, a residential flat building must not comprise more than:
- (a) the maximum number of storeys specified on the Height and Density Controls Map in relation to the land concerned, or
 - (b) if that map does not specify a maximum number of storeys in relation to the land concerned—3 storeys.
- (15) Despite anything to the contrary in this clause, a residential flat building must not exceed any maximum height (as measured vertically from ground level to the highest point of the roof of the building) specified on the Height and Density Controls Map in relation to the land concerned.
- (16) **Villa houses** Despite anything to the contrary in this clause, a villa house must not exceed the following:
- (a) a height of 3.6 metres, as measured vertically from ground level to any point on the uppermost ceiling,
 - (b) a height of 5.4 metres, as measured vertically from ground level to the highest point on the roof.

34 Building height—seniors housing in Zone 4, 5 or 6

- (1) **Objectives** The objectives of this clause, in relation to seniors housing on land in Zone 4—Local Housing, Zone 5—Multiple Dwelling A or Zone 6—Multiple Dwelling B, are as follows:
- (a) to ensure that seniors housing is of a height that is compatible with:
 - (i) the scale of other residential buildings in the zone in which it is located, and
 - (ii) the desired scale and character of the street and locality in which the seniors housing is located, and
 - (iii) complements any natural landscape setting of the seniors housing,

- (b) to allow reasonable daylight access to all buildings and the public domain,
 - (c) to minimise the impacts of new seniors housing on adjoining or nearby properties from loss of views, loss of privacy, overshadowing or visual intrusion,
 - (d) to ensure that the visual impact of seniors housing is minimised when viewed from adjoining properties, the street, waterways and public reserves.
- (2) **Controls** The consent authority must not consent to development for the purpose of seniors housing on land in Zone 4—Local Housing, Zone 5—Multiple Dwelling A or Zone 6—Multiple Dwelling B unless it has considered the objectives of this clause.
- (3) Seniors housing on land in Zone 4—Local Housing or Zone 5—Multiple Dwelling A must not exceed 2 storeys.
- (4) Seniors housing on land in Zone 6—Multiple Dwelling B must not comprise more than:
- (a) the maximum number of storeys specified on the Height and Density Controls Map in relation to the land concerned, or
 - (b) if that map does not specify a maximum number of storeys in relation to the land concerned—3 storeys.
- (5) Seniors housing on land in Zone 6—Multiple Dwelling B must not exceed any maximum height (as measured vertically from ground level to the highest point of the roof of the building) specified on the Height and Density Controls Map in relation to the land concerned.
- (6) If seniors housing on land in Zone 4—Local Housing, Zone 5—Multiple Dwelling A or Zone 6—Multiple Dwelling B includes a townhouse or villa house, the two-storey building in which the townhouse is located or the villa house must not exceed the maximum height specified in clause 33 (4) (b) or (16), respectively, for that kind of building.

35 Building density

- (1) **Application of clause** This clause does not apply to development for the purpose of a building that does not result in the creation of floor space.
- (2) **Objectives** The objectives of this clause are as follows:
- (a) to ensure that development is in keeping with the characteristics of the site and the local area,
 - (b) to provide a degree of consistency in the bulk and scale of new buildings that relates to the context and environmental qualities of the locality,
 - (c) to minimise the impact of buildings on the amenity of adjoining residential properties,

(d) to ensure, where possible, that non-residential buildings in residential zones are compatible with the scale and character of residential buildings on land in those zones.

(3) **Definition of “floor space ratio”** For the purposes of this plan:

floor space ratio means the ratio of the gross floor area of all buildings on a site to the area of the site.

(4) **Site** The following is taken to be excluded from the site of proposed development for the purposes of this clause and (in relation to land at 97 Soldiers Road, Jannali) clause 14 (1):

(a) land on which the proposed development is prohibited under this plan (other than land on which the proposed development is prohibited solely because of the application of clause 17),

(b) in the case of an internal lot:

- (i) any access corridor to or from the lot (if the lot is a hatchet-shaped lot), and
- (ii) any right of way that traverses another lot.

Note—

Among other things, clause 17 imposes certain restrictions on the erection of buildings on land traversed by a foreshore building line.

(5) **Maximum gross floor area in Zone 1 or 2** The maximum gross floor area of all buildings on a site in Zone 1—Environmental Housing (Environmentally Sensitive Land) and Zone 2—Environmental Housing (Scenic Quality) is to be as indicated in the following table:

Area of site (m²)	Maximum gross floor area (m²)
Less than 850	$AS \times 0.4$
850-less than 1,200	$(AS - 850) \times 0.3 + 340$
1,200-less than 1,800	$(AS - 1,200) \times 0.25 + 445$
1,800 or more	$(AS - 1,800) \times 0.2 + 595$

where **AS** is the area of the site in square metres.

(5A) The maximum gross floor area of all buildings at 97 Soldiers Road, Jannali may exceed the area provided for in subclause (5), but only if the proposed development is for the purpose of villa houses or townhouses.

Note—

See clause 14 (1) for the maximum floor space ratio applying in relation to that development.

- (6) **Maximum floor space ratios** The maximum floor space ratio applying to development for the purpose of a building on a site in Zone 3—Environmental Housing (Bushland) is 0.45:1.
- (7) The maximum floor space ratio applying to development for the purpose of a building on a site in Zone 4—Local Housing is as follows:
- (a) in the case of a hostel—0.75:1,
 - (b) in any other case—0.45:1.
- (8) The maximum floor space ratio applying to development for the purpose of a building on a site in Zone 5—Multiple Dwelling A is as follows:
- (a) in the case of a dual occupancy or dwelling house—0.45:1,
 - (b) in the case of a hostel—0.75:1,
 - (c) in any other case—0.7:1.
- (9) The maximum floor space ratio applying to development for the purpose of a building on a site in Zone 6—Multiple Dwelling B is as follows:
- (a) in the case of a dwelling house—0.45:1,
 - (b) in the case of a residential flat building:
 - (i) if the area of the site is 1,200 square metres or less—0.7:1, or
 - (ii) if the area of the site is more than 1,200 square metres and less than 1,800 square metres—the ratio calculated as follows:
$$((\text{area of site in square metres} \times 0.0005) + 0.1):1,$$

or
 - (iii) if a floor space ratio is specified on the Height and Density Controls Map in relation to the site concerned—the floor space ratio specified on that map,
 - (c) in the case of a townhouse or a villa house—0.7:1,
 - (d) in any other case:
 - (i) if a floor space ratio is specified on the Height and Density Controls Map in relation to the site concerned—the floor space ratio specified on that map, or
 - (ii) if a floor space ratio is not specified on that map in relation to the site

concerned—1:1.

- (10) The maximum floor space ratio applying to development for the purpose of a building on a site in Zone 7—Mixed Use—Kirrawee is as specified on the Height and Density Controls Map in relation to the site concerned.
- (11) The maximum floor space ratio applying to development for the purpose of a building on a site in Zone 8—Urban Centre or Zone 9—Local Centre is:
- (a) if a floor space ratio is specified on the Height and Density Controls Map in relation to the site concerned—the floor space ratio specified on that map, or
 - (b) if a floor space ratio is not specified on that map in relation to the site concerned—2:1.
- (12) The maximum floor space ratio applying to development for the purpose of a building on a site in Zone 10—Neighbourhood Centre is:
- (a) if a floor space ratio is specified on the Height and Density Controls Map in relation to the site concerned—the floor space ratio specified on that map, or
 - (b) if a floor space ratio is not specified on that map in relation to the site concerned—1:1.
- (13) The maximum floor space ratio applying to development for the purpose of a building on a site in Zone 11—Employment is 1:1.

36 Landscaped area

- (1) **Objectives** The objectives of this clause are as follows:
- (a) to ensure adequate opportunities for the retention or provision of vegetation that contributes to biodiversity,
 - (b) to ensure adequate opportunities for tree retention and tree planting so as to preserve and enhance the tree canopy of Sutherland Shire,
 - (c) to minimise urban run-off by maximising pervious areas on the sites of development,
 - (d) to ensure that the visual impact of development is minimised by appropriate landscaping and that the landscaping is maintained,
 - (e) (Repealed)
 - (f) to ensure that landscaping carried out in connection with development on land in Zone 11—Employment is sufficient to complement the scale of buildings, provide shade, screen parking areas and enhance workforce amenities.

- (2) **Site** The following is taken to be excluded from the site of proposed development for the purposes of this clause:
- (a) land on which the proposed development is prohibited under this plan (other than land on which the proposed development is prohibited solely because of the application of clause 17),
 - (b) in the case of an internal lot:
 - (i) any access corridor to or from the lot (if the lot is a hatchet-shaped lot), and
 - (ii) any right of way that traverses another lot,
 - (c) 40 square metres of the area of any lot on which there is, or is intended to be as part of the proposed development, a swimming pool that is ancillary to a dwelling house.

Note—

Among other things, clause 17 imposes certain restrictions on the erection of buildings on land traversed by a foreshore building line.

- (3) **Controls** The minimum landscaped area of the site of any development for the purpose of a building on any land in Zone 1—Environmental Housing (Environmentally Sensitive Land) or Zone 2—Environmental Housing (Scenic Quality) is indicated in the Table below:

Area of site (m ²)	Minimum landscaped area (m ²)
Less than 850	$AS \times 0.45$
850-less than 1,200	$(AS - 850) \times 0.55 + 383$
1,200- less than 1,800	$(AS - 1,200) \times 0.65 + 576$
1,800 or more	$(AS - 1,800) \times 0.7 + 966$

where **AS** is the area of the site in square metres.

- (4) The minimum landscaped area of the site of any development for the purpose of a building on any land in Zone 3—Environmental Housing (Bushland) is 45 percent of the area of the site.
- (5) The minimum landscaped area of the site of any development is the following percentage of the area of the site specified below for that development:
- (a) development for the purpose of a building (other than a villa house or townhouse) on any land in Zone 4—Local Housing or Zone 5—Multiple Dwelling A—45 per cent,

- (b) development for the purpose of a townhouse on any land in Zone 4—Local Housing—40 per cent,
 - (c) development for the purpose of a villa house on any land in Zone 4—Local Housing—30 per cent,
 - (d) development for the purpose of a townhouse on any land in Zone 5—Multiple Dwelling A—35 per cent,
 - (e) development for the purpose of a villa house on any land in Zone 5—Multiple Dwelling A or Zone 6—Multiple Dwelling B—20 per cent,
 - (f) development for the purpose of a building (other than a dwelling house, villa house, townhouse or residential flat building) on any land in Zone 6—Multiple Dwelling B—60 per cent,
 - (g) development for the purpose of a townhouse on any land in Zone 6—Multiple Dwelling B—35 per cent,
 - (h) development for the purpose of a residential flat building on any land in Zone 6—Multiple Dwelling B—40 per cent,
 - (i) development for the purpose of a building on any land in Zone 11—Employment—10 per cent,
 - (j) development for the purpose of a dwelling house on any land in Zone 6—Multiple Dwelling B—45 per cent,
- (6) The minimum landscaped area of a site for development for the purposes of a combined villa and townhouse development is determined by applying, on a pro rata basis, the minimum percentage set out in subclause (5) for each type of dwelling in the relevant zone.
- (7)–(9) (Repealed)

37 Objectives of clauses 39–42

The objectives of clauses 39–42 are as follows:

- (a) to ensure that a new lot created for the purpose of a dwelling house has a sufficient area available for:
 - (i) a dwelling house and ancillary facilities, and
 - (ii) an outdoor recreation and service space, and
 - (iii) vehicular access to and from the site,
- (b) to ensure that a sufficient area is available for building setbacks to reduce the effect

of radiated heat from bush fire on bush fire prone land,

- (c) to ensure that newly created lots provide adequate building area to accommodate the type of dwellings that are proposed to be built on such lots,
- (d) to ensure that the area and width of lots are sufficient for their intended purpose and provide sufficient space for negative externalities to be resolved on site,
- (e) to ensure that a sufficient area of land is available, in connection with development, for landscaping, drainage and parking so as to achieve a satisfactory residential amenity,
- (f) to ensure new development complements the established scale and character of the streetscape where the development is carried out, and does not dominate the natural qualities of its setting.

38 References to area, width and depth of lot in clauses 39-42

- (1) For the purposes of applying clauses 39-42 to proposed development, the following is to be excluded in calculating the area of a lot of land:
 - (a) land on which the proposed development is prohibited under this plan (other than land on which the proposed development is prohibited solely because of the application of clause 17),
 - (b) any access corridor to or from the lot if the lot is a hatchet-shaped lot.

Note—

Among other things, clause 17 imposes certain restrictions on the erection of buildings on land traversed by a foreshore building line.

- (2) For the purposes of clauses 39-42, the points on the boundaries of a lot of land between which the width or depth of the lot is to be measured are to be as determined by the consent authority having regard to the objectives set out in clause 37.

39 Minimum size of lot for dwelling houses

Note—

Clauses 37 and 38 contain provisions that are relevant to the application of this clause.

- (1) This clause applies to a lot of land in Zone 1—Environmental Housing (Environmentally Sensitive Land), Zone 2—Environmental Housing (Scenic Quality), Zone 3—Environmental Housing (Bushland), Zone 4—Local Housing or Zone 5—Multiple Dwelling A that is created on or after the date on which this plan commences.
- (2) The area, width and depth of a lot of land to which this clause applies on which it is

proposed to erect a dwelling house are not to be less than the minimum area, width and depth specified in the following Table:

Zone	Minimum area (except for internal lots) (m²)	Minimum area for internal lots (m²)	Minimum lot width (m)	Minimum lot depth (m)
Zone 1—Environmental Housing (Environmentally Sensitive Land)	850	1,000	18	27
Zone 2—Environmental Housing (Scenic Quality)	700	850	18	27
Zone 3—Environmental Housing (Bushland)	550	700	15	27
Zone 4—Local Housing	550	700	15	27
Zone 5—Multiple Dwelling A	550	700	15	27

- (3) Despite subclause (1), this clause does not apply to the erection of a dwelling house on a lot of land if development consent for the subdivision of land to create that lot was granted before the date of commencement of this plan.

40 Dual occupancies—internal lots and lot sizes

- (1) This clause applies to land in Zone 1—Environmental Housing (Environmentally Sensitive Land), Zone 2—Environmental Housing (Scenic Quality), Zone 3—Environmental Housing (Bushland), Zone 4—Local Housing or Zone 5—Multiple Dwelling A.
- (2) Despite any other provision of this plan, the following are prohibited on land to which this clause applies:
- the subdivision of land for the purpose of a dual occupancy, whether attached or detached, if the lot on which the dual occupancy is proposed is an internal lot,
 - the subdivision of land to create a separate lot for each dwelling that currently comprises a dual occupancy, if any of the resulting lots would be an internal lot,
 - the erection of a dual occupancy, or the erection of a second dwelling, whether

attached or detached, to create a dual occupancy on an internal lot, other than if one of the dwellings comprising the dual occupancy has a gross floor area not exceeding 65 square metres.

- (3) Despite any other provision of this plan, the subdivision of land to create a separate lot for each dwelling that currently comprises a dual occupancy is prohibited if the land is in Zone 1—Environmental Housing (Environmentally Sensitive Land) or Zone 2—(Environmental Housing (Scenic Quality)).
- (4) The minimum area and minimum width of a lot of land in Zone 3—Environmental Housing (Bushland), Zone 4—Local Housing or Zone 5—Multiple Dwelling A is 800 square metres and 18 metres, respectively, if:
 - (a) there is a dual occupancy on the lot, and
 - (b) it is proposed to subdivide the lot to create a separate lot for each dwelling that currently comprises the dual occupancy.
- (5) Subclause (4) does not apply to a subdivision to create a lot within the meaning of the *Strata Schemes (Freehold Development) Act 1973* or the *Strata Schemes (Leasehold Development) Act 1986*.
- (6) Despite any other provision of this plan, the subdivision of land to create a separate lot for each dwelling that currently comprises a dual occupancy is prohibited if one of the dwellings has a gross floor area that does not exceed 65 square metres.
- (7) Despite any other provision of this plan, if proposed development on a lot is for dual occupancy in a zone shown in Column 1 of the following Table and both the dwellings comprising the dual occupancy will each have a gross floor area greater than 65 square metres, development consent must not be granted to the development unless the lot is equal to or greater than the minimum area specified in Column 2 of that Table for that zone.

Table

Column 1	Column 2
Zone	Minimum area (square metres)
Zone 1—Environmental Housing (Environmentally Sensitive Land)	850
Zone 2—Environmental Housing (Scenic Quality)	700
Zone 3—Environmental Housing (Bushland)	600
Zone 4—Local Housing	600

Zone 5—Multiple Dwelling A

600

Note—

The term **dual occupancy** is defined in the Dictionary to mean 2 dwellings (whether attached or detached) on 1 lot of land. If that lot is subdivided, the dwellings cease to be a dual occupancy.

41 Villa houses, townhouses and residential flat buildings—internal lots and lot sizes

Note—

Clauses 37 and 38 contain provisions that are relevant to the application of this clause.

- (1) **Application of clause** This clause applies to land in Zone 4—Local Housing, Zone 5—Multiple Dwelling A or Zone 6—Multiple Dwelling B.
- (2) This clause does not apply in relation to seniors housing.
- (3) **Villa houses and townhouses** The erection of a villa house or a townhouse on an internal lot of land to which this clause applies is prohibited.
- (4) The minimum area of a lot of land to which this clause applies on which it is proposed to erect a townhouse or a villa house is 1,200 square metres and the minimum width of any such lot is 25 metres.
- (5) **Residential flat buildings** The minimum area of a lot of land in Zone 6—Multiple Dwelling B on which it is proposed to erect a residential flat building is 1,800 square metres and the minimum width of any such lot is 30 metres.
- (6) Despite subclause (5), a lot of land in Zone 6—Multiple Dwelling B on which it is proposed to erect a residential flat building may be less than 1,800 square metres, or have a minimum width of less than 30 metres, if the consent authority is satisfied that:
 - (a) the amalgamation of the lot with an adjoining lot is not reasonably feasible, or
 - (b) the orderly and economic use and development of the lot and the adjoining lot can be achieved if amalgamation is not feasible.

42 Seniors housing—minimum lot size

Note—

Clauses 37 and 38 contain provisions that are relevant to the application of this clause.

The minimum area of a lot on which it is proposed to erect seniors housing is 1,200 square metres and the minimum width of any such lot is 25 metres.

43 (Repealed)

44 Convenience stores—maximum floor space

The maximum floor space of a convenience store is 100 square metres.

45 Childcare centres—maximum number of children in Zone 1, 2, 4, 5 or 6

The maximum number of children that may be supervised or cared for in a childcare centre is 45 if the childcare centre is located on land in any of the following zones:

- (a) Zone 1—Environmental Housing (Environmentally Sensitive Land),
- (b) Zone 2—Environmental Housing (Scenic Quality),
- (c) Zone 4—Local Housing,
- (d) Zone 5—Multiple Dwelling A,
- (e) Zone 6—Multiple Dwelling B.

46 Telecommunication facilities and electromagnetic radiation emitting facilities and structures

(1) In this clause:

relevant facility or structure means any of the following:

- (a) a telecommunications facility,
- (b) a radio communications facility,
- (c) any other facility or structure that emits electromagnetic radiation in the radio frequency of the electromagnetic spectrum.

(2) The consent authority must not consent to development for the purpose of a relevant facility or structure unless it has considered the following matters that are of relevance to the development:

- (a) the extent to which reasonable access to telecommunications and other communications technology that have no adverse impact on human health or the natural environment has been encouraged, or will be encouraged by the proposed development,
- (b) the extent to which the precautionary principle has been applied in choosing the site of the relevant facility or structure,
- (c) the extent to which any proposed relevant facility or structure will be visually compatible with the character of the surrounding area and visually integrated into any building or structure on which it is located.

Division 3 Miscellaneous

47 Temporary use of land

- (1) Despite any other provision of this plan, consent may be granted to the use of any land or building for a purpose that would otherwise be prohibited by this plan, but only for a period of not more than 28 days.
- (2) However, consent must not be granted under this clause to any use of the same land or building (whether or not the same use) for more than 28 days (whether consecutive or not) in any 12-month period.
- (3) The consent authority must not consent to the use of any land or building under this clause unless it is satisfied that:
 - (a) suitable arrangements have been or will be made for the removal of any structures erected or works carried out in connection with the use, and for the reinstatement of the land to its former state after the cessation of the use, and
 - (b) the use is reasonable having regard to the nature of the use and the desirability of enabling the economic use of land before any further development in accordance with other provisions of this plan, and
 - (c) the use would not be likely to adversely affect the residential amenity of the locality concerned, and
 - (d) the use would not be likely to adversely affect the viability of any commercial centre in the locality, and
 - (e) the use would not be likely to adversely affect the environmental quality of the locality.
- (4) This clause does not apply to a use of any land or building that is designated development.

48 Urban design—general

The consent authority must not consent to development unless it has considered the following matters that are of relevance to the development:

- (a) the extent to which high quality design and development outcomes for the urban environment of Sutherland Shire have been attained, or will be attained by the proposed development,
- (b) the extent to which any proposed buildings are designed and will be constructed to:
 - (i) strengthen, enhance or integrate into the existing character of distinctive locations, neighbourhoods and streetscapes, and

- (ii) contribute to the desired future character of the locality concerned,
- (c) the extent to which recognition has been given to the public domain in the design of the proposed development and the extent to which that design will facilitate improvements to the public domain,
- (d) the extent to which the natural environment will be retained or enhanced by the proposed development,
- (e) the extent to which the proposed development will respond to the natural landform of the site of the development,
- (f) the extent to which the proposed development will preserve, enhance or reinforce specific areas of high visual quality, ridgelines and landmark locations, including gateways, nodes, views and vistas,
- (g) the principles for minimising crime risk set out in Part B of the Crime Prevention Guidelines and the extent to which the design of the proposed development applies those principles.

49 Urban design—residential buildings

The consent authority must not consent to development for the purpose of residential buildings unless it has considered the following matters that are of relevance to the development:

- (a) the extent to which recognition has been given in the design of the development to the needs of the diverse and changing population of Sutherland Shire,
- (b) the extent to which any adverse impacts of the proposed development on adjoining land and open space in terms of overshadowing, overlooking, views, privacy and visual intrusion will be minimised,
- (c) the extent to which the quality of the streetscape concerned will be improved by the development,
- (d) the extent to which there will be private open space of a sufficient area and dimensions to enable proposed and required activities,
- (e) the extent to which any adverse impacts of the proposed development on adjoining land in terms of size, bulk, height, scale and siting will be minimised,
- (f) the extent to which the residential building concerned integrates with a well-designed landscaped setting,
- (g) any opportunities for the provision of affordable housing.

50 Urban design—non-residential development in residential areas

- (1) This clause applies to development, other than residential development, on land in the following zones:
 - (a) Zone 1—Environmental Housing (Environmentally Sensitive Land),
 - (b) Zone 2—Environmental Housing (Scenic Quality),
 - (c) Zone 3—Environmental Housing (Bushland),
 - (d) Zone 4—Local Housing,
 - (e) Zone 5—Multiple Dwelling A,
 - (f) Zone 6—Multiple Dwelling B.
- (2) The consent authority must not consent to development to which this clause applies unless it has considered the following matters that are of relevance to the development:
 - (a) the extent to which any proposed non-residential buildings and their design will integrate into the locality concerned,
 - (b) the extent to which any such buildings will respond to the local character, and relate to the scale, streetscape, setbacks and use of materials of residential buildings,
 - (c) the extent to which the residential amenity of the locality concerned will be protected from detrimental traffic-related impacts and noise associated with the development.

51 Ecologically sustainable development

The consent authority must not consent to development unless it has considered the following matters that are of relevance to the development:

- (a) the principles of ecologically sustainable development,
- (b) the extent to which the proposed development will meet the needs of the present without compromising the ability of future generations to meet their needs,
- (c) the extent to which the proposed development will improve the quality of life, both now and into the future, in a way that maintains the ecological processes on which life depends,
- (d) the extent to which the proposed development will contribute to the achievement of high quality ecologically sustainable development outcomes for the urban environment of Sutherland Shire,

- (e) to extent to which the proposed development will retain and enhance the natural environment.

52 Energy efficiency and sustainable building techniques

The consent authority must not consent to development for the purpose of buildings unless it has considered the following matters that are of relevance to the development:

- (a) the extent to which potential energy consumption may be reduced during the construction, occupation, utilisation and lifecycle of proposed buildings,
- (b) the extent to which sustainable natural resources, such as the sun and wind, will be used in proposed buildings to create naturally comfortable living and working environments,
- (c) the extent to which proposed building materials and construction techniques are ecologically sustainable and will:
 - (i) minimise the expenditure of energy (including, in the case of building materials, any expenditure of energy involved in their manufacture), and
 - (ii) maximise the useful lifecycle of proposed buildings.

53 Transport accessibility, traffic impacts and car parking

The consent authority must not consent to development unless it has considered the following matters that are of relevance to the development:

- (a) the extent to which the proposed development maximises opportunities, through design integration, to provide:
 - (i) efficient links to identified transport nodes and corridors, such as railway stations, bus routes, pedestrian and cycle paths, and
 - (ii) facilities to cater for bicycle users,
- (b) the extent to which the demand for car parking, where there is good access to public transport nodes, will be managed,
- (c) the extent to which appropriate levels of car parking will be provided in connection with the development,
- (d) the extent to which walking, cycling and the use of public transport have been or will be encouraged,
- (e) the design of proposed car parking areas and access to them.

54 Heritage

- (1) **Objectives** The objectives of this clause are as follows:

- (a) to conserve the environmental heritage of Sutherland Shire,
- (b) to conserve the heritage significance of heritage items, including associated fabric, settings and views,
- (c) to conserve archaeological sites,
- (d) to conserve places of Aboriginal heritage significance,
- (e) to protect and recognise locally significant trees and natural landforms as part of Sutherland Shire's environmental heritage,
- (f) to provide flexibility in the application of standards for development or permitted uses of land to enable appropriate conservation of heritage items,
- (g) to ensure timely consultation with State agencies, the relevant local Aboriginal land council and local communities to ensure that measures to conserve items are appropriate,
- (h) to limit inappropriate and unsympathetic development in the vicinity of cultural heritage items.

(2) **Requirement for consent** Development consent is required for any of the following:

- (a) demolishing or moving a heritage item,
- (b) altering a heritage item, including (in the case of a building) making changes to the detail, fabric, finish or appearance of its exterior,
- (c) altering a heritage item that is a building, by making structural changes to its interior,
- (d) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed,
- (e) disturbing or excavating a place of Aboriginal heritage significance,
- (f) erecting a building on, or subdividing, land on which a heritage item is located.

(3) **When consent not required** However, consent under this clause is not required if:

- (a) the applicant has notified the consent authority in writing of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development:
 - (i) is of a minor nature or consists of maintenance of the heritage item, archaeological site or place of Aboriginal heritage significance, and
 - (ii) would not adversely affect the significance of the heritage item, archaeological

site or place of Aboriginal heritage significance, or

- (b) the development is in a cemetery or burial ground and the proposed development:
 - (i) is the creation of a new grave or monument, or excavation or disturbance of land for the purpose of conserving or repairing monuments or grave markers, and
 - (ii) would not cause disturbance to human remains, relics, Aboriginal objects in the form of grave goods, or to a place of Aboriginal heritage significance, or
- (c) the development is limited to the removal of a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(4) **Advertised development** The demolition of a heritage item is advertised development.

(5) (Repealed)

(6) **Archaeological sites of non-Aboriginal heritage significance** The consent authority must, before granting consent under this clause to development on an archaeological site (including development referred to in subclause (2) (d)):

- (a) consider the effect of the proposed development on the heritage significance of the site and any relic known or reasonably likely to be located at the place, and
- (b) be satisfied that any necessary excavation permit required by the [Heritage Act 1977](#) has been granted.

(7) Subclause (6) does not apply to:

- (a) any development that, in the opinion of the consent authority, does not involve:
 - (i) any disturbance of below-ground relics, or
 - (ii) any adverse impact on the heritage significance of above-ground relics, or
- (b) any site or relic that is listed on the State Heritage Register.

(8) **Places of Aboriginal heritage significance** The consent authority must, before granting consent under this clause to carrying out development in a place of Aboriginal heritage significance (including development referred to in subclause (2) (e)):

- (a) consider the effect of the proposed development on the heritage significance of the place and any Aboriginal object known or reasonably likely to be located at the place, and
- (b) notify the local Aboriginal communities (in such way as it thinks appropriate) about the application and take into consideration any response received within 21 days after the notice is sent.

- (9) **Heritage impact assessment** The consent authority may, before granting consent to any development on land on which a heritage item is situated, require a heritage impact statement to be prepared.
- (10) For the purposes of considering the matters referred to in subclause (6) (a) or (8) (a), the consent authority must require a heritage impact statement to be prepared.
- (11) A heritage impact statement prepared for the purposes of considering the matters referred to in subclause (8) (a), must be prepared in consultation with a person who, in the opinion of the consent authority, is a suitably qualified Aboriginal archaeologist.
- (12) However, a heritage impact statement is not required to be prepared for the purposes of considering the matters referred to in subclause (8) (a) if:
- (a) the proposed development involves the erection or use of a building and is to be carried out wholly within an existing or previous building footprint, or
 - (b) the proposed development is located away from sandstone rock features, shell deposits or other sites that, in the opinion of the consent authority, are, or have the potential to be, of Aboriginal heritage significance.
- (13) **Certain development permissible if retention of heritage item is dependent on consent** Despite any other provision of this plan, the consent authority may grant consent to the use of land on which a building that is a heritage item is located (including the use of the building) for any purpose if:
- (a) it is satisfied that the retention of the heritage item depends on the granting of consent, and
 - (b) the proposed use is in accordance with a heritage conservation management plan that has been approved by the consent authority, and
 - (c) the granting of consent to the proposed use would ensure that all necessary conservation work identified in the conservation management plan is carried out, and
 - (d) the proposed use would not adversely affect the heritage significance of the heritage item, and
 - (e) the proposed use would not have a significant adverse effect on the amenity of the surrounding area.

Note—

The website of the Heritage Branch of the Department of Planning has publications that provide guidance on assessing the impact of proposed development on the heritage significance of items (for example, *Statements of Heritage Impact*).

55 Significant trees or natural landforms

- (1) This clause applies to land on which a significant tree or significant landform is located.
- (2) The consent authority must not consent to development on land to which this clause applies unless it is satisfied that:
 - (a) the development will be carried out in a manner that ensures the continued good health of the tree or the continued structural integrity and visual quality of the landforms, and
 - (b) in the case of development involving the erection of a building:
 - (i) the building will be set back from the drip-line of any significant tree, and
 - (ii) the building will not encroach on, or adversely affect, any significant landform, and
 - (c) development carried out in the immediate vicinity of significant trees will not result in the alteration of any significant landform or of any contour lines or drainage patterns.

56 Preservation of trees or vegetation

- (1) The objective of this clause is to ensure the protection of trees and bushland vegetation that are fundamental to the conservation of biodiversity in Sutherland Shire.
- (2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note—

A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

- (3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
 - (a) a development consent, or
 - (b) a permit granted by the Council.
- (4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.
- (5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

- (6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.
- (7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation that is or forms part of a heritage item.

Note—

As a consequence of this subclause, the activities concerned will require development consent. Clauses 54 and 55 will be applicable to any such consent.

- (8) This clause does not apply to or in respect of:
- (a) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the *Forestry Act 1916*, or
 - (b) action required or authorised to be done by or under the *Electricity Supply Act 1995*, the *Roads Act 1993* or the *Surveying Act 2002*, or
 - (c) plants declared to be noxious weeds under the *Noxious Weeds Act 1993*.

57 Removal of certain vegetation permissible without consent

Despite any other provision of this plan, any development comprised in the removal of any of the vegetation listed in the Table to this clause may be carried out without consent unless the vegetation is or forms part of a heritage item.

58 Savings and transitional provision

A development application made, but not finally determined, before the commencement of [Sutherland Shire Local Environmental Plan 2006 \(Amendment No 4\)](#) is to be determined as if the plan had been exhibited but had not been made.

Part 4 Heathcote Ridge West Menai site

59 Application of Part

- (1) This Part applies to the land identified on the [Land Application Map](#), referred to in this Part as the **Heathcote Ridge West Menai site**.
- (2) No other provision of this plan (other than clauses 5 (2) and 6) applies to land within the Heathcote Ridge West Menai site.

60 Interpretation

- (1) In this Part:

Council means the Sutherland Shire Council.

Height of Buildings Map means the [Sutherland Shire Local Environmental Plan 2006—Heathcote Ridge West Menai—Height of Buildings Map](#).

Land Application Map means the [Sutherland Shire Local Environmental Plan 2006—Heathcote Ridge West Menai—Land Application Map](#).

Land Zoning Map means the [Sutherland Shire Local Environmental Plan 2006—Heathcote Ridge West Menai—Land Zoning Map](#).

Lot Size Map means the [Sutherland Shire Local Environmental Plan 2006—Heathcote Ridge West Menai—Lot Size Map](#).

- (2) A word or expression used in this Part has the same meaning as it has in the standard instrument prescribed by the [Standard Instrument \(Local Environmental Plans\) Order 2006](#), unless it is otherwise defined in this Part.
- (3) A reference in clause 65 to a type of building or other thing does not include (despite any definition applied to this Part) a reference to a type of building or other thing

referred to separately in the clause.

61 Maps

- (1) A reference in this Part to a named map adopted by this Part is a reference to a map by that name:
 - (a) approved by the Minister when the map is adopted, and
 - (b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the Minister when the instruments are made.
- (2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Part to any such named map is a reference to the relevant part or aspect of the single map.
- (3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.
- (4) For the purposes of this Part, a map may be in, and may be kept and made available in, electronic or paper form, or both.

62 Application of SEPPs

- (1) This Part is subject to the provisions of any State environmental planning policy that prevails over this Part as provided by section 36 of the Act.
- (2) *State Environmental Planning Policy No 1—Development Standards* does not apply to the land to which this Part applies.

63 Land use zones

For the purposes of this Part, land within the Heathcote Ridge West Menai site is within a zone as follows if the land is shown on the [Land Zoning Map](#) as being within that zone:

- (a) Zone R2 Low Density Residential.

64 Objectives of land use zones to be taken into account

The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.

65 Zone R2 Low Density Residential

- (1) The objectives of Zone R2 Low Density Residential are as follows:
 - (a) to provide for the housing needs of the community within a low density residential environment,

(b) to enable other land uses that provide facilities or services to meet the day to day needs of residents.

(2) Development for any of the following purposes is permitted without development consent on land within Zone R2 Low Density Residential:

home occupations.

(3) Development for any of the following purposes is permitted only with development consent on land within Zone R2 Low Density Residential:

bed and breakfast accommodation; boarding houses; child care centres; community facilities; dual occupancies; dwelling houses; environmental protection works; exhibition homes; exhibition villages; flood mitigation works; group homes; health consulting rooms; home businesses; home industries; multi dwelling housing; places of public worship; recreation areas; respite day care centres; roads; secondary dwellings; semi-detached dwellings; seniors housing.

(4) Except as otherwise provided by this Part, development for any of the following purposes is prohibited on land within Zone R2 Low Density Residential:

any development not specified in subclause (2) or (3).

66 Subdivision—consent requirements

(1) Land to which this Part applies may be subdivided, but only with development consent.

(2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

67 Minimum subdivision lot size

(1) The objectives of this clause are as follows:

(a) to establish minimum lot sizes for residential and commercial development,

(b) to ensure that residential development has adequate usable areas for buildings and open space,

(c) to ensure that commercial development has adequate usable areas for buildings, parking and landscaping,

(d) to facilitate and encourage the provision of a range of dwelling types.

(2) This clause applies to a subdivision of any land shown on the [Lot Size Map](#) that requires development consent and that is carried out after the commencement of this

Part.

- (3) The size of any lot resulting from a subdivision of land to which this clause applies must not be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (4) This clause does not apply in relation to the subdivision of individual lots in a strata plan or community title scheme.

68 Height of buildings

- (1) The objectives of this clause are as follows:
 - (a) to establish the maximum height for buildings,
 - (b) to ensure that the height of buildings complements the streetscape and character of the area in which the buildings are located,
 - (c) to minimise visual impact, disruption of views, loss of privacy and loss of solar access to existing development.
- (2) The height of a building on any land within the Heathcote Ridge West Menai site must not exceed the maximum height shown for the land on the [Height of Buildings Map](#).

69 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

Note—

If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Part or [State Environmental Planning Policy \(Exempt and Complying Development Codes\) 2008](#), as exempt development, the Act enables it to be carried out without development consent.

70 Temporary use of land

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.
- (2) Despite any other provision of this Part, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 52 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that:
 - (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Part and any other applicable environmental planning instrument, and

- (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
 - (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and
 - (d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.
- (4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.
- (5) Subclause (3) (d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

71 Interim land use for exhibition and sales office

- (1) Despite any other provision of this Part, development consent may be granted for development on land in Zone R2 Low Density Residential for the purposes of an exhibition and sales office for a maximum period of 6 years from the date of consent.
- (2) Development consent must not be granted unless the consent authority is satisfied that:
- (a) the use will not prejudice the subsequent carrying out of development on the land in accordance with this Part and any other applicable environmental planning instrument, and
 - (b) the use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
 - (c) the use and location of any structures related to the use will not adversely impact on environmental attributes, heritage significance, features of the land, or increase the risk of natural hazards that may affect the land.
- (3) In this clause:

exhibition and sales office means a building or place used for house and land sales, site offices, advisory services, car parking and other associated purposes.

72 Exceptions to development standards

- (1) The objectives of this clause are as follows:
- (a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,

- (b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.
- (2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.
- (3) Development consent must not be granted for development that contravenes a development standard unless the consent authority has considered a written request from the applicant that seeks to justify the contravention of the development standard by demonstrating:
 - (a) that compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and
 - (b) that there are sufficient environmental planning grounds to justify contravening the development standard.
- (4) Development consent must not be granted for development that contravenes a development standard unless:
 - (a) the consent authority is satisfied that:
 - (i) the applicant's written request has adequately addressed the matters required to be demonstrated by subclause (3), and
 - (ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out, and
 - (b) the concurrence of the Director-General has been obtained.
- (5) In deciding whether to grant concurrence, the Director-General must consider:
 - (a) whether contravention of the development standard raises any matter of significance for State or regional environmental planning, and
 - (b) the public benefit of maintaining the development standard, and
 - (c) any other matters required to be taken into consideration by the Director-General before granting concurrence.
- (6) After determining a development application made pursuant to this clause, the consent authority must keep a record of its assessment of the factors required to be addressed in the applicant's written request referred to in subclause (3).

- (7) This clause does not allow development consent to be granted for development that would contravene any of the following:
- (a) a development standard for complying development,
 - (b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which [State Environmental Planning Policy \(Building Sustainability Index: BASIX\) 2004](#) applies or for the land on which such a building is situated,
 - (c) clause 74, 80 or 81.

73 Development near zone boundaries

- (1) The objective of this clause is to provide flexibility where the investigation of a site and its surroundings reveals that a use allowed on the other side of a zone boundary would enable a more logical and appropriate development on the site and be compatible with the planning objectives and land uses for the adjoining zone.
- (2) This clause applies to so much of any land that is within the relevant distance of a boundary between any 2 zones. The relevant distance is 25 metres.
- (3) This clause does not apply to land proposed to be developed for the purpose of sex services or restricted premises.
- (4) Despite the provisions of this Part relating to the purposes for which development may be carried out, development consent may be granted to development of land to which this clause applies for any purpose that may be carried out in the adjoining zone, but only if the consent authority is satisfied that:
 - (a) the development is not inconsistent with the objectives for development in both zones, and
 - (b) the carrying out of the development is desirable due to compatible land use planning principles relating to the efficient and timely development of land.
- (5) This clause does not prescribe a development standard that may be varied under this Part.

74 Controls relating to miscellaneous permissible uses

- (1) **Bed and breakfast accommodation** If development for the purposes of bed and breakfast accommodation is permitted under this Part, the accommodation that is provided to guests must consist of no more than 5 bedrooms.

Note—

Any such development that provides for a certain number of guests or rooms may involve a change in the class of building under the *Building Code of Australia*.

- (2) **Home businesses** If development for the purposes of a home business is permitted under this Part, the carrying on of the business must not involve the use of more than 50 square metres of floor area.
- (3) **Home industries** If development for the purposes of a home industry is permitted under this Part, the carrying on of the home industry must not involve the use of more than 50 square metres of floor area.
- (4) **Secondary dwellings** If development for the purposes of a secondary dwelling is permitted under this Part, the total floor area of the dwelling (excluding any area used for parking) must not exceed whichever of the following is the greater:
 - (a) 60 square metres,
 - (b) 20% of the total floor area of the principal dwelling.

75 Conversion of fire alarms

- (1) This clause applies to a fire alarm system that can be monitored by Fire and Rescue NSW or by a private service provider.
- (2) The following development may be carried out, but only with development consent:
 - (a) converting a fire alarm system from connection with the alarm monitoring system of Fire and Rescue NSW to connection with the alarm monitoring system of a private service provider,
 - (b) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with the alarm monitoring system of another private service provider,
 - (c) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with a different alarm monitoring system of the same private service provider.
- (3) Development to which subclause (2) applies is complying development if it consists only of:
 - (a) internal alterations to a building, or
 - (b) internal alterations to a building together with the mounting of an antenna, and any support structure, on an external wall or roof of a building so as to occupy a space of not more than 450mm × 100mm × 100mm.
- (4) A complying development certificate for any such complying development is subject to a condition that any building work may only be carried out between 7.00 am and 6.00 pm on Monday to Friday and between 7.00 am and 5.00 pm on Saturday, and must not be carried out on a Sunday or a public holiday.

(5) In this clause:

private service provider means a person or body that has entered into an agreement that is in force with Fire and Rescue NSW to monitor fire alarm systems.

76 Preservation of trees or vegetation

- (1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.
- (2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note—

A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

- (3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
 - (a) development consent, or
 - (b) a permit granted by the Council.
- (4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.
- (5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.
- (6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.
- (7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
 - (a) that is or forms part of a heritage item (within the meaning of clause 77 (10)), or
 - (b) that is within an Aboriginal place of heritage significance,
unless the Council is satisfied that the proposed activity:
 - (c) is of a minor nature or is for the maintenance of the heritage item or Aboriginal place of heritage significance, and
 - (d) would not adversely affect the heritage significance of the heritage item or Aboriginal place of heritage significance.

Note—

As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 77 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:

(a) the clearing of native vegetation:

(i) that is authorised by a development consent or property vegetation plan under the *Native Vegetation Act 2003*, or

(ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or

(b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the *Native Vegetation Act 2003*) that is authorised by a development consent under the provisions of the *Native Vegetation Conservation Act 1997* as continued in force by that clause, or

(c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the *Forestry Act 1916*, or

(d) action required or authorised to be done by or under the *Electricity Supply Act 1995*, the *Roads Act 1993* or the *Surveying and Spatial Information Act 2002*, or

(e) plants declared to be noxious weeds under the *Noxious Weeds Act 1993*.

Note—

Permissibility may be a matter that is determined by or under any of these Acts.

77 Heritage conservation

(1) **Requirement for consent** Development consent is required for any of the following:

(a) demolishing or moving a heritage item,

(b) altering a heritage item that is a building by making structural changes to its interior or by making changes to anything inside the item that is specified in the Table to this clause in relation to the item,

(c) disturbing or excavating a heritage item that is an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed,

(d) disturbing or excavating an Aboriginal place of heritage significance,

(e) erecting a building on land on which a heritage item is located or that is within an Aboriginal place of heritage significance,

(f) subdividing land on which a heritage item is located or that is within an Aboriginal place of heritage significance.

(2) **When consent not required** However, development consent under this clause is not required if:

(a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development:

(i) is of a minor nature or is for the maintenance of the heritage item or Aboriginal place of heritage significance, and

(ii) would not adversely affect the heritage significance of the heritage item or Aboriginal place, or

(b) the development is in a cemetery or burial ground and the proposed development:

(i) is the creation of a new grave or monument, or excavation or disturbance of land for the purpose of conserving or repairing monuments or grave markers, and

(ii) would not cause disturbance to human remains, relics, Aboriginal objects in the form of grave goods, or to an Aboriginal place of heritage significance, or

(c) the development is limited to the removal of a tree or other vegetation that the Council is satisfied is a risk to human life or property, or

(d) the development is exempt development.

(3) **Effect of proposed development on heritage significance** The consent authority must, before granting consent under this clause in respect of a heritage item, consider the effect of the proposed development on the heritage significance of the item. This subclause applies regardless of whether a heritage management document is prepared under subclause (4) or a heritage conservation management plan is submitted under subclause (5).

(4) **Heritage assessment** The consent authority may, before granting consent to any development:

(a) on land on which a heritage item is located, or

(b) on land that is within an Aboriginal place of heritage significance, or

(c) on land that is within the vicinity of land referred to in paragraph (a) or (b),

require a heritage management document to be prepared that assesses the extent to which the carrying out of the proposed development would affect the heritage

significance of the heritage item or Aboriginal place concerned.

- (5) **Heritage conservation management plans** The consent authority may require, after considering the heritage significance of a heritage item and the extent of change proposed to it, the submission of a heritage conservation management plan before granting consent under this clause.
- (6) **Archaeological sites** The consent authority must, before granting consent under this clause to the carrying out of development on a heritage item that is an archaeological site (other than land listed on the State Heritage Register or to which an interim heritage order under the *Heritage Act 1977* applies):
- (a) notify the Heritage Council of its intention to grant consent, and
 - (b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.
- (7) **Aboriginal places of heritage significance** The consent authority must, before granting consent under this clause to the carrying out of development in an Aboriginal place of heritage significance:
- (a) consider the effect of the proposed development on the heritage significance of the place and any Aboriginal object known or reasonably likely to be located at the place by means of an adequate investigation and assessment (which may involve consideration of a heritage impact statement), and
 - (b) notify the local Aboriginal communities, in writing or in such other manner as may be appropriate, about the application and take into consideration any response received within 28 days after the notice is sent.
- (8) **Demolition of nominated State heritage items** The consent authority must, before granting consent under this clause for the demolition of a nominated State heritage item:
- (a) notify the Heritage Council about the application, and
 - (b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.
- (9) **Conservation incentives** The consent authority may grant consent to development for any purpose of a building that is a heritage item or of the land on which such a building is erected, or for any purpose on an Aboriginal place of heritage significance, even though development for that purpose would otherwise not be allowed by this Part, if the consent authority is satisfied that:
- (a) the conservation of the heritage item or Aboriginal place of heritage significance is facilitated by the granting of consent, and

- (b) the proposed development is in accordance with a heritage management document that has been approved by the consent authority, and
- (c) the consent to the proposed development would require that all necessary conservation work identified in the heritage management document is carried out, and
- (d) the proposed development would not adversely affect the heritage significance of the heritage item, including its setting, or the heritage significance of the Aboriginal place of heritage significance, and
- (e) the proposed development would not have any significant adverse effect on the amenity of the surrounding area.

(10) In this clause:

heritage item means a building, work, archaeological site, tree, place or Aboriginal object described in the Table to this clause.

Table—heritage items

Item description	Address	Property description	Significance	Item no

(When this clause commenced this Table was blank)

78 Bush fire hazard reduction

Bush fire hazard reduction work authorised by the [Rural Fires Act 1997](#) may be carried out on any land without development consent.

Note—

The [Rural Fires Act 1997](#) also makes provision relating to the carrying out of development on bush fire prone land.

79 Infrastructure development and use of existing buildings of the Crown

- (1) This Part does not restrict or prohibit, or enable the restriction or prohibition of, the carrying out of any development, by or on behalf of a public authority, that is permitted to be carried out with or without development consent, or that is exempt development, under [State Environmental Planning Policy \(Infrastructure\) 2007](#).
- (2) This Part does not restrict or prohibit, or enable the restriction or prohibition of, the use of existing buildings of the Crown by the Crown.

80 Arrangements for designated State public infrastructure

- (1) The objective of this clause is to require satisfactory arrangements to be made for the provision of designated State public infrastructure before the subdivision of land to which this Part applies to satisfy needs that arise from development on the land, but

only if the land is developed intensively for urban purposes.

- (2) Development consent must not be granted for the subdivision of land to which this Part applies if the subdivision would create a lot smaller than the minimum lot size permitted on the land immediately before the commencement of this Part, unless the Director-General has certified in writing that satisfactory arrangements have been made to contribute to the provision of designated State public infrastructure in relation to that lot.
- (3) Subclause (2) does not apply in relation to:
 - (a) any lot identified in the certificate as a residue lot, or
 - (b) any lot to be created by a subdivision of land that was the subject of a previous development consent granted in accordance with this clause, or
 - (c) any lot that is proposed to be reserved or dedicated for public open space, public roads, public utility undertakings, educational facilities, or any other public purpose, or
 - (d) a subdivision for the purpose only of rectifying an encroachment on any existing lot.
- (4) In this clause, **designated State public infrastructure** means public facilities or services that are provided or financed by the State (or if provided or financed by the private sector, to the extent of any financial or in-kind contribution by the State) of the following kinds:
 - (a) State and regional roads,
 - (b) bus interchanges and bus lanes,
 - (c) land required for regional open space,
 - (d) land required for social infrastructure and facilities (such as land for schools, hospitals, emergency services and justice purposes).
- (5) This clause does not apply to any part of the Heathcote Ridge West Menai site if all or any part of it is in a special contributions area (as defined by section 93C of the Act).

81 Public utility infrastructure

- (1) Development consent must not be granted for development on land within the Heathcote Ridge West Menai site unless the consent authority is satisfied that any public utility infrastructure that is essential for the proposed development is available or that adequate arrangements have been made to make that infrastructure available when required.
- (2) This clause does not apply to development for the purpose of providing, extending,

augmenting, maintaining or repairing any public utility infrastructure.

- (3) In this clause, **public utility infrastructure** includes infrastructure for any of the following:
- (a) the supply of water,
 - (b) the supply of electricity,
 - (c) the disposal and management of sewage.

82 Suspension of covenants, agreements and instruments

- (1) For the purpose of enabling development on land within the Heathcote Ridge West Menai site to be carried out in accordance with this Part or with a consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.
- (2) This clause does not apply:
- (a) to a covenant imposed by the Council or that the Council requires to be imposed, or
 - (b) to any prescribed instrument within the meaning of section 183A of the *Crown Lands Act 1989*, or
 - (c) to any conservation agreement within the meaning of the *National Parks and Wildlife Act 1974*, or
 - (d) to any Trust agreement within the meaning of the *Nature Conservation Trust Act 2001*, or
 - (e) to any property vegetation plan within the meaning of the *Native Vegetation Act 2003*, or
 - (f) to any biobanking agreement within the meaning of Part 7A of the *Threatened Species Conservation Act 1995*, or
 - (g) to any planning agreement within the meaning of Division 6 of Part 4 of the Act.
- (3) This clause does not affect the rights or interests of any public authority under any registered instrument.
- (4) Under section 28 of the Act, the Governor, before the making of this clause, approved of subclauses (1)–(3).

Type of development	Development standards
	Height must not exceed 4m above ground level. Must be set back behind the following: (a) the building line of the land, (b) the alignment of any dwelling on any adjoining land. Must be set back from the side and rear boundaries of the land: (a) at least 1.5m if the land is in Zone 1—Environmental Housing (Environmentally Sensitive Land), Zone 2—Environmental Housing (Scenic Quality) or Zone 3—Environmental Housing (Bushland) or bush fire prone land, or (b) at least 500mm in any other case.
Awnings, carports, pergolas, shade structures and sunshades	Finished floor level must be no more than 1m above ground level. Must not be carried out on land that is adjacent to Zone 22—Arterial Road if the development involves a new vehicular accessway, or alters an existing accessway, to an arterial road in that zone. Must not be carried out on bush fire interface property or bush fire prone land, except if constructed of non-combustible materials. Must not be carried out on contaminated risk land, flood planning land, foreshore land or heritage item land. Must meet the standards for access, car spaces, landscaped area, storm water and tree removal and pruning.
Applies to an awning, carport, pergola, shade structure or sun shade that: (a) occupies an area not greater than 40m ² , and (b) is not exempt development under Schedule 2.	

Bed and breakfast accommodation

Applies to use of a dwelling for bed and breakfast accommodation, other than:

- (a) a dwelling that is part of a dual occupancy, townhouse, villa house or residential flat building, or
- (b) a dwelling on land that is adjacent to Zone 22—Arterial Road, if the development would involve a new vehicular accessway, or the alteration of an existing accessway, to an arterial road in that zone.

Maximum of 1 sign, provided by the Sutherland Shire Tourism Association Inc, advertising the accommodation on the site.

Advertising sign must:

- (a) be located behind the building alignment, and
- (b) not have an area of more than 1.5m².

Must provide at least 1 off-street car space for guests in addition to any residential parking.

Car spaces must be located so as to minimise disturbance to, and preserve the privacy of, other residences.

Locks must be fitted to guest rooms and external doors, and must be capable of being opened from the inside by a single handed action without the need for a key.

Must not be carried out on bush fire prone land, contaminated risk land, flood planning land, foreshore land or heritage item land.

Must meet the standards for car spaces, storm water and tree removal and pruning.

Alterations to any part of residential premises used for the purpose of preparation or storage (or both) of food for sale to the public as part of a home occupation must comply with:

- (a) the Australian Standard AS 4674—2004, *Design, construction and fit-out of food premises*, and
- (b) the *Code for Commercial Home Catering*.

Building alterations (internal)

Applies to internal building alterations, other than:

- (a) alterations to incomplete buildings, or
- (b) the installation of oil or solid fuel heating appliances, or
- (c) the installation of any commercial mechanical exhaust ventilation system, or
- (d) alterations that are exempt development under Schedule 2.

Must not be carried out on bush fire prone land, except if constructed in accordance with the NSW Rural Fire Service guidelines titled *Planning for Bush Fire Protection* ISBN 0 9751033 2 6, dated December 2006.

Must not be carried out on heritage item land.

Must meet the standards for access, car spaces, floor space and landscaped area.

Height must not exceed 4m above ground level.

Finished floor level must not be greater than 1m above ground level.

Must be set back behind the following:

- (a) the building line of the land,
- (b) the alignment of any dwelling on any adjoining land.

Cabanas and gazebos

Applies to a cabana or gazebo that:

- (a) occupies an area not greater than 40m², and
- (b) is not on land that is adjacent to Zone 22—Arterial Road if the development involves a new vehicular accessway, or alters an existing accessway, to an arterial road in that zone, and
- (c) is not exempt development under Schedule 2.

Must be set back from the side and rear boundaries of the relevant land:

- (a) at least 1.5m if the land is in Zone 1—Environmental Housing (Environmentally Sensitive Land), Zone 2—Environmental Housing (Scenic Quality) or Zone 3—Environmental Housing (Bushland) or bush fire prone land, or
- (b) at least 500mm in any other case.

Must not be carried out on acid sulfate soils land if part of a development that requires development consent under clause 23.

Must not be carried out on bush fire interface property, contaminated risk land, flood planning land, foreshore land or heritage item land.

Must meet the standards for access, landscaped area, storm water and tree removal and pruning.

	<p>Must be erected in rear or side yards.</p> <p>Height must not exceed 4m above ground level.</p> <p>Must be set back behind the following:</p> <p>(a) the building line of the land,</p> <p>(b) the alignment of any dwelling on any adjoining land.</p>
<p>Cubby houses, garden sheds, greenhouses and studios</p> <p>Applies to a cubby house, garden shed or studio that:</p> <p>(a) occupies an area not greater than 40m², except on land in Zone 15—Private Recreation, and</p> <p>(b) is not on land that is adjacent to Zone 22—Arterial Road if the development involves a new vehicular accessway, or alters an existing accessway, to an arterial road in that zone, and</p> <p>(c) is not exempt development under Schedule 2.</p>	<p>Must be set back from the side boundaries of the relevant land:</p> <p>(a) at least 1.5m if the land is in Zone 1—Environmental Housing (Environmentally Sensitive Land), Zone 2—Environmental Housing (Scenic Quality) or Zone 3—Environmental Housing (Bushland) or bush fire prone land, or</p> <p>(b) at least 500mm if the proposed building is detached and to the rear of any dwelling with which it is associated, or</p> <p>(c) at least 900mm in any other case.</p> <p>Finished floor level must be no more than 1m above ground level.</p> <p>Must not be carried out on bush fire prone land, except if constructed of non-combustible materials.</p> <p>Must not be carried out on bush fire interface property, contaminated risk land, foreshore land or heritage item land.</p> <p>Must meet the standards for access, car spaces, floor space, landscaped area, storm water and tree removal and pruning.</p>

Decks and patios

Applies to a deck or patio that:

(a) occupies an area not greater than 40m², and

(b) is not exempt development under Schedule 2.

Finished surface level must not be greater than 1m above ground level.

Must be set back behind the following:

(a) the building line of the land,

(b) the alignment of any dwelling on any adjoining land.

Must be set back at least 1.5m from the side and rear boundaries of the relevant land in the following cases:

(a) the deck or patio is located on land in Zone 1—Environmental Housing (Environmentally Sensitive Land), Zone 2—Environmental Housing (Scenic Quality), Zone 3—Environmental Housing (Bushland), or bush fire prone land,

(b) the deck or patio has a height of more than 500mm above ground level,

(c) it is a deck to a swimming pool and the pool or the deck stands higher than 500mm above ground level.

Must be set back at least 900mm from side and rear boundaries of the relevant land in any other case.

Must not be carried out on acid sulfate soils land if part of a development that requires development consent under clause 23.

Must not be carried out on bush fire interface property, contaminated risk land, foreshore land or heritage item land.

Must meet the standards for access, floor space, landscaped area, storm water and tree removal and pruning.

Must comply with the Australian Standard AS 2601—2001, *Demolition of structures*.

Must not be carried out in connection with the decontamination, rehabilitation or remediation of contaminated land (within the meaning of Part 7A of the Act).

Must not be carried out on acid sulfate soils land if part of a development that requires development consent under clause 23.

Must not be carried out on contaminated risk land, foreshore land or heritage item land.

Must meet the standards for tree removal and pruning.

Demolition

Applies to demolition of buildings and retaining walls, other than demolition that is exempt development under Schedule 2.

Dwelling houses

Applies to the erection of, or additions or alterations to, single storey or two-storey dwelling houses, other than:

- (a) the addition of any storey to two storey dwelling houses, or
- (b) any erection, alterations or additions on land:
 - (i) in Zone 1— Environmental Housing (Environmentally Sensitive Land), Zone 2— Environmental Housing (Scenic Quality) or Zone 3—Environmental Housing (Bushland), or
 - (ii) on which the Australian Noise Exposure Forecast (endorsed by Airservices Australia and current on the commencement of this plan) is between 20 and 25, or
 - (iii) land that is adjacent to Zone 22—Arterial Road if the development involves a new vehicular accessway, or alters an existing accessway, to an arterial road in that zone, or
 - (iv) land in a Greenweb Support area or Greenweb Core area, as shown on the Greenweb Map, or
 - (v) land that is an internal lot.

Must have vehicular access from the lowest order road shown on the Road Hierarchy Map if the development has 2 or more road frontages.

Must not be carried out on acid sulfate soils land if part of a development that requires development consent under clause 23.

Must not be carried out on bush fire interface property, except if constructed in accordance with the NSW Rural Fire Service guidelines titled *Planning for Bush Fire Protection* ISBN 0 9751033 2 6, dated December 2006.

Must not be carried out on contaminated risk land, flood planning land, foreshore land or heritage item land.

Must meet the standards for access, floor space, landscaped area, storm water and tree removal and pruning.

Must be set back from the front boundary by:

(a) 7.5m, and

(b) not less than the alignment of any dwelling on any adjoining land.

In the case of corner properties, must be set back:

(a) 7.5m from the narrowest street frontage, and

(b) 3.5m from the second street.

General standards

Must be set back from the rear boundaries by a minimum of 6m.

Finished ground floor level must be within 1m of the existing ground level.

Basement footprint must not exceed the ground floor footprint.

Maximum area of the site to be affected by cut or fill to a greater depth than 300mm must not exceed 60% of the dwelling footprint.

Cut for slab on ground construction must not extend further than 900mm beyond the dwelling footprint.

Filling must be contained within the footprint of the dwelling.

Natural rock outcrops on the site greater than 5m² in area must be retained.

Vegetative cover on slopes greater than 18° must be maintained.

Dwelling entry must face the street and the dwelling must overlook any other adjacent public areas.

Dwelling must not present blank walls to any street frontage.

Maximum length of any external wall without openings is 6m.

Habitable room windows with a direct outlook to habitable rooms in any adjacent dwelling within 9m must be offset by a minimum of 1m to limit the views into the adjacent windows.

Must not reduce existing sunlight access to useable private open space and windows of living areas of any adjoining property to less than four hours between 9 am and 3 pm on 21 June.

Living areas must be orientated between north-west and north-east.

Dwelling must provide at least one primary area of useable private open space at ground level and directly accessible from a living area with minimum dimensions of 6m x 6m.

Minimum of 10m² of the outdoor private open space for the dwelling must receive direct sunlight at ground level for at least four hours between 9 am and 3 pm on 21 June.

Roof or wall cladding materials must not be highly reflective.

Must not involve the installation of any oil or solid fuel heating appliance or any commercial mechanical exhaust ventilation system.

Minimum of 2 car spaces must be provided behind the building line.

Note—

See separate entry under “**Garages**” in this Table for relevant standards relating to the erection of garages as complying development. See also entry under “**Driveways or pathways**” in Schedule 2 for relevant standards relating to the installation of driveways as exempt development.

Single storey dwelling houses

Applies to:

- (a) a proposed single storey dwelling house, and
- (b) the additions to a single storey dwelling house, other than the addition of a second storey.

Building height must not exceed 5.4m, as measured from the ground level to the highest point of the roof.

Must be set back at least 900mm from the side boundaries.

Two-storey dwelling houses

Applies to:

- (a) a proposed two-storey dwelling house, and
- (b) the addition of a second storey to a single storey dwelling house, and
- (c) a second storey alteration or addition to an existing two storey dwelling house.

Must comply with the height requirements of clause 33 (4).

Must not involve the erection of any balconies off the second storey that face the side or rear boundaries.

Second storey must be set back at least 1.5m from the side boundaries.

Second storey depth must not exceed:

- (a) 10m, and
- (b) 50% of the depth of the allotment, measured from the primary street frontage.

Second storey must not contain a kitchen or primary living area.

Front fences within the front building line must not exceed 1m in height above ground level.

Side or rear fences, behind the building line, must not exceed 1.8m in height above ground level.

Retaining walls:

- (a) must be set back at least 500mm from any boundary, and
- (b) must not exceed 1m in height above ground level, and
- (c) must not be longer than 20m, and
- (d) must be for the purpose of retaining soil on the site and not to enable filling of the site.

Fences, gates and retaining walls

Applies to fences, gates and retaining walls, other than the following:

- (a) fences on street frontages of land occupied by dual occupancies, townhouses or villa houses,
- (b) fences erected on land at Alford's Point, Barden Ridge, Bangor, Bonnet Bay, Illawong, Lucas Heights, Menai, Woronora Heights or Sylvania Waters if covenants applying to the land restrict the erection of such fences,
- (c) fences erected between the rear of dwellings and the waterway at Sylvania Waters if covenants applying to the land restrict the erection of such fences,
- (d) fences, gates and retaining walls that are exempt development under Schedule 2.

Must not be carried out on land that is adjacent to Zone 22—Arterial Road if the development involves a new vehicular accessway, or alters an existing accessway, to an arterial road in that zone.

Must not be carried out on acid sulfate soils land if part of a development that requires development consent under clause 23.

Must not be carried out on bush fire interface property or bush fire prone land, except if constructed of non-combustible materials.

Must not be carried out on contaminated risk land, flood planning land, foreshore land or heritage item land.

Must meet the standards for access, car spaces, floor space, landscaped area, storm water and tree removal and pruning.

Fire alarms

Applies to:

- (a) internal alterations to a building, and
- (b) internal alterations to a building, together with mounting of any antenna, and any support structure, on an external wall or roof of a building occupying a space of not more than 450mm × 100mm × 100mm.

Applies to development for the purpose of:

- (a) converting a fire alarm system from connection with the alarm monitoring system of New South Wales Fire Brigades to connection with the alarm monitoring system of a private service provider, and
- (b) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with the alarm monitoring system of another private service provider, and
- (c) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with a different alarm monitoring system of the same private service provider.

Garages

Applies to a garage that:

- (a) occupies an area not greater than 40m², and
- (b) is not on land that is adjacent to Zone 22—Arterial Road if the development involves a new vehicular accessway, or alters an existing accessway, to an arterial road in that zone.

Height must not exceed 4m above ground level.

Must be set back behind the following:

- (a) the building line of the land,
- (b) the alignment of any dwelling on any adjoining land.

Must be set back as follows from the side and rear boundaries of the relevant land:

- (a) at least 1.5m if the land is in Zone 1—Environmental Housing (Environmentally Sensitive Land), Zone 2—Environmental Housing (Scenic Quality) or Zone 3—Environmental Housing (Bushland) or bush fire prone land,
- (b) at least 500mm if the garage is detached and to the rear of any dwelling with which it is associated,
- (c) at least 900mm in any other case.

Finished floor level must be no more than 1m above ground level.

Must not be carried out on bush fire prone land, except if constructed in accordance with the NSW Rural Fire Service guidelines titled *Planning for Bush Fire Protection* ISBN 0 9751033 2 6, dated December 2006.

Must not be carried out on bush fire interface property, contaminated risk land, flood planning land, foreshore land or heritage item land.

Must meet the standards for access, car spaces, floor space, landscaped area, storm water and tree removal and pruning.

Seawalls

Applies to reconstruction, replacement or repair of seawalls in Sylvania Waters.

Subdivision of land

Applies to subdivision of land for any of the following purposes:

- (a) widening of a public road by a roads authority (within the meaning of the *Roads Act 1993*),
- (b) adjusting a boundary between lots (including correcting an encroachment on a lot),
- (c) creating a lot within the meaning of the *Strata Schemes (Freehold Development) Act 1973* or the *Strata Schemes (Leasehold Development) Act 1986*,
- (d) creating a lot for a public reserve.

In the case of subdivision carried out for the purpose of adjusting a boundary between lots:

- (a) the size and dimensions of resulting lots must not be less than any relevant minimum size and dimensions provided for in clauses 39-42, and
- (b) the subdivision must not result in an increased number of lots or the reorientation of lots.

In the case of subdivision carried out for the purpose of creating a lot within the meaning of the *Strata Schemes (Freehold Development) Act 1973* or the *Strata Schemes (Leasehold Development) Act 1986*:

- (a) the erection of any building comprised in the lot must have been approved and carried out after 1 July 1988, and
- (b) any development carried out for the purpose of the building (including the erection of the building) must have been carried out in accordance with any relevant development consent, and
- (c) the development must not result in strata subdivision of dual occupancy that does not comply with clause 40.

In the case of subdivision creating a lot for a public reserve, the size and dimension of any residue lot must not be less than any relevant minimum size and dimensions provided for in clauses 39-42.

Swimming pools

Must be installed or erected in rear or side yards, behind the building line.

Pool must be set back as follows from the side and rear boundaries of the relevant land:

- (a) at least 1.5m to the waterline of the pool if the land is in Zone 1—Environmental Housing (Environmentally Sensitive Land), Zone 2—Environmental Housing (Scenic Quality) or Zone 3—Environmental Housing (Bushland) or bush fire prone land,
- (b) at least 1.5m to the waterline of the pool if the pool, its surrounds or decking stands higher than 500mm above ground level,
- (c) at least 1m to the waterline of the pool in any other case.

In-ground pool must not exceed a height of 1m above ground level.

Above ground pre-fabricated pool (where any coping width is no greater than 250mm wide) must not exceed a height of 1.2m above ground level.

Pool pump and equipment associated with the pump must be designed so as to be sound insulated or isolated so that the noise emitted does not exceed an LAeq of 5 dB(A) above background noise level in any octave band from 63 Hz centre frequencies inclusive, as measured at the property boundary in accordance with the Australian Standard AS 1055.1—1997, *Acoustics—Description and measurement of environmental noise—General procedures*.

Pool, surrounds and any decking must be screened by plants if the pool, its surrounds or decking stands more than 500mm above ground level.

Child resistant barriers must meet the standards specified by the [Swimming Pools Act 1992](#).

Must meet the standards required under *Sutherland Shire Council Environmental Specification—Swimming Pools*.

Must not be part of a development that requires development consent under clause 23.

Must not be carried out on bush fire interface property, except if associated fencing and decking is constructed of non-combustible materials.

Must not be carried out on bush fire prone land, except if associated fencing is constructed of non-combustible materials.

Must not be carried out on contaminated risk land, flood planning land, foreshore land or heritage item land.

Must meet the standards for landscaped area, storm water and tree removal and pruning.

Note—

The [Swimming Pools Act 1992](#) and regulations contain standards in relation to swimming pools, including child resistant barriers.

Note—

See also provisions for decks or patios.

Part 2 Complying development in Zone 5, 6, 8, 9, 10, 11 or 21

Column 1

Type of Development

Column 2

Development Standards

Building alterations (external)

Applies to external building alterations to buildings that have been lawfully constructed, other than:

- (a) alterations to incomplete buildings, and
- (b) buildings on land that is adjacent to Zone 22—Arterial Road if the development involves a new vehicular accessway, or alters an existing accessway, to an arterial road in that zone, and
- (c) alterations that are exempt development under Schedule 2.

Alterations to buildings on community land within the meaning of the *Local Government Act 1993* must be undertaken in accordance with a plan of management under that Act.

Must not contravene any conditions of a development consent applicable to building or its use.

Must not involve the making of, or the alteration to the size of, any opening in the roof of a building or any opening in an external wall (such as a doorway or window), other than facades below the awning on shopfronts in Zone 8—Urban Centre, Zone 9—Local Centre or Zone 10—Neighbourhood Centre that may be altered to increase window openings.

If the alterations involve the erection of a roof over a wash bay area for a business that carries out wet processes (such as the washing of motor vehicles), the wash bay area must be set back behind the building line.

Must not:

- (a) alter existing storm water disposal arrangements, or
- (b) reduce landscaping on site, or
- (c) increase the total floor space or footprint of the premises, or
- (d) reduce the provision of parking or loading and unloading areas.

Must not be carried out on acid sulfate soils land if part of a development that requires development consent under clause 23.

Must not be carried out on bush fire interface property, contaminated risk land, flood planning land, foreshore land or heritage item land.

Must not be carried out on bush fire prone land, except if constructed in accordance with the NSW Rural Fire Service guidelines titled *Planning for Bush Fire Protection* ISBN 0 9751033 2 6, dated December 2006.

Must meet the standards for access and tree removal and pruning.

Must not contravene any conditions of a development consent applicable to building or its use.

Must not increase the gross floor area of buildings used for industry or business premises (including pedestrian arcades) unless:

- (a) the increase in area results from the addition of an internal mezzanine floor, and
- (b) the internal mezzanine floor is added for the purpose of storage or amenities, and
- (c) the increase in area does not exceed 50m².

Alterations to any part of residential premises used for the purpose of preparation or storage (or both) of food for sale to the public as part of a home occupation must be undertaken in accordance with:

- (a) the Australian Standard AS 4674—2004, *Design, construction and fit-out of food premises*, and
- (b) the *Code for Commercial Home Catering*.

Building alterations (internal)

Applies to internal alterations to buildings that have been lawfully constructed, other than:

- (a) alterations to incomplete buildings, or
- (b) alterations for the installation of any commercial mechanical exhaust ventilation system, or
- (c) alterations that are exempt development under Schedule 2.

Alterations to a food shop or restaurant:

- (a) must comply with the Australian Standard AS 4674—2004, *Design, construction and fit-out of food premises*, and
- (b) must not involve the erection or installation of an externally mounted or located exhaust duct, fan or refrigeration unit.

Alterations for the purpose of a beauty salon or a hairdresser, must be undertaken in accordance with any relevant standards under the [Local Government Act 1993](#) (being standards that are enforceable by the making of Order No 5 under the Table to section 124 of that Act).

Alterations to sound producing machinery, or fittings, associated with or forming part of an existing mechanical ventilation system or refrigeration system:

- (a) must be sound insulated or isolated so that the noise emitted does not exceed LAeq of 5 dB(A) above the background level in any octave band from 63 Hz centre frequencies inclusive, as measured at the property boundary in accordance with the Australian Standard AS 1055.1—1997, *Acoustics—Description and measurement of environmental noise—General procedures*, and
- (b) must not emit any tonal, impulsive or intermittent sounds.

Alterations involving sewer connections must meet the standards contained in an approval under the [Local](#)

Government Act 1993.

Must not be carried out on heritage item land.

Must meet the standards for car spaces.

Must satisfy the conditions imposed by the consent authority for the use in existence before the use changed, in relation to:

- (a) gross floor area,
- (b) parking,
- (c) loading,
- (d) landscaping,
- (e) waste management,
- (f) external storage,
- (g) ancillary sale of products.

Change of use of premises

Applies to the following different uses of premises:

- (a) light industry, resulting from a change from industry, bulky goods or recreation facility to light industry,
- (b) a warehouse, resulting from a change from industry, bulky goods premises, or recreation facility to a warehouse.

Changed use must not be as a vehicle and mechanical repair premises.

Hours of operation exclude Sunday and public holidays in the case of light industry.

Changed use must not:

- (a) involve handling, storing or using hazardous chemicals or materials otherwise than on a domestic scale (except on farms and at a distance of more than 25m from any habitable building), or
- (b) release any hazardous chemicals or materials or any pollutants into the environment.

Changed use must not cause interference with the amenity of the neighbourhood because of the emission of noise, vibration, smell, fumes, smoke, vapour, steam, soot, ash, dust, waste water, waste products, grit or oil, traffic, parking or otherwise.

Must not be carried out on foreshore land or heritage item land.

Subdivision of land

Applies to subdivision of land for any of the following purposes:

- (a) widening of a public road by a roads authority (within the meaning of the *Roads Act 1993*),
- (b) adjusting a boundary between lots (including correcting an encroachment on a lot),
- (c) creating a lot within the meaning of the *Strata Schemes (Freehold Development) Act 1973* or the *Strata Schemes (Leasehold Development) Act 1986*,
- (d) creating a lot for a public reserve.

In the case of subdivision carried out for the purpose of adjusting a boundary between lots:

- (a) the size and dimensions of resulting lots must not be less than any relevant minimum size and dimensions provided for in clauses 39–42, and
- (b) the subdivision must not result in an increased number of lots or the reorientation of lots.

In the case of subdivision carried out for the purpose of creating a lot within the meaning of the *Strata Schemes (Freehold Development) Act 1973* or the *Strata Schemes (Leasehold Development) Act 1986*:

- (a) the erection of any building comprised in the lot must have been approved and carried out after 1 July 1988, and
- (b) any development carried out for the purpose of the building (including the erection of the building) must have been carried out in accordance with any relevant development consent, and
- (c) the development must not result in strata subdivision of dual occupancy that does not comply with clause 40.

In the case of subdivision creating a lot for a public reserve—the size and dimension of any residue lot must not be less than any relevant minimum size and dimensions provided for in clauses 39–42.

Part 3 Complying development certificate conditions

Note 1—

Complying development must comply with the requirements of the Act, the regulations, and this plan. This includes carrying out the development in accordance with the plans and specifications referred to in the complying development certificate.

Note 2—

Information relevant to the carrying out of complying development is also contained in other legislation, including the *Building and Construction Industry Long Service Payments Act 1986*, the *Home Building Act 1989*, the *Protection of the Environment Operations Act 1997*, the *Roads Act 1993*, the *Swimming Pools Act 1992* and the *Sydney Water Act 1994*.

1 Notice to adjoining premises

The person having the benefit of the complying development certificate must give the occupier of any adjoining premises at least 2 days notice before work commences, and provide:

- (a) the name and accreditation number of the appointed principal certifying authority, and
- (b) the builder's name, telephone number and licence number.

2 Documents to be available

A copy of the complying development certificate and the accompanying documents must be available on site at all times during demolition and construction.

3 Security for council property

Prior to work commencing:

- (a) the current condition of any council property in the vicinity of the development must be documented and photographed and provided to the Council at the time notice to commence demolition or the erection of a building is given, and
- (b) security must be provided in accordance with the Council's *Schedule of Fees and Charges for Goods and Services*.

4 Public liability insurance for demolition

Prior to demolition work commencing, the person having the benefit of the complying development certificate must ensure that the person carrying out the demolition work has a current public liability insurance policy to the value of at least \$5,000,000 that covers injury or damage that may arise as a consequence of carrying out that work and must provide evidence of that policy to the Council at the time notice to commence demolition is given.

5 Public roads

(1) Prior to work commencing:

- (a) consent from the relevant roads authority under the [Roads Act 1993](#) for each opening of a public road that will be required by the development must be held, and
- (b) written permission from the relevant roads authority under the [Roads Act 1993](#) to stand or operate vehicles or machines required by the development on the footpath reserve must be held, and
- (c) consent from the relevant roads authority under the [Roads Act 1993](#) to construct each footpath crossing required by the development, at a level acceptable to the roads authority, must be provided to the principal certifying authority.

(2) All construction materials, sheds, temporary water closets, spoil, hoardings and machinery that relate to the development must be kept within the site, other than machinery that is subject to a permission under subclause (1) (b).

6 Waste management plan

Prior to any work commencing, if the development involves the demolition or construction of a building, a waste management plan must be submitted to the Council in accordance

with the development control plan.

7 Sediment and erosion controls

- (1) Run-off and erosion controls must be implemented to prevent erosion, water pollution or the discharge of loose sediment on the surrounding land by:
 - (a) diverting uncontaminated run-off around cleared or disturbed areas, and
 - (b) erecting and maintaining a silt fence to prevent debris escaping into drainage systems or waterways, and
 - (c) preventing tracking of sediment by vehicles onto roads, and
 - (d) stockpiling topsoil, excavated material, construction and landscaping supplies and debris within the site.

Note—

Under the *Protection of the Environment Operations Act 1997* it is an offence to pollute any waters.

- (2) Any removal or disturbance of vegetation or topsoil must be confined to within 3 metres of the proposed development.

8 Construction hours

All construction relating to the development, other than development involving internal alterations within a shopping arcade or centre, must be undertaken between the following hours:

- (a) Monday to Friday—7.00 am to 6.00 pm,
- (b) Saturday—8.00 am to 5.00 pm,

and no such construction is to be undertaken on a Sunday or a public holiday.

9 Noise control during demolition and construction

The noise of a demolition or construction site when it is in operation must not exceed the background noise level by more than the following LAeq level, measured over a period of 15 minutes, when measured at the nearest affected premises:

- (a) if the entire construction and demolition period is estimated to be 4 weeks or less—20dB(A),
- (b) if the entire construction and demolition period is estimated to be longer than 4 weeks but less than 26 weeks—10dB(A),
- (c) if the entire construction and demolition period is estimated to be longer than 26 weeks—5dB(A).

10 Landscaping

- (1) Measures to comply with Sutherland Shire Council Environmental Specification—Landscaping must be taken to protect all trees and bushland areas that are located on the site of the development or on any adjacent road reserve during construction and demolition.
- (2) Measures must include the following:
 - (a) installation of adequate protective fencing and tree guards,
 - (b) identification of the area for root zone protection,
 - (c) protection of the root zone area by exclusion of storage materials within the dripzone, erosion control and soil pH maintenance.

11 Work adjacent to swimming pools

Measures must be taken to ensure compliance with the standards under the *Swimming Pools Act 1992* if work is undertaken on any building or structure that comprises all or part of a child resistant barrier under that legislation.

12 Work involving asbestos

Demolition or removal of material that contains asbestos material, and that is not **licensed work** under Chapter 7 of the *Occupational Health and Safety Regulation 2001*, must be carried out in accordance with *Working with asbestos: Guide 2008* (ISBN 0 7310 5159 9) published by WorkCover Authority.

Note 1—

The maximum allowable area of bonded asbestos material that is excluded from the definition of **licensed work** is 10m².
