State Environmental Planning Policy (Kosciuszko National Park—Alpine Resorts) 2007

New South Wales

Part 1 Preliminary

1 Name of Policy

This Policy is *State Environmental Planning Policy (Kosciuszko National Park—Alpine Resorts) 2007*.

2 Aim and objectives of Policy

- (1) The aim of this Policy is to protect and enhance the natural environment of the alpine resorts, in the context of Kosciuszko National Park, by ensuring that development in those resorts is managed in a way that has regard to the principles of ecologically sustainable development (including the conservation and restoration of ecological processes, natural systems and biodiversity).
- (2) The objectives of this Policy are as follows—
 - (a) to encourage the carrying out of a range of development in the alpine resorts (including the provision of services, facilities and infrastructure, and economic and recreational activities) that do not result in adverse environmental, social or economic impacts on the natural or cultural environment of land to which this Policy applies,
 - (b) to put in place planning controls that contribute to and facilitate the carrying out of ski resort development in Kosciuszko National Park that is ecologically sustainable in recognition of the fact that this development is of State and regional significance,
 - (c) to minimise the risk to the community of exposure to environmental hazards, particularly geotechnical hazards, bush fire and flooding, by generally requiring development consent on land to which this Policy applies.

3 Land to which Policy applies

This Policy applies to the land shown edged heavy black on the Land Application Map.

Note—

This Policy applies to part of Kosciuszko National Park, and to Kosciuszko Road and the Alpine Way. The part of Kosciuszko National Park to which the Policy applies is the land described as the **ski resort area** in Part 8A of Schedule 6 to the Act.

4 Definitions

The Dictionary at the end of this Policy defines words and expressions for the purposes of this Policy.

5 References to alpine resorts

A reference in this Policy—

- (a) to Thredbo Alpine Resort is a reference to the land shown edged heavy black on the map marked "*State Environmental Planning Policy (Kosciuszko National Park—Alpine Resorts) 2007—Thredbo Alpine Resort*", or
- (b) to Perisher Range Alpine Resort is a reference to the land shown edged heavy black on the map marked "*State Environmental Planning Policy (Kosciuszko National Park—Alpine Resorts) 2007—Perisher Range Alpine Resort*", or
- (c) to Bullocks Flat Terminal is a reference to the land shown edged heavy black on the map marked "*State Environmental Planning Policy (Kosciuszko National Park—Alpine Resorts) 2007—Bullocks Flat Terminal*", or
- (d) to Mount Selwyn Alpine Resort is a reference to the land shown edged heavy black on the map marked "*State Environmental Planning Policy (Kosciuszko National Park—Alpine Resorts) 2007—Mount Selwyn Alpine Resort*", or
- (e) to Charlotte Pass Alpine Resort is a reference to the land shown edged heavy black on the map marked "*State Environmental Planning Policy (Kosciuszko National Park—Alpine Resorts) 2007—Charlotte Pass Alpine Resort*", or
- (f) to Kosciuszko Mountain Retreat Alpine Resort is a reference to the land identified as being in that Alpine Resort, and shown edged heavy black, on the map marked "*State Environmental Planning Policy (Kosciuszko National Park—Alpine Resorts) 2007—Minor Alpine Resorts*", or
- (g) to Sponars Chalet Alpine Resort is a reference to the land identified as being in that Alpine Resort, and shown edged heavy black, on the map marked "*State Environmental Planning Policy (Kosciuszko National Park—Alpine Resorts) 2007—Minor Alpine Resorts*", or
- (h) to Ski Rider Alpine Resort is a reference to the land identified as being in that Alpine

Resort, and shown edged heavy black, on the map marked “*State Environmental Planning Policy (Kosciuszko National Park—Alpine Resorts) 2007—Minor Alpine Resorts*”.

6 Notes

Notes in this Policy are provided for guidance and do not form part of this Policy.

7 Consent authority

The consent authority for the purposes of this Policy is the Minister.

Note—

Clause 32C(2)(a) of Schedule 6 to the Act makes the Minister the consent authority for all development applications relating to the land in a ski resort area.

8 Maps

(1) A reference in this Policy to a named map adopted by this Policy is a reference to a map by that name—

(a) approved by the Minister when the map is adopted, and

(b) as amended from time to time by maps declared by environmental planning instruments to amend that map, and approved by the Minister when the instruments are made.

(2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Policy to any such named map is a reference to the relevant part or aspect of the single map.

(3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.

Note—

The maps adopted by this Policy are as follows—

(a) the Land Application Map,

(b) the maps referred to in clause 5 (References to alpine resorts).

9 Repeal of SEPP applying to land

State Environmental Planning Policy No 73—Kosciuszko Ski Resorts is repealed.

10 Application of other environmental planning instruments

The following environmental planning instruments do not apply to land to which this Policy applies and are amended as set out in Schedule 1—

State Environmental Planning Policy No 64—Advertising and Signage,

State Environmental Planning Policy No 65—Design Quality of Residential Apartment Development,

Kosciuszko Regional Environmental Plan 1998—(Snowy River),

Snowy River Local Environmental Plan 1997,

Tumut Local Environmental Plan 1990.

Part 2 Permitted or prohibited development

11 Land Use Table

- (1) The Table at the end of this Part specifies for each alpine resort—
 - (a) development that may be carried out without consent, and
 - (b) development that may be carried out with consent, and
 - (c) development that is prohibited.
- (2) In the Table at the end of this Part—
 - (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
 - (b) a reference to a type of building or other thing does not include (despite any definition in this Policy) a reference to a type of building or other thing referred to separately in the Table in relation to the same alpine resort.
- (3) This clause is subject to the other provisions of this Policy.

12 Demolition

Demolition may be carried out on land to which this Policy applies, but only with consent.

13 Subdivision

- (1) Land to which this Policy applies may be subdivided, but only with consent.
- (2) However, consent is not required for a subdivision for the purpose only of any one or more of the following—
 - (a) widening a public road,
 - (b) making an adjustment to a boundary between lots, being an adjustment that does not involve the creation of a greater number of lots,
 - (c) a consolidation of lots that does not create additional lots,
 - (d) rectifying an encroachment on a lot,

- (e) excising from a lot land that is, or is intended to be, used for public purposes, including drainage purposes, rural fire brigade or other emergency service purposes or public conveniences.

14 Matters to be considered by consent authority

Note—

This clause provides for matters for consideration in addition to those provided for by section 4.15 of the Act. The consent authority is also required to take into account recovery plans and threat abatement plans under the *Threatened Species Conservation Act 1995*. (See sections 69 and 86 of that Act.)

- (1) In determining a development application that relates to land to which this Policy applies, the consent authority must take into consideration any of the following matters that are of relevance to the proposed development—
 - (a) the aim and objectives of this Policy, as set out in clause 2,
 - (b) the extent to which the development will achieve an appropriate balance between the conservation of the natural environment and any measures to mitigate environmental hazards (including geotechnical hazards, bush fires and flooding),
 - (c) having regard to the nature and scale of the development proposed, the impacts of the development (including the cumulative impacts of development) on the following—
 - (i) the capacity of existing transport to cater for peak days and the suitability of access to the alpine resorts to accommodate the development,
 - (ii) the capacity of the reticulated effluent management system of the land to which this Policy applies to cater for peak loads generated by the development,
 - (iii) the capacity of existing waste disposal facilities or transfer facilities to cater for peak loads generated by the development,
 - (iv) the capacity of any existing water supply to cater for peak loads generated by the development,
 - (d) any statement of environmental effects required to accompany the development application for the development,

Note—

This Policy applies to land that is in the **ski resort area** described in clause 32A of Schedule 6 to the Act and certain other land. Regulations made under the Act set out requirements relating to the preparation of the statement of environmental effects required to accompany a development application, including specific requirements for a statement of environmental effects relating to the ski resort area if the proposed development is advertised development.

- (e) if the consent authority is of the opinion that the development would significantly

alter the character of the alpine resort—an analysis of the existing character of the site and immediate surroundings to assist in understanding how the development will relate to the alpine resort,

- (f) the *Geotechnical Policy—Kosciuszko Alpine Resorts* (2003, Department of Infrastructure, Planning and Natural Resources) and any measures proposed to address any geotechnical issues arising in relation to the development,
- (g) if earthworks or excavation works are proposed—any sedimentation and erosion control measures proposed to mitigate any adverse impacts associated with those works,
- (h) if stormwater drainage works are proposed—any measures proposed to mitigate any adverse impacts associated with those works,
- (i) any visual impact of the proposed development, particularly when viewed from the Main Range,
- (j) the extent to which the development may be connected with a significant increase in activities, outside of the ski season, in the alpine resort in which the development is proposed to be carried out,
- (k) if the development involves the installation of ski lifting facilities and a development control plan does not apply to the alpine resort—
 - (i) the capacity of existing infrastructure facilities, and
 - (ii) any adverse impact of the development on access to, from or in the alpine resort,
- (l) if the development is proposed to be carried out in Perisher Range Alpine Resort—
 - (i) the document entitled *Perisher Range Resorts Master Plan*, as current at the commencement of this Policy, that is deposited in the head office of the Department, and
 - (ii) the document entitled *Perisher Blue Ski Resort Ski Slope Master Plan*, as current at the commencement of this Policy, that is deposited in the head office of the Department,
- (m) if the development is proposed to be carried out on land in a riparian corridor—
 - (i) the long term management goals for riparian land, and
 - (ii) whether measures should be adopted in the carrying out of the development to assist in meeting those goals.

(2) The **long term management goals** for riparian land are as follows—

- (a) to maximise the protection of terrestrial and aquatic habitats of native flora and native fauna and ensure the provision of linkages, where possible, between such habitats on that land,
 - (b) to ensure that the integrity of areas of conservation value and terrestrial and aquatic habitats of native flora and native fauna is maintained,
 - (c) to minimise soil erosion and enhance the stability of the banks of watercourses where the banks have been degraded, the watercourses have been channelised, pipes have been laid and the like has occurred.
- (3) A reference in this clause to land in a riparian corridor is a reference to land identified as being in such a corridor on a map referred to in clause 5.

15 Additional matters to be considered for buildings

- (1) **Building height** In determining a development application for the erection of a building on land, the consent authority must take into consideration the proposed height of the building (where relevant) and the extent to which that height—
- (a) has an impact on the privacy of occupiers and users of other land, and
 - (b) limits solar access to places in the public domain where members of the public gather or to adjoining or nearby land, and
 - (c) has an impact on views from other land, and
 - (d) if the building is proposed to be erected in Thredbo Alpine Resort—has a visual impact when viewed from the Alpine Way, and
 - (e) if the building is proposed to be erected in Perisher Range Alpine Resort—needs to be limited so as to assist in maintaining the skyline when viewed from Kosciuszko Road and any other public roads, and
 - (f) if the building is proposed to be erected in an alpine resort other than Thredbo Alpine Resort or Perisher Range Alpine Resort—is similar to existing buildings in the resort where it is proposed to be erected, and
 - (g) if the building is proposed to be erected in Bullocks Flat Terminal—relates to the topography of its site.
- (2) **Building setback** In determining a development application for the erection of a building on land, the consent authority must take into consideration the proposed setback of the building (where relevant) and the extent to which that setback—
- (a) assists in providing adequate open space to complement any commercial use in the alpine resort concerned, and
 - (b) assists in achieving high quality landscaping between the building and other

buildings, and

(c) has an impact on amenity, particularly on view corridors at places in the public domain where members of the public gather, and

(d) is adequate for the purposes of fire safety, and

(e) will enable site access for pedestrians, services (including stormwater drainage and sewerage services) and the carrying out of building maintenance, and

(f) will facilitate the management of accumulated snow.

(3) **Landscaped area** In determining a development application for the erection of a building on land, the consent authority must take into consideration (where relevant) the extent to which landscaping should be used—

(a) as a means of assisting in the protection of the unique alpine environment of the alpine resort concerned, and to maximise its natural visual amenity, for the benefit of visitors and natural ecosystems, and

(b) to assist in the provision of adequate open space to complement any commercial use in the alpine resort concerned, and

(c) to limit the apparent mass and bulk of the building, and

(d) as an amenity protection buffer between the proposed building and other buildings, and

(e) as a means of reducing run-off, and

(f) to protect significant existing site features and limit the area of any site disturbed during and after the carrying out of development.

16 Additional matters to be considered for subdivision

Consent must not be granted to the subdivision of land unless the consent authority is satisfied that—

(a) to the fullest extent practicable, lot boundaries follow ecological, catchment, topographical or other natural boundaries in the vicinity (if any) so as to facilitate the long-term protection of biodiversity values and conservation management, and

(b) if it is proposed that the land be built on—the land is not subject to flooding or geotechnical risks or is otherwise unsuitable for building purposes, and

(c) the subdivision will (to the extent relevant) achieve the most efficient use of existing public utility services (such as water supply and sewerage services), and

(d) the subdivision will not have any significant adverse impact on any of the following

plant communities on land identified as containing such a plant community in any Figure (other than Figures 1 and 11) in the Kosciuszko Resorts Vegetation Assessment—

- (i) feldmark,
- (ii) short alpine herbfield,
- (iii) snowpatch.

Note—

Under Part 8A of the *National Parks and Wildlife Act 1974*, it is an offence to gather, pluck, cut, pull up, destroy, poison, take, dig up, remove or injure a plant or any part of a plant that is of, or is part of, a threatened species, endangered population or endangered ecological community (as identified by the *Threatened Species Conservation Act 1995*).

Any change to the boundary of a lease granted under Part 12 of the *National Parks and Wildlife Act 1974* requires the approval of the Minister administering that Act.

17 Development applications to be referred to Department of Environment and Climate Change

- (1) The consent authority must, within 7 days of the lodgment of a development application that relates to land to which this Policy applies, refer the application to the Director-General of the Department of Environment and Climate Change for the comment of that Director-General (including in relation to the application of the *National Parks and Wildlife Act 1974* to the proposed development).
- (2) Before determining any application referred under subclause (1), the consent authority must consider any comments of the Director-General of the Department of Environment and Climate Change in relation to the application that are received by the consent authority within 28 days after that referral.
- (3) The Director-General of the Department of Planning and the Director-General of the Department of Environment and Climate Change may from time to time make agreements or arrangements as to the circumstances in which development applications need not be referred under subclause (1).
- (4) Despite subclause (1), a development application need not be referred to the Director-General of the Department of Environment and Climate Change if any such agreement or arrangement provides that any such development application need not be referred.

18 Plan of management under *National Parks and Wildlife Act 1974*

- (1) Consent to a development application may be granted under this Policy even though the application has not established that the development is consistent with a plan of management for Kosciuszko National Park adopted under the *National Parks and Wildlife Act 1974*.

- (2) Nothing in this clause prevents the consent authority from refusing to grant consent to a development application on the basis that the development is not consistent with such a plan of management.

Note—

Under section 81(4) of the *National Parks and Wildlife Act 1974*, operations on land to which a plan of management under that Act applies may be undertaken only if they are undertaken in accordance with the plan of management, despite any other Act or any instrument made under an Act.

Part 4 Exempt development

19 Exempt development

Note—

Under section 4.1 of the Act, exempt development may be carried out without the need for development consent under Part 4 of the Act or for assessment under Part 5 of the Act.

The section states that exempt development—

- (a) must be of minimal environmental impact, and
- (b) cannot be carried out in critical habitat of an endangered species, population or ecological community (identified under the [Threatened Species Conservation Act 1995](#) or the [Fisheries Management Act 1994](#)), and
- (c) cannot be carried out in a wilderness area (identified under the [Wilderness Act 1987](#)).

Specifying a type of development as exempt development does not authorise the contravention of any condition of development consent, or any lease or licence under the [National Parks and Wildlife Act 1974](#), applying to the land on which the exempt development is carried out. Nor does it authorise the contravention of any other law that may apply, including the prohibitions set out in Part 8A (Threatened species, populations and ecological communities, and their habitats, and critical habitat) of the [National Parks and Wildlife Act 1974](#).

- (1) The objective of this clause is to identify development of minimal environmental impact as exempt development.
- (2) Development specified in Schedule 2 that meets the requirements for the development contained in that Schedule, and that complies with the requirements of this clause, is exempt development.
- (3) To be exempt development, the development—

- (a) must meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia*, and
 - (b) must not, if it relates to an existing building, cause the building to contravene the *Building Code of Australia*, and
 - (c) must not be designated development, and
 - (d) must not be carried out on land that comprises, or on which there is, a heritage item that is listed on the State Heritage Register under the *Heritage Act 1977* or that is subject to an interim heritage order under the *Heritage Act 1977*, and
 - (e) must not be carried out on land that is an Aboriginal place within the meaning of the *National Parks and Wildlife Act 1974* or that is shown coloured pink or blue in figure 6.1 of *Perisher Range Resorts Environmental Study* (October 2002), prepared by Connell Wagner Pty Ltd for the National Parks and Wildlife Service.
- (4) Development that relates to an existing building that is classified under the *Building Code of Australia* as class 1b or class 2–9 is not exempt development unless—
- (a) the building has a current fire safety certificate or fire safety statement, or
 - (b) no fire safety measures are currently implemented, required or proposed for the building.
- (5) Development is not exempt development if the development involves damage to any plant that is part of any of the following plant communities on land identified as containing such a plant community in any Figure (other than Figures 1 and 11) in the Kosciuszko Resorts Vegetation Assessment—
- (a) feldmark,
 - (b) short alpine herbfield,
 - (c) snowpatch.
- (6) In this clause—

damage, in relation to a plant, means the ringbarking, cutting down, topping, lopping, slashing, trimming, removing, poisoning, injury or wilful destruction of the plant.

Part 5 Miscellaneous provisions

Division 1 Provisions applying to particular land

20 Development on Kosciuszko Road and Alpine Way

Consent may be granted to development for the purpose of roads, car parking, infrastructure facilities or advertisements on the land in the lots described in Schedule 16

to the *National Parks and Wildlife Act 1974*.

21 Development on site of Blue Cow terminal building

- (1) This clause applies to land identified as being the site of the Blue Cow terminal building on the map marked “*State Environmental Planning Policy (Kosciuszko National Park—Alpine Resorts) 2007—Perisher Range Alpine Resort*”.
- (2) Development for the purposes of any of the following may be carried out with consent on land to which this clause applies—
 - (a) advertisements,
 - (b) building identification signs,
 - (c) business identification signs,
 - (d) commercial premises (other than workshops),
 - (e) community facilities,
 - (f) conference facilities,
 - (g) educational establishments,
 - (h) emergency service facilities,
 - (i) entertainment facilities,
 - (j) food outlets,
 - (k) health profession consulting rooms,
 - (l) infrastructure facilities,
 - (m) lifting facilities,
 - (n) management trails,
 - (o) medical centres,
 - (p) recreation facilities,
 - (q) recreation infrastructure,
 - (r) shops,
 - (s) the Skitube,
 - (t) snow-making infrastructure,

(u) telecommunications facilities,

(v) transport facilities,

(w) vehicle repair stations.

- (3) Any development not allowed by this clause or by clause 12 (Demolition), 13 (Subdivision), 19 (Exempt development) or 25 (Development by Crown or public authorities) is prohibited on land to which this clause applies.

22 Development in vicinity of Kangaroo Ridgeline

- (1) This clause applies to the land identified as being in Kangaroo Ridgeline on the map marked "*State Environmental Planning Policy (Kosciuszko National Park—Alpine Resorts) 2007—Charlotte Pass Alpine Resort*".

- (2) Development for the purposes of any of the following may be carried out with consent on land to which this clause applies—

(a) management trails,

(b) recreation infrastructure,

(c) slope grooming.

- (3) Any development not allowed by this clause or by clause 12 (Demolition), 13 (Subdivision), 19 (Exempt development) or 25 (Development by Crown or public authorities) is prohibited on land to which this clause applies.

23 Classified roads

- (1) The objectives of this clause are—

(a) to ensure that new development does not compromise the effective and ongoing operation and function of classified roads (within the meaning of the [Roads Act 1993](#)), and

(b) to prevent or reduce the potential impact of traffic noise and vehicle emissions on development adjacent to classified roads.

- (2) Consent must not be granted to the development of land that has a frontage to a classified road unless the consent authority is satisfied that—

(a) where practicable, vehicular access to the land is provided by a road other than the classified road, and

(b) the safety, efficiency and ongoing operation of the classified road will not be adversely affected by the proposed development as a result of—

(i) the design of the vehicular access to the land, or

- (ii) the emission of smoke or dust from the proposed development, or
 - (iii) the nature, volume or frequency of vehicles using the classified road to gain access to the land, and
- (c) the development is of a type that is not sensitive to traffic noise or vehicle emissions, or is appropriately located and designed, or includes measures, to ameliorate potential traffic noise or vehicle emissions within the site of the proposed development.

24 Flood prone land

- (1) Consent must not be granted to the subdivision of, or the erection of a building or the carrying out of a work on, land that, in the opinion of the consent authority, is prone to flooding unless the consent authority has considered the NSW Government's *Floodplain Development Manual: the management of flood liable land (April 2005, ISBN 0 7347 5476 0)*.
- (2) Consent must not be granted to any development (other than the carrying out of flood mitigation works or the installation of drains) on land that, in the opinion of the consent authority, would be inundated as a result of a 1 in 100 year flood level if the consent authority is of the opinion that the development will, or is likely to—
- (a) significantly adversely affect—
 - (i) potential flood behaviour, including the flood peak at any point upstream or downstream of the development, or
 - (ii) the flow of floodwater on land adjoining the development, or
 - (b) significantly increase the potential for flooding that damages property or otherwise adversely affects the community, or
 - (c) cause significant erosion, siltation or destruction of riverbank vegetation in the locality of the development, or
 - (d) significantly adversely affect riverbank stability, or
 - (e) significantly adversely affect the safety of occupiers or users of land on which the development is proposed to be carried out, or
 - (f) significantly restrict the capacity of a floodway, or
 - (g) significantly increase the risk to the personal safety of emergency services and rescue personnel.
- (3) In this clause—

floodway means the area of a floodplain onto which a significant discharge of water

occurs during floods, being an area that may be aligned with a naturally defined channel and that, even if partially blocked, would cause a significant redistribution of flood flow or a significant increase in flood levels.

Division 2 Other

25 Development by Crown or public authorities

- (1) Development carried out on land to which this Policy applies by or on behalf of the Crown or a public authority (including Snowy Hydro Limited) does not require consent.
- (2) Despite subclause (1), development for the purposes of any of the following (other than development carried out by or on behalf of Snowy Hydro Limited) requires consent—
 - (a) water storage dams (including artificial reservoirs, tanks and ponds),
 - (b) sewage treatment works,
 - (c) waste management facilities.
- (3) A reference in this Policy to the carrying out of development for the purpose of—
 - (a) water storage dams (including artificial reservoirs, tanks and ponds) does not include a reference to the installation or use of pipelines, pumps or related infrastructure used to supply water to or from those dams, and
 - (b) sewage treatment works does not include a reference to the use of pipelines, pumps or related infrastructure used to convey sewage to, or any output from, those works.

26 Heritage conservation

- (1) **Objectives** The objectives of this clause are as follows—
 - (a) to conserve the environmental heritage of the land to which this Policy applies, and
 - (b) to conserve the heritage significance of heritage items, including associated fabric, settings and views.
- (2) **Requirement for consent** Development consent is required for any of the following—
 - (a) demolishing or moving a heritage item,
 - (b) altering a heritage item, including (in the case of a building) by making changes to the detail, fabric, finish or appearance of its exterior,
 - (c) altering a heritage item that is a building by making structural changes to its interior,

- (d) disturbing or excavating land that is or contains a heritage item referred to in Part 2 of Schedule 3,
- (e) erecting a building on land that is a heritage item or on which a heritage item is located,
- (f) subdividing land that is a heritage item or on which a heritage item is located.

(3) **When consent not required** However, consent under this clause is not required if—

- (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development—
 - (i) is of a minor nature, or is for the maintenance of the heritage item, and
 - (ii) the proposed development would not adversely affect the heritage significance of the heritage item, or
- (b) the development is limited to the removal of a tree or other vegetation that the consent authority is satisfied is a risk to human life or property, or
- (c) the development is exempt development, or
- (d) the development is development that, under clause 25 (Development by Crown or public authorities), does not require consent.

(4) **Effect on heritage significance** The consent authority must, before granting consent under this clause, consider the effect of the proposed development on the heritage significance of the heritage item concerned. This subclause applies regardless of whether a heritage impact statement is prepared under subclause (5) or a heritage conservation management plan is submitted under subclause (6).

Note—

The website of the Heritage Branch of the Department of Planning has publications that provide guidance on assessing the impact of proposed development on the heritage significance of items (for example, *Statements of Heritage Impact*).

(5) **Heritage impact assessment** The consent authority may, before granting consent to any development on land—

- (a) on which a heritage item is situated, or
- (b) that is a heritage item, or
- (c) within the vicinity of land referred to in paragraph (a) or (b),

require a heritage impact statement to be prepared that assesses the extent to which the carrying out of the proposed development would affect the heritage significance of the heritage item concerned.

- (6) **Heritage conservation management plans** The consent authority may require, after considering the significance of a heritage item and the extent of change proposed to it, the submission of a heritage conservation management plan before granting consent under this clause.
- (7) **Items of Aboriginal heritage significance** The consent authority must, before granting consent under this clause to the carrying out of development on land that is, or contains, a heritage item referred to in Part 2 of Schedule 3—
- (a) consider the effect of the proposed development on the heritage significance of the heritage item and, if the heritage item comprises land, any Aboriginal object known or reasonably likely to be located on the land, and
 - (b) notify the local Aboriginal communities (in such way as it thinks appropriate) about the application and take into consideration any response received within 28 days after the notice is sent.
- (8) (Repealed)
- (9) **Conservation incentives** The consent authority may grant consent to development for any purpose of a building that is a heritage item, or of the land on which such a building is erected, even though development for that purpose would otherwise not be allowed by this Policy, if the consent authority is satisfied that—
- (a) the conservation of the heritage item is facilitated by the granting of consent, and
 - (b) the proposed development is in accordance with a heritage conservation management plan that has been approved by the consent authority, and
 - (c) the consent to the proposed development would require that all necessary conservation work identified in the heritage conservation management plan is carried out, and
 - (d) the proposed development would not adversely affect the heritage significance of the heritage item, including its setting, and
 - (e) the proposed development would not have any significant adverse effect on the amenity of the surrounding area.

27 (Repealed)

28 Applications lodged but not determined before Policy made

- (1) This Policy does not apply to or with respect to an application for an approval under Part 3A of the Act that had been made but not finally determined before the commencement of this Policy.
- (2) A development application lodged, but not finally determined, prior to the

commencement of this Policy must be determined under the provisions of any environmental planning instruments that were in force immediately before that commencement and that applied to the development the subject of the development application.

- (3) However, in determining any such development application, the consent authority must take into consideration the provisions of this Policy that are of relevance to the development proposed.
- (4) Subclauses (2) and (3) do not apply to a development application if the applicant for the development application has requested, in writing, that the consent authority determine the development application under the provisions of this Policy.

29 Temporary use of land

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.
- (2) Despite any other provision of this Policy, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 52 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that—
 - (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Policy and any other applicable environmental planning instrument, and
 - (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
 - (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and
 - (d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.
- (4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.
- (5) Subclause (3)(d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

30 Conversion of fire alarms

- (1) This clause applies to a fire alarm system that can be monitored by Fire and Rescue NSW or by a private service provider.
- (2) The following development may be carried out, but only with development consent—
 - (a) converting a fire alarm system from connection with the alarm monitoring system of Fire and Rescue NSW to connection with the alarm monitoring system of a private service provider,
 - (b) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with the alarm monitoring system of another private service provider,
 - (c) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with a different alarm monitoring system of the same private service provider.
- (3) Development to which subclause (2) applies is complying development if it consists only of—
 - (a) internal alterations to a building, or
 - (b) internal alterations to a building together with the mounting of an antenna, and any support structure, on an external wall or roof of a building so as to occupy a space of not more than 450mm × 100mm × 100mm.
- (4) A complying development certificate for any such complying development is subject to a condition that any building work may only be carried out between 7.00 am and 6.00 pm on Monday to Friday and between 7.00 am and 5.00 pm on Saturday, and must not be carried out on a Sunday or a public holiday.
- (5) In this clause—

private service provider means a person or body that has entered into an agreement that is in force with Fire and Rescue NSW to monitor fire alarm systems.

 - (iii) has an area of no more than 7 square metres, or

(d) the advertisement—

- (i) is a real estate sign advertising that the premises on which it is displayed are for sale or are for lease under Part 12 of the *National Parks and Wildlife Act 1974*, and
- (ii) together with any advertising structure on which it is displayed, has an area of no more than 2.4 square metres.

2 Public notices of public authorities

The erection of a sign, by or on behalf of a public authority, in the nature of a public notice that provides only information or directions (or both) in relation to a service provided by the public authority.

3 Signs relating to safety

The erection of a sign whose purpose is to ensure the safety of workers on the site at which it is located or of the general public.

4 Building identification signs or business identification signs

The erection and use of a building identification sign or business identification sign, displayed on the premises to which it relates, but only if—

- (a) the sign is displayed behind a window on the premises, or
- (b) the sign has an area of no more than 0.75 square metres and, if the sign is erected above a public road, it is erected at least 2.6 metres above the road.

5 Internal building alterations

Internal building alterations that do not involve the following—

- (a) any increase in the gross floor area of the building,
- (b) any alteration to a load-bearing member of a building or any alteration that results in the load-bearing capacity of the building being exceeded,
- (c) any modification of any form of construction that is, or is proposed to be, implemented in a building to ensure the safety of persons using the building in the event of fire,
- (d) any modification of any of the following—
 - (i) any kitchen used for commercial purposes,
 - (ii) any area, within premises, that is used for skin penetration procedures within the meaning of section 51 of the *Public Health Act 1991*,
 - (iii) any hairdressing premises,

- (iv) any swimming or spa pool within the building,
- (e) any alteration to a building comprising tourist accommodation that results in an increase in the size of a bedroom or an increase in the number of bedrooms in the tourist accommodation.

6 Change of use of a building

New use of a building as an office, resulting from a change of use of the building as a shop, or new use of a building as a shop, resulting from a change of use of the building as an office, but only if—

- (a) the use of the building, before the change, as a shop or as an office (as the case may be) was lawful, and
- (b) the new use would otherwise be permitted with consent under this Policy, and
- (c) the new use occurs over no more than 200 square metres of floor space, and
- (d) in the case of the new use of a building as a shop—the use of the shop does not involve the handling, preparation or storage of food for sale or consumption.

7 Installation and use of street furniture

The installation and use of street furniture (including a bench, a bollard and a garbage enclosure) on a public footpath or in a plaza, but only if—

- (a) the street furniture does not prevent or extensively restrict use of the footpath or plaza for access, and
- (b) the street furniture is firmly anchored, and
- (c) in the case of a garbage enclosure—the enclosure is animal-proof.

8 Maintenance

The carrying out of any development comprised in the repair of deteriorated or damaged material (whether or not in a building) or the replacement of any such material, but only if—

- (a) no wall of a building is wholly replaced, and
- (b) in the case of repairs to, or the partial replacement of, the wall of a building, involving the use of material that differs in nature from the material being repaired or replaced—
 - (i) the repairs extend over no more than 5% of the surface, over any 3 year period, or
 - (ii) the replacement is of no more than 5% of the wall, over any 3 year period, and

- (c) the maintenance does not affect the load-bearing capacity of any load-bearing member of a building, and
- (d) the work does not involve the use of external combustible cladding (within the meaning of the *Environmental Planning and Assessment Regulation 2000*).

9 Development carried out on ski slopes

The carrying out on ski slopes of any of the following—

- (a) the erection of any of the following structures for the purposes of recreational activities, including skiing—
 - (i) signs not exceeding 2.5 square metres in area,
 - (ii) structures related to snow sports that are either fully embedded or fully supported by snow,
 - (iii) other structures not exceeding more than 2.4 metres in height,but only if the structures stand for no more than 22 weeks in any one year,
- (b) fences not exceeding 2 metres in height,
- (c) the maintenance of ski slopes on an annual basis, or of a routine nature, including slashing and trimming of regrowth.

Note—

The slashing or trimming of any plant that is part of any of the following plant communities (as identified in the Kosciuszko Resorts Vegetation Assessment) is not exempt development—

- (a) feldmark,
- (b) short alpine herbfield,
- (c) snowpatch.

The slashing or trimming of plants that are, or are part of, a threatened species, endangered population or endangered ecological community (as identified by the *Threatened Species Conservation Act 1995*) is an offence under Part 8A of the *National Parks and Wildlife Act 1974*.

10 Antennae, satellite dishes and aerials

The installation of an antenna, satellite dish or aerial, for use within tourist accommodation, but only if—

- (a) following the installation, there is no more than one antenna, one satellite dish and one aerial per building, and
- (b) the height of the antenna, satellite dish or aerial to be installed is no more than 1 metre above the ridgeline of the building that the device services, and

- (c) in the case of the installation of a satellite dish—the dish is no more than 500mm in diameter, and
- (d) there are no structural alterations involved and the antenna, satellite dish or antenna is firmly anchored.

11 Erection of minor structures

The erection of a structure ancillary to a permissible use, but only if—

- (a) the structure is erected at least 1 metre from each boundary of any sublease or lease applying to the site, and
- (b) the structure does not cover an area of more than 10 square metres, and
- (c) the structure does not stand higher than 1 metre above the ground level (existing) of the site, and
- (d) the erection of the structure does not require any excavation deeper than 500 millimetres below ground level (existing) and does not compromise any support for adjoining land, and
- (e) the erection or use of the structure does not involve the handling, use or storage of hazardous chemicals or materials, and the materials used in the structure do not release any hazardous chemicals or materials into the environment, and
- (f) the structure is made of non-combustible materials if erected on land that is bush fire prone land.

12 Laying of paving

The laying of paving, but only if—

- (a) the paving does not cover an area of more than 10 square metres, and
- (b) the laying of the paving does not require any excavation deeper than 500 millimetres below the ground level (existing) of the site and does not compromise any support for adjoining land.

13 Demolition

Demolition of any structure, the erection of which is exempt development under this Policy, but only if—

- (a) the structure stands on an area of not more than 25 square metres, and
- (b) is carried out in accordance with any applicable provisions of AS 2601—2001*Demolition of structures*.
