# State Environmental Planning Policy No 36—Manufactured Home Estates (1993 EPI 320)

New South Wales

## 1 Name of Policy

This Policy may be cited as *State Environmental Planning Policy No 36—Manufactured Home Estates*.

## 2 Aims and strategies

(1) The aims of this Policy are:

- (a) to facilitate the establishment of manufactured home estates as a contemporary form of medium density residential development that provides an alternative to traditional housing arrangements, and
- (b) to provide immediate development opportunities for manufactured home estates on the commencement of this Policy, and
- (c) to encourage the provision of affordable housing in well designed estates, and
- (d) to ensure that manufactured home estates are situated only in suitable locations and not on land having important resources or having landscape, scenic or ecological qualities that should be preserved, and
- (e) to ensure that manufactured home estates are adequately serviced and have access to essential community facilities and services, and
- (f) to protect the environment surrounding manufactured home estates, and
- (g) to provide measures which will facilitate security of tenure for residents of manufactured home estates.

(2) The strategies by which those aims are to be achieved are:

- (a) by allowing, with development consent, manufactured home estates on certain land on which caravan parks are permitted if the land meets the suitable locational criteria stipulated in this Policy (which it would not do if, for example, it contains important resources, is subject to natural or man-made risks or has

sensitive environmental or ecological features), and

- (b) by applying this Policy to areas where there is likely to be a demand and suitable opportunities for the development of manufactured home estates, and
- (c) by allowing manufactured home estates to be subdivided with development consent either by way of leases for terms of up to 20 years or under the [Community Land Development Act 1989](#), and
- (d) by enabling the Minister for Planning to exclude from this Policy any land that is subject to a local environmental plan prepared in accordance with the principles of a direction issued in conjunction with this Policy under section 117 of the Act.

### **3 Land to which this Policy applies**

- (1) This Policy applies to land that is within the City of Gosford or the Shire of Wyong and to all other areas in the State that are outside the Sydney region.
- (2) This Policy does not apply to:
  - (a) land described in Schedule 1, being land subject to a local environmental plan prepared in accordance with the principles of a direction issued in conjunction with this Policy and made under section 117 of the Act, or
  - (b) land less than 18 kilometres from the Siding Spring Observatory within the meaning of clause 5.14 of the standard local environmental planning instrument prescribed by the [Standard Instrument \(Local Environmental Plans\) Order 2006](#).

### **4 Relationship to other environmental planning instruments**

- (1) In the event of an inconsistency between this Policy and any other environmental planning instrument whether made before or after this Policy, this Policy prevails to the extent of the inconsistency.
- (2) Nothing in [State Environmental Planning Policy No 21—Caravan Parks](#) prevents development consent from being granted pursuant to this Policy for the use of land for the purposes of a manufactured home estate.
- (3) (Repealed)

### **5 Definitions**

- (1) Words and expressions used in this Policy that are defined in the Dictionary at the end of this Policy have the meanings set out in that Dictionary.
- (2) Notes appearing in this Policy are intended to assist understanding of this Policy only and are not part of this Policy.

## **6 Where development for the purposes of a manufactured home estate may be carried out**

Development for the purposes of a manufactured home estate may be carried out pursuant to this Policy on any land on which development for the purposes of a caravan park may be carried out, except:

- (a) land within one or more of the categories described in Schedule 2, or
- (b) land dedicated or reserved under the *National Parks and Wildlife Act 1974*, or
- (c) land within a Crown reserve.

## **7 Development consent required for manufactured home estates**

- (1) Development for the purposes of a manufactured home estate permitted to be carried out by this Policy may be carried out only with the development consent of the council.
- (2) A council must not consent to any such development unless it imposes, as a condition of the consent, a requirement that an approval to operate a manufactured home estate on the land on which the development is to be carried out must be obtained under Part 1 of Chapter 7 of the *Local Government Act 1993*.
- (3) Nothing in this Policy requires a separate development consent to authorise the placing of each manufactured home within a manufactured home estate.

## **8 Subdivision of manufactured home estates**

- (1) Land on which development for the purposes of a manufactured home estate may be lawfully carried out (whether or not because of a development consent granted pursuant to this Policy) may be subdivided:
  - (a) under section 289K of the *Local Government Act 1919* for lease purposes, or
  - (b) under the *Community Land Development Act 1989*,only with the development consent of the council.
- (2) A council must not grant a development consent for such a subdivision if any of the lots intended to be created by the proposed subdivision would contravene a requirement of the *Local Government (Manufactured Home Estates) Transitional Regulation 1993*.
- (3) Any prohibition or restriction on the subdivision of land imposed by any other environmental planning instrument (whether made before or after this Policy) does not apply to such a subdivision.
- (4) This Policy does not allow the subdivision of land within a Crown reserve.

## 9 Matters to be considered by councils

- (1) A council may grant a development consent pursuant to this Policy allowing development for the purposes of a manufactured home estate only if it is satisfied:
  - (a) that each of the sites on which a manufactured home is or will be installed within the manufactured home estate is or will be adequately provided with reticulated water, a reticulated sewerage system, drainage and electricity, and
  - (b) that the manufactured home estate is or will be provided with adequate transport services, and
  - (c) that sufficient community facilities and services, whether situated within or outside the estate, are or will be available and reasonably accessible to the residents of the manufactured home estate, and
  - (d) that the development will not have an adverse effect on any:
    - conservation area
    - heritage item
    - waterway or land having special landscape, scenic or ecological qualities, which is identified in an environmental planning instrument applicable to the land concerned.
- (2) A council may grant a development consent pursuant to this Policy allowing development for the purposes of a manufactured home estate only after it has considered the following:
  - (a) the cumulative impact of the proposed development and other manufactured home estates in the locality,
  - (b) any relevant guidelines issued by the Director,
  - (c) the provisions of the *Local Government (Manufactured Home Estates) Transitional Regulation 1993*.
