Port Macquarie-Hastings Local Environmental Plan 2011

New South Wales

Part 1 Preliminary

1.1 Name of Plan

This Plan is *Port Macquarie-Hastings Local Environmental Plan 2011*.

1.1AA Commencement

This Plan commences on the day on which it is published on the NSW legislation website.

1.2 Aims of Plan

- (1) This Plan aims to make local environmental planning provisions for land in Port Macquarie-Hastings in accordance with the relevant standard environmental planning instrument under section 33A of the Act.
- (2) The particular aims of this Plan are as follows:
 - (a) to protect, conserve and sustainably manage the ecological biodiversity and natural environment of the Port Macquarie-Hastings area,
 - (b) to facilitate a strong and diverse local economy within the Port Macquarie-Hastings area,
 - (c) to manage and coordinate the orderly, equitable and economic use and development of land within the Port Macquarie-Hastings area,
 - (d) to facilitate the provision and coordination of community services and facilities within the Port Macquarie-Hastings area,
 - (e) to facilitate adaptive planning for natural hazards and risks, including flooding, erosion, inundation, land stability, bush fire risk and acid sulfate soils within the Port Macquarie-Hastings area,
 - (f) to reinforce the role of the Port Macquarie-Hastings area's settlement hierarchy, centred on Port Macquarie and supported by its surrounding towns and villages,

- (g) to ensure the effective management of public assets within the Port Macquarie-Hastings area,
- (h) to provide a land use framework for development within the Port Macquarie-Hastings area that is safe, inclusive and equitable, and caters for the housing, employment, entertainment, cultural, welfare and recreational needs of residents and visitors,
- (i) to ensure that development does not conflict with the hierarchy of business and retail centres in the Port Macquarie-Hastings area and the role of the Greater Port Macquarie Central Business District as the focal point for subregional functions and service delivery,
- (j) to identify and protect features of environmental, cultural or visual importance within the Port Macquarie-Hastings area,
- (k) to ensure that new urban development makes a positive contribution to the public domain and streetscape,
- (l) to facilitate efficient use of urban land and infrastructure by appropriate staging of development and ensuring appropriate density of development,
- (m) to provide effective and efficient connectivity and movement corridors within and between subdivisions.

1.3 Land to which Plan applies

(1) This Plan applies to the land identified on the [Land Application Map](#).

(1A) (Repealed)

1.4 Definitions

The Dictionary at the end of this Plan defines words and expressions for the purposes of this Plan.

1.5 Notes

Notes in this Plan are provided for guidance and do not form part of this Plan.

1.6 Consent authority

The consent authority for the purposes of this Plan is (subject to the Act) the Council.

1.7 Maps

(1) A reference in this Plan to a named map adopted by this Plan is a reference to a map by that name:

- (a) approved by the Minister when the map is adopted, and

(b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the Minister when the instruments are made.

(1AA) A reference to the Minister in subclause (1) is taken to be a reference to the Greater Sydney Commission in the case of any map that applies to a local government area in the Greater Sydney Region (within the meaning of the *Greater Sydney Commission Act 2015*) and that is adopted by a local environmental plan on or after 27 January 2016.

(2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.

(3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.

(4) For the purposes of this Plan, a map may be in, and may be kept and made available in, electronic or paper form, or both.

Note—

The maps adopted by this Plan are to be made available on the official NSW legislation website in connection with this Plan. Requirements relating to the maps are set out in the documents entitled *Standard technical requirements for LEP maps* and *Standard requirements for LEP GIS data* which are available on the website of the Department of Planning and Environment.

1.8 Repeal of planning instruments applying to land

(1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Plan applies are repealed.

Note—

The following local environmental plans are repealed:

Hastings Local Environmental Plan 1987

Hastings Local Environmental Plan 2001

Port Macquarie-Hastings (Area 13 Thrumster) Local Environmental Plan 2008

(2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies.

1.8A Savings provision relating to development applications

If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this

Plan had not commenced.

Note—

However, under Division 4B of Part 3 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant development is appropriately amended or if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable.

1.9 Application of SEPPs

- (1) This Plan is subject to the provisions of any State environmental planning policy that prevails over this Plan as provided by section 36 of the Act.
- (2) The following State environmental planning policies (or provisions) do not apply to the land to which this Plan applies:

State Environmental Planning Policy No 1—Development Standards

Clause 9 of *State Environmental Planning Policy (Rural Lands) 2008*

1.9A Suspension of covenants, agreements and instruments

- (1) For the purpose of enabling development on land in any zone to be carried out in accordance with this Plan or with a consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.
- (2) This clause does not apply:
 - (a) to a covenant imposed by the Council or that the Council requires to be imposed, or
 - (b) to any prescribed instrument within the meaning of section 183A of the *Crown Lands Act 1989*, or
 - (c) to any conservation agreement within the meaning of the *National Parks and Wildlife Act 1974*, or
 - (d) to any Trust agreement within the meaning of the *Nature Conservation Trust Act 2001*, or
 - (e) to any property vegetation plan within the meaning of the *Native Vegetation Act 2003*, or
 - (f) to any biobanking agreement within the meaning of Part 7A of the *Threatened Species Conservation Act 1995*, or
 - (g) to any planning agreement within the meaning of Division 6 of Part 4 of the Act.

- (3) This clause does not affect the rights or interests of any public authority under any registered instrument.
- (4) Under section 28 of the Act, the Governor, before the making of this clause, approved of subclauses (1)–(3).

Part 2 Permitted or prohibited development

2.1 Land use zones

The land use zones under this Plan are as follows:

Rural Zones

- RU1 Primary Production
- RU2 Rural Landscape
- RU3 Forestry
- RU5 Village
- RU6 Transition

Residential Zones

- R1 General Residential
- R2 Low Density Residential
- R3 Medium Density Residential
- R4 High Density Residential
- R5 Large Lot Residential

Business Zones

- B1 Neighbourhood Centre
- B2 Local Centre
- B3 Commercial Core
- B4 Mixed Use
- B5 Business Development
- B7 Business Park

Industrial Zones

- IN1 General Industrial

IN2 Light Industrial

IN3 Heavy Industrial

IN4 Working Waterfront

Special Purpose Zones

SP1 Special Activities

SP2 Infrastructure

SP3 Tourist

Recreation Zones

RE1 Public Recreation

RE2 Private Recreation

Environment Protection Zones

E1 National Parks and Nature Reserves

E2 Environmental Conservation

E3 Environmental Management

E4 Environmental Living

Waterway Zones

W1 Natural Waterways

W2 Recreational Waterways

W3 Working Waterways

2.2 Zoning of land to which Plan applies

For the purposes of this Plan, land is within the zones shown on the [Land Zoning Map](#).

2.3 Zone objectives and Land Use Table

- (1) The Land Use Table at the end of this Part specifies for each zone:
 - (a) the objectives for development, and
 - (b) development that may be carried out without development consent, and
 - (c) development that may be carried out only with development consent, and
 - (d) development that is prohibited.

- (2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.
- (3) In the Land Use Table at the end of this Part:
 - (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
 - (b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.
- (4) This clause is subject to the other provisions of this Plan.

Notes—

- 1** Schedule 1 sets out additional permitted uses for particular land.
- 2** Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act or, if applicable, Part 3A of the Act.
- 3** Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
- 4** Clause 2.6 requires consent for subdivision of land.
- 5** Part 5 contains other provisions which require consent for particular development.

2.4 Unzoned land

- (1) Development may be carried out on unzoned land only with development consent.
- (2) In deciding whether to grant development consent, the consent authority:
 - (a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and
 - (b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

2.5 Additional permitted uses for particular land

- (1) Development on particular land that is described or referred to in Schedule 1 may be carried out:
 - (a) with development consent, or
 - (b) if the Schedule so provides—without development consent,in accordance with the conditions (if any) specified in that Schedule in relation to that development.
- (2) This clause has effect despite anything to the contrary in the Land Use Table or other

provision of this Plan.

2.6 Subdivision—consent requirements

- (1) Land to which this Plan applies may be subdivided, but only with development consent.

Notes—

- 1 If a subdivision is specified as **exempt development** in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, the Act enables it to be carried out without development consent.
- 2 Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is **complying development**.

- (2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

Note—

The definition of **secondary dwelling** in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

Note—

If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, as exempt development, the Act enables it to be carried out without development consent.

2.8 Temporary use of land

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.
- (2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 52 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that:
 - (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and
 - (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and

- (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and
 - (d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.
- (4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.
- (5) Subclause (3) (d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

Land Use Table

Note—

A type of development referred to in the Land Use Table is a reference to that type of development only to the extent it is not regulated by an applicable State environmental planning policy. The following State environmental planning policies in particular may be relevant to development on land to which this Plan applies:

State Environmental Planning Policy (Affordable Rental Housing) 2009 (including provision for secondary dwellings)

State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004

State Environmental Planning Policy (Infrastructure) 2007—relating to infrastructure facilities such as those that comprise, or are for, air transport, correction, education, electricity generating works and solar energy systems, health services, ports, railways, roads, waste management and water supply systems

State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007

State Environmental Planning Policy (Rural Lands) 2008

State Environmental Planning Policy No 33—Hazardous and Offensive Development

State Environmental Planning Policy No 50—Canal Estate Development

State Environmental Planning Policy No 62—Sustainable Aquaculture

State Environmental Planning Policy No 64—Advertising and Signage

Zone RU1 Primary Production

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.

- To minimise conflict between land uses within this zone and land uses within adjoining zones.

2 Permitted without consent

Extensive agriculture; Home occupations; Horticulture

3 Permitted with consent

Agriculture; Air transport facilities; Airstrips; Animal boarding or training establishments; Bed and breakfast accommodation; Building identification signs; Business identification signs; Cellar door premises; Community facilities; Dual occupancies (attached); Dwelling houses; Eco-tourist facilities; Environmental facilities; Environmental protection works; Extractive industries; Farm buildings; Farm stay accommodation; Forestry; Helipads; Home-based child care; Home businesses; Home industries; Intensive livestock agriculture; Intensive plant agriculture; Open cut mining; Roads; Roadside stalls; Rural industries; Rural supplies; Rural workers' dwellings

4 Prohibited

Any development not specified in item 2 or 3

Zone RU2 Rural Landscape

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To maintain the rural landscape character of the land.
- To provide for a range of compatible land uses, including extensive agriculture.
- To provide for rural tourism that does not compromise the primary industry capabilities of the land and is based on the rural attributes of the land.
- To secure a future for agriculture in the area by minimising loss of potential agricultural productivity and fragmentation of rural land.

2 Permitted without consent

Extensive agriculture; Home occupations; Horticulture

3 Permitted with consent

Agriculture; Air transport facilities; Airstrips; Animal boarding or training establishments; Bed and breakfast accommodation; Building identification signs; Business identification signs; Cellar door premises; Cemeteries; Charter and tourism boating facilities; Centre-based child care facilities; Community facilities; Dual occupancies (attached); Dwelling houses; Eco-tourist facilities; Environmental facilities; Environmental protection works; Extractive industries; Farm buildings; Farm stay accommodation; Forestry; Helipads; Home-based child care; Home businesses; Home industries; Information and education facilities; Places of public worship; Recreation areas; Respite day care centres; Roads; Roadside stalls; Rural industries; Rural supplies; Rural workers' dwellings; Water recreation structures

4 Prohibited

Any development not specified in item 2 or 3

Zone RU3 Forestry

1 Objectives of zone

- To enable development for forestry purposes.
- To enable other development that is compatible with forestry land uses.

2 Permitted without consent

Uses authorised under the [Forestry Act 2012](#)

3 Permitted with consent

Agriculture; Extractive industries; Roads

4 Prohibited

Any development not specified in item 2 or 3

Zone RU5 Village

1 Objectives of zone

- To provide for a range of land uses, services and facilities that are associated with a rural village.
- To permit development that is appropriate in scale and type with the characteristics of a rural village.

- To minimise conflict between land uses within the zone and land uses within adjoining zones.

2 Permitted without consent

Home occupations

3 Permitted with consent

Agriculture; Amusement centres; Animal boarding or training establishments; Attached dwellings; Backpackers' accommodation; Bed and breakfast accommodation; Boarding houses; Business premises; Camping grounds; Caravan parks; Cemeteries; Charter and tourism boating facilities; Centre-based child care facilities; Community facilities; Dual occupancies; Dwelling houses; Entertainment facilities; Environmental facilities; Environmental protection works; Exhibition homes; Exhibition villages; Farm buildings; Flood mitigation works; Group homes; Health services facilities; Heliports; Home-based child care; Home businesses; Hotel or motel accommodation; Information and education facilities; Light industries; Multi dwelling housing; Neighbourhood shops; Passenger transport facilities; Places of public worship; Recreation areas; Recreation facilities (indoor); Recreation facilities (outdoor); Registered clubs; Respite day care centres; Retail premises; Roads; Schools; Semi-detached dwellings; Service stations; Signage; Veterinary hospitals; Waste or resource transfer stations; Water recreation structures

4 Prohibited

Bulky goods premises; Hardware and building supplies; Landscaping material supplies; Markets; Plant nurseries; Roadside stalls; Timber yards; Vehicle sales or hire premises; Any other development not specified in item 2 or 3

Zone RU6 Transition

1 Objectives of zone

- To protect and maintain land that provides a transition between rural and other land uses of varying intensities or environmental sensitivities.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.

2 Permitted without consent

Extensive agriculture; Home occupations; Horticulture

3 Permitted with consent

Agriculture; Animal boarding or training establishments; Building identification signs; Business identification signs; Cemeteries; Community facilities; Crematoria; Dual occupancies (attached); Dwelling houses; Emergency services facilities; Environmental facilities; Environmental protection works; Farm buildings; Flood mitigation works; Forestry; Helipads; Home businesses; Information and education facilities; Recreation areas; Roads

4 Prohibited

Intensive livestock agriculture; Any other development not specified in item 2 or 3

Zone R1 General Residential

1 Objectives of zone

- To provide for the housing needs of the community.
- To provide for a variety of housing types and densities.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.

2 Permitted without consent

Home occupations

3 Permitted with consent

Attached dwellings; Boarding houses; Building identification signs; Business identification signs; Centre-based child care facilities; Community facilities; Dwelling houses; Group homes; Home industries; Hostels; Multi dwelling housing; Neighbourhood shops; Places of public worship; Residential flat buildings; Respite day care centres; Roads; Semi-detached dwellings; Seniors housing; Shop top housing; Any other development not specified in item 2 or 4

4 Prohibited

Agriculture; Air transport facilities; Airstrips; Amusement centres; Animal boarding or training establishments; Backpackers' accommodation; Boat building and repair facilities; Charter and tourism boating facilities; Commercial premises; Correctional centres; Crematoria; Depots; Electricity generating works; Entertainment facilities; Extractive industries; Farm buildings; Farm stay accommodation; Forestry; Freight transport facilities; Function centres; Heavy

industrial storage establishments; Helipads; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Marinas; Mooring pens; Mortuaries; Open cut mining; Passenger transport facilities; Port facilities; Public administration buildings; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Registered clubs; Research stations; Restricted premises; Rural industries; Rural workers' dwellings; Service stations; Sewerage systems; Sex services premises; Signage; Storage premises; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Veterinary hospitals; Warehouse or distribution centres; Waste or resource management facilities; Water storage facilities; Water treatment facilities; Wharf or boating facilities; Wholesale supplies

Zone R2 Low Density Residential

1 Objectives of zone

- To provide for the housing needs of the community within a low density residential environment.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.
- To provide for low density housing that does not compromise the environmental, scenic or landscape qualities of land.

2 Permitted without consent

Home occupations

3 Permitted with consent

Bed and breakfast accommodation; Boarding houses; Building identification signs; Business identification signs; Cemeteries; Centre-based child care facilities; Community facilities; Dual occupancies (attached); Dwelling houses; Educational establishments; Emergency services facilities; Environmental facilities; Environmental protection works; Flood mitigation works; Group homes; Health consulting rooms; Home-based child care; Home businesses; Home industries; Information and education facilities; Places of public worship; Recreation areas; Respite day care centres; Roads; Water recreation structures

4 Prohibited

Any development not specified in item 2 or 3

Zone R3 Medium Density Residential

1 Objectives of zone

- To provide for the housing needs of the community within a medium density residential environment.
- To provide a variety of housing types within a medium density residential environment.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.

2 Permitted without consent

Home occupations

3 Permitted with consent

Attached dwellings; Boarding houses; Building identification signs; Business identification signs; Centre-based child care facilities; Community facilities; Group homes; Multi dwelling housing; Neighbourhood shops; Places of public worship; Respite day care centres; Roads; Seniors housing; Any other development not specified in item 2 or 4

Part 3 Exempt and complying development

3.1 Exempt development

Note—

Under section 76 of the Act, exempt development may be carried out without the need for development consent under Part 4 of the Act or for assessment under Part 5 of the Act.

The section states that exempt development:

- (a) must be of minimal environmental impact, and
- (b) cannot be carried out in a declared area of outstanding biodiversity value under the *Biodiversity Conservation Act 2016* or declared critical habitat under Part 7A of the *Fisheries Management Act 1994*, and
- (c) cannot be carried out in a wilderness area (identified under the *Wilderness Act 1987*).

(1) The objective of this clause is to identify development of minimal environmental impact as exempt development.

(2) Development specified in Schedule 2 that meets the standards for the development contained in that Schedule and that complies with the requirements of this Part is exempt development.

(3) To be exempt development, the development:

- (a) must meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia* or, if there are no such relevant provisions, must be structurally adequate, and
- (b) must not, if it relates to an existing building, cause the building to contravene the *Building Code of Australia*, and
- (c) must not be designated development, and
- (d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the *Heritage Act 1977* or that is subject to an interim heritage order under the *Heritage Act 1977*.

(4) Development that relates to an existing building that is classified under the *Building Code of Australia* as class 1b or class 2–9 is exempt development only if:

- (a) the building has a current fire safety certificate or fire safety statement, or

(b) no fire safety measures are currently implemented, required or proposed for the building.

(5) To be exempt development, the development must:

(a) be installed in accordance with the manufacturer's specifications, if applicable, and

(b) not involve the removal, pruning or other clearing of vegetation that requires a permit, development consent or other approval unless it is undertaken in accordance with a permit, development consent or other approval.

Note—

See *State Environmental Planning Policy (Vegetation in Non-Rural Areas) 2017* and Part 5A of the *Local Land Services Act 2013*.

(6) A heading to an item in Schedule 2 is part of that Schedule.

3.2 Complying development

(1) The objective of this clause is to identify development as complying development.

(2) Development specified in Part 1 of Schedule 3 that is carried out in compliance with:

(a) the development standards specified in relation to that development, and

(b) the requirements of this Part,

is complying development.

Note—

See also clause 5.8 (3) which provides that the conversion of fire alarms is complying development in certain circumstances.

(3) To be complying development, the development must:

(a) be permissible, with development consent, in the zone in which it is carried out, and

(b) meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia*, and

(c) have an approval, if required by the *Local Government Act 1993*, from the Council for an on-site effluent disposal system if the development is undertaken on unsewered land.

(4) A complying development certificate for development specified in Part 1 of Schedule 3 is subject to the conditions (if any) set out or referred to in Part 2 of that Schedule.

(5) A heading to an item in Schedule 3 is part of that Schedule.

3.3 Environmentally sensitive areas excluded

- (1) Exempt or complying development must not be carried out on any environmentally sensitive area for exempt or complying development.
- (2) For the purposes of this clause:

environmentally sensitive area for exempt or complying development means any of the following:

- (a) the coastal waters of the State,
- (b) a coastal lake,
- (c) land to which *State Environmental Planning Policy No 14—Coastal Wetlands* or *State Environmental Planning Policy No 26—Littoral Rainforests* applies,
- (d) land reserved as an aquatic reserve under the *Fisheries Management Act 1994* or as a marine park under the *Marine Parks Act 1997*,
- (e) land within a wetland of international significance declared under the Ramsar Convention on Wetlands or within a World heritage area declared under the World Heritage Convention,
- (f) land within 100 metres of land to which paragraph (c), (d) or (e) applies,
- (g) land identified in this or any other environmental planning instrument as being of high Aboriginal cultural significance or high biodiversity significance,
- (h) land reserved under the *National Parks and Wildlife Act 1974* or land acquired under Part 11 of that Act,
- (i) land reserved or dedicated under the *Crown Lands Act 1989* for the preservation of flora, fauna, geological formations or for other environmental protection purposes,
- (j) land that is a declared area of outstanding biodiversity value under the *Biodiversity Conservation Act 2016* or declared critical habitat under Part 7A of the *Fisheries Management Act 1994*.

Part 4 Principal development standards

4.1 Minimum subdivision lot size

- (1) The objectives of this clause are as follows:
 - (a) to ensure that lot sizes are compatible with local environmental values and constraints,
 - (b) to facilitate efficient use of land resources for residential and other human purposes,

- (c) to minimise the fragmentation of rural land suitable for sustainable primary production,
 - (d) to protect high ecological, scientific, cultural or aesthetic values of land in environment protection zones.
- (2) This clause applies to a subdivision of any land shown on the [Lot Size Map](#) that requires development consent and that is carried out after the commencement of this Plan.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (4) This clause does not apply in relation to the subdivision of individual lots in a strata plan or community title scheme.

4.1AA Minimum subdivision lot size for community title schemes

- (1) The objectives of this clause are as follows:
- (a) to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.
- (2) This clause applies to a subdivision (being a subdivision that requires development consent) under the [Community Land Development Act 1989](#) of land in any of the following zones:
- (a) Zone RU1 Primary Production,
 - (b) Zone RU2 Rural Landscape,
 - (c) Zone R2 Low Density Residential,
 - (d) Zone R5 Large Lot Residential,
 - (e) Zone E2 Environmental Conservation,
 - (f) Zone E3 Environmental Management.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies (other than any lot comprising association property within the meaning of the [Community Land Development Act 1989](#)) is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (3A) Despite subclause (3), development consent may be granted for the subdivision of a lot for a community title scheme on land identified as “Area 1” on the [Lot Size Map](#) if:
- (a) each lot size will be at least 4,000 square metres, and

- (b) each lot will be served by a co-operative scheme for the common disposal of effluent.

4.1A Exceptions to minimum lot sizes for certain residential development

- (1) The objective of this clause is to encourage housing diversity without adversely impacting on residential amenity.
- (2) This clause applies to development on land in the following zones:
 - (a) Zone R1 General Residential,
 - (b) Zone R3 Medium Density Residential,
 - (c) Zone R4 High Density Residential.
- (3) Development consent may be granted to a single development application for development to which this applies that is both of the following:
 - (a) the subdivision of land into 2 or more lots,
 - (b) the erection of an attached dwelling, a semi-detached dwelling or a dwelling house on each lot resulting from the subdivision.

4.1B Minimum subdivision lot sizes for certain split zones

- (1) The objectives of this clause are as follows:
 - (a) to provide for the subdivision of lots that are within more than one zone but cannot be subdivided under clause 4.1,
 - (b) to ensure that the subdivision occurs in a manner that promotes suitable land use and development.
- (2) This clause applies to each lot (an original lot) that contains:
 - (a) land in a residential, business or industrial zone, and
 - (b) land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU6 Transition, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living.
- (3) Despite clause 4.1, development consent may be granted to subdivide an original lot to create other lots (the resulting lots) if:
 - (a) one of the resulting lots will contain:
 - (i) land in a residential, business or industrial zone that has an area that is not less than the minimum lot size shown on the [Lot Size Map](#) in relation to that land, and

(ii) all the land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU6 Transition, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living, and

(b) all other resulting lots will contain land that has an area that is not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

4.2 Rural subdivision

(1) The objective of this clause is to provide flexibility in the application of standards for subdivision in rural zones to allow land owners a greater chance to achieve the objectives for development in the relevant zone.

(2) This clause applies to the following rural zones:

- (a) Zone RU1 Primary Production,
- (b) Zone RU2 Rural Landscape,
- (c) Zone RU4 Primary Production Small Lots,
- (d) Zone RU6 Transition.

Note—

When this Plan was made, it did not include Zone RU4 Primary Production Small Lots.

(3) Land in a zone to which this clause applies may, with development consent, be subdivided for the purpose of primary production to create a lot of a size that is less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

(4) However, such a lot cannot be created if an existing dwelling would, as the result of the subdivision, be situated on the lot.

(5) A dwelling cannot be erected on such a lot.

Note—

A dwelling includes a rural worker's dwelling (see definition of that term in the Dictionary).

4.2A Erection of dwelling houses and dual occupancies in certain rural and environment protection zones

(1) The objectives of this clause are as follows:

- (a) to minimise unplanned rural residential development,
- (b) to enable the replacement of lawfully erected dwelling houses in rural and environment protection zones.

(2) This clause applies to development for the purposes of dwelling houses or dual

occupancies (attached) on land in the following zones:

- (a) Zone RU1 Primary Production,
- (b) Zone RU2 Rural Landscape,
- (c) Zone RU6 Transition,
- (d) Zone E3 Environmental Management,
- (e) Zone E4 Environmental Living.

(3) Development consent must not be granted for development to which this clause applies, on land on which no dwelling house or dual occupancy (attached) has been erected, unless the land is:

- (a) a lot that is at least the minimum lot size specified for that land by the [Lot Size Map](#), or
- (b) a lot created before this Plan commenced and on which the erection of a dwelling house or dual occupancy (attached) was permissible immediately before that commencement, or
- (c) a lot resulting from a subdivision for which development consent (or equivalent) was granted before this Plan commenced and on which the erection of a dwelling house or dual occupancy (attached) would have been permissible if the plan of subdivision had been registered before that commencement, or
- (d) an existing holding, or
- (e) within a lot identified as “Dwelling opportunity” on the [Dwelling Opportunity Map](#), but only if no other dwelling or dual occupancy is erected on that lot.

Note—

A dwelling cannot be erected on a lot created under clause 9 of [State Environmental Planning Policy \(Rural Lands\) 2008](#) or clause 4.2.

(Repealed)

(5) Despite subclause (3), development consent may be granted for development to which this clause applies if:

- (a) there is a lawfully erected dwelling house or dual occupancy (attached) on the land and the dwelling house or dual occupancy (attached) to be erected is intended only to replace the existing dwelling house or dual occupancy (attached), or
- (b) the land would have been a lot referred to in subclause (3) had it not been affected by:

- (i) a minor realignment of its boundaries that did not create an additional lot, or
- (ii) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) In this clause:

existing holding means land that:

- (a) was a holding on 26 May 1967, and
- (b) is a holding at the time the application for development consent referred to in subclause (3) is lodged,

whether or not there has been a change in the ownership of the holding since 26 May 1967, and includes any other land adjoining that land acquired by the owner since 26 May 1967.

holding means all adjoining land, even if separated by a road or railway, held by the same person or persons.

4.2B Strata subdivisions in certain rural, residential and environment protection zones

- (1) The objective of this clause is to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.
- (2) This clause applies to land in the following zones that is used, or proposed to be used, for residential accommodation or tourist and visitor accommodation:
 - (a) Zone RU1 Primary Production,
 - (b) Zone RU2 Rural Landscape,
 - (c) Zone R2 Low Density Residential,
 - (d) Zone R5 Large Lot Residential,
 - (e) Zone E2 Environmental Conservation,
 - (f) Zone E3 Environmental Management.
- (3) Development consent must not be granted for the subdivision of a lot to which this clause applies under a strata scheme that would create lots below the minimum size shown on the [Lot Size Map](#) for the land.

Note—

Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is specified complying development.

- (4) (Repealed)

4.2C Boundary adjustments of land in certain rural, residential and environment protection zones

- (1) The objective of this clause is to facilitate boundary adjustments between lots where one or more resultant lots do not meet the minimum lot size shown on the [Lot Size Map](#) in relation to that land but the objectives of the relevant zone can be achieved.
- (2) This clause applies to land in any of the following zones:
 - (a) Zone RU1 Primary Production,
 - (b) Zone RU2 Rural Landscape,
 - (c) Zone RU6 Transition,
 - (d) Zone R5 Large Lot Residential,
 - (e) Zone E2 Environmental Conservation,
 - (f) Zone E3 Environmental Management,
 - (g) Zone E4 Environmental Living.
- (3) Despite clause 4.1, development consent may be granted to subdivide land by way of a boundary adjustment between adjoining lots where one or more resultant lots do not meet the minimum lot size shown on the [Lot Size Map](#) in relation to that land if the consent authority is satisfied that:
 - (a) the subdivision will not create additional lots or the opportunity for additional dwellings, and
 - (b) the number of dwellings or opportunities for dwellings on each lot after the subdivision will be the same as before the subdivision, and
 - (c) the potential for land use conflict will not be increased as a result of the subdivision, and
 - (d) the subdivision will not result in any increased bush fire risk to existing buildings, and
 - (e) if the land is in Zone RU1 Primary Production or Zone RU2 Rural Landscape, the agricultural viability of the land will not be adversely affected as a result of the subdivision.
- (4) Before granting development consent to development to which this clause applies, the consent authority must be satisfied that the subdivision will not compromise the continued protection and long-term maintenance of any land in Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living.

4.3 Height of buildings

- (1) The objectives of this clause are as follows:
 - (a) to ensure that buildings are compatible with the height, bulk and scale of the existing and desired future character of the locality,
 - (b) to minimise visual impact, disruption of views, loss of privacy and loss of solar access to existing development,
 - (c) to minimise the adverse impact of development on heritage conservation areas and heritage items,
 - (d) to nominate heights that will provide a transition in built form and land use intensity within the area covered by this Plan.
- (2) The height of a building on any land is not to exceed the maximum height shown for the land on the [Height of Buildings Map](#).

4.4 Floor space ratio

- (1) The objectives of this clause are as follows:
 - (a) to regulate density of development and generation of vehicular and pedestrian traffic,
 - (b) to encourage increased building height and site amalgamation at key locations,
 - (c) to provide sufficient floor space for high quality development for the foreseeable future,
 - (d) to ensure that buildings are compatible with the bulk and scale of the existing and desired future character of the locality.
- (2) The maximum floor space ratio for a building on any land is not to exceed the floor space ratio shown for the land on the [Floor Space Ratio Map](#).

4.5 Calculation of floor space ratio and site area

- (1) **Objectives** The objectives of this clause are as follows:
 - (a) to define **floor space ratio**,
 - (b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to:
 - (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and
 - (ii) prevent the inclusion in the site area of an area that has already been included

as part of a site area to maximise floor space area in another building, and

(iii) require community land and public places to be dealt with separately.

(2) **Definition of “floor space ratio”** The **floor space ratio** of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area.

(3) **Site area** In determining the site area of proposed development for the purpose of applying a floor space ratio, the **site area** is taken to be:

- (a) if the proposed development is to be carried out on only one lot, the area of that lot, or
- (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out.

In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development.

(4) **Exclusions from site area** The following land must be excluded from the site area:

- (a) land on which the proposed development is prohibited, whether under this Plan or any other law,
- (b) community land or a public place (except as provided by subclause (7)).

(5) **Strata subdivisions** The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation.

(6) **Only significant development to be included** The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot.

(7) **Certain public land to be separately considered** For the purpose of applying a floor space ratio to any proposed development on, above or below community land or a public place, the site area must only include an area that is on, above or below that community land or public place, and is occupied or physically affected by the proposed development, and may not include any other area on which the proposed development is to be carried out.

(8) **Existing buildings** The gross floor area of any existing or proposed buildings within the vertical projection (above or below ground) of the boundaries of a site is to be included in the calculation of the total floor space for the purposes of applying a floor space ratio, whether or not the proposed development relates to all of the buildings.

- (9) **Covenants to prevent “double dipping”** When development consent is granted to development on a site comprised of 2 or more lots, a condition of the consent may require a covenant to be registered that prevents the creation of floor area on a lot (the restricted lot) if the consent authority is satisfied that an equivalent quantity of floor area will be created on another lot only because the site included the restricted lot.
- (10) **Covenants affect consolidated sites** If:
- (a) a covenant of the kind referred to in subclause (9) applies to any land (***affected land***), and
 - (b) proposed development relates to the affected land and other land that together comprise the site of the proposed development,
- the maximum amount of floor area allowed on the other land by the floor space ratio fixed for the site by this Plan is reduced by the quantity of floor space area the covenant prevents being created on the affected land.
- (11) **Definition** In this clause, ***public place*** has the same meaning as it has in the [Local Government Act 1993](#).

4.6 Exceptions to development standards

- (1) The objectives of this clause are as follows:
- (a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,
 - (b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.
- (2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.
- (3) Development consent must not be granted for development that contravenes a development standard unless the consent authority has considered a written request from the applicant that seeks to justify the contravention of the development standard by demonstrating:
- (a) that compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and
 - (b) that there are sufficient environmental planning grounds to justify contravening the development standard.

- (4) Development consent must not be granted for development that contravenes a development standard unless:
- (a) the consent authority is satisfied that:
 - (i) the applicant's written request has adequately addressed the matters required to be demonstrated by subclause (3), and
 - (ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out, and
 - (b) the concurrence of the Secretary has been obtained.
- (5) In deciding whether to grant concurrence, the Secretary must consider:
- (a) whether contravention of the development standard raises any matter of significance for State or regional environmental planning, and
 - (b) the public benefit of maintaining the development standard, and
 - (c) any other matters required to be taken into consideration by the Secretary before granting concurrence.
- (6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living if:
- (a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or
 - (b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.

Note—

When this Plan was made, it did not include Zone RU4.

- (7) After determining a development application made pursuant to this clause, the consent authority must keep a record of its assessment of the factors required to be addressed in the applicant's written request referred to in subclause (3).
- (8) This clause does not allow development consent to be granted for development that would contravene any of the following:
- (a) a development standard for complying development,

- (b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which [State Environmental Planning Policy \(Building Sustainability Index: BASIX\) 2004](#) applies or for the land on which such a building is situated,
- (c) clause 5.4,
- (ca) clause 6.1, 6.2 or 6.3.

Part 5 Miscellaneous provisions

5.1 Relevant acquisition authority

- (1) The objective of this clause is to identify, for the purposes of section 27 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#) (**the owner-initiated acquisition provisions**).

Note—

If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#) requires the authority to acquire the land.

- (2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the [Land Reservation Acquisition Map](#) (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

| Type of land shown on Map | Authority of the State |
|---|---|
| Zone RE1 Public Recreation and marked "Local open space" | Council |
| Zone RE1 Public Recreation and marked "Regional open space" | The corporation constituted under section 8 of the Act |
| Zone SP2 Infrastructure and marked "Classified road" | Roads and Maritime Services |
| Zone E1 National Parks and Nature Reserves and marked "National Park" | Minister administering the National Parks and Wildlife Act 1974 |
| Zone R1 General Residential and marked "Local Road" | Council |
| Zone R1 General Residential and marked "School" | Minister for Education and Training |

| | |
|--|---------|
| Zone RE1 Public Recreation and marked "Local Road" | Council |
| Zone SP2 Infrastructure and marked "Local Road" | Council |
| Zone SP2 Infrastructure and marked "Sewerage" | Council |
| Zone SP3 Tourist and marked "Local Road" | Council |
| Zone E2 Environmental Conservation and marked "Environment Protection" | Council |

- (3) Development on land acquired by an authority of the State under the owner-initiated acquisition provisions may, before it is used for the purpose for which it is reserved, be carried out, with development consent, for any purpose.

5.1A Development on land intended to be acquired for public purposes

- (1) The objective of this clause is to limit development on certain land intended to be acquired for a public purpose.
- (2) This clause applies to land shown on the [Land Reservation Acquisition Map](#) and specified in Column 1 of the Table to this clause and that has not been acquired by the relevant authority of the State specified for the land in clause 5.1.
- (3) Development consent must not be granted to any development on land to which this clause applies other than development for a purpose specified opposite that land in Column 2 of the Table.

| Column 1 | Column 2 |
|---|------------------------------|
| Land | Development |
| Zone R1 General Residential and marked "School" | Schools |
| Zone R1 General Residential and marked "Local road" | Earthworks, Roads |
| Zone SP2 Infrastructure and marked "Local road" | Earthworks, Roads |
| Zone SP2 Infrastructure and marked "Sewerage" | Earthworks, Roads |
| Zone SP3 Tourist and marked "Local road" | Earthworks, Roads |
| Zone RE1 Public Recreation and marked "Local road" | Earthworks, Recreation areas |

Zone E2 Environmental Conservation and marked “Environmental protection” Nil

5.2 Classification and reclassification of public land

- (1) The objective of this clause is to enable the Council to classify or reclassify public land as “operational land” or “community land” in accordance with Part 2 of Chapter 6 of the *Local Government Act 1993*.

Note—

Under the *Local Government Act 1993*, “public land” is generally land vested in or under the control of a council (other than roads, Crown reserves and commons). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the *Local Government Act 1993*. Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.

- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the *Local Government Act 1993*.
- (3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the *Local Government Act 1993*.
- (4) The public land described in Part 1 of Schedule 4:
- (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and
 - (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.
- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except:
- (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
 - (b) any reservations that except land out of the Crown grant relating to the land, and
 - (c) reservations of minerals (within the meaning of the *Crown Lands Act 1989*).

Note—

In accordance with section 30 (2) of the *Local Government Act 1993*, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

5.3 Development near zone boundaries

- (1) The objective of this clause is to provide flexibility where the investigation of a site and its surroundings reveals that a use allowed on the other side of a zone boundary would enable a more logical and appropriate development of the site and be compatible with the planning objectives and land uses for the adjoining zone.
- (2) This clause applies to so much of any land that is within the relevant distance of a boundary between any 2 zones. The relevant distance is:
 - (a) 100 metres from a zone boundary of land that is only within Zone RU1 Primary Production, Zone RU2 Rural Landscape or Zone RU3 Forestry, or
 - (b) 20 metres from any other zone boundary.
- (3) This clause does not apply to:
 - (a) land in Zone RE1 Public Recreation, Zone E1 National Parks and Nature Reserves, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone W1 Natural Waterways, or
 - (b) land within the coastal zone, or
 - (c) land proposed to be developed for the purpose of sex services or restricted premises.
- (4) Despite the provisions of this Plan relating to the purposes for which development may be carried out, development consent may be granted to development of land to which this clause applies for any purpose that may be carried out in the adjoining zone, but only if the consent authority is satisfied that:
 - (a) the development is not inconsistent with the objectives for development in both zones, and
 - (b) the carrying out of the development is desirable due to compatible land use planning, infrastructure capacity and other planning principles relating to the efficient and timely development of land.
- (5) This clause does not prescribe a development standard that may be varied under this Plan.

5.4 Controls relating to miscellaneous permissible uses

- (1) **Bed and breakfast accommodation** If development for the purposes of bed and breakfast accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 4 bedrooms.

Note—

Any such development that provides for a certain number of guests or rooms may involve a change in the

class of building under the *Building Code of Australia*.

- (2) **Home businesses** If development for the purposes of a home business is permitted under this Plan, the carrying on of the business must not involve the use of more than 60 square metres of floor area.
- (3) **Home industries** If development for the purposes of a home industry is permitted under this Plan, the carrying on of the home industry must not involve the use of more than 60 square metres of floor area.
- (4) **Industrial retail outlets** If development for the purposes of an industrial retail outlet is permitted under this Plan, the retail floor area must not exceed:
 - (a) 43% of the gross floor area of the industry or rural industry located on the same land as the retail outlet, or
 - (b) 400 square metres,whichever is the lesser.
- (5) **Farm stay accommodation** If development for the purposes of farm stay accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 4 bedrooms.
- (6) **Kiosks** If development for the purposes of a kiosk is permitted under this Plan, the gross floor area must not exceed 80 square metres.
- (7) **Neighbourhood shops** If development for the purposes of a neighbourhood shop is permitted under this Plan, the retail floor area must not exceed 200 square metres.
- (8) **Roadside stalls** If development for the purposes of a roadside stall is permitted under this Plan, the gross floor area must not exceed 20 square metres.
- (9) **Secondary dwellings** If development for the purposes of a secondary dwelling is permitted under this Plan, the total floor area of the dwelling (excluding any area used for parking) must not exceed whichever of the following is the greater:
 - (a) 60 square metres,
 - (b) 33% of the total floor area of the principal dwelling.

5.5 Development within the coastal zone

- (1) The objectives of this clause are as follows:
 - (a) to provide for the protection of the coastal environment of the State for the benefit of both present and future generations through promoting the principles of ecologically sustainable development,
 - (b) to implement the principles in the NSW Coastal Policy, and in particular to:

- (i) protect, enhance, maintain and restore the coastal environment, its associated ecosystems, ecological processes and biological diversity and its water quality, and
 - (ii) protect and preserve the natural, cultural, recreational and economic attributes of the NSW coast, and
 - (iii) provide opportunities for pedestrian public access to and along the coastal foreshore, and
 - (iv) recognise and accommodate coastal processes and climate change, and
 - (v) protect amenity and scenic quality, and
 - (vi) protect and preserve rock platforms, beach environments and beach amenity, and
 - (vii) protect and preserve native coastal vegetation, and
 - (viii) protect and preserve the marine environment, and
 - (ix) ensure that the type, bulk, scale and size of development is appropriate for the location and protects and improves the natural scenic quality of the surrounding area, and
 - (x) ensure that decisions in relation to new development consider the broader and cumulative impacts on the catchment, and
 - (xi) protect Aboriginal cultural places, values and customs, and
 - (xii) protect and preserve items of heritage, archaeological or historical significance.
- (2) Development consent must not be granted to development on land that is wholly or partly within the coastal zone unless the consent authority has considered:
- (a) existing public access to and along the coastal foreshore for pedestrians (including persons with a disability) with a view to:
 - (i) maintaining existing public access and, where possible, improving that access, and
 - (ii) identifying opportunities for new public access, and
 - (b) the suitability of the proposed development, its relationship with the surrounding area and its impact on the natural scenic quality, taking into account:
 - (i) the type of the proposed development and any associated land uses or activities (including compatibility of any land-based and water-based coastal

- activities), and
 - (ii) the location, and
 - (iii) the bulk, scale, size and overall built form design of any building or work involved, and
 - (c) the impact of the proposed development on the amenity of the coastal foreshore including:
 - (i) any significant overshadowing of the coastal foreshore, and
 - (ii) any loss of views from a public place to the coastal foreshore, and
 - (d) how the visual amenity and scenic qualities of the coast, including coastal headlands, can be protected, and
 - (e) how biodiversity and ecosystems, including:
 - (i) native coastal vegetation and existing wildlife corridors, and
 - (ii) rock platforms, and
 - (iii) water quality of coastal waterbodies, and
 - (iv) native fauna and native flora, and their habitats,can be conserved, and
 - (f) the cumulative impacts of the proposed development and other development on the coastal catchment.
- (3) Development consent must not be granted to development on land that is wholly or partly within the coastal zone unless the consent authority is satisfied that:
- (a) the proposed development will not impede or diminish, where practicable, the physical, land-based right of access of the public to or along the coastal foreshore, and
 - (b) if effluent from the development is disposed of by a non-reticulated system, it will not have a negative effect on the water quality of the sea, or any beach, estuary, coastal lake, coastal creek or other similar body of water, or a rock platform, and
 - (c) the proposed development will not discharge untreated stormwater into the sea, or any beach, estuary, coastal lake, coastal creek or other similar body of water, or a rock platform, and
 - (d) the proposed development will not:
 - (i) be significantly affected by coastal hazards, or

- (ii) have a significant impact on coastal hazards, or
- (iii) increase the risk of coastal hazards in relation to any other land.

5.6 Architectural roof features

- (1) The objectives of this clause are as follows:
 - (a) to ensure that architectural roof features to which this clause applies are decorative elements only,
 - (b) to ensure that the majority of the roof features are contained within the prescribed building height,
 - (c) to facilitate quality urban design by enabling the design of buildings to include roof features that enhance the appearance of buildings,
 - (d) to minimise any adverse impact of architectural roof features on the natural landscape, important public view corridors and views from surrounding land.
- (2) Development that includes an architectural roof feature that exceeds, or causes a building to exceed, the height limits set by clause 4.3 may be carried out, but only with development consent.
- (3) Development consent must not be granted to any such development unless the consent authority is satisfied that:
 - (a) the architectural roof feature:
 - (i) comprises a decorative element on the uppermost portion of a building, and
 - (ii) is not an advertising structure, and
 - (iii) does not include floor space area and is not reasonably capable of modification to include floor space area, and
 - (iv) will cause minimal overshadowing, and
 - (b) any building identification signage or equipment for servicing the building (such as plant, lift motor rooms, fire stairs and the like) contained in or supported by the roof feature is fully integrated into the design of the roof feature.

5.7 Development below mean high water mark

- (1) The objective of this clause is to ensure appropriate environmental assessment for development carried out on land covered by tidal waters.
- (2) Development consent is required to carry out development on any land below the mean high water mark of any body of water subject to tidal influence (including the bed of any such water).

5.8 Conversion of fire alarms

- (1) This clause applies to a fire alarm system that can be monitored by Fire and Rescue NSW or by a private service provider.
- (2) The following development may be carried out, but only with development consent:
 - (a) converting a fire alarm system from connection with the alarm monitoring system of Fire and Rescue NSW to connection with the alarm monitoring system of a private service provider,
 - (b) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with the alarm monitoring system of another private service provider,
 - (c) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with a different alarm monitoring system of the same private service provider.
- (3) Development to which subclause (2) applies is complying development if it consists only of:
 - (a) internal alterations to a building, or
 - (b) internal alterations to a building together with the mounting of an antenna, and any support structure, on an external wall or roof of a building so as to occupy a space of not more than 450mm × 100mm × 100mm.
- (4) A complying development certificate for any such complying development is subject to a condition that any building work may only be carried out between 7.00 am and 6.00 pm on Monday to Friday and between 7.00 am and 5.00 pm on Saturday, and must not be carried out on a Sunday or a public holiday.
- (5) In this clause:

private service provider means a person or body that has entered into an agreement that is in force with Fire and Rescue NSW to monitor fire alarm systems.

5.9, 5.9AA (Repealed)

5.10 Heritage conservation

Note—

Heritage items (if any) are listed and described in Schedule 5. Heritage conservation areas (if any) are shown on the [Heritage Map](#) as well as being described in Schedule 5.

- (1) **Objectives** The objectives of this clause are as follows:
 - (a) to conserve the environmental heritage of Port Macquarie-Hastings,

- (b) to conserve the heritage significance of heritage items and heritage conservation areas, including associated fabric, settings and views,
- (c) to conserve archaeological sites,
- (d) to conserve Aboriginal objects and Aboriginal places of heritage significance.

(2) **Requirement for consent** Development consent is required for any of the following:

- (a) demolishing or moving any of the following or altering the exterior of any of the following (including, in the case of a building, making changes to its detail, fabric, finish or appearance):
 - (i) a heritage item,
 - (ii) an Aboriginal object,
 - (iii) a building, work, relic or tree within a heritage conservation area,
- (b) altering a heritage item that is a building by making structural changes to its interior or by making changes to anything inside the item that is specified in Schedule 5 in relation to the item,
- (c) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed,
- (d) disturbing or excavating an Aboriginal place of heritage significance,
- (e) erecting a building on land:
 - (i) on which a heritage item is located or that is within a heritage conservation area, or
 - (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance,
- (f) subdividing land:
 - (i) on which a heritage item is located or that is within a heritage conservation area, or
 - (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance.

(3) **When consent not required** However, development consent under this clause is not required if:

- (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is

carried out that it is satisfied that the proposed development:

- (i) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or archaeological site or a building, work, relic, tree or place within the heritage conservation area, and
 - (ii) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place, archaeological site or heritage conservation area, or
- (b) the development is in a cemetery or burial ground and the proposed development:
- (i) is the creation of a new grave or monument, or excavation or disturbance of land for the purpose of conserving or repairing monuments or grave markers, and
 - (ii) would not cause disturbance to human remains, relics, Aboriginal objects in the form of grave goods, or to an Aboriginal place of heritage significance, or
- (c) the development is limited to the removal of a tree or other vegetation that the Council is satisfied is a risk to human life or property, or
- (d) the development is exempt development.
- (4) **Effect of proposed development on heritage significance** The consent authority must, before granting consent under this clause in respect of a heritage item or heritage conservation area, consider the effect of the proposed development on the heritage significance of the item or area concerned. This subclause applies regardless of whether a heritage management document is prepared under subclause (5) or a heritage conservation management plan is submitted under subclause (6).
- (5) **Heritage assessment** The consent authority may, before granting consent to any development:
- (a) on land on which a heritage item is located, or
 - (b) on land that is within a heritage conservation area, or
 - (c) on land that is within the vicinity of land referred to in paragraph (a) or (b),
- require a heritage management document to be prepared that assesses the extent to which the carrying out of the proposed development would affect the heritage significance of the heritage item or heritage conservation area concerned.
- (6) **Heritage conservation management plans** The consent authority may require, after considering the heritage significance of a heritage item and the extent of change proposed to it, the submission of a heritage conservation management plan before

granting consent under this clause.

- (7) **Archaeological sites** The consent authority must, before granting consent under this clause to the carrying out of development on an archaeological site (other than land listed on the State Heritage Register or to which an interim heritage order under the [Heritage Act 1977](#) applies):
- (a) notify the Heritage Council of its intention to grant consent, and
 - (b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.
- (8) **Aboriginal places of heritage significance** The consent authority must, before granting consent under this clause to the carrying out of development in an Aboriginal place of heritage significance:
- (a) consider the effect of the proposed development on the heritage significance of the place and any Aboriginal object known or reasonably likely to be located at the place by means of an adequate investigation and assessment (which may involve consideration of a heritage impact statement), and
 - (b) notify the local Aboriginal communities, in writing or in such other manner as may be appropriate, about the application and take into consideration any response received within 28 days after the notice is sent.
- (9) **Demolition of nominated State heritage items** The consent authority must, before granting consent under this clause for the demolition of a nominated State heritage item:
- (a) notify the Heritage Council about the application, and
 - (b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.
- (10) **Conservation incentives** The consent authority may grant consent to development for any purpose of a building that is a heritage item or of the land on which such a building is erected, or for any purpose on an Aboriginal place of heritage significance, even though development for that purpose would otherwise not be allowed by this Plan, if the consent authority is satisfied that:
- (a) the conservation of the heritage item or Aboriginal place of heritage significance is facilitated by the granting of consent, and
 - (b) the proposed development is in accordance with a heritage management document that has been approved by the consent authority, and
 - (c) the consent to the proposed development would require that all necessary conservation work identified in the heritage management document is carried out,

and

- (d) the proposed development would not adversely affect the heritage significance of the heritage item, including its setting, or the heritage significance of the Aboriginal place of heritage significance, and
- (e) the proposed development would not have any significant adverse effect on the amenity of the surrounding area.

5.11 Bush fire hazard reduction

Bush fire hazard reduction work authorised by the *Rural Fires Act 1997* may be carried out on any land without development consent.

Note—

The *Rural Fires Act 1997* also makes provision relating to the carrying out of development on bush fire prone land.

5.12 Infrastructure development and use of existing buildings of the Crown

- (1) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the carrying out of any development, by or on behalf of a public authority, that is permitted to be carried out with or without development consent, or that is exempt development, under *State Environmental Planning Policy (Infrastructure) 2007*.
- (2) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the use of existing buildings of the Crown by the Crown.

5.13 Eco-tourist facilities

- (1) The objectives of this clause are as follows:
 - (a) to maintain the environmental and cultural values of land on which development for the purposes of eco-tourist facilities is carried out,
 - (b) to provide for sensitively designed and managed eco-tourist facilities that have minimal impact on the environment both on and off-site.
- (2) This clause applies if development for the purposes of an eco-tourist facility is permitted with development consent under this Plan.
- (3) The consent authority must not grant consent under this Plan to carry out development for the purposes of an eco-tourist facility unless the consent authority is satisfied that:
 - (a) there is a demonstrated connection between the development and the ecological, environmental and cultural values of the site or area, and
 - (b) the development will be located, constructed, managed and maintained so as to minimise any impact on, and to conserve, the natural environment, and

- (c) the development will enhance an appreciation of the environmental and cultural values of the site or area, and
- (d) the development will promote positive environmental outcomes and any impact on watercourses, soil quality, heritage and native flora and fauna will be minimal, and
- (e) the site will be maintained (or regenerated where necessary) to ensure the continued protection of natural resources and enhancement of the natural environment, and
- (f) waste generation during construction and operation will be avoided and that any waste will be appropriately removed, and
- (g) the development will be located to avoid visibility above ridgelines and against escarpments and from watercourses and that any visual intrusion will be minimised through the choice of design, colours, materials and landscaping with local native flora, and
- (h) any infrastructure services to the site will be provided without significant modification to the environment, and
- (i) any power and water to the site will, where possible, be provided through the use of passive heating and cooling, renewable energy sources and water efficient design, and
- (j) the development will not adversely affect the agricultural productivity of adjoining land, and
- (k) the following matters are addressed or provided for in a management strategy for minimising any impact on the natural environment:
 - (i) measures to remove any threat of serious or irreversible environmental damage,
 - (ii) the maintenance (or regeneration where necessary) of habitats,
 - (iii) efficient and minimal energy and water use and waste output,
 - (iv) mechanisms for monitoring and reviewing the effect of the development on the natural environment,
 - (v) maintaining improvements on an on-going basis in accordance with relevant ISO 14000 standards relating to management and quality control.

Part 6 Urban release areas

6.1 Arrangements for designated State public infrastructure

- (1) The objective of this clause is to require satisfactory arrangements to be made for the provision of designated State public infrastructure before the subdivision of land in an urban release area to satisfy needs that arise from development on the land, but only if the land is developed intensively for urban purposes.
- (2) Development consent must not be granted for the subdivision of land in an urban release area if the subdivision would create a lot smaller than the minimum lot size permitted on the land immediately before the land became, or became part of, an urban release area, unless the Director-General has certified in writing to the consent authority that satisfactory arrangements have been made to contribute to the provision of designated State public infrastructure in relation to that lot.
- (3) Subclause (2) does not apply to:
 - (a) any lot identified in the certificate as a residue lot, or
 - (b) any lot to be created by a subdivision on land that was the subject of a previous development consent granted in accordance with this clause, or
 - (c) any lot that is proposed in the development application to be reserved or dedicated for public open space, public roads, public utility undertakings, educational facilities or any other public purpose, or
 - (d) a subdivision for the purpose only of rectifying an encroachment on any existing lot.
- (4) This clause does not apply to land in an urban release area if all or any part of the land is in a special contributions area (as defined by section 93C of the Act).

6.2 Public utility infrastructure

- (1) Development consent must not be granted for development on land in an urban release area unless the Council is satisfied that any public utility infrastructure that is essential for the proposed development is available or that adequate arrangements have been made to make that infrastructure available when required.
- (2) This clause does not apply to development for the purpose of providing, extending, augmenting, maintaining or repairing any public utility infrastructure.

6.3 Development control plan

- (1) The objective of this clause is to ensure that development on land in an urban release area occurs in a logical and cost-effective manner, in accordance with a staging plan and only after a development control plan including specific controls has been prepared for the land.
- (2) Development consent must not be granted for development on land in an urban release area unless a development control plan that provides for the matters specified in subclause (3) has been prepared for the land.
- (3) The development control plan must provide for all of the following:
 - (a) a staging plan for the timely and efficient release of urban land making provision for necessary infrastructure and sequencing,
 - (b) an overall transport movement hierarchy showing the major circulation routes and connections to achieve a simple and safe movement system for private vehicles, public transport, pedestrians and cyclists,
 - (c) an overall landscaping strategy for the protection and enhancement of riparian areas and remnant vegetation, including visually prominent locations, and detailed landscaping requirements for both the public and private domain,
 - (d) a network of passive and active recreational areas,
 - (e) stormwater and water quality management controls,
 - (f) amelioration of natural and environmental hazards, including bushfire, flooding and site contamination and, in relation to natural hazards, the safe occupation of, and the evacuation from, any land so affected,
 - (g) detailed urban design controls for significant development sites,
 - (h) measures to encourage higher density living around transport, open space and service nodes,
 - (i) measures to accommodate and control appropriate neighbourhood commercial and retail uses,
 - (j) suitably located public facilities and services, including provision for appropriate traffic management facilities and parking.
- (4) Subclause (2) does not apply to any of the following development:
 - (a) a subdivision for the purpose of a realignment of boundaries that does not create additional lots,
 - (b) a subdivision of land if the lot that is proposed to be created is to be reserved or

dedicated for public open space, public roads or any other public or environmental protection purpose,

- (c) a subdivision of land in a zone in which the erection of structures is prohibited,
- (d) proposed development on land that is of a minor nature only, if the consent authority is of the opinion that the carrying out of the proposed development would be consistent with the objectives of the zone in which the land is situated.

6.4 Relationship between Part and remainder of Plan

A provision of this Part prevails over any other provision of this Plan to the extent of any inconsistency.

Part 7 Additional local provisions

7.1 Acid sulfate soils

- (1) The objective of this clause is to ensure that development does not disturb, expose or drain acid sulfate soils and cause environmental damage.
- (2) Development consent is required for the carrying out of works described in the Table to this subclause on land shown on the [Acid Sulfate Soils Map](#) as being of the class specified for those works.

| Class of land | Works |
|----------------------|---|
| 1 | Any works |
| 2 | Works below the natural ground surface. Works by which the watertable is likely to be lowered. |
| 3 | Works more than 1 metre below the natural ground surface. Works by which the watertable is likely to be lowered more than 1 metre below the natural ground surface. |
| 4 | Works more than 2 metres below the natural ground surface. Works by which the watertable is likely to be lowered more than 2 metres below the natural ground surface. |
| 5 | Works within 500 metres of adjacent Class 1, 2, 3 or 4 land that is below 5 metres Australian Height Datum and by which the watertable is likely to be lowered below 1 metre Australian Height Datum on adjacent Class 1, 2, 3 or 4 land. |

- (3) Development consent must not be granted under this clause for the carrying out of works unless an acid sulfate soils management plan has been prepared for the

proposed works in accordance with the *Acid Sulfate Soils Manual* and has been provided to the consent authority.

- (4) Despite subclause (2), development consent is not required under this clause for the carrying out of works if:
 - (a) a preliminary assessment of the proposed works prepared in accordance with the *Acid Sulfate Soils Manual* indicates that an acid sulfate soils management plan need not be carried out for the works, and
 - (b) the preliminary assessment has been provided to the consent authority and the consent authority has confirmed the assessment by notice in writing to the person proposing to carry out the works.
- (5) Despite subclause (2), development consent is not required under this clause for the carrying out of any of the following works by a public authority (including ancillary work such as excavation, construction of access ways or the supply of power):
 - (a) emergency work, being the repair or replacement of the works of the public authority required to be carried out urgently because the works have been damaged, have ceased to function or pose a risk to the environment or to public health and safety,
 - (b) routine management work, being the periodic inspection, cleaning, repair or replacement of the works of the public authority (other than work that involves the disturbance of more than 1 tonne of soil),
 - (c) minor work, being work that costs less than \$20,000 (other than drainage work).
- (6) Despite subclause (2), development consent is not required under this clause to carry out any works if:
 - (a) the works involve the disturbance of less than 1 tonne of soil, such as occurs in carrying out agriculture, the construction or maintenance of drains, extractive industries, dredging, the construction of artificial water bodies (including canals, dams and detention basins) or foundations or flood mitigation works, or
 - (b) the works are not likely to lower the watertable.

7.2 Earthworks

- (1) The objectives of this clause are as follows:
 - (a) to ensure that earthworks for which development consent is required will not have a detrimental impact on environmental functions and processes, neighbouring uses, cultural or heritage items or features of the surrounding land,
 - (b) to allow earthworks of a minor nature without separate development consent.

- (2) Development consent is required for earthworks unless:
 - (a) the work is exempt development under this Plan or another applicable environmental planning instrument, or
 - (b) the work is ancillary to other development for which development consent has been given.
- (3) Before granting development consent for earthworks, the consent authority must consider the following matters:
 - (a) the likely disruption of, or any detrimental effect on, existing drainage patterns and soil stability in the locality,
 - (b) the effect of the proposed development on the likely future use or redevelopment of the land,
 - (c) the quality of the fill or the soil to be excavated, or both,
 - (d) the effect of the proposed development on the existing and likely amenity of adjoining properties,
 - (e) the source of any fill material and the destination of any excavated material,
 - (f) the likelihood of disturbing relics,
 - (g) the proximity to and potential for adverse impacts on any watercourse, drinking water catchment or environmentally sensitive area.

Note—

The [National Parks and Wildlife Act 1974](#), particularly section 86, deals with disturbing or excavating land and Aboriginal objects.

7.3 Flood planning

- (1) The objectives of this clause are as follows:
 - (a) to minimise the flood risk to life and property associated with the use of land,
 - (b) to allow development on land that is compatible with the land's flood hazard, taking into account projected changes as a result of climate change,
 - (c) to avoid significant adverse impacts on flood behaviour and the environment.
- (2) This clause applies to:
 - (a) land that is shown as "Flood planning area" on the [Flood Planning Map](#), and
 - (b) other land at or below the flood planning level.

- (3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
 - (a) is compatible with the flood hazard of the land, and
 - (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
 - (c) incorporates appropriate measures to manage risk to life from flood, and
 - (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
 - (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
- (4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7 347 54760) published in 2005 by the NSW Government, unless it is otherwise defined in this clause.

7.4 Floodplain risk management

- (1) The objectives of this clause are as follows:
 - (a) in relation to developments with particular evacuation or emergency response issues—to enable the evacuation of land subject to flooding above the flood planning level,
 - (b) to protect the operational capacity of emergency response facilities and critical infrastructure during extreme flood events.
- (2) This clause applies to:
 - (a) land between the flood planning area and the line that is shown as the probable maximum flood level on the [Flood Planning Map](#), and
 - (b) land surrounded by the flood planning area,but does not apply to land below the flood planning level.
- (3) Development consent must not be granted to development for the following purposes on land to which this clause applies unless the consent authority is satisfied that the development incorporates appropriate measures to manage risk to life from flood:
 - (a) caravan parks,
 - (b) correctional facilities,

- (c) emergency services facilities,
- (d) group homes,
- (e) hospitals,
- (f) residential care facilities,
- (g) tourist and visitor accommodation.

(4) In this clause, **probable maximum flood** has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7 347 54760) published in 2005 by the NSW Government

7.5 Koala habitat

- (1) The objective of this clause is to ensure that development is designed to retain koala habitat.
- (2) This clause applies to land that is shown as “Koala habitat area” on the [Koala Habitat Map](#).
- (3) Development consent must not be granted for development on land to which this applies unless the consent authority is satisfied that the development is consistent with the relevant provisions of any adopted plan of management prepared pursuant to [State Environmental Planning Policy No 44—Koala Habitat Protection](#).
- (4) Development consent must not be granted for a subdivision of land to which this clause applies unless the consent authority is satisfied that each lot that would be created by the subdivision will contain a sufficient building envelope to enable future development of the lot to comply with subclause (3).

Note—

The land shown as “Koala Habitat” does not identify all koala habitat areas within the land to which this Plan applies.

- (5) Land shown as “Koala habitat area” on the [Koala Habitat Map](#) is identified as being within an ecologically sensitive area for the purposes of clause 1.19 of [State Environmental Planning Policy \(Exempt and Complying Development Codes\) 2008](#).

Note—

Clause 1.19 of [State Environmental Planning Policy \(Exempt and Complying Development Codes\) 2008](#) prevents complying development specified for certain complying development codes from being carried out on land identified by an environmental planning instrument as being within an ecologically sensitive area.

7.6 Coastline hazards

- (1) The objectives of this clause are as follows:
 - (a) to avoid significant adverse impacts from coastal hazards,

- (b) to enable evacuation of coastal risk areas in an emergency,
 - (c) to ensure uses are compatible with coastal risks.
- (2) This clause applies to land that is shown as “Coastal Erosion Risk” on the [Coastal Erosion Map](#).
- (3) Development consent must not be granted to development on land to which this clause applies unless the consent authority has considered whether the development:
- (a) will significantly adversely affect coastal hazards, and
 - (b) will result in significant detrimental increases in coastal risks to other development or properties, and
 - (c) will significantly alter coastal hazards to the detriment of the environment, and
 - (d) incorporates appropriate measures to manage risk to life from coastal risks, and
 - (e) avoids or minimises exposure to coastal hazards, and
 - (f) makes provision for relocation, modification or removal of the development to adapt to coastal hazards and sea level rise planning benchmarks for New South Wales.
- (4) A word or expression used in this clause has the same meaning as it has in the *NSW Coastal Planning Guidelines: Adapting to Sea Level Rise* (ISBN 978-1-74263-035-9) published by the NSW Government in August 2010, unless it is otherwise defined in this clause.
- (5) In this clause, **coastal hazard** has the same meaning as it has in the [Coastal Protection Act 1979](#).

7.7 Airspace operations

- (1) The objectives of this clause are as follows:
- (a) to provide for the effective and ongoing operation of the Port Macquarie Airport by ensuring that such operation is not compromised by proposed development that penetrates the Limitation or Operations Surface for that airport,
 - (b) to protect the community from undue risk from that operation.
- (2) If a development application is received and the consent authority is satisfied that the proposed development will penetrate the Limitation or Operations Surface, the consent authority must not grant development consent unless it has consulted with the relevant Commonwealth body about the application.
- (3) The consent authority may grant development consent for the development if the

relevant Commonwealth body advises that:

- (a) the development will penetrate the Limitation or Operations Surface but it has no objection to its construction, or
 - (b) the development will not penetrate the Limitation or Operations Surface.
- (4) The consent authority must not grant development consent for the development, if the relevant Commonwealth body advises that the development will penetrate the Limitation or Operations Surface and should not be constructed.
- (5) In this clause:

Limitation or Operations Surface means the Obstacle Limitation Surface or the Procedures for Air Navigation Services Operations Surface as shown on the *Obstacle Limitation Surface Map* or the *Procedures for Air Navigation Services Operations Surface Map* for the Port Macquarie Airport under Commonwealth legislation

relevant Commonwealth body means the body, under Commonwealth legislation, that is responsible for development approvals for development that penetrates the Limitation or Operations Surface for the Port Macquarie Airport.

7.8 Development in areas subject to aircraft noise

- (1) This clause applies to development that:
- (a) is on land that:
 - (i) is near an airport, and
 - (ii) is in an ANEF contour of 20 or greater, and
 - (b) the consent authority considers is likely to be adversely affected by aircraft noise.
- (2) Before determining a development application for development to which this clause applies, the consent authority:
- (a) must consider whether the development will result in an increase in the number of dwellings or people affected by aircraft noise, and
 - (b) must consider the location of the development in relation to the criteria set out in Table 2.1 (Building Site Acceptability Based on ANEF Zones) in AS 2021—2000, *Acoustics—Aircraft noise intrusion—Building siting and construction*, and
 - (c) must be satisfied that the development will meet AS 2021—2000, *Acoustics—Aircraft noise intrusion—Building siting and construction* with respect to interior noise levels for the purposes of:
 - (i) if the development will be in an ANEF contour of 20 or greater—centre-based child care facilities, educational establishments, entertainment facilities,

hospitals, places of public worship, public administration buildings or residential accommodation, and

- (ii) if the development will be in an ANEF contour of 25 or greater—business premises, hostels, hotel or motel accommodation, office premises or retail premises.

(3) In this clause:

airport means a civil, military or joint civil and military airport.

ANEF contour means a noise exposure contour shown as an ANEF contour on the *Noise Exposure Forecast Contour Map* for that airport prepared by the Department of the Commonwealth responsible for airports.

7.9 Development subject to acoustic controls

- (1) The objective of this clause is to ensure that development for residential or tourist purposes, or for any other purpose involving regular human occupation, on land subject to significant exposure to noise (including road traffic noise or extractive industry crushing plant operation noise) incorporates appropriate mitigation measures.
- (2) This clause applies to the land identified as “Subject to acoustic controls” on the [Acoustic Controls Map](#).
- (3) Before granting development consent to development on land to which this clause applies, the consent authority must:
 - (a) consider the location of the development in relation to the relevant criteria set out in:
 - (i) *NSW Road Noise Policy* published by the Department of Environment, Climate Change and Water in March 2011, and
 - (ii) *NSW Industrial Noise Policy* published by the NSW Environment Protection Authority in January 2000, and
 - (b) be satisfied that the occupants of the development will not be subject to excessive noise, and
 - (c) be satisfied that appropriate noise mitigation measures will be incorporated into the development to reduce noise to an acceptable level.
- (4) Land identified as “Subject to acoustic controls” on the [Acoustic Controls Map](#) is identified as being within a buffer area for the purposes of clause 1.19 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*.

Note—

Clause 1.19 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* prevents complying development specified for certain complying development codes from being carried out on land identified by an environmental planning instrument as being within a buffer area.

7.10 Erection of rural workers' dwellings on land in Zones RU1 and RU2

- (1) The objective of this clause is to ensure the provision of adequate accommodation for employees of existing agricultural or rural industries.
- (2) This clause applies to land in the following zones:
 - (a) Zone RU1 Primary Production,
 - (b) Zone RU2 Rural Landscape.
- (3) Development consent must not be granted for the erection of a rural worker's dwelling on land to which this clause applies unless the consent authority is satisfied that:
 - (a) the development will not impair the use of the land for agricultural and rural industries, and
 - (b) there is a demonstrated economic capacity of the agricultural or rural industry being carried out on the land to support the ongoing employment of rural workers, and
 - (c) the development is necessary considering the nature of the agricultural or rural industry land use lawfully occurring on the land or as a result of the remote or isolated location of the land, and
 - (d) the development will not result in more than 1 rural worker's dwelling being erected on the land comprising the agricultural or rural industry.

7.11 Development in Zone B1 Neighbourhood Centre

- (1) The objective of this clause is to ensure that proposed large commercial premises are located within the Greater Port Macquarie Central Business District and other local centres in the region, other than in Zone B1 Neighbourhood Centre.
- (2) Development consent must not be granted to development for the purposes of commercial premises on land in Zone B1 Neighbourhood Centre if the development would result in a building or premises having a gross floor area of more than 2,000 square metres.

7.11A Design excellence

- (1) The objective of this clause is to ensure that development exhibits design excellence that contributes to the natural, cultural, visual and built character values of Port Macquarie-Hastings.

- (2) This clause applies to development involving the erection of a new building, or external alterations or additions to an existing building, on land identified as “Significant Urban Area” on the [Significant Urban Areas Map](#).
- (3) This clause does not apply to development that the consent authority considers to be minor.
- (4) Development consent must not be granted for development to which this clause applies unless the consent authority considers that the development exhibits design excellence.
- (5) In considering whether the development exhibits design excellence, the consent authority must have regard to the following matters:
 - (a) whether a high standard of architectural design, materials and detailing appropriate to the building type and location will be achieved,
 - (b) whether the form and external appearance of the development will improve the quality and amenity of the public domain,
 - (c) whether the development detrimentally impacts on view corridors,
 - (d) whether the development incorporates active frontages to key streets and to pedestrian thoroughfares,
 - (e) how the development addresses the following matters:
 - (i) the suitability of the land for development,
 - (ii) existing and proposed uses and use mix,
 - (iii) heritage issues and streetscape constraints,
 - (iv) the relationship of the development with other development (existing or proposed) on the same site or on neighbouring sites in terms of separation, setbacks, amenity and urban form,
 - (v) bulk, massing and modulation of buildings,
 - (vi) street frontage heights,
 - (vii) environmental impacts such as sustainable design, overshadowing, wind and reflectivity,
 - (viii) the achievement of the principles of ecologically sustainable development,
 - (ix) pedestrian, cycle, vehicular and service access, circulation and requirements,
 - (x) the impact on, and any proposed improvements to, the public domain,

(f) the desired future character and any aims or objectives (or both) relating to the development as set out in DCP 2013 and, in particular, in the area-based provisions.

(6) In this clause:

DCP 2013 means *Port Macquarie-Hastings Development Control Plan 2013* (as adopted by the Council on 15 July 2015, with effect on and from 27 July 2015 and known as version 20150727), and as amended by the following development control plans:

Editorial note—

No amending development control plans have been made.

7.12 Development in Zone B4

(1) The objectives of this clause are to ensure that:

- (a) large retail premises are located in the Greater Port Macquarie Central Business District, or other identified specialty centres, other than in Zone B4 Mixed Use, and
- (b) retail premises in that zone remain at a compatible scale consistent with the zone objectives.

(2) Development consent must not be granted to development for the purposes of bulky goods premises, hardware and building supplies or shops on land in Zone B4 Mixed Use if the development would result in a building or premises that has a gross floor area of more than 250 square metres.

7.13 Essential services

Development consent must not be granted to development unless the consent authority is satisfied that any of the following services that are essential for the proposed development are available or that adequate arrangements have been made to make them available when required:

- (a) the supply of water,
- (b) the supply of electricity,
- (c) the disposal and management of sewage,
- (d) stormwater drainage or on-site conservation,
- (e) suitable road access.

7.14 Eco-tourist facilities—additional provisions

(1) The objective of this clause is to ensure that eco-tourist facilities have an appropriate scale without compromising the future extraction of significant mineral resources.

- (2) Development consent must not be granted to development for the purposes of an eco-tourist facility unless:
 - (a) development for the purposes of a dwelling house or dual occupancy (attached) is not prohibited on the subject land under clause 4.2A, and
 - (b) the gross floor area of the eco-tourist facility and any ancillary permanent accommodation for owners or managers does not exceed 1,000 square metres, and
 - (c) the consent authority is satisfied that the development does not cause unfunded increased demand for the provision or maintenance of local infrastructure, and
 - (d) the consent authority is satisfied that the development will not compromise the future extraction of State or regionally significant reserves of coal or other minerals or petroleum or extractive industries.

7.15 Location of sex services premises

- (1) The objective of this clause is to minimise land use conflicts and adverse amenity impacts by providing a reasonable level of separation between sex services premises, specified land uses and places regularly frequented by children.
- (2) In deciding whether to grant development consent to development for the purposes of sex services premises, the consent authority must consider the following:
 - (a) if the premises will be located on land that adjoins, is directly opposite or is separated only by a local road from land:
 - (i) in Zone R1 General Residential, Zone R2 Low Density Residential, Zone R3 Medium Density Residential or Zone RE1 Public Recreation, or
 - (ii) used for the purposes of a centre-based child care facility, a community facility, a school or a place of public worship,
 - (b) the impact the proposed development and its hours of operation would have on any place, likely to be regularly frequented by children:
 - (i) that adjoins the proposed development, or
 - (ii) that can be viewed from the proposed development, or
 - (iii) from which a person can view the proposed development.

7.16 Development in Zone IN4 Working Waterfront

- (1) The objective of this clause is to ensure that industrial activities proposed to be located in Zone IN4 Working Waterfront require direct waterfront access or are associated with other industrial activities that require direct waterfront access.

- (2) Development consent must not be granted for the purpose of industry on land in Zone IN4 Working Waterfront unless the consent authority is satisfied that the relevant industrial activity requires direct waterfront access or is associated with another industrial activity that requires direct waterfront access.

Schedule 1 Additional permitted uses

(Clause 2.5)

1 Use of certain land at Homedale Road, Kew

Schedule 2 Exempt development

(Clause 3.1)

Note 1—

State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 specifies exempt development under that Policy. The Policy has State-wide application. This Schedule contains additional exempt development not specified in that Policy.

Note 2—

Exempt development may be carried out without the need for development consent under the Act. Such development is not exempt from any approval, licence, permit or authority that is required under any other Act and adjoining owners' property rights and the common law still apply.

Works in cemeteries or burial grounds

- (1) Development must only involve:
 - (a) the creation of a new grave or monument, or
 - (b) the excavation or disturbance of land for the purpose of carrying out the conservation or repair of a monument or grave marker.
- (2) Must be within an existing cemetery or burial ground.
- (3) Must not disturb human remains, relics, Aboriginal objects in the form of grave goods, or an Aboriginal place of heritage significance.
- (4) Must not involve the removal or pruning of a tree or other vegetation that requires a permit or development consent for removal or pruning, unless that removal or pruning is undertaken in accordance with a permit or development consent.
- (5) Must not be on land shown as “Coastal erosion risk” on the [Coastal Erosion Map](#).

Dams (Zones RU1, RU2 and RU6)

- (1) Maximum embankment fill batter grades—1:2.5 (vertical:horizontal).
- (2) Minimum distance from property boundary at closest point—10m.
- (3) Minimum fill embankment crest width—3m.
- (4) Minimum height difference between the embankment crest level and the spillway level—1m.
- (5) Maximum fill embankment height, as measured from ground level (existing) immediately down slope of the embankment to the top of the embankment crest level—3m.
- (6) Must not be in any area identified on the [Acid Sulfate Soils Map](#).
- (7) Maximum capacity of water storage—3ML.
- (8) Must not be constructed in a watercourse.
- (9) Must not be within 40m of any part of an on-site effluent disposal system.

Lighting (external)

- (1) Must not be for the lighting of tennis courts or sports grounds.
- (2) Constructed and maintained so that light spill is contained within site and in accordance with AS 4282-1997, *Control of the obtrusive effects of outdoor lighting*.
- (3) Construction and maintenance of lighting at or in vicinity of air transport facilities if

consistent with *Manual of Standards (MOS)—Part 139—Aerodromes* published by the Civil Aviation Safety Authority (established under the *Civil Aviation Act 1988* of the Commonwealth).

Signage—sports field advertising

- (1) Must be facing the playing area on the inside of a fence around the playing surface.
- (2) Must provide information about sponsors, or products of sponsors, of teams or organisations using the sporting facility.
- (3) Must not be artificially illuminated.
- (4) Maximum height above ground level (existing)—1.2m.
- (5) Minimum height above ground level (existing)—0.2m.

Signage—Council-owned public roads and road-related areas

- (1) Must:
 - (a) relate to community information and events, or
 - (b) display an advertisement and be affixed to a public seat or a bus shelter.
- (2) Must be consistent with road safety policies and guidelines on outdoor advertising approved by the Secretary of the Department of Planning and Environment for the purpose of Schedule 1 to the *State Environmental Planning Policy (Infrastructure) 2007*.

Note—

Consent of the appropriate roads authority to the signage under section 138 (1) of the *Roads Act 1993* may still be required.

Wind energy generating works (other than in Zone RU1, RU2, RU3 or RU4)

- (1) Maximum height above ground level (existing)—2.7m, or the maximum height permitted for the Limitation or Operations Surface in clause 7.7, whichever is less.
- (2) Must be located behind the building line.
- (3) Maximum generating capacity for wind turbines—2Kw.
- (4) Noise emissions must not be audible inside any adjoining dwelling between 10.00 pm and 7.00 am on weekdays, and between 10.00 pm and 8.00 am on Saturdays, Sundays and public holidays. At all other times, noise levels must not exceed 5dBA above ambient background noise level measured at the lot boundary.
- (5) Must not involve the removal or pruning of a tree or other vegetation that requires a

permit or development consent for removal or pruning, unless that removal or pruning is undertaken in accordance with a permit or development consent.

- (6) Must not be carried out on land that is shown as “Coastal erosion risk” on the [Coastal Erosion Map](#).
- (7) Must not be carried out on a heritage item.
- (8) Must be located at least 1m from a registered easement, sewer main or water main.

Schedule 3 Complying development

(Clause 3.2)

Note—

State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 specifies complying development and the complying development conditions for that development under that Policy. The Policy has State-wide application. This Schedule contains additional complying development not specified in that Policy.

Part 1 Types of development

Industrial buildings, warehouse or distribution centres

(1) Application and general

- (a) Must be on land in an industrial zone.
- (b) Must be a lawful use or an addition for administration or storage uses carried out in conjunction with a lawful use of the building.
- (c) Must not be within 50m of land in a residential zone.
- (d) External areas must not be occupied for the purposes of storage or manufacturing or any other like activity.
- (e) Must not be within the flood planning area on the [Flood Planning Area Map](#).
- (f) Does not involve ancillary retailing, bulky goods premises, or the manufacture or preparation of food.
- (g) Must be located at least 1m from a registered easement, sewer main or water main.
- (h) Must not involve the removal or pruning of a tree or other vegetation that requires a permit or development consent for removal or pruning, unless that removal or pruning is undertaken in accordance with a permit or development consent.
- (i) Must not be carried out on land that is subject to subsidence, slip or erosion, including land that is shown as “Coastal Erosion Risk” on the [Coastal Erosion Map](#).

(j) Must not be carried out on land that is shown as “Visually Sensitive Land” on the [Visually Sensitive Land Map](#).

(2) Bulk and scale

(a) Maximum gross floor area for all buildings on the site—1,000m².

(b) Maximum wall height (excluding parapet of up to 1.2m)—9m.

(c) Maximum roof pitch—10°.

(3) Setbacks and siting Minimum development setback—10m from a classified road boundary or 7.6m from any other road boundary, with a minimum 3m setback from any secondary road frontage.

(4) Design and finishes The design, materials and finish, including colours, of additions (including roof pitch and treatment) must be either the same or similar to that used in the existing building.

(5) Site works Maximum cut or fill to alter a level—1m.

(6) Landscaping and open space A landscaped strip at least 3m wide covering a minimum of two-thirds of each street frontage planted with a mix of canopy trees with a mature height of not less than 10m, and shrubs with a mature height of 5m at a density of 1 plant per 3m².

(7) Access, parking and traffic

(a) Must have safe and direct access to a public road.

(b) Must provide car parking as follows:

(i) for industries—1 car parking space per 40m² of office and showroom area, plus 1 car parking space per 100m² of gross floor area, or 1 car parking space per 2 employees, whichever is the greater,

(ii) for warehouse or distribution centres—1 car parking space per 300m² of gross floor area.

(c) In relation to additions, must not change existing driveway access or loading and unloading arrangements, other than lawful changes made wholly within the site that do not contravene any condition of a development consent applying to the land.

(d) The design and construction of the vehicular access and on-site manoeuvring must comply with Australian Standard AS 2890.2-2002, *Parking facilities—Off-street commercial vehicle facilities*, including provision for forward entry and exit by a medium rigid vehicle.

- (e) The area between the landscaping and the building line may be used for car parking, but must not be used for commercial vehicle manoeuvring, parking, loading or unloading.

(8) Services

- (a) Must be serviced with reticulated water (dual reticulated where available), sewerage, electricity and telephone.
- (b) Must have kerb and gutter to the full frontage to road.
- (c) If drainage works—must be designed and certified by a professional engineer in accordance with AS/NZS 3500:2003, *Plumbing and drainage*.
- (d) If required—stormwater drainage must be connected to the Council’s drainage system in accordance with the Council’s adopted *AUS-SPEC Code*.
- (e) If for garbage or waste storage—must be located where they cannot be seen from a public place.

Recreation facilities (hit-up walls)

- (1) Must be on a lot on which a dwelling house is erected.
- (2) Must only be for private use.
- (3) Must be set back at least 2m from each property boundary.
- (4) Must be located behind the building line.
- (5) Maximum height—3m above ground level (existing).
- (6) Maximum length—7m.
- (7) Must not be illuminated.
- (8) Paved area associated with the wall must be constructed so that it drains directly into the existing on-site stormwater drainage system.
- (9) Perimeter netting must be installed in accordance with the manufacturer’s specifications.
- (10) Must not involve the removal or pruning of a tree or other vegetation that requires a permit or development consent for removal or pruning, unless that removal or pruning is undertaken in accordance with a permit or development consent.
- (11) The window of any habitable room of a dwelling house, a clothes drying area or designated barbecue, playground or primary recreation area (including a swimming pool located on adjoining land) must not be in the shadow of the development

between 10.00 am and 3.00 pm on 21 June.

Recreation facilities (tennis courts)

- (1) Must only be for private use.
- (2) Must be on a lot on which a dwelling house is erected.
- (3) Must be set back at least 2m from each property boundary.
- (4) Must be located behind the building line.
- (5) Maximum height of perimeter protective netting or wire—3m above ground level (existing).
- (6) Must not be illuminated.
- (7) Must not involve the removal or pruning of a tree or other vegetation that requires a permit or development consent for removal or pruning, unless that removal or pruning is undertaken in accordance with a permit or development consent.
- (8) Must be constructed so that it drains directly into the existing on-site stormwater drainage system.
- (9) Perimeter protective netting must be installed in accordance with the manufacturer's specifications.

Part 2 Complying development certificate conditions

Note—

Complying development must comply with the requirements of the Act, the regulations under the Act and this Plan.

General conditions

Any development specified in Part 1 is subject to the same conditions set out in Schedule 6 to [State Environmental Planning Policy \(Exempt and Complying Development Codes\) 2008](#).

Site management

The person having the benefit of the complying development certificate must, during construction, have a sign at the front of the site displaying the builder's name, licence number and the development consent number.

Inspections during construction

If the Council is the principal certifying authority, the person having the benefit of the complying development certificate must notify the Council at least 48 hours (in writing) or 24 hours (by telephone) before an inspection is required for any of the following:

- (a) erosion controls, site works and site set out, before building starts,
- (b) placement of piers or foundation before placing footings,
- (c) steel reinforcing before pouring concrete,
- (d) framework of structure before lining or cladding is fixed,
- (e) stormwater drainage and on-site detention before backfilling,
- (f) wet areas treated before lining or tiling,
- (g) if the development is located in an area not serviced by a reticulated sewerage system, the following additional inspections:
 - (i) internal and external drainage,
 - (ii) hot and cold water.

Survey certificate

- (1) To ensure compliance with approved plans, a survey certificate, prepared by a registered surveyor and stating the following, must be given to the principal certifying authority at the following stages:
 - (a) on completion of the floor slab framework before concrete is poured—detailing the location of the structure in relation to the boundaries,
 - (b) on completion of the lowest floor—confirming that levels are in accordance with the certificate (which levels must relate to the datum shown on the certificate).
- (2) In relation to land shown as “Flood planning area” on the [Flood Planning Map](#), the survey must confirm that the floor level complies with the floor level requirements for the flood planning level in that location.

Dictionary

(Clause 1.4)

Note—

The Act and the [Interpretation Act 1987](#) contain definitions and other provisions that affect the interpretation and application of this Plan.

Aboriginal object means any deposit, object or other material evidence (not being a handicraft made for sale) relating to the Aboriginal habitation of an area of New South Wales, being habitation before or concurrent with (or both) the occupation of that area by persons of non-Aboriginal extraction, and includes Aboriginal remains.

Aboriginal place of heritage significance means an area of land, the general location of which is identified in an Aboriginal heritage study adopted by the Council after public exhibition and that may be shown on the [Heritage Map](#), that is:

- (a) the site of one or more Aboriginal objects or a place that has the physical remains of pre-European occupation by, or is of contemporary significance to, the Aboriginal people. It may (but need not) include items and remnants of the occupation of the land by Aboriginal people, such as burial places, engraving sites, rock art, midden deposits, scarred and sacred trees and sharpening grooves, or
- (b) a natural Aboriginal sacred site or other sacred feature. It includes natural features such as creeks or mountains of long-standing cultural significance, as well as initiation, ceremonial or story places or areas of more contemporary cultural significance.

Note—

The term may include (but is not limited to) places that are declared under section 84 of the [National Parks and Wildlife Act 1974](#) to be Aboriginal places for the purposes of that Act.

acid sulfate soils means naturally occurring sediments and soils containing iron sulfides (principally pyrite) or their precursors or oxidation products, whose exposure to oxygen leads to the generation of sulfuric acid (for example, by drainage or excavation).

Acid Sulfate Soils Manual means the manual by that name published by the Acid Sulfate Soils Management Advisory Committee and made publicly available.

Acid Sulfate Soils Map means the [Port Macquarie-Hastings Local Environmental Plan 2011 Acid Sulfate Soils Map](#).

Acoustic Controls Map means the [Port Macquarie-Hastings Local Environmental Plan 2011 Acoustic Controls Map](#).

Additional Permitted Uses Map means the [Port Macquarie-Hastings Local Environmental Plan 2011 Additional Permitted Uses Map](#).

advertisement has the same meaning as in the Act.

Note—

The term is defined as a sign, notice, device or representation in the nature of an advertisement visible from any public place or public reserve or from any navigable water.

advertising structure has the same meaning as in the Act.

Note—

The term is defined as a structure used or to be used principally for the display of an advertisement.

Advertising structures are a type of **signage**—see the definition of that term in this Dictionary.

affordable housing has the same meaning as in the Act.

Note—

The term is defined as housing for very low income households, low income households or moderate income households, being such households as are prescribed by the regulations or as are provided for in an environmental planning instrument.

agricultural produce industry means a building or place used for the handling, treating, processing or packing, for commercial purposes, of produce from agriculture (including dairy products, seeds, fruit, vegetables or other plant material), and includes wineries, flour mills, cotton seed oil plants, cotton gins, feed mills, cheese and butter factories, and juicing or canning plants, but does not include a livestock processing industry.

Note—

Agricultural produce industries are a type of **rural industry**—see the definition of that term in this Dictionary.

agriculture means any of the following:

- (a) aquaculture,
- (b) extensive agriculture,
- (c) intensive livestock agriculture,
- (d) intensive plant agriculture.

Note—

Part 6 of the [Plantations and Reafforestation Act 1999](#) provides that exempt farm forestry within the meaning of that Act is not subject to the [Environmental Planning and Assessment Act 1979](#).

air transport facility means an airport or a heliport that is not part of an airport, and includes associated communication and air traffic control facilities or structures.

airport means a place that is used for the landing, taking off, parking, maintenance or repair of aeroplanes, and includes associated buildings, installations, facilities and movement areas and any heliport that is part of the airport.

Note—

Airports are a type of **air transport facility**—see the definition of that term in this Dictionary.

airstrip means a single runway for the landing, taking off or parking of aeroplanes for private aviation only, but does not include an airport, heliport or helipad.

amusement centre means a building or place (not being part of a pub or registered club) used principally for playing:

- (a) billiards, pool or other like games, or
- (b) electronic or mechanical amusement devices, such as pinball machines, computer or video games and the like.

animal boarding or training establishment means a building or place used for the breeding, boarding, training, keeping or caring of animals for commercial purposes (other than for the agistment of horses), and includes any associated riding school or ancillary veterinary hospital.

Note—

Aquaculture is a type of **agriculture**—see the definition of that term in this Dictionary.

archaeological site means a place that contains one or more relics.

attached dwelling means a building containing 3 or more dwellings, where:

- (a) each dwelling is attached to another dwelling by a common wall, and
- (b) each of the dwellings is on its own lot of land, and
- (c) none of the dwellings is located above any part of another dwelling.

Note—

Attached dwellings are a type of **residential accommodation**—see the definition of that term in this Dictionary.

attic means any habitable space, but not a separate dwelling, contained wholly within a roof above the ceiling line of the storey immediately below, except for minor elements such as dormer windows and the like.

backpackers' accommodation means a building or place that:

- (a) provides temporary or short-term accommodation on a commercial basis, and
- (b) has shared facilities, such as a communal bathroom, kitchen or laundry, and
- (c) provides accommodation on a bed or dormitory-style basis (rather than by room).

Note—

Backpackers' accommodation is a type of **tourist and visitor accommodation**—see the definition of that term in this Dictionary.

basement means the space of a building where the floor level of that space is predominantly below ground level (existing) and where the floor level of the storey immediately above is less than 1 metre above ground level (existing).

bed and breakfast accommodation means an existing dwelling in which temporary or short-term accommodation is provided on a commercial basis by the permanent residents of the dwelling and where:

- (a) meals are provided for guests only, and
- (b) cooking facilities for the preparation of meals are not provided within guests' rooms, and
- (c) dormitory-style accommodation is not provided.

Note—

See clause 5.4 for controls relating to the number of bedrooms for bed and breakfast accommodation.

Bed and breakfast accommodation is a type of **tourist and visitor accommodation**—see the definition of that term in this Dictionary.

bee keeping means a building or place used for the keeping and breeding of bees for commercial purposes.

Note—

Bee keeping is a type of **extensive agriculture**—see the definition of that term in this Dictionary.

biodiversity or **biological diversity** means the variety of living animal and plant life from all sources, and includes diversity within and between species and diversity of ecosystems.

biosolids treatment facility means a building or place used as a facility for the treatment of biosolids from a sewage treatment plant or from a water recycling facility.

Note—

Biosolids treatment facilities are a type of **sewerage system**—see the definition of that term in this Dictionary.

boarding house means a building that:

- (a) is wholly or partly let in lodgings, and
- (b) provides lodgers with a principal place of residence for 3 months or more, and
- (c) may have shared facilities, such as a communal living room, bathroom, kitchen or laundry, and
- (d) has rooms, some or all of which may have private kitchen and bathroom facilities, that accommodate one or more lodgers,

but does not include backpackers' accommodation, a group home, hotel or motel accommodation, seniors housing or a serviced apartment.

Note—

Boarding houses are a type of **residential accommodation**—see the definition of that term in this Dictionary.
