# Hunters Hill Local Environmental Plan 2012 (2013 EPI 34)

New South Wales

## Part 1 Preliminary

### 1.1 Name of Plan

This Plan is *Hunters Hill Local Environmental Plan 2012*.

### 1.1AA Commencement

This Plan commences on 12 August 2013 and is required to be published on the NSW legislation website.

### 1.2 Aims of Plan

- (1) This Plan aims to make local environmental planning provisions for land in Hunters Hill in accordance with the relevant standard environmental planning instrument under section 33A of the Act.
- (2) The particular aims of this Plan are as follows:
  - (a) to maintain and enhance the character and identity of established neighbourhoods in Hunters Hill by regulating the use and development of land,
  - (b) to maintain and enhance biodiversity values by conserving natural features and scenic qualities that distinguish the municipality,
  - (c) to conserve Aboriginal heritage and European heritage that influence the character and identity of the municipality,
  - (d) to accommodate a range of housing that will maintain the garden suburb character of the municipality, while responding to the needs of a growing population and changing demographics,
  - (e) to consolidate housing growth in locations that are well-served by shops, transport and community services,
  - (f) to provide for employment and a variety of businesses that service residents of the

municipality and surrounding areas,

- (g) to maintain a network of open spaces that conserve natural and scenic qualities, as well as providing a variety of active and passive recreation opportunities for residents of the municipality and surrounding areas,
- (h) to accommodate a range of community and educational infrastructure for residents of the municipality and surrounding areas,
- (i) to promote high standards of urban and architectural design quality.

### **1.3 Land to which Plan applies**

This Plan applies to the land identified on the [Land Application Map](#).

### **1.4 Definitions**

The Dictionary at the end of this Plan defines words and expressions for the purposes of this Plan.

### **1.5 Notes**

Notes in this Plan are provided for guidance and do not form part of this Plan.

### **1.6 Consent authority**

The consent authority for the purposes of this Plan is (subject to the Act) the Council.

### **1.7 Maps**

- (1) A reference in this Plan to a named map adopted by this Plan is a reference to a map by that name:
  - (a) approved by the local plan-making authority when the map is adopted, and
  - (b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the local plan-making authority when the instruments are made.
- (1AA) (Repealed)
- (2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.
- (3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.
- (4) For the purposes of this Plan, a map may be in, and may be kept and made available in, electronic or paper form, or both.

**Note—**

The maps adopted by this Plan are to be made available on the official NSW legislation website in connection with this Plan. Requirements relating to the maps are set out in the documents entitled *Standard technical requirements for LEP maps* and *Standard requirements for LEP GIS data* which are available on the website of the Department of Planning and Environment.

### **1.8 Repeal of planning instruments applying to land**

- (1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Plan applies are repealed.

**Note—**

The following local environmental plans are repealed under this provision:

*Hunters Hill Local Environmental Plan No 1*

*Hunters Hill Local Environmental Plan (Hunters Hill Village) 2009*

*Hunters Hill Local Environmental Plan (Gladesville Village Centre) 2010*

- (2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies.

### **1.8A Savings provision relating to development applications**

If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had not commenced.

**Note—**

However, under Division 4B of Part 3 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant development is appropriately amended or if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable.

### **1.9 Application of SEPPs**

- (1) This Plan is subject to the provisions of any State environmental planning policy that prevails over this Plan as provided by section 36 of the Act.
- (2) The following State environmental planning policies (or provisions) do not apply to the land to which this Plan applies:

*State Environmental Planning Policy No 1—Development Standards*

### **1.9A Suspension of covenants, agreements and instruments**

- (1) For the purpose of enabling development on land in any zone to be carried out in

accordance with this Plan or with a consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.

- (2) This clause does not apply:
- (a) to a covenant imposed by the Council or that the Council requires to be imposed, or
  - (b) to any prescribed instrument within the meaning of section 183A of the *Crown Lands Act 1989*, or
  - (c) to any conservation agreement within the meaning of the *National Parks and Wildlife Act 1974*, or
  - (d) to any Trust agreement within the meaning of the *Nature Conservation Trust Act 2001*, or
  - (e) to any property vegetation plan within the meaning of the *Native Vegetation Act 2003*, or
  - (f) to any biobanking agreement within the meaning of Part 7A of the *Threatened Species Conservation Act 1995*, or
  - (g) to any planning agreement within the meaning of Division 6 of Part 4 of the Act.
- (3) This clause does not affect the rights or interests of any public authority under any registered instrument.
- (4) Under section 28 of the Act, the Governor, before the making of this clause, approved of subclauses (1)-(3).

## **Part 2 Permitted or prohibited development**

### **2.1 Land use zones**

The land use zones under this Plan are as follows:

#### **Residential Zones**

R2 Low Density Residential

R3 Medium Density Residential

#### **Business Zones**

B1 Neighbourhood Centre

B4 Mixed Use

**Industrial Zones**

IN4 Working Waterfront

**Special Purpose Zones**

SP1 Special Activities

SP2 Infrastructure

**Recreation Zones**

RE1 Public Recreation

RE2 Private Recreation

**Environment Protection Zones**

E1 National Parks and Nature Reserves

E2 Environmental Conservation

**2.2 Zoning of land to which Plan applies**

For the purposes of this Plan, land is within the zones shown on the [Land Zoning Map](#).

**2.3 Zone objectives and Land Use Table**

- (1) The Land Use Table at the end of this Part specifies for each zone:
  - (a) the objectives for development, and
  - (b) development that may be carried out without development consent, and
  - (c) development that may be carried out only with development consent, and
  - (d) development that is prohibited.
- (2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.
- (3) In the Land Use Table at the end of this Part:
  - (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
  - (b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.
- (4) This clause is subject to the other provisions of this Plan.

**Notes—**

- 1 Schedule 1 sets out additional permitted uses for particular land.
- 2 Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act or, if applicable, Part 3A of the Act.
- 3 Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
- 4 Clause 2.6 requires consent for subdivision of land.
- 5 Part 5 contains other provisions which require consent for particular development.

## 2.4 Unzoned land

- (1) Development may be carried out on unzoned land only with development consent.
- (2) In deciding whether to grant development consent, the consent authority:
  - (a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and
  - (b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

## 2.5 Additional permitted uses for particular land

- (1) Development on particular land that is described or referred to in Schedule 1 may be carried out:
  - (a) with development consent, or
  - (b) if the Schedule so provides—without development consent, in accordance with the conditions (if any) specified in that Schedule in relation to that development.
- (2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

## 2.6 Subdivision—consent requirements

- (1) Land to which this Plan applies may be subdivided, but only with development consent.

### Notes—

- 1 If a subdivision is specified as **exempt development** in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, the Act enables it to be carried out without development consent.
  - 2 Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is **complying development**.
- (2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling

and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

**Note—**

The definition of **secondary dwelling** in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

## **2.7 Demolition requires development consent**

The demolition of a building or work may be carried out only with development consent.

**Note—**

If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or [State Environmental Planning Policy \(Exempt and Complying Development Codes\) 2008](#), as exempt development, the Act enables it to be carried out without development consent.

## **2.8 Temporary use of land**

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.
- (2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 52 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that:
  - (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and
  - (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
  - (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and
  - (d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.
- (4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.
- (5) Subclause (3) (d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

## Land Use Table

### Note—

A type of development referred to in the Land Use Table is a reference to that type of development only to the extent it is not regulated by an applicable State environmental planning policy. The following State environmental planning policies in particular may be relevant to development on land to which this Plan applies:

*State Environmental Planning Policy (Affordable Rental Housing) 2009* (including provision for secondary dwellings)

*State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004*

*State Environmental Planning Policy (Infrastructure) 2007*—relating to infrastructure facilities such as those that comprise, or are for, air transport, correction, education, electricity generating works and solar energy systems, health services, ports, railways, roads, waste management and water supply systems

*State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007*

*State Environmental Planning Policy (Rural Lands) 2008*

*State Environmental Planning Policy No 33—Hazardous and Offensive Development*

*State Environmental Planning Policy No 50—Canal Estate Development*

*State Environmental Planning Policy No 62—Sustainable Aquaculture*

*State Environmental Planning Policy No 64—Advertising and Signage*

## Zone R2 Low Density Residential

### 1 Objectives of zone

- To provide for the housing needs of the community within a low density residential environment.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.
- To maintain the identity of Hunters Hill by ensuring that new buildings are compatible with the garden suburb character and heritage values that distinguish the low density localities.
- To provide for high levels of amenity that are consistent with a low density residential environment.

### 2 Permitted without consent

Home occupations; Roads

### 3 Permitted with consent

Bed and breakfast accommodation; Boarding houses; Centre-based child care facilities; Community facilities; Dual occupancies; Dwelling houses; Group

homes; Home-based child care; Places of public worship; Respite day care centres; Secondary dwellings

#### **4 Prohibited**

Any development not specified in item 2 or 3

### **Zone R3 Medium Density Residential**

#### **1 Objectives of zone**

- To provide for the housing needs of the community within a medium density residential environment.
- To provide a variety of housing types within a medium density residential environment.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.
- To ensure that development is compatible with the character and heritage of the locality.
- To provide for levels of amenity that are reasonable for a medium density residential environment.

#### **2 Permitted without consent**

Home occupations; Roads

#### **3 Permitted with consent**

Attached dwellings; Bed and breakfast accommodation; Boarding houses; Centre-based child care facilities; Community facilities; Dual occupancies; Dwelling houses; Group homes; Home-based child care; Home businesses; Multi dwelling housing; Neighbourhood shops; Places of public worship; Residential flat buildings; Respite day care centres; Secondary dwellings; Semi-detached dwellings; Seniors housing; Shop top housing

#### **4 Prohibited**

Any development not specified in item 2 or 3

### **Zone B1 Neighbourhood Centre**

### **1 Objectives of zone**

- To provide a range of small-scale retail, business and community uses that serve the needs of people who live or work in the surrounding neighbourhood.
- To encourage mixed use developments that incorporate shop top housing.
- To maximise levels of pedestrian and business activity along street frontages.

### **2 Permitted without consent**

Roads

Bed and breakfast accommodation; Boarding houses; Business premises; Centre-based child care facilities; Community facilities; Medical centres; Neighbourhood shops; Neighbourhood supermarkets; Office premises; Respite day care centres; Restaurants or cafes; Shop top housing; Take away food and drink premises

### **4 Prohibited**

Any development not specified in item 2 or 3

## **Zone B4 Mixed Use**

### **1 Objectives of zone**

- To provide a mixture of compatible land uses.
- To integrate suitable business, office, residential, retail and other development in accessible locations so as to maximise public transport patronage and encourage walking and cycling.
- To ensure that new buildings provide an appropriate transition between the business zones and surrounding residential localities.
- To maximise levels of pedestrian and business activity along street frontages.

### **2 Permitted without consent**

Roads

### **3 Permitted with consent**

Boarding houses; Centre-based child care facilities; Commercial premises;

Community facilities; Educational establishments; Entertainment facilities; Function centres; Hotel or motel accommodation; Information and education facilities; Medical centres; Multi dwelling housing; Passenger transport facilities; Recreation facilities (indoor); Registered clubs; Residential flat buildings; Respite day care centres; Restricted premises; Seniors housing; Sex services premises; Shop top housing; Veterinary hospitals

#### **4 Prohibited**

Any development not specified in item 2 or 3

### **Zone IN4 Working Waterfront**

#### **1 Objectives of zone**

- To retain and encourage waterfront industrial and maritime activities.
- To identify sites for maritime purposes and for activities that require direct waterfront access.
- To ensure that development does not have an adverse impact on the environmental and visual qualities of the foreshore.
- To encourage employment opportunities.
- To minimise any adverse effect of development on land uses in other zones.

#### **2 Permitted without consent**

Nil

#### **3 Permitted with consent**

Boat building and repair facilities; Boat launching ramps; Charter and tourism boating facilities; Jetties; Light industries; Marinas; Roads

#### **4 Prohibited**

Any development not specified in item 2 or 3

### **Zone SP1 Special Activities**

#### **1 Objectives of zone**

- To provide for special land uses that are not provided for in other zones.
- To provide for sites with special natural characteristics that are not provided for in other zones.

- To facilitate development that is in keeping with the special characteristics of the site or its existing or intended special use, and that minimises any adverse impacts on surrounding land.

**2 Permitted without consent**

Nil

**3 Permitted with consent**

The purpose shown on the [Land Zoning Map](#), including any development that is ordinarily incidental or ancillary to development for that purpose

**4 Prohibited**

Any development not specified in item 2 or 3

**Zone SP2 Infrastructure**

**1 Objectives of zone**

- To provide for infrastructure and related uses.
- To prevent development that is not compatible with or that may detract from the provision of infrastructure.
- To facilitate development that is in keeping with the special characteristics of the site or its existing or intended special use, and that minimises any adverse impacts on surrounding land.

**2 Permitted without consent**

Roads

**3 Permitted with consent**

The purpose shown on the [Land Zoning Map](#), including any development that is ordinarily incidental or ancillary to development for that purpose

**4 Prohibited**

Any development not specified in item 2 or 3

**Zone RE1 Public Recreation**

**1 Objectives of zone**

- To enable land to be used for public open space or recreational purposes.

- To provide a range of recreational settings and activities and compatible land uses.
- To protect and enhance the natural environment for recreational purposes.

**2 Permitted without consent**

Environmental facilities; Environmental protection works; Roads

**3 Permitted with consent**

Community facilities; Kiosks; Recreation areas

**4 Prohibited**

Any development not specified in item 2 or 3

**Zone RE2 Private Recreation**

**1 Objectives of zone**

- To enable land to be used for private open space or recreational purposes.
- To provide a range of recreational settings and activities and compatible land uses.
- To protect and enhance the natural environment for recreational purposes.
- To facilitate development that is in keeping with the special characteristics of the site and that minimises any adverse impacts on surrounding land.

**2 Permitted without consent**

Environmental facilities; Environmental protection works; Roads

**3 Permitted with consent**

Community facilities; Kiosks; Recreation areas; Recreation facilities (indoor); Recreation facilities (outdoor)

**4 Prohibited**

Any development not specified in item 2 or 3

**Zone E1 National Parks and Nature Reserves**

**1 Objectives of zone**

- To enable the management and appropriate use of land that is reserved

under the *National Parks and Wildlife Act 1974* or that is acquired under Part 11 of that Act.

- To enable uses authorised under the *National Parks and Wildlife Act 1974*.
- To identify land that is to be reserved under the *National Parks and Wildlife Act 1974* and to protect the environmental significance of that land.

## **2 Permitted without consent**

Uses authorised under the *National Parks and Wildlife Act 1974*

## **3 Permitted with consent**

Nil

## **4 Prohibited**

Any development not specified in item 2 or 3

### **Zone E2 Environmental Conservation**

#### **1 Objectives of zone**

- To protect, manage and restore areas of high ecological, scientific, cultural or aesthetic values.
- To prevent development that could destroy, damage or otherwise have an adverse effect on those values.

#### **2 Permitted without consent**

Environmental protection works

#### **3 Permitted with consent**

Environmental facilities

#### **4 Prohibited**

Business premises; Hotel or motel accommodation; Industries; Multi dwelling housing; Recreation facilities (major); Residential flat buildings; Restricted premises; Retail premises; Seniors housing; Service stations; Warehouse or distribution centres; Any other development not specified in item 2 or 3

## Part 3 Exempt and complying development

### 3.1 Exempt development

**Note—**

Under section 76 of the Act, exempt development may be carried out without the need for development consent under Part 4 of the Act or for assessment under Part 5 of the Act.

The section states that exempt development:

- (a) must be of minimal environmental impact, and
- (b) cannot be carried out in a declared area of outstanding biodiversity value under the *Biodiversity Conservation Act 2016* or declared critical habitat under Part 7A of the *Fisheries Management Act 1994*, and
- (c) cannot be carried out in a wilderness area (identified under the *Wilderness Act 1987*).

(1) The objective of this clause is to identify development of minimal environmental impact as exempt development.

(2) Development specified in Schedule 2 that meets the standards for the development contained in that Schedule and that complies with the requirements of this Part is exempt development.

(3) To be exempt development, the development:

- (a) must meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia* or, if there are no such relevant provisions, must be structurally adequate, and
- (b) must not, if it relates to an existing building, cause the building to contravene the *Building Code of Australia*, and
- (c) must not be designated development, and
- (d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the *Heritage Act 1977* or that is subject to an interim heritage order under the *Heritage Act 1977*.

(4) Development that relates to an existing building that is classified under the *Building Code of Australia* as class 1b or class 2-9 is exempt development only if:

- (a) the building has a current fire safety certificate or fire safety statement, or
- (b) no fire safety measures are currently implemented, required or proposed for the building.

(5) To be exempt development, the development must:

- (a) be installed in accordance with the manufacturer's specifications, if applicable, and

- (b) not involve the removal, pruning or other clearing of vegetation that requires a permit, development consent or other approval unless it is undertaken in accordance with a permit, development consent or other approval.

**Note—**

See *State Environmental Planning Policy (Vegetation in Non-Rural Areas) 2017* and Part 5A of the *Local Land Services Act 2013*.

- (6) A heading to an item in Schedule 2 is part of that Schedule.

### **3.2 Complying development**

- (1) The objective of this clause is to identify development as complying development.
- (2) Development specified in Part 1 of Schedule 3 that is carried out in compliance with:
  - (a) the development standards specified in relation to that development, and
  - (b) the requirements of this Part,is complying development.

**Note—**

See also clause 5.8 (3) which provides that the conversion of fire alarms is complying development in certain circumstances.

- (3) To be complying development, the development must:
  - (a) be permissible, with development consent, in the zone in which it is carried out, and
  - (b) meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia*, and
  - (c) have an approval, if required by the *Local Government Act 1993*, from the Council for an on-site effluent disposal system if the development is undertaken on unsewered land.
- (4) A complying development certificate for development specified in Part 1 of Schedule 3 is subject to the conditions (if any) set out or referred to in Part 2 of that Schedule.
- (5) A heading to an item in Schedule 3 is part of that Schedule.

### **3.3 Environmentally sensitive areas excluded**

- (1) Exempt or complying development must not be carried out on any environmentally sensitive area for exempt or complying development.
- (2) For the purposes of this clause:

***environmentally sensitive area for exempt or complying development*** means

any of the following:

- (a) the coastal waters of the State,
- (b) a coastal lake,
- (c) land within the coastal wetlands and littoral rainforests area (within the meaning of the [Coastal Management Act 2016](#)),
- (d) land reserved as an aquatic reserve under the [Fisheries Management Act 1994](#) or as a marine park under the [Marine Parks Act 1997](#),
- (e) land within a wetland of international significance declared under the Ramsar Convention on Wetlands or within a World heritage area declared under the World Heritage Convention,
- (f) land within 100 metres of land to which paragraph (c), (d) or (e) applies,
- (g) land identified in this or any other environmental planning instrument as being of high Aboriginal cultural significance or high biodiversity significance,
- (h) land reserved under the [National Parks and Wildlife Act 1974](#) or land acquired under Part 11 of that Act,
- (i) land reserved or dedicated under the [Crown Lands Act 1989](#) for the preservation of flora, fauna, geological formations or for other environmental protection purposes,
- (j) land that is a declared area of outstanding biodiversity value under the [Biodiversity Conservation Act 2016](#) or declared critical habitat under Part 7A of the [Fisheries Management Act 1994](#),
- (ja) land identified as “River Front Area” on the [River Front Area Map](#).

## **Part 4 Principal development standards**

### **4.1 Minimum subdivision lot size**

- (1) The objectives of this clause are as follows:
  - (a) to soften visual impacts of residential developments when viewed from any waterway, park or road by providing sufficient space for trees and plantings around every building,
  - (b) to accommodate residential developments that would be compatible with the size, scale and existing character of surrounding buildings.
- (2) This clause applies to a subdivision of any land shown on the [Lot Size Map](#) that requires development consent and that is carried out after the commencement of this Plan.

- (3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (4) This clause does not apply in relation to the subdivision of any land:
  - (a) by the registration of a strata plan or strata plan of subdivision under the [Strata Schemes Development Act 2015](#), or
  - (b) by any kind of subdivision under the [Community Land Development Act 1989](#).

#### **4.1AA Minimum subdivision lot size for community title schemes**

[Not adopted]

#### **4.1A Minimum lot sizes for dual occupancies, multi dwelling housing and residential flat buildings**

- (1) The objective of this clause is to achieve planned residential density in certain zones.
- (2) Development consent may be granted to development on a lot in a zone shown in Column 2 of the Table to this clause for a purpose shown in Column 1 of the Table opposite that zone, if the area of the lot is equal to or greater than the area specified for that purpose and shown in Column 3 of the Table.

<b>Column 1</b>	<b>Column 2</b>	<b>Column 3</b>
Dual occupancy (attached)	Zone R2 Low Density Residential, Zone R3 Medium Density Residential	700 square metres
Dual occupancy (detached)	Zone R2 Low Density Residential, Zone R3 Medium Density Residential	900 square metres
Multi dwelling housing	Zone R3 Medium Density Residential, Zone B4 Mixed Use	900 square metres
Residential flat building	Zone R3 Medium Density Residential, Zone B4 Mixed Use	900 square metres

#### **4.2 Rural subdivision**

[Not applicable]

#### **4.3 Height of buildings**

- (1) The objectives of this clause are as follows:

- (a) to specify limits for the size and scale of development that would be compatible with the character, amenity and potential of particular locations,
  - (b) to maintain the character and identity of Hunters Hill by limiting the scale of buildings to a maximum of two storeys in the low density residential zone, heritage conservation areas and foreshore areas facing Lane Cove River or Parramatta River,
  - (c) to consolidate developments that would be taller than two storeys in business zones, while ensuring a suitable visual transition to the adjoining zones,
  - (d) to protect existing dwellings from excessive overshadowing, loss of privacy, obstruction of views and general visual impacts.
- (2) The height of a building on any land is not to exceed the maximum height shown for the land on the [Height of Buildings Map](#).

#### **4.4 Floor space ratio**

- (1) The objectives of this clause are as follows:
- (a) to specify limits for the size of development that would be compatible with the character and potential of particular locations,
  - (b) to encourage higher-intensity development in business zones that are well-served by public transport and shops,
  - (c) to manage the density and intensity of multi unit residential development according to the purpose of each residential zone,
  - (d) to encourage buildings that maximise the proportion of site area that may be retained as landscaped area.
- (2) The maximum floor space ratio for a building on any land is not to exceed the floor space ratio shown for the land on the [Floor Space Ratio Map](#).
- (2A) Despite subclause (2), if a dwelling house on any land complies with clause 4.3, in respect of height, and clause 6.9, in respect of landscaping, there is no maximum floor space ratio for that dwelling house.
- (2B) Despite subclause (2), the maximum floor space ratio for a building being used for one of the following purposes is:
- (a) a dual occupancy—0.5:1,
  - (b) multi dwelling housing—0.6:1.

#### 4.4A Exception to floor space ratios for certain land in the Hunters Hill Village

- (1) The maximum floor space ratio for a building on land identified as “Area 1” on the [Floor Space Ratio Map](#) is:
  - (a) for a site that has an area of at least 600 square metres but less than 900 square metres—1.75:1, and
  - (b) for a site that has an area of 900 square metres or more—2:1.
- (2) The maximum floor space ratio for a residential flat building on land identified as “Area 2” on the [Floor Space Ratio Map](#) that has a site area of 1,000 square metres or more is 0.8:1.

#### 4.5 Calculation of floor space ratio and site area

- (1) **Objectives** The objectives of this clause are as follows:
  - (a) to define **floor space ratio**,
  - (b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to:
    - (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and
    - (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and
    - (iii) require community land and public places to be dealt with separately.
- (2) **Definition of “floor space ratio”** The **floor space ratio** of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area.
- (3) **Site area** In determining the site area of proposed development for the purpose of applying a floor space ratio, the **site area** is taken to be:
  - (a) if the proposed development is to be carried out on only one lot, the area of that lot, or
  - (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out.

In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development.

- (4) **Exclusions from site area** The following land must be excluded from the site area:
  - (a) land on which the proposed development is prohibited, whether under this Plan or

any other law,

(b) community land or a public place (except as provided by subclause (7)).

- (5) **Strata subdivisions** The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation.
- (6) **Only significant development to be included** The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot.
- (7) **Certain public land to be separately considered** For the purpose of applying a floor space ratio to any proposed development on, above or below community land or a public place, the site area must only include an area that is on, above or below that community land or public place, and is occupied or physically affected by the proposed development, and may not include any other area on which the proposed development is to be carried out.
- (8) **Existing buildings** The gross floor area of any existing or proposed buildings within the vertical projection (above or below ground) of the boundaries of a site is to be included in the calculation of the total floor space for the purposes of applying a floor space ratio, whether or not the proposed development relates to all of the buildings.
- (9) **Covenants to prevent “double dipping”** When development consent is granted to development on a site comprised of 2 or more lots, a condition of the consent may require a covenant to be registered that prevents the creation of floor area on a lot (the restricted lot) if the consent authority is satisfied that an equivalent quantity of floor area will be created on another lot only because the site included the restricted lot.
- (10) **Covenants affect consolidated sites** If:
- (a) a covenant of the kind referred to in subclause (9) applies to any land (**affected land**), and
  - (b) proposed development relates to the affected land and other land that together comprise the site of the proposed development,
- the maximum amount of floor area allowed on the other land by the floor space ratio fixed for the site by this Plan is reduced by the quantity of floor space area the covenant prevents being created on the affected land.
- (11) **Definition** In this clause, **public place** has the same meaning as it has in the [Local Government Act 1993](#).

#### **4.6 Exceptions to development standards**

- (1) The objectives of this clause are as follows:
  - (a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,
  - (b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.
- (2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.
- (3) Development consent must not be granted for development that contravenes a development standard unless the consent authority has considered a written request from the applicant that seeks to justify the contravention of the development standard by demonstrating:
  - (a) that compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and
  - (b) that there are sufficient environmental planning grounds to justify contravening the development standard.
- (4) Development consent must not be granted for development that contravenes a development standard unless:
  - (a) the consent authority is satisfied that:
    - (i) the applicant's written request has adequately addressed the matters required to be demonstrated by subclause (3), and
    - (ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out, and
  - (b) the concurrence of the Secretary has been obtained.
- (5) In deciding whether to grant concurrence, the Secretary must consider:
  - (a) whether contravention of the development standard raises any matter of significance for State or regional environmental planning, and
  - (b) the public benefit of maintaining the development standard, and

(c) any other matters required to be taken into consideration by the Secretary before granting concurrence.

(6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living if:

(a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or

(b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.

**Note—**

When this Plan was made it did not include Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone E3 Environmental Management or Zone E4 Environmental Living.

(7) After determining a development application made pursuant to this clause, the consent authority must keep a record of its assessment of the factors required to be addressed in the applicant's written request referred to in subclause (3).

(8) This clause does not allow development consent to be granted for development that would contravene any of the following:

(a) a development standard for complying development,

(b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which [State Environmental Planning Policy \(Building Sustainability Index: BASIX\) 2004](#) applies or for the land on which such a building is situated,

(c) clause 5.4.

## **Part 5 Miscellaneous provisions**

### **5.1 Relevant acquisition authority**

(1) The objective of this clause is to identify, for the purposes of section 27 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#) (**the owner-initiated acquisition provisions**).

**Note—**

If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant

authority, section 23 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#) requires the authority to acquire the land.

- (2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the [Land Reservation Acquisition Map](#) (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

<b>Type of land shown on Map</b>	<b>Authority of the State</b>
Zone RE1 Public Recreation and marked "Local open space"	Council
Zone RE1 Public Recreation and marked "Regional open space"	The corporation constituted under section 8 of the Act
Zone SP2 Infrastructure and marked "Classified road"	Roads and Maritime Services
Zone E1 National Parks and Nature Reserves and marked "National Park"	Minister administering the <a href="#">National Parks and Wildlife Act 1974</a>

- (3) Development on land acquired by an authority of the State under the owner-initiated acquisition provisions may, before it is used for the purpose for which it is reserved, be carried out, with development consent, for any purpose.

**Note—**

If land, other than land specified in the Table to subclause (2), is required to be acquired under the owner-initiated acquisition provisions, the Minister for Planning and Infrastructure is required to take action to enable the designation of the acquiring authority under this clause. Pending the designation of the acquiring authority for that land, the acquiring authority is to be the authority determined by order of the Minister for Planning and Infrastructure (see section 21 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#)).

## **5.2 Classification and reclassification of public land**

- (1) The objective of this clause is to enable the Council to classify or reclassify public land as "operational land" or "community land" in accordance with Part 2 of Chapter 6 of the [Local Government Act 1993](#).

**Note—**

Under the [Local Government Act 1993](#), "public land" is generally land vested in or under the control of a council (other than roads, Crown reserves and commons). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the [Local Government Act 1993](#). Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.

- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the [Local Government Act 1993](#).

- (3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the *Local Government Act 1993*.
- (4) The public land described in Part 1 of Schedule 4:
  - (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and
  - (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.
- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except:
  - (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
  - (b) any reservations that except land out of the Crown grant relating to the land, and
  - (c) reservations of minerals (within the meaning of the *Crown Lands Act 1989*).

**Note—**

In accordance with section 30 (2) of the *Local Government Act 1993*, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

### 5.3 Development near zone boundaries

[Not adopted]

### 5.4 Controls relating to miscellaneous permissible uses

- (1) **Bed and breakfast accommodation** If development for the purposes of bed and breakfast accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 3 bedrooms.

**Note—**

Any such development that provides for a certain number of guests or rooms may involve a change in the class of building under the *Building Code of Australia*.

- (2) **Home businesses** If development for the purposes of a home business is permitted under this Plan, the carrying on of the business must not involve the use of more than 30 square metres of floor area.
- (3) **Home industries** If development for the purposes of a home industry is permitted under this Plan, the carrying on of the home industry must not involve the use of more than

30 square metres of floor area.

- (4) **Industrial retail outlets** If development for the purposes of an industrial retail outlet is permitted under this Plan, the retail floor area must not exceed:
- (a) 67% of the gross floor area of the industry or rural industry located on the same land as the retail outlet, or
  - (b) 400 square metres,
- whichever is the lesser.
- (5) **Farm stay accommodation** If development for the purposes of farm stay accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 3 bedrooms.
- (6) **Kiosks** If development for the purposes of a kiosk is permitted under this Plan, the gross floor area must not exceed 20 square metres.
- (7) **Neighbourhood shops** If development for the purposes of a neighbourhood shop is permitted under this Plan, the retail floor area must not exceed 80 square metres.
- (7AA) **Neighbourhood supermarkets** If development for the purposes of a neighbourhood supermarket is permitted under this Plan, the gross floor area must not exceed 1,000 square metres.
- (8) **Roadside stalls** If development for the purposes of a roadside stall is permitted under this Plan, the gross floor area must not exceed 8 square metres.
- (9) **Secondary dwellings** If development for the purposes of a secondary dwelling is permitted under this Plan, the total floor area of the dwelling (excluding any area used for parking) must not exceed whichever of the following is the greater:
- (a) 60 square metres,
  - (b) 30% of the total floor area of the principal dwelling.
- (10) **Artisan food and drink industry exclusion** If development for the purposes of an artisan food and drink industry is permitted under this Plan in an industrial or rural zone, the floor area used for retail sales (not including any cafe or restaurant area) must not exceed:
- (a) 67% of the gross floor area of the industry, or
  - (b) 400 square metres,
- whichever is the lesser.

## **5.5 (Repealed)**

## **5.6 Architectural roof features**

[Not applicable]

## **5.7 Development below mean high water mark**

- (1) The objective of this clause is to ensure appropriate environmental assessment for development carried out on land covered by tidal waters.
- (2) Development consent is required to carry out development on any land below the mean high water mark of any body of water subject to tidal influence (including the bed of any such water).

## **5.8 Conversion of fire alarms**

- (1) This clause applies to a fire alarm system that can be monitored by Fire and Rescue NSW or by a private service provider.
- (2) The following development may be carried out, but only with development consent:
  - (a) converting a fire alarm system from connection with the alarm monitoring system of Fire and Rescue NSW to connection with the alarm monitoring system of a private service provider,
  - (b) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with the alarm monitoring system of another private service provider,
  - (c) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with a different alarm monitoring system of the same private service provider.
- (3) Development to which subclause (2) applies is complying development if it consists only of:
  - (a) internal alterations to a building, or
  - (b) internal alterations to a building together with the mounting of an antenna, and any support structure, on an external wall or roof of a building so as to occupy a space of not more than 450mm × 100mm × 100mm.
- (4) A complying development certificate for any such complying development is subject to a condition that any building work may only be carried out between 7.00 am and 6.00 pm on Monday to Friday and between 7.00 am and 5.00 pm on Saturday, and must not be carried out on a Sunday or a public holiday.
- (5) In this clause:

**private service provider** means a person or body that has entered into an agreement that is in force with Fire and Rescue NSW to monitor fire alarm systems.

## **5.9, 5.9AA (Repealed)**

## **5.10 Heritage conservation**

### **Note—**

Heritage items (if any) are listed and described in Schedule 5. Heritage conservation areas (if any) are shown on the [Heritage Map](#) as well as being described in Schedule 5.

(1) **Objectives** The objectives of this clause are as follows:

- (a) to conserve the environmental heritage of Hunters Hill,
- (b) to conserve the heritage significance of heritage items and heritage conservation areas, including associated fabric, settings and views,
- (c) to conserve archaeological sites,
- (d) to conserve Aboriginal objects and Aboriginal places of heritage significance.

(2) **Requirement for consent** Development consent is required for any of the following:

- (a) demolishing or moving any of the following or altering the exterior of any of the following (including, in the case of a building, making changes to its detail, fabric, finish or appearance):
  - (i) a heritage item,
  - (ii) an Aboriginal object,
  - (iii) a building, work, relic or tree within a heritage conservation area,
- (b) altering a heritage item that is a building by making structural changes to its interior or by making changes to anything inside the item that is specified in Schedule 5 in relation to the item,
- (c) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed,
- (d) disturbing or excavating an Aboriginal place of heritage significance,
- (e) erecting a building on land:
  - (i) on which a heritage item is located or that is within a heritage conservation area, or
  - (ii) on which an Aboriginal object is located or that is within an Aboriginal place of

heritage significance,

(f) subdividing land:

- (i) on which a heritage item is located or that is within a heritage conservation area, or
- (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance.

(3) **When consent not required** However, development consent under this clause is not required if:

(a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development:

- (i) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or archaeological site or a building, work, relic, tree or place within the heritage conservation area, and
- (ii) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place, archaeological site or heritage conservation area, or

(b) the development is in a cemetery or burial ground and the proposed development:

- (i) is the creation of a new grave or monument, or excavation or disturbance of land for the purpose of conserving or repairing monuments or grave markers, and
- (ii) would not cause disturbance to human remains, relics, Aboriginal objects in the form of grave goods, or to an Aboriginal place of heritage significance, or

(c) the development is limited to the removal of a tree or other vegetation that the Council is satisfied is a risk to human life or property, or

(d) the development is exempt development.

(4) **Effect of proposed development on heritage significance** The consent authority must, before granting consent under this clause in respect of a heritage item or heritage conservation area, consider the effect of the proposed development on the heritage significance of the item or area concerned. This subclause applies regardless of whether a heritage management document is prepared under subclause (5) or a heritage conservation management plan is submitted under subclause (6).

(5) **Heritage assessment** The consent authority may, before granting consent to any

development:

- (a) on land on which a heritage item is located, or
- (b) on land that is within a heritage conservation area, or
- (c) on land that is within the vicinity of land referred to in paragraph (a) or (b),

require a heritage management document to be prepared that assesses the extent to which the carrying out of the proposed development would affect the heritage significance of the heritage item or heritage conservation area concerned.

- (6) **Heritage conservation management plans** The consent authority may require, after considering the heritage significance of a heritage item and the extent of change proposed to it, the submission of a heritage conservation management plan before granting consent under this clause.
- (7) **Archaeological sites** The consent authority must, before granting consent under this clause to the carrying out of development on an archaeological site (other than land listed on the State Heritage Register or to which an interim heritage order under the [Heritage Act 1977](#) applies):
  - (a) notify the Heritage Council of its intention to grant consent, and
  - (b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.
- (8) **Aboriginal places of heritage significance** The consent authority must, before granting consent under this clause to the carrying out of development in an Aboriginal place of heritage significance:
  - (a) consider the effect of the proposed development on the heritage significance of the place and any Aboriginal object known or reasonably likely to be located at the place by means of an adequate investigation and assessment (which may involve consideration of a heritage impact statement), and
  - (b) notify the local Aboriginal communities, in writing or in such other manner as may be appropriate, about the application and take into consideration any response received within 28 days after the notice is sent.
- (9) **Demolition of nominated State heritage items** The consent authority must, before granting consent under this clause for the demolition of a nominated State heritage item:
  - (a) notify the Heritage Council about the application, and
  - (b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

- (10) **Conservation incentives** The consent authority may grant consent to development for any purpose of a building that is a heritage item or of the land on which such a building is erected, or for any purpose on an Aboriginal place of heritage significance, even though development for that purpose would otherwise not be allowed by this Plan, if the consent authority is satisfied that:
- (a) the conservation of the heritage item or Aboriginal place of heritage significance is facilitated by the granting of consent, and
  - (b) the proposed development is in accordance with a heritage management document that has been approved by the consent authority, and
  - (c) the consent to the proposed development would require that all necessary conservation work identified in the heritage management document is carried out, and
  - (d) the proposed development would not adversely affect the heritage significance of the heritage item, including its setting, or the heritage significance of the Aboriginal place of heritage significance, and
  - (e) the proposed development would not have any significant adverse effect on the amenity of the surrounding area.

#### **5.11 Bush fire hazard reduction**

Bush fire hazard reduction work authorised by the [Rural Fires Act 1997](#) may be carried out on any land without development consent.

**Note—**

The [Rural Fires Act 1997](#) also makes provision relating to the carrying out of development on bush fire prone land.

#### **5.12 Infrastructure development and use of existing buildings of the Crown**

- (1) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the carrying out of any development, by or on behalf of a public authority, that is permitted to be carried out with or without development consent, or that is exempt development, under [State Environmental Planning Policy \(Infrastructure\) 2007](#).
- (2) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the use of existing buildings of the Crown by the Crown.

#### **5.13 Eco-tourist facilities**

[Not applicable]

#### **5.14 Siding Spring Observatory—maintaining dark sky**

## Part 6 Additional local provisions

### 6.1 Acid sulfate soils

- (1) The objective of this clause is to ensure that development does not disturb, expose or drain acid sulfate soils and cause environmental damage.
- (2) Development consent is required for the carrying out of works described in the Table to this subclause on land shown on the [Acid Sulfate Soils Map](#) as being of the class specified for those works.

<b>Class of land</b>	<b>Works</b>
1	Any works.
2	Works below the natural ground surface. Works by which the watertable is likely to be lowered.
3	Works more than 1 metre below the natural ground surface. Works by which the watertable is likely to be lowered more than 1 metre below the natural ground surface.
4	Works more than 2 metres below the natural ground surface. Works by which the watertable is likely to be lowered more than 2 metres below the natural ground surface.
5	Works within 500 metres of adjacent Class 1, 2, 3 or 4 land that is below 5 metres Australian Height Datum and by which the watertable is likely to be lowered below 1 metre Australian Height Datum on adjacent Class 1, 2, 3 or 4 land.

- (3) Development consent must not be granted under this clause for the carrying out of works unless an acid sulfate soils management plan has been prepared for the proposed works in accordance with the Acid Sulfate Soils Manual and has been provided to the consent authority.
- (4) Despite subclause (2), development consent is not required under this clause for the carrying out of works if:
  - (a) a preliminary assessment of the proposed works prepared in accordance with the Acid Sulfate Soils Manual indicates that an acid sulfate soils management plan is not required for the works, and

- (b) the preliminary assessment has been provided to the consent authority and the consent authority has confirmed the assessment by notice in writing to the person proposing to carry out the works.
- (5) Despite subclause (2), development consent is not required under this clause for the carrying out of any of the following works by a public authority (including ancillary work such as excavation, construction of access ways or the supply of power):
- (a) emergency work, being the repair or replacement of the works of the public authority, required to be carried out urgently because the works have been damaged, have ceased to function or pose a risk to the environment or to public health and safety,
  - (b) routine maintenance work, being the periodic inspection, cleaning, repair or replacement of the works of the public authority (other than work that involves the disturbance of more than 1 tonne of soil),
  - (c) minor work, being work that costs less than \$20,000 (other than drainage work).
- (6) Despite subclause (2), development consent is not required under this clause to carry out any works if:
- (a) the works involve the disturbance of less than 1 tonne of soil, and
  - (b) the works are not likely to lower the watertable.

## **6.2 Earthworks**

- (1) The objective of this clause is to ensure that earthworks and associated groundwater dewatering for which development consent is required will not have a detrimental impact on environmental functions and processes, neighbouring uses, cultural or heritage items or features of the surrounding land.
- (2) Development consent is required for earthworks and associated groundwater dewatering unless:
  - (a) the earthworks and associated groundwater dewatering are exempt development under this Plan or another applicable environmental planning instrument, or
  - (b) the earthworks and associated groundwater dewatering are ancillary to development that is permitted without consent under this Plan or to development for which development consent has been given.
- (3) Before granting development consent for earthworks and associated groundwater dewatering (or for development involving ancillary earthworks), the consent authority must consider the following matters:
  - (a) the likely disruption of, or any detrimental effect on, drainage patterns and soil

- stability in the locality of the development,
- (b) the effect of the development on the likely future use or redevelopment of the land,
  - (c) the quality of the fill or the soil to be excavated, or both,
  - (d) the effect of the development on the existing and likely amenity of adjoining properties,
  - (e) the source of any fill material and the destination of any excavated material,
  - (f) the likelihood of disturbing relics,
  - (g) the proximity to, and potential for adverse impacts on, any waterway, drinking water catchment or environmentally sensitive area,
  - (h) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.

**Note—**

The [National Parks and Wildlife Act 1974](#), particularly section 86, deals with harming Aboriginal objects.

### **6.3 Stormwater management**

- (1) The objective of this clause is to minimise the impacts of urban stormwater on land to which this clause applies and on adjoining properties, native bushland and receiving waters.
- (2) This clause applies to all land in the following zones:
  - (a) Zone R2 Low Density Residential,
  - (b) Zone R3 Medium Density Residential,
  - (c) Zone B1 Neighbourhood Centre,
  - (d) Zone B4 Mixed Use,
  - (e) Zone IN4 Working Waterfront.
- (3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
  - (a) is designed to maximise the use of water permeable surfaces on the land having regard to the soil characteristics affecting on-site infiltration of water, and
  - (b) includes, if practicable, on-site stormwater retention for use as an alternative supply to mains water, groundwater or river water, and

- (c) avoids any significant adverse impacts of stormwater runoff on adjoining properties, native bushland and receiving waters, or if that impact cannot be reasonably avoided, minimises and mitigates the impact.

#### **6.4 Terrestrial biodiversity**

- (1) The objective of this clause is to protect, maintain and improve the diversity and condition of native vegetation and habitat, including the following:
  - (a) protecting biological diversity of native fauna and flora,
  - (b) protecting the ecological processes necessary for their continued existence,
  - (c) encouraging the recovery of threatened species, communities, populations and their habitats,
  - (d) protecting, restoring and enhancing biodiversity corridors.
- (2) This clause applies to land identified as “Areas of biodiversity significance” and “Areas of high biodiversity significance” on the [Biodiversity Map](#).
- (3) Before determining a development application for development on land to which this clause applies, the consent authority must consider:
  - (a) the impact of the proposed development on the following:
    - (i) any native vegetation community,
    - (ii) the habitat of any threatened species, population or ecological community,
    - (iii) any regionally significant species of plant, animal or habitat,
    - (iv) any biodiversity corridor,
    - (v) any wetland,
    - (vi) the biodiversity values within any reserve,
    - (vii) the stability of the land, and
  - (b) any proposed measure to be undertaken to ameliorate any potential adverse environmental impact, and
  - (c) any opportunity to restore or enhance remnant vegetation, habitat and biodiversity corridors.
- (4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that:
  - (a) the development is designed, sited and will be managed to avoid any significant

adverse environmental impact, or

- (b) if that impact cannot be reasonably avoided by adopting feasible alternatives—the development is designed, sited and will be managed to minimise that impact, or
- (c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

(5) In this clause:

***biodiversity corridor*** means an area that facilitates the connection and maintenance of native fauna and flora habitats and within the urban landscape includes areas that may be broken by roads and other urban elements and may include remnant trees and associated native and exotic vegetation.

### **6.5 Riparian land and adjoining waterways**

(1) The objective of this clause is to protect and maintain the following:

- (a) water quality within any adjoining waterway,
- (b) the stability of the bed and banks of any adjoining waterway,
- (c) aquatic and riparian habitats,
- (d) ecological processes within any adjoining waterway and riparian areas.

(2) This clause applies to land identified as “Riparian Land” on the [Riparian Land and Waterways Map](#).

(3) Before determining a development application for development on land to which this clause applies, the consent authority must consider the impact of the development on the following:

- (a) water quality in any adjoining waterway,
- (b) the natural flow regime, including groundwater flows to any adjoining waterway,
- (c) aquatic and riparian habitats and ecosystems,
- (d) the stability of the bed, shore and banks of any adjoining waterway,
- (e) the free passage of native aquatic and terrestrial organisms within or along any adjoining waterway and riparian land,
- (f) the habitat of any threatened species, population or ecological community.

(4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that:

the development is designed, sited and will be managed to avoid any significant adverse environmental impact, or

if that impact cannot be reasonably avoided—the development is designed, sited and will be managed to minimise that impact, or

if that impact cannot be minimised—the development will be managed to mitigate that impact.

**Note—**

*Sydney Regional Environmental Plan (Sydney Harbour Catchment) 2005* also applies to the Foreshores and Waterways Area defined by that Plan.

## **6.6 Limited development on foreshore area**

The objective of this clause is to ensure that development in the foreshore area will not impact on natural foreshore processes or affect the significance and amenity of the area.

- (2) Development consent must not be granted to development on land in the foreshore area except for the following purposes:
  - (a) the extension, alteration or rebuilding of an existing building wholly or partly in the foreshore area,
  - (b) the erection of a building in the foreshore area, if the levels, depth or other exceptional features of the site make it appropriate to do so,
  - (c) boat sheds, sea retaining walls, wharves, slipways, jetties, waterway access stairs, swimming pools, fences, cycleways, walking trails, picnic facilities or other recreation facilities (outdoors).
- (3) Development consent must not be granted under this clause unless the consent authority is satisfied that:
  - (a) the development will contribute to achieving the objectives for the zone in which the land is located, and
  - (b) the appearance of any proposed structure, from both the waterway and adjacent foreshore areas, will be compatible with the surrounding area, and
  - (c) the development will not cause environmental harm such as:
    - (i) pollution or siltation of the waterway, or
    - (ii) an adverse effect on surrounding uses, marine habitat, wetland areas, fauna and flora habitats, or
    - (iii) an adverse effect on drainage patterns, and

- (d) the development will not cause congestion or generate conflict between people using open space areas or the waterway, and
- (e) opportunities to provide continuous public access along the foreshore and to the waterway will not be compromised, and
- (f) any historic, scientific, cultural, social, archaeological, architectural, natural or aesthetic significance of the land on which the development is to be carried out and of surrounding land will be maintained, and
- (g) in the case of development for the alteration or rebuilding of an existing building wholly or partly in the foreshore area, the alteration or rebuilding will not have an adverse impact on the amenity or aesthetic appearance of the foreshore.

(4) In this clause:

**foreshore area** means the land between the foreshore building line and the mean high water mark of the nearest natural waterbody.

**foreshore building line** means the line shown as the foreshore building line on the [Foreshore Building Line Map](#).

**Note—**

*Sydney Regional Environmental Plan (Sydney Harbour Catchment) 2005* also applies to the Foreshores and Waterways Area defined by that Plan.

## **6.7 Development on river front areas**

(1) The objectives of this clause are as follows:

- (a) to identify river front areas that have particular scenic value when viewed from waterways and adjacent foreshore areas,
- (b) to ensure that development in these areas minimises visual impacts by appropriate siting and design of buildings together with the conservation of existing trees,
- (c) to maintain existing views and vistas towards waterways from public places.

(2) This clause applies to land identified as “River Front Area” on the [River Front Area Map](#).

(3) Development consent must not be granted for development on land to which this clause applies unless the consent authority is satisfied that:

- (a) measures will be taken, including in relation to the location, design and appearance of the development and conservation of existing trees, to minimise the visual impact of the development to and from the nearest waterway, and

- (b) any historic, scientific, cultural, social, archaeological, architectural, natural or aesthetic significance of the land on which the development is to be carried out, and of surrounding land, will be maintained, and
- (c) existing views towards waterways from public roads and reserves would not be obstructed.

**Note—**

*Sydney Regional Environmental Plan (Sydney Harbour Catchment) 2005* also applies to the Foreshores and Waterways Area defined by that Plan.

### **6.8 Minimum street frontage for medium density residential development**

- (1) The objectives of this clause are as follows:
  - (a) to maintain the character and identity of Hunters Hill by ensuring that gardens are provided around every building that is part of a medium density residential development,
  - (b) to provide for medium density residential developments that are compatible with surrounding buildings in terms of size, scale and existing character.
- (2) Development consent must not be granted for development for the purpose of multi dwelling housing or a residential flat building unless the site has at least one frontage to a road (other than a service lane) that is greater than 18 metres.

### **6.9 Landscaped area for dwelling houses and secondary dwellings**

- (1) The objectives of this clause are as follows:
  - (a) to maintain the character and identity of Hunters Hill by ensuring that dwelling houses and secondary dwellings are surrounded and separated by individual gardens,
  - (b) to soften the visual impacts of dwelling houses and secondary dwellings when viewed from any waterway, park or road by providing sufficient space for trees and plantings around every building,
  - (c) to protect and preserve native vegetation in general, and in particular, native vegetation that occurs in a riverfront area or on riparian land,
  - (d) to ensure that the size and scale of dwelling houses and secondary dwellings are compatible with the existing character of their surrounding locality,
  - (e) to minimise the discharge of stormwater from any site, whether by drainage or by overland flow.
- (2) The landscaped area of any site on which development for the purpose of a dwelling house or a secondary dwelling is carried out must not be less than:

- (a) for each site with a direct frontage to the Parramatta River or the Lane Cove River—60% of the site area, or
  - (b) for all other sites—50% of the site area.
- (3) For the purposes of subclause (2), the site area is to be calculated under clause 4.5 (3) and any area that has a length or a width of less than 2 metres is not to be included in calculating the proportion of landscaped area.
- (4) Despite subclause (2), the minimum landscaped area may be reduced by not more than 33% for the purpose of accommodating a pathway, a patio, a terrace or a pool (if the pool has an area of less than 40 square metres), but only if the proposed development would be consistent with the objectives of this clause.

#### **6.10 Location of sex services premises**

- (1) The objective of this clause is to minimise land use conflicts and adverse amenity impacts by providing a reasonable level of separation between sex services premises, specified land uses and places regularly frequented by children.
- (2) In deciding whether to grant development consent to development for the purposes of sex services premises, the consent authority must consider the following:
- (a) whether the premises will be located on land that adjoins, is directly opposite or is separated only by a local road from land used for the purposes of a centre-based child care facility, a community facility, a school or a place of public worship,
  - (b) the impact that the development and its hours of operation would have on any place likely to be regularly frequented by children:
    - (i) that adjoins the development, or
    - (ii) that can be viewed from the development, or
    - (iii) from which a person can view the development,
  - (c) whether the operation of the premises is likely to cause a disturbance in the neighbourhood:
    - (i) because of its size, location, hours of operation or number of employees, or
    - (ii) taking into account the cumulative impact of the premises along with other sex services premises operating in the neighbourhood during similar hours,
  - (d) whether the operation of the premises will be likely to interfere with the amenity of the neighbourhood.
- (3) If the sex services premises are proposed to be located in a building that contains one or more dwellings, development consent must not be granted to development for the

purpose of sex services premises unless the sex services premises can only be accessed by a separate street entrance that does not provide access to the rest of the building.

## **Schedule 1 Additional permitted uses**

(Clause 2.5)

### **1 Use of certain land at 21c Farnell Street, Boronia Park**

## Schedule 2 Exempt development

(Clause 3.1)

### Note 1—

*State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* specifies exempt development under that Policy. The Policy has State-wide application. This Schedule contains additional exempt development not specified in that Policy.

### Note 2—

Exempt development may be carried out without the need for development consent under the Act. Such development is not exempt from any approval, licence, permit or authority that is required under any other Act and adjoining owners' property rights and the common law still apply.

### Basketball hoops and stands

- (1) Maximum area of backboard—2m<sup>2</sup>.
- (2) Must only be constructed of prefabricated materials.
- (3) Must be installed in accordance with manufacturer's specifications.

## Schedule 3 Complying development

(Clause 3.2)

### Note—

*State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* specifies complying development and the complying development conditions for that development under that Policy. The Policy has State-wide application. This Schedule contains additional complying development not specified in that Policy.

### Part 1 Types of development

(When this Plan was made, this Part was blank)

### Part 2 Complying development certificate conditions

#### Note—

Complying development must comply with the requirements of the Act, the regulations under the Act and this Plan.

#### General conditions

Any development specified in Part 1 is subject to the same conditions set out in Schedule 6 to *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*.

## Dictionary

(Clause 1.4)

**Aboriginal object** means any deposit, object or other material evidence (not being a handcraft made for sale) relating to the Aboriginal habitation of an area of New South Wales, being habitation before or concurrent with (or both) the occupation of that area by persons of non-Aboriginal extraction, and includes Aboriginal remains.

**Aboriginal place of heritage significance** means an area of land, the general location of which is identified in an Aboriginal heritage study adopted by the Council after public exhibition and that may be shown on the [Heritage Map](#), that is:

- (a) the site of one or more Aboriginal objects or a place that has the physical remains of pre-European occupation by, or is of contemporary significance to, the Aboriginal people. It may (but need not) include items and remnants of the occupation of the land by Aboriginal people, such as burial places, engraving sites, rock art, midden deposits, scarred and sacred trees and sharpening grooves, or
- (b) a natural Aboriginal sacred site or other sacred feature. It includes natural features such as creeks

or mountains of long-standing cultural significance, as well as initiation, ceremonial or story places or areas of more contemporary cultural significance.

**Note—**

The term may include (but is not limited to) places that are declared under section 84 of the [National Parks and Wildlife Act 1974](#) to be Aboriginal places for the purposes of that Act.

**acid sulfate soils** means naturally occurring sediments and soils containing iron sulfides (principally pyrite) or their precursors or oxidation products, whose exposure to oxygen leads to the generation of sulfuric acid (for example, by drainage or excavation).

**Acid Sulfate Soils Manual** means the manual by that name published by the Acid Sulfate Soils Management Advisory Committee and made publicly available.

**Acid Sulfate Soils Map** means the [Hunters Hill Local Environmental Plan 2012 Acid Sulfate Soils Map](#).

**advertisement** has the same meaning as in the Act.

**Note—**

The term is defined as a sign, notice, device or representation in the nature of an advertisement visible from any public place or public reserve or from any navigable water.

**advertising structure** has the same meaning as in the Act.

**Note—**

The term is defined as a structure used or to be used principally for the display of an advertisement.

Advertising structures are a type of **signage**—see the definition of that term in this Dictionary.

**affordable housing** has the same meaning as in the Act.

**Note—**

The term is defined as housing for very low income households, low income households or moderate income households, being such households as are prescribed by the regulations or as are provided for in an environmental planning instrument.

**agricultural produce industry** means a building or place used for the handling, treating, processing or packing, for commercial purposes, of produce from agriculture (including dairy products, seeds, fruit, vegetables or other plant material), and includes wineries, flour mills, cotton seed oil plants, cotton gins, feed mills, cheese and butter factories, and juicing or canning plants, but does not include a livestock processing industry.

**Note—**

Agricultural produce industries are a type of **rural industry**—see the definition of that term in this Dictionary.

**agriculture** means any of the following:

- (a) aquaculture,
- (b) extensive agriculture,
- (c) intensive livestock agriculture,
- (d) intensive plant agriculture.

**Note—**

Part 6 of the *Plantations and Reafforestation Act 1999* provides that exempt farm forestry within the meaning of that Act is not subject to the *Environmental Planning and Assessment Act 1979*.

**air transport facility** means an airport or a heliport that is not part of an airport, and includes associated communication and air traffic control facilities or structures.

**airport** means a place that is used for the landing, taking off, parking, maintenance or repair of aeroplanes, and includes associated buildings, installations, facilities and movement areas and any heliport that is part of the airport.

**Note—**

Airports are a type of **air transport facility**—see the definition of that term in this Dictionary.
