### **3.8 Implementation of strategic plans** (cf previous s 75AI)

- (1) In preparing a draft district strategic plan, the relevant strategic planning authority is to give effect to any regional strategic plan applying to the region in respect of which the district is part.
- (2) In preparing a planning proposal under section 3.33, the planning proposal authority is to give effect—
  - (a) to any district strategic plan applying to the local government area to which the planning proposal relates (including any adjoining local government area), or
  - (b) if there is no district strategic plan applying to the local government area—to any regional strategic plan applying to the region in respect of which the local government area is part.
- (3) As soon as practicable after a district strategic plan is made, the council for each local government area in the district to which the plan applies must review the local environmental plans for the area and prepare such planning proposals under section 3.33 as are necessary to give effect to the district strategic plan.
- (4) In addition to the requirement under subsection (3), the council for each local government area in the Greater Sydney Region must, on the making of a district strategic plan that applies to that area, report to the Greater Sydney Commission—
  - (a) on the review by the council of the local environmental plans for the area, and
  - (b) on the preparation of planning proposals under section 3.33 to give effect to the district strategic plan.

### **3.9 Local strategic planning statements of councils**

- (1) The council of an area must prepare and make a local strategic planning statement and review the statement at least every 7 years.
- (2) The statement must include or identify the following—
  - (a) the basis for strategic planning in the area, having regard to economic, social and environmental matters,
  - (b) the planning priorities for the area that are consistent with any strategic plan applying to the area and (subject to any such strategic plan) any applicable

community strategic plan under section 402 of the *Local Government Act 1993*,

- (c) the actions required for achieving those planning priorities,
- (d) the basis on which the council is to monitor and report on the implementation of those actions.

(3) The statement for an area that is divided into wards may deal separately with each ward. In that case, the councillors of a ward are to be given a reasonable opportunity to participate in the preparation of the provisions of the statement that deal with the ward and those provisions are required to be—

- (a) endorsed by those councillors as being consistent with the strategic plans referred to in subsection (2)(b) as they relate to the ward, or
- (b) if not so endorsed by those councillors—so endorsed at the request of the council by the relevant strategic planning authority referred to in Division 3.1.

However, the Minister may direct that the endorsement of those provisions is not required in specified circumstances (for example, because of the small number of persons living in the ward).

(3A) The council for an area that is in the Greater Sydney Region must not make a local strategic planning statement unless the Greater Sydney Commission has advised the council in writing that the Commission supports the statement as being consistent with the applicable regional and district strategic plans.

(4) The Planning Secretary may issue requirements with respect to the preparation and making of local strategic planning statements (including requirements with respect to the participation of councillors of a ward and the support of the Greater Sydney Commission if it is required by this section in the preparation of such a statement).

(5) A local strategic planning statement must be published on the NSW planning portal.

**Note—**

See section 3.33(2) in relation to the requirement for the planning proposal for a proposed local environmental plan to address whether the proposal will give effect to the local strategic planning statement.

**3.10 Dispensing with conditions precedent to making strategic plans** (cf previous s 75A)

(1) For the purposes of doing any one or more of the following, a strategic plan may be made without compliance with the conditions precedent under this Act to the making of strategic plans—

- (a) to correct an obvious error or misdescription,
- (b) to make changes that will not have any significant adverse impact on the environment or adjoining land,

(c) to make provision for matters that are, in the opinion of the Minister, of State or regional significance or of significance to a district (but only if the proposed plan has been publicly exhibited for the period determined by the Minister).

(2) The publication of a strategic plan made in reliance on subsection (1) is to contain a statement that it is so made.

### **3.11 Legal proceedings relating to strategic planning** (cf previous s 75AK)

(1) In this section—

**legal proceedings** means proceedings for an order under Division 9.5 or any other kind of legal proceedings (other than criminal proceedings).

(2) Legal proceedings (other than those instituted by or with the approval of the Minister) in relation to the validity of a strategic plan or local strategic planning statement cannot be instituted after the period of 3 months following the publication of the strategic plan or local strategic planning statement on the NSW planning portal.

(3) The only requirement of or made under this Act in relation to a strategic plan or local strategic planning statement is the requirement to publicly exhibit the draft plan or statement.

(4) Nothing in this Division prevents a local environmental plan from being made or invalidates the plan once it is made.

(5) This section applies despite any other provision of this Act or any other Act or law.

### **3.12 Regulations relating to strategic planning** (cf previous s 75AL)

The regulations may make provision for or with respect to the following—

(a) the review of strategic plans or local strategic planning statements,

(b) the appointment and functions of relevant strategic planning authorities for regions other than the Greater Sydney Region,

(c) the form and content of strategic plans or local strategic planning statements (including the standardisation of the provisions of strategic plans or local strategic planning statements),

(d) requirements for the submission of reports and documents relating to the preparation and review of strategic plans or local strategic planning statements,

**3.16 Suspension of laws etc by environmental planning instruments** (cf previous s 28)

- (1) In this section, **regulatory instrument** means any Act (other than this Act), rule, regulation, by-law, ordinance, proclamation, agreement, covenant or instrument by or under whatever authority made.

- (2) For the purpose of enabling development to be carried out in accordance with an environmental planning instrument or in accordance with a consent granted under this Act, an environmental planning instrument may provide that, to the extent necessary to serve that purpose, a regulatory instrument specified in that environmental planning instrument shall not apply to any such development or shall apply subject to the modifications specified in that environmental planning instrument.
- (3) A provision referred to in subsection (2) shall have effect according to its tenor, but only if the Governor has, before the making of the environmental planning instrument, approved of the provision.
- (4) Where a Minister is responsible for the administration of a regulatory instrument referred to in subsection (2), the approval of the Governor for the purposes of subsection (3) shall not be recommended except with the prior concurrence in writing of that Minister.

- (2) Where provision is made in accordance with subsection (1)(b), the instrument may provide that a development application in respect of development specified in the instrument shall not be determined by the granting of consent under this Act, except with the concurrence of such Minister or public authority as is specified in the instrument to the carrying out of the development.
- (3) An environmental planning instrument which makes provision in accordance with subsection (2) shall state the matters which shall be taken into consideration in

deciding whether concurrence should be granted.

(4), (5) (Repealed)

### **3.19 Prohibitions** (cf previous s 31)

Without limiting the generality of section 3.14(1)(b), an environmental planning instrument may provide that development specified therein is prohibited.

### **3.20 Standardisation of environmental planning instruments** (cf previous s 33A)

- (1) The Governor may, by order published on the NSW legislation website, prescribe the standard form and content of local environmental plans or other environmental planning instruments (a **standard instrument**).
- (2) An environmental planning instrument may be made in the form of—
  - (a) a declaration that the applicable mandatory provisions of a standard instrument are adopted, and
  - (b) the prescription of the matters required to be prescribed for the purposes of the application of the mandatory provisions of the standard instrument (such as the adoption of land zoning or other maps), and
  - (c) the prescription of any other matters permitted to be prescribed by an environmental planning instrument, including non-mandatory provisions of the standard instrument (with or without modification) or additional provisions.
- (3) When an environmental planning instrument is made with such a declaration, the instrument has the form and content of the applicable mandatory provisions of the standard instrument and the matters so prescribed.
- (4) If the mandatory provisions of a standard instrument so adopted are amended by a further order under subsection (1) or by an Act after they are adopted, the environmental planning instrument is taken (without further amendment) to adopt the amended provisions of the standard instrument on and from the date the amendment to the standard instrument takes effect.
- (5) The order that amends a standard instrument may make provision of a savings or transitional nature consequent on the amendment of the standard instrument.
- (6) Where a standard instrument has been adopted, the provisions of the environmental planning instrument (other than the mandatory provisions of the adopted standard instrument) may be amended from time to time by another environmental planning instrument or in accordance with any Act.
- (7) A standard instrument may—
  - (a) provide that a provision is a mandatory provision only in the circumstances

specified in the instrument, and

- (b) contain requirements or guidance as to the form or content of a non-mandatory provision.
- (8) The adoption of the provisions of a standard instrument in an environmental planning instrument is taken to be a matter of State environmental planning significance for the purposes of this Act.
- (8A) An environmental planning instrument may be made under this Part without compliance with the provisions of this Act relating to the conditions precedent to the making of the instrument if—
- (a) the instrument adopts the provisions of a standard instrument for the purposes of replacing instruments that apply to the land concerned (being existing instruments that do not adopt the provisions of a standard instrument), and
  - (b) the Minister is of the opinion that the replacement instrument does not make any substantial changes to the general effect of the existing instrument or instruments.
- (9) Subject to this Act and the regulations, the form and subject-matter of an environmental planning instrument is (if there is no applicable standard instrument) to be as determined by the Minister.
- (10) In this section—
- form** includes structure.

### **3.21 Review of environmental planning instruments** (cf previous s 73)

- (1) The Planning Secretary shall keep State environmental planning policies and councils shall keep their local environmental plans and development control plans under regular and periodic review for the purpose of ensuring that the objects of this Act are, having regard to such changing circumstances as may be relevant, achieved to the maximum extent possible.
- (2) Every 5 years following such a review, the Planning Secretary is to determine whether relevant State environmental planning policies should be updated and a council is to determine whether relevant local environmental plans should be updated.

### **3.22 Expedited amendments of environmental planning instruments** (cf previous s 73A)

- (1) An amending environmental planning instrument may be made under this Part without compliance with the provisions of this Act relating to the conditions precedent to the making of the instrument if the instrument, if made, would amend or repeal a provision of a principal instrument in order to do any one or more of the following—

- (a) correct an obvious error in the principal instrument consisting of a misdescription, the inconsistent numbering of provisions, a wrong cross-reference, a spelling error, a grammatical mistake, the insertion of obviously missing words, the removal of obviously unnecessary words or a formatting error,
- (b) address matters in the principal instrument that are of a consequential, transitional, machinery or other minor nature,
- (c) deal with matters that the Minister considers do not warrant compliance with the conditions precedent for the making of the instrument because they will not have any significant adverse impact on the environment or adjoining land.

(2) A reference in this section to an amendment of an instrument includes a reference to the amendment or replacement of a map adopted by an instrument.

**3.23 Public access to environmental planning instruments and related documents** (cf previous s 33C)

For the purpose of facilitating electronic or other public access to environmental planning instruments and any development control plans, contributions plans or other documents under this Act—

- (a) the Minister may determine standard technical requirements with respect to the preparation of those instruments, plans or other documents and of the maps or other documents that are referred to in (or adopted under) them, and
- (b) a council is to provide the Planning Secretary, when requested, with copies and electronic files (in a specified format) of any such instruments, plans, maps or other documents prepared or held by the council.

**3.24 Publication, amendment and repeal of environmental planning instruments** (cf previous s 34)

(1)–(4) (Repealed)

(5) An environmental planning instrument shall—

- (a) be published on the NSW legislation website, and
- (b) commence on and from the date of publication or a later date specified in the instrument.

(5A) Subsection (5) does not prevent an environmental planning instrument from specifying different days for the commencement of different provisions of the instrument.

(5B) Neither the whole nor any part of an environmental planning instrument is invalid merely because the instrument is published on the NSW legislation website after the day on which one or more of its provisions is expressed to commence. In that case,

the provisions concerned commence on and from the day the instrument is published on the NSW legislation website, instead of on and from the earlier day.

(6)–(8) (Repealed)

(9) An environmental planning instrument shall be deemed to have been published on the NSW legislation website notwithstanding that any planning map or other instrument or material referred to, embodied or incorporated in the environmental planning instrument is not so published.

(10) (Repealed)

(11) An environmental planning instrument may be amended or repealed by a subsequent environmental planning instrument, whether of the same or a different type.

**Note—**

An environmental planning instrument is an instrument for the purposes of the [Interpretation Act 1987](#), and accordingly standard provisions under that Act applying to statutory instruments apply to environmental planning instruments.

**3.25 Special consultation procedures concerning threatened species** (cf previous s 34A)

(1) In this section, the **relevant authority** means—

(a) in the case of a proposed SEPP—the Planning Secretary, or

(2) Before an environmental planning instrument is made, the relevant authority must consult with the Chief Executive of the Office of Environment and Heritage if, in the opinion of the relevant authority, critical habitat or threatened species, populations or ecological communities, or their habitats, will or may be adversely affected by the proposed instrument.

(3) For the purposes of the consultation, the relevant authority is to provide such information about the proposed instrument as would assist in understanding its effect (including information of the kind prescribed by the regulations).

(4) The consultation in relation to a proposed local environmental plan is to commence after a decision under section 3.34 (Gateway determination) that the matter should proceed, unless the regulations otherwise provide.

(5) The Chief Executive of the Office of Environment and Heritage may comment to the relevant authority on the proposed instrument within the following period after the consultation commences—

(a) the period agreed between the Chief Executive and the relevant authority,

(b) in the absence of any such agreement, the period of 21 days or such other period as is prescribed by the regulations.

- (6) The consultation required by this section is completed when the relevant authority has considered any comments so made.
- (7) In this section, a reference to the Chief Executive of the Office of Environment and Heritage includes, in the application of this section to fish and marine vegetation, a reference to the Secretary of the Department of Industry, Skills and Regional Development.

### **3.26 Special provision for development in Sydney water catchment relating to water quality** (cf previous s 34B)

- (1) In this section, **Sydney drinking water catchment** means a declared catchment area (within the meaning of the [Water NSW Act 2014](#)) that is declared by a State environmental planning policy to be the Sydney drinking water catchment.
- (2) Provision is to be made in a State Environmental Planning Policy requiring a consent authority to refuse to grant consent to a development application relating to any part of the Sydney drinking water catchment unless the consent authority is satisfied that the carrying out of the proposed development would have a neutral or beneficial effect on the quality of water.
- (2A) A State environmental planning policy that requires proposed development to have a neutral or beneficial effect on the quality of water may deal with the application of that test in the case of proposed development that extends or expands existing development.
- (3) (Repealed)
- (4) The Minister is not to recommend the making of a State Environmental Planning Policy that relates to the declaration of the Sydney drinking water catchment unless—
- (a) the Minister administering the [Water NSW Act 2014](#) approves of the declaration, and
- (b) the Minister administering the [Protection of the Environment Operations Act 1997](#) has been consulted about the declaration.

### **3.27 Validity of instruments** (cf previous s 35)

The validity of an environmental planning instrument shall not be questioned in any legal proceedings except those commenced in the Court by any person within 3 months of the date of its publication on the NSW legislation website.

**3.28 Inconsistency between instruments** (cf previous s 36)

- (1) In the event of an inconsistency between environmental planning instruments and unless otherwise provided—
  - (a) there is a general presumption that a State environmental planning policy prevails over a local environmental plan or other instrument made before or after that State environmental planning policy, and
  - (b) (Repealed)
  - (c) the general presumptions of the law as to when an Act prevails over another Act apply to when one kind of environmental planning instrument prevails over another environmental planning instrument of the same kind.
- (2), (3) (Repealed)
- (4) Nothing in this section prevents an environmental planning instrument from being expressly amended by a later environmental planning instrument, of the same or a different kind, to provide for the way in which an inconsistency between them is to be resolved.

**Division 3.3 Environmental planning instruments—SEPPs**

**3.29 Governor may make environmental planning instruments (SEPPs)** (cf previous s 37)

- (1) The Governor may make environmental planning instruments for the purpose of environmental planning by the State. Any such instrument may be called a State environmental planning policy (or SEPP).
- (2) Without limiting subsection (1), an environmental planning instrument may be made by the Governor to make provision with respect to any matter that, in the opinion of the Minister, is of State or regional environmental planning significance or of environmental planning significance to a district within the meaning of Division 3.1.

**3.30 Consultation requirements** (cf previous s 38)

- (1) Before recommending the making of an environmental planning instrument by the Governor, the Minister is to take such steps, if any, as the Minister considers appropriate or necessary—

  - (b) to seek and consider submissions from the public on the matter.
- (2) Before recommending the making of an environmental planning instrument by the Governor, the Minister must consult with the Greater Sydney Commission if—

**Note—**

See also section 3.25.

## **Division 3.4 Environmental planning instruments—LEPs**

### **3.31 Making of environmental planning instruments for local areas (LEPs)** (cf previous ss 53, 53A)

- (1) A local plan-making authority may make environmental planning instruments for the purpose of environmental planning—
  - (a) in each local government area, and
  - (b) in such other areas of the State (including the coastal waters of the State) as the local plan-making authority determines.

consequential on changes made to a standard instrument under section 3.20,

- (c) the Planning Secretary, the Independent Planning Commission or a Sydney district or regional planning panel has recommended that the proposed instrument should be submitted for a determination under section 3.34 (Gateway determination) or that the proposed instrument should be made,
  - (d) the council for the local government area concerned has, in the opinion of the Minister, failed to comply with its obligations with respect to the making of the proposed instrument or has not carried out those obligations in a satisfactory manner,
  - (e) the proposed instrument is to apply to an area that is not within a local government area.
- (3) A planning proposal authority that is requested by the owner of any land to exercise its functions under this Division in relation to the land may, as a condition of doing so, require the owner to carry out studies or provide other information concerning the proposal or to pay the costs of the authority in accordance with the regulations.
  - (4) The Minister may, in a direction under this section, require a council to provide studies or other information in its possession relating to the proposed instrument to the person or body specified in the direction as the planning proposal authority for the proposed instrument.
  - (5) Two or more relevant local authorities may together exercise the functions under this Division of a planning proposal authority in connection with the making of a single principal or amending instrument in relation to the whole of their combined areas.
  - (6) A reference in this section to a local government area includes a reference to an adjoining area that is not within a local government area and that is designated as part of that local government area for the purposes of this Division by a Ministerial planning order.

**3.33 Planning proposal authority to prepare explanation of and justification for proposed instrument—the planning proposal** (cf previous s 55)

- (1) Before an environmental planning instrument is made under this Division, the planning proposal authority is required to prepare a document that explains the intended effect of the proposed instrument and sets out the justification for making the proposed instrument (the **planning proposal**).
- (2) The planning proposal is to include the following—
  - (a) a statement of the objectives or intended outcomes of the proposed instrument,
  - (b) an explanation of the provisions that are to be included in the proposed instrument,

- (c) the justification for those objectives, outcomes and provisions and the process for their implementation (including whether the proposed instrument will give effect to the local strategic planning statement of the council of the area and will comply with relevant directions under section 9.1),
  - (d) if maps are to be adopted by the proposed instrument, such as maps for proposed land use zones; heritage areas; flood prone land—a version of the maps containing sufficient detail to indicate the substantive effect of the proposed instrument,
  - (e) details of the community consultation that is to be undertaken before consideration is given to the making of the proposed instrument.
- (3) The Planning Secretary may issue requirements with respect to the preparation of a planning proposal.

**3.34 Gateway determination** (cf previous s 56)

- (1) After preparing a planning proposal, the planning proposal authority may forward it to the Minister.
- (2) After a review of the planning proposal, the Minister is to determine the following—

  - (b) whether the matter should be resubmitted for any reason (including for further studies or other information, or for the revision of the planning proposal),
  - (c) the minimum period of public exhibition of the planning proposal (or a determination that no such public exhibition is required because of the minor nature of the proposal),

**Note—**

Under Schedule 1, the mandatory period of public exhibition is 28 days if a determination is not made under paragraph (c).

- (d) any consultation required with State or Commonwealth public authorities that will or may be adversely affected by the proposed instrument,
  - (e) whether a public hearing is to be held into the matter by the Independent Planning Commission or other specified person or body,
  - (f) the times within which the various stages of the procedure for the making of the proposed instrument are to be completed,
  - (g) if the planning proposal authority is a council—whether the council is authorised to make the proposed instrument and any conditions the council is required to comply with before the instrument is made.
- (3) A determination of the community consultation requirements includes a determination

under section 3.22 (or other provision of this Act) that the matter does not require community consultation.

- (3A) Before making a determination under subsection (2), the Minister must refer the planning proposal to the Greater Sydney Commission if—
- (a) the proposal relates to land within the Greater Sydney Region, and
  - (b) the Minister is of the opinion that the proposal is likely to significantly affect the implementation of a strategic plan affecting that Region.
- (3B) On referral of a proposal, the Greater Sydney Commission must, within the period specified by the Minister, advise the Minister as to whether or not the Commission supports the planning proposal.
- (4) The regulations may provide for the categorisation of planning proposals for the purposes of this section, and may prescribe standard community consultation requirements for each such category.
- (5) The Minister may arrange for the review of a planning proposal (or part of a planning proposal) under this section to be conducted by, or with the assistance of, the Independent Planning Commission or a Sydney district or regional planning panel—
- (a) if there has been any delay in the matter being finalised, or
  - (b) if for any other reason the Minister considers it appropriate to do so.
- (6) The planning proposal authority may, at any time, forward a revised planning proposal to the Minister.
- (7) The Minister may, at any time, alter a determination made under this section.
- (8) A failure to comply with a requirement of a determination under this section in relation to a proposed instrument does not prevent the instrument from being made or invalidate the instrument once it is made. However, if community consultation is required under Schedule 1, the instrument is not to be made unless the community has been given an opportunity to make submissions and the submissions have been considered under that Schedule.

**3.35 Planning proposal authority may vary proposals or not proceed** (cf previous s 58)

- (1) The planning proposal authority may, at any time, vary its proposals as a consequence of its consideration of any submission or report during community consultation or for any other reason.
- (2) If it does so, the planning proposal authority is to forward a revised planning proposal to the Minister.
- (3) Further community consultation under Schedule 1 is not required unless the Minister

so directs in a revised determination under section 3.34.

- (4) The planning proposal authority may also, at any time, request the Minister to determine that the matter not proceed.

**3.36 Making of local environmental plan by local plan-making authority** (cf previous s 59)

- (1) The Planning Secretary is to make arrangements for the drafting of any required local environmental plan to give effect to the final proposals of the planning proposal authority. The Planning Secretary is to consult the planning proposal authority, in accordance with the regulations, on the terms of any such draft instrument.
- (2) The local plan-making authority may, following completion of community consultation—
  - (a) make a local environmental plan (with or without variation of the proposals submitted by the planning proposal authority) in the terms the local plan-making authority considers appropriate, or
  - (b) decide not to make the proposed local environmental plan.
- (3) The local plan-making authority may defer the inclusion of a matter in a proposed local environmental plan.
- (4) If the local plan-making authority does not make the proposed local environmental plan or defers the inclusion of a matter in a proposed local environmental plan, the local plan-making authority may specify which procedures under this Division the planning proposal authority must comply with before the matter is reconsidered by the local plan-making authority.

**3.37 Regulations** (cf previous s 60)

The regulations may make further provision with respect to the making of environmental planning instruments under this Division, including—

- (a) requirements with respect to consultation about proposed instruments by a planning proposal authority with particular persons or bodies, and
- (b) requirements with respect to planning proposals and the submission of other related reports and documents, and
- (c) requirements with respect to advertising in connection with community consultation on proposed instruments, and
- (d) provisions relating to consultation by the Planning Secretary with relevant planning authorities and others on the drafting of proposed instruments, and
- (e) requirements for concurrence of public authorities in relation to the reservation of land for a purpose referred to in section 3.14(1)(c).

**Note—**

The *Interpretation Act 1987* applies to environmental planning instruments.

## **Division 3.5 Planning instrument amendments and development applications**

### **3.38 Application of Division** (cf previous s 72I)

- (1) This Division applies if a development application is made to a consent authority for consent to carry out development that may only be carried out if an environmental planning instrument applying to the land on which the development is proposed to be carried out is appropriately amended.
- (2) (Repealed)
- (3) A reference in this Division to the appropriate amendment of an environmental planning instrument includes a reference to the making of an appropriate principal environmental planning instrument.

### **3.39 Making and consideration of certain development applications** (cf previous s 72J)

Nothing in this Act prevents—

- (a) the making of a development application to a consent authority for consent to carry out development that may only be carried out if an environmental planning instrument applying to the land on which the development is proposed to be carried out is appropriately amended, or
- (b) the consideration by a consent authority of such a development application, subject to this Division.

### **3.40 Joint exhibition of instrument and advertising of application** (cf previous s 72K)

- (1) Public notice that is required to be given under this Act in connection with the making of a proposed environmental planning instrument and notice that is required to be given under this Act of a development application in circumstances where this Division applies are to be given by the same notice if that is practicable or, if that is not practicable, as closely together as is practicable.
- (2) The period during which the public may inspect the documents relating to the proposed environmental planning instrument and the development application the subject of the same notice, if those periods are different, is to be the longer of them.
- (3) If the proposed environmental planning instrument makes the development the subject of the development application State significant development or designated development, the period for public inspection of the development application that is to be relevant in determining the period for public inspection under subsection (2) is the

period relevant to the inspection of a development application for State significant development or designated development.

### **Division 3.6 Development control plans (DCPs)**

#### **3.41 Definition (DCPs)** (cf previous s 74B)

(1) In this Division—

**relevant planning authority**, in relation to any matter, means the council of the area to which the matter relates or the Planning Secretary. However, the council is not the relevant planning authority in relation to a SEPP and the Planning Secretary is not the relevant planning authority in relation to a LEP for which a council is the planning proposal authority under Division 3.4.

(2) A reference in this Division to an environmental planning instrument includes a reference to any such proposed instrument.

#### **3.42 Purpose and status of development control plans** (cf previous s 74BA)

(1) The principal purpose of a development control plan is to provide guidance on the following matters to the persons proposing to carry out development to which this Part applies and to the consent authority for any such development—

- (a) giving effect to the aims of any environmental planning instrument that applies to the development,
- (b) facilitating development that is permissible under any such instrument,
- (c) achieving the objectives of land zones under any such instrument.

The provisions of a development control plan made for that purpose are not statutory requirements.

(2) The other purpose of a development control plan is to make provisions of the kind referred to in section 3.43(1)(b)–(e).

(3) Subsection (1) does not affect any requirement under Division 4.5 in relation to complying development.

#### **3.43 Preparation of development control plans** (cf previous s 74C)

(1) The relevant planning authority may prepare a development control plan (or cause such a plan to be prepared) if it considers it necessary or desirable—

- (a) to provide the guidance referred to in section 3.42(1), or
- (b) (Repealed)
- (c) to provide for (or exclude) public or particular advertising or notification of any of

the following—

- (i) a development application for specified development (other than State significant development or designated development),
  - (ii) a request for the review of a determination of a development application where the applicant for review makes amendments to the development described in the original development application,
  - (iii) an application for the modification of a development consent for specified development (but not State significant development or designated development), or
  - (iv) (Repealed)
- (d) in the case of a council—to specify criteria (in addition to but not inconsistent with any criteria prescribed by the regulations) that the council is to take into consideration in determining whether or not to give a development control order, or
- (e) to make provision for anything permitted by this Act to be prescribed by a development control plan.

**Note—**

See for example section 3.14(4)(a).

- (2) Only one development control plan made by the same relevant planning authority may apply in respect of the same land. This subsection does not apply to—
- (a) a plan prepared for the purposes of subsection (1)(d) or for any other purpose prescribed by the regulations, or
  - (b) a plan prepared for the purpose of amending an existing plan.

If this subsection is not complied with, all the development control plans concerned have no effect.

**Note—**

A planning authority may prepare one development control plan for the whole of its area or one plan for each precinct or locality in its area, or prepare one plan for a site (and exclude that site from the area to which other plans apply).

- (3) A development control plan may adopt by reference the provisions of another development control plan.
- (4) A development control plan may amend, substitute or revoke another development control plan.

- (5) A provision of a development control plan (whenever made) has no effect to the extent that—
- (a) it is the same or substantially the same as a provision of an environmental planning instrument applying to the same land, or
  - (b) it is inconsistent or incompatible with a provision of any such instrument.

**3.44 Development control plans required or authorised by environmental planning instruments** (cf previous s 74D)

- (1) An environmental planning instrument may require or permit a development control plan to be prepared before any particular development or kind of development may be carried out (and make provision with respect to the preparation and content of any such plan).
- (2) Any such development control plan may outline the development of all the land to which it applies.
- (3) Any such development control plan may be prepared (and submitted to the relevant planning authority) by the owners of the land to which it applies or by such percentage of those owners as the environmental planning instrument concerned allows. A person authorised by those owners may act on their behalf for the purposes of this subsection.
- (4) The relevant planning authority may make a development control plan submitted to it under this section, including with such changes as it thinks fit.
- (5) If the relevant planning authority refuses to make a development control plan submitted to it under this section (or delays by more than 60 days to make a decision on whether to make the plan)—
- (a) the owners may make a development application despite the requirement of the environmental planning instrument concerned for the preparation of a development control plan, or
  - (b) the Minister may act in the place of the relevant planning authority to make the plan (with or without modification), but only if the environmental planning instrument concerned authorises the Minister to do so.
- (6) The regulations may extend the period of 60 days referred to in subsection (5) in connection with any failure by the owners to provide further information required by the relevant planning authority for the purposes of making the plan.

**Note—**

Section 4.23 provides that a concept development application may be made for development requiring consent under Part 4 as an alternative to a development control plan required by an environmental planning instrument.

**3.45 Miscellaneous provisions relating to development control plans** (cf previous s 74E)

- (1) The regulations may make provision for or with respect to development control plans, including—
  - (a) the form, structure and subject-matter of development control plans, and
  - (b) the procedures for the preparation, public exhibition, making, amendment and repeal of development control plans, and
  - (c) the fees payable to the relevant planning authority by owners submitting draft development control plans under section 3.44.
- (2) (Repealed)
- (2A) Regulations relating to the form, structure and subject-matter of development control plans may require the standardisation of those plans and, for that purpose, authorise the Minister to publish requirements as to their form, structure and subject-matter that are to be complied with by relevant planning authorities.
- (3) An environmental planning instrument may exclude or modify the application of development control plans in respect of land to which the instrument applies (whether the plan was prepared before or after the making of the instrument).
- (4) A development control plan must be available for public inspection (without charge)—
  - (a) at the principal office of the relevant planning authority that prepared the plan, and
  - (b) in such other manner as is prescribed by the regulations.

**3.46 Minister may direct councils with respect to development control plans** (cf previous s 74F)

- (1) The Minister may, subject to the regulations (if any), direct a council to make, amend or revoke a development control plan in the time and manner specified in the direction.
- (2) A council to which a direction is given under this section must comply with the direction in accordance with its terms.
- (3) If a council fails to comply with a direction of the Minister under this section, the Minister may make, amend or revoke the development control plan as if the Minister were the council.
- (4) A development control plan made, amended or revoked by the Minister under this section has effect, or ceases to have effect as the case may be, as if it were made, amended or revoked by the council.

(5) The Minister in making, amending or revoking a development control plan under this section is not subject to the regulations.

(6) Section 3.43(2) does not apply to development control plan made by or at the direction of the Minister under this section.

## **Part 4 Development assessment and consent**

### **Division 4.1 Carrying out of development—with consent, without consent and prohibited**

#### **4.1 Development that does not need consent** (cf previous s 76)

(1) **General** If an environmental planning instrument provides that specified development may be carried out without the need for development consent, a person may carry the development out, in accordance with the instrument, on land to which the provision applies.

**Note—**

Environmental assessment of the development may nevertheless be required under Division 5.1.

(2), (3) (Repealed)

#### **4.2 Development that needs consent** (cf previous s 76A)

(1) **General** If an environmental planning instrument provides that specified development may not be carried out except with development consent, a person must not carry the development out on land to which the provision applies unless—

(a) such a consent has been obtained and is in force, and

(b) the development is carried out in accordance with the consent and the instrument.

Maximum penalty—Tier 1 monetary penalty.

(2) For the purposes of subsection (1), development consent may be obtained—

(a) by the making of a determination by a consent authority to grant development consent, or

(b) in the case of complying development, by the issue of a complying development certificate.

(3), (4) (Repealed)

(5) **Complying development** An environmental planning instrument may provide that development, or a class of development, that can be addressed by specified predetermined development standards is complying development.

(6)–(9) (Repealed)

**Note—**

Division 4.7 makes provision with respect to State significant development.

**4.3 Development that is prohibited** (cf previous s 76B)

If an environmental planning instrument provides that—

- (a) specified development is prohibited on land to which the provision applies, or
  - (b) development cannot be carried out on land with or without development consent,
- a person must not carry out the development on the land.

Maximum penalty—Tier 1 monetary penalty.

**4.4 Relationship of this Division to this Act** (cf previous s 76C)

This Division is subject to the other provisions of this Act, unless express provision is made to the contrary.

**Division 4.2 Consent authority**

**4.5 Designation of consent authority**

For the purposes of this Act, the **consent authority** is as follows—

- (a) in the case of State significant development—the Independent Planning Commission (if the development is of a kind for which the Commission is declared the consent authority by an environmental planning instrument) or the Minister (if the development is not of that kind),
- (b) in the case of development of a kind that is declared by an environmental planning instrument as regionally significant development—the Sydney district or regional planning panel for the area in which the development is to be carried out,
- (c) in the case of development of a kind that is declared by an environmental planning instrument as development for which a public authority (other than a council) is the consent authority—that public authority,
- (d) in the case of any other development—the council of the area in which the development is to be carried out.

**4.6 Provisions relating to Independent Planning Commission**

The following consent authority functions of the Independent Planning Commission are to be exercised by the Planning Secretary on behalf of the Commission—

- (a) receiving development applications and determining and receiving fees for the

applications,

- (b) undertaking assessments of the proposed development and providing them to the Commission (but without limiting the assessments that the Commission may undertake),
- (c) obtaining any concurrence, and undertaking any consultation, that the consent authority is required to obtain or undertake,
- (d) carrying out the community participation requirements of Division 2.6,
- (e) notifying or registering the determinations of the Commission,
- (f) the functions under section 4.17 in relation to the provision of security,
- (g) the determination of applications to extend the period before consents lapse,
- (h) any other function prescribed by the regulations.

#### **4.7 Provisions relating to Sydney district or regional planning panels**

- (1) Development of the following kind cannot be declared as regionally significant development for which a Sydney district or regional planning panel is the consent authority—
  - (a) complying development,
  - (b) development for which development consent is not required,
  - (c) development that is State significant development,
  - (d) development for which a person or body other than a council is the consent authority,
  - (e) development within the City of Sydney.
- (2) The following consent authority functions of a Sydney district or regional planning panel are to be exercised on behalf of the panel by the council of the area in which the proposed development is to be carried out—
  - (a) receiving development applications and determining and receiving fees for the applications,
  - (b) undertaking assessments of the proposed development and providing them to the panel (but without limiting the assessments that the panel may undertake),
  - (c) obtaining any concurrence, and undertaking any consultation, that the consent authority is required to obtain or undertake,
  - (d) carrying out the community participation requirements of Division 2.6,

- (e) notifying or registering the determinations of the panel,
- (f) the functions under section 4.17 in relation to the provision of security,
- (g) the determination of applications to extend the period before consents lapse,
- (h) any other function prescribed by the regulations.

**4.8 Exercise of consent authority functions on behalf of councils where local planning panel constituted** (cf previous s 23I)

- (1) This section applies in respect of an area of a council for which a local planning panel has been constituted.
- (2) The functions of a council as a consent authority in respect of any such area are not exercisable by the councillors. They are exercisable on behalf of the council by—
  - (a) the local planning panel, or
  - (b) an officer or employee of the council to whom the council delegates those functions.
- (3) The Minister may give directions to councils under section 9.1 (either to particular councils or to councils generally) on the development applications that are to be determined on behalf of the council by a local planning panel.
- (4) For the purposes of this section, the functions of a council as consent authority include—
  - (a) the determination of development applications, and
  - (b) without limiting paragraph (a), the functions of a consent authority under Divisions 4.3 and 4.4 and sections 4.34, 4.54(2), 4.56(2), 4.57, 7.7, 7.11, 7.12, 7.13, 7.14, 7.15, 7.24 and 7.32, and
  - (c) the functions of a consent authority or council under this Act or any other Act that relate to the carrying out of development (including the making of development applications) and that are declared by the regulations to be functions of a council as consent authority,but do not include the functions of a consent authority or council that the regulations declare are not the functions of a council as consent authority.
- (5) In this section, **development applications** includes applications to modify development consents.

**Division 4.3 Development that needs consent (except complying development)**

#### **4.9 Application of Division** (cf previous s 77)

This Division—

- (a) applies to development that may not be carried out except with development consent, but
- (b) does not apply to complying development.

**Note—**

Under this Part, the procedures by which development consent is obtained differ according to whether the development—

- (a) is or is not State significant development, and
- (b) is or is not designated development (which it may be declared to be by an environmental planning instrument or the regulations), and
- (c) is or is not integrated development (see Division 4.8).

#### **4.10 Designated development** (cf previous s 77A)

- (1) Designated development is development that is declared to be designated development by an environmental planning instrument or the regulations.
- (2) Designated development does not include State significant development despite any such declaration.

#### **4.11 The development consent process—the main steps** (cf previous s 78)

The main steps in the development consent process are set out in sections 4.12–4.18 and in the regulations made for the purposes of this Part.

#### **4.12 Application** (cf previous s 78A)

- (1) A person may, subject to the regulations, apply to a consent authority for consent to carry out development.

**Note—**

Section 380AA of the *Mining Act 1992* provides that an application for development consent to mine for coal can only be made by or with the consent of the holder of an authority under that Act in respect of coal and the land concerned.

- (2) A single application may be made in respect of one or more of the types of development referred to in paragraphs (a)–(f) of the definition of **development** in section 1.5(1).
- (3) If the consent authority is a council, a person (other than the Crown or a person acting on behalf of the Crown) may, in the same development application, apply for development consent and approval for anything that requires approval under the following provisions of the Table to section 68 of the *Local Government Act 1993*,

namely—

paragraph 1 of Part A

paragraph 1-6 of Part B

paragraph 1-5 of Part C

paragraph 1 of Part E

paragraph 1-5 or 10 of Part F.

- (4) In determining a development application to which subsection (3) applies, the council may apply any of the provisions of or under the *Local Government Act 1993* that it could apply if the development application were an application under that Act for the relevant approval. In particular, if development consent is granted, the council may impose a condition that is authorised under that Act to be imposed as a condition of an approval.
- (5) If development consent is granted to a development application to which subsection (3) applies, the council is taken to have granted the relevant approval under the *Local Government Act 1993* that authorises the activity, but that Act has no application to the approval so taken to have been granted.
- (6) In granting development consent to a development application to which subsection (3) applies, the council may, without limiting any other condition it may impose, impose, in relation to the approval taken to have been granted under the *Local Government Act 1993*, either or both of the following conditions—
- (a) a condition that the approval is granted only to the applicant and does not attach to or run with the land to which it applies,
- (b) a condition that the approval is granted for a specified time.
- (6A) A reference to a council in subsections (3)–(6) includes a reference to a Sydney district or regional planning panel, or a local planning panel or delegate, that has the function of determining the development application.
- (7) A development application cannot be made in respect of land that is, or is part of, a wilderness area (within the meaning of the *Wilderness Act 1987*) unless any consent to the development required under that Act has been obtained.
- (8) A development application for State significant development or designated development is to be accompanied by an environmental impact statement prepared by or on behalf of the applicant in the form prescribed by the regulations.
- (8A) (Repealed)

- (9) The regulations may specify other things that are required to be submitted with a development application.

**4.13 Consultation and concurrence** (cf previous s 79B)

- (1) **General** If, by an environmental planning instrument, the consent authority, before determining the development application, is required to consult with or to obtain the concurrence of a person, the consent authority must, in accordance with the environmental planning instrument and the regulations, consult with or obtain the concurrence of the person, unless the consent authority determines to refuse to grant development consent.

**Note—**

See also section 48 of the *Dams Safety Act 2015* which requires the consent authority, before granting development consent for carrying out mining operations in a notification area declared under that section, to refer the application to Dams Safety NSW and to take into consideration any matters raised by Dams Safety NSW.

- (2) However, if, by an environmental planning instrument, the Minister, before determining a development application, is required to obtain the concurrence of a person, the Minister is required only to consult with the person.
- (2A) **State significant development—exclusion** This section does not apply to State significant development unless the requirement of an environmental planning instrument for consultation or concurrence specifies that it applies to State significant development.
- (3)–(7) (Repealed)
- (8) **Granting or refusal of concurrence** A person whose concurrence to development is required may—
- (a) grant concurrence to the development, either unconditionally or subject to conditions, or
  - (b) refuse concurrence to the development.

In deciding whether to grant concurrence, the person must take into consideration only the matters stated pursuant to section 3.18(3) and applicable to the development.

- (8A), (8B) (Repealed)

- (9) **Giving effect to concurrence** A consent authority that grants consent to the carrying out of development for which a concurrence has been granted must grant the consent subject to any conditions of the concurrence. This does not affect the right of the consent authority to impose conditions under section 4.17 not inconsistent with the conditions of the concurrence or to refuse consent.

(10) **Avoidance of consents subject to concurrence** If, by an environmental planning instrument, a development application may not be determined by the granting of consent without the concurrence of a specified person, a consent granted—

(a) without that concurrence, or

(b) not subject to any conditions of the concurrence,

is, subject to sections 4.60–4.62, voidable.

(11) However, if the specified person fails to inform the consent authority of the decision concerning concurrence within the time allowed for doing so, the consent authority may determine the development application without the concurrence of the specified person and a development consent so granted is not voidable on that ground.

(12) Nothing in this section affects any liability of a consent authority in respect of a consent granted as referred to in subsection (10)(a) or (b).

**4.14 Consultation and development consent—certain bush fire prone land** (cf previous s 79BA)

(1) Development consent cannot be granted for the carrying out of development for any purpose (other than a subdivision of land that could lawfully be used for residential or rural residential purposes or development for a special fire protection purpose) on bush fire prone land (being land for the time being recorded as bush fire prone land on a relevant map certified under section 10.3(2)) unless the consent authority—

(a) is satisfied that the development conforms to the specifications and requirements of the version (as prescribed by the regulations) of the document entitled *Planning for Bush Fire Protection* prepared by the NSW Rural Fire Service in co-operation with the Department (or, if another document is prescribed by the regulations for the purposes of this paragraph, that document) that are relevant to the development (***the relevant specifications and requirements***), or

(b) has been provided with a certificate by a person who is recognised by the NSW Rural Fire Service as a qualified consultant in bush fire risk assessment stating that the development conforms to the relevant specifications and requirements.

(1A) If the consent authority is satisfied that the development does not conform to the relevant specifications and requirements, the consent authority may, despite subsection (1), grant consent to the carrying out of the development but only if it has consulted with the Commissioner of the NSW Rural Fire Service concerning measures to be taken with respect to the development to protect persons, property and the environment from danger that may arise from a bush fire.

(1B) This section does not apply to State significant development.

(1C) The regulations may exclude development from the application of this section

subject to compliance with any requirements of the regulations. The regulations may (without limiting the requirements that may be made)—

- (a) require the issue of a certificate by the Commissioner of the NSW Rural Fire Service or other qualified person in relation to the bush fire risk of the land concerned, and
- (b) authorise the payment of a fee for the issue of any such certificate.

(2) In this section—

***special fire protection purpose*** has the same meaning as it has in section 100B of the *Rural Fires Act 1997*.

#### **4.15 Evaluation** (cf previous s 79C)

(1) **Matters for consideration—general** In determining a development application, a consent authority is to take into consideration such of the following matters as are of relevance to the development the subject of the development application—

(a) the provisions of—

- (i) any environmental planning instrument, and
- (ii) any proposed instrument that is or has been the subject of public consultation under this Act and that has been notified to the consent authority (unless the Planning Secretary has notified the consent authority that the making of the proposed instrument has been deferred indefinitely or has not been approved), and
- (iii) any development control plan, and
- (iiia) any planning agreement that has been entered into under section 7.4, or any draft planning agreement that a developer has offered to enter into under section 7.4, and
- (iv) the regulations (to the extent that they prescribe matters for the purposes of this paragraph),
- (v) (Repealed)

that apply to the land to which the development application relates,

- (b) the likely impacts of that development, including environmental impacts on both the natural and built environments, and social and economic impacts in the locality,
- (c) the suitability of the site for the development,

- (d) any submissions made in accordance with this Act or the regulations,
- (e) the public interest.

(2) **Compliance with non-discretionary development standards—development other than complying development** If an environmental planning instrument or a regulation contains non-discretionary development standards and development, not being complying development, the subject of a development application complies with those standards, the consent authority—

- (a) is not entitled to take those standards into further consideration in determining the development application, and
  - (b) must not refuse the application on the ground that the development does not comply with those standards, and
  - (c) must not impose a condition of consent that has the same, or substantially the same, effect as those standards but is more onerous than those standards,
- and the discretion of the consent authority under this section and section 4.16 is limited accordingly.

(3) If an environmental planning instrument or a regulation contains non-discretionary development standards and development the subject of a development application does not comply with those standards—

- (a) subsection (2) does not apply and the discretion of the consent authority under this section and section 4.16 is not limited as referred to in that subsection, and
- (b) a provision of an environmental planning instrument that allows flexibility in the application of a development standard may be applied to the non-discretionary development standard.

**Note—**

The application of non-discretionary development standards to complying development is dealt with in section 4.28(3) and (4).

(3A) **Development control plans** If a development control plan contains provisions that relate to the development that is the subject of a development application, the consent authority—

- (a) if those provisions set standards with respect to an aspect of the development and the development application complies with those standards—is not to require more onerous standards with respect to that aspect of the development, and
- (b) if those provisions set standards with respect to an aspect of the development and the development application does not comply with those standards—is to be flexible in applying those provisions and allow reasonable alternative solutions

that achieve the objects of those standards for dealing with that aspect of the development, and

- (c) may consider those provisions only in connection with the assessment of that development application.

In this subsection, **standards** include performance criteria.

- (4) **Consent where an accreditation is in force** A consent authority must not refuse to grant consent to development on the ground that any building product or system relating to the development does not comply with a requirement of the *Building Code of Australia* if the building product or system is accredited in respect of that requirement in accordance with the regulations.
- (5) A consent authority and an employee of a consent authority do not incur any liability as a consequence of acting in accordance with subsection (4).
- (6) **Definitions** In this section—
- (a) reference to development extends to include a reference to the building, work, use or land proposed to be erected, carried out, undertaken or subdivided, respectively, pursuant to the grant of consent to a development application, and
- (b) **non-discretionary development standards** means development standards that are identified in an environmental planning instrument or a regulation as non-discretionary development standards.

#### 4.16 Determination (cf previous s 80)

- (1) **General** A consent authority is to determine a development application by—
- (a) granting consent to the application, either unconditionally or subject to conditions, or
- (b) refusing consent to the application.
- (2) Despite subsection (1), the consent authority must refuse an application for development, being the subdivision of land, that would, if carried out, result in a contravention of this Act, an environmental planning instrument or the regulations, whether arising in relation to that or any other development.
- (3) **“Deferred commencement” consent** A development consent may be granted subject to a condition that the consent is not to operate until the applicant satisfies the consent authority, in accordance with the regulations, as to any matter specified in the condition. Nothing in this Act prevents a person from doing such things as may be necessary to comply with the condition.
- (4) **Total or partial consent** A development consent may be granted—

- (a) for the development for which the consent is sought, or
  - (b) for that development, except for a specified part or aspect of that development, or
  - (c) for a specified part or aspect of that development.
- (5) The consent authority is not required to refuse consent to any specified part or aspect of development for which development consent is not initially granted under subsection (4), but development consent may subsequently be granted for that part or aspect of the development.

**Note—**

See also Division 4.4 for special procedures concerning concept development applications.

- (6) **Restrictions on determination of development applications involving Independent Planning Commission** If a consent authority (other than the Minister) has received notice that the Minister has requested that a review (with or without a public hearing) be conducted by the Independent Planning Commission in relation to all or any part of the development the subject of a development application, the consent authority must not determine the development application until—
- (a) the review has been conducted, and
  - (b) the consent authority has considered the findings and recommendations of the Independent Planning Commission and any comments made by the Minister that accompanied those findings and recommendations when they were forwarded to the consent authority.
- (7) If the Minister has requested that a review (with or without a public hearing) be conducted by the Independent Planning Commission in relation to all or any part of the development the subject of a development application for which the Minister is the consent authority, the Minister must not determine the development application until—
- (a) the review has been conducted, and
  - (b) the Minister has considered the findings and recommendations of the Independent Planning Commission.
- (8) (Repealed)
- (9) **Restrictions on determination of development applications for designated development A** consent authority must not determine a development application for designated development—
- (a) until after the submission period (within the meaning of Schedule 1) has expired, or
  - (b) if a submission is made with respect to the application within the submission

period, until after 21 days following the date on which a copy of the submission is forwarded to the Planning Secretary have expired.

(10) Subsection (9)(b) does not apply—

- (a) to a consent authority being the Minister or the Planning Secretary, or
- (b) if the Planning Secretary has waived the requirement that submissions be forwarded to the Planning Secretary for a specified development application or for a specified class of development applications.

(10A) (Repealed)

(11) **Other restrictions on determination of development applications** The regulations may specify other matters of a procedural nature that are to be complied with before a development application may be determined.

(12) **Effect of issuing construction certificate** If a consent authority or a registered certifier issues a construction certificate, the construction certificate and any approved plans and specifications issued with respect to that construction certificate, together with any variations to the construction certificate or plans and specifications that are effected in accordance with this Act or the regulations, are taken to form part of the relevant development consent (other than for the purposes of section 4.55).

(13), (14) (Repealed)

#### **4.17 Imposition of conditions** (cf previous s 80A)

(1) **Conditions—generally** A condition of development consent may be imposed if—

- (a) it relates to any matter referred to in section 4.15(1) of relevance to the development the subject of the consent, or
- (b) it requires the modification or surrender of a consent granted under this Act or a right conferred by Division 4.11 in relation to the land to which the development application relates, or
- (c) it requires the modification or cessation of development (including the removal of buildings and works used in connection with that development) carried out on land (whether or not being land to which the development application relates), or
- (d) it limits the period during which development may be carried out in accordance with the consent so granted, or
- (e) it requires the removal of buildings and works (or any part of them) at the expiration of the period referred to in paragraph (d), or
- (f) it requires the carrying out of works (whether or not being works on land to which the application relates) relating to any matter referred to in section 4.15(1)

applicable to the development the subject of the consent, or

(g) it modifies details of the development the subject of the development application,  
or

(h) it is authorised to be imposed under section 4.16(3) or (5), subsections (5)–(9) of  
this section or section 7.11, 7.12, 7.24 or 7.32.

- (2) **Ancillary aspects of development** A consent may be granted subject to a condition that a specified aspect of the development that is ancillary to the core purpose of the development is to be carried out to the satisfaction, determined in accordance with the regulations, of the consent authority or a person specified by the consent authority.
- (3) A consent authority that has not determined a request to indicate whether a specified aspect of development has been carried out to the satisfaction of the consent authority, or a person specified by the consent authority, within the relevant period, prescribed by the regulations, applicable to the aspect or the development is, for the purpose only of section 97, taken to have determined the request by indicating that it, or the person, is not satisfied as to the specified aspect.
- (4) **Conditions expressed in terms of outcomes or objectives** A consent may be granted subject to a condition expressed in a manner that identifies both of the following—
- (a) one or more express outcomes or objectives that the development or a specified part or aspect of the development must achieve,
- (b) clear criteria against which achievement of the outcome or objective must be assessed.
- (4A) **Conditions replaced by other legislative controls** A development consent for the carrying out of development may be granted subject to specified conditions that cease to have effect on the issue of an authorisation under another Act relating to that development (or any part of it) if the consent authority is satisfied that the matters regulated by those conditions will be adequately addressed by such an authorisation when it is issued. The regulations may restrict the imposition of any such condition.
- (4B) **Conditions relating to financial assurance** A development consent may be granted subject to a condition of a kind described in Part 9.4 of the *Protection of the Environment Operations Act 1997* to secure or guarantee funding for or towards the carrying out of works or programs required by or under the consent. The regulations may restrict the imposition of any such condition and may make provisions with respect to any such condition of the kind set out in that Part (including in relation to the calling on and use of any financial assurance).
- (5) **Modification or surrender of consents or existing use rights** If a consent authority imposes (as referred to in subsection (1)(b)) a condition requiring the modification or

surrender of a consent granted under this Act or a right conferred by Division 4.11, the consent or right may be modified or surrendered subject to and in accordance with the regulations.

- (6) **Conditions and other arrangements concerning security** A development consent may be granted subject to a condition, or a consent authority may enter into an agreement with an applicant, that the applicant must provide security for the payment of the cost of any one or more of the following—
- (a) making good any damage caused to any property of the consent authority (or any property of the Planning Ministerial Corporation) as a consequence of the doing of anything to which the consent relates,
  - (b) completing any public work (such as road work, kerbing and guttering, footway construction, stormwater drainage and environmental controls) required in connection with the consent,
  - (c) remedying any defects in any such public work that arise within 6 months after the work is completed,
  - (d) in relation to coastal protection works (within the meaning of the *Coastal Management Act 2016*), either or both of the following—
    - (i) the maintenance of the works,
    - (ii) the restoration of a beach, or land adjacent to the beach, if any increased erosion of the beach or adjacent land is caused by the presence of the works.
- (7) The security is to be for such reasonable amount as is determined by the consent authority.
- (8) The security may be provided, at the applicant's choice, by way of—
- (a) deposit with the consent authority, or
  - (b) a guarantee satisfactory to the consent authority.
- (9) The security is to be provided before carrying out any work in accordance with the development consent or at such other time as may be agreed to by the consent authority.
- (10) The funds realised from a security may be paid out to meet any cost referred to in subsection (6). Any balance remaining is to be refunded to, or at the direction of, the persons who provided the security.
- (10A) (Repealed)
- (10B) **Review of extended hours of operation and number of persons permitted A** development consent that is granted subject to a reviewable condition may be

granted subject to a further condition that the consent authority may review that condition at any time or at intervals specified by the consent and that the reviewable condition may be changed on any such review.

(10C) The regulations may make provision for or with respect to the kinds of development that may be subject to a further condition referred to in subsection (10B), the matters that must be included in such a condition and the procedures for a review under such a condition.

(10D) A decision by a consent authority to change a reviewable condition on a review is taken to be a determination of a development consent for the purposes of this Act.

**Note—**

Accordingly, an application for review or appeal under Part 8 may be made in relation to a decision to change a reviewable condition.

(10E) For the purposes of subsections (10B)–(10D), a **reviewable condition** means any of the following—

- (a) a condition that permits extended hours of operation (in addition to other specified hours of operation),
- (b) a condition that increases the maximum number of persons permitted in a building (in addition to the maximum number otherwise permitted).

(11) **Prescribed conditions** A development consent is subject to such conditions as may be prescribed by the regulations.

**Note—**

Section 6.16(2) provides that a condition of consent has no effect to the extent that it requires a compliance certificate to be obtained in respect of any development.

**4.18 Post-determination notification** (cf previous s 81)

- (1) The consent authority must, in accordance with the regulations, notify its determination of a development application to—
  - (a) the applicant, and
  - (b) in the case of a development application for consent to carry out designated development, each person who made a submission under Schedule 1, and
  - (c) such other persons as are required by the regulations to be notified of the determination of the development application.
- (2) If the consent authority is not the council, the consent authority must notify the council of its determination.
- (3) In the case of a development application for consent to carry out designated

development, the consent authority must also notify each person who made a submission under Schedule 1 by way of objection of the person's rights to appeal against the determination and of the applicant's rights to appeal against the determination.

- (4) For the purposes of this section, **designated development** includes State significant development that would be designated development but for section 4.10(2).

#### **4.19 Consent for erection of building authorises use of building** (cf previous s 81A)

A development consent that authorises the erection of a building (but not the use of the building once erected) is sufficient to authorise the use of the building when erected for the purpose for which it was erected if that purpose was specified in the application for development consent. This section does not authorise the occupation of such a building if Part 6 requires an occupation certificate to be issued.

#### **4.20 Date from which development consent has effect** (cf previous s 83)

- (1) A development consent has effect on and from the date it is registered on the NSW planning portal, except as provided by subsection (2).
- (2) A development consent for designated development has effect on and from the end of 28 days after the date it is registered on the NSW planning portal unless—
- (a) the development consent was granted following a public hearing by the Independent Planning Commission, or
  - (b) the development is State significant development.

**Note—**

The date of effect of a consent for any such designated development is delayed by the period within which an objector may appeal to the Land and Environment Court against the grant of consent.

- (3) This section is subject to Part 8 (Reviews and appeals).

### **Division 4.4 Concept development applications**

#### **4.21 Application of this Division** (cf previous s 83A)

This Division applies to concept development applications and to consents granted on the determination of those applications.

#### **4.22 Concept development applications** (cf previous s 83B)

- (1) For the purposes of this Act, a **concept development application** is a development application that sets out concept proposals for the development of a site, and for which detailed proposals for the site or for separate parts of the site are to be the subject of a subsequent development application or applications.

- (2) In the case of a staged development, the application may set out detailed proposals for the first stage of development.
- (3) A development application is not to be treated as a concept development application unless the applicant requests it to be treated as a concept development application.
- (4) If consent is granted on the determination of a concept development application, the consent does not authorise the carrying out of development on any part of the site concerned unless—
  - (a) consent is subsequently granted to carry out development on that part of the site following a further development application in respect of that part of the site, or
  - (b) the concept development application also provided the requisite details of the development on that part of the site and consent is granted for that first stage of development without the need for further consent.

The terms of a consent granted on the determination of a concept development application are to reflect the operation of this subsection.

- (5) The consent authority, when considering under section 4.15 the likely impact of the development the subject of a concept development application, need only consider the likely impact of the concept proposals (and any first stage of development included in the application) and does not need to consider the likely impact of the carrying out of development that may be the subject of subsequent development applications.

**Note—**

The proposals for detailed development of the site will require further consideration under section 4.15 when a subsequent development application is lodged (subject to subsection (2)).

**4.23 Concept development applications as alternative to DCP required by environmental planning instruments** (cf previous s 83C)

- (1) An environmental planning instrument cannot require the making of a concept development application before development is carried out.
- (2) However, if an environmental planning instrument requires the preparation of a development control plan before any particular or kind of development is carried out on any land, that obligation may be satisfied by the making and approval of a concept development application in respect of that land.

**Note—**

Section 3.44(5) also authorises the making of a development application where the relevant planning authority refuses to make, or delays making, a development control plan.

- (3) Any such concept development application is to contain the information required to be included in the development control plan by the environmental planning instrument or the regulations.

**4.24 Status of concept development applications and consents** (cf previous s 83D)

- (1) The provisions of or made under this or any other Act relating to development applications and development consents apply, except as otherwise provided by or under this or any other Act, to a concept development application and a development consent granted on the determination of any such application.
- (2) While any consent granted on the determination of a concept development application for a site remains in force, the determination of any further development application in respect of the site cannot be inconsistent with the consent for the concept proposals for the development of the site.
- (3) Subsection (2) does not prevent the modification in accordance with this Act of a consent granted on the determination of a concept development application.

**Note—**

See section 4.53(2) which prevents a reduction in the 5-year period of a development consent.

**Division 4.5 Complying development**

**4.25 Application of this Division** (cf previous s 84)

This Division applies to complying development.

**4.26 Carrying out of complying development** (cf previous s 84A)

- (1) A person may carry out complying development on land if—
  - (a) the person has been issued with a complying development certificate for the development, and
  - (b) the development is carried out in accordance with—
    - (i) the complying development certificate, and
    - (ii) any provisions of an environmental planning instrument, development control plan or the regulations that applied to the carrying out of the complying development on that land at the time the complying development certificate was issued.
- (2) An application for a complying development certificate may be made—
  - (a) by the owner of the land on which the development is proposed to be carried out, or
  - (b) by any other person, with the consent of the owner of that land.
- (3) The regulations may provide for the procedures for making an application, the fees payable in connection with an application and the procedures for dealing with an

application.

(4) (Repealed)

(5) Nothing in this Division prevents a consent authority from considering and determining a development application for the carrying out of complying development.

#### **4.27 What is a “complying development certificate”?** (cf previous s 85)

(1) **Terms of complying development certificate** A complying development certificate is a certificate—

(a) that states that particular proposed development is complying development and (if carried out as specified in the certificate) will comply with all development standards applicable to the development and with other requirements prescribed by the regulations concerning the issue of a complying development certificate, and

(b) in the case of development involving the erection of a building, that identifies the classification of the building in accordance with the *Building Code of Australia*.

(2) A complying development certificate may indicate different classifications for different parts of the same building.

**Note—**

To the extent to which it deals with the classification of a proposed building, a complying development certificate under this Division replaces the statement of classification formerly issued under the regulations under the [Local Government Act 1993](#).

(3) **Erection of buildings** A complying development certificate that enables the erection of a building is sufficient to authorise the use of the building when erected for the purpose for which it was erected if that purpose is specified in the application for the complying development certificate, subject to section 6.9.

**Note—**

Section 6.9 prohibits the occupation or use of a new building unless an occupation certificate has been issued for the building.

(4) **Subdivision of land** A complying development certificate that enables the subdivision of land may authorise the carrying out of any physical activity in, on, under or over land in connection with the subdivision, including the construction of roads and stormwater drainage systems.

**Note—**

A plan of subdivision cannot be registered under the [Conveyancing Act 1919](#) unless a subdivision certificate has been issued for the subdivision.

(5) **Other requirements for complying development certificates** The regulations—

(a) may impose other requirements concerning the issue of complying development certificates, and

(b) may provide for the form in which a complying development certificate is to be issued.

(5A) A complying development certificate has no effect to the extent that it requires a compliance certificate to be obtained in respect of any development.

(6) For the purposes of this section, **development standard** includes a provision of a development control plan that would be a development standard, within the meaning of section 1.4, if the provision were in an environmental planning instrument.

#### **4.28 Process for obtaining complying development certificates** (cf previous s 85A)

(1) An applicant may, in accordance with the regulations, apply to a council or registered certifier for a complying development certificate.

(2) The regulations may specify the kind of development for which a registered certifier is not authorised to issue a complying development certificate.

(3) **Evaluation** The council or registered certifier must consider the application and determine—

(a) whether or not the proposed development is complying development, and

(b) whether or not the proposed development complies with the relevant development standards, and

(c) if the proposed development is complying development because of the provisions of a local environmental plan, or a local environmental plan in relation to which the council has made a development control plan, that specifies standards and conditions for the complying development, whether or not the proposed development complies with those standards and conditions.

(4) A council or registered certifier must not refuse to issue a complying development certificate on the ground that any building product or system relating to the development does not comply with a requirement of the *Building Code of Australia* if the building product or system is accredited in respect of that requirement in accordance with the regulations.

(5) A council, an employee of a council and a registered certifier do not incur any liability as a consequence of acting in accordance with subsection (4).

(6) **Determination** The council or a registered certifier may determine an application—

(a) by issuing a complying development certificate, unconditionally or (to the extent required by the regulations, an environmental planning instrument or a

development control plan) subject to conditions, or

(b) by refusing to issue a complying development certificate.

**Note—**

Part 8 provides that there is no right of review or appeal in relation to a determination of, or a failure to determine, an application for a complying development certificate.

- (7) The council or a registered certifier must not refuse to issue a complying development certificate if the proposed development complies with the development standards applicable to it and complies with other requirements prescribed by the regulations relating to the issue of a complying development certificate.
- (8) The determination of an application by the council or registered certifier must be completed within the period prescribed by the regulations (or such longer period as may be agreed to by the applicant) after lodgment of the application.
- (9) In determining the application, the council or the registered certifier must impose a condition that is required to be imposed under Division 7.1 in relation to the complying development.
- (9A) **“Deferred commencement” certificate** A complying development certificate may be granted subject to a condition that the certificate is not to operate until the applicant satisfies the council or certifier who issued the certificate, in accordance with the regulations, as to any matter specified in the condition. Nothing in this Act prevents a person from doing such things as may be necessary to comply with the condition.
- (10) (Repealed)
- (10A) **Payment of long service levy** Where a council or registered certifier completes a complying development certificate, that certificate is not to be forwarded or delivered to the applicant, unless any long service levy payable under section 34 of the [Building and Construction Industry Long Service Payments Act 1986](#) (or, where such a levy is payable by instalments, the first instalment of the levy) has been paid.
- (11) **Post-determination notification** On the determination of an application for the issue of a complying development certificate—
- (a) the council or registered certifier must notify the applicant of the determination, and
- (b) the registered certifier must notify the council of the determination, and
- (c) if the determination is to issue a complying development certificate, the council or registered certifier must notify any other person, if required to do so by the regulations, in accordance with the regulations.
- (12) For the purposes of subsection (7), **development standard** includes a provision of

a development control plan that would be a development standard, within the meaning of section 1.4, if the provision were in an environmental planning instrument.

**4.29 Duration of complying development certificate** (cf previous s 86A)

- (1) A complying development certificate becomes effective and operates from the date endorsed on the certificate.
- (2) A complying development certificate lapses 5 years after the date endorsed on the certificate.
- (3) However, a complying development certificate does not lapse if the development to which it relates is physically commenced on the land to which the certificate applies within the period of 5 years after the date endorsed on the certificate.
- (4) No proceedings may be taken before a court or tribunal to extend the 5-year period.

**4.30 Modification of complying development** (cf previous s 87)

- (1) A person who has made an application to carry out complying development and a person having the benefit of a complying development certificate may apply to modify the development the subject of the application or certificate.
- (2) This Division applies to an application to modify development in the same way as it applies to the original application.

**4.31 Validity of complying development certificate**

Without limiting the powers of the Court under section 9.46(1), the Court may by order under that section declare that a complying development certificate is invalid if—

- (a) proceedings for the order are brought within 3 months after the issue of the certificate, and
- (b) the certificate authorises the carrying out of development for which the Court determines that a complying development certificate is not authorised to be issued.

**Division 4.6 Crown development**

**4.32 Definitions** (cf previous s 88)

- (1) In this Division—

***applicable Sydney district or regional planning panel*** for development means the Sydney district or regional planning panel for the part of the State in which the development is to be carried out.

***Crown development application*** means a development application made by or on behalf of the Crown.

- (2) A reference in this Division to the Crown—
- (a) includes a reference to a person who is prescribed by the regulations to be the Crown for the purposes of this Division, and
  - (b) does not include a reference to—
    - (i) a capacity of the Crown that is prescribed by the regulations not to be the Crown for the purposes of this Division, or
    - (ii) a person who is prescribed by the regulations not to be the Crown for the purposes of this Division.

**4.33 Determination of Crown development applications** (cf previous s 89)

- (1) A consent authority (other than the Minister) must not—
- (a) refuse its consent to a Crown development application, except with the approval of the Minister, or
  - (b) impose a condition on its consent to a Crown development application, except with the approval of the applicant or the Minister.
- (2) If the consent authority fails to determine a Crown development application within the period prescribed by the regulations, the applicant or the consent authority may refer the application—
- (a) to the Minister, if the consent authority is not a council, or
  - (b) to the applicable Sydney district or regional planning panel, if the consent authority is a council.
- (2A) A Crown development application for which the consent authority is a council must not be referred to the Minister unless it is first referred to the applicable Sydney district or regional planning panel.
- (3) An applicable Sydney district or regional planning panel to which a Crown development application is referred may exercise the functions of the council as a consent authority (subject to subsection (1)) with respect to the application.
- (4) A decision by a regional panel in determining a Crown development application is taken for all purposes to be the decision of the council.
- (5) If an applicable Sydney district or regional planning panel fails to determine a Crown development application within the period prescribed by the regulations, the applicant or the panel may refer the application to the Minister.
- (6) The party that refers an application under this section must notify the other party in writing that the application has been referred.

- (7) When an application is referred under this section to an applicable Sydney district or regional planning panel or the Minister, the consent authority must, as soon as practicable, submit to the panel or the Minister—
  - (a) a copy of the development application, and
  - (b) details of its proposed determination of the development application, and
  - (c) the reasons for the proposed determination, and
  - (d) any relevant reports of another public authority.
- (8) An application may be referred by a consent authority or applicable Sydney district or regional planning panel before the end of a relevant period referred to in subsection (2) or (5).

#### **4.34 Directions by Minister** (cf previous s 89A)

- (1) On a referral being made by a consent authority or an applicable Sydney district or regional planning panel, or an applicant, to the Minister under this Division, the Minister may direct the relevant consent authority, within the time specified in the direction—
  - (a) to approve the Crown development application, with or without specified conditions, or
  - (b) to refuse the Crown development application.
- (2) A consent authority must comply with a direction by the Minister.
- (3) If the consent authority fails to comply, the consent authority is taken, on the last date for compliance specified in the direction, to have determined the Crown development application in accordance with the Minister's direction.
- (4) Despite subsection (2), a consent authority may vary a condition specified by the Minister with the approval of the applicant.

#### **4.35 Modification of Crown development consents** (cf previous s 89B)

This Division applies to an application made by or on behalf of the Crown under section 4.55 in the same way as it applies to an application for development consent.

### **Division 4.7 State significant development**

#### **4.36 Development that is State significant development** (cf previous s 89C)

- (1) For the purposes of this Act, **State significant development** is development that is declared under this section to be State significant development.
- (2) A State environmental planning policy may declare any development, or any class or

description of development, to be State significant development.

- (3) The Minister may, by a Ministerial planning order, declare specified development on specified land to be State significant development, but only if the Minister has obtained and made publicly available advice from the Independent Planning Commission about the State or regional planning significance of the development.

**Editorial note—**

For orders under this subsection, see the Historical notes at the end of this Act.

- (4) A State environmental planning policy that declares State significant development may extend the provisions of the policy relating to that development to State significant development declared under subsection (3).

**Note—**

See section 5.12(6) and (7) in relation to development that is, but for those provisions, both State significant development and State significant infrastructure.

**4.37 Staged State significant development** (cf previous s 89D)

If a concept development application is made in respect of State significant development—

- (a) the consent authority may determine that a subsequent stage of the development is to be determined by the relevant council as consent authority, and
- (b) that stage of the development ceases to be State significant development and that council becomes the consent authority for that stage of the development.

**4.38 Consent for State significant development** (cf previous s 89E)

- (1) The consent authority is to determine a development application in respect of State significant development by—
  - (a) granting consent to the application with such modifications of the proposed development or on such conditions as the consent authority may determine, or
  - (b) refusing consent to the application.

**Note—**

Section 380AA of the *Mining Act 1992* provides that an application in respect of State significant development for the mining of coal can only be determined if it is made by or with the consent of the holder of an authority under that Act in respect of coal and the land concerned.

- (2) Development consent may not be granted if the development is wholly prohibited by an environmental planning instrument.
- (3) Development consent may be granted despite the development being partly prohibited by an environmental planning instrument.

- (4) If part of a single proposed development that is State significant development requires development consent to be carried out and the other part may be carried out without development consent—
  - (a) Division 5.1 does not apply to that other part of the proposed development, and
  - (b) that other part of the proposed development is taken to be development that may not be carried out except with development consent.
- (5) A development application in respect of State significant development that is wholly or partly prohibited may be considered in accordance with Division 3.5 in conjunction with a proposed environmental planning instrument to permit the carrying out of the development. The Planning Secretary may (despite anything to the contrary in section 3.32) undertake the functions of the planning proposal authority under Part 3 for a proposed instrument if it is initiated for the purpose of permitting the carrying out of the development (whether or not it contains other provisions).
- (6) If the determination under section 3.34 (Gateway determination) for a planning proposal declares that the proposed instrument is principally concerned with permitting the carrying out of State significant development that would otherwise be wholly prohibited—
  - (a) the proposed instrument may be made only by the Independent Planning Commission under a delegation from the Minister, and
  - (b) the development application for the carrying out of that development may be determined only by the Independent Planning Commission under a delegation from the Minister.

**4.39 Regulations—State significant development** (cf previous s 89G)

In addition to any other matters for or with respect to which regulations may be made under this Part, the regulations may make provision for or with respect to the procedures and other matters concerning State significant development, including the following—

- (a) the environmental impact statements to accompany development applications in respect of State significant development,
- (b) the requirements for the preparation of those environmental impact statements, including consultation requirements with respect to government agencies and other affected persons,
- (c) the making of orders under section 4.36(3) declaring specified development to be State significant development,
- (d) the making of information publicly available relating to development applications in respect of State significant development and the determination of those applications,

- (e) requiring applicants to provide responses to submissions made on development applications in respect of State significant development.

**4.40 Evaluation of development application (s 4.15)** (cf previous s 89H)

Section 4.15 applies, subject to this Division, to the determination of the development application.

**4.41 Approvals etc legislation that does not apply** (cf previous s 89J)

- (1) The following authorisations are not required for State significant development that is authorised by a development consent granted after the commencement of this Division (and accordingly the provisions of any Act that prohibit an activity without such an authority do not apply)—
  - (a) (Repealed)
  - (b) a permit under section 201, 205 or 219 of the *Fisheries Management Act 1994*,
  - (c) an approval under Part 4, or an excavation permit under section 139, of the *Heritage Act 1977*,
  - (d) an Aboriginal heritage impact permit under section 90 of the *National Parks and Wildlife Act 1974*,
  - (e) (Repealed)
  - (f) a bush fire safety authority under section 100B of the *Rural Fires Act 1997*,
  - (g) a water use approval under section 89, a water management work approval under section 90 or an activity approval (other than an aquifer interference approval) under section 91 of the *Water Management Act 2000*.
- (2) Division 8 of Part 6 of the *Heritage Act 1977* does not apply to prevent or interfere with the carrying out of State significant development that is authorised by a development consent granted after the commencement of this Division.
- (3) A reference in this section to State significant development that is authorised by a development consent granted after the commencement of this Division includes a reference to any investigative or other activities that are required to be carried out for the purpose of complying with any environmental assessment requirements under this Part in connection with a development application for any such development.

**4.42 Approvals etc legislation that must be applied consistently** (cf previous s 89K)

- (1) An authorisation of the following kind cannot be refused if it is necessary for carrying out State significant development that is authorised by a development consent under this Division and is to be substantially consistent with the consent—

- (a) an aquaculture permit under section 144 of the *Fisheries Management Act 1994*,
- (b) an approval under section 15 of the *Mine Subsidence Compensation Act 1961*,
- (c) a mining lease under the *Mining Act 1992*,

**Note—**

Under section 380A of the *Mining Act 1992*, a mining lease can be refused on the ground that the applicant is not a fit and proper person, despite this section.

- (d) a production lease under the *Petroleum (Onshore) Act 1991*,

**Note—**

Under section 24A of the *Petroleum (Onshore) Act 1991*, a production lease can be refused on the ground that the applicant is not a fit and proper person, despite this section.

  - (c) in the case of an environment protection licence under Chapter 3 of the *Protection of the Environment Operations Act 1997*—any period after the first review of the licence under section 78 of that Act.
- (3) A reference in this section to an authorisation or development consent includes a reference to any conditions of the authorisation or consent.

- (4) This section applies to a person, court or tribunal that deals with an objection, appeal or review conferred on a person in relation to an authorisation in the same way as it applies to the person giving the authorisation.

**4.43 This Division prevails** (cf previous s 89L)

The provisions of this Division, the regulations under this Division and any other provisions of or made under this Act with respect to State significant development prevail to the extent of any inconsistency with any other provisions of or made under this Act relating to development to which this Part applies.

## **Division 4.8 Integrated development**

**4.44 Application of this Division** (cf previous s 90)

- (1) This Division applies to integrated development.
- (2) However, this Division does not apply to development the subject of a development application made by or on behalf of the Crown (within the meaning of Division 4.6), other than development that requires a heritage approval.

**4.45 Definitions** (cf previous s 90A)

In this Division—

**approval** means a consent, licence, permit, permission or any form of authorisation.

**approval body** means a person who may grant an approval.

**first renewal** of an approval means, in the case of an environment protection licence under the *Protection of the Environment Operations Act 1997*, the first review of the licence under section 78.

**grant** an approval includes give or issue an approval.

**heritage approval** means an approval in respect of the doing or carrying out of an act, matter or thing referred to in section 57(1) of the *Heritage Act 1977*.

**4.46 What is “integrated development”?** (cf previous s 91)

- (1) Integrated development is development (not being State significant development or complying development) that, in order for it to be carried out, requires development consent and one or more of the following approvals—

<b>Act</b>	<b>Provision</b>	<b>Approval</b>
<i>Coal Mine Subsidence Compensation Act 2017</i>	s 22	approval to alter or erect improvements, or to subdivide land, within a mine subsidence district

	s 205	permit to cut, remove, damage or destroy marine vegetation on public water land or an aquaculture lease, or on the foreshore of any such land or lease

		<p>permit to—</p> <p>(a) set a net, netting or other material, or</p> <p>(b) construct or alter a dam, floodgate, causeway or weir, or</p> <p>(c) otherwise create an obstruction, across or within a bay, inlet, river or creek, or across or around a flat</p>

<i>National Parks and Wildlife Act 1974</i>	s 90	grant of Aboriginal heritage impact permit
<i>Petroleum (Onshore) Act 1991</i>	s 16	grant of production lease
<i>Protection of the Environment Operations Act 1997</i>	ss 43(a), 47 and 55	Environment protection licence to authorise carrying out of scheduled development work at any premises.
	ss 43(b), 48 and 55	Environment protection licence to authorise carrying out of scheduled activities at any premises (excluding any activity described as a “waste activity” but including any activity described as a “waste facility”).
	ss 43(d), 55 and 122	Environment protection licences to control carrying out of non-scheduled activities for the purposes of regulating water pollution resulting from the activity.

		consent to—
		(a) erect a structure or carry out a work in, on or over a public road, or
		(b) dig up or disturb the surface of a public road, or
<a href="#">Roads Act 1993</a>	s 138	(c) remove or interfere with a structure, work or tree on a public road, or
		(d) pump water into a public road from any land adjoining the road, or
		(e) connect a road (whether public or private) to a classified road
<a href="#">Rural Fires Act 1997</a>	s 100B	authorisation under section 100B in respect of bush fire safety of subdivision of land that could lawfully be used for residential or rural residential purposes or development of land for special fire protection purposes
<a href="#">Water Management Act 2000</a>	ss 89, 90, 91	water use approval, water management work approval or activity approval under Part 3 of Chapter 3

- (1A) Development is integrated development in respect of a licence that may be granted under the [Protection of the Environment Operations Act 1997](#) to control the carrying out of non-scheduled activities for the purpose of regulating water pollution only if—
- (a) the development application stipulates that an application for such a licence has been or will be made in respect of the development, or
  - (b) the Environment Protection Authority notifies the consent authority in writing before the development application is granted or refused that an application for such a licence has been or may be made in respect of the development.
- (2) Development is not integrated development in respect of an Aboriginal heritage impact permit required under Part 6 of the [National Parks and Wildlife Act 1974](#) unless—
- (a) an Aboriginal object referred to in that Part is known, immediately before the development application is made, to exist on the land to which the development

application applies, or

- (b) the land to which the development application applies is an Aboriginal place within the meaning of that Act immediately before the development application is made.
- (3) Development is not integrated development in respect of the consent required under section 138 of the *Roads Act 1993* if, in order for the development to be carried out, it requires the development consent of a council and the approval of the same council.
- (4) Development is not integrated development in respect of the approval required under section 57 of the *Heritage Act 1977* if the approval that is required is the approval of a council.

**4.47 Development that is integrated development** (cf previous s 91A)

- (1) This section applies to the determination of a development application for development that is integrated development.
- (2) Before granting development consent to an application for consent to carry out the development, the consent authority must, in accordance with the regulations, obtain from each relevant approval body the general terms of any approval proposed to be granted by the approval body in relation to the development. Nothing in this section requires the consent authority to obtain the general terms of any such approval if the consent authority determines to refuse to grant development consent.
- (3) A consent granted by the consent authority must be consistent with the general terms of any approval proposed to be granted by the approval body in relation to the development and of which the consent authority is informed. For the purposes of this Part, the consent authority is taken to have power under this Act to impose any condition that the approval body could impose as a condition of its approval.
- (4) If the approval body informs the consent authority that it will not grant an approval that is required in order for the development to be lawfully carried out, the consent authority must refuse consent to the application.
- (4A) The Planning Secretary may act on behalf of an approval body for the purposes of informing the consent authority under this section whether or not the approval body will grant the approval, or of the general terms of its approval, if—
  - (a) the Planning Secretary is authorised to do so by the regulations because of the failure of the approval body to do so or because of an inconsistency in the general terms of approval of 2 or more approval bodies, and
  - (b) the Planning Secretary has taken into consideration assessment requirements prescribed by the regulations as State assessment requirements.

The decision of the Planning Secretary is taken, for the purposes of this Division, to be the decision of the approval body, unless the approval body has informed the consent authority of its own decision on the matter.

- (5) If the approval body and the Planning Secretary fail to inform the consent authority, in accordance with the regulations, whether or not it will grant the approval, or of the general terms of its approval—
- (a) the consent authority may determine the development application, and
  - (b) if the consent authority determines the development application by granting consent—
    - (i) the approval body cannot refuse to grant approval to an application for approval in respect of the development, and
    - (ii) an approval granted by the approval body must not be inconsistent with the development consent, and
    - (iii) section 4.50 applies to an approval so granted as if it were an approval the general terms of which had been provided to the consent authority,

despite any other Act or law.

**Note—**

Under section 380A of the *Mining Act 1992* and section 24A of the *Petroleum (Onshore) Act 1991*, a mining lease or production lease can be refused on the ground that the applicant is not a fit and proper person, despite this section.

- (6) If a development application is determined, whether or not by the granting of development consent, the consent authority must notify all relevant approval bodies of the determination.

**Note—**

If a dispute arises under this section between a consent authority and an approval body, the dispute may be dealt with under section 10.2.

**4.48 Consent authority may not refuse certain development applications** (cf previous s 92)

- (1) This section applies to the determination by a consent authority of a development application for development that is integrated development for which a heritage approval is required.
- (2) A consent authority must not refuse development consent on heritage grounds if the same development is the subject of a heritage approval.

**4.49 Effect of giving notice** (cf previous s 92A)

If, in relation to integrated development—

- (a) notice of a development application is given under Schedule 1, and
  - (b) the consent authority obtains from an approval body the general terms of any approval proposed to be granted by the approval body in relation to the development or the approval body fails to inform the consent authority, in accordance with the regulations, whether or not it will grant the approval or of the general terms of its approval, and
  - (c) the consent authority determines the application by granting consent,
- the notice is taken to be notice duly given for the purpose of any law that requires the giving of public notice in relation to an application for the approval of the approval body to that development.

**4.50 Granting and modification of approval by approval body** (cf previous s 93)

- (1) Despite any other Act or law, an approval body must, in respect of integrated development for which development consent has been granted following the provision by the approval body of the general terms of the approval proposed to be granted by the approval body in relation to the development, grant approval to any application for approval that is made within 3 years after the date on which the development consent is granted if, within that 3-year period, the development consent has not lapsed or been revoked.

**Note—**

Under section 380A of the *Mining Act 1992* and section 24A of the *Petroleum (Onshore) Act 1991*, a mining lease or production lease can be refused on the ground that the applicant is not a fit and proper person, despite this section.

- (2) The approval may be granted subject to conditions that are not inconsistent with the development consent. Neither the provisions of section 4.17(6)–(10) nor the imposition of conditions as to security by the consent authority prevent an approval body from imposing conditions, or additional conditions, as to security.
- (3) Subsection (1) does not apply to or limit the granting of approval to an application for renewal of an approval.
- (4) An approval body cannot vary the terms of an approval granted for integrated development for which development consent has been granted before the expiration, lapsing or first renewal of the approval, whichever first occurs, other than to make variations that are not inconsistent with the development consent.
- (5) Subsection (4) does not prevent—
  - (a) the modification, in accordance with section 4.55 or 4.57, of the development consent at any time, or
  - (b) if a development consent is modified as referred to in paragraph (a) before the

expiration, lapsing or first renewal, whichever first occurs, of the approval, the modification in accordance with law of the approval to any necessary consequential extent, or

- (c) the exercise by the approval body of any of its other functions, such as the issuing of orders, the suspension or cancellation of an approval or the prosecution of offences.

**4.51 Effect of approval if the approval body is also a concurrence authority** (cf previous s 93A)

If the concurrence of a person who is also an approval body is required before a consent authority may grant a development consent, the granting of the general terms of its approval is taken to also grant the concurrence provided that the matters to be considered in granting the general terms of its approval are the same as those required to be considered in deciding whether or not to grant the concurrence.

**4.52 Rights of appeal** (cf previous s 93B)

- (1) **Applicant's appeal rights** This Division does not affect any right of objection, appeal or review conferred on an applicant for an approval under the Act that provides for the granting of the approval, except as provided by subsection (2).
- (2) **Restriction on appellate body** Despite any other Act or law, section 4.50 applies to a person, court or tribunal that deals with an objection, appeal or review referred to in this section in the same way as it applies to an approval body.

## **Division 4.9 Post-consent provisions**

**4.53 Lapsing of consent** (cf previous s 95)

- (1) A development consent lapses—
- (a) 5 years after the date from which it operates if the development consent commences operation after the prescribed period, or
  - (b) 5 years after the date from which it operates if the development consent commences operation during the prescribed period, or
  - (c) 2 years after the date on which the development consent would otherwise have lapsed if the development consent commenced operation before, and has not lapsed at, the commencement of the prescribed period.
- (2) A consent authority may reduce a period specified in subsection (1)(a) or (b) in granting development consent.
- (3) Subsection (2) does not—
- (a) apply to development consent granted to a concept development application

under Division 4.4 for development that requires a subsequent development application and consent, or

(b) authorise a reduction to be made that would cause—

- (i) a development consent to erect or demolish a building or to subdivide land to lapse within 2 years after the date from which the consent operates, or
- (ii) a development consent that commences operation during the prescribed period to lapse within 5 years after the date from which the consent operates, or
- (iii) a development consent of a kind prescribed by the regulations to lapse within the period prescribed by the regulations in relation to the consent.

(3A) For a development consent that lapsed after the commencement of the prescribed period and before the commencement of subsection (1)(c)—

- (a) the development consent is taken not to have lapsed, and
- (b) subsection (1)(c) applies to the development consent.

(4) Development consent for—

- (a) the erection of a building, or
- (b) the subdivision of land, or
- (c) the carrying out of a work,

does not lapse if building, engineering or construction work relating to the building, subdivision or work is physically commenced on the land to which the consent applies before the date on which the consent would otherwise lapse under this section.

(5) Development consent for development other than that referred to in subsection (4) does not lapse if the use of any land, building or work the subject of that consent is actually commenced before the date on which the consent would otherwise lapse.

(6) Despite any other provision of this section, a development consent that is subject to a deferred commencement condition under section 4.16(3) lapses if the applicant fails to satisfy the consent authority as to the matter specified in the condition within—

- (a) 5 years after the grant of consent if the consent is granted after the prescribed period, or
- (b) 5 years after the grant of consent if the consent is granted during the prescribed period, or
- (c) 2 years after the date on which the development consent would otherwise have

lapsed if—

- (i) the grant of consent was before the commencement of the prescribed period, and
- (ii) the development consent has not lapsed at that commencement.

(6A) A consent authority may reduce a period specified in subsection (6)(a) or (b) in granting development consent.

(6B) Subsection (6A) does not authorise a reduction to be made that would cause a development consent granted during the prescribed period to lapse within 5 years after the date on which it was granted.

(6C) For a development consent that lapsed after the commencement of the prescribed period and before the commencement of subsection (6)(c)—

- (a) the development consent is taken not to have lapsed, and
- (b) subsection (6)(c) applies to the development consent.

(7) The regulations may set out circumstances in which work is or is not taken to be physically commenced for the purposes of this section.

(8) In this section—

***prescribed period*** means the period commencing on 25 March 2020 and ending on 25 March 2022.

#### **4.54 Extension of lapsing period for 1 year** (cf previous s 95A)

- (1) If, in granting a development consent, the consent authority reduces the period after which the consent lapses to less than 5 years, the applicant or any other person entitled to act on the consent may apply to the consent authority, before the period expires, for an extension of 1 year.
- (2) The consent authority may grant the extension if satisfied that the applicant has shown good cause.
- (3) (Repealed)
- (4) An extension of 1 year granted under this section commences to run from the later of the following—
  - (a) the date on which the consent would have lapsed but for the extension,
  - (b) the date on which the consent authority granted the extension or, if the Court has allowed the extension in determining an appeal, the date on which the Court determined the appeal.

(5) This section does not apply to complying development.

**4.55 Modification of consents—generally** (cf previous s 96)

(1) **Modifications involving minor error, misdescription or miscalculation** A consent authority may, on application being made by the applicant or any other person entitled to act on a consent granted by the consent authority and subject to and in accordance with the regulations, modify a development consent granted by it to correct a minor error, misdescription or miscalculation. Subsections (1A), (2), (3), (5) and (6) and Part 8 do not apply to such a modification.

**Note—**

Section 380AA of the *Mining Act 1992* provides that an application for modification of development consent to mine for coal can only be made by or with the consent of the holder of an authority under that Act in respect of coal and the land concerned.

(1A) **Modifications involving minimal environmental impact** A consent authority may, on application being made by the applicant or any other person entitled to act on a consent granted by the consent authority and subject to and in accordance with the regulations, modify the consent if—

- (a) it is satisfied that the proposed modification is of minimal environmental impact, and
- (b) it is satisfied that the development to which the consent as modified relates is substantially the same development as the development for which the consent was originally granted and before that consent as originally granted was modified (if at all), and
- (c) it has notified the application in accordance with—
  - (i) the regulations, if the regulations so require, or
  - (ii) a development control plan, if the consent authority is a council that has made a development control plan that requires the notification or advertising of applications for modification of a development consent, and
- (d) it has considered any submissions made concerning the proposed modification within any period prescribed by the regulations or provided by the development control plan, as the case may be.

Subsections (1), (2) and (5) do not apply to such a modification.

(2) **Other modifications** A consent authority may, on application being made by the applicant or any other person entitled to act on a consent granted by the consent authority and subject to and in accordance with the regulations, modify the consent if—

- (a) it is satisfied that the development to which the consent as modified relates is

substantially the same development as the development for which consent was originally granted and before that consent as originally granted was modified (if at all), and

- (b) it has consulted with the relevant Minister, public authority or approval body (within the meaning of Division 4.8) in respect of a condition imposed as a requirement of a concurrence to the consent or in accordance with the general terms of an approval proposed to be granted by the approval body and that Minister, authority or body has not, within 21 days after being consulted, objected to the modification of that consent, and
- (c) it has notified the application in accordance with—
  - (i) the regulations, if the regulations so require, or
  - (ii) a development control plan, if the consent authority is a council that has made a development control plan that requires the notification or advertising of applications for modification of a development consent, and
- (d) it has considered any submissions made concerning the proposed modification within the period prescribed by the regulations or provided by the development control plan, as the case may be.

Subsections (1) and (1A) do not apply to such a modification.

- (3) In determining an application for modification of a consent under this section, the consent authority must take into consideration such of the matters referred to in section 4.15(1) as are of relevance to the development the subject of the application. The consent authority must also take into consideration the reasons given by the consent authority for the grant of the consent that is sought to be modified.
- (4) The modification of a development consent in accordance with this section is taken not to be the granting of development consent under this Part, but a reference in this or any other Act to a development consent includes a reference to a development consent as so modified.
- (5) (Repealed)
- (6) **Deemed refusals** The regulations may make provision for or with respect to the following—
  - (a) the period after which a consent authority, that has not determined an application under this section, is taken to have determined the application by refusing consent,
  - (b) the effect of any such deemed determination on the power of a consent authority to determine any such application,

(c) the effect of a subsequent determination on the power of a consent authority on any appeal sought under this Act.

(6A), (7) (Repealed)

(8) **Modifications by the Court** The provisions of this section extend, subject to the regulations, to enable the Court to modify a consent granted by it but, in the extension of those provisions, the functions imposed on a consent authority under subsection (1A)(c) or subsection (2)(b) and (c) are to be exercised by the relevant consent authority and not the Court.

**4.56 Modification by consent authorities of consents granted by the Court** (cf previous s 96AA)

- (1) A consent authority may, on application being made by the applicant or any other person entitled to act on a consent granted by the Court and subject to and in accordance with the regulations, modify the development consent if—
- (a) it is satisfied that the development to which the consent as modified relates is substantially the same development as the development for which the consent was originally granted and before that consent as originally granted was modified (if at all), and
  - (b) it has notified the application in accordance with—
    - (i) the regulations, if the regulations so require, and
    - (ii) a development control plan, if the consent authority is a council that has made a development control plan that requires the notification or advertising of applications for modification of a development consent, and
  - (c) it has notified, or made reasonable attempts to notify, each person who made a submission in respect of the relevant development application of the proposed modification by sending written notice to the last address known to the consent authority of the objector or other person, and
  - (d) it has considered any submissions made concerning the proposed modification within any period prescribed by the regulations or provided by the development control plan, as the case may be.
- (1A) In determining an application for modification of a consent under this section, the consent authority must take into consideration such of the matters referred to in section 4.15(1) as are of relevance to the development the subject of the application. The consent authority must also take into consideration the reasons given by the consent authority for the grant of the consent that is sought to be modified.

(1B) (Repealed)

- (1C) The modification of a development consent in accordance with this section is taken not to be the granting of development consent under this Part, but a reference in this or any other Act to a development consent includes a reference to a development consent as so modified.
- (2) After determining an application for modification of a consent under this section, the consent authority must send a notice of its determination to each person who made a submission in respect of the application for modification.
- (3) The regulations may make provision for or with respect to the following—
  - (a) the period after which a consent authority, that has not determined an application under this section, is taken to have determined the application by refusing consent,
  - (b) the effect of any such deemed determination on the power of a consent authority to determine any such application,
  - (c) the effect of a subsequent determination on the power of a consent authority on any appeal sought under this Act.
- (4) (Repealed)

**4.57 Revocation or modification of development consent** (cf previous s 96A)

- (1) If at any time it appears to—
  - (a) the Planning Secretary, having regard to the provisions of any proposed State environmental planning policy, or
  - (b) a council (being the consent authority in relation to the development application referred to in this subsection), having regard to the provisions of any proposed local environmental plan,that any development for which consent under this Division is in force in relation to a development application should not be carried out or completed, or should not be carried out or completed except with modifications, the Planning Secretary or council may, by instrument in writing, revoke or modify that consent.
- (2) This section applies to complying development for which a complying development certificate has been issued in the same way as it applies to development for which development consent has been granted and so applies to enable a council to revoke or modify a complying development certificate whether the certificate was issued by the council or by a registered certifier.
- (3) Before revoking or modifying the consent, the Planning Secretary or council must—
  - (a) by notice in writing inform, in accordance with the regulations—

- (i) each person who in the Planning Secretary's or council's opinion will be adversely affected by the revocation or modification of the consent, and
    - (ii) such persons as may be prescribed by the regulations, of the intention to revoke or modify the consent, and
  - (b) afford each such person the opportunity of appearing before the Planning Secretary or council, or a person appointed by the Planning Secretary or council, to show cause why the revocation or modification should not be effected.
- (4) The revocation or modification of a development consent takes effect, subject to this section, from the date on which the instrument referred to in subsection (1) is served on the owner of the land to which the consent applies.
- (5), (6) (Repealed)
- (7) If a development consent is revoked or modified under this section, a person aggrieved by the revocation or modification is entitled to recover from—
- (a) the Government of New South Wales—if the Planning Secretary is responsible for the issue of the instrument of revocation or modification, or
  - (b) the council—if the council is responsible for the issue of that instrument,
- compensation for expenditure incurred pursuant to the consent during the period between the date on which the consent becomes effective and the date of service of the notice under subsection (3) which expenditure is rendered abortive by the revocation or modification of that consent.
- (8) The Planning Secretary or council must, on or as soon as practicable after the date on which the instrument referred to in subsection (1) is served on the owner of the land referred to in subsection (4), cause a copy of the instrument to be sent to each person who is, in the Planning Secretary's or council's opinion, likely to be disadvantaged by the revocation or modification of the consent.
- (9) This section does not apply to or in respect of a consent granted by the Court or by the Minister.

## **Division 4.10 Miscellaneous Part 4 provisions**

### **4.58 Register of consents and certificates** (cf previous s 100)

- (1) A council must, in the prescribed form and manner (if any), keep a register of—
- (a) applications for development consent, and
  - (b) the determination of applications for development consent (including the terms of development consents granted under this Part), and

(c) the determination of applications for complying development certificates (including the terms of complying development certificates issued under this Part), and

(d) decisions on appeal from any determination made under this Part.

(2) The register is to be available for public inspection, without charge, at the office of the council during ordinary office hours.

**4.59 Validity of development consents and complying development certificates** (cf previous s 101)

If public notice of the granting of a consent or a complying development certificate is given in accordance with the regulations by a consent authority or a certifier, the validity of the consent or certificate cannot be questioned in any legal proceedings except those commenced in the Court by any person at any time before the expiration of 3 months from the date on which public notice was so given.

**4.60 Non-compliance with certain provisions regarding State significant development** (cf previous s 102)

(1) This section applies to a development consent granted, or purporting to be granted, by the Minister, before or after the commencement of this section.

(2) The only requirements of this Act that are mandatory in connection with the validity of a development consent to which subsection (1) applies are as follows—

(a) A requirement that a development application to carry out State significant development or designated development and its accompanying information be publicly exhibited for the minimum period of time.

(b) A requirement that a development application to carry out development, being development, other than State significant development or designated development, to which some or all of the provisions of sections 4.25, 4.27, 86, 4.30(1) and 4.44, as in force immediately before the commencement of this section, applied by virtue of an environmental planning instrument, as referred to in section 3.18(4), as then in force, be publicly exhibited for the minimum period of time.

(c) (Repealed)

**4.61 Revocation or regrant of development consents after order of Court** (cf previous s 103)

- (b) the use of a building, work or land—
  - (i) for which development consent was granted before the commencement of a provision of an environmental planning instrument having the effect of prohibiting the use, and
  - (ii) that has been carried out, within one year after the date on which that provision commenced, in accordance with the terms of the consent and to such an extent as to ensure (apart from that provision) that the development consent would not lapse.

### **4.66 Continuance of and limitations on existing use** (cf previous s 107)

- (1) Except where expressly provided in this Act, nothing in this Act or an environmental planning instrument prevents the continuance of an existing use.

- (2) Nothing in subsection (1) authorises—
  - (a) any alteration or extension to or rebuilding of a building or work, or
  - (b) any increase in the area of the use made of a building, work or land from the area actually physically and lawfully used immediately before the coming into operation of the instrument therein mentioned, or
  - (c) without affecting paragraph (a) or (b), any enlargement or expansion or intensification of an existing use, or
  - (d) the continuance of the use therein mentioned in breach of any consent in force under this Act in relation to that use or any condition imposed or applicable to that consent or in breach of any condition referred to in section 4.17(1)(b), or
  - (e) the continuance of the use therein mentioned where that use is abandoned.
- (3) Without limiting the generality of subsection (2)(e), a use is to be presumed, unless the contrary is established, to be abandoned if it ceases to be actually so used for a continuous period of 12 months.
- (4) During the period commencing on 25 March 2020 and ending on 25 March 2022, the reference to 12 months in subsection (3) is taken to be a reference to 3 years.

- (3) An environmental planning instrument may, in accordance with this Act, contain provisions extending, expanding or supplementing the incorporated provisions, but any provisions (other than incorporated provisions) in such an instrument that, but for this subsection, would derogate or have the effect of derogating from the incorporated provisions have no force or effect while the incorporated provisions remain in force.
- (4) Any right or authority granted by the incorporated provisions or any provisions of an

environmental planning instrument extending, expanding or supplementing the incorporated provisions do not apply to or in respect of an existing use which commenced pursuant to a consent of the Minister under section 4.33 to a development application for consent to carry out prohibited development.

**4.68 Continuance of and limitations on other lawful uses** (cf previous s 109)

- (1) Nothing in an environmental planning instrument operates so as to require consent to be obtained under this Act for the continuance of a use of a building, work or land for a lawful purpose for which it was being used immediately before the coming into force of the instrument or so as to prevent the continuance of that use except with consent under this Act being obtained.
- (2) Nothing in subsection (1) authorises—
  - (a) any alteration or extension to or rebuilding of a building or work, or
  - (b) any increase in the area of the use made of a building, work or land from the area actually physically and lawfully used immediately before the coming into operation of the instrument therein mentioned, or

  - (b) the granting of development consent to that use.
- (2) The continuation of a use of a building, work or land that was unlawfully commenced is, and is taken always to have been, development of the land within the meaning of

**4.70 Saving of effect of existing consents** (cf previous s 109B)

Section 2.4(3) also prevents the Minister delegating his or her function under this Division of determining an application for approval to carry out critical State significant infrastructure.

## **Subdivision 2 Environmental assessment and approval of infrastructure**

### **5.14 Minister's approval required for State significant infrastructure** (cf previous s 115W)

- (1) A person is not to carry out development that is State significant infrastructure unless the Minister has approved of the carrying out of the State significant infrastructure under this Division.
- (2) The person is to comply with any conditions to which such an approval is subject.

Maximum penalty—Tier 1 monetary penalty.

### **5.15 Application for approval of State significant infrastructure** (cf previous s 115X)

- (1) The proponent may apply for the approval of the Minister under this Division to carry out State significant infrastructure.

**Note—**

Section 380AA of the *Mining Act 1992* provides that an application in respect of State significant infrastructure for the mining of coal can only be made by or with the consent of the holder of an authority under that Act in respect of coal and the land concerned.

- (2) The application is to—
  - (a) describe the infrastructure, and
  - (b) contain any other matter required by the Planning Secretary.
- (3) The application is to be lodged with the Planning Secretary.

### **5.16 Environmental assessment requirements for approval** (cf previous s 115Y)

- (1) When an application is made for the Minister's approval for State significant infrastructure, the Planning Secretary is to prepare environmental assessment requirements in respect of the infrastructure.
- (2) For the purposes of the environmental assessment, the environmental assessment requirements must require an environmental impact statement to be prepared by or on behalf of the proponent in the form prescribed by the regulations.
- (3) In preparing the environmental assessment requirements, the Planning Secretary is to

consult relevant public authorities and have regard to the need for the requirements to assess any key issues raised by those public authorities.

- (4) The Planning Secretary is to notify the proponent of the environmental assessment requirements. The Planning Secretary may modify those requirements by further notice to the proponent.

**5.17 Environmental assessment and public consultation** (cf previous s 115Z)

- (1) The proponent is to submit to the Planning Secretary the environmental impact statement required under this Subdivision for approval to carry out the State significant infrastructure.
- (2) The Planning Secretary may require the proponent to submit a revised environmental impact statement to address the matters notified to the proponent.
- (3), (4) (Repealed)
- (5) The Planning Secretary is to provide copies of submissions received by the Planning Secretary or a report of the issues raised in those submissions to—
  - (a) the proponent, and
  - (b) if the State significant infrastructure will require an environment protection licence under Chapter 3 of the *Protection of the Environment Operations Act 1997*—the Public Service agency responsible to the Minister for the Environment, and
  - (c) any other public authority the Planning Secretary considers appropriate.
- (6) The Planning Secretary may require the proponent to submit to the Planning Secretary—
  - (a) a response to the issues raised in those submissions, and
  - (b) a preferred infrastructure report that outlines any proposed changes to the State significant infrastructure to minimise its environmental impact or to deal with any other issue raised during the assessment of the application concerned.
- (7) If the Planning Secretary considers that significant changes are proposed to the nature of the State significant infrastructure, the Planning Secretary may make the preferred infrastructure report available to the public.

**5.18 Planning Secretary's environmental assessment report** (cf previous s 115ZA)

- (1) The Planning Secretary is to give a report on the State significant infrastructure to the Minister for the purposes of the Minister's consideration of the application for approval to carry out the infrastructure.
- (2) The Planning Secretary's report is to include—

- (b) any advice provided by public authorities on the State significant infrastructure, and
- (c) a copy of any report or advice of the Independent Planning Commission in respect of the State significant infrastructure, and
- (d) any environmental assessment undertaken by the Planning Secretary or other matter the Planning Secretary considers appropriate.

**5.19 Giving of approval by Minister to carry out project** (cf previous s 115ZB)

(1) If—

- (a) the proponent makes an application for the approval of the Minister under this Division to carry out State significant infrastructure, and
- (b) the Planning Secretary has given his or her report on the State significant infrastructure to the Minister,

the Minister may approve or disapprove of the carrying out of the State significant infrastructure.

(2) The Minister, when deciding whether or not to approve the carrying out of State significant infrastructure, is to consider—

- (a) the Planning Secretary's report on the infrastructure and the reports, advice and recommendations contained in the report, and
- (b) any advice provided by the Minister having portfolio responsibility for the proponent, and
- (c) any findings or recommendations of the Independent Planning Commission following a review in respect of the State significant infrastructure.

(3) State significant infrastructure may be approved under this Division with such modifications of the infrastructure or on such conditions as the Minister may determine.

### **Subdivision 3 Staged infrastructure applications**

**5.20 Staged infrastructure applications** (cf previous s 115ZD)

- (1) For the purposes of this Division, a **staged infrastructure application** is an application for approval of State significant infrastructure under this Division that sets out concept proposals for the proposed infrastructure, and for which detailed proposals for separate parts of the infrastructure are to be the subject of subsequent

applications for approval. The application may set out detailed proposals for the first stage.

- (2) If approval is granted under this Division on the determination of a staged infrastructure application, the approval does not authorise the carrying out of any part of the State significant infrastructure unless—
  - (a) approval is subsequently granted to carry out that part of the infrastructure following a further application for approval in respect of that part of the infrastructure, or
  - (b) the staged infrastructure application also provided the requisite details of that part of the infrastructure and approval is granted for that first stage without the need for further approval.
- (3) The terms of an approval granted on the determination of a staged infrastructure application are to reflect the operation of subsection (2).

**5.21 Status of staged infrastructure applications and approvals** (cf previous s 115ZE)

- (1) The provisions of or made under this or any other Act relating to applications for approval and approvals under this Division apply, except as otherwise provided by or under this or any other Act, to a staged infrastructure application and an approval granted on the determination of any such application.
- (2) An approval granted on the determination of a staged infrastructure application for infrastructure does not have any effect to the extent that it is inconsistent with the determination of any further application for approval in respect of that infrastructure.

**Subdivision 4 Application of other provisions of this and other Acts**

**5.22 Application of other provisions of Act** (cf previous s 115ZF)

- (1) Part 4 and Division 5.1 do not, except as provided by this Division, apply to or in respect of State significant infrastructure (including the declaration of the infrastructure as State significant infrastructure and any approval or other requirement under this Division for the infrastructure).
- (2) Part 3 and environmental planning instruments do not apply to or in respect of State significant infrastructure, except that—
  - (a) they apply to the declaration of infrastructure as State significant infrastructure or as critical State significant infrastructure (and to the declaration of development that does not require consent), and
  - (b) they apply in so far as they relate to section 3.16, and for that purpose a reference in that section to enabling development to be carried out in accordance with an environmental planning instrument or in accordance with a consent

granted under this Act is to be construed as a reference to enabling State significant infrastructure to be carried out in accordance with an approval granted under this Division.

- (3) Divisions 7.1 and 7.2 apply to State significant infrastructure that is not carried out by or on behalf of a public authority (and to the giving of approval for the carrying out of any such infrastructure under this Division) in the same way as they apply to development and the granting of consent to the carrying out of development under Part 4, subject to any necessary modifications and any modifications prescribed by the regulations.
- (4) A development control order cannot be given in relation to critical State significant infrastructure.
- (5) (Repealed)
- (6) Section 6.28 applies to approved State significant infrastructure.

**Note—**

Section 6.33(2) authorises the regulations to apply provisions of Part 6 relating to building and subdivision certification to State significant infrastructure.

**5.23 Approvals etc legislation that does not apply** (cf previous s 115ZG)

- (1) The following authorisations are not required for approved State significant infrastructure (and accordingly the provisions of any Act that prohibit an activity without such an authority do not apply)—

**5.24 Approvals etc legislation that must be applied consistently** (cf previous s 115ZH)

- (1) An authorisation of the following kind cannot be refused if it is necessary for carrying out approved State significant infrastructure and is to be substantially consistent with the approval under this Division—
- (a) an aquaculture permit under section 144 of the *Fisheries Management Act 1994*,
  - (b) an approval under section 15 of the *Mine Subsidence Compensation Act 1961*,
  - (c) a mining lease under the *Mining Act 1992*,

**Note—**

Under section 380A of the *Mining Act 1992*, a mining lease can be refused on the ground that the applicant is not a fit and proper person, despite this section.

- (d) a production lease under the *Petroleum (Onshore) Act 1991*,

**Note—**

Under section 24A of the *Petroleum (Onshore) Act 1991*, a production lease can be refused on the ground that the applicant is not a fit and proper person, despite this section.

## Subdivision 5 Miscellaneous

### 5.25 Modification of Minister's approval (cf previous s 115ZI)

(1) In this section—

**Minister's approval** means an approval to carry out State significant infrastructure under this Division, and includes an approval granted on the determination of a staged infrastructure application.

**modification** of an approval means changing the terms of the approval, including revoking or varying a condition of the approval or imposing an additional condition on the approval.

(2) The proponent may request the Minister to modify the Minister's approval for State significant infrastructure. The Minister's approval for a modification is not required if the infrastructure as modified will be consistent with the existing approval under this Division.

#### Note—

Section 380AA of the *Mining Act 1992* provides that a request for the modification of approval for State significant infrastructure for the mining of coal can only be made by or with the consent of the holder of an authority under that Act in respect of coal and the land concerned.

- (3) The request for the Minister's approval is to be lodged with the Planning Secretary. The Planning Secretary may notify the proponent of environmental assessment requirements with respect to the proposed modification that the proponent must comply with before the matter will be considered by the Minister.
- (4) The Minister may modify the approval (with or without conditions) or disapprove of the modification.

**5.26 Validity of action under this Division** (cf previous s 115Z)

- (1) The validity of an approval or other decision under this Division cannot be questioned in any legal proceedings in which the decision may be challenged except those commenced in the Court within 3 months after public notice of the decision was given.
- (2) The only requirement of this Division that is mandatory in connection with the validity of an approval of State significant infrastructure is a requirement that an environmental impact statement with respect to the infrastructure is made publicly available under this Division.
- (3) Any infrastructure that has been approved (or purports to be approved) by the Minister under this Division is taken to be State significant infrastructure to which this Division applies, and to have been such infrastructure for the purposes of any application or other matter under this Division in relation to the infrastructure.

**5.27 Third-party appeals and judicial review—critical State significant infrastructure** (cf previous s 115ZK)

  - (b) a breach of any conditions of an approval under this Division for critical State significant infrastructure,

- (c) a breach of this or any other Act arising in respect of the giving of an authorisation of a kind referred to in section 5.24(1) for critical State significant infrastructure (or in respect of the conditions of such an authorisation).
- (3) The conditions of approval under this Division for critical State significant infrastructure are conditions that may only be enforced by or with the approval of the Minister (whether under the third-party appeal provisions, the judicial review jurisdiction of the Court or in any other proceedings).
- (4) The third-party appeal provisions and the judicial review jurisdiction of the Court are subject to the provisions of section 5.26.

- (h) providing for public exhibition, notification and public registers of applications for approvals under this Division (or for the modification of approvals) and of the determination of those applications, and

- (i) the effect of the revocation of the declaration of development as State significant infrastructure.

## **Division 5.3 Infrastructure corridors—concurrences and notifications**

### **5.30 Designation of “infrastructure corridors”**

- (1) A State environmental planning policy may designate land to be an infrastructure corridor for the purposes of this Division if it has been set aside for future use as a road, railway, public transit way, electricity transmission line, pipeline or other linear infrastructure.
- (2) Land may not be so designated unless—
  - (a) the land is zoned for that future use under an environmental planning instrument, or
  - (b) the land is identified for that future use under a strategic plan under Division 3.1, or
  - (c) the land is identified in an environmental planning instrument as requiring the concurrence of a public authority before consent is granted to development on the land if the public authority is required to take into account the likely impact of the development on that future use.

### **5.31 Concurrence and notification requirements for activities within infrastructure corridors**

- (1) A State environmental planning policy may require a determining authority to obtain the concurrence of a specified public authority (or to notify a specified public authority) before carrying out an activity, or granting an approval in relation to an activity, within an infrastructure corridor.
- (2) A specified public authority may refuse concurrence if it is satisfied that the activity concerned will unreasonably interfere with the use for which the infrastructure corridor has been set aside (including unreasonably increasing the cost of constructing and operating the infrastructure for that use).
- (3) A determining authority that fails to comply with the requirements of a State environmental planning policy under this Division in relation to an activity is taken not to have complied with its obligations for environmental assessment of the activity under this Part.

### **5.32 Review of decisions to refuse concurrence**

- (1) If the specified public authority refuses concurrence under this Division, the determining authority concerned may seek a review of the refusal—

- (a) if the specified public authority is not a Minister—by the Planning Secretary, or
  - (b) if the specified public authority is a Minister or is the Planning Secretary—by the Minister administering this Act.
- (2) On such a review, the Planning Secretary or the Minister administering this Act may confirm the refusal or act in the place of the specified authority and give concurrence.

with a subdivision under the conditions of a development consent for the subdivision of land. For the purposes of this definition, a development consent includes an approval for State significant infrastructure if the regulations under Part 5 apply this Part to subdivision work under such an approval.

**Note—**

Section 1.4 (Definitions) includes a complying development certificate in the definition of **development consent** for the purposes of this Act.

**6.2 Meaning of “subdivision” of land** (cf previous s 4B)

- (1) For the purposes of this Act, **subdivision** of land means the division of land into 2 or more parts that, after the division, would be obviously adapted for separate occupation, use or disposition. The division may (but need not) be effected—
- (a) by conveyance, transfer or partition, or

### 6.4 Kinds of certificates under this Part (cf previous s 109C)

There are the following kinds of certificates under this Part—

- (a) **construction certificate**—a certificate to the effect that building work completed in accordance with specified plans and specifications or standards will comply with the requirements of the regulations.

See also section 54 of the *Strata Schemes Development Act 2015* for requirement for construction certificate in connection with issue of strata certificate for proposed strata plan.

- (b) **subdivision works certificate**—a certificate to the effect that subdivision work completed in accordance with specified plans and specifications will comply with the

requirements of the regulations.

(c) **occupation certificate**—a certificate that authorises—

- (i) the occupation and use of a new building in accordance with a development consent, or

A compliance certificate may certify strict, substantial or other compliance with a relevant matter.

**Note—**

A complying development certificate is a form of development consent that is issued under Part 4 that authorises the carrying out of complying development. Unlike other development consents, construction certificates or subdivision works certificates are not required for building or subdivision work authorised by a development consent in the form of a complying development certificate.

**6.5 Functions of certifiers (including principal certifiers)** (cf previous s 109E)

- (1) A certifier has the following functions in relation to building work—

  - (c) issuing occupation certificates (but only if the certifier is the principal certifier),
  - (d) issuing compliance certificates (but only if the certifier is the principal certifier when the certificate is an authorised alternative to an occupation certificate).

**Note—**

Section 6.27 requires a principal certifier who issues an occupation certificate to ensure that a building manual is provided to the owner of the building.

- (2) A certifier has the following functions in relation to subdivision work—
- (a) issuing subdivision works certificates for subdivision work,
  - (b) carrying out inspections of subdivision work (but only if the certifier is the principal certifier or the inspection is carried out with the approval of the principal certifier).
- (3) A certifier has the function of issuing subdivision certificates (whether or not the subdivision involves subdivision works), but only if—
- (a) the certifier is a council or is a registered certifier in a case in which an environmental planning instrument authorises a registered certifier to issue the certificate, and
  - (b) in the case of a subdivision that involves subdivision works—the certifier is the principal certifier.
- (4) A certifier also has any other functions conferred or imposed on the certifier under this or any other Act.

**Note—**

A certifier has the function of issuing complying development certificates under Part 4.

- (5) A certifier must not issue a certificate under this Part—
- (a) in any case in which this Part provides that the certificate is not to be issued, or
  - (b) in any case in which the function of issuing the certificate is not conferred on the certifier by this Part.

Maximum penalty—Tier 3 monetary penalty.

- (6) The Minister may provide guidance to certifiers on the exercise of their functions under this Part.

## **Division 6.3 Building work and certificates relating to building**

### **6.6 Requirements before building work commences** (cf previous s 81A)

- (1) A development consent does not authorise building work until a certifier has been appointed as the principal certifier for the work by (or with the approval of) the person having the benefit of the development consent or other person authorised by the regulations.
- (2) The following requirements apply before the commencement of building work in accordance with a development consent—
- (a) the principal certifier has, no later than 2 days before the building work commences, notified the consent authority and the council (if the council is not the consent authority) of his or her appointment as the principal certifier,
  - (b) the principal certifier has, no later than 2 days before the building work commences, notified the person having the benefit of the development consent of any inspections that are required to be carried out in respect of the building work,

## **Subdivision 2 Planning agreements**

### **7.4 Planning agreements** (cf previous s 93F)

  - (a) who has sought a change to an environmental planning instrument, or
  - (b) who has made, or proposes to make, a development application or application for a complying development certificate, or
  - (c) who has entered into an agreement with, or is otherwise associated with, a person

to whom paragraph (a) or (b) applies,

under which the developer is required to dedicate land free of cost, pay a monetary contribution, or provide any other material public benefit, or any combination of them, to be used for or applied towards a public purpose.

- (2) A public purpose includes (without limitation) any of the following—

    - (ii) the development to which the agreement applies,
  - (c) the nature and extent of the provision to be made by the developer under the agreement, the time or times by which the provision is to be made and the manner by which the provision is to be made,

- (4) A provision of a planning agreement in respect of development is not invalid by reason only that there is no connection between the development and the object of expenditure of any money required to be paid by the provision.

**Note—**

See section 7.3(1), which requires money paid under a planning agreement to be applied for the purpose for which it was paid within a reasonable time.

- (5) If a planning agreement excludes the application of section 7.11 or 7.12 to particular development, a consent authority cannot impose a condition of development consent in respect of that development under either of those sections (except in respect of the application of any part of those sections that is not excluded by the agreement).
- (5A) A planning authority, other than the Minister, is not to enter into a planning agreement excluding the application of section 7.24 without the approval of—
- (a) the Minister, or
  - (b) a development corporation designated by the Minister to give approvals under this subsection.
- (6) If a planning agreement excludes benefits under a planning agreement from being taken into consideration under section 7.11 in its application to development, section 7.11(6) does not apply to any such benefit.
- (7) Any Minister, public authority or other person approved by the Minister is entitled to be an additional party to a planning agreement and to receive a benefit under the agreement on behalf of the State.
- (8) A council is not precluded from entering into a joint planning agreement with another council or other planning authority merely because it applies to any land not within, or any purposes not related to, the area of the council.
- (9) A planning agreement cannot impose an obligation on a planning authority—
- (a) to grant development consent, or
  - (b) to exercise any function under this Act in relation to a change to an environmental planning instrument.
- (10) A planning agreement is void to the extent, if any, to which it requires or allows anything to be done that, when done, would breach this section or any other provision of this Act, or would breach the provisions of an environmental planning instrument or a development consent applying to the relevant land.

- (11) A reference in this section to a change to an environmental planning instrument includes a reference to the making or revocation of an environmental planning instrument.

**7.5 Information about planning agreements** (cf previous s 93G)

- (1) A planning agreement cannot be entered into, and a planning agreement cannot be amended or revoked, unless public notice has been given of the proposed agreement, amendment or revocation, and a copy of the proposed agreement, amendment or revocation has been available for inspection by the public for a period of not less than 28 days.
- (2) The regulations may provide for the public notice to be given under subsection (1) and may provide that it may be given contemporaneously with, in association with, or as part of, any other public notice or public notification that is required to be given of any matter relevant to the planning agreement.
- (3) If the Minister is not a party to a planning agreement, the relevant planning authority that is a party to the agreement must provide to the Minister—

  - (b) if the agreement is amended, a copy of the amendment within 14 days after the amendment is made, and
  - (c) if the agreement is revoked, notice of the revocation within 14 days after the revocation occurs.
- (5) A planning authority that has entered into one or more planning agreements must, while any such planning agreements remain in force, include in its annual report particulars of compliance with and the effect of the planning agreements during the year to which the report relates.

**7.6 Registered planning agreements to run with land** (cf previous s 93H)

- (1) A planning agreement can be registered under this section if the following persons

agree to its registration—

  - (b) if the agreement relates to land not under the *Real Property Act 1900*—each person who is seized or possessed of an estate or interest in the land.
- (2) On lodgment by or on behalf of a planning authority of an application for registration in a form approved by the Registrar-General, the Registrar-General is to register the planning agreement—
- (a) by making an entry in the relevant folio of the Register kept under the *Real Property Act 1900* if the agreement relates to land under that Act, or
  - (b) by registering the agreement in the General Register of Deeds if the agreement relates to land not under the *Real Property Act 1900*.
- (3) A planning agreement that has been registered by the Registrar-General under this section is binding on, and is enforceable against, the owner of the land from time to time as if each owner for the time being had entered into the agreement.
- (4) A reference in this section to a planning agreement includes a reference to any amendment or revocation of a planning agreement.

**7.7 Circumstances in which planning agreements can or cannot be required to be made** (cf previous s 93I)

- (1) A provision of an environmental planning instrument (being a provision made after the commencement of this section)—
  - (a) that expressly requires a planning agreement to be entered into before a development application or application for a complying development certificate can be made, considered or determined, or
  - (b) that expressly prevents a development consent from being granted or having effect unless or until a planning agreement is entered into,has no effect.
- (2) A consent authority cannot refuse to grant development consent on the ground that a planning agreement has not been entered into in relation to the proposed development or that the developer has not offered to enter into such an agreement.
- (3) However, a consent authority can require a planning agreement to be entered into as a condition of a development consent, but only if it requires a planning agreement that is in the terms of an offer made by the developer in connection with—
  - (a) the development application or application for a complying development

certificate, or

- (b) a change to an environmental planning instrument sought by the developer for the purposes of making the development application or application for a complying development certificate,

or that is in the terms of a commitment made by the proponent in a statement of commitments made under Part 3A.

- (4) In this section, **planning agreement** includes any agreement (however described) containing provisions similar to those that are contained in an agreement referred to in section 7.4.

### **7.8 Jurisdiction of Court with respect to planning agreements** (cf previous s 93J)

- (1) A person cannot appeal to the Court under this Act against the failure of a planning authority to enter into a planning agreement or against the terms of a planning agreement.
- (2) This section does not affect the jurisdiction of the Court under section 9.45.

### **7.9 Determinations or directions by Minister** (cf previous s 93K)

- (c) the making, amendment and revocation of planning agreements, including the giving of public notice and inspection by the public,
- (d) the public inspection of planning agreements after they have been made.

## **Subdivision 3 Local infrastructure contributions**

**7.11 Contribution towards provision or improvement of amenities or services** (cf previous s 94)

- (1) If a consent authority is satisfied that development for which development consent is sought will or is likely to require the provision of or increase the demand for public amenities and public services within the area, the consent authority may grant the development consent subject to a condition requiring—
  - (a) the dedication of land free of cost, or
  - (b) the payment of a monetary contribution,or both.
- (2) A condition referred to in subsection (1) may be imposed only to require a reasonable dedication or contribution for the provision, extension or augmentation of the public amenities and public services concerned.
- (3) If—
  - (a) a consent authority has, at any time, whether before or after the date of commencement of this Part, provided public amenities or public services within the area in preparation for or to facilitate the carrying out of development in the area, and
  - (b) development for which development consent is sought will, if carried out, benefit from the provision of those public amenities or public services,the consent authority may grant the development consent subject to a condition requiring the payment of a monetary contribution towards recoupment of the cost of providing the public amenities or public services (being the cost as indexed in accordance with the regulations).
- (4) A condition referred to in subsection (3) may be imposed only to require a reasonable contribution towards recoupment of the cost concerned.
- (5) The consent authority may accept—
  - (a) the dedication of land in part or full satisfaction of a condition imposed in accordance with subsection (3), or
  - (b) the provision of a material public benefit (other than the dedication of land or the payment of a monetary contribution) in part or full satisfaction of a condition imposed in accordance with subsection (1) or (3).
- (6) If a consent authority proposes to impose a condition in accordance with subsection (1) or (3) in respect of development, the consent authority must take into consideration any land, money or other material public benefit that the applicant has

elsewhere dedicated or provided free of cost within the area (or any adjoining area) or previously paid to the consent authority, other than—

- (a) a benefit provided as a condition of the grant of development consent under this Act, or
- (b) a benefit excluded from consideration under section 7.4(6).

(7) If—

- (a) a condition imposed under subsection (1) or (3) in relation to development has been complied with, and
- (b) a public authority would, but for this subsection, be entitled under any other Act to require, in relation to or in connection with that development, a dedication of land or payment of money in respect of the provision of public amenities or public services or both,

then, despite that other Act, compliance with the condition referred to in paragraph (a) is taken to have satisfied the requirement referred to in paragraph (b) to the extent of the value (determined, if the regulations so provide, in accordance with the regulations) of the land dedicated or the amount of money paid in compliance with the condition.

#### **7.12 Fixed development consent levies** (cf previous s 94A)

- (1) A consent authority may impose, as a condition of development consent, a requirement that the applicant pay a levy of the percentage, authorised by a contributions plan, of the proposed cost of carrying out the development.

  - (b) a development corporation designated by the Minister to give approvals under this subsection.
- (3) Money required to be paid by a condition imposed under this section is to be applied towards the provision, extension or augmentation of public amenities or public services (or towards recouping the cost of their provision, extension or augmentation). The application of the money is subject to any relevant provisions of the contributions plan.
- (4) A condition imposed under this section is not invalid by reason only that there is no

connection between the development the subject of the development consent and the object of expenditure of any money required to be paid by the condition.

- (5) The regulations may make provision for or with respect to levies under this section, including—
  - (a) the means by which the proposed cost of carrying out development is to be estimated or determined, and
  - (b) the maximum percentage of a levy.

**7.13 Section 7.11 or 7.12 conditions subject to contributions plan** (cf previous s 94B)

- (1) A consent authority may impose a condition under section 7.11 or 7.12 only if it is of a kind allowed by, and is determined in accordance with, a contributions plan (subject to any direction of the Minister under this Division).
- (2) However, in the case of a consent authority other than a council—
  - (a) the consent authority may impose a condition under section 7.11 or 7.12 even though it is not authorised (or of a kind allowed) by, or is not determined in accordance with, a contributions plan, but
  - (b) the consent authority must, before imposing the condition, have regard to any contributions plan that applies to the whole or any part of the area in which development is to be carried out.
- (3) A condition under section 7.11 that is of a kind allowed by a contributions plan (or a direction of the Minister under this Division) may be disallowed or amended by the Court on appeal because it is unreasonable in the particular circumstances of that case, even if it was determined in accordance with the relevant contributions plan (or direction). This subsection does not authorise the Court to disallow or amend the contributions plan or direction.
- (4) A condition under section 7.12 that is of a kind allowed by, and determined in accordance with, a contributions plan (or a direction of the Minister under this Division) may not be disallowed or amended by the Court on appeal.

- (2) Any monetary contribution that is required to be paid under any such condition is to be apportioned among the relevant councils—
  - (a) in accordance with any joint or other contributions plan approved by those

councils, or

(b) if provision is not made for the apportionment in any such plan—in accordance with the terms of the development consent for the development.

- (2) A consent authority to which a direction is given under this section must comply with the direction in accordance with its terms.
- (3) A consent authority must not, in granting development consent in relation to which a direction under this section applies, impose a condition that is not in accordance with the terms of the direction, despite the other provisions of this Division and despite the provisions of any contributions plan.

**7.18 Contributions plans—making** (cf previous s 94EA)

- (1) A council, or two or more councils, may, subject to and in accordance with the regulations, prepare and approve a contributions plan for the purpose of imposing conditions under this Division (other than Subdivision 4).
- (2) If a contributions plan authorises the imposition of conditions under section 7.12, the

plan is to specify the type or area of development in respect of which a condition under section 7.12 may be imposed and is to preclude the imposition of a condition under section 7.11 in respect of that type or area of development.

- (2A) A contributions plan does not authorise the imposition of a condition under section 7.11 on a grant of development consent if the public amenities or public services to which that condition relates are, in whole or in part, infrastructure provided, or to be provided, in relation to the development out of contributions collected under Subdivision 4.
- (3) The regulations may make provision for or with respect to the preparation and approval of contributions plans, including the format, structure and subject-matter of plans.

#### **7.21 Contributions plans—complying development** (cf previous s 94EC)

- (1) In relation to an application made to a registered certifier for a complying development certificate, a contributions plan—
  - (a) is to specify whether or not the registered certifier must, if a complying development certificate is issued, impose a condition under section 7.11 or 7.12, and

  - (c) must specify the amount of the monetary contribution or levy that a registered certifier must so impose or the precise method by which the amount is to be determined.
- (1A) The imposition of a condition by a registered certifier as authorised by a contributions plan is subject to compliance with any directions given under section 7.17(1)(a), (b) or (d) with which a council would be required to comply if issuing the complying development certificate concerned.
- (2) This section does not limit anything for which a contributions plan may make provision in relation to a consent authority.
- (3) The regulations may make provision for or with respect to anything for which a contributions plan may make provision under this section (being provisions that apply despite anything to the contrary in the contributions plan). - but does not include a reference to water supply or sewerage services.
- (2) Subject to section 7.23(2)(c), infrastructure may be regarded as being provided in relation to development whether or not the infrastructure is provided on land within a special contributions area or within New South Wales.

**7.23 Minister to determine development contributions** (cf previous s 94EE)

- (1) The Minister is, subject to the regulations (if any), to determine the level and nature of development contributions to be imposed as conditions under this Subdivision for the provision of infrastructure in relation to a development or a class of development.
- (1A) This section extends to complying development. In that case, a reference in this Subdivision to the consent authority includes a reference to a certifier.
- (2) In determining the level and nature of development contributions—
- (a) the Minister is, as far as reasonably practicable, to make the contribution reasonable having regard to the cost of the provision of infrastructure in relation to the development or class of development, and
  - (b) if the cost of that infrastructure exceeds \$30 million—the Minister is to consult the Treasurer, and

- (b1) the Minister may take into account infrastructure (including land for infrastructure) provided or required to be provided under a planning agreement in order to ensure the fair apportionment of the cost of the provision of infrastructure across the special contributions area, and
  - (c) the Minister is not to take into account infrastructure provided on land other than that within the relevant special contributions area, unless, in the opinion of the Minister, the provision of the infrastructure on such land arises as a result of the development or as a result of a class of development of which the development forms a part.
- (3) Despite subsection (2), the Minister may, if he or she sees fit, determine the level and nature of development contributions in the form of a levy of a percentage of the proposed cost of carrying out development or any class of development. The Minister may also determine the level and nature of development contributions in the form of the carrying out of works or the supply of land for the provision of the infrastructure.
- (3A) The determination of the Minister is to identify what part (if any) of a development contribution, that is to be imposed as a condition under this Subdivision, is for the provision of infrastructure by a council or for any one or more of the matters set out in section 7.22(1)(d).
- (3B) Any part of a development contribution identified in accordance with subsection (3A)—

  - (c) is, if the part is identified as being for the provision of infrastructure by a council, to be provided to the council and is to be held and applied by the council in accordance with section 7.3, and
  - (d) is, if the part is identified as being for any one or more of the matters set out in section 7.22(1)(d), to be provided to the Department and is to be held and applied by the Department in accordance with section 7.3.
- (4) In determining the level and nature of development contributions to be imposed as conditions under this Subdivision for development within a particular special contributions area (other than a growth centre), the Minister is to do one or more of the following—
- (a) consult with owners of land in the special contributions area and other relevant stakeholders,

- (b) publicly exhibit a proposal in relation to the level of development contributions and seek submissions within a reasonable time in relation to that proposal,
  - (c) establish a panel that, in the Minister's opinion, represents the interests of the various relevant stakeholders and consult with that panel.

- (a) is to contain reasons for the level and nature of the development contributions, and
    - (a1) may contain provisions relating to the timing of the making of development contributions, and
    - (b) is to be made publicly available by the Minister.

**7.24 Special infrastructure contributions** (cf previous s 94EF)

- (1) The Minister may direct a consent authority to impose a condition on the grant of development consent in relation to development within a special contributions area to which a determination under section 7.23 applies for the purpose of giving effect to the determination.
- (1A) The direction may set out the terms of the condition that is to be imposed, including the following—

- (2) If an appeal under this Division is discontinued, the consent is revived on the discontinuation of the appeal.

- (4) If the effect of a decision on appeal is that development consent is refused, any development consent granted ceases to have effect.

- (2) The decision of the Court on an appeal under this Division is, for the purposes of this or any other Act or instrument, taken to be the final decision of that consent authority and is to be given effect to accordingly.
- (3) If the consent authority was under this Act required to consult or obtain the concurrence of another person or body before making the decision the subject of an appeal under this Division—
  - (a) the Court may determine the appeal whether or not the consultation has taken place and whether or not the concurrence has been granted, and
  - (b) in a case where the concurrence has been granted—the Court may vary or revoke any conditions imposed by that person or body or may impose any conditions that could have been imposed by that person or body.
- (4) If an appeal under this Division relates to integrated development—
  - (a) the Court may determine the appeal whether or not the consent authority has obtained general terms of approval from each relevant approval body, and
  - (b) the Court is not bound to refuse an application for development consent because a relevant approval body has decided that general terms of approval will not be determined or has decided not to grant a relevant approval, and
  - (c) the Court may determine an appeal even though a development consent granted as a result of the appeal is inconsistent with the general terms of approval of a relevant approval body.

(ii) it is in the public interest,

that the person be joined as a party to the appeal.

This subsection does not apply to proceedings to which section 34AA of the *Land and Environment Court Act 1979* applies.
- (4) If the determination or decision appealed against under this Division was made by a Sydney district or regional planning panel or a local planning panel, the council for the area concerned is to be the respondent to the appeal but is subject to the control and direction of the panel in connection with the conduct of the appeal. The council is to give notice of the appeal to the panel.

- (1) Where the Court is satisfied that a breach of this Act has been committed or that a breach of this Act will, unless restrained by order of the Court, be committed, it may make such order as it thinks fit to remedy or restrain the breach.
- (2) Without limiting the powers of the Court under subsection (1), an order made under that subsection may—
  - (a) where the breach of this Act comprises a use of any building, work or land—restrain that use,
  - (b) where the breach of this Act comprises the erection of a building or the carrying out of a work—require the demolition or removal of that building or work, or
  - (c) where the breach of this Act has the effect of altering the condition or state of any building, work or land—require the reinstatement, so far as is practicable, of that building, work or land to the condition or state the building, work or land was in immediately before the breach was committed.
- (3) Where a breach of this Act would not have been committed but for the failure to obtain a consent under Part 4, the Court, upon application being made by the defendant, may—
  - (a) adjourn the proceedings to enable a development application to be made under Part 4 to obtain that consent, and
  - (b) in its discretion, by interlocutory order, restrain the continuance of the commission of the breach while the proceedings are adjourned.
- (4) The functions of the Court under this Division are in addition to and not in derogation from any other functions of the Court.
- (5) Nothing in this section affects the provisions of Division 3 of Part 3 of the *Land and Environment Court Act 1979*.

#### **9.47 Evidence of use of premises as backpackers' hostel** (cf previous s 124AA)

- (1) This section applies to proceedings before the Court under this Act to remedy or

restrain a breach of this Act in relation to the use of premises as a backpackers' hostel.

- (2) In any proceedings to which this section applies, the Court may rely on circumstantial evidence to find that particular premises are used as a backpackers' hostel.

**Note—**

Examples of circumstantial evidence include (but are not limited to) the following—

- (a) evidence relating to persons entering and leaving the premises (including the depositing of luggage) that is consistent with the use of the premises for a backpackers' hostel,

**9.48 Proceedings relating to use of premises as brothel** (cf previous s 124AB)

- (1) **Application** This section applies to proceedings before the Court to remedy or restrain a breach of this Act in relation to the use of premises as a brothel. Subsections (5) and (6) extend to any such proceedings in relation to all brothels within the meaning of the [Restricted Premises Act 1943](#).
- (2) **Adjournments to obtain consent only in exceptional circumstances** The Court may not adjourn the proceedings under section 9.46(3) unless it is of the opinion that the adjournment is justified because of the exceptional circumstances of the case. The fact that it is intended to lodge a development application, or that a development application has been made, is not by itself an exceptional circumstance.
- (3) **Time for making development application limited to 10 days** If the Court adjourns the proceedings under section 9.46(3), the proceedings must be brought back before the Court if a development application is not made within 10 working days of the adjournment.
- (4) **Only one adjournment** The Court may make only one adjournment under section 9.46(3) of particular proceedings.
- (5) **Finding may be made on circumstantial evidence** In any proceedings—
  - (a) the Court may rely on circumstantial evidence to find that particular premises are used as a brothel, and
  - (b) the Court may make such a finding without any direct evidence that the particular premises are used as a brothel.

- (6) However, the presence in any premises of articles or equipment that facilitate or encourage safe sex practices does not of itself constitute evidence of any kind that the premises are used as a brothel.

**Note—**

Examples of circumstantial evidence include (but are not limited to) the following—

- (a) evidence relating to persons entering and leaving the premises (including number, gender and frequency) that is consistent with the use of the premises for prostitution,

- (c) evidence of information in books and accounts that is consistent with the use of the premises for prostitution,

**9.49 Special provision where development consent tainted by corruption** (cf previous s 124A)

- (1) For the purposes of this section, a decision of a consent authority to grant or modify a development consent is tainted by corrupt conduct—
  - (a) if the Independent Commission Against Corruption, in a report referred to in section 74C of the *Independent Commission Against Corruption Act 1988*, recommends that consideration be given to the suspension of the development consent or modification with a view to its revocation because of serious corrupt conduct by the consent authority or by a councillor or other officer or member of staff of the consent authority in connection with the grant of the consent or modification, or
  - (b) if criminal proceedings are instituted against the consent authority or against a councillor or other officer or member of staff of the consent authority for serious corrupt conduct in connection with the grant of the consent or modification, or
  - (c) if the consent authority, councillor or other officer or member of staff makes an admission of such serious corrupt conduct.
- (2) A breach of this Act that may be remedied or restrained in proceedings instituted under this Division includes a decision of a consent authority to grant or modify a development consent that is tainted by corrupt conduct.
- (3) If a decision of a consent authority to grant or modify a development consent is tainted by corrupt conduct, the Minister may, without prior notice or inquiry, suspend the decision pending the institution and determination of proceedings under this Division in respect of the decision. The Minister is to give the consent authority and the applicant for the grant or modification of the development consent written notice of the suspension as soon as practicable after it is imposed.

- (4) A suspension imposed by the Minister may be lifted by the Minister at any time and is taken to be lifted if the proceedings concerned are not instituted within 6 months after the suspension is imposed.
- (5) The Court may, in proceedings to which this section applies, suspend the decision of a consent authority to grant or modify a development consent pending the determination of the proceedings. The Court may lift a suspension imposed by the Minister under this section.
- (6) The Court may, in proceedings to which this section applies, revoke the decision of a consent authority to grant or modify a development consent if—
  - (a) the decision is tainted by corrupt conduct, and
  - (b) the Court is satisfied that the revocation of the decision will not significantly disadvantage any person affected by the decision who was not a party to the corrupt conduct.

The Court retains its discretion in proceedings to which this section applies as to whether to revoke a decision that is tainted by corrupt conduct.

- (7) A development consent for the erection of a building, the carrying out of a work or the demolition of a building or work (or a modification of any such consent) is not to be suspended or revoked under this section if the building, work or demolition authorised by the consent (or by the modification) has been substantially commenced.
- (8) Section 4.59 does not apply to proceedings to which this section applies.
- (9) Compensation is not payable by the Minister or the State for any loss suffered by a person because—

  - (b) a decision is revoked under this section.
- (10) This section applies—
  - (a) to decisions made by a consent authority before or after the commencement of this section, and

(1)-(3) (Repealed)

(3A) A person who—

- (a) aids, abets, counsels or procures another person to commit, or
- (b) conspires to commit,

an offence against this Act or the regulations arising under any other provision is guilty of an offence against this Act or the regulations arising under that provision and is liable, on conviction, to the same penalty applicable to an offence arising under that provision.

- (4) It is a sufficient defence to a prosecution for an offence that arises from the failure to comply with a development control order if the defendant satisfies the court that the defendant was unaware of the fact that the matter in respect of which the offence arose was the subject of an order.
- (5) Unless the context otherwise requires, a requirement under this Act or the regulations that must be complied with by a particular time, or within a particular period, continues after the time has expired or the period ended, and so must still be complied with.

### 9.51 Maximum monetary penalty—Tier 1, Tier 2 or Tier 3

If **Tier 1**, **Tier 2** or **Tier 3** is specified as the maximum monetary penalty at the end of a provision (or a number of provisions) of this Act, a person who contravenes or fails to comply with that provision (or those provisions) is guilty of an offence and liable to a monetary penalty not exceeding the relevant penalty specified in the following sections.   - (b) that the offence—
    - (i) caused or was likely to cause significant harm to the environment, or
    - (ii) caused the death of or serious injury or illness to a person.

For the Tier 1 maximum monetary penalty to apply, the court attendance notice or application commencing the proceedings must allege that those factors apply to the commission of the offence.

- (3) If a Tier 1 maximum monetary penalty is specified in this Act but does not apply because of subsection (2), then a Tier 2 maximum penalty applies instead.
- (4) If a period of imprisonment is also specified, the person is also liable to imprisonment not exceeding the period so specified.

**9.53 Maximum penalty—Tier 2** (cf previous s 125B)

- (1) If **Tier 2** is specified as the maximum penalty at the end of a provision (or a number of provisions) of this Act, a person who contravenes or fails to comply with that provision (or those provisions) is guilty of an offence and liable to a penalty not exceeding—

- (2) If a period of imprisonment is also specified, the person is also liable to imprisonment not exceeding the period so specified.

paragraph (a).

- (4) In determining the sentence for a person who has previously been found guilty of an offence that arises from a failure to comply with a brothel closure order within the meaning of Part 3 of Schedule 5 or the unlawful use of premises for the purposes of a brothel, a court must take into account the fact of the previous offence as an aggravating factor and is, accordingly, to impose a higher sentence than it would otherwise impose.

- (1) Proceedings for an offence against this Act may be taken before the Local Court or before the Court in its summary jurisdiction.
- (2) Proceedings for an offence against the regulations may be taken before the Local Court.

In this subsection, **investigation officer** means an investigation officer within the meaning of Division 9.2, whether or not the person has the functions of an

investigation officer in connection with the offence concerned.

- (5B) If subsection (5A) is relied on for the purpose of commencing proceedings for an offence, the information or application must contain particulars of the date on which evidence of the offence first came to the attention of any such investigation officer and need not contain particulars of the date on which the offence was committed. The date on which evidence first came to the attention of any such investigation officer is the date specified in the information or application, unless the contrary is established.

- (6) (Repealed)
- (7) A person shall not be convicted of an offence against this Act or the regulations where the matter constituting the offence is, at the date upon which the conviction would, but for this subsection, be made—

  - (b) the subject of an order made under section 9.46.

- (4) If the amount of penalty prescribed for an alleged offence is paid under this section, no person is liable to any further proceedings for the alleged offence.

- (5) Payment under this section is not regarded as an admission of liability for the purpose of, and does not in any way affect or prejudice, any civil claim, action or proceeding arising out of the same occurrence.
- (6) The regulations may—
