## SP2 Infrastructure

### Recreation Zones

#### RE1 Public Recreation

## 2.2 Zoning of land to which Plan applies

For the purposes of this Plan, land is within the zones shown on the [Land Zoning Map](#).

## 2.3 Zone objectives and Land Use Table

- (1) The Land Use Table at the end of this Part specifies for each zone—
  - (a) the objectives for development, and
  - (b) development that may be carried out without development consent, and
  - (c) development that may be carried out only with development consent, and
  - (d) development that is prohibited.
- (2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.
- (3) In the Land Use Table at the end of this Part—
  - (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
  - (b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.
- (4) This clause is subject to the other provisions of this Plan.

### Notes—

- 1** Schedule 1 sets out additional permitted uses for particular land.
- 2** Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act.
- 3** Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
- 4** Clause 2.6 requires consent for subdivision of land.
- 5** Part 5 contains other provisions which require consent for particular development.

## 2.4 Unzoned land

- (1) Development may be carried out on unzoned land only with development consent.
- (2) In deciding whether to grant development consent, the consent authority—

- (a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and
- (b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

## 2.5 Additional permitted uses for particular land

- (1) Development on particular land that is described or referred to in Schedule 1 may be carried out—
  - (a) with development consent, or
  - (b) if the Schedule so provides—without development consent,in accordance with the conditions (if any) specified in that Schedule in relation to that development.
- (2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

## 2.6 Subdivision—consent requirements

- (1) Land to which this Plan applies may be subdivided, but only with development consent.

### Notes—

- 1** If a subdivision is specified as **exempt development** in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, the Act enables it to be carried out without development consent.
- 2** Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is **complying development**.

- (2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

### Note—

The definition of **secondary dwelling** in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

## 2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

### Note—

If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, as exempt development, the Act enables it to be carried out without development consent.

## 2.8 Temporary use of land

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.
- (2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 52 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that—
  - (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and
  - (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
  - (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and
  - (d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.
- (4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.
- (5) Subclause (3)(d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

## Land Use Table

### Note—

A type of development referred to in the Land Use Table is a reference to that type of development only to the extent it is not regulated by an applicable State environmental planning policy. The following State environmental planning policies in particular may be relevant to development on land to which this Plan applies—

## **3.1 Exempt development**

- (1) The objective of this clause is to identify development of minimal environmental impact as exempt development.
- (2) Development specified in Schedule 2 that meets the standards for the development contained in that Schedule and that complies with the requirements of this Part is exempt development.
- (3) To be exempt development, the development—
  - (a) must meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia* or, if there are no such relevant provisions, must be structurally adequate, and
  - (b) must not, if it relates to an existing building, cause the building to contravene the *Building Code of Australia*, and

- (c) must not be designated development, and
  - (d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the *Heritage Act 1977* or that is subject to an interim heritage order under the *Heritage Act 1977*.
- (4) Development that relates to an existing building that is classified under the *Building Code of Australia* as class 1b or class 2-9 is exempt development only if—
- (a) the building has a current fire safety certificate or fire safety statement, or
  - (b) no fire safety measures are currently implemented, required or proposed for the building.
- (5) To be exempt development, the development must—
- (a) be installed in accordance with the manufacturer's specifications, if applicable, and
  - (b) not involve the removal, pruning or other clearing of vegetation that requires a permit, development consent or other approval unless it is undertaken in accordance with a permit, development consent or other approval.

**Note—**

See *State Environmental Planning Policy (Vegetation in Non-Rural Areas) 2017* and Part 5A of the *Local Land Services Act 2013*.

- (6) A heading to an item in Schedule 2 is part of that Schedule.

### **3.2 Complying development**

- (2) Development specified in Part 1 of Schedule 3 that is carried out in compliance with—
- (a) the development standards specified in relation to that development, and
  - (b) the requirements of this Part,
- is complying development.

**Note—**

See also clause 5.8(3) which provides that the conversion of fire alarms is complying development in certain circumstances.

- (3) To be complying development, the development must—
- (a) be permissible, with development consent, in the zone in which it is carried out, and
  - (b) meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia*,

## **Part 4 Principal development standards**

### **4.1 Minimum subdivision lot size**

[Not adopted]

### **4.2 Rural subdivision**

[Not applicable]

### **4.3 Height of buildings**

(1) The objectives of this clause are as follows—

- (a) to ensure the height of development is appropriate to the condition of the site and its context,
- (b) to ensure appropriate height transitions between new development and heritage items and buildings in heritage conservation areas or special character areas,
- (c) to promote the sharing of views,
- (d) to ensure appropriate height transitions from Central Sydney and Green Square Town Centre to adjoining areas,
- (e) in respect of Green Square—
  - (i) to ensure the amenity of the public domain by restricting taller buildings to only part of a site, and
  - (ii) to ensure the built form contributes to the physical definition of the street network and public spaces.

(2) The height of a building on any land is not to exceed the maximum height shown for the land on the [Height of Buildings Map](#).

**Note—**

No maximum height is shown for land in Area 3 on the [Height of Buildings Map](#). The maximum height for buildings on this land are determined by the sun access planes that are taken to extend over the land by clause 6.17.

(2A) Despite any other provision of this Plan, the maximum height of a building on land shown as Area 1 or Area 2 on the [Height of Buildings Map](#) is the height of the building on the land as at the commencement of this Plan.

### **4.4 Floor space ratio**

(1) The objectives of this clause are as follows—

- (a) to provide sufficient floor space to meet anticipated development needs for the foreseeable future,
  - (b) to regulate the density of development, built form and land use intensity and to control the generation of vehicle and pedestrian traffic,
  - (c) to provide for an intensity of development that is commensurate with the capacity of existing and planned infrastructure,
  - (d) to ensure that new development reflects the desired character of the locality in which it is located and minimises adverse impacts on the amenity of that locality.
- (2) The maximum floor space ratio for a building on any land is not to exceed the floor space ratio shown for the land on the [Floor Space Ratio Map](#).

#### 4.5 Calculation of floor space ratio and site area

- (1) **Objectives** The objectives of this clause are as follows—
- (a) to define **floor space ratio**,
  - (b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to—
    - (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and
    - (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and
    - (iii) require community land and public places to be dealt with separately.
- (2) **Definition of “floor space ratio”** The **floor space ratio** of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area.
- (3) **Site area** In determining the site area of proposed development for the purpose of applying a floor space ratio, the **site area** is taken to be—
- (a) if the proposed development is to be carried out on only one lot, the area of that lot, or
  - (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out.
- In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development.
- (4) **Exclusions from site area** The following land must be excluded from the site area—

- (a) land on which the proposed development is prohibited, whether under this Plan or any other law,
  - (b) community land or a public place (except as provided by subclause (7)).
- (5) **Strata subdivisions** The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation.
- (6) **Only significant development to be included** The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot.
- (7) **Certain public land to be separately considered** For the purpose of applying a floor space ratio to any proposed development on, above or below community land or a public place, the site area must only include an area that is on, above or below that community land or public place, and is occupied or physically affected by the proposed development, and may not include any other area on which the proposed development is to be carried out.
- (8) **Existing buildings** The gross floor area of any existing or proposed buildings within the vertical projection (above or below ground) of the boundaries of a site is to be included in the calculation of the total floor space for the purposes of applying a floor space ratio, whether or not the proposed development relates to all of the buildings.
- (9) **Covenants to prevent “double dipping”** When development consent is granted to development on a site comprised of 2 or more lots, a condition of the consent may require a covenant to be registered that prevents the creation of floor area on a lot (the restricted lot) if the consent authority is satisfied that an equivalent quantity of floor area will be created on another lot only because the site included the restricted lot.
- (10) **Covenants affect consolidated sites** If—
- (a) a covenant of the kind referred to in subclause (9) applies to any land (**affected land**), and
  - (b) proposed development relates to the affected land and other land that together comprise the site of the proposed development,
- the maximum amount of floor area allowed on the other land by the floor space ratio fixed for the site by this Plan is reduced by the quantity of floor space area the covenant prevents being created on the affected land.
- (11) **Definition** In this clause, **public place** has the same meaning as it has in the [Local](#)

*Government Act 1993.*

**4.5A Balconies on certain residential flat buildings**

- (1) The consent authority may exclude the gross floor area of any existing or proposed wind-affected balcony from the calculation of the total floor space for the purposes of applying a floor space ratio if the consent authority is satisfied of the following—
  - (a) the excluded balcony gross floor area does not exceed 15% of the gross floor area of the apartment to which the balcony is attached,
  - (b) the wind-affected balcony is used, or designed to be used, as external open space,
  - (c) the wind-affected balcony has sufficient natural ventilation,
  - (d) the partial enclosure of the wind-affected balcony does not increase the apparent bulk of the building.
- (2) For the purposes of this clause, **wind-affected balcony** means a balcony that is—
  - (a) part of a residential flat building that is over 30 metres high, and
  - (b) above the level of any podium that is, or is required to be, part of the construction of the residential flat building, and
  - (c) partially enclosed.

**4.6 Exceptions to development standards**

- (1) The objectives of this clause are as follows—
  - (a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,
  - (b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.
- (2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.
- (3) Development consent must not be granted for development that contravenes a development standard unless the consent authority has considered a written request from the applicant that seeks to justify the contravention of the development standard by demonstrating—
  - (a) that compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and

- (b) that there are sufficient environmental planning grounds to justify contravening the development standard.
- (4) Development consent must not be granted for development that contravenes a development standard unless—
  - (a) the consent authority is satisfied that—
    - (i) the applicant’s written request has adequately addressed the matters required to be demonstrated by subclause (3), and
    - (ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out, and
  - (b) the concurrence of the Planning Secretary has been obtained.
- (5) In deciding whether to grant concurrence, the Planning Secretary must consider—
  - (a) whether contravention of the development standard raises any matter of significance for State or regional environmental planning, and
  - (b) the public benefit of maintaining the development standard, and
  - (c) any other matters required to be taken into consideration by the Planning Secretary before granting concurrence.
- (6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living if—
  - (a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or
  - (b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.

**Note—**

When this plan was made it did not include land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Rural Small Holdings, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living.

- (7) After determining a development application made pursuant to this clause, the consent authority must keep a record of its assessment of the factors required to be addressed in the applicant’s written request referred to in subclause (3).

- (8) This clause does not allow development consent to be granted for development that would contravene any of the following—
- (a) a development standard for complying development,
  - (b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which *State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004* applies or for the land on which such a building is situated,
  - (c) clause 5.4,
    - (ca) clause 4.3 (Height of buildings), but only in relation to land shown as being in Area 1 or Area 2 on the [Height of Buildings Map](#),
    - (cab) clause 4.5A (Balconies on certain residential flat buildings),

    - (cf) clause 6.18 (Exceptions to sun access planes),
    - (cg) clause 6.19(1)(d)–(h) and (j), unless the additional overshadowing is caused by playground equipment, a shade structure, an awning, a sculpture or artwork, or a community notice or public information sign,
      - (cga) clause 6.26 (AMP Circular Quay precinct),
      - (cgb) clause 6.29 (58–60 Martin Place, Sydney),
      - (cgc) clause 6.33 (230–238 Sussex Street, Sydney),

**Note—**

If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the *Land Acquisition (Just Terms Compensation) Act 1991* requires the authority to acquire the land.

- (2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the [Land Reservation Acquisition Map](#) (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

- (1) The objective of this clause is to enable the Council to classify or reclassify public land as "operational land" or "community land" in accordance with Part 2 of Chapter 6 of the [Local Government Act 1993](#).

**Note—**

Under the [Local Government Act 1993](#), "public land" is generally land vested in or under the control of a council (other than roads and certain Crown land). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the [Local Government Act 1993](#). Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.

- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the [Local Government Act 1993](#).

### **Subdivision 3 Heritage floor space**

#### **6.10 Heritage floor space**

- (1) **Objective** The objective of this clause is to provide an incentive for the conservation and on-going maintenance of heritage buildings within Central Sydney.
- (2) **Creation of heritage floor space** The Council may record in the register an amount of heritage floor space in respect of a person if—
  - (a) the person is the owner or the nominee of the owner of a building that is a heritage item shown marked “\*” in Schedule 5 (a **heritage building**), and
  - (b) the heritage building is on land in Zone B8 Metropolitan Centre, and
  - (c) conservation works have been carried out on the heritage building and have been completed in accordance with a heritage conservation management plan approved for the building by the consent authority, and
  - (d) a covenant is registered that prevents development that increases the total gross floor area of all buildings on the site on which the heritage building is located or that increases the height of the heritage building, and
  - (e) an amount of heritage floor space has not been recorded in the previous 25 years (under this clause or under a similar scheme in force before the commencement of this Plan) in respect of the heritage building, and
  - (f) no other building has utilised floor space that was available to it only because, at

the time the floor space was utilised, the building was on a site that included the heritage building or that included part of the site occupied by the heritage building.

- (3) **Trading heritage floor space** The Council is to reduce the amount of heritage floor space recorded in the register in respect of a person (the **transferor**) and is to record that amount in the register in respect of another person (the **transferee**) as soon as practicable after it becomes satisfied that the heritage floor space has been transferred from the transferor to the transferee.
- (4) **Extinguishing heritage floor space** The Council is to reduce the heritage floor space recorded in the register in respect of a person by an amount if—
- (a) the person notifies the Council in writing that the person has allocated that amount of heritage floor space to a particular site, and

- (5) **Existing heritage floor space** The Council may also record in the register an amount of heritage floor space in respect of a person if, on the commencement of this Plan—
- (a) that amount was recorded in respect of the person in the register maintained under clause 61 of *Sydney Local Environmental Plan 2005*, or
  - (b) the person was eligible to have that amount recorded in that register, but the amount had not yet been so recorded.
- (6) **Exclusion of land from floor space ratio calculations** Despite clause 4.5, land is not to be included as part of a site area for the purposes of calculating a floor space ratio if the land was part of the site of a heritage building and an amount of heritage floor space has been recorded in respect of that site (either under this clause or under a similar scheme in force before the commencement of this Plan).
- (7) In this clause—

**the register** means the register maintained by the Council for the purposes of this clause.

#### **6.11 Utilisation of certain additional floor space requires allocation of heritage floor space**

- (1) Despite any other provision of this Part, development consent must not be granted to development in respect of a building on a site in Central Sydney that utilises any amount of additional floor space specified in paragraph (a), (b) (c), (d) or (e) unless the consent authority is satisfied that an amount of heritage floor space will be allocated to the site (whether because of a condition of consent or otherwise) in accordance with the following relevant paragraphs—

- (a) accommodation floor space in respect of a building (the height of which will exceed 55 metres following the development) on a site in Area 1, 2 or 3—unless an amount of heritage floor space is allocated to the site that is equal to 50% of the accommodation floor space to be utilised,
  - (b) accommodation floor space in respect of a building (the height of which will exceed 55 metres following the development) on a site in Area 4 (but only if the accommodation floor space causes the floor space ratio of the building to be greater than 8:1)—unless an amount of heritage floor space is allocated to the site that is equal to 50% of any accommodation floor space to be utilised,
  - (c) opportunity site floor space—unless an amount of heritage floor space is allocated to the site that is equal to 50% of the opportunity site floor space to be utilised,
  - (d) additional floor space granted by a consent authority under clause 6.21(7)(b) or 6.26(7)(b)—unless an amount of heritage floor space is allocated to the site that is equal to 50% of the additional floor space to be utilised,
  - (e) additional floor space permitted under clause 4.6 in respect of a building on a site that also utilises additional floor space referred to in paragraph (a), (b) (c) or (d)—unless an amount of heritage floor space is allocated to the site that is equal to the additional floor space permitted under that clause.
- (2) The consent authority may reduce the amount of heritage floor space that is required to be allocated to a site under subclause (1) as follows (and in such a case that reduced amount is the amount of heritage floor space that is required to be allocated)—
- (a) if the proposed development is the winner of an architectural design competition carried out in accordance with the City of Sydney Competitive Design Policy—the amount of heritage floor space may be reduced by up to 50% or 1,000 square metres, whichever is the lesser,
  - (b) if the development includes any covered or partially covered pedestrian route through the site at street level and the consent authority is satisfied that the pedestrian route provides a vital and publicly accessible link between 2 streets—the amount of heritage floor space may be reduced by up to 50% or 250 square metres, whichever is the lesser.
  - (c) (Repealed)
- (3) In the case of development that is an alteration or addition to an existing building, the amount of heritage floor space required to be allocated to the site of the building under subclause (1) is to be no more than the difference between—
- (a) the amount of heritage floor space that would be required to be allocated to the site if the building (as altered or added to) were to be constructed as a new

building, and

(b) the amount of heritage floor space that would be required to be allocated to the site if the building (without the alteration or addition) were to be constructed as a new building.

(4) No heritage floor space is required to be allocated in the case of development that is an alteration or addition to an existing building if the development does not increase the gross floor area of the building by more than 100 square metres.

**6.11A Temporary alternative heritage arrangements in relation to allocation of heritage floor space**

(1) This clause applies to development in respect of a building on a site in Central Sydney that utilises additional floor space referred to in clause 6.11 and for which development consent cannot be granted unless heritage floor space will be allocated to the site in accordance with that clause.

(2) If the consent authority is satisfied that the requisite amount of heritage floor space cannot be acquired for allocation to the site on reasonable terms and within a reasonable period, the consent authority may dispense with the requirement for the allocation of heritage floor space, or may reduce the amount of heritage floor space required to be allocated, if—

(a) the consent authority has adopted and published a policy that makes alternative heritage arrangements to the allocation of heritage floor space for the purposes of this Subdivision, and

(b) the consent authority is satisfied that the relevant alternative heritage arrangements have been made in relation to the development (because of a condition of consent or otherwise).

(3) The objective of the policy adopted by the consent authority is the conservation and on-going maintenance of heritage buildings within Central Sydney. The alternative heritage arrangements made by the policy may include the following—

(a) the carrying out of (or the provision of financial or other assistance for the carrying out of) conservation works on those heritage buildings,

(b) the preparation of (or the provision of financial or other assistance for the preparation of) heritage conservation management plans for those heritage buildings.

(4) This clause applies only in relation to an application for development consent that is made before 1 January 2021.

## Division 2 Additional floor space outside Central Sydney

### 6.12 Additional floor space outside Central Sydney

- (a) any community infrastructure floor space under clause 6.14,
- (b) any amount determined by the consent authority under clause 6.21(7)(b),
- (c) any end of journey floor space under clause 6.13.

### 6.13 End of journey floor space

(1) A building on land (other than land in Central Sydney) that is used only for the purposes of commercial premises and that has all of the following facilities together in one area of the building, is eligible for an amount of additional floor space (***end of journey floor space***) equal to the floor space occupied by those facilities—

- (a) showers,
- (b) change rooms,
- (c) lockers,

### 6.14 Community infrastructure floor space at Green Square

(1) The objectives of this clause are as follows—

- (a) to allow greater densities where Green Square community infrastructure is also provided,
- (b) to ensure that such greater densities reflect the desired character of the localities in which they are allowed and minimise adverse impacts on the amenity of those localities,
- (c) to provide for an intensity of development that is commensurate with the capacity of existing and planned infrastructure.

(2) The consent authority may consent to development that results in additional floor space in accordance with subclause (4) if the development includes Green Square community infrastructure.

- (3) In deciding whether to grant development consent, the consent authority—
- (a) must be satisfied that the development is consistent with the objectives of this clause, and
  - (b) must be satisfied that the Green Square community infrastructure is reasonably necessary at Green Square, and
  - (c) must take into account the nature of the Green Square community infrastructure and its value to the Green Square community.
- (4) Under subclause (2), a building on land in an Area specified in paragraph (a), (b), (c), (d), (e) or (f) is eligible for an amount of additional floor space determined by the consent authority but no more than that which may be achieved by applying the floor space ratio specified in the relevant paragraph to the building—

## **Part 7 Local provisions—general**

### **Division 1 Car parking ancillary to other development**

#### **7.1 Objectives and application of Division**

- (1) The objectives of this Division are—
  - (a) to identify the maximum number of car parking spaces that may be provided to service particular uses of land, and
  - (b) to minimise the amount of vehicular traffic generated because of proposed development.
- (2) This Division applies to development for any purpose if car parking spaces are to be provided in relation to that purpose but not if the development is for the purpose of a

car park.

- (3) Nothing in this Division requires a reduction in the number of car parking spaces in an existing building.

## 7.2 Interpretation

- (1) For the purposes of this Division—

**car parking space** means a space intended to be used for the parking of cars that is ancillary to another land use on the site, but does not include any of the following—

- (a) a place primarily used for the purpose of washing vehicles,
- (b) a place primarily used for the purpose of loading or unloading of goods,
- (c) a place primarily used for the purpose of storing bicycles,
- (d) a car parking space in a car park,
- (e) a car parking space for the exclusive use of vehicles belonging to a car share scheme.

**car share scheme** means a scheme in which a body corporate, an unincorporated body or a public authority owns or manages and maintains vehicles for shared or communal use and hires those vehicles exclusively to members of the scheme for occasional use for short periods of time, on demand and on a pay-as-you go basis.

- (2) For the purposes of this Division, land is in Category A, Category B or Category C if it is shown on the [Land Use and Transport Integration Map](#) as being in one of those categories. However, land is taken to be in another of those categories if—
- (a) the land is part of a site that includes land in that other category, and
  - (b) this Division would permit a greater number of car parking spaces if the land were in that other category.
- (3) For the purposes of this Division, land is in Category D, Category E or Category F if it is shown on the [Public Transport Accessibility Level Map](#) as being in one of those categories. However, land is taken to be in another of those categories if—
- (a) the land is part of a site that includes land in that other category, and
  - (b) this Division would permit a greater number of car parking spaces if the land were in that other category.
- (4) More than one provision of this Division may apply in the case of a mixed use development and in such a case—
- (a) the maximum number of car parking spaces is the sum of the number of spaces

permitted under each of those provisions, and

- (b) a reference in those provisions to a building, is taken to be a reference to the parts of the building in which the relevant use occurs.

### **7.3 Car parking spaces not to exceed maximum set out in this Division**

- (1) Development consent must not be granted to development that includes car parking spaces in connection with a proposed use of land if the total number of car parking spaces (including existing car parking spaces) provided on the site would be greater than the maximum set out in this Division.
- (2) If the maximum number of car parking spaces under this Division is not a whole number, the number is to be rounded to the nearest whole number.

### **7.4 Dwelling houses, attached dwellings and semi-detached dwellings**

The maximum number of car parking spaces for dwelling houses, attached dwellings and semi-detached dwellings is as follows—

- (a) for land in category A—1 space for each dwelling,
- (b) for land in category B—2 spaces for each dwelling having more than 2 bedrooms and 1 space for each other dwelling,
- (c) for land in category C—2 spaces for each dwelling.

### **7.5 Residential flat buildings, dual occupancies and multi dwelling housing**

- (1) The maximum number of car parking spaces for residential flat buildings, dual occupancies and multi dwelling housing is as follows—
  - (a) on land in category A—
    - (i) for each studio dwelling—0.1 spaces, and
    - (ii) for each 1 bedroom dwelling—0.3 spaces, and
    - (iii) for each 2 bedroom dwelling—0.7 spaces, and
    - (iv) for each 3 or more bedroom dwelling—1 space,
  - (b) on land in category B—
    - (i) for each studio dwelling—0.2 spaces, and
    - (ii) for each 1 bedroom dwelling—0.4 spaces, and
    - (iii) for each 2 bedroom dwelling—0.8 spaces, and
    - (iv) for each 3 or more bedroom dwelling—1.1 spaces, and

- (v) for each dwelling up to 30 dwellings—0.167 spaces, and
  - (vi) for each dwelling more than 30 and up to 70 dwellings—0.1 spaces, and
  - (vii) for each dwelling more than 70 dwellings—0.05 spaces,
- (c) on land in category C—
- (i) for each studio dwelling—0.4 spaces, and
  - (ii) for each 1 bedroom dwelling—0.5 spaces, and
  - (iii) for each 2 bedroom dwelling—1 space, and
  - (iv) for each 3 or more bedroom dwelling—1.2 spaces, and
  - (v) for each dwelling up to 30 dwellings—0.2 spaces, and
  - (vi) for each dwelling more than 30 and up to 70 dwellings—0.125 spaces, and
  - (vii) for each dwelling more than 70 dwellings—0.067 spaces.
- (2) Development consent must not be granted to development that includes car parking spaces referred to in subclause (1)(b)(v)-(vii) or (c)(v)-(vii) unless the consent authority is satisfied that those car parking spaces will be used for the purposes of providing parking for visitors to the buildings to which those parking spaces relate and not for the purposes of providing parking for any resident of those buildings.

## **7.6 Office premises and business premises**

The maximum number of car parking spaces for a building used for the purposes of office premises or business premises is as follows—
